LGA HOLDINGS, INC.  
(Formerly Tenet Information Systems, Inc.)  
Notes to Condensed Consolidated Financial Statements  
(Unaudited)

Note 1: Basis of presentation

The condensed financial statements presented herein have been prepared by our Company in accordance with the accounting policies in its Form 10-KSB with financial statements dated June 30, 2005, and should be read in conjunction with

Edgar Filing: LGA, INC - Form 10QSB

the notes thereto.

In our opinion, all adjustments (consisting only of normal recurring adjustments) which are necessary to provide a fair presentation of operating results for the interim period presented have been made. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the year.

Financial data presented herein are unaudited.

Note 2: Income taxes

We record income taxes in accordance with SFAS No. 109, "Accounting for Income Taxes". We have incurred net operating losses during all periods presented resulting in a deferred tax asset, which was fully allowed for; therefore, the net benefit and expense resulted in \$-0- income taxes.

Note 3: Inventory

Inventory consists of raw materials and finished inventory, which have been accounted for at lower of cost or market. We have made no provision for inventory obsolescence, as our management has deemed this unnecessary.

Raw materials	\$ 22,650
Finished goods	77,068
	-----
	\$ 99,718
	=====

Note 4: Stock Options

During the quarter ended September 30, 2005, an investor exercised common stock options to purchase 43,148 shares of restricted common stock for \$29,988 cash at \$0.7 per share.

A summary of changes in the number of stock options outstanding during the three months ended September 30, 2005 is as follows:

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### Results of Operations

	1Q 05	1Q 04
Revenue	123,037	77,250
Cost of Revenue	53,730	38,417
SGA	84,102	135,413
Net Loss	(16,454)	(73,532)

#### September Quarter 2005 Compared with September Quarter 2004

During the first Quarter of Fiscal 2006, the Company had revenues of \$123,037, which represented an increase of \$45,787 or 59% over the comparable quarter's revenue of \$77,250.

Cost of revenue increased \$15,313 or 40% from \$38,417 in 2004 to \$53,730 in 2005.

Gross margin on product sales increased to 56% for the current quarter from 50% during last year's first Quarter. The increase in gross margin reflects a higher percentage of direct to customer sales, relative to total sales, for the current quarter.

SG&A expenses decreased to \$84,102 for the current Quarter, compared to \$135,413 for last year's comparable Quarter. The \$51,311 decrease in SG&A expenses for the current Quarter, is attributable to the non-recurring costs associated with the Tenet Information Services combination completed during the prior year's September quarter, and efforts by the Company to control expenses.

Net loss for the current quarter was (\$16,454) or (\$0.00) per share as compared to (\$73,532) or (\$0.01) per share for the Quarter ending Sept. 30, 2004.

#### LIQUIDITY AND CAPITAL RESOURCES

The Company's cash position decreased from \$25,880 at June 30, 2005 to \$19,706 at September 30, 2005. During the first Quarter of fiscal 2005, the Company used

## Edgar Filing: LGA, INC - Form 10QSB

\$36,164 of cash to fund its operating activities.

### LGA Capital Requirements

The Company reported a working capital deficit of \$124,811 as of September 30, 2005, and a working capital deficit of \$141,518 as of June 30, 2005. The June 2005 and September 2005, working capital deficits include the recording of \$100,000 and \$115,000, respectively, of liabilities for unearned royalty income.

The Company is seeking additional operating capital from either financing activities or from product licensing revenue. The Company is currently engaged in re-tooling two of its legacy products, the GearSpace 34 carrier and the GearWagon AT trailer in order to reduce the manufacturing cost and retail price points of these products. The remaining 2005 inventory of these products is low and both products, based on current sales experience, will be on backorder before the new counterparts are available for sale starting in the March quarter of 2006. The Company's sales revenue will be negatively affected when this occurs.

7

The Company is working on numerous product licensing opportunities, that if completed, have the potential to generate significant operating capital for our business. However, no assurance can be given as to whether these discussions will result in a completed transaction, nor can the Company give any assurances as to the timing or financial magnitude of these transactions.

Subsequent to the end of the September, 2005 quarter, the Company received a request to submit an exclusive product licensing proposal for its GearDeck 17 system and related intellectual property to the dominant supplier of electrical generators to the North American RV industry. This opportunity relates to a product development effort begun one year ago with the manufacturer for several new categories of generator STO (Storage, Transportation and Organization) designs. This GearDeck 17 derivative system, which this manufacturer displayed at the 2005 RVIA trade show, is expected to begin selling during 2006.

The Company is experiencing a growing level of interest from consumers, dealers and OEM's for the Company's various products and intellectual property. It will take time and capital to convert this interest into product sales and/or licensing revenue. Therefore, even though the Company anticipates higher sales revenue going forward, it is not able to forecast when its sales volume will be sufficient to support the Company's operating expenses.

The Company will need additional operating capital in order to continue growing. This growth capital can come from either investor equity or revenue derived from intellectual property licenses. The Company is pursuing opportunities in both of these areas. There can be no assurance given as to whether we will be successful at generating the additional operating capital we will need from either of these sources.

While a portion of the current liabilities, approximately \$95,415, is owed to present officers and/or directors, there can be no assurances that these officers/directors will not seek payment in the near term.

Inflation has not had a significant impact on the Company's operations.

8

## Edgar Filing: LGA, INC - Form 10QSB

### Item 3. Controls and Procedures.

Based on the evaluation of the Company's controls and procedures required by Rule 13a-15 or Rule 15d-15 under the Exchange Act, the Company's Chief Executive Officer and Treasurer believe that the Company's controls and other procedures that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the United States securities laws is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms were adequate as of the end of the period covered by this Form 10-QSB. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the securities laws is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.
