**Item 2.05 Costs Associated with Exit or Disposal Activities.**

On July 31, 2008, Christopher & Banks Corporation (the Company) announced its decision to exit its Acorn division business. The Board of Directors committed to and approved this exit plan on July 30, 2008. A comprehensive review and evaluation of the Company's Acorn division concluded that the concept has not demonstrated the potential to deliver an acceptable long-term return on the Company's investment.

The Company currently expects to complete its exit of this business by December 31, 2008. The Company intends to close all 36 Acorn stores. The closure will impact approximately 80 full-time and 200 part-time positions.

As a result of the decision to close these stores, the Company estimates that it will recognize pre-tax charges of approximately \$7.0 million to \$10.0 million in the aggregate, consisting of:

Non-cash charges expected to be recognized during the second, third and fourth quarters of fiscal 2009 of approximately \$1.6 million consisting of long-lived asset impairment charges, depreciation and amortization of unimpaired long-lived assets and inventory liquidation losses.

Cash charges expected to be recognized during the second, third and fourth quarters of fiscal 2009 in the range of \$5.4 million to \$8.4 million consisting of approximately:

- \$4.2 million to \$6.9 million in real estate operating lease termination-related costs, to be included as part of merchandise, buying and occupancy expenses;
- \$0.6 million to \$0.8 million in miscellaneous store closing and other associated costs; and
- \$0.6 million to \$0.7 million in retention and severance expenses.

The above estimated costs and charges are preliminary and may vary materially based on various factors, including timing in execution of the exit plan, outcome of negotiations with landlords and other third parties, inventory levels, the degree of success in liquidating the Acorn inventory and changes in management's assumptions and projections.

This report contains forward-looking statements, including those regarding (1) the Company's anticipated timing of the exit of the Acorn business; (2) the number of Company employees likely to be impacted by the decision; and (3) estimates of the pre-tax and cash charges expected to be incurred in the second, third and fourth fiscal quarters in association with the closure of the Acorn division. These statements are based on management's current expectations and are subject to a number of uncertainties and risks, as well as assumptions that, if they do not

fully materialize or prove incorrect, could cause our actual results to differ materially from those expressed or implied by the forward-looking statements. Important factors that could cause actual results to differ materially from estimates or projections contained in the forward-looking statements include, but are not limited to: (1) exit plan inventory levels; (2) our ability to liquidate the Acorn division inventory at or above anticipated margins; (3) our ability to negotiate lease buy-outs or terminations on acceptable financial and business terms; (4) general economic conditions including the impact of higher fuel, energy and food prices, and uncertainty in the financial and credit markets that could lead to a reduction in store traffic and in consumer spending on women's apparel; (5) unanticipated costs or delays associated with the closure of the Acorn division; (6) competitive influences, including promotional and pricing competition and the lack of acceptance of the Company's merchandise offerings; and (7) other risks and uncertainties described in our documents filed with the SEC, including our Annual Report on Form 10-K and Quarterly Reports on Form 10-Q.
