Virtusa Corporation and Subsidiaries

Notes to Consolidated Financial Statements

(Unaudited)

(In thousands, except share and per share amounts)

(1) Nature of the Business

Virtusa Corporation (the "Company", "Virtusa", "we", "us" or "our") is a global information technology services provider. Using an enhanced global delivery model, we provide end-to-end information technology ("IT") services to Global 2000 companies. These services include IT and business consulting, digital enablement services, user experience ("UX") design, development of IT applications, maintenance and support services, systems integration, infrastructure and managed services. Our services leverage our distinctive consulting approach and unique platforming methodology to transform our clients' businesses through the innovative use of technology and domain knowledge to solve critical business problems. Our services enable our clients to accelerate business outcomes by consolidating, rationalizing and modernizing our clients' core customer-facing processes into one or more core systems. We deliver cost-effective solutions through a global delivery model, applying advanced methods such as Agile, an industry standard technique designed to accelerate application development. We also use our consulting methodology, which we refer to as Accelerated Solution Design ("ASD"), which is a collaborative decision-making and design process performed with the client, to ensure our solutions meet the client's specifications and requirements. We have built targeted solutions that enable our clients to reduce their IT operations cost, while simultaneously increasing their ability to accelerate business growth in existing and new market segments. We further differentiate ourselves by enabling our clients to expand their addressable market through our millennial offerings and to improve the efficiencies of operating their business through our industry leading transformational solutions.

Headquartered in Massachusetts, we have offices in the United States, Canada, the United Kingdom, the Netherlands, Germany, Switzerland, Sweden, Austria, the United Arab Emirates, Hong Kong, Japan, Australia and New Zealand, with global delivery centers in India, Sri Lanka, Hungary, Singapore and Malaysia, as well as near shore delivery centers in the United States.

(2) Unaudited Interim Financial Information

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared by the Company in accordance with U.S. generally accepted accounting principles and Article 10 of Regulation S-X under the Securities and Exchange Act of 1934, as amended, and should be read in conjunction with the Company's audited consolidated financial statements (and notes thereto) for the fiscal year ended March 31, 2016 included in the Company's Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission, or SEC, on May 27, 2016. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted pursuant to such SEC rules and regulations. In the opinion of the Company's management, all adjustments considered necessary for a fair presentation of the accompanying unaudited consolidated financial statements have been included, and all material adjustments are of a normal and recurring nature. Operating results for the interim periods are not necessarily indicative of results that may be expected to occur for the entire fiscal year.

Principles of Consolidation

The accompanying financial statements have been prepared on a consolidated basis and reflect the financial statements of Virtusa Corporation and all of its subsidiaries that are directly or indirectly more than 50% owned or controlled. When the Company does not have a controlling interest in an entity, but exerts a significant influence on the entity, the Company applies the equity method of accounting.

The consolidated financial statements reflect the accounts of the Company and its direct and indirect subsidiaries, Virtusa Consulting Services Private Limited, Virtusa Software Services Private Limited, Virtusa Technologies (India) Private Limited, Polaris Consulting & Services Limited and Optimus Global Services Limited, each organized and located in India; Virtusa (Private) Limited, organized and located in Sri Lanka; Virtusa UK Limited and Polaris Consulting & Services Limited, each organized and located in the United Kingdom; Virtusa Securities Corporation, a Massachusetts securities corporation; Apparatus, Inc. organized and located in Indiana; Virtusa International, B.V. and Polaris Software Lab B.V., each organized and located in the Netherlands; Virtusa Hungary Kft. and Polaris Consulting & Services, Kft., each organized and located in Hungary; Virtusa Germany GmbH and Polaris Software

Lab GmbH, each organized and located in Germany; Virtusa Switzerland GmbH and Polaris Consulting & Services SA, each organized and located in Switzerland; Virtusa Singapore Private Limited and Polaris Consulting & Services Pte Limited, each

Table of Contents

organized and located in Singapore; Virtusa Malaysia Private Limited and Polaris Consulting & Services, SND BHD, each organized and located in Malaysia; Virtusa Austria GmbH, organized and located in Austria; Virtusa Philippines Inc., organized and located in the Philippines; Virtusa Sweden AB organized and located in Sweden; Virtusa Canada, Inc. and Polaris Consulting & Services Inc, each organized and located in Canada; Polaris Consulting & Services Ireland Limited, organized and located in Ireland; Polaris Consulting & Services Japan K.K., organized and located in Japan; Polaris Consulting & Services Pty Ltd., organized and located in Australia; Polaris Consulting & Services FZ-LLC, organized and located in the United Arab Emirates; Polaris Software Lab (Shanghai) Limited, organized and located in China. All intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, including the recoverability of tangible assets, disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Management reevaluates these estimates on an ongoing basis. The most significant estimates relate to the recognition of revenue and profits based on the percentage of completion method of accounting for fixed price contracts, share based compensation, income taxes, including reserves for uncertain tax positions, deferred taxes and liabilities, intangible assets, contingent consideration and valuation of financial instruments, including derivative contracts and investments. Management bases its estimates on historical experience and on various other factors and assumptions that are believed to be reasonable under the circumstances. The actual amounts may vary from the estimates used in the preparation of the accompanying consolidated financial statements.

Fair Value of Financial Instruments

At September 30, 2016 and March 31, 2016, the carrying amounts of certain of the Company's financial instruments, including cash and cash equivalents, accounts receivable, unbilled accounts receivable, restricted cash, accounts payable, accrued employee compensation and benefits and other accrued expenses and long-term debt, approximate their fair values due to the nature of the items. See Note 5 of the notes to our financial statements for a discussion of the fair value of the Company's other financial instruments.

Recent accounting pronouncements

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Company on April 1, 2018. Early application is permitted but not before periods beginning on or after January 1, 2017. In March, April and May 2016, the FASB issued updates to the new revenue standard to clarify the implementation guidance on principal versus agent considerations for reporting revenue gross versus net, identifying performance obligations, accounting for licenses of intellectual property, transition, contract modifications, collectability, non-cash consideration and presentation of sales and other similar taxes with the same effective date. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures.

Edgar Filing: VIRTUSA CORP - Form 10-Q

In June 2014, the FASB issued ASU No. 2014-12, Compensation - Stock Compensation (Topic 718): Accounting for Share-Based Payments when the terms of an award provide that a performance target could be achieved after the requisite service period (a consensus of the FASB Emerging Issues Task Force). The ASU clarifies that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Topic 718 as it relates to awards with performance conditions that affect vesting to account for such awards. As such, the performance target should not be reflected in estimating the grant-date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. This ASU was effective for annual periods, and interim periods within those years, beginning after December 15, 2015. This ASU may be applied either (a) prospectively to all awards granted or modified after the effective date or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. The ASU did not have an impact on the Company's consolidated financial statements.

In January 2016, the FASB issued an update (ASU 2016-01) to the standard on financial instruments. The update significantly revises an entity's accounting related to (1) the classification and measurement of investments in equity securities and (2) the presentation of certain fair value changes for financial liabilities measured at fair value. The update also amends certain

Table of Contents

disclosure requirements. For public business entities, the amendments in this update are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Upon adoption, entities will be required to make a cumulative-effect adjustment to the statement of financial position as of the beginning of the first reporting period in which the guidance is effective. However, the specific guidance on equity securities without readily determinable fair value will apply prospectively to all equity investments that exist as of the date of adoption. Early adoption of certain sections of this update is permitted. The Company is currently evaluating the effect the new standard will have on the Company's consolidated financial statements and related disclosures.

In February 2016, the FASB issued an update (ASU 2016-02) to the standard on leases to increase transparency and comparability among organizations. The new standard replaces the existing guidance on leases and requires the lessee to recognize a right-of-use asset and a lease liability for all leases with lease terms equal to or greater than twelve months. For finance leases, the lessee would recognize interest expense and amortization of the right-of-use asset, and for operating leases, the lessee would recognize total lease expense on a straight-line basis. For public business entities this standard is effective for the annual periods beginning after December 15, 2018, and interim periods within those annual periods. Early adoption of this new standard is permitted. Entities will be required to use a modified retrospective transition which provides for certain practical expedients. The Company is currently evaluating the effect the new standard will have on its consolidated financial statements and related disclosures.

In March 2016, the FASB issued an update (ASU 2016-05) to the standard on derivatives and hedging on the effect of derivative contract novations on existing hedge accounting relationships. As it relates to derivative instruments, novation refers to replacing one of the parties to a derivative instrument with a new party, which may occur for a variety of reasons such as: financial institution mergers, intercompany transactions, an entity exiting a particular derivatives business or relationship, or because of laws or regulatory requirements. The update clarifies that a change in the counterparty to a derivative instrument that has been designated as the hedging instrument does not, in and of itself, require designation of that hedge accounting relationship provided that all other hedge accounting criteria continue to be met. The update is effective for fiscal years, and interim periods within those fiscal years, beginning on or after January 1, 2017. Upon adoption, the entities can choose to apply on either a prospective basis or a modified retrospective basis. Early adoption of this update is permitted. The adoption of this guidance is not expected to have a material impact on the consolidated financial statements.

In March 2016, the FASB issued an update (ASU 2016-09) to the standard on Compensation—Stock Compensation, which simplifies several aspects of the accounting for employee share-based payment transactions including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. For public business entities, the amendments in this update are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted for any entity in any interim or annual period. Upon adoption, entities will be required to apply a modified retrospective, prospective or retrospective transition method depending on the specific section of the guidance being adopted. The Company is currently evaluating the effect the update will have on its consolidated financial statements and related disclosures.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments—Measurement of Credit Losses on Financial Instruments, which modifies the measurement of expected credit losses of certain financial instruments. This standard update requires financial assets measured at amortized cost basis to be presented at the net amount expected to be collected. This update is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the effect of this new standard will have on its consolidated financial statements and related disclosures.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230). This update is intended to reduce diversity in practice in how certain cash receipts and payments are classified in the statement of cash flows. This standard update addresses eight specific cash flow issues, including debt prepayment or extinguishment costs, the settlement of contingent liabilities arising from a business combination, proceeds from insurance settlements, and distributions from certain equity method investees. The guidance is effective for interim and annual periods

Edgar Filing: VIRTUSA CORP - Form 10-Q

beginning after December 15, 2017, and early adoption is permitted. The guidance requires application using a retrospective transition method. The Company is currently evaluating the effect of this new standard will have on its consolidated financial statements and related disclosures.

