### Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations.

Certain statements made herein are forward-looking statements under the Private Securities Litigation Reform Act of 1995. These statements are based on management's current expectations and estimates; actual results may differ materially due to certain risks and uncertainties. For example, the ability of LGA to achieve expected results may be affected by external factors such as competitive price pressures, conditions in the economy and industry growth, and internal factors, such as future financing of the acquired operations and the ability to control expenses.

Nine Months Ended March 31, 2006, Compared with Nine Months Ended March 31, 2005  
-----

During the first nine months of Fiscal 2006, the Company's revenue grew 35% to \$236,985 compared to \$174,969 in revenue for the similar period of Fiscal 2005. During the current period the Company's sales resulted primarily from inquiries generated by our web site.

License revenue accounted for 26% of overall revenue in 2005 and 19% in 2006.

Cost of revenue for the nine months ended March 31, 2006, as a percentage of revenue increased slightly from 44% to 48% while sales, general and administrative expenses had a marked decrease as a percentage of revenue. This favorable decrease in SGA was due to cost controls and a reduction in costs related to the Company's public status.

Gross margin on product sales decreased to 52% for the current period from 55% during last years comparable period. This was primarily due to the additional cost of 2,500 square feet of added production space acquired in January, 2006.

SG&A expenses decreased to \$255,244 for the nine months ended March 31, 2006, compared to \$294,920 for the comparable period of 2005.

Net loss for the nine months ended March 31, 2006, was (\$142,087) or (\$0.02) per share as compared to (\$509,219) or (\$0.07) per share for the nine months ending March 31, 2005. \$309,756, or 61% of the fiscal 2005 period Net Loss was attributable to the accounting treatment of stock option grants during that period.

### LIQUIDITY AND CAPITAL RESOURCES

The Company's cash position increased from \$-0- at December 31, 2005 to \$5,272 at March 31, 2006. During the first nine months of fiscal 2006, the Company used \$115,804 of cash to fund its operating activities and \$84,732 for the purchase of tooling and patent related expenditures. For the comparable period in fiscal 2005, the Company used \$400,640 in cash to fund operations and \$31,185 for inventory, tooling and patent related expenditures. Tooling and Patent related expenditures were \$24,971 and \$71,709 for 2005 and 2006, respectively. The dramatic reduction in the use of cash to fund operations is the result of the company selling all its remaining inventory of GearWagon and GearSpace 34 product during the nine month period ending March, 2006, along with generally higher sales levels for the Company's Silent Hitch Pin, TwinTube-UBI (U-Build-It) and GearDeck products, when compared to the 2005 period.

### LGA Capital Requirements

-----

During the March, 2006 quarter, the Company sold its remaining inventory of GearSpace 34 and GearWagon product. The Company intends to continue selling product based on these designs, and is in the process of re-engineering the

## Edgar Filing: LGA, INC - Form 10QSB

designs to utilize more efficient plastic forming techniques that simplify the production of the products, strengthen the products and significantly reduce the product's manufacturing cost. During the March, 2006 quarter, GearSpace 34 (GS-34) was successfully re-tooled and the Company expects close to a 50% reduction in the manufactured cost of a GS-34 system. The Company has a backlog of orders for GS-34 carriers that it will begin filling during the second half of May, 2006. GS-34 is one of LGA's marquee products. The Company intends to reduce GS-34's MSRP from \$1,350 to \$999.95. As such, the Company expects GS-34 unit sales to increase moving forward.

The Company is in the process of re-engineering the GearWagon AT (GW-AT) trailer. The Company has an order backlog for this product. The Company expects to begin shipping GW-AT's during the September, 2006 quarter. In addition, GW-AT will be available in four different configurations, depending on the customers needs, at MSRP prices significantly below GW-AT's legacy pricing. The manufacturing cost of GW-AT will be significantly reduced, relative to former design.

The reductions in manufacturing costs will allow LGA to more successfully utilize distribution, dealer and retail channels in the selling processes for GW-AT and GS-34. The Company believes the improved product cost basis and resulting improved margin available to resellers, will significantly improve the sales volumes of the GW-AT and GS-34 products moving forward.

LGA and a division of Cummins Power Generation, Onan Corporation, have been in a joint development effort since January of 2005. The result of this effort, introduced in April, 2006, is Onan's new JuiceBox product that can be viewed at this URL:

<http://www.funroads.com/articles/juicebox.jhtml>

JuiceBox utilizes LGA's Silent Hitch Pin, TwinTube, GearDeck, HardPoint and LandingGear intellectual property (IP) in a novel solution to generator portability. Onan is the dominant supplier of generators to the RV industry. LGA has licensed Onan to manufacture JuiceBox product, based on LGA's IP. Because of the JuiceBox product and the increased market visibility LGA's IP is receiving, LGA is experiencing increased interest in the IP contained in JuiceBox from consumers, distributors, dealers and from other manufacturing OEM's interested in utilizing this IP in conjunction with their product lines.

LGA has numerous patent applications pending with the U.S. Patent and Trade Office (USPTO) for various LGA inventions. During the March, 2006 quarter, the USPTO published two of the Company's pending applications, that can be viewed at the following URL links:

<http://appft1.uspto.gov/netacgi/nph-Parser?Sect1=PTO1&Sect2=HITOFF&d=PG01&p=1&u=%2Fnetacgi%2FPTO%2FSrchnum.html&r=1&f=G&l=50&s1=%2220060081630%22.PGNR.&OS=DN/20060081630&RS=DN/20060081630>

<http://appft1.uspto.gov/netacgi/nph-Parser?Sect1=PTO1&Sect2=HITOFF&d=PG01&p=1&u=%2Fnetacgi%2FPTO%2FSrchnum.html&r=1&f=G&l=50&s1=%2220060027618%22.PGNR.&OS=DN/20060027618&RS=DN/20060027618>

The Company is working on numerous product licensing opportunities, that if completed, have the potential to generate significant growth capital for our business. However, no assurance can be given as to whether these discussions will result in a completed transaction, nor can the Company give any assurances as to the timing or financial magnitude of these transactions.

Due to the timing of anticipated inventory additions, tooling costs and operating expenses, the Company is seeking to raise capital from either financing or licensing sources to fund the Company's growth through the end of the 2006 fiscal year and beyond.

## Edgar Filing: LGA, INC - Form 10QSB

The Company is experiencing a growing level of product interest from consumers, dealers and OEM's. It will take time and capital to convert this interest into product sales and/or licensing revenue. Therefore, even though the Company anticipates higher sales revenue going forward, it is not able to forecast when its sales volume will be sufficient to support the Company's operating expenses. Therefore, for the next two quarters LGA will pursue raising additional growth capital from either finance or licensing related sources. There can be no assurance given as to whether LGA will be successful at generating the additional growth capital it will need from either of these sources.

During the nine months ended March 31, 2006, a director exercised common stock options to purchase 258,886 shares of restricted common stock for \$179,926 in cash or \$0.695 per share. This Company director is also the managing partner of the acquiring investment partnership.

While a portion of the current liabilities, approximately \$89,032, is owed to present officers and/or directors, there can be no assurances that these officers/directors will not seek payment in the near term.

Inflation has not had a significant impact on the Company's operations.

### Item 3. Controls and Procedures.

Based on the evaluation of the Company's controls and procedures required by Rule 13a-15 or Rule 15d-15 under the Exchange Act, the Company's Chief Executive Officer and Treasurer believe that the Company's controls and other procedures that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the United States securities laws is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms were adequate as of the end of the period covered by this Form 10-QSB. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the securities laws is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.
