PROXY STATEMENT

This Proxy Statement is furnished by our Board of Directors for the solicitation of proxies from the holders of our common stock in connection with the annual meeting of shareholders to be held at our offices located at 345 Bobwhite Court, Suite 200 Boise, Idaho 83706, on Tuesday, September 19, 2006, at 9:00 a.m. MDT, and at any adjournment thereof. It is expected that the Notice of Annual Meeting of Shareholders, our Annual Report on Form 10-KSB of the Securities and Exchange Commission for fiscal year ended March 31, 2006, this Proxy Statement, and the accompanying Proxy card will be mailed to shareholders starting on or about August 25, 2006.

Voting Procedures.

The presence in person or by proxy of a majority of the voting power at the Annual Meeting is required to constitute a quorum for the transaction of business at the Annual Meeting. Abstentions and broker non-votes will be considered represented at the Annual Meeting for the purpose of determining a quorum. The shares represented by each proxy will be voted in accordance with the instructions given therein. Where no instructions are indicated, the proxy will be voted in favor of all matters to be voted on as set forth in the proxy and, at the discretion of the persons named in the proxy, on any other business that may properly come before the Annual Meeting. Each stockholder will be entitled to one vote for each share of common stock held and will not be entitled to cumulate votes in the election of directors. Shares that are authorized but not yet issued will not be entitled to vote at the Annual Meeting.

Shareholders can ensure that their shares are voted at the annual meeting by signing, dating and returning the accompanying proxy card in the self-addressed, stamped envelope provided. The submission of a signed Proxy will not affect a shareholder's right to attend the annual meeting and vote in person. Shareholders who execute proxies retain the right to revoke them at any time before they are voted by filing with the Secretary of the Company a written revocation or a Proxy bearing a later date at the corporate address. The presence at the annual meeting of a shareholder who has signed a proxy does not, by itself, revoke that Proxy unless the shareholder attending the annual meeting files a written notice of revocation of the Proxy with the Secretary of the Company at any time prior to the voting of the Proxy at the meeting.

Proxies will be voted as specified by the shareholders. Where specific choices are not indicated, proxies will be voted FOR the election of each item so presented.

The Board of Directors knows of no other matters to be presented for shareholder action at the annual meeting. If any other matters properly come before the annual meeting, the persons named as proxies will vote on such matters in their discretion.

The expense of printing and mailing Proxy materials, including expenses involved in forwarding Proxy materials to beneficial owners of common stock held in the name of another person, will be paid by us. No solicitation,

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

other than by mail, is currently planned.

Only shareholders of record at the close of business on Monday, August 14, 2006 (this date is referred to as the "record date"), are entitled to receive notice of and to vote the shares of common stock registered in their name at the annual meeting. As of the record date, we had 30,873,238 shares of our common stock outstanding. Each share of common stock entitles its holder to cast one vote on each matter to be voted upon at the annual meeting.

Under Idaho law, the Idaho Business Corporation Act requires the presence of a quorum to conduct business at the annual meeting. A quorum is defined as the presence, either in person or by proxy, of a majority of the outstanding shares of common stock entitled to vote at the annual meeting. The shares represented at the annual meeting by Proxies that are marked "withhold authority" will be counted as shares present for the purpose of determining whether a quorum is present. Broker non-votes (i.e., Proxies from brokers or nominees indicating that such persons have not received instructions from beneficial owners to vote shares as to a matter with respect to which the brokers or nominees do not have discretionary power to vote) will also be counted as shares present for purposes of determining a quorum.

Directors are elected by the affirmative vote of a plurality of the shares of common stock present, either in person or by proxy, at the annual meeting and entitled to vote. For this purpose, "plurality" means that the individuals receiving the largest number of votes are elected as directors, up to the maximum number of directors to be chosen at the election. In the election of directors, votes may be cast in favor or withheld. Votes that are withheld and broker non-votes will have no effect on the outcome of the election of directors.

The Company's Board of Directors has unanimously adopted resolutions approving and recommending to the Company's shareholders, for their approval, Second Amended and Restated Articles of Incorporation that include certain amendments of the Company's current Articles of Incorporation. The Board has determined that each of these amendments should be included in a separate proposal for shareholder consideration, as described below in Proposals Nos. 3, 4, 5, and 6. The proposed amendments, if approved by the shareholders, would:

- * increase the number of authorized shares of common stock of the Company from 40,000,000 shares to 60,000,000 shares of common stock as described in Proposal Nos. 3 and 5;
- * designate a series of preferred stock consisting of 5,000,000 shares with certain rights and preferences as described in Proposal No. 4;
- * increase the number of authorized shares of preferred stock from 10,000,000 shares to 20,000,000 shares of preferred stock undesignated as to class or series; and to authorize and vest in the Board of Directors the authority, without shareholder approval, to classify or reclassify, from time to time, any unissued shares of the Company's authorized stock into one or more classes or into one or more series within one or more classes (the "Blank Check Authorization"), as described in Proposal No. 5; and
- * add a provision allowing the Board to limit waiver and amendments of certain rights, warrants, and options as described in Proposal No. 6.

The proposed amendments of the Company's Articles of Incorporation are set forth in the Second Amended and Restated Articles of Incorporation attached as Exhibit A. The current provisions and proposed amendments described below are qualified in their entirety by reference to the actual text as set forth in Exhibit A.

A majority of the outstanding shares of the Company entitled to vote,

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

represented in person or by proxy, constitute a quorum at the Annual Meeting of shareholders. If a quorum is present at the Annual Meeting, each of Proposal Nos. 3, 4, 5, and 6 will be approved if the votes cast in favor of such proposal exceed the votes cast against such proposal. Broker non-votes will have no effect on the outcome of the shareholder vote on Proposal Nos. 2-6.

Effective Dates

The election of directors and appointment of HJ & Associates as our auditors, if approved by the shareholders, will be effective immediately following the annual meeting. Amendments of our articles of incorporation approved by the shareholders at the annual meeting will become effective upon filing Second Amended and Restated Articles of Incorporation with the Idaho Secretary of State following the Annual Meeting. If a quorum is present at the Annual Meeting, each of Proposal Nos. 3, 4, 5, and 6 will be approved if the votes cast in favor of such proposal exceed the votes cast against such proposal. Broker non-votes will have no effect on the outcome of the shareholder vote on Proposal Nos. 2-6.

He is a graduate of the University of Idaho with a degree in Finance and has completed the Program for Management Development at the Harvard Business School.

Committees.

Audit Committee: We chartered an audit committee in 2001 for the purpose of engaging HJ & Associates, LLC for the annual audit. The audit committee currently consists of Board members, Michael K. McMurray and Cecil D. Andrus. Mr. McMurray is considered an audit committee financial expert based on his previous work experience and the definition contained in Reg. 228.401 Instructions to paragraph (e)(1) of Item 401 of the Sarbanes/Oxley Act. The audit committee continued to implement the formal policy regarding the scope, responsibilities and length of service for the audit committee adopted fiscal year 2005. The audit committee did not hold any formal meetings during fiscal year 2006, but did discuss auditing issues via telephone conference.

Compensation Committee: We adopted a compensation committee during fiscal year 2004 for the purpose of regulating management's compensation, as well as any incentive plans proposed by the Company. The compensation committee currently consists of Board members, Cecil D. Andrus and Donald J. Farley. The compensation committee held one (1) meeting during fiscal year 2006.

Nominating or Governance Committee: PCS does not have standing nominating or governance committee or a charter with respect to the process for nominations to our Board of Directors. Currently, our directors submit nominations for election to fill vacancies on the Board to the entire Board for its consideration.

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

Our Bylaws do not contain any provision addressing the process by which a stockholder may nominate an individual to stand for election to the Board of Directors, and we do not have any formal policy concerning stockholder recommendations to the Board of Directors. To date, we have not received any recommendations from non-affiliate stockholders requesting that the Board consider a candidate for election to the Board. However, the absence of such a policy does not mean that the Board of Directors would not consider any such recommendation, had one been received. The Board would consider any candidate proposed in good faith by a stockholder. To do so, a stockholder should send the candidate's name, credentials, contact information and his or her consent to be considered as a candidate to the Chairman of the Board, Anthony A. Maher. The proposing stockholder should also include his or her contact information and a statement of his or her share ownership in the Company (how many shares owned and for how long).

4

In evaluating potential directors, Mr. Maher and the Board consider the following factors:

- * the appropriate size of our Board of Directors;
- * our needs with respect to the particular talents and experience of our directors;
- * the knowledge, skills and experience of nominees, including experience in finance, administration, or public service, in light of prevailing business conditions and the knowledge, skills and experience already possessed by other members of the Board;
- * familiarity with the educational industry;
- * experience with accounting rules and practices; and
- * the desire to balance the benefit of continuity with the periodic injection of the fresh perspective provided by new Board members.

Our goal is to assemble a Board of Directors that brings together a variety of perspectives and skills derived from high quality business and professional experience. In doing so, Mr. Maher and the Board will also consider candidates with appropriate non-business backgrounds.

Other than the foregoing, there are no stated minimum criteria for director nominees, although Mr. Maher and the Board of Directors may also consider such other factors as they may believe are in the best interests of PCS and our shareholders.

Mr. Maher and the Board of Directors identify nominees by first evaluating the current members of the Board willing to continue in service. Current members of the Board with skills and experience that are relevant to our business and who are willing to continue in service are considered for re-election. If any member of the Board does not wish to continue in service or if we decide not to re-nominate a member for re-election, we then identify the desired skills and experience of a new nominee in light of the criteria above. Current members of the Board of Directors are polled for suggestions as to individuals meeting the criteria described above. The Board may also engage in research to identify qualified individuals. To date, we have not engaged third parties to identify or evaluate or assist in identifying potential nominees, although we reserve the right in the future to retain a third party search firm, if necessary.

Our Board of Directors does not have a formal process for security holders to send communications to the Board. However, our directors take great interests in the concerns of stockholders. In addition, our directors

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

review and give careful consideration to any and all stockholder communications. Security holder communications may be sent to: Board of Directors, PCS Edventures!.com, Inc., 345 Bobwhite Court, Suite 200, Boise, Idaho 83706. Communications may also be sent to any individual director at our address.

