Notes to the Financial Statements

March 31, 2006 and December 31, 2005

NOTE 1 - BASIS OF FINANCIAL STATEMENT PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to accounting principles generally accepted in the United States of America. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted in accordance with such rules and regulations. The information furnished in the interim condensed consolidated financial statements include normal recurring adjustments and reflects all adjustments, which, in the opinion of management, are necessary for a fair presentation of such financial statements. Although management believes the disclosures and information presented are adequate to make the information not misleading, it is suggested that these interim condensed consolidated financial statements be read in conjunction with the Company's most recent audited financial statements and notes thereto included in its December 31, 2005 financial statements. Operating results for the three months ended March 31, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006.

NOTE 2 - ORGANIZATION AND DESCRIPTION OF BUSINESS

The Company was formed on October 25, 2005 and incorporated in the state of California. The Company is involved in the design and manufacture of ultra low temperature (ULT) cooling systems. The Cryomastor brand is a newly invented, liquid nitrogen cooled storage system that provides temperature versatility, temperature uniformity and eliminates many of the problems associated with current ULT systems.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Accounting Method

The Company's financial statements are prepared using the accrual method of accounting. The Company has elected a December 31 year-end.

b. Revenue Recognition

The Company recognizes revenues as required by Staff Accounting Bulletin No. 101 Revenue Recognition in Financial Statements . Revenue is only recognized on product sales once the product has been shipped to the customers (FOB Origin), and all other obligations have been met. The Company had no income for the quarter ended March 31, 2006 and the year ended December 31, 2005.

(A DEVELOPMENT STAGE COMPANY)

Notes to the Financial Statements

March 31, 2006 and December 31, 2005

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

c. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

h. Newly Issued Accounting Pronouncements

In December 2004, the FASB issued SFAS No. 123 (Revised 2004) (SFAS 123 (R)) Share-based payment. SFAS 123 (R) will require compensation costs related to share-based payment transactions to be recognized in the financial statements. With limited exceptions, the amount of compensation cost will be measured based on the grant-date fair value of the equity or liability instruments issued. In addition, liability awards will be re-measured each reporting period. Compensation cost will be recognized over the period that an employee provides service in exchange for the award. FASB 123 (R) replaces FASB 123, Accounting for Stock-Based Compensation and supersedes APB option No. 25, Accounting for Stock Issued to Employees. This guidance is effective as of the first interim or annual reporting period after December 15, 2005 for Small Business filers.

In November 2004, the FASB issued SFAS No. 151 (SFAS 151), Inventory Costs. SFAS 151 amends ARB No. 43, Chapter 4. This statement clarifies the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). SFAS 151 is the result of a broader effort by the FASB and the IASB to improve financial reporting by eliminating certain narrow differences between their existing accounting standards. This statement is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. The adoption of SFAS 151 did not have a material impact on the results of operations of the Company.

In December 2004, the FASB issued SFAS No. 152, "Accounting for Real Estate Time-Sharing Transactions," which is effective for years beginning after June 15, 2005. The adoption of this new accounting standard had no material effect on the Company's financial statements.

March 31, 2006 and December 31, 2005

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Newly Issued Accounting Pronouncements (Continued)

In December 2004, the FASB issued SFAS No. 153 (SFAS 153) Exchange of Non-monetary assets . This statement was a result of a joint effort by the FASB and the IASB to improve financial reporting by eliminating certain narrow differences between their existing accounting standards. One such difference was the exception from fair value measurement in APB Opinion No. 29, Accounting for Non-Monetary Transactions, for non-monetary exchanges of similar productive assets. SFAS 153 replaces this exception with a general exception from fair value measurement for exchanges of non-monetary assets that do not have commercial substance. A non-monetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. This statement is effective for non-monetary assets exchanges occurring in fiscal periods beginning after June 15, 2005. The adoption of SFAS 153 did not have a material effect on the Company's financial position or results of operations.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections," which replaces APB Opinion No. 20 "Accounting Changes," and FASB Statement No. 3 "Reporting Accounting Changes in Interim Financial Statements," and changes the requirements for the accounting for and reporting of a change in accounting principle. This Statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. This Statement shall be effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Early adoption is permitted for accounting changes and corrections of errors made in fiscal years beginning after the date this Statement is issued. We do not believe that adoption of SFAS 154 will have a material impact on our financial statements.

The implementation of the provisions of these pronouncements are not expected to have a significant effect on the Company's financial statement presentation.
