1997 STOCK INCENTIVE PLAN SUMMARY

The following summary of the 1997 Plan is qualified in its entirety by the specific language of the 1997 Plan, a copy of which is available to any shareholder upon written request to Pixelworks' Secretary.

Background. The 1997 Plan, approved by Pixelworks' Board of Directors and its shareholders in January 1997, provides for the grant of incentive stock options ("ISOs") and non-qualified stock options ("NQSOs") to employees, executive officers and directors. During the year ended December 31, 2002, options to purchase 967,500 shares of common stock had been granted under the 1997 Plan at an average exercise price of approximately \$13.356 per share. At the time of its adoption, 6,976,744 shares were authorized and reserved for issuance under the 1997 Plan. In December 1999, the shareholders approved an amendment to the 1997 Plan to increase the number of shares of common stock reserved for issuance thereunder by 2,250,000 shares. In March 2000, the shareholders approved the adoption of Pixelworks' Fifth Amended and Restated Articles of Incorporation, which among other things, included a 3:2 stock split of the shares subject to option grants under the 1997 Plan, thereby increasing the reserved shares by 4,613,372. In May 2002, the shareholders approved an amendment to the 1997 Plan to increase the number of shares of common stock reserved for issuance thereunder by 1,500,000. As of the Record Date, options to purchase an aggregate of 3,571,905 shares of the Company's Common Stock were outstanding, with a weighted average exercise price of \$9.245 per share, and 1,702,709 shares were available for future grant. In addition, 10,065,482 shares have been purchased pursuant to the exercise of stock options under the 1997 Plan. At the Annual Meeting, the shareholders are being asked to approve an amendment of the 1997 Plan to increase the number of shares of common stock reserved for issuance thereunder by 1,500,000 shares.

Administration. The Board of Directors has vested the Compensation Committee with full authority to administer the 1997 Plan in accordance with its terms and to determine all questions arising in connection with the interpretation and application of the 1997 Plan. The Compensation Committee is currently comprised of Directors Stevens, Curme and Gill, none of whom are employees of Pixelworks. In any calendar year, no person may be granted options under the 1997 Plan exercisable for more than 300,000 shares.

Minimum Option Price. The exercise price of ISOs granted under the 1997 Plan may not be less than the fair market value of a share of common stock on the last market trading day prior to the date of grant of the option (110% of the fair market value in the case of employees who hold 10% or more of the voting power of the common stock (a "10% Shareholder")), and the exercise price of NQSOs may not be less than 85% of the fair market value of common stock on the date of grant. As defined in the 1997 Plan, "fair market value" means the closing price of the common stock (or the closing bid if no sales were reported) for the last market trading day prior to the date of grant of the option or authorization of sale or other determination, as reported on the NASDAQ National Market System on the date of grant.

Duration of Options. Subject to earlier termination of the option as a result of termination of employment, death or disability, each option granted under the 1997 Plan expires on the date specified by the Compensation Committee, but in no event more than (i) ten years from the date of grant in the case of ISOs and NQSOs generally, and (ii) five years from the date of grant in the case of ISOs granted to a 10% Shareholder.

Means of Exercising Options. The Board of Directors, or the Compensation Committee, as the case may be, may determine the consideration to be paid for the shares to be issued upon exercise of an option, including the method of payment, and may consist entirely of: (i) cash, (ii) check, (iii) promissory note, (iv) other shares of Pixelworks' common stock which (a) either have been owned by the optionee for more than six (6) months on the date of surrender or were not acquired, directly or indirectly, from Pixelworks, and (b) have a fair market value on the date of surrender equal to the

8

aggregate exercise price of the shares as to which said option shall be exercised, (v) delivery of a properly executed exercise notice together with such other documentation as the Administrator and the broker, if applicable, shall require to effect an exercise of the option and delivery to Pixelworks of the sale or loan proceeds required to pay the exercise price, or (vi) any combination of such methods of payment, or such other consideration and method of payment for the issuance of shares to the extent permitted under federal and state law.