INTRODUCTION OF PROPOSAL NOS. 3-6 TO APPROVE AMENDMENTS TO ARTICLES OF INCORPORATION

Background Information. During the last fiscal year ended March 31, 2006, we have undertaken several steps to enhance our strategic position, as well as increase market awareness, namely the acquisition of 511092 N.B. LTD, the investment made from Barron Partners LP and the execution and delivery of several Consulting Agreements that are described below.

To complete these steps, we have made commitments to issue up to 18,101,082 additional shares of our common stock, which added to the 30,887,645 shares outstanding at August 14, 2006) is 8,988,727 shares in excess of the number of 40,000,000 currently authorized and unissued shares of our common stock.

(1) The Reserved shares reflect a covenant to reserve shares issuable to Barron under the Note Purchase Agreement and the requirements of Option Agreements with Christina Vaughn and Suzanne Haislip, which provide that we should reserve the option shares. For additional information, see below.

(2) The number of shares of common stock listed under Barron's Commitments includes the maximum amount of stock that would be issuable on conversion of the Barron's security if the agreed EBITDA target is not satisfied by March 31, 2007. If the EBITDA target is met, the commitment will equal 1,666,667 shares issuable upon conversion of the Barron's Note or preferred stock. For additional information, see below.

Barron's Commitment.

The largest commitment of our shares is to the Barron Partners' Agreement. Pursuant to the Note Purchase Agreement dated December 29, 2005, by and between the Company and Barron Partners LP, a Delaware limited partnership (the "Note Purchase Agreement"), Barron Partners LP ("Barron") purchased from us a convertible promissory note in the principal amount of \$1,000,000 (the "Note"). The Note and the Note Purchase Agreement contemplate that the Note shall be converted into convertible preferred stock having certain rights, preferences, and limitations set forth in the Certificate of Designations attached as Exhibit A to the Note; and the Note Purchase Agreement therefore requires that we amend our Articles of Incorporation to authorize 5,000,000 shares of preferred stock having such rights, preferences and limitations. Further, until such preferred stock has been duly authorized by an amendment of our Articles of Incorporation, the Note (or the preferred stock, if issued prior to March 31, 2007) shall be convertible into 1,666,667 shares of our common stock at the Conversion Price of \$0.60 per share; provided that, if the our EBITDA (where "EBITDA" means earnings before interest, tax, depreciation and amortization as reported from continuing operations before any non-recurring items) is less than \$4,500,000 for the fiscal year ended March 31, 2007, then the Conversion Price shall be reduced proportionately, but not below \$0.1714 per share. Therefore, if the Conversion Price is reduced to \$0.1714, the maximum number of shares in which the Note (or the preferred stock, if issued prior to March 31, 2007) may be converted equals 5,834,306 shares of common stock of the Company.

13

Pursuant to the Note Purchase Agreement, Barron purchased (i) a Common Stock Purchase Warrant "A" (the "Class A Warrant") entitling Barron to purchase up to 2,500,000 shares of our common stock at a price of \$1.20 per share and (ii) a Common Stock Purchase Warrant "B" (the "Class B Warrant") to purchase up to 2,500,000 shares of our common stock at a price of \$1.80 per share. The Class A Warrant is exercisable through the later of December 29, 2009, or 18 months of the effectiveness of our registration statement registering the shares underlying the Class A Warrant. The Class A Warrant has a "cashless exercise" feature, and the exercise price may be adjusted downward, to as low as \$0.15 per share, based upon our failure to meet certain EBITDA targets during the period of exercisability. We may call the Class A Warrant if the closing market price of our common stock equals or exceeds

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

\$1.80 per share for 30 consecutive trading days and there is an effective registration statement covering the shares of common stock underlying the Class A Warrant during such period. The period of exercisability of the Class B Warrant, and the other material terms thereof, are the same as for the Class A Warrant, with the exception that the call feature is triggered if the closing market price of our common stock equals or exceeds \$2.70 per share for 30 consecutive trading days and there is an effective registration statement covering the shares of common stock underlying the Class B Warrant during such period.

Section 2.1(b) of the Note provides for a limitation on conversion of the Note by Barron into common stock. Pursuant to such limitation, Barron is not entitled to convert the Note into shares of common stock to the extent that Barron and its affiliates would beneficially own more than 4.9% of the then outstanding numbers of shares of common stock of PCS after such conversion. Sections 6(a) of each of the Class A Warrant and Class B Warrant, respectively, provides for a limitation on Barron's exercise of the Class A Warrant and Class B Warrant to purchase shares of common stock. Pursuant to such limitation, Barron is not entitled to exercise the Class A Warrant or Class B Warrant to purchase shares of common stock to the extent that Barron and its affiliates would beneficially own more than 4.9% of the then outstanding numbers of shares of common stock of PCS after such exercise.

The Note Purchase Agreement also requires amendment of our Articles of Incorporation to include (A) a provision granting the Company's Board of Directors the authority to (i) classify any unissued shares of our authorized stock into one or more classes or into one or more series within a class; (ii) to reclassify any unissued shares of any class of our authorized stock into one or more classes or into one or more series within one or more classes; and (iii) to reclassify any unissued shares of any series of any class of our authorized stock into one or more classes or into one or more series within a class (the "Blank Check Authorization"), and (B) a provision authorizing the Board to provide, in any rights, options or warrants issued by us, that any terms and conditions of such rights, options or warrants may be waived or amended only with the consent of holders or a designated group of the holders of a designated percentage of a designated class of our capital stock (the "Option Amendment Provision"). See the Second Amended and Restated Articles of Incorporation that follow.

As of August 14, 2006, the Note had not been converted and neither of the warrants had been exercised, in whole or in part. A registration statement was filed with the Securities and Exchange Commission that covers the shares that can be purchased by Barron under the Class A and B warrants and the Note. The registration statement was declared effective by the Securities and Exchange Commission on March 15, 2006.

Options.

In addition, we also have issued to our employees and outside consultants, pursuant to agreements therewith and the 2004 Employee Stock Option Plan, outstanding options to purchase approximately 3,800,000 shares of our common stock. Certain of the option agreements require us to reserve 100,000 shares of common stock for future issuance upon exercise of the outstanding options.

The purchase price of the transaction was \$420,000 USD, which was converted to our common stock at \$0.60 per share and our common stock was issued as "restricted securities" under to Rule 144 in the amount of 700,000 shares. The 511092 N.B. LTD. DBA LabMentors unaudited financial statements for September 30, 2005, along with the unaudited proforma combined financial statements of us and LabMentors, can be viewed in our 8-K/A Current Report filed with the Securities and Exchange Commission on December 9, 2005 and February 15, 2006, which are incorporated herein by reference and attached as Exhibit B.

Joseph A. Khoury.

In connection with the 511092 N.B. LTD. acquisition, an employment agreement was reached with Joseph A. Khoury, President of PCS LabMentors, LTD, fka 511092 N.B. LTD. This employment agreement, among other things, provides that we will issue restricted common stock to Mr. Khoury in payment of 40% of his salary each quarter if the subsidiary reaches financial earnings goals as specified by our Board of Directors for such quarter. The quantity of shares is dependent on the price of our common stock; however, it is estimated that we will pay out approximately 90,000 shares of common stock over the first three years of the term of the employment agreement if the performance goals are met (assuming a conversion rate of \$0.86 US dollars per Canadian dollar and an average common stock price of \$0.70). The term of the employment agreement is six-months. Thereafter, the employment agreement automatically renews for twelve-month periods, but may be terminated, by either party, with ninety (90) days written notice prior to the expiration of the then current term. As of August 14, 2006, we have issued 11,321 shares of Rule 144 stock to Mr. Khoury for his performance during the first quarter of calendar 2005 (last quarter of fiscal year 2006).

J.G. Capital and Colebrook Capital.

In addition to the finder and broker fees paid with respect to the Barron transaction, as outlined in the Form 8-K Current Report filed on January 9, 2006, that is incorporated herein by reference, the consummation of the Barron transaction triggered our obligation to pay a consulting fee to (i) J.G. Capital, pursuant to a Consulting Agreement, for assistance in obtaining the Barron investment and (ii) Colebrook Capital. The fee payable to J.G. Capital was paid on January 3, 2006 and January 27, 2006, in cash in the amount of

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

\$10,000 and \$30,000, respectfully, for a total cash payment of \$40,000, and through the issuance of warrants to purchase 50,000 shares of our common stock for \$0.60 per share that was issued on February 20, 2006. The fee payable to Colebrook Capital was paid on January 3, 2006, and January 27, 2006, in equal cash amounts of \$10,000, for a total payment of \$20,000.

E2S Letter of Intent

Effective as of July 7, 2006, we entered into a Letter of Intent with Education Enterprise Solutions, LLC ("E2S") regarding the acquisition of certain tangible and intangible assets of E2S ("E2S LOI"). The proposed closing date for the asset purchase is August 31, 2006. The E2S LOI provides that we will purchase certain school management software and related intellectual property from E2S payable in 375,000 shares of restricted common stock. In addition to the purchase price payable to E2S, the E2S LOI further provided for royalty fees to be paid to E2S and its shareholders as follows: (i) 5% of the gross collected revenue created from the assets purchased from E2S for a period of seven years, and (ii) 3% of the gross collected revenues created from the assets purchased from E2S for a period of an additional three years. As of the date of the Proxy Statement, a definitive asset purchase agreement has not yet been executed and delivered.

PROPOSAL NO. 3:
AMENDMENT OF THE CURRENT ARTICLES OF INCORPORATION
TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF
COMMON STOCK

We have recently funded our operations and growth in large part by using the Company's capital stock as currency. We have utilized the Company's capital stock to (i) pay employee compensation and bonuses in the form of stock options, (ii) fund corporate acquisitions, including the acquisition of PCS LabMentors, LTD ("LabMentors") and the E2S prospective asset acquisition and payment of earnouts with respect to such acquisitions, (iii) pay for financial advisory and management consulting services, and (iv) to raise working capital. We intend to continue to use our capital stock to further the growth of the Company by funding acquisitions, paying for consulting services, providing employment incentives and raising additional capital, provided that we have sufficient authorized, and unissued common stock to do so.

Article V of our current Articles of Incorporation (as previously amended) authorizes the issuance of 40,000,000 shares of common stock, of which 30,887,645 shares have been issued and are presently outstanding as of August 14, 2006.