Table of Contents**(3) Earnings (loss) per Share**

Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding for the period, and diluted earnings per share is computed by including the dilutive impact of common stock equivalents outstanding for the period in the denominator. Common stock equivalents include shares issuable upon the exercise of outstanding stock options, stock appreciation rights, issuance of shares on exercise or vesting of restricted stock units, unvested restricted stock awards, net of shares assumed to have been purchased with the proceeds, using the treasury stock method. The following table sets forth the computation of basic and diluted earnings per share for the periods set forth below:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2016	2015	2016	2015
Numerators:				
Net income (loss) available to Virtusa common stockholders	\$ 3,214	\$ 11,086	\$ (3,042)	\$ 21,199
Denominators:				
Weighted average common shares outstanding	29,616,179	29,217,820	29,551,233	29,143,383

Dilutive effect of stock appreciation rights	10,879	1,884		3,107
Weighted average shares-diluted	30,130,209	30,008,470	29,551,233	29,971,549
Basic earnings (loss) per share	\$ 0.11	\$ 0.38	\$ (0.10)	\$ 0.73
Diluted earnings (loss) per share	\$ 0.11	\$ 0.37	\$ (0.10)	\$ 0.71

During the three months ended September 30, 2016, unvested restricted stock awards and unvested restricted stock units issuable for, and options to purchase 658,176 shares of our common stock were excluded from the calculations of diluted earnings per share as their effect would have been anti-dilutive. During the three months ended September 30, 2015, there were no shares excluded from the calculation of diluted earnings per share.

During the six months ended September 30, 2016, and 2015, unvested restricted stock awards and unvested restricted stock units issuable for, and options to purchase 931,287 and 2,769 shares of common stock, respectively, were excluded from the calculations of diluted earnings per share as their effect would have been anti-dilutive.

(4) Investment Securities

At September 30, 2016 and March 31, 2016, all of the Company's investment securities were classified as available-for-sale and were carried on its balance sheet at their fair market value. A fair market value hierarchy based on three levels of inputs was used to measure each security (See Note 5 of the notes to our financial statements for a discussion of the fair value of the Company's other financial instruments.).

Edgar Filing: VIRTUSA CORP - Form 10-Q

The following is a summary of investment securities at September 30, 2016:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale securities:				
Corporate bonds:				
Current	\$ 34,945	\$ 9	\$ (19)	\$ 34,935
Non-current	21,681	9	(38)	21,652
Preference shares:				
Current	1,587			1,587
Non-current	1,777		(152)	1,625
Agency and short-term notes:				
Current	1,000	1		1,001
Non-current	2,632		(1)	2,631
Commercial paper:				
Current	2,980			2,980
Time deposits:				
Current	2,029			2,029
Total available-for-sale securities	\$ 68,631	\$ 19	\$ (210)	\$ 68,440

Table of Contents

The following is a summary of investment securities at March 31, 2016:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale securities:				
Corporate bonds:				
Current	\$ 26,662	\$ 7	\$ (10)	\$ 26,659
Non-current	22,187	45	(64)	22,168
Preference shares:				
Non-current	4,149			4,149
Agency and short-term notes:				
Current	1,000	1		1,001
Non-current	2,500	1	(1)	2,500
Mutual funds:				
Current	17,309	9	(33)	17,285
Depository receipts:				
Current	414	67		481
Time deposits:				
Current	8,491			8,491
Total available-for-sale securities	\$ 82,712	\$ 130	\$ (108)	\$ 82,734

The Company evaluates investments with unrealized losses to determine if the losses are other than temporary. The Company has determined that the gross unrealized losses at September 30, 2016 and March 31, 2016 are temporary. In making this determination, the Company considered the financial condition, credit ratings and near-term prospects of the issuers, the underlying collateral of the investments, and the magnitude of the losses as compared to the cost and the length of time the investments have been in an unrealized loss position. Additionally, while the Company classifies the securities as available for sale, the Company does not currently intend to sell such investments and it is more likely than not the Company will not be required to sell such investments prior to the recovery of their carrying value.

Proceeds from sales of available-for-sale investment securities and the gross gains and losses that have been included in earnings as a result of those sales were as follows:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2016	2015	2016	2015
Proceeds from sales of available-for-sale investment securities	\$ 42,316	\$ 15,551	\$ 82,755	\$ 34,605
Gross gains	\$ 433	\$	\$ 743	\$ 1
Gross losses				
Net realized gains on sales of available-for-sale investment securities	\$ 433	\$	\$ 743	\$ 1

(5) Fair Value of Financial Instruments

Edgar Filing: VIRTUSA CORP - Form 10-Q

The Company uses a framework for measuring fair value under U.S. generally accepted accounting principles and enhanced disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The Company's financial assets and liabilities reflected in the consolidated financial statements at carrying value include marketable securities and other financial instruments which approximate fair value. Fair value for marketable securities is determined using a market approach based on quoted market prices at period end in active markets. The fair value hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value which are the following:

- Level 1 Quoted prices in active markets for identical assets or liabilities.
- Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table summarizes the Company's financial assets and liabilities measured at fair value on a recurring basis at September 30, 2016:

Table of Contents

	Level 1	Level 2	Level 3	Total
Assets:				
Investments:				
Available-for-sales securities current	\$	\$ 42,532	\$	\$ 42,532
Available-for-sales securities non-current		25,908		25,908
Foreign currency derivative contracts		11,885		11,885
Total assets	\$	\$ 80,325	\$	\$ 80,325
Liabilities:				
Foreign currency derivative contracts	\$	\$ 55	\$	\$ 55
Interest Rate Swap Contracts		103		103
Total liabilities	\$	\$ 158	\$	\$ 158

The following table summarizes the Company's financial assets and liabilities measured at fair value on a recurring basis at March 31, 2016:

	Level 1	Level 2	Level 3	Total
Assets:				
Investments:				
Available-for-sales securities current	\$	\$ 53,917	\$	\$ 53,917
Available-for-sales securities non-current		28,817		28,817
Foreign currency derivative contracts		5,694		5,694
Total assets	\$	\$ 88,428	\$	\$ 88,428
Liabilities:				
Foreign currency derivative contracts	\$	\$ 560	\$	\$ 560
Contingent consideration			839	839
Total liabilities	\$	\$ 560	\$ 839	\$ 1,399

The Company determines the fair value of the contingent consideration related to acquisitions based on the probability of attaining certain revenue and profit margin targets using an appropriate discount rate to present value the liability. The following table provides a summary of changes in fair value of the Company's Level 3 financial liabilities at September 30, 2016.

	Level 3 Liabilities
Balance at April 1, 2016	\$ 839
Contingent consideration recognized in earnings	33
Payments made during the period	(872)
Balance at September 30, 2016	\$

(6) Derivative Financial Instruments

The Company uses derivative instruments to manage selected foreign currency and interest rate exposures. The Company evaluates its foreign exchange policy on an ongoing basis to assess its ability to address foreign exchange exposures on its consolidated balance sheets, statements of income (loss) and consolidated statement of cash flows from all foreign currencies, including most significantly the U.K. pound sterling, the euro, Indian rupee and Sri Lankan rupee. The Company enters into hedging programs with highly rated financial institutions in accordance with its foreign exchange policy (as approved by the Company's audit committee and board of directors) which permits hedging of material, known foreign currency exposures. There is no margin required, no cash collateral posted or received by us related to our foreign exchange forward contracts. Currently, the Company maintains four hedging programs, each with varying contract types, duration and purposes. The Company's

Edgar Filing: VIRTUSA CORP - Form 10-Q

Cash Flow Program is designed to mitigate the impact of volatility in the U.S. dollar equivalent of the Company's Indian rupee denominated expenses over a rolling 24-month period. The Cash Flow Program transactions currently meet the criteria for hedge accounting as cash flow hedges. In addition, as part of the Polaris acquisition, the Company has assumed a cash flow program designed to mitigate the impact of the volatility of the translation of Polaris U.S. dollar denominated revenue into Indian rupees over a rolling 18 month period (Polaris Cash Flow Program). These cash flow hedges meet the criteria for hedge accounting as cash flow hedges. The Company's Balance Sheet Program involves the use of 30-day derivative instruments designed to mitigate the monthly impact of foreign exchange gains/losses on certain intercompany balances and payments. The Company's Economic Hedge Program involves the purchase of derivative instruments with maturities of up to 92 days, and is designed to mitigate the impact of foreign exchange on the U.K. pound sterling, the euro and the Swedish krona denominated revenue and costs with respect to the quarter for which such instruments are purchased. The Balance Sheet Program and the Economic Hedge Program are treated as economic hedges as these programs do not meet the

Table of Contents

criteria for hedge accounting and all gains and losses are recognized in consolidated statement of income (loss) under the same line item as the underlying exposure being hedged.

The Company is exposed to credit losses in the event of non-performance by the counterparties on its financial instruments. All counterparties currently have investment grade credit ratings. The Company anticipates that these counterparties will be able to fully satisfy their obligations under the contracts. The Company has derivative contracts with three counterparties as of September 30, 2016.

The Company's agreements with its counterparties contain provisions pursuant to which the Company could be declared in default of its derivative obligations. As of September 30, 2016, the Company had not posted any collateral related to these agreements. If the Company had breached any of these provisions as of September 30, 2016, it could have been required to settle its obligations under these agreements at amounts which approximate the September 30, 2016 fair values reflected in the table below. During the three months ended September 30, 2016, the Company was not in default of any of its derivative obligations.

ASC 815, *Derivative and Hedging* requires that all derivatives be recognized on the balance sheet at fair value. The Company evaluates all of its derivatives based on market observable inputs, including both forward and spot prices for currencies. Any significant change in the forward or spot prices for hedged currencies would have a significant impact on the value of the Company's derivatives. Changes in fair value of the designated cash flow hedges for the Company's Cash Flow Program as well as the Polaris Cash Flow Program are recorded as a component of accumulated other comprehensive income (loss) (AOCI), net of tax, until the forecasted hedged transactions occur and are then recognized in the consolidated statement of income (loss) in the same line item as the item being hedged. The Company evaluates hedge effectiveness at the time a contract is entered into, as well as on an ongoing basis. If, and when, all or part of a hedge relationship is discontinued because the forecasted transaction is deemed probable of not occurring by the end of the originally specified period or within an additional two-month period of time thereafter, the contract, or the relative amount of the contract, is deemed ineffective and any related derivative amounts recorded in equity are reclassified to earnings. There were no gains (losses) that were reclassified from AOCI into earnings as a result of forecasted transactions that were considered probable of not occurring for the six months ended September 30, 2016 and 2015.

Changes in the fair value of the derivatives purchased under the Balance Sheet Program are reflected in the Company's consolidated statement of income (loss) and are included in foreign currency transaction gains (losses) for each period. Changes in the fair value of the derivatives purchased under the Economic Hedge Program are also reflected in the Company's consolidated statement of income (loss) and are included in the same line item as the underlying exposure being hedged for each period.

The U.S. dollar notional equivalent market value, which consists of the notional value and net unrealized gain or loss, of all outstanding foreign currency derivative contracts, was \$204,309 and \$273,862 at September 30, 2016 and March 31, 2016, respectively. Unrealized net gains related to these contracts which are expected to be reclassified from AOCI to earnings during the next 12 months were \$11,197 at September 30, 2016. At September 30, 2016, the maximum outstanding term of any derivative instrument was 21 months.

