PROXY STATEMENT

2002 ANNUAL MEETING OF STOCKHOLDERS

The board of directors of Pioneer Natural Resources Company (the "Board of Directors") requests your Proxy for the Annual Meeting of Stockholders that will be held at 9:00 a.m., on Tuesday, May 14, 2002, in the Britain Room at the Dallas Marriott Las Colinas Hotel, Irving, Texas 75039 (the "Annual Meeting"). By granting the Proxy, you authorize the persons named on the Proxy to represent you and vote your shares at the Annual Meeting. Those persons will also be authorized to vote your shares to adjourn the meeting from time to time and to vote your shares at any adjournments or postponements of the meeting.

You may grant your Proxy by signing, dating and returning the enclosed paper proxy card. Instead of returning the paper proxy card, you may complete a proxy card electronically through the Internet by accessing the website of the Company's transfer agent at www.continentalstock.com. You will need the control numbers that are printed on your personalized paper proxy card. See "Internet Voting."

If you attend the Annual Meeting, you may vote in person. If you are not present at the Annual Meeting, your shares may be voted only by a person to whom you have given a proper proxy, such as the accompanying Proxy or the Internet Proxy. You may revoke the Proxy in writing at any time before it is exercised at the Annual Meeting by delivering to the Secretary of the Company a written notice of the revocation, or by signing and delivering to the Secretary of the Company a proxy with a later date or by submitting your vote electronically through the Internet with a later date. Your attendance at the Annual Meeting will not revoke the Proxy unless you give written notice of revocation to the Secretary of the Company before the Proxy is exercised or unless you vote your shares in person at the Annual Meeting.

This Proxy Statement and the accompanying Notice of Annual Meeting and Proxy are first being sent or given to stockholders of the Company on or about April 10, 2002.

QUORUM AND VOTING

Voting Stock. The Company has two outstanding classes of securities that entitle holders to vote generally at meetings of the Company's stockholders: common stock, par value \$.01 per share; and Special Preferred Voting Stock, par value \$.01 per share. A single share (the "Voting Share") of Special Preferred

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

Voting Stock was issued to Computershare Trust Company of Canada (the "Trustee") as trustee under a Voting and Exchange Trust Agreement for the benefit of holders of exchangeable shares issued by the Company's wholly-owned subsidiary, Pioneer Natural Resources Canada Inc., in connection with the Company's December 1997 acquisition of Chauvco Resources Ltd. The common stock and the Voting Share vote together as a single class on all matters except when Delaware law requires otherwise. Each share of common stock outstanding on the record date is entitled to one vote. The Voting Share is entitled to one vote for each exchangeable share outstanding on the record date. The Trustee is required to vote the Voting Share in the manner that holders of exchangeable shares instruct, and to abstain from voting in proportion to the exchangeable shares for which the Trustee does not receive instructions. Accordingly, references to "stockholders" in this Proxy Statement include holders of common stock, the Trustee, and holders of exchangeable shares. The procedures for holders of exchangeable shares to instruct the Trustee about voting at the Annual Meeting are explained in the "Information Statement for Holders of Exchangeable Shares of Pioneer Natural Resources Canada Inc." that is enclosed with this Proxy Statement only for holders of exchangeable shares.

3

Record Date. The record date for stockholders entitled to notice of and to vote at the Annual Meeting is the close of business on March 25, 2002. At the record date, 103,350,967 shares of common stock and one Voting Share were outstanding and entitled to be voted at the Annual Meeting. At the record date, 942,847 exchangeable shares were outstanding and entitled to give voting instructions to the Trustee. Accordingly, 104,293,814 votes are eligible to be cast at the Annual Meeting.

Quorum and Adjournments. The presence, in person or by proxy, of the holders of a majority of the votes eligible to be cast at the Annual Meeting is necessary to constitute a quorum at the Annual Meeting.