17

We have made commitments to issue up to 18,101,082 additional shares of our common stock as detailed in the "Background Information" Introduction above. The actual number of shares that we may be obligated to issue may be substantially less than the amounts listed above, depending on future circumstances. For example, if our EBITDA for the fiscal year ending March 31, 2007, exceeds \$4,500,000, the shares issuable to Barron Partners LP upon conversion of their Note will be 1,666,667 rather than 5,834,306. If, however, we are required to issue the maximum number of shares of common stock pursuant to the commitments listed above, these commitments would require us to issue 8,988,727 shares of common stock in excess of the number of currently authorized and unissued shares, thereby putting us in default of those contractual obligations that we could not meet.

Additionally, the over-commitment of common stock limits our ability to use common stock in connection with future financing and other corporate needs. The lack of authorized common stock available for issuance could limit

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

or delay our ability to pursue opportunities for future financings, acquisitions, and other transactions. As of July 7, 2006, entered into the E2S LOI to acquire certain assets of a school management software business from E2S; and we contemplate issuing 375,000 shares of common stock, which amounts to 1.21% of our current issued and outstanding common stock, in payment for those assets, as detailed. Similar transactions to expand our business in the future could be impaired by lack of sufficient authorized and unissued shares of common stock.

The Board of Directors recommends an increase in the number of authorized shares of common stock from 40,000,000 shares to 60,000,000 shares in order to (i) meet the Company's current common stock commitments, and (ii) provide flexibility for the Company's business and financial purposes in the future, including acquisitions, employee incentives, and other objectives.

We may issue the additional shares of common stock for various purposes, including (without limitation) expanding our business through acquisitions of other businesses, raising capital, issuing stock options to officers, directors or employees, issuing warrants to financial advisors and other consultants, establishing strategic relationships with other companies or individuals, and issuing stock dividends. Unless required to do so by applicable law, a regulatory authority or a third party, further stockholder approval for the issuance of the authorized common stock would not be sought.

Our Board of Directors believes the proposed increases in the number of authorized shares of common stock will make a sufficient number of shares available to us for the foreseeable future should we decide to use our shares of common stock for one or more of the purposes identified above or otherwise.

If Proposal No. 3 is not approved, we may have insufficient authorized shares of common stock available to comply with all of our commitments and covenants, listed above, under (i) the Share Exchange Agreement among PCS Edventures!.com, Inc., 511092 NB Ltd., and its Shareholders, including earnout shares issuable to LabMentors' shareholders and shares issuable to Mr. Khoury pursuant to his employment contract, (ii) the Note Purchase Agreement between PCS Edventures!.com, Inc. and Barron Partners LP, including the Convertible Note, Common Stock Purchase Warrant A, and Common Stock Purchase Warrant B issued to Barron Partners on December 29, 2005, (iii) shares to be issued to E2S; and (iv) outstanding options issued to consultants and employees. If we are unable to issue the common stock as set forth in the above described agreements, we may become subject to legal actions by the affected parties relating to misrepresentations and violation of covenants as provided in the above-described agreements. In addition to the costs of such potential legal action, we may be liable for the payment of money damages for breach of contract. Such money damages could equal or exceed the value of the common stock to be issued pursuant to these agreements. We may lack sufficient capital resources or liquidity to make such monetary payments in the future if we breach our commitments to issue common stock.

Pursuant to the Note Purchase Agreement, we agreed to indemnify, defend, and hold Barron Partners harmless against and in respect of any and all claims, demands, losses, costs, expenses, obligations, liabilities or damages that Barron Partners shall incur or suffer, which arise out of or result from any breach of the Note Purchase Agreement. If we are unable to issue common stock to Barron Partners as provided under the Note Purchase Agreement, Convertible Note, Common Stock Purchase Warrant A, and/or Common Stock Purchase Warrant B, we may incur significant monetary liability to Barron Partners due to losses, costs or damages incurred by Barron Partners.

Further, if Proposal No. 3 is not approved, we may be limited in our

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

ability to use common stock in connection with future financings and other corporate needs. The lack of authorized common stock available for issuance could limit or delay our ability to pursue opportunities for future financings, acquisitions, and other transactions and reduce our ability to reach our business development and financial goals.

The additional shares of common stock that would become available for issuance if Proposal No. 3 is adopted could be used by us to oppose a hostile takeover attempt or delay or prevent changes in control or management, as the Board of Directors could issue additional shares of stock of the Company, which could dilute the stock ownership of a person attempting to obtain control of the Company. Although the proposal to increase the authorized common stock has been prompted by business and financial considerations and not by the threat of any hostile takeover attempt (nor are we currently aware of any such attempts directed at the Company), holders of common stock should be aware that approval of this proposal could facilitate future efforts by us to deter or prevent changes in control, including transactions in which the shareholders might otherwise receive a premium for their shares over then current market prices.

In addition, an issuance of additional shares by us could have an effect on the potential realizable value of a stockholder's investment. In the absence of a proportionate increase in our earnings and book value, an increase in the aggregate number of outstanding shares of the Company caused by the issuance of the additional shares would dilute the earnings per share and book value per share of all outstanding shares of our capital stock. If such factors were reflected in the price per share of common stock, the potential realizable value of a stockholder's investment could be adversely affected.

The Board of Directors believes the increase in the authorized number of shares of common stock is necessary to provide the Company with the flexibility to act in the future with respect to financings, acquisitions, stock splits, and other corporate purposes, without the delay and expense of obtaining stockholder approval each time an opportunity requiring the issuance of shares may arise.

RECOMMENDATION OF THE BOARD. THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE SHAREHOLDERS VOTE "FOR" APPROVAL OF THE AMENDMENT OF THE ARTICLES OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK FROM 40,000,000 TO 60,000,000 SHARES.

PROPOSAL NO. 4:
AMENDMENT OF THE ARTICLES OF INCORPORATION
TO AUTHORIZE SERIES A PREFERRED STOCK

Our Board of Directors has approved a proposal to amend our Articles of Incorporation by adding a new Article 5A in order to authorize and designate 5,000,000 shares of the Company's preferred stock as Series A Preferred Stock ("Series A") meeting the requirements of the Barron Note Purchase Agreement and Note. In those agreements, we covenanted to seek shareholder approval of a class of Series A Preferred Stock with the following designations, rights and preferences, as set forth in Article 5A of the Second Amended and Restated Articles of Incorporation (Exhibit A):

1. Dividends: No dividends will be payable with respect to the Series A Preferred Stock; and no dividends will be payable to holders of common stock while the Series A Preferred Stock is outstanding.
2. Voting: The Series A Preferred Stock shall have no voting rights.
3. Amendment: So long as any Series A Preferred Stock remains outstanding, the Company shall not, without the affirmative approval

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

- of the holders of Series A Preferred Stock, alter or change the rights and preferences of the Series A Preferred Stock, create a class of stock senior or on a parity with the Series A Preferred Stock, or amend the Articles of Incorporation to increase the authorized Series A Preferred Stock.
4. Liquidation: Upon any liquidation, dissolution of winding-up, the holders of Series A shall be entitled to receive, for each share of Series A Preferred Stock, an amount equal to \$0.60 before any distribution or payment is made to holder of any junior securities, including the common stock.
 5. Conversion: Each share of Series A Preferred Stock shall be initially convertible into one share of common stock at the option of the holders of the Series A Preferred Stock. The conversion of Series A Preferred Stock into common stock shall be adjusted for stock dividends, stock splits, dilutive equity issuance. The conversion rate will also be adjustable based on the Company's EBITDA at its March 31, 2007, fiscal year end, as set forth in Section 5A.7 of the Amended and Restated Articles of Incorporation.

Pursuant to the Barron Note Purchase Agreement, we received \$1,000,000 cash in exchange for our Convertible Note issued on December 29, 2005. The Note is convertible into shares of common stock; however, the Note provides that, upon amendment of our Articles of Incorporation to authorize and designate Series A Preferred Stock, the Note will thereupon be automatically converted into shares of Series A Preferred, which in turn will be convertible into common stock.

Pursuant to the Convertible Note, we granted conversion rights to Barron Partners to convert the \$1,000,000 principal amount of the Convertible Note into shares of PCS Edventures!.com, Inc.'s common stock or preferred stock. The Convertible Note provides that, effective as of the date of the amendment of the Articles of Incorporation, authorizing and designating Series A preferred stock with the rights, preferences, and limitations set forth in an exhibit to the Convertible Note, the Convertible Note will cease to be convertible into common stock and will automatically be converted into shares of such Series A preferred stock. If we are unable to issue the Series A preferred stock as set forth in the Convertible Note, we may become subject to legal actions by Barron Partners LP relating to misrepresentations and violation of covenants as provided in the Note Purchase Agreement and Convertible Note. Further, under the Note Purchase Agreement, we agreed to indemnify, defend, and hold Barron Partners harmless against and in respect of any and all claims, demands, losses, costs, expenses, obligations, liabilities or damages that Barron Partners shall incur or suffer, which arise out of or result from any breach of the Note Purchase Agreement. If we are unable to issue to Barron Partners the preferred stock, as provided under the Note Purchase Agreement and Convertible Series A Note, we may incur significant monetary liability to Barron Partners due to losses, costs or damages incurred by Barron Partners.

Additionally, under the Convertible Note, it is an event of default if we breach any material covenant or other term or condition of the Note Purchase Agreement or Convertible Note. Upon the occurrence of an event of default, Barron Partners may declare all remaining sums of principal of the Convertible Note immediately due and payable. If Proposal No. 4 is not approved, it may be considered an event of default under the Convertible Note, whereby the Convertible Note may be due and payable in full. In such event, we may lack sufficient capital resources or liquidity to satisfy the Convertible Note.

Shareholder approval of Proposal No. 4 will enable us to comply with our covenants and agreements with Barron Partners LP.

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE SHAREHOLDERS VOTE "FOR" APPROVAL OF THE AMENDMENT OF THE ARTICLES OF INCORPORATION TO DESIGNATE 5,000,000 SHARES OF SERIES A PREFERRED STOCK.

PROPOSAL NO. 5:
AMENDMENT OF THE CURRENT ARTICLES OF INCORPORATION
TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF
PREFERRED STOCK AND TO AUTHORIZE THE BOARD TO DESIGNATE AND ISSUE ADDITIONAL
CLASSES OR SERIES OF STOCK WITHOUT FURTHER SHAREHOLDER APPROVAL

We have recently funded our operations and growth in large part by using the Company's capital stock as currency. We have utilized the Company's capital stock to raise working capital. We intend to continue to use our capital stock to further the growth of the Company by funding acquisitions, paying for consulting services, providing employment incentives, and raising additional capital, provided that we have sufficient authorized and unissued preferred stock to do so.