On February 25, 2016, the Company entered into a credit agreement (the Credit Agreement) dated as of February 25, 2016, by and among the Company, its guarantor subsidiaries a party thereto, the lenders a party thereto, JPMorgan Chase Bank, N.A., as administrative agent, and J.P. Morgan Securities LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as joint book runners and lead arrangers. The Credit Agreement replaces the Company's existing \$25,000 credit agreement with JP Morgan Chase Bank, N.A. and provides for a \$100,000 revolving

Edgar Filing: VIRTUSA CORP - Form 10-Q

credit facility and a \$200,000 delayed-draw term loan (together, the Credit Facility).

On July 26, 2016, the Company entered into two 12-month forward starting interest rate swap transactions and on July 28, 2016, the Company entered into a third 12-month forward starting interest rate swap transaction to mitigate Company's interest rate risk on 50% of Company's variable rate debt (collectively, The Interest Rate Swap Agreements). The Company's objective is to limit the variability of cash flows associated with changes in LIBOR interest rate payments due on the Credit Agreement by using pay-fixed, receive-variable interest rate swaps to offset the future variable rate interest payments. The Company will recognize these transactions in accordance with ASC 815 *Derivatives and Hedging*, and have designated the swaps as cash flow hedges.

The Interest Rate Swap Agreements have an effective date of July 31, 2017 and a maturity date of July 31, 2020. The swaps have an aggregate beginning notional amount of \$93,800 and hedge approximately 50% of our forecasted outstanding debt balance as of July 31, 2017. The notional amount of the swaps amortizes over the three swap periods corresponding to the quarterly principle payments on the term loan. The Interest Rate Swap agreements require us to make monthly fixed interest rate payments based on the amortized notional amount at a blended weighted average rate of 1.025% and we will receive 1-month LIBOR on the same notional amounts.

Table of Contents

The counterparties to the Interest Rate Swap Agreements could demand an early termination of the 2016 Swap Agreements if the Company is in default under the Credit Agreement, or any agreement that amends or replaces the Credit Agreement in which the counterparty is a member, and the Company is unable to cure the default. An event of default under the Credit Agreement includes customary events of default and failure to comply with financial covenants, including a maximum consolidated leverage ratio commencing on September 30, 2016, of not more than 3.25 to 1.00 for the first year of the Credit Agreement, of not more than 3.00 to 1.00 for the second year of the Credit Agreement, and 2.75 to 1.00 thereafter, each as determined for the four consecutive quarter period ending on each fiscal quarter and a minimum consolidated fixed charge coverage ratio of 1.25 to 1.00. As of September 30, 2016, the Company was in compliance with these covenants. The unrealized loss associated with the 2015 Swap Agreement was \$103 as of September 30, 2016, which represents the estimated amount that the Company would pay to the counterparties in the event of an early termination.

The following table sets forth the fair value of derivative instruments included in the consolidated balance sheets at September 30, 2016 and March 31, 2016:

Derivatives designated as hedging instruments

	September 30, 2016		March 31, 2016	
Foreign currency exchange contracts:				
Other current assets	\$	9,857	\$	3,706
Other long-term assets	\$	2,028	\$	1,988
Accrued expenses and other	\$	41	\$	278
Long-term liabilities	\$	14	\$	282

	September 30, 2016		March 31, 2016	
Interest rate swap contracts:				
Long-term liabilities	\$	103	\$	

The following tables set forth the effect of the Company's foreign currency exchange contracts on the consolidated financial statements of the Company for the three and six months ended September 30, 2016 and 2015:

Derivatives Designated as Cash Flow Hedging Relationships	Amount of Gain or (Loss) Recognized in AOCI on Derivative (Effective Portion)			
	Three Months Ended September 30,		Six Months Ended September 30,	
	2016	2015	2016	2015
Foreign currency exchange contracts	\$ 7,801	\$ (218)	\$ 9,860	\$ (4,094)
Interest rate swaps	\$ (103)	\$	\$ (103)	\$

Location of Gain Reclassified from AOCI into Income (Effective Portion)	Amount of Gain Reclassified from AOCI into Income (Effective Portion)			
	Three Months Ended September 30,		Six Months Ended September 30,	
	2016	2015	2016	2015
Revenue	\$ 949	\$	\$ 1,477	\$
Costs of revenue	\$ 1,173	\$ 51	\$ 1,371	\$ 331
Operating expenses	\$ 774	\$ 19	\$ 895	\$ 170

Edgar Filing: VIRTUSA CORP - Form 10-Q

Derivatives not Designated as Hedging Instrument	Location of Gain or (Loss) Recognized in Income on Derivatives	Amount of Gain or (Loss) Recognized in Income on Derivatives			
		Three Months Ended September 30,		Six Months Ended September 30,	
		2016	2015	2016	2015
Foreign currency exchange contracts	Foreign currency transaction gains (losses)	\$	\$ (150)	\$ (180)	\$ (1,048)
	Revenue	\$ (26)	\$ 16	\$ 83	\$ (270)
	Costs of revenue	\$ 14	\$ 19	\$ (39)	\$ 125
	Selling, general and administrative expenses	\$ 1	\$ 6	\$ (13)	\$ 12

Table of Contents**(7) Acquisitions**

On March 3, 2016, pursuant to a share purchase agreement (the "SPA"), dated as of November 5, 2015, by and among Virtusa Consulting Services Private Limited ("Virtusa India"), a subsidiary of the Company, Polaris Consulting & Services Limited ("Polaris") and the Promoter Sellers named therein, as amended, the Company completed the purchase of 53,133,127 shares, or approximately 51.7% of the fully-diluted capitalization of Polaris from certain Polaris shareholders for approximately \$168,257 (Indian rupees 11,391,365) in cash (the "Polaris SPA Transaction"). In addition, on April 6, 2016, Virtusa India completed an unconditional mandatory open offer with successful tender to purchase an additional 26% of the fully diluted outstanding shares of Polaris from Polaris' public shareholders. The mandatory open offer was conducted in accordance with requirements of the Securities and Exchange Board of India ("SEBI") and the applicable Indian rules on takeovers. Virtusa India purchased 26,719,942 shares of Polaris common for an aggregate purchase price of approximately \$89,147 (Indian rupees 5,935,260). Upon the closing of the mandatory offering, Virtusa's ownership interest in Polaris increased from approximately 51.7% to 77.7% of Polaris' fully diluted shares outstanding, and from approximately 52.9% to 78.8% of Polaris' basic shares outstanding. Under applicable Indian rules on takeovers, Virtusa India is required to sell within one year of the settlement of the unconditional mandatory offer its shareholdings in Polaris in excess of 75% of the basic outstanding share capital of Polaris.

Pursuant to the mandatory open offer, during the fiscal year ended March 31, 2016, the Company transferred \$89,220 into an escrow account in accordance with the India takeover rules, which is recorded as restricted cash at March 31, 2016, and the mandatory open offer closed on April 6, 2016. On April 6, 2016, the restricted cash was released from the escrow account and used for settlement for the mandatory open offer.

Under the purchase method of accounting, assets acquired and liabilities assumed are recorded at their estimated fair values. The Company may continue to adjust the preliminary estimated fair values after obtaining more information regarding asset valuations, liabilities assumed, and revision of preliminary estimates. The following is based on information available at September 30, 2016 and may be subject to change during the measurement period. During the six months ended September 30, 2016, the Company recorded \$576 goodwill related to deferred tax liabilities and \$317 as a reduction of goodwill related to certain accruals.

	Amount	Useful Life
<i>Consideration Transferred:</i>		
Cash paid at closing	\$ 168,257	
Less: Cash acquired	(40,782)	
Total purchase price, net of cash acquired	\$ 127,475	
Acquisition-related costs	\$ 9,813	
<i>Assets and liabilities</i>		
Cash and cash equivalents	\$ 40,782	
Accounts receivable and unbilled receivable	71,844	
Short term investments	17,695	
Other current assets	13,912	
Property and equipment	74,391	
Long term investments	8,396	
Long term assets	13,575	
Goodwill	121,004	
Customer relationships	32,000	10 - 15 years
Trademark	2,400	2 years
Accounts Payable	(42,676)	
Deferred revenue	(5,117)	
Accrued expenses and other current liabilities	(12,062)	
Deferred income taxes	(12,873)	
Long term liabilities	(7,340)	

Edgar Filing: VIRTUSA CORP - Form 10-Q

Noncontrolling interest	(147,674)
Total purchase price	168,257
Less: Cash acquired	(40,782)
Total purchase price, net of cash acquired	\$ 127,475

Acquisition costs are recorded in selling, general and administrative expenses. Noncontrolling interest was fair valued based on the Polaris closing stock price on the date of acquisition for the minority shares outstanding and the fair value of vested options exercisable using the black-Scholes option pricing model. The assets of Polaris acquired and liabilities assumed by the Company include net assets of \$300 related to a business unit that is held for sale and which was sold to a third party on July 8, 2016. To finance

Table of Contents

the Polaris SPA Transaction, on February 25, 2016, the Company drew down the full \$200,000 of the term loan. See Note 11 of the notes to our financial statements included herein for a detail description of our debt.

(8) Goodwill and Intangible Assets**Goodwill:**

The Company has one operating segment. The following are details of the changes in goodwill balance at September 30, 2016:

	Amount
Balance at April 1, 2016	\$ 200,424
Preliminary purchase price allocation adjustment	259
Foreign currency translation adjustments	(1,627)
Balance at September 30, 2016	\$ 199,056

The acquisition costs and goodwill balance deductible for our business acquisitions for tax purposes are \$74,101. The acquisition costs and goodwill balance not deductible for tax purposes are \$136,843 and relate to the Company's TradeTech acquisition (closed on January 2, 2014) and the Polaris acquisition.

The Company performed the annual assessment of its goodwill during the fourth quarter of the fiscal year ended March 31, 2016 and determined that the estimated fair value of the Company's reporting unit exceeded its carrying value and therefore goodwill was not impaired. The Company will continue to complete goodwill impairment assessments at least annually during the fourth quarter of each ensuing fiscal year. The Company will continue to evaluate whether events or circumstances have occurred that indicate that the estimated remaining useful life of its long-lived assets, including intangible assets, may warrant revision or that the carrying value of these assets may be impaired. Any write-downs are treated as permanent reductions in the carrying amount of the assets.

Intangible Assets:

The following are details of the Company's intangible asset carrying amounts acquired and amortization at September 30, 2016.

	Weighted Average Useful Life	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Amortizable intangible assets:				
Customer relationships	10.8	\$ 80,504	\$ 21,482	\$ 59,022
Trademark	2.1	2,892	850	2,042
Technology	5.0	500	106	394

Edgar Filing: VIRTUSA CORP - Form 10-Q

10.3	\$	83,896	\$	22,438	\$	61,458
------	----	--------	----	--------	----	--------

The intangible assets are being amortized based upon the pattern in which the economic benefits of the intangible assets are being utilized.