If a quorum is not present, the stockholders entitled to vote who are present in person or by proxy at the Annual Meeting have the power to adjourn the Annual Meeting from time to time, without notice other than an announcement at the Annual Meeting, until a quorum is present. At any adjourned Annual Meeting at which a quorum is present, any business may be transacted that might have been transacted at the Annual Meeting as originally notified.

Vote Required. Directors will be elected by a plurality of the votes present and entitled to be voted at the Annual Meeting. Ratification of the selection of the Company's auditors will require the affirmative vote of the holders of a majority of the shares present and entitled to be voted at the Annual Meeting. An automated system that the Company's transfer agent administers will tabulate the votes. Brokers who hold shares in street name for customers are required to vote shares in accordance with instructions received from the beneficial owners. Brokers are permitted to vote on discretionary items if they have not received instructions from the beneficial owners, but they are not permitted to vote (a "broker non-vote") on non-discretionary items absent instructions from the beneficial owner. Abstentions and broker non-votes will count in determining whether a quorum is present at the Annual Meeting. Both abstentions and broker non-votes will not have any effect on the outcome of voting on director elections. For purposes of voting on the ratification of the selection of auditors, abstentions will be included in the number of shares voting and will have the effect of a vote against the proposal, and broker non-votes will not be included in the number of shares voting and therefore will have no effect on the outcome of the voting.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

Default Voting. A Proxy that is properly completed and returned will be voted at the Annual Meeting in accordance with the instructions on the Proxy. If you properly complete and return a Proxy, but do not indicate any contrary voting instructions, your shares will be voted as follows:

- o FOR the election of the three persons named in this Proxy Statement as the Board of Directors' nominees for election to the Board of Directors.
- o FOR the ratification of the selection of Ernst & Young LLP as the Company's auditors.

If any other business properly comes before the stockholders for a vote at the meeting, your shares will be voted in accordance with the discretion of the holders of the Proxy. The Board of Directors knows of no matters, other than those previously stated, to be presented for consideration at the Annual Meeting.

ITEM ONE

Messrs. Baroffio and Sheffield are currently serving as directors of the Company, and Mr. Buchanan is a new nominee to the Board of Directors. Their biographical information is contained in "Directors and Executive Officers."

4

The Board of Directors has no reason to believe that any of its nominees will be unable or unwilling to serve if elected. If a nominee becomes unable or unwilling to accept nomination or election, either the number of the Company's directors will be reduced or the persons acting under the Proxy will vote for the election of a substitute nominee that the Board of Directors recommends.

The Board of Directors recommends that stockholders vote FOR the election of each of the nominees.

ITEM TWO

Financial Information Systems Design and Implementation Fees. No services were performed by, and no fees were incurred to, Ernst & Young LLP in connection with financial information systems design and implementation projects for 2001.

All Other Fees. The aggregate fees for all other services rendered by Ernst & Young LLP for 2001 were \$528,715, comprised of \$385,000 for internal audit services, \$40,830 for tax services, and \$102,885 for other professional services, consisting primarily of audit related services associated with a securities registration. Effective January 1, 2002, Ernst & Young LLP no longer serves as the Company's internal audit services provider.

The Company expects that representatives of Ernst & Young LLP will be present at the Annual Meeting to respond to appropriate questions and to make a statement if they desire to do so.

The report of Ernst & Young LLP on the Company's financial statements for 2001, 2000 and 1999 did not contain an adverse opinion or a disclaimer of opinion and was not qualified or modified as to uncertainty or audit scope.

In connection with the audits of the Company's financial statements for 2001, 2000 and 1999, there were no disagreements with Ernst & Young LLP on any matters of accounting principles or practices, financial statement disclosure, or auditing scope or procedures which, if not resolved to the satisfaction of such independent accountants, would have caused such independent accountants to make reference to the matter in their report.

The Board of Directors recommends that stockholders vote FOR ratification of the selection of Ernst & Young LLP.

MEETINGS AND COMMITTEES OF DIRECTORS

The Board of Directors of the Company held 13 meetings during 2001. No director attended fewer than 75% of the total number of meetings of the Board of Directors. No director attended fewer than 75% of the total number of meetings of all committees of the Board of Directors on which that director served.