Article V of our current Articles of Incorporation (as previously amended) authorizes the issuance of 10,000,000 shares of preferred stock with certain specific rights, preferences, and limitations. We have previously issued 82,850 shares of this preferred stock to raise working capital, but have subsequently reacquired and cancelled all of those shares. We have no intention of reissuing those preferred shares because their designated rights, preferences, and limitations are not suited to our future needs.

If the shareholders approve the Blank Check Authorization discussed below, the Board will reclassify these reacquired preferred shares (as well as the previously unissued shares of such preferred stock) as authorized and unissued shares of preferred stock undesignated as to series and without any specific rights, preferences or limitations. These 10,000,000 shares would thereafter be available for issuance as preferred stock with such rights, preferences, and limitations as may thereafter be designated by the Board pursuant to the Blank Check Authorization. If the shareholders do not approve the Blank Check Authorization, the reacquired shares of preferred stock (as well as the previously unissued shares of such preferred stock) will retain their existing rights, preferences, and limitations; however, we have no intention of reissuing those preferred shares because their specific designated rights, preferences, and limitations are not suited to our future needs.

The Board of Directors has approved a proposal to further amend the Company's Articles of Incorporation in order to authorize and vest in our Board of Directors the authority to classify or reclassify, from time to time, any unissued shares of the Company's authorized stock into one or more classes or into one or more series within one or more classes ("Blank Check Authorization"). This provision is set forth in new Section 5.2 of the attached Second Amended and Restated Articles of Incorporation (Exhibit A).

The Blank Check Authorization would vest in our Board of Directors the authority to designate one or more classes or one or more series of capital stock by resolution. The provision authorizing the Board of Directors to designate terms and conditions of the capital stock in this manner is often referred to as "blank check" authority, as it gives the Board of Directors the flexibility, at any time or from time to time, without further shareholder approval (except as may be required by applicable laws, regulatory authorities or the rules of any stock exchange on which our securities are then listed), to create one or more classes or series of capital stock and to determine by resolution the designations, price, preferences, relative rights, and limitations of each such class or series, including voting rights, without any further vote or action by the shareholders. Because the Blank Check Authorization would entitle the Board

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

of Directors to designate the rights, preferences, and limitations of authorized but unissued capital stock of the Company, the rights of the holders of issued and outstanding shares of our common stock are subject to, and may be adversely affected by, the rights of the holders of any capital stock which may be designated and issued in the future by the Board of Directors.

The proposed amendment also specifies the disposition of shares of common stock or preferred stock reacquired by us from time to time. These amendments are set forth in Sections 5.3 through 5.5 of Article 5 of the attached Second Amended and Restated Articles of Incorporation (Exhibit A). In particular, Section 5.5 provides that the 10,000,000 previously authorized shares of preferred stock (including the 82,850 shares previously issued and subsequently reacquired by us) shall resume the status of authorized and unissued shares of preferred stock, undesignated as to Series and available for classification or reclassification by the Board of Directors and reissuance by the Company pursuant to the Blank Check Authorization granted by Section 5.2.

The authorization of blank check preferred stock will enable our Board of Directors to issue shares of preferred stock without further approval of the holders of common stock, the terms of which might, among other things, (i) restrict the payment of dividends on our common stock, (ii) dilute the voting power of holders of common stock, (iii) impair the liquidation rights of the holders of common stock, and/or (iv) delay or prevent a change of control or management that the holders of common stock might believe is in their best interests.

While the approval of the Blank Check Authorization, without any immediate Board designation of any new class or series of preferred stock, would not have any immediate effect on existing holders of common stock, the future issuance of blank check preferred stock, while providing desirable flexibility in connection with possible financings, acquisitions, and other corporate purposes, would have the effect of diluting our current holders of common stock and could have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from attempting to acquire, control of PCS Edventures!.com, Inc.

Additionally, if Proposal No. 5 is approved, the Board of Directors could issue shares of preferred stock that could, depending on the terms of such series, make more difficult or discourage an attempt to obtain control of PCS Edventures!.com, Inc. by means of a merger, tender offer, proxy contest or other means. Such preferred stock could be used to create voting or other impediments or to discourage persons seeking to gain control of the Company.

The issuance of a new series of preferred stock could also be used to dilute the stock ownership of a person or entity seeking to obtain control of the Company should the Board consider the action of such entity or person not to be in the best interest of the stockholders and the Company. If the Board of Directors elects to issue additional shares of preferred stock, such issuance could have a dilutive effect on the earnings per share, book value per share, voting power, and holdings of current shareholders. The additional shares of preferred stock that would become available for issuance if Proposal No. 5 is adopted could also be used by us to oppose a hostile takeover attempt or delay or prevent changes in control or management, as the Board of Directors could issue additional shares of preferred stock of the Company, which could dilute the stock ownership of a person attempting to obtain control of the Company, or could grant preferences, such as preferences to the Company's assets in the event of liquidation or change of control, making the common stock less valuable. Although the proposal to increase the authorized preferred stock has been prompted by business and

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

financial considerations, and not by the threat of any hostile takeover attempt (nor are we currently aware of any such attempts directed at the Company), shareholders should be aware that approval of this proposal could facilitate future efforts by the Company to deter or prevent changes in control, including transactions in which the shareholders might otherwise receive a premium for their shares over then current market prices.

Increasing the number of authorized shares of preferred stock issuable pursuant to the Blank Check Authorization and issuing preferred stock with rights, preferences, and limitations designated by the Board pursuant to the Blank Check Authorization may affect the rights of the holders of our currently outstanding common stock by (among other possibilities) granting holders of preferred stock preferential rights such as dividend, redemption, and liquidation preferences, and by diluting the earnings per share and voting rights of current holders of common stock. With Blank Check Authorization, the Board may provide for the issuance of preferred stock with preferential dividend and liquidation preference, whereby the newly designated preferred stock could, for example, have rights to (i) large dividends prior and in preference to other capital stockholders and (ii) liquidation preferences equal to multiples of the preferred stockholder's initial investment. Such dividend and liquidations preferences granted by the Board pursuant to the Blank Check Authorization may preclude future investment returns of the current shareholders.

In addition, an issuance of additional preferred shares by us could have an effect on the potential realizable value of a common stockholder's investment. In the absence of a proportionate increase in our earnings and book value, an increase in the aggregate number of outstanding shares of the Company caused by the issuance of the additional shares of preferred stock would dilute the earnings per share and book value per share of all outstanding shares of our capital stock. If such factors were reflected in the price per share of common stock, the potential realizable value of a stockholder's investment could be adversely affected.

The Board of Directors recommends an increase in the number of authorized shares of preferred stock from 10,000,000 shares to 20,000,000 shares, undesignated as to rights, preferences or limitations, coupled with Blank Check Authorization for the Board to designate the rights, preferences, and limitations of any class or series of such preferred stock, in order to provide flexibility for our business and financial purposes in the future. If Proposal No. 5 is approved, the preferred stock would include 5,000,000 shares of Series A Preferred Shares referenced in Proposal 4 and 15,000,000 shares available for designation and issuance by the Board pursuant to the Blank Check Authorization (after reclassifying the previously unissued and previously issued and required shares of the already existing class of preferred stock).

We may issue the additional shares of preferred stock for various purposes, including (without limitation) expanding our business through acquisitions of other businesses, raising capital, and establishing strategic relationships with other companies or individuals. Unless required to do so by applicable law, a regulatory authority or a third party, further stockholder approval for the issuance of the authorized preferred stock would not be sought.

If this Proposal No. 5 is approved, the additional shares of preferred stock would have rights, preferences, and limitations to be designated by the Board of Directors pursuant to the Blank Check Authorization, provided that the Note Purchase Agreement with Barron prohibits us from issuing, prior to December 29, 2007, preferred stock which, with respect to dividend, redemption or liquidation rights, is senior to or on a parity with the Series A Preferred Stock to be issued to Barron as described in Proposal No. 4.

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

Pursuant to the Note Purchase Agreement between PCS Edventures!.com, Inc. and Barron Partners LP, we covenanted with Barron Partners LP to propose and submit to the holders of common stock of PCS Edventures!.com, Inc., for their approval, amendments to the Articles of Incorporation, substantially providing for Blank Check Authorization.

Under the Note Purchase Agreement, we agreed to indemnify, defend and hold Barron Partners harmless against and in respect of any and all claims, demands, losses, costs, expenses, obligations, liabilities or damages that Barron Partners shall incur or suffer, which arise out of or result from any breach of the Note Purchase Agreement. If the shareholders do not approve Proposal No. 5 by granting Blank Check Authorization to the Board, as required by the Note Purchase Agreement, we may incur significant financial monetary liability to Barron Partners due to losses, costs or damages incurred by Barron Partners. Additionally, under the Convertible Note it is an event of default if we breach any material covenant or other term or condition of the Note Purchase Agreement or Convertible Note. Upon the occurrence of an event of default, Barron Partners may declare all remaining sums of principal of the Convertible Note immediately due and payable. If Proposal 5 is not approved, it may be considered an event of default under the Convertible Note, whereby the Convertible Note may be due and payable in full. In such event, we may lack the capital resources or liquidity to satisfy the Convertible Note.

The Board of Directors believes that the grant of Blank Check Authorization will provide us with greater flexibility in meeting future capital requirements by enabling the Board to customize classes and series of stock to meet the needs of particular transactions and then prevailing market conditions, or to facilitate any other proper corporate purposes, such as joint ventures or acquisitions or issuance in public or private offerings as a means of raising working capital. Our Board of Directors believes the proposed increase in the authorized preferred stock and the grant of Blank Check Authorization will make a sufficient number of shares available to us for the foreseeable future should we decide to use our shares of preferred stock for one or more of the purposes identified above or otherwise. The Board of Directors believes the proposed increase in the authorized shares of preferred stock with rights, preferences, and limitations to be designated by the Board pursuant to the Blank Check Authorization is necessary to provide the Company with the flexibility to act in the future with respect to financings, acquisitions, and other corporate purposes, without the delay and expense of obtaining stockholder approval each time an opportunity requiring the issuance of preferred shares may arise.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE SHAREHOLDERS VOTE "FOR" APPROVAL OF THE AMENDMENT OF THE ARTICLES OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF PREFERRED STOCK FROM 10,000,000 TO 20,000,000 AND TO GRANT BLANK CHECK AUTHORIZATION TO THE BOARD.