(9) Income Taxes

The Company applies an estimated annual effective tax rate to its year-to-date operating results to determine the interim provision for income tax expense. The Company's effective tax rate was 10.1% and (3.4) % for the three and six months ended September 30, 2016, as compared to an effective tax rate of 26.5% and 26.6% for the three and six months ended September 30, 2015. The Company's reported effective tax rate is impacted by jurisdictional mix of profits in which the Company operates, statutory tax rates in effect, unusual or infrequent discrete items requiring a provision during the period and certain exemptions or tax holidays applicable to the Company.

The Company created two export oriented units in India; one in Bangalore during the fiscal year ended March 31, 2011 and a second unit in Hyderabad (Special Economic Zone or SEZ) during the fiscal year ended March 31, 2010 for which no income tax exemptions were availed. The Company's Indian subsidiaries also operate two development centers in areas designated as a SEZ, under the SEZ Act of 2005. In particular, the Company was approved as a SEZ Co-developer and has built a campus on a 6.3 acre parcel of land in Hyderabad, India that has been designated as a SEZ. As a SEZ Co-developer, the Company is entitled to certain tax benefits for any consecutive period of 10 years during the 15 year period starting in fiscal year 2008. The Company has elected to claim SEZ Co-developer income tax benefits starting in fiscal year ended March 31, 2013. In addition, the Company has leased

Table of Contents

facilities in SEZ designated locations in Hyderabad and Chennai, India. The Company's profits from the Hyderabad and Chennai SEZ operations are eligible for certain income tax exemptions for a period of up to 15 years beginning in fiscal March 31, 2009. In the fiscal year ended March 31, 2014, the Company leased two facilities in SEZ designated locations, in Bangalore and Pune, India each of which is eligible for tax holidays for up to 15 years beginning in the fiscal year ended March 31, 2014. During the fiscal year ended March 31, 2016, the Company expanded its facilities in Hyderabad to create a third export oriented unit and received approval for SEZ benefits for a period up to 15 years. The Company's India profits ineligible for SEZ benefits are subject to corporate income tax at the current rate of 34.6%. Based on the latest changes in tax laws, book profits of SEZ units are subject to Indian Minimum Alternative Tax (MAT), commencing April 1, 2011, which will continue to negatively impact the Company's cash flows.

In addition, the Company's Sri Lankan subsidiary, Virtusa (Private) Limited, is operating under a 12-year income tax holiday arrangement that is set to expire on March 31, 2019 and required Virtusa (Private) Limited to retain certain job creation and investment criteria through the expiration of the holiday period. During the fiscal year ended March 31, 2016, the Company believed it had fulfilled its hiring and investment commitments and is eligible for tax holiday through March 2019. The current agreement provides income tax exemption for all export business income. On September 30, 2015, the Company received confirmation for the Board of Investments that it has satisfied investment criteria through March 31, 2015 and is eligible for holiday benefits. At September 30, 2016, the Company believes it is eligible for continued benefits for the entire 12 year tax holiday.

The Company's effective income tax rate is based on the composition of estimated income in different jurisdictions, including those where the Company is enjoying tax holidays, for the applicable fiscal year and adjustments, if any, in the applicable quarterly periods, for unrecognized tax benefits for uncertain income tax positions or other discrete items required to be reported during interim periods. The Company's aggregate income tax rate in foreign jurisdictions is lower than its income tax rate in the United States due primarily to lower rates generally in jurisdictions in which the Company operates and applicable tax holiday benefits of the Company, obtained primarily in India and Sri Lanka.

A valuation allowance is required if, based on available evidence, it is more likely than not, that all or some portion of the asset will not be realized due to the inability of the Company to generate sufficient taxable income. Net income in the United States has decreased resulting in a net loss for the six months ended September 30, 2016. The Company has a significant deferred tax asset in the United States at September 30, 2016. We continue to monitor all positive and negative evidence related to this asset. At September 30, 2016, the Company determined that a specific valuation allowance was not required.

Unrecognized tax benefits represent uncertain tax positions for which the Company has established reserves. At September 30, 2016 and March 31, 2016, the total liability for unrecognized tax benefits was \$6,721 and \$6,693. Unrecognized tax benefits may be adjusted upon the closing of the statute of limitations for income tax returns filed in various jurisdictions. During the six months ended September 30, 2016 and September 30, 2015, the unrecognized tax benefits increased by \$28 and \$13, respectively. The increase in unrecognized tax benefits in the six months period ending September 30, 2016 and 2015 was predominantly due to increases for incremental interest accrued on existing uncertain tax positions and a prior period tax position in a foreign jurisdiction.

Undistributed Earnings of Foreign Subsidiaries

A substantial amount of the Company's income before provision for income tax is from operations earned in its Indian and Sri Lankan subsidiaries and is subject to tax holiday. The Company intends to use accumulated and future earnings of foreign subsidiaries to expand operations outside the United States and, accordingly, undistributed income is considered to be indefinitely reinvested. The Company does not provide for U.S. income taxes on foreign earnings. At September 30, 2016, the Company had \$357,444 of unremitted earnings from foreign

Edgar Filing: VIRTUSA CORP - Form 10-Q

subsidiaries and approximately \$138,537 of cash, short-term investments and long-term investments that would otherwise be available for potential distribution, if not indefinitely reinvested. If required, such cash and investments could be repatriated to the United States. However, under current law, any repatriation would be subject to United States federal income tax less applicable foreign tax credits. Due to the various methods by which such earnings could be repatriated in the future, the amount of taxes attributable to the undistributed earnings is not practicably determinable.

(10) Concentration of Revenue and Assets

Total revenue is attributed to geographic areas based on the location of the client. Long-lived assets represent property, plant and equipment, intangible assets and goodwill, net of accumulated depreciation and amortization, and are attributed to geographic area based on their location. Geographic information is summarized as follows:

Edgar Filing: VIRTUSA CORP - Form 10-Q

Table of Contents

	Three Months Ended September 30,		Six Months Ended September 30,	
	2016	2015	2016	2015
Client revenue:				
North America	\$ 136,643	\$ 101,621	\$ 270,114	\$ 198,322
Europe	47,182	32,061	93,566	62,407
Rest of world	26,264	9,320	51,880	17,117
Consolidated revenue	\$ 210,089	\$ 143,002	\$ 415,560	\$ 277,846

	September 30, 2016	March 31, 2016
Long-lived assets, net of accumulated depreciation and amortization:		
North America	\$ 93,100	\$ 96,031
Asia	252,825	268,636
Europe and others	28,460	18,885
Consolidated long-lived assets, net	\$ 374,385	\$ 383,552

Revenue from significant clients as a percentage of the Company's consolidated revenue was as follows:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2016	2015	2016	2015
Customer 1	16.5%	1.7%	16.1%	1.9%

(11) Debt

On February 25, 2016, in connection with the Polaris SPA Transaction, the Company entered into a credit agreement (the "Credit Agreement") dated as of February 25, 2016, by and among the Company, its guarantor subsidiaries a party thereto, the lenders a party thereto, JPMorgan Chase Bank, N.A., as administrative agent, and J.P. Morgan Securities LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as joint book runners and lead arrangers. The Credit Agreement replaces the Company's existing \$25,000 credit agreement with JP Morgan Chase Bank, N.A. and provides for a \$100,000 revolving credit facility and a \$200,000 delayed-draw term loan (together, the "Credit Facility"). To finance the Polaris SPA Transaction, on February 25, 2016, the Company drew down the full \$200,000 of the term loan. Interest under these facilities accrues at a rate per annum of LIBOR plus 2.75%, subject to step-downs based on the Company's ratio of debt to adjusted earnings before interest, taxes, depreciation, amortization, and stock compensation expense ("EBITDA"). The Company is required under the terms of the Credit Agreement to make quarterly principle payments on the term loan. For the fiscal year ending March 31, 2017, the Company is required to make principle payments of \$2,500 per quarter. The Credit Agreement includes customary minimum cash, maximum debt to EBITDA and minimum fixed charge coverage covenants. The term of the Credit Agreement is five years ending February 24, 2021. At September 30, 2016, the interest rate on the Credit Facility was 3.03% and there were no borrowings under the revolving credit facility.

The Credit Agreement has financial covenants that require that the Company maintain a Total Leverage Ratio, commencing on September 30, 2016, of not more than 3.25 to 1.00 for the first year of the Credit Facility, of not more than 3.00 to 1.00 for the second year of the Credit Facility, and 2.75 to 1.00 thereafter, each as determined for the four consecutive quarter period ending on each fiscal quarter (the "Reference Period"). In addition, for a period, expected to be at least one year from the completion of the Company's closing of the Polaris SPA Transaction, until the occurrence of certain events described in the Credit Agreement, at any time when the Total Leverage Ratio exceeds 1.50 to 1.00 as of the last day of a quarter, the Company must maintain at least \$30,000 in unrestricted cash, cash equivalents and certain permitted investments under the Credit Facility held in bank deposits in the U.S., and \$20,000 in unrestricted cash and certain permitted investments under the Credit

Edgar Filing: VIRTUSA CORP - Form 10-Q

Facility and long-term securities investments held in accordance with the Company's current investment policy. The financial covenants also require that the Company maintain a Fixed Charge Coverage Ratio, commencing on September 30, 2016, of not less than 1.25 to 1.00, as of the last day of any Reference Period. For purposes of these covenants, "Total Leverage Ratio" means, as of the last day of any fiscal quarter, the ratio of Funded Debt to Adjusted EBITDA for the reference period ended on such date. "Funded Debt" refers generally to total indebtedness to third-parties for borrowed money, capital leases, deferred purchase price and earn-out obligations and related guarantees and "Adjusted EBITDA" is defined as consolidated net income plus (a) (i) GAAP depreciation and amortization, (ii) non-cash equity-based compensation expenses, (iii) fees and expenses incurred during such period in connection with the Credit Facility and loans made thereunder, (iv) fees and expenses incurred during such period in connection with any permitted acquisition, (v) one-time regulatory charges, (vi) other extraordinary and non-recurring losses or expenses, and (vii) all other non-cash charges, expenses and losses for such period, minus (b) (i) extraordinary or non-recurring income or gains for such period, and (ii) any cash payments made during such period in respect of non-cash charges, expenses or losses described in clauses (a)(ii), (a)(v) and (a)(vi) above taken in a prior period, subject to other adjustments and certain caps and limits on adjustments. The Fixed Charge Coverage Ratio is calculated under the Credit Agreement generally as the ratio of Adjusted EBITDA, excluding capital expenditures made during such period (to the extent

Table of Contents

not financed with indebtedness (other than Revolving Loans), an issuance of equity interests or capital contributions, or proceeds of asset sales, the proceeds of casualty insurance used to replace or restore assets), to fixed charges (regularly scheduled consolidated interest expense paid in cash, regularly scheduled amortization payments on indebtedness in cash, income taxes paid in cash and the interest component of capital lease obligation payments), on a consolidated basis.