Term and Amendment of the 1997 Plan. The 1997 Plan became effective when adopted by the Board of Directors. The 1997 Plan will continue in effect until January 16, 2007 unless earlier terminated in accordance with its terms. The Board of Directors may terminate or amend the 1997 Plan at any time, provided, however, that Pixelworks must obtain Shareholder approval of any amendment to the extent necessary and desirable to comply with Rule 16b-3 or with Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), or any successor rule, regulation or statute. Such Shareholder approval, if required, must be obtained in such a manner and to such a degree as is required by the applicable law, rule or regulation.

Assignability. Unless otherwise indicated, no option granted under the 1997 Plan is assignable or transferable by the optionee except by will or by the laws of descent and distribution.

Federal Tax Effects of ISOs. Pixelworks intends that ISOs granted under the 1997 Plan will qualify as incentive stock options under Section 422 of the Code. An optionee acquiring stock pursuant to an ISO receives favorable tax treatment in that the optionee does not recognize any taxable income at the time of the grant of the ISO or upon exercise. The tax treatment of the disposition of ISO stock depends upon whether the stock is disposed of within the holding period, which is the later of two years from the date the ISO is granted or one year from the date the ISO is exercised. If the optionee disposes of ISO stock after completion of the holding period, the optionee will recognize as capital gains income the difference between the amount received in such disposition and the cost basis in the ISO stock, i.e. the option's exercise price. If the optionee disposes of ISO stock before the holding period expires, it is considered a disqualifying disposition and the optionee must recognize the gain on the disposition as ordinary income in the year of the disqualifying disposition. Generally, the gain is equal to the difference between the option's exercise price and the stock's fair market value at the time the option is exercised and sold (the "bargain purchase element"). While the exercise of an ISO does not result in taxable income, there are implications with regard to the alternative minimum tax ("AMT"). When calculating income for AMT purposes, the favorable tax treatment granted ISOs is disregarded and the bargain purchase element of the ISO will be considered as part of AMT income. Just as the optionee does not recognize any taxable income on the grant or exercise of an ISO, Pixelworks is not entitled to a deduction on the grant or exercise of an ISO. Upon a disqualifying disposition of ISO stock, Pixelworks may deduct from taxable income in the year of the disqualifying disposition an amount generally equal to the amount that the optionee recognizes as ordinary income due to the disqualifying disposition.

Federal Tax Effects of NQSOs. If an option does not meet the statutory requirements of Section 422 of the Code and therefore does not qualify as an ISO, the difference, if any, between the option's exercise price and the fair market value of the stock on the date the option is exercised is considered compensation and is taxable as ordinary income to the optionee in the year the option is exercised. Pixelworks may deduct the amount of expense recognized by an employee as compensation expense. Although an optionee will generally realize ordinary income at the time the NQSO is exercised, if the stock issued upon exercise of the option is considered subject to a "substantial risk of forfeiture" and the employee has not filed a "Section 83(b) Election," then the optionee is not taxed when the option is exercised, but rather when the forfeiture restriction lapses. At that time, the optionee will realize ordinary income in an amount equal to the difference between the option's exercise price and the fair market value of the stock on the date the forfeiture restriction lapses.

9

The foregoing summary of federal income tax consequences of stock options does not purport to be complete, nor does it discuss the provisions of the income tax laws of any state or foreign country in which the optionee resides.

Participation in the 1997 Plan. All option grants to executive officers under the 1997 Plan are subject to the discretion of the Compensation Committee of the Board of Directors. As of the date of this Proxy Statement, the Administrator has not made any determination with respect to future option grants. Therefore, except for option grants to certain non-employee Directors, future awards are not determinable.

Actual gains, if any, on stock option exercises are dependent on the future performance of the common stock and overall stock market conditions. There can be no assurance that the common stock will appreciate at any particular rate or at all in future years.