PROPOSAL NO. 6:
AMENDMENT OF THE ARTICLES OF INCORPORATION TO
PERMIT THE BOARD TO LIMIT WAIVER OR
AMENDMENT OF RIGHTS, OPTIONS, AND WARRANTS OF THE COMPANY

The Board of Directors has approved a proposal to further amend the Company's Articles of Incorporation to provide that any terms and conditions of any rights, options, and warrants approved by the Board of Directors may provide, within such rights, options and warrants, that any or all of such terms and conditions may be waived or amended only upon the consent of the holders of a designated percentage of the designated class or classes of capital stock of the Company into which the right, warrant or option may be converted or exercised (the "Option Amendments"). Pursuant to the Barron Note

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

Purchase Agreement, we covenanted to amend the current Articles of Incorporation to provide for such limitations.

This amendment is required by the Barron Note Purchase Agreement. Barron has advised the Company that this language has been required by the Securities and Exchange Commission (in connection with other investments made by Barron Partners) to assure that, as provided in the Note and the Class A and Class B Warrants, Barron will not be able to waive or cause the waiver or amendment of these instruments to enable it to hold 5% or more of the Company's voting securities at any time. The applicable sections within the Note, the Class A Warrant, and Class B Warrant is as follows:

a. Section 2.1(b) of the Note provides for a limitation on conversion of the Note by Barron into common stock. Pursuant to such limitations, Barron is not entitled to convert the Note into shares of common stock to the extent that Barron and its affiliates would beneficially own more than 4.9% of the then outstanding numbers of shares of common stock of PCS after such conversion.

b. Section 6(a) of each of the Class A Warrant and Class B Warrant, respectively, provides for a limitation on Barron's exercise of the Class A Warrant and Class B Warrant to purchase shares of common stock. Pursuant to such limitations, Barron is not entitled to exercise the Class A Warrant or Class B Warrant to purchase shares of common stock to the extent that Barron and its affiliates would beneficially own more than 4.9% of the then outstanding numbers of shares of common stock of PCS after such exercise.

The proposed amendment of the Company's articles of incorporation would ratify the Board's authority to include these limitations in the Note and Class A and Class B Warrants issued to Barron.

The proposed amendment appears as Article 8 in the attached Amended and Restated Articles of Incorporation:

WAIVER OR AMENDMENTS TO OPTIONS AND WARRANTS. The terms and conditions of any rights, options and warrants approved by the Board of Directors of the Corporation may provide that any or all of such terms and conditions may be waived or amended only with the consent of the holders of a designated percentage of a designated class or classes of capital stock of the Corporation (or a designated group or groups of holders within such class or classes, including, but not limited to, disinterested holders), and the applicable terms and conditions of any such rights, options or warrants so conditioned may not be waived or amended absent such consent.

The Board of Directors believes that shareholder approval of this Proposal No. 6 will enable us to comply with our covenants with Barron Partners LP, pursuant to the Note Purchase Agreement, whereby we covenanted and agreed to amend the current Articles of Incorporation to provide for such limitations.

RECOMMENDATION OF THE BOARD. THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE SHAREHOLDERS VOTE "FOR" APPROVAL OF THE AMENDMENT OF THE ARTICLES OF INCORPORATION TO PERMIT THE BOARD TO LIMIT WAIVERS OR AMENDMENTS OF RIGHTS, OPTIONS OR WARRANTS ISSUED BY THE COMPANY.

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

Upon the conversion of the Series A Preferred Stock pursuant to this Section 5A.6.2, the corporation shall promptly send written notice thereof, by hand delivery or by overnight delivery, to the holder of record of all of the Series A Preferred Stock at its address then shown on the records of the corporation, which notice shall state that certificates evidencing shares of Series A Preferred Stock must be surrendered at the office of the corporation (or of its transfer agent for the Common Stock, if applicable).

5A.6.3 Beneficial Ownership Limitation. Except as provided in Section 5A.6.2 above, the corporation shall not effect any conversion of the Series A Preferred Stock, and the Holder shall not have the right to convert any portion of the Series A Preferred Stock to the extent that after giving effect to such conversion, the Holder (together with the Holder's affiliates), as set forth on the applicable Notice of Conversion, would beneficially own in excess of 4.9% of the number of shares of the Common Stock outstanding immediately after giving effect to such conversion. For purposes of the foregoing sentence, the number of shares of Common Stock beneficially owned by the Holder and its affiliates shall include the number of shares of Common Stock issuable upon conversion of the Series A Preferred Stock with respect to which the determination of such sentence is being made, but shall exclude the number of shares of Common Stock which would be issuable upon (A) conversion of the remaining, nonconverted shares of Series A Preferred Stock beneficially owned by the Holder or any of its affiliates, so long as such shares of Series A Preferred Stock are not convertible within sixty (60) days from the date of such determination, and (B) exercise or conversion of the unexercised or nonconverted portion of any other securities of the corporation (including the Warrants) subject to a limitation on conversion or exercise analogous to the limitation contained herein beneficially owned by the Holder or any of its affiliates, so long as such other securities of the corporation are not exercisable nor convertible within sixty (60) days from the date of such determination. For purposes of this Section 5A.6.3, in determining the number of outstanding shares of Common Stock, the Holder may rely on the number of outstanding shares of Common Stock as reflected in the most recent of the following: (A) the corporation's most recent quarterly reports, Form 10-Q, Form 10-QSB, Annual Reports, Form 10-K, or Form 10-KSB, as the case may be, as filed with the Commission under the Exchange Act (B) a more recent public announcement by the corporation or (C) any other written notice by the corporation or the corporation's transfer agent setting forth the number of shares of Common Stock outstanding. Upon the written or oral request of the Holder, the corporation shall within two (2) Trading Days confirm orally and in writing to the Holder the number of shares of Common Stock then outstanding. In any case, the number of outstanding shares of Common Stock shall be determined after giving effect to the conversion or exercise of securities of the corporation, including the Series A Preferred Stock, by the Holder or its affiliates since the date as of which such number of outstanding shares of Common Stock was publicly reported by the corporation. This Section 5A.6.3 may be waived or amended only with the consent of the Holders of all of the Series A Preferred Stock and the consent of the holders of a majority of the shares of outstanding Common Stock of the corporation who are not Affiliates. For the purpose of the immediately preceding sentence, the term "Affiliate" shall mean any person: (a) that directly or indirectly, through one or more intermediaries controls, or is controlled by, or is under common control with the corporation, or (b) who beneficially owns (i) any shares of Series A Preferred Stock, or (ii) the corporation's Common Stock Purchase Warrant(s) dated December 29, 2005. For purposes of this Section 5A.6.3, beneficial ownership shall be calculated in accordance with Section 13(d) of the Exchange Act.

5A.6.4 Mechanics of Conversion.

(a) Delivery of Certificate Upon Conversion. Except as otherwise set forth

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

herein, not later than three Trading Days after each Conversion Date (the "Share Delivery Date"), the corporation shall deliver to the Holder (A) a certificate or certificates which, after the Effective Date, shall be free of restrictive legends and trading restrictions (other than those required by the Purchase Agreement) representing the number of shares of Common Stock being acquired upon the conversion of shares of Series A Preferred Stock, and (B) a bank check in the amount of accrued and unpaid dividends (if the corporation has elected or is required to pay accrued dividends in cash). After the Effective Date, the corporation shall, upon request of the Holder, deliver any certificate or certificates required to be delivered by the corporation under this Section electronically through the Depository Trust Corporation or another established clearing corporation performing similar functions. If in the case of any Notice of Conversion such certificate or certificates are not delivered to or as directed by the applicable Holder by the third Trading Day after the Conversion Date, the Holder shall be entitled to elect by written notice to the corporation at any time on or before its receipt of such certificate or certificates thereafter, to rescind such conversion, in which event the corporation shall immediately return the certificates representing the shares of Series A Preferred Stock tendered for conversion.

(b) **Obligation Absolute; Partial Liquidated Damages.** The corporation's obligations to issue and deliver the Conversion Shares upon conversion of Series A Preferred Stock in accordance with the terms hereof are absolute and unconditional, irrespective of any action or inaction by the Holder to enforce the same, any waiver or consent with respect to any provision hereof, the recovery of any judgment against any Person or any action to enforce the same, or any setoff, counterclaim, recoupment, limitation or termination, or any breach or alleged breach by the Holder or any other Person of any obligation to the corporation or any violation or alleged violation of law by the Holder or any other person, and irrespective of any other circumstance which might otherwise limit such obligation of the corporation to the Holder in connection with the issuance of such Conversion Shares. In the event a Holder shall elect to convert any or all of its Series A Preferred Stock, the corporation may not refuse conversion based on any claim that such Holder or any one associated or affiliated with the Holder of has been engaged in any violation of law, agreement or for any other reason unless an injunction from a court, on notice, restraining and or enjoining conversion of all or part of this Series A Preferred Stock shall have been sought and obtained and the corporation posts a surety bond for the benefit of the Holder in the amount of 150% of the Conversion Value of Series A Preferred Stock outstanding, which is subject to the injunction, which bond shall remain in effect until the completion of arbitration/litigation of the dispute and the proceeds of which shall be payable to such Holder to the extent it obtains judgment. In the absence of an injunction precluding the same, the corporation shall issue Conversion Shares or, if applicable, cash, upon a properly noticed conversion. If the corporation fails to deliver to the Holder such certificate or certificates pursuant to Section 5A.6.4(a) within two (2) Trading Days of the Share Delivery Date applicable to such conversion, the corporation shall pay to such Holder, in cash, as liquidated damages and not as a penalty, for each \$5,000 of Conversion Value of Series A Preferred Stock being converted, \$200 per Trading Day (increasing to \$400 per Trading Day after three (3) Trading Days and increasing to \$800 per Trading Day six (6) Trading Days after such damages begin to accrue) for each Trading Day after the Share Delivery Date until such certificates are delivered. Nothing herein shall limit a Holder's right to pursue actual damages for the corporation's failure to deliver certificates representing shares of Common Stock upon conversion within the period specified herein and such Holder shall have the right to pursue all remedies available to it hereunder, at law or in equity including, without limitation, a decree of specific performance and/or injunctive relief.