The Credit Facility is secured by substantially all of the Company's assets, including all intellectual property and all securities in domestic subsidiaries (other than certain domestic subsidiaries where the material assets of such subsidiaries are equity in foreign subsidiaries), subject to customary exceptions and exclusions from the collateral. All obligations under the Credit Agreement are unconditionally guaranteed by substantially all of the Company's material direct and indirect domestic subsidiaries, with certain exceptions. These guarantees are secured by substantially all of the present and future property and assets of the guarantors, with certain exclusions.

As of September 30, 2016, we are in compliance with our debt covenants and have provided a quarterly certification to our lenders to that effect. We believe that we currently meet all conditions set forth in the Credit Agreement to borrow thereunder and we are not aware of any conditions that would prevent us from borrowing part or all of the remaining available capacity under the revolving credit facility as of September 30, 2016 and through the date of this filing.

Current portion of long-term debt

The following summarizes our short-term debt balances as of:

	September 30, 2016	March 31, 2016
Notes outstanding under the revolving credit facility	\$	\$
Term loan- current maturities	10,000	10,000
Less: deferred financing costs - current	(1,130)	(1,119)
Total	\$ 8,870	\$ 8,881

Long-term debt, less current portion

The following summarizes our long-term debt balance as of:

	September 30, 2016	March 31, 2016
Term loan	\$ 195,000	\$ 200,000
Less:		
Current maturities	(10,000)	(10,000)
Deferred financing costs, long-term	(3,843)	(4,367)
Total	\$ 181,157	\$ 185,633

Edgar Filing: VIRTUSA CORP - Form 10-Q

In accordance with the recently adopted FASB ASU 2015-03, the Company has presented debt issuance costs in the balance sheet as a direct deduction from the carrying value of that debt liability.

On July 26, 2016, the Company entered into two 12-month forward starting interest rate swap transactions and on July 28, 2016, the Company entered into a third 12-month forward starting interest rate swap transaction to mitigate Company's interest rate risk on 50% of Company's variable rate debt (collectively, "The Interest Rate Swap Agreements"). The Company's objective is to limit the variability of cash flows associated with changes in LIBOR interest rate payments due on the Credit Agreement by using pay-fixed, receive-variable interest rate swaps to offset the future variable rate interest payments. The Company will recognize these transactions in accordance with ASC 815 *Derivatives and Hedging*, and have designated the swaps as cash flow hedges.

The three Interest Rate Swap Agreements have an effective date of July 31, 2017 and a maturity date of July 31, 2020. The swaps have an aggregate beginning notional amount of \$93,800 and hedge approximately 50% of our forecasted outstanding debt balance as of July 31, 2017. The notional amount of the swaps amortizes over the three swap periods corresponding to the quarterly principle payments on the term loan. The Interest Rate Swap Agreements require us to make monthly fixed interest rate payments based on the amortized notional amount at a blended weighted average rate of 1.025% and we will receive 1-month LIBOR on the same notional amounts.

Beginning in fiscal 2009, the Company's U.K. subsidiary entered into an agreement with an unrelated financial institution to sell, without recourse or continuing involvement, certain of its European-based accounts receivable balances from one client to such third party financial institution. During the six months ended September 30, 2016, \$11,458 of receivables were sold under the terms of the financing agreement. Fees paid pursuant to this agreement were immaterial during the three and six months ended September 30,

Table of Contents

2016. No amounts were due as of September 30, 2016, but the Company may elect to use this program again in future periods. However, the Company cannot provide any assurances that this or any other financing facilities will be available or utilized in the future.

(12) Pensions and post-retirement benefits

The Company has noncontributory defined benefit plans covering its employees in India and Sri Lanka as mandated by the Indian and Sri Lankan governments. The following tables provide information regarding pension expense recognized:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2016	2015	2016	2015
Components of net periodic pension cost				
Service cost	\$ 462	\$ 182	\$ 666	\$ 368
Interest cost	204	67	283	136
Expected return on plan assets	(206)	(81)	(302)	(164)
Amortization past service cost	2	3	5	5
Amortization of actuarial loss	41	39	82	78
Net periodic pension cost	\$ 503	\$ 210	734	\$ 423

The Company expects to contribute approximately \$1,863 in cash to the gratuity plans during the fiscal year ending March 31, 2017. During the six months ended September 30, 2016, the Company made cash contributions of \$1,249 towards the plans for the fiscal year 2017.

Table of Contents**(13) Accumulated Other Comprehensive Loss**

Changes in accumulated other comprehensive income (loss) by component were as follows for the three and six months ended September 30, 2016 and 2015:

Table of Contents

(14) Subsequent Events

On October 12, 2016, the Company purchased multiple foreign currency forward contracts designed to hedge fluctuation in the U.K. pound sterling (GBP) against the U.S. dollar, the Swedish Krona (SEK) against the U.S. dollar and the Euro against the U.S. dollar, each of which will expire on various dates during the period ending December 31, 2016. The GBP contracts have an aggregate notional amount of approximately £7,114 (approximately \$8,712), the SEK contracts have an aggregate notional amount of approximately SEK 8,172 (approximately \$935) and the Euro contracts have an aggregate notional amount of approximately EUR 437 (approximately \$481). The weighted average U.S. dollar settlement rate associated with the GBP contracts is \$1.225, the weighted average U.S. dollar settlement rate associated with the SEK contracts is approximately \$0.114, and the weighted average U.S. dollar settlement rate associated with the Euro contracts is approximately \$1.100.

On November 9, 2016, the Company announced that Mr. Samir Dhir, currently Global Delivery Officer and Head of Indian Operations, was appointed president, banking and financial services (BFS), replacing Mr. Jitin Goyal, who resigned from the same position to pursue other opportunities, each effective as of November 9, 2016.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of the financial condition and results of operations of Virtusa Corporation should be read in conjunction with the consolidated financial statements and the related notes thereto included elsewhere in this Quarterly Report on Form 10-Q and the audited financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2016 (the Annual Report), which has been filed with the Securities and Exchange Commission, or SEC.

Forward looking statements

The statements contained in this Quarterly Report on Form 10-Q that are not historical facts are forward-looking statements (within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended) that involve risks and uncertainties. Such forward-looking statements may be identified by, among other things, the use of forward-looking terminology such as believes, expects, may, will, should, seek, intends, plans, estimates, projects, anticipates, or the negative thereof or other variations thereon or comparable terminology, or by discussions of strategy that involve risks and uncertainties. These forward-looking statements, such as statements regarding anticipated future revenue, contract percentage completions, capital expenditures, the effect of new accounting pronouncements, management's plans and objectives and other statements regarding matters that are not historical facts, involve predictions. Our actual results, performance or achievements could differ materially from the results expressed in, or implied by, these forward-looking statements. There are a number of important factors that could cause our results to differ materially from those indicated by such forward-looking statements, including those factors set forth in Item 1A. Risk Factors in the Annual Report on Form 10-K for the fiscal year ended March 31, 2016 and those factors referred to or discussed in or incorporated by reference into the section titled Risk Factors included in Item 1A of Part II of this Quarterly Report on Form 10-Q. We urge you to consider those risks and uncertainties in evaluating our forward-looking statements. We caution readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. Except as otherwise required by the federal securities laws, we disclaim any obligation or undertaking to publicly release any updates or revisions to any forward-looking statement contained herein (or elsewhere) to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Business overview

Virtusa Corporation (the Company, Virtusa, we, us or our) is a global information technology services provider. Using an enhanced global delivery model, we provide end-to-end information technology (IT) services to Global 2000 companies. These services include IT and business consulting, digital enablement services, user experience (UX) design, development of IT applications, maintenance and support services, systems integration, infrastructure and managed services. Our services leverage our distinctive consulting approach and unique platforming methodology to transform our clients' businesses through the innovative use of technology and domain knowledge to solve critical business problems. Our services enable our clients to accelerate business outcomes by consolidating, rationalizing and modernizing our clients' core customer-facing processes into one or more core systems. We deliver cost-effective solutions through a global delivery model, applying advanced methods such as Agile, an industry standard technique designed to accelerate application development. We also use our consulting methodology, which we refer to as Accelerated Solution Design (ASD), which is a collaborative decision-making and design process performed with the client, to ensure our solutions meet the client's specifications and requirements. We have built targeted solutions that enable our clients to reduce their IT operations cost, while simultaneously increasing their ability to accelerate business growth in existing and new market segments. We further differentiate ourselves by enabling our clients to expand their addressable market through our millennial offerings and to improve the efficiencies of operating their business through our industry leading transformational solutions. Headquartered in Massachusetts, we have offices in the United States, Canada, the United Kingdom, the Netherlands, Germany, Switzerland, Sweden, Austria, the United Arab Emirates, Hong Kong, Japan, Australia and New Zealand, with global delivery centers in India, Sri Lanka, Hungary, Singapore and Malaysia, as

Edgar Filing: VIRTUSA CORP - Form 10-Q

well as near shore delivery centers in the United States. At September 30, 2016, we had 17,196 employees, or team members, inclusive of our Polaris team members.

On March 3, 2016, pursuant to a share purchase agreement dated as of November 5, 2015, by and among Virtusa Consulting Services Private Limited ("Virtusa India"), a subsidiary of the Company, Polaris Consulting & Services Limited ("Polaris") and the promoter sellers named therein, as amended on February 25, 2016 (the "SPA"), the Company completed the purchase of 53,133,127 shares, or approximately 51.7% of the fully-diluted capitalization of Polaris from certain Polaris shareholders for approximately \$168.3 million in cash (the "Polaris SPA Transaction"). The primary strategic purpose and goal of Virtusa's acquisition of Polaris was, and is, as follows:

- The combination of Virtusa and Polaris creates a unique, fully integrated provider of comprehensive solutions and services across the banking and financial services industry,
- The combination meaningfully expands our addressable market, and

Table of Contents

- The transaction enhances our ability to pursue larger consulting and outsourcing contracts.

In addition, on April 6, 2016, as part of the Polaris acquisition, Virtusa India completed an unconditional mandatory open offer (the "Mandatory Tender Offer") with successful tender to purchase an additional 26% of the fully diluted outstanding shares of Polaris from Polaris' public shareholders. The Mandatory Tender Offer was conducted in accordance with requirements of the Securities and Exchange Board of India ("SEBI") and the applicable Indian rules on takeovers. Virtusa India purchased 26,719,942 shares of Polaris common stock for approximately \$3.25 per share for an aggregate purchase price of approximately \$89.1 million (Indian rupees 5,935 million) inclusive of transaction costs. Upon the closing of the Mandatory Tender Offer, Virtusa India's ownership interest in Polaris increased from approximately 51.7% to 77.7% of Polaris' fully diluted shares outstanding, and from approximately 52.9% to 78.8% of Polaris' basic shares outstanding. Under applicable Indian rules on takeovers, Virtusa India is required to sell within one year of the settlement of the Mandatory Tender Offer its shareholdings in Polaris in excess of 75% of the basic outstanding share capital of Polaris. The Company expects to be in compliance with the applicable Indian rules on takeovers.