(2) Options granted under the plans must generally be exercised while the individual is an employee and within ten years of the date of grant. On the standard vesting schedule, each option shall become exercisable at a rate of 25% on the first anniversary date of the grant and on the last day of every month thereafter for a total of thirty-six additional increments unless otherwise specifically stated at the

time of grant. On the alternative vesting schedule, options become exercisable monthly for a period of four years, with 10% becoming exercisable in the first year, 20% becoming exercisable in the second year, 30% becoming exercisable in the third year, and 40% becoming exercisable in the fourth year.

CHANGE OF CONTROL AND EMPLOYMENT ARRANGEMENTS

Bouchard Employment Agreement

In December 1999, the Company entered into an employment agreement with Jeffrey B. Bouchard, Vice President, Finance and Chief Financial Officer. In consideration for his services, the Company agreed to pay Mr. Bouchard an annual salary of \$140,000, plus the Company's standard employee benefits. In addition, the Company granted Mr. Bouchard options for 225,000 shares of common stock pursuant to the Company's 1997 Stock Incentive Plan. If the Company terminates Mr. Bouchard's employment without cause (which is defined as termination for other than committing a criminal, fraudulent or grossly negligent act, misappropriation of our assets or willful failure to perform his duties) then he is entitled to severance pay of three months salary. If the Company sells all of its assets or is merged into another company which is not under the control of the Company's shareholders, then pursuant to Mr. Bouchard's stock options, he is entitled to his options which have already vested as well as an automatic vesting of the options he would have been entitled to receive over the twelve months following a merger or sale. As a condition of his employment, Mr. Bouchard entered into the Company's standard employee nondisclosure and developments agreement pursuant to which he may not divulge any of the Company's proprietary information other than as permitted as part of his employment with the Company.

Pixelworks Change of Control Severance Agreements

In March 2003, certain executive officers of Pixelworks entered into Change of Control Severance Agreements with Pixelworks, including the following: Allen Alley, Hans Olsen, Robert Greenberg, Jeffrey Bouchard, Bradley Zenger, Michael West and Marc Fleischmann.

The Change of Control Severance Agreements generally provide that if, within 12 months after a change of control of Pixelworks, the executive's employment is involuntarily terminated and the executive signs a release of claims, then the executive shall be entitled to the following severance benefits:

12 months (6 months for certain executives) of the executive's base salary, payable in lump sum;

Edgar Filing: PIXELWORKS INC - Form DEF 14A

12 months of acceleration of vesting under all stock options, and 12 months of lapsing of Pixelworks' right of repurchase with respect to all restricted stock, held by the executive prior to the change of control;

the ability to exercise all vested stock options granted to the executive by Pixelworks prior to the change of control for a period of 2 years following the termination of employment; and

health coverage and benefits at the same level of coverage as was provided immediately prior to termination, for up to 12 months (6 months for certain executives) following the termination of employment.

In addition, the Change of Control Severance Agreements generally provide that if, in the second year after a change of control of Pixelworks, the executive's employment is involuntarily terminated and the executive signs a release of claims, then the executive shall be entitled to the following severance benefits:

a lump sum payment equal to the product of 100% (50% for certain executives) of the executive's monthly base salary, multiplied by the number of months remaining in such second year as of the employment termination date;

12 months of acceleration of vesting under all stock options, and 12 months of lapsing of Pixelworks' right of repurchase with respect to all restricted stock held by the executive prior to the change of control;

12

the ability to exercise all vested stock options granted to the executive by Pixelworks prior to the change of control for a period of 2 years following the termination of employment; and

health coverage and benefits at the same level of coverage as was provided immediately prior to termination, for that number of months remaining in such second year.