(c) **Compensation for Buy-In on Failure to Timely Deliver Certificates Upon Conversion.** If the corporation fails to deliver to the Holder such

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

certificate or certificates pursuant to Section 5A.6.4(a) by a Share Delivery Date, and if after such Share Delivery Date the Holder purchases (in an open market transaction or otherwise) Common Stock to deliver in satisfaction of a sale by such Holder of the Conversion Shares which the Holder was entitled to receive upon the conversion relating to such Share Delivery Date (a "Buy-In"), then the corporation shall pay in cash to the Holder the amount by which (x) the Holder's total purchase price (including brokerage commissions, if any) for the Common Stock so purchased exceeds (y) the product of (1) the aggregate number of shares of Common Stock that such Holder was entitled to receive from the conversion at issue multiplied by (2) the price at which the sell order giving rise to such purchase obligation was executed. For example, if the Holder purchases Common Stock having a total purchase price of \$11,000 to cover a Buy-In with respect to an attempted conversion of shares of Series A Preferred Stock with respect to which the aggregate sale price giving rise to such purchase obligation is \$10,000, under clause (A) of the immediately preceding sentence the corporation shall be required to pay the Holder \$1,000. The Holder shall provide the corporation written notice indicating the amounts payable to the Holder in respect of the Buy-In, together with applicable confirmations and other evidence reasonably requested by the corporation. Nothing herein shall limit a Holder's right to pursue any other remedies available to it hereunder, at law or in equity including, without limitation, a decree of specific performance and/or injunctive relief with respect to the corporation's failure to timely deliver certificates representing shares of Common Stock upon conversion of the shares of Series A Preferred Stock as required pursuant to the terms hereof.

(d) Reservation of Shares Issuable Upon Conversion. The corporation covenants that it will at all times reserve and keep available out of its authorized and unissued shares of Common Stock solely for the purpose of issuance upon conversion of the Series A Preferred Stock, each as herein provided, free from preemptive rights or any other actual contingent purchase rights of persons other than the Holders, not less than such number of shares of the Common Stock as shall (subject to any additional requirements of the corporation as to reservation of such shares set forth in the Purchase Agreement) be issuable (taking into account the adjustments and restrictions of Section 5A.7) upon the conversion of all outstanding shares of Series A Preferred Stock. The corporation covenants that all shares of Common Stock that shall be so issuable shall, upon issue, be duly and validly authorized, issued and fully paid, nonassessable and, if the Conversion Shares Registration Statement is then effective under the Securities Act, registered for public sale in accordance with such Conversion Shares Registration Statement.

(e) Fractional Shares. Upon a conversion hereunder, the corporation shall not be required to issue stock certificates representing fractions of shares of the Common Stock.

(f) Transfer Taxes. The issuance of certificates for shares of the Common Stock on conversion of the Series A Preferred Stock shall be made without charge to the Holders thereof for any documentary stamp or similar taxes that may be payable in respect of the issue or delivery of such certificate, provided that the corporation shall not be required to pay any tax that may be payable in respect of any transfer involved in the issuance and delivery of any such certificate upon conversion in a name other than that of the Holder of such shares of Series A Preferred Stock so converted and the corporation shall not be required to issue or deliver such certificates unless or until the person or persons requesting the issuance thereof shall have paid to the corporation the amount of such tax or shall have established to the satisfaction of the corporation that such tax has been paid.

5A.7 Certain Adjustments.

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

5A.7.1 Stock Dividends and Stock Splits. If the corporation, at any time while the Series A Preferred Stock is outstanding: (A) shall pay a stock dividend or otherwise make a distribution or distributions on shares of its Common Stock or any other equity or equity equivalent securities payable in shares of Common Stock (which, for avoidance of doubt, shall not include any shares of Common Stock issued by the corporation pursuant to this Series A Preferred Stock), (B) subdivide outstanding shares of Common Stock into a larger number of shares, (C) combine (including by way of reverse stock split) outstanding shares of Common Stock into a smaller number of shares, or (D) issue by reclassification of shares of the Common Stock any shares of capital stock of the corporation, then the Conversion Value shall be multiplied by a fraction of which the numerator shall be the number of shares of Common Stock (excluding treasury shares, if any) outstanding before such event and of which the denominator shall be the number of shares of Common Stock outstanding after such event. Any adjustment made pursuant to this Section 5A.7.1 shall become effective immediately after the record date for the determination of stockholders entitled to receive such dividend or distribution and shall become effective immediately after the effective date in the case of a subdivision, combination or re-classification.

5A.7.2 Subsequent Equity Sales. From the date hereof until such time as no Purchaser holds any of the Securities, the corporation shall be prohibited from effecting or entering into an agreement to effect any Subsequent Financing involving a "Variable Rate Transaction" or an "MFN Transaction" (each as defined below). The term "Variable Rate Transaction" shall mean a transaction in which the corporation issues or sells (i) any debt or equity securities that are convertible into, exchangeable or exercisable for, or include the right to receive additional shares of Common Stock either (A) at a conversion, exercise or exchange rate or other price that is based upon and/or varies with the trading prices of or quotations for the shares of Common Stock at any time after the initial issuance of such debt or equity securities, or (B) with a conversion, exercise or exchange price that is subject to being reset at some future date after the initial issuance of such debt or equity security or upon the occurrence of specified or contingent events directly or indirectly related to the business of the corporation or the market for the Common Stock. The term "MFN Transaction" shall mean a transaction in which the corporation issues or sells any securities in a capital raising transaction or series of related transactions which grants to an investor the right to receive additional shares based upon future transactions of the corporation on terms more favorable than those granted to such investor in such offering. Any Purchaser shall be entitled to obtain injunctive relief against the corporation to preclude any such issuance, which remedy shall be in addition to any right to collect damages. Notwithstanding the foregoing, this Section 5A.7.2 shall not apply in respect of an Exempt Issuance, except that no Variable Rate Transaction or MFN Transaction shall be an Exempt Issuance.

5A.7.3 Subsequent Rights Offerings. The corporation, at any time while the Series A Preferred Stock is outstanding, shall not issue rights, options or warrants to holders of Common Stock entitling them to subscribe for or purchase shares of Common Stock at a price per share less than the Conversion Price.

5A.7.4 Anti-Dilution Price Adjustment. From the date hereof until such time as the Holder holds less than 10% of the shares of Series A Preferred Stock issued to the original Holder, the corporation closes on the sale (other than an Exempt Issuance) of a note or notes, shares of Common Stock, or shares of any class of convertible preferred stock at a price per share of Common Stock, or with a conversion right to acquire Common Stock at a price per share of Common Stock, that is less than the Conversion Value (as adjusted to the capitalization per share as of the Closing Date, following any stock splits, stock dividends, or the like) (collectively, "Dilutive Issuance"), the

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

corporation shall make a post-Closing adjustment in the Conversion Value of the Series A Preferred Stock so that the effective price per share paid by the Investor is reduced to a price determined by multiplying the current exercise price by a fraction, the numerator of which shall be the number of shares of Common Stock outstanding immediately prior to such Dilutive Issuance plus the number of shares of Common Stock which the aggregate consideration received by the corporation for the shares of Common Stock issuable in the Dilutive Issuance would purchase at the current Conversion Value, and the denominator of which shall be the number of shares of Common Stock outstanding immediately prior to such Dilutive Issuance plus the number of additional shares of Common Stock to be issued in the Dilutive Issuance. For the purposes of the foregoing calculation, the number of shares of Common Stock outstanding immediately prior to such Dilutive Issuance shall be determined on a fully diluted basis as if, immediately prior to the Dilutive Issuance, all convertible securities issued by the corporation (including the Series A Preferred Stock) had been fully converted into shares of Common Stock and all outstanding warrants, options or other rights for the purchase of shares of Common Stock or convertible securities had been fully exercised and converted (and the resulting securities fully converted into shares of Common Stock, if so convertible). Such reduction of the Conversion Value shall be made at the time such Dilutive Issuance is executed.

5A.7.5 Waiver of Anti-Dilution Adjustment. Notwithstanding anything herein to the contrary, the operation of, and any adjustment of the Series A Conversion Value Price pursuant to this Section 5A.7.5 may be waived with respect to any specific share or shares of Series A Preferred Stock, either prospectively or retroactively and either generally or in a particular instance by a writing executed by the registered Holder of such share or shares. Any waiver pursuant to this Section 5A.7.5 shall bind all future Holders of such shares of Series A Preferred Stock for which such rights have been waived.

5A.7.6 Adjustment Based on EBITDA. In the event the corporation's EBITDA is less than \$4.5 million for the audited fiscal year ended March 31, 2007 as reported to the Commission on Form 10-KSB (where "EBITDA" means earnings before interest, tax, depreciation and amortization as reported from continuing operations before any non-recurring items), then the Conversion Value shall be reduced proportionately by the same percentage as the percentage decline below the \$4.5 million EBITDA target, subject to a maximum reduction of 71.43% if the EBITDA is \$1,285,714 or less. For example, if the corporation earns \$3.6 million, or 20% below \$4.5 million, then the Conversion Value shall be reduced by 20%. Such reduction shall be made at the time the March 31, 2007 financial results are reported and shall be made from the starting Conversion Value, and shall be cumulative upon any other changes to the Conversion Value that may already have been made. However, the Conversion Value shall not in any circumstance be dropped below \$0.1714 per share.

5A.7.7 Pro Rata Distributions. If the corporation, at any time while Series A Preferred Stock is outstanding, shall distribute to all holders of Common Stock (and not to Holders) evidences of its indebtedness or assets or rights or warrants to subscribe for or purchase any security, then in each such case the Conversion Value shall be determined by multiplying such Conversion Value in effect immediately prior to the record date fixed for determination of stockholders entitled to receive such distribution by a fraction of which the denominator shall be the VWAP determined as of the record date mentioned above, and of which the numerator shall be such VWAP on such record date less the then fair market value at such record date of the portion of such assets or evidence of indebtedness so distributed applicable to one outstanding share of the Common Stock as determined by the Board of Directors in good faith. In either case the adjustments shall be described in a statement provided to the Holders of the portion of assets or evidences of indebtedness so distributed or such subscription rights applicable to one

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

share of Common Stock. Such adjustment shall be made whenever any such distribution is made and shall become effective immediately after the record date mentioned above.