To finance the Polaris acquisition, on February 25, 2016, the Company entered into a credit agreement (the "Credit Agreement") by and among the Company, its guarantor subsidiaries a party thereto, the lenders a party thereto, JPMorgan Chase Bank, N.A., as administrative agent, and J.P. Morgan Securities LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as joint book runners and lead arrangers. The Credit Agreement replaces the Company's existing \$25.0 million credit agreement with JP Morgan Chase Bank, N.A. and provides for a \$100.0 million revolving credit facility and a \$200.0 million delayed-draw term loan (together, the "Credit Facility"). In connection with the Polaris acquisition, on February 25, 2016, the Company drew down the full \$200.0 million of the term loan. Interest under these facilities accrues at a rate per annum of LIBOR plus 2.75%, subject to step-downs based on the Company's ratio of debt to adjusted earnings before interest, taxes, depreciation, amortization, and stock compensation expense ("EBITDA"). We are required under the terms of the Credit Agreement to make quarterly principle payments on the term loan. For the fiscal year ending March 31, 2017, we are required to make principle payments of \$2.5 million per quarter. The Credit Agreement includes customary minimum cash, maximum debt to EBITDA and minimum fixed charge coverage covenants. The term of the Credit Agreement is five years, ending February 24, 2021.

In connection with, and as part of the Polaris acquisition, on November 5, 2015, the Company entered into an amendment with Citigroup Technology, Inc. ("Citi") and Polaris, which became effective upon the closing of the Polaris SPA Transaction, pursuant to which, (i) Citi agreed to appoint the Company and Polaris as a preferred vendor for Global Technology Resource Strategy ("GTRS") for the provision of IT services to Citi on an enterprise wide basis ("GTRS Preferred Vendor"), (ii) the Company agreed to certain productivity savings and associated reduced spend commitments for a period of two years, which, if not achieved, would require the Company to provide certain minimum discounts to Citi, (iii) the parties amended Polaris' master services agreement with Citi such that the Company would also be deemed a contracting party and the Company would assume, and agree to perform, or cause Polaris to perform, all applicable obligations under the master services agreement, as amended by the amendment (the "Citi/Virtusa MSA"), and (iv) Virtusa agreed to terminate Virtusa's existing master services agreement with Citi, and have the Citi/Virtusa MSA be the sole surviving agreement.

In the three months ended September 30, 2016, our revenue increased by 47% to \$210.0 million, compared to \$143.0 million in the three months ended September 30, 2015. In the six months ended September 30, 2016, our revenue increased by 50% to \$415.6 million, compared to \$277.8 million in the six months ended September 30, 2015.

In the three months ended September 30, 2016, net income decreased by 71% to \$3.2 million, as compared to a net income of \$11.1 million in the three months ended September 30, 2015. Net income decreased by 114% to a net loss of \$3.0 million in the six months ended September 30, 2016, as compared to a net income of \$21.2 million in the six months ended September 30, 2015.

The increase in revenue for the three and six months ended September 30, 2016, as compared to the three and six months ended September 30, 2015, primarily resulted from:

- Revenue generated from clients acquired by us in the acquisition of Polaris on March 3, 2016
- Revenue growth primarily in media information and other (M&I) partially offset by a decrease in banking, financial services and insurance (BFSI) revenue
- Revenue increases are partially offset by the substantial depreciation in the U.K. pound sterling

The key drivers of the decrease in our net income for the three and six months ended September 30, 2016, as compared to the three and six months ended September 30, 2015 were as follows:

- Decreases in BFSI revenue, particularly in our insurance segment
- Slight increase in gross profit, while at lower gross margin, reflective of lower utilization and higher costs of revenue which includes investments to deliver key digital transformation programs to our clients, which require higher onsite effort and contractor resourcing before we can fully leverage our global delivery model

Table of Contents

- Substantial depreciation in the U.K. pound sterling (GBP) which impacted our U.K. based revenues when consolidating into U.S. dollar and costs of revenue when converting Indian rupee denominated costs into GBP under our transfer pricing model
- Higher operating costs, including an increased investment in our sales and business development organization and facilities to support our growth and acquisition related amortization
- Interest expense related to our outstanding \$200.0 million term loan

High repeat business and client concentration are common in our industry. During the three months ended September 30, 2016 and 2015, 82% and 87%, respectively, of our revenue was derived from clients who had been using our services for more than one year. During the six months ended September 30, 2016 and 2015, 83% and 87%, respectively, of our revenue was derived from clients who had been using our services for more than one year. The decrease was primarily driven by a new base of clients acquired from Polaris on March 3, 2016. Accordingly, our global account management and service delivery teams focus on expanding client relationships and converting new engagements to long-term relationships to generate repeat revenue and expand revenue streams from existing clients.

We derive our revenue from two types of service offerings: application outsourcing, which is recurring in nature; and consulting, including technology implementation, which is non-recurring in nature. For the three months ended September 30, 2016, our application outsourcing and consulting revenue represented 58% and 42%, respectively of our total revenue as compared to 54% and 46%, respectively, for the three months ended September 30, 2015. For the six months ended September 30, 2016, our application outsourcing and consulting revenue represented 58% and 42%, respectively, of our total revenue as compared to 54% and 46%, respectively, for the six months ended September 30, 2015.

In the three months ended September 30, 2016, our European revenue increased by 47%, or \$15.1 million, to \$47.2 million, or 22% of total revenue, from \$32.1 million, or 22% of total revenue in the three months ended September 30, 2015. In the six months ended September 30, 2016, our European revenue increased by 50%, or \$31.2 million, to \$93.6 million, or 23% of total revenue, from \$62.4 million, or 23% of total revenue in the six months ended September 30, 2015. The increase in revenue for the three and six months ended September 30, 2016 is primarily due to European revenue from clients acquired as part of the Polaris acquisition, partially offset by substantial depreciation of the U.K. pound sterling.

Our gross profit increased by \$8.2 million to \$57.7 million for the three months ended September 30, 2016, as compared to \$49.5 million in the three months ended September 30, 2015. Our gross profit increased by \$12.6 million to \$109.6 million for the six months ended September 30, 2016 as compared to \$97.0 million in the six months ended September 30, 2015. The increase in gross profit during the three and six months ended September 30, 2016, as compared to the three and six months ended September 30, 2015, was primarily due to higher revenue, primarily from the Polaris acquisition, offset by higher costs of revenue which includes substantially higher on-site effort, lower utilization and depreciation in the U.K. pound sterling. As a percentage of revenue, gross margin was 27.5% and 34.6% in the three months ended

Edgar Filing: VIRTUSA CORP - Form 10-Q

September 30, 2016 and 2015, respectively. During the six months ended September 30, 2016 and 2015, gross margin, as a percentage of revenue, was 26.4% and 34.9%, respectively.

We perform our services under both time-and-materials and fixed-price contracts. Revenue from fixed-price contracts represented 45% and 36% of total revenue, and revenue from time-and-materials contracts represented 55% and 64% of total revenue for the three months ended September 30, 2016 and 2015, respectively. Revenue from fixed-price contracts represented 43% and 38% of total revenue and revenue from time-and-materials contracts represented 57% and 62% for the six months ended September 30, 2016 and 2015, respectively. The revenue earned from fixed-price contracts in the three and six months ended September 30, 2016 primarily reflects our client preferences.

As an IT services company, our revenue growth is highly dependent on our ability to attract, develop, motivate and retain skilled IT professionals. We monitor our overall attrition rates and patterns to align our people management strategy with our growth objectives. At September 30, 2016, our attrition rate for the trailing 12 months, which reflects voluntary and involuntary attrition and was approximately 25.3%. Our attrition rate at September 30, 2016 reflects a slightly higher rate of attrition as compared to the corresponding prior year period. This was partially driven by involuntary attrition as a result of lower utilization during the three and six months ended September 30, 2016 compared to the three and six months ended September 30, 2015. Although we remain committed to continuing to improve our voluntary attrition levels, there is intense competition for IT professionals with the specific domain skills necessary to provide the type of services we offer. If our attrition rate increases or is sustained at higher levels, our growth may slow and our cost of attracting and retaining IT professionals could increase.

We engage in a foreign currency hedging strategy using foreign currency forward contracts designed to hedge fluctuations in the Indian rupee against the U.S. dollar and U.K. pound sterling, as well as the euro, Swedish krona and the U.K. pound sterling against the U.S. dollar, when consolidated into U.S. dollars and intercompany balances. In addition, as part of the Polaris acquisition, the Company has assumed a cash flow program designed to mitigate the impact of the volatility of the translation of Polaris U.S. dollar denominated revenue into Indian rupees to reduce the effect of change in these foreign currency exchange rates on our foreign operations. There is no assurance that these hedging programs or hedging contracts will be effective. Because these foreign currency

Table of Contents

forward contracts are designed to reduce volatility in the Indian rupee, U.K. pound sterling, euro and Swedish krona exchange rates, they not only reduce the negative impact of a stronger Indian rupee, weaker U.K. pound sterling, weaker euro and weaker Swedish krona, but also could reduce the positive impact of a weaker Indian rupee on our Indian rupee expenses or reduce the impact of a stronger U.K. pound sterling, stronger euro or stronger Swedish krona on our U.K. pound sterling, euro and Swedish krona denominated revenues. In addition, to the extent that these hedges do not qualify for hedge accounting, we may have to recognize gains or losses on the aggregate amount of hedges placed earlier and in larger amounts than expected.

Application of critical accounting estimates and risks

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, including the recoverability of tangible assets, the disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. On an ongoing basis, we evaluate our estimates and judgments, in particular those related to the recognition of revenue and profits based on the percentage of completion method of accounting for fixed-price contracts, share-based compensation, income taxes, including reserves for uncertain tax positions, deferred taxes and liabilities, contingent consideration both upon and subsequent to acquisitions and valuation of financial instruments including derivative contracts and investments. Actual amounts could differ significantly from these estimates. Our management bases its estimates and judgments on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the amounts of revenue and expenses that are not readily apparent from other sources. Additional information about these critical accounting policies may be found in the Management's Discussion and Analysis of Financial Condition and Results of Operations section included in the Annual Report.