Pixelworks Change of Control Resolutions

Pixelworks' board of directors adopted resolutions on March 22, 2002, approving a change of control and severance program for executive officers and directors. Under the terms of the resolutions, upon a change of control, Pixelworks will accelerate the exercise or vesting schedule of those options held by an executive officer or director that would have vested during the last twelve months according to the vesting schedule associated with such option will accelerate in full. In addition, upon a change of control of Pixelworks, and the termination of an executive officer, or a substantial change in the executive officer's responsibilities within 3 months prior to or 12 months following the change of control, the terminated officer will be entitled to severance payments equal to six months of his base salary as in effect on the date of such termination and continuation of medical insurance benefits for a period of six months from the date of termination. Pixelworks' board resolutions with respect to acceleration of vesting provisions work in conjunction with the Change of Control Severance Agreements described above, such that any options accelerated under board resolutions, having once been accelerated, are not available for acceleration under the Change of Control Severance Agreements.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

Under rules established by the Securities and Exchange Commission ("SEC"), the Company is required to provide certain data and information regarding the compensation provided to the Company's executive officers. In fulfillment of this requirement, the Compensation Committee has prepared the following report for inclusion in this Proxy Statement.

COMPENSATION PHILOSOPHY. The Compensation Committee is appointed by the Board of Directors and is responsible for setting and monitoring policies governing compensation of executive officers. The Compensation Committee reviews the performance and

Edgar Filing: PIXELWORKS INC - Form DEF 14A

compensation levels of executive officers, sets salary and bonus levels, and awards stock option grants for the executive officers of the Company. The objectives of the Compensation Committee are to correlate executive compensation with the Company's business objectives and performance and to enable the Company to attract, retain and reward executive officers who contribute to the long-term success of the Company.

Executive compensation is based on several general principles, which are summarized below:

Provide competitive total compensation that allows the Company to attract and retain key executives.

Link corporate and individual performance to compensation.

14

Align the interests of executives with the long-term interest of shareholders through stock ownership opportunities in the form of stock options.

Reward performance.

COMPENSATION COMPONENTS. The primary components of the Company's executive officer compensation program are base salaries, bonuses and stock options.

BASE SALARIES. Base salaries for executive officers are based on a review of salaries for similar positions requiring similar qualifications within the industry. In determining executive officer salaries, the Compensation Committee considers recommendations from management and the executive's experience, job responsibilities and performance. No specific weight is attached to any of these factors in establishing base salaries. For fiscal 2003 and future years, the Compensation Committee will continue to establish base salary levels for executive officers that are competitive with those established by companies of comparable size within the industry.

BONUSES. In determining executive officer bonuses, the Compensation Committee considers individual performance as well as the overall financial performance of the Company. No specific weight is attached to any of these factors in determining bonuses, although the Company's overall financial performance is generally weighted more than individual performance when determining an individual executive officer's bonus.

STOCK OPTIONS. The long-term, performance-based compensation of executive officers takes the form of option awards under the Company's 1997 Stock Incentive Plan (the "1997 Plan"), which is designed to align a significant portion of an executive officer's compensation with the long-term interests of shareholders. The 1997 Plan permits the granting of several types of stock-based awards. The Compensation Committee believes that equity ownership provides significant motivation to executive officers to maximize value for the Company's stockholders since stock options are granted at the current market price and will only have value if the Company's stock price increases over the exercise price. The Compensation Committee determines the size and frequency of option grants based upon the relative position and responsibilities of each executive officer, expected contributions of each executive officer to the Company and previous option grants to such executive officer.

COMPENSATION OF CHIEF EXECUTIVE OFFICER. The Compensation Committee and the Board of Directors set Mr. Alley's compensation for the year ended December 31, 2002. The same criteria that the Compensation Committee used to set compensation for other executive officers was used to establish Mr. Alley's compensation. In addition, the Compensation Committee considered compensation of other executives of Mr. Alley's level of experience and recognized his individual performance and importance to the Company's performance.