5A.7.8 Calculations. All calculations under this Section 5A.7 shall be made to the nearest cent or the nearest 1/100th of a share, as the case may be. The number of shares of Common Stock outstanding at any given time shall not include shares owned or held by or for the account of the corporation, and the description of any such shares of Common Stock shall be considered on issue or sale of Common Stock. For purposes of this Section 5A.7, the number of shares of Common Stock deemed to be issued and outstanding as of a given date shall be the sum of the number of shares of Common Stock (excluding treasury shares, if any) actually issued and outstanding.

5A.7.9 Notice to Holders.

(g) Adjustment to Conversion Price. Whenever the Conversion Value is adjusted pursuant to any of Section 5A.7, the corporation shall promptly mail to each Holder a notice setting forth the Conversion Value after such adjustment and setting forth a brief statement of the facts requiring such adjustment. If the corporation issues a variable rate security, despite the prohibition thereon in the Purchase Agreement, the corporation shall be deemed to have issued Common Stock or Common Stock Equivalents at the lowest possible conversion or exercise price at which such securities may be converted or exercised in the case of a Variable Rate Transaction (as defined in the Purchase Agreement), or the lowest possible adjustment price in the case of an MFN Transaction (as defined in the Purchase Agreement).

(h) Notices of Other Events. If (A) the corporation shall declare a dividend (or any other distribution) on the Common Stock; (B) the corporation shall declare a redemption of the Common Stock; (C) the corporation shall authorize the granting to all holders of the Common Stock rights or warrants to subscribe for or purchase any shares of capital stock of any class or of any rights; (D) the approval of any stockholders of the corporation shall be required in connection with any reclassification of the Common Stock or any Fundamental Transaction, (E) the corporation shall authorize the voluntary or involuntary dissolution, liquidation or winding up of the affairs of the corporation; then in each case, the corporation shall cause to be filed at each office or agency maintained for the purpose of conversion of the Series A Preferred Stock, and shall cause to be mailed to the Holders at their last addresses as they shall appear upon the stock books of the corporation, at least 30 calendar days prior to the applicable record or effective date hereinafter specified, a notice stating (x) the date on which a record is to be taken for the purpose of such dividend, distribution, redemption, rights or warrants, or if a record is not to be taken, the date as of which the holders of the Common Stock of record to be entitled to such dividend, distributions, redemption, rights or warrants are to be determined or (y) the date on which such reclassification is expected to become effective or close, and the date as of which it is expected that holders of the Common Stock of record shall be entitled to exchange their shares of the Common Stock for securities, cash or other property deliverable upon such reclassification or Fundamental Transaction; provided, that the failure to mail such notice or any defect therein or in the mailing thereof shall not affect the validity of the corporate action required to be specified in such notice.

(i) Exempt Issuance. Notwithstanding the foregoing, no adjustment will be made under this Section 5A.7 in respect of an Exempt Issuance.

(j) Fundamental Transaction. If, at any time while this Series A Preferred Stock is outstanding, (A) the corporation effects any merger or consolidation of the corporation with or into another Person, (B) the corporation effects any sale of all or substantially all of its assets in one or a series of

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

related transactions, (C) any tender offer or exchange offer (whether by the corporation or another Person) is completed pursuant to which holders of Common Stock are permitted to tender or exchange their shares for other securities, cash or property, or (D) the corporation effects any reclassification of the Common Stock or any compulsory share exchange pursuant to which the Common Stock is effectively converted into or exchanged for other securities, cash or property (in any such case, a "Fundamental Transaction"), then upon any subsequent conversion of this Series A Preferred Stock, the Holder shall have the right to receive, for each Conversion Share that would have been issuable upon such conversion absent such Fundamental Transaction, the same kind and amount of securities, cash or property as it would have been entitled to receive upon the occurrence of such Fundamental Transaction if it had been, immediately prior to such Fundamental Transaction, the holder of one share of Common Stock (the "Alternate Consideration"). For purposes of any such conversion, the determination of the Conversion Price shall be appropriately adjusted to apply to such Alternate Consideration based on the amount of Alternate Consideration issuable in respect of one share of Common Stock in such Fundamental Transaction, and the corporation shall apportion the Conversion Price among the Alternate Consideration in a reasonable manner reflecting the relative value of any different components of the Alternate Consideration. If holders of Common Stock are given any choice as to the securities, cash or property to be received in a Fundamental Transaction, then the Holder shall be given the same choice as to the Alternate Consideration it receives upon any conversion of this Series A Preferred Stock following such Fundamental Transaction. To the extent necessary to effectuate the foregoing provisions, any successor to the corporation or surviving entity in such Fundamental Transaction shall file a new Certificate of Designations with the same terms and conditions and issue to the Holder new preferred stock consistent with the foregoing provisions and evidencing the Holder's right to convert such preferred stock into Alternate Consideration. The terms of any agreement pursuant to which a Fundamental Transaction is effected shall include terms requiring any such successor or surviving entity to comply with the provisions of this Section 5A.7.9(d) and insuring that this Series A Preferred Stock (or any such replacement security) will be similarly adjusted upon any subsequent transaction analogous to a Fundamental Transaction.

5A.8 Miscellaneous.

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

is required to be given.

5A.8.2 Absolute Obligation. Except as expressly provided herein, no provision of this Certificate of Designation shall alter or impair the obligation of the corporation, which is absolute and unconditional, to pay the liquidated damages (if any) on, the shares of Series A Preferred Stock at the time, place, and rate, and in the coin or currency, herein prescribed.

5A.8.3 Lost or Mutilated Preferred Stock Certificate. If a Holder's Series A Preferred Stock certificate shall be mutilated, lost, stolen or destroyed, the corporation shall execute and deliver, in exchange and substitution for and upon cancellation of a mutilated certificate, or in lieu of or in substitution for a lost, stolen or destroyed certificate, a new certificate for the shares of Series A Preferred Stock so mutilated, lost, stolen or destroyed but only upon receipt of evidence of such loss, theft or destruction of such certificate, and of the ownership thereof, and indemnity, if requested, all reasonably satisfactory to the corporation.

5A.8.4 Next Business Day. Whenever any payment or other obligation hereunder shall be due on a day other than a Business Day, such payment shall be made on the next succeeding Business Day.

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

The financial statements presented are those of 511092 N.B. LTD. DBA LabMentors, a Canadian Corporation ("the Company").

On February 2, 2000, LabMentors was incorporated under the laws of the Province of New Brunswick, Canada as 511092 N.B. LTD. to engage in web-based educational products. LabMentors currently sells products to Course Technology and DeVry in the United States. These programs offer a unique atmosphere highly conducive to individual styles of learning and a system that utilizes computer technology to increase areas of inquiry and application. In addition, the labs allow certifications for several platforms and software applications at the collegiate level. The Company intends to continue to develop products for this market, as well as expand its reach into secondary education in the U.S. and internationally. Our products and technologies are targeted to the public and private school classrooms. Our products and technologies are delivered to the classroom through software and Internet access. Our technologies allow students to explore the basic foundations of computers from programming to database technologies to server integration.

There are currently three major shareholders of the Company stock, including Joseph Khoury (President), Bogdan Itoafa (Co-Founder), and Workers Investment Fund.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Accounting Method

The Company's financial statements are prepared using the accrual method of accounting. The Company has elected May 31 as its year-end.

b. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

c. Basic Loss per Share

The computation of basic loss per share of common stock is based on the weighted average number of shares outstanding during the period of the financial statements. As of September 30, 2005, the Company had no stock equivalents outstanding.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Concentration of Credit Risks and Significant Customers

The Company maintains cash in bank deposit accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

Financial instruments which potentially subject the Company to concentration

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

of credit risk consist primarily of trade receivables. In the normal course of business, the Company provides credit terms to its customers. Accordingly, the Company performs ongoing credit evaluations of its customers and maintains allowances for possible losses which when realized have been within the range of management's expectations. The Company does not require collateral from its customers.

During the period ended September 30, 2005, the Company had sales to one major customer that accounted for 100 percent of revenues.

e. Foreign Currency Translation

The functional currency of the Company is the Canadian dollar (\$CDN). The Company's financial statements have been translated into US dollars. All assets and liabilities are translated at the exchange rate on the balance sheet date and all revenues and expenditures are translated at the average rate for the year. Translation adjustments are reflected as a separate component of stockholders' equity, accumulated other comprehensive income (loss) and the net change for the year reflected separately in the statements of operations and other comprehensive income (loss).

In accordance with SFAS No. 95, "Statement of Cash Flows," the cash flows of the Company are translated using the weighted average exchange rates during the respective period. As a result, amounts in the statement of cash flows related to changes in assets and liabilities will not necessarily agree with the changes in the corresponding balances on the balance sheet which was translated at the exchange rate at the end of the period.

f. Revenue Recognition

The Company recognizes revenues relating to access to and usage of its program and exercise software on the Company's website over the term of the subscription or hourly units purchased.

g. Newly Issued Accounting Pronouncements

During the period ended September 30, 2005, the Company adopted the following accounting pronouncements:

The FASB issued SFAS No. 123R (revised 2004) "Share-Based Payment" in December 2004. SFAS No. 123R requires employee stock-based compensation to be measured based on the fair value as of the grant-date of the awards and the cost is to be recognized over the period during which an employee is required to provide services in exchange for the award. This pronouncement eliminates the alternative use of Accounting Principles Board (APB) No. 25, wherein the intrinsic value method of accounting for awards. SFAS No. 123R is effective for the Company's fiscal year beginning June 1, 2005. The company will adopt the provisions of SFAS No. 123R on a prospective basis once the acquisition is complete. The financial statement impact is not an issue in that all stock currently outstanding with the Company will be converted to PCS stock upon close, after which time all calculations will be in accordance with their policies and procedures, which incorporate this new SFAS.

The FASB issued SFAS No. 154, Accounting Changes and Error Correction - a

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

replacement of APB No. 20 and SFAS No. 3, Reporting Accounting Changes in Interim Financial Statements, in May 2005. SFAS 154 changes the requirements for the accounting for and reporting of a change in accounting principle. It also applies to changes required by an accounting pronouncement in the unusual instance that the pronouncement does not include specific transition provisions.