Results of operations**Three months ended September 30, 2016 compared to the three months ended September 30, 2015**

The following table presents an overview of our results of operations for the three months ended September 30, 2016 and 2015:

(dollars in thousands)	Three Months Ended September 30,		\$ Change	% Change
	2016	2015		
Revenue	\$ 210,089	\$ 143,002	\$ 67,087	46.9%
Costs of revenue	152,369	93,500	58,869	63.0%
Gross profit	57,720	49,502	8,218	16.6%
Operating expenses	54,183	36,246	17,937	49.5%
Income from operations	3,537	13,256	(9,719)	(73.3)%
Other income	1,418	1,830	(412)	(22.5)%
Income before income tax expense	4,955	15,086	(10,131)	(67.2)%
Income tax expense	499	4,000	(3,501)	(87.5)%
Net income	4,456	11,086	(6,630)	(59.8)%
Less: Net income attributable to noncontrolling interest	1,242		1,242	
Net income attributable to Virtusa common stockholders	\$ 3,214	\$ 11,086	\$ (7,872)	(71.0)%

Revenue

Revenue increased by 46.9%, or \$67.1 million, from \$143.0 million during the three months ended September 30, 2015 to \$210.1 million in the three months ended September 30, 2016. The increase in revenue was primarily driven by revenue generated from clients acquired by us in the acquisition of Polaris and revenue growth primarily in our M&I industry group, partially offset by a decrease in our BFSI revenue and by the substantial depreciation in the U.K. pound sterling. Revenue from North American clients in the three months ended September 30, 2016 increased by \$35.0 million, or 34.5%, as compared to the three months ended September 30, 2015, primarily due to revenue generated from clients acquired by us in the acquisition of Polaris and revenue growth primarily in our M&I industry group, partially offset by a decrease in our BFSI revenue. Revenue from European clients increased by \$15.1 million, or 47.2%, as compared to the three months ended September 30, 2015, primarily due to European revenue from clients acquired as part of the Polaris acquisition, partially offset by the substantial depreciation of the U.K. pound sterling. We had 187 active clients, including 45 clients from the Polaris acquisition, at September 30, 2016, as compared to 128 active clients at September 30, 2015.

Table of Contents

Costs of revenue

Costs of revenue increased from \$93.5 million in the three months ended September 30, 2015 to \$152.4 million in the three months ended September 30, 2016, an increase of \$58.9 million, or 63.0%, which includes a benefit of \$3.2 million due to the depreciation of the Indian rupee. The increase in cost of revenue was primarily due to the acquisition of Polaris, including an increase in the number of IT professionals and related compensation and benefit costs of \$47.7 million, including higher onsite costs and lower utilization. The increased costs of revenue are also due to an increase in subcontractor costs of \$8.0 million and an increase in travel expenses of \$2.0 million. At September 30, 2016, we had 15,447 IT professionals inclusive of our Polaris team members as compared to 9,247 at September 30, 2015.

As a percentage of revenue, cost of revenue increased from 65.4% for the three months ended September 30, 2015 to 72.5% for three months ended September 30, 2016.

Gross profit

Our gross profit increased by \$8.2 million, or 16.6%, to \$57.7 million for the three months ended September 30, 2016, as compared to \$49.5 million for the three months ended September 30, 2015, primarily due to revenue generated from clients acquired from the Polaris acquisition, offset by increased cost of revenue related to higher onsite costs, lower utilization, the growth in the number of IT professionals, and subcontractor costs. As a percentage of revenue, our gross profit was 27.5% and 34.6% in the three months ended September 30, 2016 and 2015, respectively.

Operating expenses

Operating expenses increased from \$36.2 million in the three months ended September 30, 2015 to \$54.2 million in the three months ended September 30, 2016, an increase of \$17.9 million, or 49.5%, which includes a benefit of \$1.4 million due to the depreciation of the Indian rupee. The increase in operating expenses was primarily due to the acquisition of Polaris, including an increase of \$8.9 million in compensation related expenses, an increase of \$6.1 million in facilities expense, an increase of \$1.4 million in travel expenses and an increase of \$1.0 million in intangible amortization related to acquisitions. As a percentage of revenue, our operating expenses increased from 25.3% in the three months ended September 30, 2015 to 25.8% in the three months ended September 30, 2016.

Income from operations

Edgar Filing: VIRTUSA CORP - Form 10-Q

Income from operations decreased by 73.3%, from \$13.3 million in the three months ended September 30, 2015 to \$3.5 million in the three months ended September 30, 2016. As a percentage of revenue, income from operations decreased from 9.3% in the three months ended September 30, 2015 to 1.7% in the three months ended September 30, 2016.

Other income

Other income decreased by \$0.4 million from \$1.8 million in the three months ended September 30, 2015 to \$1.4 million in the three months ended September 30, 2016, primarily due to an increase in interest expense related to our term loan, partially offset by an increase in foreign currency transaction gains.

Income tax expense

Income tax expense decreased by \$3.5 million, from \$4.0 million in the three months ended September 30, 2015 to \$0.5 million in the three months ended September 30, 2016. Our effective tax rate decreased from 26.5% for the three months ended September 30, 2015 to 10.1% for the three months ended September 30, 2016. The decrease in the tax expense and effective tax rate for the three months ended September 30, 2016 were primarily due to a decrease in income from operations, geographical mix of profits and certain currency gains with no tax expense.

Noncontrolling interests

In connection with the Polaris acquisition, for the three months ended September 30, 2016, we recorded a noncontrolling interest of \$1.2 million, representing a 21.4% share of profits of Polaris held by parties other than Virtusa.

Net income attributable to Virtusa stockholders

Net income decreased by 71.0%, from \$11.1 million in the three months ended September 30, 2015 to \$3.2 million in the three months ended September 30, 2016 driven by lower utilization, higher on-site efforts, substantial depreciation of U.K. pound sterling, higher operating costs, and interest expense related to our term loan, partially offset by foreign currency transaction gains.

Table of Contents**Six months ended September 30, 2016 compared to the six months ended September 30, 2015**

The following table presents an overview of our results of operations for the six months ended September 30, 2016 and 2015:

(dollars in thousands)	Six Months Ended September 30,		\$ Change	% Change
	2016	2015		
Revenue	\$ 415,560	\$ 277,846	\$ 137,714	49.6%
Costs of revenue	305,929	180,862	125,067	69.2%
Gross profit	109,631	96,984	12,647	13.0%
Operating expenses	107,943	71,318	36,625	51.4%
Income from operations	1,688	25,666	(23,978)	(93.4)%
Other (expense) income	(2,707)	3,220	(5,927)	(184.1)%
Income (loss) before income tax expense	(1,019)	28,886	(29,905)	(103.5)%
Income tax expense	35	7,687	(7,652)	(99.5)%
Net income (loss)	(1,054)	21,199	(22,253)	(105.0)%
Less: Net income attributable to noncontrolling interest	1,988		1,988	
Net income (loss) attributable to Virtusa common stockholders	\$ (3,042)	\$ 21,199	\$ (24,241)	(114.3)%

Revenue

Revenue increased by 49.6%, or \$137.8 million, from \$277.8 million during the six months ended September 30, 2015 to \$415.6 million in the six months ended September 30, 2016. The increase in revenue was primarily driven by revenue generated from clients acquired by us in the acquisition of Polaris and revenue growth primarily in our M&I industry group, partially offset by a decrease in our BFSI revenue and by substantial depreciation in the U.K. pound sterling. Revenue from North American clients in the six months ended September 30, 2016 increased by \$71.8 million, or 36.2%, as compared to the six months ended September 30, 2015, primarily due to revenue generated from clients acquired by us in the acquisition of Polaris and revenue growth primarily in our M&I industry group, partially offset by a decrease in our BFSI revenue. Revenue from European clients increased by \$31.2 million, or 49.9%, as compared to the six months ended September 30, 2015, primarily due to European revenue from clients acquired as part of the Polaris acquisition, partially offset by the substantial depreciation of the U.K. pound sterling. We had 187 active clients, including 45 clients from the Polaris acquisition, at September 30, 2016, as compared to 128 active clients at September 30, 2015.

Costs of revenue

Costs of revenue increased from \$180.9 million in the six months ended September 30, 2015 to \$305.9 million in the six months ended September 30, 2016, an increase of \$125.1 million, or 69.2% which includes a benefit of \$6.0 million due to the depreciation of the Indian rupee. The increase in cost of revenue was primarily due to the acquisition of Polaris, including an increase in the number of IT professionals and related compensation and benefit costs of \$103.1 million, including higher onsite costs and lower utilization. The increased costs of revenue are also due to an increase in subcontractor costs of \$15.1 million and an increase in travel expenses of \$4.5 million. At September 30, 2016, we had

15,447 IT professionals inclusive of our Polaris team members as compared to 9,247 at September 30, 2015.

As a percentage of revenue, cost of revenue increased from 65.1% for the six months ended September 30, 2015 to 73.6% for six months ended September 30, 2016.

Gross profit

Our gross profit increased by \$12.6 million, or 13.0%, to \$109.6 million for the six months ended September 30, 2016, as compared to \$97.0 million for the six months ended September 30, 2015, primarily due to revenue generated from clients acquired from the Polaris acquisition, offset by increased cost of revenue related to higher onsite costs, lower utilization, the growth in the number of IT professionals, and subcontractor costs. As a percentage of revenue, our gross profit was 26.4% and 34.9% in the six months ended September 30, 2016 and 2015, respectively.

Operating expenses

Operating expenses increased from \$71.3 million in the six months ended September 30, 2015 to \$107.9 million in the six months ended September 30, 2016, an increase of \$36.6 million, or 51.4%, which includes a benefit of \$2.4 million due to the depreciation of the Indian rupee. The increase in operating expenses was primarily due to the acquisition of Polaris, including an increase of \$16.0 million in compensation related expenses, an increase of \$13.0 million in facilities expense, an increase of \$3.1 million in travel expenses and an increase of \$2.2 million in intangible amortization related to acquisitions. As a percentage of

Table of Contents

revenue, our operating expenses increased from 25.7% in the six months ended September 30, 2015 to 26.0% in the six months ended September 30, 2016.

Income from operations

Income from operations decreased by 93.4%, from \$25.7 million in the six months ended September 30, 2015 to \$1.7 million in the six months ended September 30, 2016. As a percentage of revenue, income from operations decreased from 9.2% in the six months ended September 30, 2015 to 0.4% in the six months ended September 30, 2016.

Other income (expense)

Other income (expense) decreased from an income of \$3.2 million in the six months ended September 30, 2015 to an expense of \$(2.7) million in the six months ended September 30, 2016, primarily due to an increase in interest expense related to our term loan and an increase in foreign currency transaction losses.

Income tax expense

Income tax expense decreased by \$7.6 million, from \$7.7 million in the six months ended September 30, 2015 to \$0.1 million in the six months ended September 30, 2016. Our effective tax rate decreased from 26.6% for the six months ended September 30, 2015 to (3.4) % for the six months ended September 30, 2016. The decrease in tax expense and decrease in the effective tax rate for the six months ended September 30, 2016 were primarily due to a decrease in income from operations, geographical mix of profits and certain currency losses with no tax benefits. The negative effective tax rate is due primarily to our near breakeven profits for the six months ended September 30, 2016 offset by certain discrete items.