The Board of Directors has two standing committees: the Audit Committee and the Compensation Committee.

The members of the Audit Committee are Messrs. Houghton (Chair), Gardner and Jones. The Audit Committee held eight meetings during 2001. Information regarding the functions performed by the Audit Committee is set forth in the "Audit Committee Report" included in this annual proxy statement.

The Compensation Committee periodically reviews the compensation, employee benefit plans and fringe benefits paid to or provided for executive officers of the Company and approves the annual salaries, bonuses and stock option awards of the Company's executive officers. The members of the Compensation Committee are Messrs. Ramsey (Chairman) and Baroffio. The Committee also administers the Company's Long-Term Incentive Plan. The Compensation Committee held three meetings during 2001.

MANAGEMENT COMPENSATION

Compensation of Directors

Each non-employee director receives an annual retainer fee of \$50,000 if the director serves on a committee and \$40,000 if a director does not. In addition, each non-employee director is reimbursed for travel expenses to attend meetings of the Board of Directors or its committees and an additional \$2,500 for services as chairman of a committee. No additional fees are paid for attendance at board or committee meetings. The Company's Chief Executive Officer does not receive additional compensation for serving on the Board of Directors.

Under the Company's Long-Term Incentive Plan, non-employee directors are eligible to receive awards in the form of non-qualified stock options, stock appreciation rights, restricted stock, or performance units. The Company can use

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

these awards instead of cash to pay its non-employee directors all or part of their annual retainer fees. The Board of Directors determines the form (or combination of forms) of consideration each year, based on the economic and other circumstances at the time and based on its view of which awards will best align the interests of the stockholders and the directors.

For the year following the Company's 2001 annual stockholders' meeting, the Board of Directors were given a choice to be compensated in (a) 100% cash, (b) 100% stock options, (c) 100% restricted stock, or (d) a combination of 50/50 of any two, in payment of the non-employee directors' annual fees. Messrs. Baroffio, Houghton, Jones and Ramsey elected 100% cash compensation, and Mr. Gardner elected to receive 100% of his compensation in stock options. The number of shares subject to stock options granted to each non-employee director was determined by dividing the director's annual retainer fee by the value of an option for one share on May 16, 2001 (the last closing sale price before the date of the award). The options have a fair-market value exercise price, and the value of each option was calculated using the Black-Scholes method based on assumptions provided by the Company's executive compensation consulting firm. These options vested 25% each quarter with the first vesting date on August 31, 2001.

On May 17, 2001, Mr. Gardner received an award of 4,878 stock options to compensate him for his annual retainer fee (each stock option awarded has an exercise price of \$22.09).

For the year following the Company's 2002 annual scheduled meeting, Directors can again elect to receive their annual fees 100% in cash, stock options or restricted stock or 50% each in any two of those three forms of compensation.

9

Compensation of Executive Officers

The compensation paid to the Company's executive officers generally consists of base salaries, annual bonuses, awards under the Long-Term Incentive Plan, contributions to the Company's 401(k) retirement plan, contributions to the Company's deferred compensation retirement plan, and miscellaneous perquisites. The following table summarizes the total compensation for 2001, 2000 and 1999 awarded to, earned by or paid to the following persons:

Long-Term Incentive Plan. The Long-Term Incentive Plan (the "Plan") provides for employee and non-employee director awards in the form of stock options, stock appreciation rights, restricted stock, and performance units payable in stock or cash. The maximum number of shares of common stock that may be issued under the Plan is equal to 10% of the total number of shares of common stock equivalents outstanding from time to time minus the total number of shares of stock subject to outstanding awards on the date of calculation under any other stock-based plan for employees or directors of the Company and its subsidiaries. The Plan had 3,933,384 shares available for additional awards at December 31, 2001.

No restricted stock, performance units or stock appreciation rights have been awarded under the Plan.

The following table sets forth information about stock option grants made during 2001 to the named executive officers.