The implementation of the provisions of these pronouncements are not expected to have a significant effect on the Company's consolidated financial statement presentation.

h. Educational Software

The Company's inventory consists of internally developed education computer programs and exercises to be accessed on the internet. In accordance with FAS 86, the costs associated with research and initial feasibility of the programs and exercises are expensed as incurred. Once economic feasibility has been determined, the costs to develop the programs and exercises are capitalized until they are ready for sale and access and are reported at the lower of unamortized cost or net realizable value. Capitalized program and exercise inventory are amortized on a straight-line basis over the estimate useful life of the program or exercise, generally 42 to 48 months.

9

511092 N.B. LTD. DBA LABMENTORS
Notes to the Financial Statements
September 30, 2005

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Intellectual Property

The Company's intellectual property consists of capitalized costs associated with the development of the internet software and delivery platform developed by the Company to enable access to the various educational programs and exercises developed by the Company. In accordance with FAS 86 as discussed previously regarding inventory, the initial costs associated with researching the delivery platform and methods were expensed until economic feasibility and acceptance were determined. Thereafter, costs incurred to develop the internet online delivery platform and related environments were capitalized until ready for use and able to deliver and access the Company's educational programs and exercises. Costs incurred thereafter to maintain the delivery and access platform are expensed as incurred. These capitalized costs are being amortized on a straight-line basis over the estimated useful life of the Company's delivery and access platform which has been determined to be 60 months.

j. Property and Equipment

Property and equipment are recorded at cost and being depreciated for financial accounting purposes on the straight-line method over their respective estimated useful lives ranging from five to seven years. Upon retirement or other disposition of these assets, the cost and related accumulated depreciation are removed from the accounts and the resulting gains or losses are reflected in the results of operations.

Expenditures for maintenance and repairs are charged to operations. Renewals and betterments are capitalized. Depreciation of leased equipment under capital leases is included in depreciation.

NOTE 3 - RESTRICTED CASH

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

Pursuant to an employment arrangement, the Company has placed funds in an escrow account with an attorney. Those funds are restricted as to their use and have been classified as such in the Company's financial statements. A portion of the funds are released each pay period to pay the salary of the employee who is utilizing LabMentors until December 2005 as an employee based immigration sponsor. The balance of restricted cash of September 30, 2005 was \$3,935.

NOTE 4 - OTHER RECEIVABLES

This amount includes receivables from employees due to travel and other expense advances. Each will be properly categorized once documentation and/or receipts are provided to the accounting department. No material changes should be noted.

NOTE 5 - NOTES PAYABLE & LONG TERM DEBT

As of September 30, 2005, the following notes payable and long-term debt were outstanding:

ACOA Loan	\$	45,402
Loan #1 BH		5,587
Notes Payable WIF		98,971
Notes Payable Frank Maresca		103,028

Long Term Debt	\$	130,522
		=====

Also note that all debt, with the exception of the ACOA Loan will be converted at close of the acquisition, which occurred as a subsequent event referenced in Note 8.

NOTE 6 - COMMITMENTS AND CONTINGENCIES

Currently the Company has a month-to-month lease agreement for its office location. This lease is between the Company and a related party. This related party is wholly owned by the Company's President and CEO.

NOTE 7 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company does not have significant cash or other material assets, nor does it have an established source of revenues sufficient to cover its operating costs. Additionally, the Company has accumulated significant losses, has negative working capital, and a deficit in stockholders' equity. All of these items raise substantial doubt about its ability to continue as a going concern. Management's plans with respect to alleviating the adverse financial conditions that caused its auditors to express substantial doubt about the Company's ability to continue as a going concern are as

Edgar Filing: PCS EDVENTURES COM INC - Form PRER14A

follows:

During the fiscal year ending May 2005, the Company opened discussions with PCS Edventures!.com, Inc. for possible acquisition activities. As stated in Note 8, this acquisition is set to close on or before November 30, 2005. Over the next fiscal year, the Company will continue to develop marketplace strategy for the U.S. market as well as the international market. See Note 8 for further information.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plan described in the preceding paragraph and eventually attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 8 - SUBSEQUENT EVENTS

In July 2005, the Company entered into a Letter of Intent Agreement which provides for the Company to be acquired by PCS Edventures!.com, Inc., an Idaho Corporation ("PCS"). On November 30, 2005, a Share Exchange Agreement was executed by all shareholders and PCS President to conclude the acquisition of LabMentors. LabMentors has since legally changed its name to PCS LabMentors, LTD. The Company is structured as a wholly owned subsidiary of PCS. All accounting is currently being transitioned to PCS, while sales and research and development continue to take place in Fredericton, New Brunswick Canada. No employees were terminated as a result of the acquisition.

In addition, the Company changed locations. The Company now operates from a smaller location owned and managed by an unrelated party on a month-to-month basis.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g. Provision for Income Taxes

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely that not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Net deferred tax assets consist of the following components as of May 31, 2005:

Deferred tax assets:	
NOL Carryover	\$ 94,675
Deferred tax liabilities:	
	-
Valuation allowance	(94,675)

Net deferred tax asset	\$ -
	=====

The income tax provision differs from the amount of income tax determined by applying the Canadian federal and provincial income tax rates totaling 35% to pretax income from continuing operations for the years ended May 31, 2005 due to the following:

Book loss	\$ (55,810)
Valuation allowance	55,810

	\$ -
	=====

At May 31, 2005, the Company had net operating loss carryforwards of approximately \$270,000 that may be offset against future taxable income from the year 2005 through 2024. No tax benefit has been reported in the May 31, 2005 financial statements since the potential tax benefit is offset by a valuation allowance of the same amount.

Canadian tax laws allow a company to recoup a significant amount of research and development costs. As a result, the Company will continue to conduct its research and development within Fredericton, New Brunswick and continue to apply for such tax incentives. In addition, income taxes are/will be prepared in accordance with Revenue Canada guidelines so as to maximize additional incentives, when available (see Note x).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Newly Issued Accounting Pronouncements

During the year ended May 31, 2005, the Company adopted the following accounting pronouncements:

The FASB issued SFAS No. 123R (revised 2004) "Share-Based Payment" in December 2004. SFAS No. 123R requires employee stock-based compensation to be measured based on the fair value as of the grant-date of the awards and the cost is to be recognized over the period during which an employee is required to provide services in exchange for the award. This pronouncement eliminates the alternative use of Accounting Principles Board (APB) No. 25, wherein the intrinsic value method of accounting for awards. SFAS No. 123R is effective for the Company's fiscal year beginning June 1, 2005. The company will adopt the provisions of SFAS No. 123R on a prospective basis once the acquisition is complete. The financial statement impact is not an issue in that all stock currently outstanding with the Company will be converted to PCS stock upon close, after which time all calculations will be in accordance with their policies and procedures, which incorporate this new SFAS.

The FASB issued SFAS No. 154, Accounting Changes and Error Correction - a replacement of APB No. 20 and SFAS No. 3, Reporting Accounting Changes in Interim Financial Statements, in May 2005. SFAS 154 changes the requirements for the accounting for and reporting of a change in accounting principle. It also applies to changes required by an accounting pronouncement in the unusual instance that the pronouncement does not include specific transition provisions.

The implementation of the provisions of these pronouncements are not expected to have a significant effect on the Company's consolidated financial statement presentation.

i. Educational Software

The Company's inventory consists of internally developed education computer programs and exercises to be accessed on the internet. In accordance with FAS 86, the costs associated with research and initial feasibility of the programs and exercises are expensed as incurred. Once economic feasibility has been determined, the costs to develop the programs and exercises are capitalized until they are ready for sale and access and are reported at the lower of unamortized cost or net realizable value. Capitalized program and exercise inventory are amortized on a straight-line basis over the estimate useful life of the program or exercise, generally 42 to 48 months.

educational programs and exercises developed by the Company. In accordance with FAS 86 as discussed previously regarding inventory, the initial costs associated with researching the delivery platform and methods were expensed until economic feasibility and acceptance were determined. Thereafter, costs incurred to develop the internet online delivery platform and related environments were capitalized until ready for use and able to deliver and access the Company's educational programs and exercises. Costs incurred thereafter to maintain the delivery and access platform are expensed as incurred. These capitalized costs are being amortized on a straight-line basis over the estimated useful life of the Company's delivery and access platform which has been determined to be 60 months.

k. Property and Equipment

Property and equipment are recorded at cost and being depreciated for financial accounting purposes on the straight-line method over their respective estimated useful lives ranging from five to seven years. Upon retirement or other disposition of these assets, the cost and related accumulated depreciation are removed from the accounts and the resulting gains or losses are reflected in the results of operations.

Expenditures for maintenance and repairs are charged to operations. Renewals and betterments are capitalized. Depreciation of leased equipment under capital leases is included in depreciation.

NOTE 3 - RESTRICTED CASH

Pursuant to an employment arrangement, the Company has placed funds in an escrow account with an attorney. Those funds are restricted as to their use and have been classified as such in the Company's financial statements. A portion of the funds are released each pay period to pay the salary of the employee who is utilizing LabMentors until December 2005 as an employee based immigration sponsor. The balance of restricted cash of May 31, 2005 was \$13,934.

NOTE 4 - TAX INCENTIVES

Scientific Research & Experimental Development ("SR&ED") can allow for tax credits to Canadian companies. The Company is in the process of applying for such refundable tax credits for the years ended May 31, 2004 and 2005. Currently the Company has a month-to-month lease agreement for its office location. This lease is between the Company and a related party. This related party is wholly owned by the Company's President and CEO.

NOTE 7 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company does not have significant cash or other material assets, nor does it have an established source of revenues sufficient to cover its operating costs. Additionally, the Company has accumulated significant losses, has negative working capital, and a deficit in stockholders' equity. All of these items raise substantial doubt about its ability to continue as a going concern. Management's plans with respect to alleviating the adverse financial conditions that caused its auditors to express substantial doubt about the Company's ability to continue as a going concern are as follows:

During the fiscal year ending May 2005, the Company opened discussions with PCS Edventures!.com, Inc. for possible acquisition activities. As noted above, this acquisition is set to close on or before November 30, 2005. Over the next fiscal year, the Company will continue to develop marketplace strategy for the U.S. market as well as the international market.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plan described in the preceding paragraph and eventually attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.