TAX DEDUCTIBILITY OF EXECUTIVE COMPENSATION. The cash compensation to be paid to the Company's executive officers for fiscal 2002 is not expected to exceed the per officer \$1.0 million tax deductibility limit of such compensation under the Internal Revenue Code. The exercise of nonstatutory stock options will qualify as performance-based compensation and, therefore, will not be subject to the \$1.0 million limitation.

Executive officers, directors, and beneficial owners of more than 10 percent of the Common Stock are required by the SEC regulation to furnish the Company with copies of all Section 16(a) reports they file. Based solely on a review of such reports received by the Company and on written representations from certain reporting persons that they have complied with the relevant filing requirements, the Company believes that during 2002 all Section 16(a) filing requirements applicable to its executive officers and directors have been complied with, except that Mr. Gill and Mr. Lau filed late Form 4's reporting one transaction each.

PIXELWORKS, INC.

Charter of the Audit Committee of the Board of Directors
Effective February 1, 2003

I. Audit Committee Purpose

The Audit Committee is appointed by the Board of Directors to assist the Board in fulfilling its oversight responsibilities. The Audit Committee's primary duties and responsibilities are to:

Monitor the integrity of the Company's financial reporting process and systems of internal controls regarding finance, accounting, and legal compliance.

Monitor the independence and performance of the Company's independent auditors.

Provide an avenue of communication among the independent auditors, management, and the Board of Directors.

The Audit Committee has the authority to conduct any investigation appropriate to fulfilling its responsibilities, and it has direct access to the independent auditors as well as anyone in the organization. The Audit Committee has the ability to retain, at the Company's expense, special legal, accounting, or other consultants or experts it deems necessary in the performance of its duties.

This Charter delegates certain responsibilities of the Board of Directors to the Audit Committee. It does not assign executive responsibilities. In fulfilling its duties under this charter, the Audit Committee shall be held to the standards of any member of the Board of Directors under applicable Oregon law (ORS 60.357 (1) through (3), and is entitled to the protection of ORS 60.357(4) in doing so. These statutory sections are attached to this Charter for ready reference. For example, it is the responsibility of the Company's management and independent auditors, not of the audit committee, to plan and conduct audits and to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles.

II. Audit Committee Composition and Meetings

Audit Committee members shall meet the requirements of the SEC and NASDAQ. The Audit Committee shall be comprised of three or more directors as determined by the Board, each of whom shall be independent non-executive directors, free from any relationship that would interfere with the exercise of his or her independent judgment. All members of the Committee shall have a basic understanding of finance and accounting and be able to read and understand fundamental financial statements, and at least one member of the Committee shall have such experience in finance and accounting as shall satisfy the requirements of the regulations of NASDAQ.

Edgar Filing: PIXELWORKS INC - Form DEF 14A

Audit Committee members shall be appointed by and will report to the Board. If an audit committee Chair is not designated or present, the members of the Committee may designate a Chair by majority vote of the Committee membership.

The Committee shall meet four times annually, or more frequently as circumstances dictate. The Audit Committee Chair shall prepare and/or approve an agenda in advance of each meeting. The Committee should meet privately in executive session at least annually with management, the independent auditors, and as a committee to discuss any matters that the Committee or each of these groups believe should be discussed. In addition, the Committee, or at least its Chair or a majority of the Committee, should communicate with management and the independent auditors quarterly to review the Company's financial statements and significant findings based upon the auditors' limited review procedures.

The Chair of the Committee, or a majority of the Committee, may represent the entire Audit Committee for purposes of this review.

Independent Auditors

5. The independent auditors are ultimately accountable to the Audit Committee and the Board of Directors. The Audit Committee shall review the independence and performance of the auditors and annually recommend to the Board of Directors the appointment of the independent auditors or approve any discharge of auditors when circumstances warrant.
6. Approve the fees and other significant compensation to be paid to the independent auditors that is beyond the scope of the audit engagement letter.