Retirement Plan. The Company provides a non-qualified deferred compensation retirement plan for officers and certain key employees of the Company. Each participant is allowed to contribute up to 25% of base salary. The Company provides a matching contribution of 100% of the participant's contribution limited to the first 10% of the officer's base salary (or 8% of the key employee's base salary). The Company matching contribution vests immediately.

Severance Agreements. On August 8, 1997, the Company entered into severance agreements with its officers. Salaries and bonuses are set by the Compensation Committee independent of these agreements, and the Compensation Committee can increase or reduce base salaries at its discretion.

Either the Company or the officer may terminate the officer's employment under the severance agreement at any time. The Company must pay the officer an amount equal to one year's base salary if the officer's employment is terminated because of death, disability, or normal retirement. The Company must pay the officer an amount equal to one year's base salary and continue health insurance for the officer's family for one year if the Company terminates the officer's employment without cause or if the officer terminates employment for good reason, which is when reductions in the officer's base annual salary exceed specified limits or when the officer's responsibilities have been significantly reduced. If within one year after a change in control of the Company, the Company terminates the officer without cause, or if the officer terminates employment for good reason, the Company must pay the officer an amount equal to 2.99 times the sum of the officer's base salary plus target bonus for the year and continue health insurance for the officer's family for three years. Additionally, executive officers have the right to purchase health insurance

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

from the acquiring company until age 65 by paying Consolidated Omnibus Budget Reconciliation Act of 1985 rates. If an officer terminates employment with the Company without reason between six months and one year after a change in control, or at any time within one year after a change in control if the officer is required to move, then the Company must pay the officer one year's base salary and continue health insurance for the officer's family for one year. Officers are also entitled to additional payments for certain tax liabilities that may apply to severance payments following a change in control.

Indemnification Agreements. The Company has entered into indemnification agreements with each of its directors and officers, including the named executive officers. Those agreements require the Company to indemnify the directors and officers to the fullest extent permitted by the Delaware General Corporation Law and to advance expenses in connection with certain claims against directors and officers. The Company expects to enter into similar agreements with persons selected to be directors and officers in the future. Each indemnification agreement also provides that, upon a potential change in control of the Company and if the indemnified director or officer so requests, the Company will create a trust for the benefit of the indemnified director or officer in an amount sufficient to satisfy payment of all liabilities and suits against which the Company has indemnified the director or officer.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During fiscal year 2001, no member of the Compensation Committee also served as an executive officer of the Company. During fiscal year 2001, there were no Compensation Committee interlocks with other companies.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors submits the following report with respect to the executive compensation program of the Company.

Compensation Principles and Philosophy

The overriding responsibility of the committee is to maintain the Company's executive compensation program so that it attracts and retains a capable and highly motivated senior management team and aligns the compensation of the Company's executives with the Company's strategic business plan to increase stockholder value. During 2001 the committee retained an executive compensation consulting firm ("Hewitt Associates") to assist and advise it in its efforts to establish and administer fair and competitive compensation and incentive policies. These policies emphasize variable compensation, structure the annual bonus and long-term incentive awards to be a significant portion of an executive's total compensation and result in total compensation that is reflective of Company performance. Stock option awards will continue to be emphasized as part of each executive's compensation package to align stockholder and executive interests. The committee has adopted a policy of not repricing stock options and incorporated that policy into the Company's Long-Term Incentive Plan. Other critical elements of the Company's compensation and incentive policies provide for:

- o Base salaries at or slightly above median levels compared to industry industry survey information and peer group proxy analysis.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

- o Annual target bonus levels slightly above medium with payouts that are based on both individual and Company performance.
- o Long-term incentive award levels that are above median.
- o Significant stock ownership by the Directors and the Chief Executive Officer.

To support the commitment to significant stock ownership, the Company's current stock ownership guidelines are as follows:

- o Non-employee directors' stock value equal to at least three times each director's annual retainer fee.
- o Chairman of the Board and Chief Executive Officer stock value equal to at least five times base salary.

In determining compliance with these guidelines, the committee considers its expectations of the long-term value of the Company's stock and the current trading levels. Mr. Sheffield and all Directors are in compliance with the ownership guidelines.

The Omnibus Budget Reconciliation Act of 1993 ("OBRA93") placed restrictions on the deductibility of executive compensation paid by public companies. Under the restrictions that were effective in 1994, the Company is not able to deduct compensation paid to any of the named executive officers in excess of \$1,000,000 unless the compensation meets the definition of "performance based compensation" in the legislation. Non-deductibility could result in additional tax costs to the Company. While the committee cannot assess with certainty how the Company's compensation program will ultimately be affected by OBRA93, the committee generally tries to preserve the deductibility of all executive compensation if it can do so without interfering with the Company's ability to attract and retain capable and highly motivated senior management.

13

Elements of Compensation

The elements of the compensation program the committee administers for executive officers, including the Chief Executive Officer, consist of base salaries, annual bonuses, awards made under the Company's Long-Term Incentive Plan, contributions to the Company's 401(k) retirement plan, contributions to the Company's deferred compensation retirement plan, and miscellaneous perquisites. Base salaries, annual bonuses and long-term incentives are discussed separately below; however, the committee considers the aggregate remuneration of executives when evaluating the executive compensation program.

Base Salaries. An executive's base salary is viewed as a fixed component of total compensation that should be competitive with companies of similar size and business to the Company. The committee has targeted base salaries at or slightly above the median level for companies of similar size and business to the Company. The committee evaluates the base salaries of the Company's executive officers on the basis of competitive base salary survey data provided by its consultant and consideration of each officer's duties and responsibilities. The committee views the named executives below the Chief Executive Officer level as a team with diverse duties but with similar authority and responsibility. Hewitt Associates historically has provided base salary

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

survey data on the majority of the Company's peer group companies, a group of independent exploration and production companies with similar asset, revenue and capital investment profiles as the Company. While the peer group provided by Hewitt Associates includes some of the members of the Dow Jones Oil-Secondary Index (the "DJ Oil-Secondary Group") reflected in the performance graph set forth under "Company Performance" below, it does not include all of the companies in that peer group and includes other companies with which the Company competes. The committee determines the base salary for all named executives, including Mr. Sheffield, using the same methodology.

The 2001 base salaries for the named executive officers as a group, including Mr. Sheffield, were identified by Hewitt Associates as being at approximately the 50th percentile level. For 2002 Mr. Sheffield's base salary was increased by 6% to \$700,000 which Hewitt Associates has identified as being at or slightly above the 50th percentile. Hewitt Associates has indicated the other named executive officer's 2002 base salaries, as a group, are slightly above the 50th percentile.

Annual Bonuses. Each year the committee establishes a target bonus for each executive based on the target bonus median levels of executives in similar positions at peer group companies. To maintain internal equity, the level of responsibility, scope and complexity of the executive's position are considered. The range of awards for the annual incentive bonus plan has historically been between 75% to 150% of target. For 2001 Hewitt Associates determined the bonus target levels for the named executive officers were below the median levels for peer group companies. Each named executive's target bonus level, including Mr. Sheffield's, was increased to a level Hewitt Associates identified as being approximately the 60th percentile level. Each named executive's 2002 target bonus level will be the same as their 2001 target bonus level. In awarding 2001 bonuses, the Company reviewed the following criteria that are important to the success of the Company's business plan.

- o Operating cost per BOE
- o Debt/Book capitalization
- o Reserve replacement
- o Growth of share value
- o Finding & development cost per BOE
- o Production growth
- o General and administrative costs

In determining the named executive officers' annual bonus awards, the committee also evaluated the Company's stock performance in relation to its peer group. The committee did not employ a formula, specific targets or predetermined weighting of the above financial or operational performance criteria. The committee also evaluates Company performance in light of oil and gas industry fundamentals and assesses how effectively management adapts to changing industry conditions and opportunities during the year. The committee observes and evaluates the individual performance of executive officers through the year and discusses the performance of these key executives with Mr. Sheffield.

14

For 2001, the committee awarded Mr. Sheffield and the other named executives cash bonuses above the target bonus levels. Specific Company performance which resulted in bonus payouts above target for 2001 included:

- o Base operating costs of \$2.76 per BOE

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

- o Debt/Book capitalization of 55%
- o Reserve replacement of 208% (268% excluding price revisions)
- o Return on equity of 9%
- o Finding and development costs of \$7.49 per BOE (\$5.81 per BOE excluding price revisions)
- o General & administrative cost of \$.89 per BOE

Regarding stock performance, for the second consecutive year, Pioneer's stock price performance compared to other peer group companies achieved a number two ranking overall. Also, Pioneer's three year cumulative total return based on stock price performance has exceeded both the S&P 500 and the DJ Oil Secondary Group per the graph below. In addition, Pioneer's stock price hit a three year high of \$23.05 in May 2001.

Long-term Incentives. A significant portion of the named executive officers' total compensation is comprised of long-term incentive awards, which are intended to align executive management's interests in long-term growth and success more closely with the interests of the Company's stockholders. The committee has determined that annual stock option awards should be the primary method to award long-term incentives. To provide an averaging effect for the stock option exercise prices, the committee has elected to make semiannual stock option awards of approximately 50% of annual grant levels.

The number of options granted to Mr. Sheffield in 2001 was determined by a comparison of option grants made to the Chief Executive Officer's of peer group companies. The other named executive officers were reviewed as a team. The level of options awarded to each named executive was determined by comparing awards granted to peer company executives holding similar positions, and their individual award levels were averaged to determine the actual grants. The award levels were not influenced by the stock holdings of the executives. The Company has historically held to the philosophy of awarding long-term incentives that

are above market averages. For 2001, Mr. Sheffield was awarded 138,000 stock options. Hewitt Associates indicated the 2001 award levels placed Mr. Sheffield and the other named executives at slightly above the 60th percentile for long-term incentive awards among the survey group.

In summary, the Company believes a significant portion of executive compensation should be variable and performance-based so that an executive's total compensation is linked to the performance of the individual, the Company and its stock price. The majority of the named executive officers' total compensation is variable, at-risk compensation. This structure allows the Company to administer overall compensation that rises or falls based on the Company's performance and to maintain a balance between the Company's short-term and long-term objectives.

AUDIT COMMITTEE REPORT

The Audit Committee's purpose is to assist the Board of Directors in its oversight of the Company's internal controls, financial statements and the audit process. The Board of Directors, in its business judgment, has determined that all members of the committee are independent as required under the listing standards of the New York Stock Exchange. The committee operates pursuant to a charter adopted by the Board of Directors and published in the proxy statement for the annual meeting of stockholders in 2001.

Management is responsible for the preparation, presentation and integrity of the Company's financial statements, accounting and financial reporting principles, and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent auditors, Ernst & Young LLP, are responsible for performing an independent audit of the consolidated financial statements in accordance with generally accepted auditing standards.

In performing its oversight role, the committee has reviewed and discussed the audited financial statements with management and the independent auditors. The committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as currently in effect. The committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1, Independent with Audit Committees, as currently in effect. The committee has also considered whether the performance of other non-audit services by the independent auditors is compatible with maintaining the auditor's independence and has discussed with

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form DEF 14A

the auditors the auditors' independence.

Based on the reports and discussions described in this Report, and subject to the limitations on the roles and responsibilities of the committee referred to below and in the charter, the committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2001, for filing with the Securities and Exchange Commission. The committee and the board have also recommended the selection of the Company's independent auditors.

The members of the committee are not professionally engaged in the practice of auditing or accounting for the Company and are not experts in auditor independence standards. Members of the committee rely without independent verification on the information provided to them and on the representations made by management and the independent auditors. Accordingly, the committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles, or that Ernst & Young LLP is in fact independent.