Noncontrolling interests

In connection with the Polaris acquisition, for the six months ended September 30, 2016, we recorded a noncontrolling interest of \$2.0 million, representing a 22.0% share of profits of Polaris held by parties other than Virtusa.

Net income (loss) attributable to Virtusa stockholders

Edgar Filing: VIRTUSA CORP - Form 10-Q

Net income decreased by 114.3%, from a net income of \$21.2 million in the six months ended September 30, 2015 to a net loss of \$(3.0) million in the six months ended September 30, 2016 driven by lower utilization, higher on-site efforts, substantial depreciation of U.K. pound sterling, higher operating costs, foreign currency transaction losses and interest expense related to our term loan.

Non-GAAP Financial Measures

We include certain non-GAAP financial metrics as defined by Regulation G by the Securities and Exchange Commission. These non-GAAP financial metrics are not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, financial metrics calculated in accordance with GAAP, and may be different from non-GAAP metrics used by other companies. In addition, these non-GAAP metrics should be read in conjunction with our financial statements prepared in accordance with GAAP.

We believe the following financial metrics will provide additional insights to measure the operational performance of our business.

- We present the following consolidated statement of income (loss) metrics that exclude acquisition-related charges, stock-based compensation expense and foreign currency transaction gains and losses to provide further insights into the comparison of our operating results among the periods.
- Non-GAAP income from operations: income (loss) from operations, as reported on our consolidated statements of income (loss), excluding stock-based compensation expense and acquisition-related charges
- Non-GAAP operating margin: non-GAAP income (loss) from operations as a percentage of reported revenues
- Non-GAAP net income: net income (loss), as reported on our consolidated statements of income (loss), excluding the tax adjusted impact of the following: stock-based compensation, acquisition-related charges and foreign currency transaction gains and losses
- Non-GAAP diluted earnings per share: diluted earnings (loss) per share, as reported on our consolidated statements of income (loss), excluding tax adjusted per share impact of the following: stock-based compensation, acquisition-related charges and foreign currency transaction gains and losses

Table of Contents

The following table presents a reconciliation of each non-GAAP financial metric to the most comparable GAAP metric for the three and six months ended September 30, 2016 and 2015:

		Three Months Ended September 30,			Six Months Ended September 30,		
		2016	2015		2016	2015	
		(in thousands, except per share amounts)			(in thousands, except per share amounts)		
GAAP income from operation	\$	3,537	\$ 13,256	\$	1,688	\$ 25,666	
Add: Stock-based compensation expense		6,142	3,105		12,275	6,634	
Add: Acquisition-related charges(1)		3,247	2,387		6,672	4,688	
Non-GAAP income from operations	\$	12,926	\$ 18,748	\$	20,635	\$ 36,988	
GAAP operating margin		1.7%	9.3%		0.4%	9.2%	
Effect of above adjustments to income from operations		4.5%	3.8%		4.6%	4.1%	
Non-GAAP operating margin		6.2%	13.1%		5.0%	13.3%	
GAAP net income (loss)	\$	3,214	\$ 11,086	\$	(3,042)	\$ 21,199	
Add: Stock-based compensation expense		6,142	3,105		12,275	6,634	
Add: Acquisition-related charges(1)		3,247	2,387		6,672	4,688	
Add: Foreign currency transaction (gains) losses(2)		(2,030)	(219)		1,550	(194)	
Tax adjustments(3)		(1,802)	(1,398)		(3,199)	(2,961)	
Noncontrolling interest, net of taxes(4)		(357)			(556)		
Non-GAAP net income	\$	8,414	\$ 14,961	\$	13,700	\$ 29,366	
GAAP diluted earnings (loss) per share	\$	0.11	\$ 0.37	\$	(0.10)	\$ 0.71	
Effect of stock-based compensation expense		0.16	0.08		0.34	0.16	
Effect of acquisition-related charges(1)		0.08	0.06		0.18	0.11	
Effect of foreign currency transaction (gains) losses(2)		(0.07)	(0.01)		0.05	(0.00)	
Effect of noncontrolling interest(4)		(0.01)			(0.02)		
Non-GAAP diluted earnings per share(5)	\$	0.27	\$ 0.50	\$	0.45	\$ 0.98	

(1) Acquisition-related charges include, when applicable, amortization of purchased intangibles, external deal costs, acquisition-related retention bonuses, changes in the fair value of contingent consideration liabilities, charges for impairment of acquired intangible assets and other acquisition-related costs, including integration expenses consisting of outside professional and consulting services and direct and incremental travel costs.

(2) Foreign currency transaction gains and losses are inclusive of gains and losses on related foreign exchange forward contracts not designated as hedging instruments for accounting purposes.

(3) Tax adjustments reflect the estimated tax effect of the non-GAAP adjustments using the non-GAAP effective tax rate for the respective periods.

(4) Noncontrolling interest represents the minority shareholders interest of Polaris

(5) Non-GAAP diluted earnings per share for the six months September 30, 2016 ended includes 567,037 shares of common stock equivalents that were excluded from GAAP diluted loss per share as their effect would have been anti-dilutive.

Liquidity and capital resources

We have financed our operations primarily from sales of shares of common stock, cash from operations and debt financing.

We plan to initiate a cost reduction plan during our third and fourth quarters to reduce future operating costs. As a result, we expect to incur between \$1.5 million and \$2.0 million in restructuring charges during the second half of fiscal year 2017.

On March 3, 2016, Virtusa Consulting Services Private Limited (Virtusa India), a subsidiary of Virtusa Corporation (Virtusa or the Company), purchased 53,133,127 shares, or approximately 51.7%, of the fully-diluted capitalization of Polaris Consulting & Services Limited (Polaris) from certain Polaris shareholders for approximately \$168.3 million in cash (the Polaris SPA Transaction) pursuant to a definitive share purchase agreement (SPA) by and among Virtusa India, the Polaris founding shareholders, promoters, and certain other Polaris minority stockholders, which was entered into on November 5, 2015. On April 6, 2016, Virtusa India completed its purchase of an additional 26.0% of the fully diluted outstanding shares of Polaris from public shareholders for approximately \$89.1 million, inclusive of transaction costs in cash under a mandatory tender open offer as required under applicable India takeover rules. Pursuant to the mandatory offer, during the fiscal year ended March 31, 2016, the Company transferred \$89.2 million into an escrow account in accordance with the India takeover rules, which is recorded as restricted cash at March 31, 2016. On April 6, 2016, the restricted cash was released from the escrow account and used for settlement for the mandatory open offer.

Table of Contents

To finance the Polaris acquisition, on February 25, 2016, the Company entered into a credit agreement (the "Credit Agreement") by and among the Company, its guarantor subsidiaries a party thereto, the lenders a party thereto, JPMorgan Chase Bank, N.A., as administrative agent, and J.P. Morgan Securities LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as joint book runners and lead arrangers. The Credit Agreement replaces the Company's existing \$25.0 million credit agreement with JP Morgan Chase Bank, N.A. and provides for a \$100.0 million revolving credit facility and a \$200.0 million delayed-draw term loan (together, the "Credit Facility"). In connection with the Polaris acquisition, on February 25, 2016, the Company drew down the full \$200.0 million of the term loan. Interest under these facilities accrues at a rate per annum of LIBOR plus 2.75%, subject to step-downs based on the Company's ratio of debt to adjusted earnings before interest, taxes, depreciation, amortization, and stock compensation expense ("EBITDA"). We are required under the terms of the Credit Agreement to make quarterly principle payments on the term loan. For the fiscal year ending March 31, 2017 we are required to make principle payments of \$2.5 million per quarter. The Credit Agreement includes customary minimum cash, maximum debt to EBITDA and minimum fixed charge coverage covenants. The term of the Credit Agreement is five years, ending February 24, 2021.

The Credit Agreement has financial covenants that require that the Company maintain a Total Leverage Ratio, commencing on September 30, 2016, of not more than 3.25 to 1.00 for the first year of the Credit Facility, of not more than 3.00 to 1.00 for the second year of the Credit Facility, and 2.75 to 1.00 thereafter, each as determined for the four consecutive quarter period ending on each fiscal quarter (the "Reference Period"). In addition, for a period, expected to be at least one year from the completion of the Company's closing of the Polaris SPA Transaction, until the occurrence of certain events described in the Credit Agreement, at any time when the Total Leverage Ratio exceeds 1.50 to 1.00 as of the last day of a quarter, the Company must maintain at least \$30.0 million in unrestricted cash, cash equivalents and certain permitted investments under the Credit Facility held in bank deposits in the U.S., and \$20.0 million in unrestricted cash and certain permitted investments under the Credit Facility and long-term securities investments held in accordance with the Company's current investment policy. The financial covenants also require that the Company maintain a Fixed Charge Coverage Ratio, commencing on September 30, 2016, of not less than 1.25 to 1.00, as of the last day of any Reference Period. For purposes of these covenants, "Total Leverage Ratio" means, as of the last day of any fiscal quarter, the ratio of Funded Debt to Adjusted EBITDA for the reference period ended on such date. "Funded Debt" refers generally to total indebtedness to third-parties for borrowed money, capital leases, deferred purchase price and earn-out obligations and related guarantees and "Adjusted EBITDA" is defined as consolidated net income (loss) plus (a) (i) GAAP depreciation and amortization, (ii) non-cash equity-based compensation expenses, (iii) fees and expenses incurred during such period in connection with the Credit Facility and loans made thereunder, (iv) fees and expenses incurred during such period in connection with any permitted acquisition, (v) one-time regulatory charges, (vi) other extraordinary and non-recurring losses or expenses, and (vii) all other non-cash charges, expenses and losses for such period, minus (b) (i) extraordinary or non-recurring income or gains for such period, and (ii) any cash payments made during such period in respect of non-cash charges, expenses or losses described in clauses (a)(ii), (a)(v) and (a)(vi) above taken in a prior period, subject to other adjustments and certain caps and limits on adjustments. The Fixed Charge Coverage Ratio is calculated under the Credit Agreement generally as the ratio of Adjusted EBITDA, excluding capital expenditures made during such period (to the extent not financed with indebtedness (other than Revolving Loans), an issuance of equity interests or capital contributions, or proceeds of asset sales, the proceeds of casualty insurance used to replace or restore assets), to fixed charges (regularly scheduled consolidated interest expense paid in cash, regularly scheduled amortization payments on indebtedness in cash, income taxes paid in cash and the interest component of capital lease obligation payments), on a consolidated basis.

The Credit Facility is secured by substantially all of the Company's assets, including all intellectual property and all securities in domestic subsidiaries (other than certain domestic subsidiaries where the material assets of such subsidiaries are equity in foreign subsidiaries), subject to customary exceptions and exclusions from the collateral. All obligations under the Credit Agreement are unconditionally guaranteed by substantially all of the Company's material direct and indirect domestic subsidiaries, with certain exceptions. These guarantees are secured by substantially all of the present and future property and assets of the guarantors, with certain exclusions.

As of September 30, 2016, we are in compliance with our debt covenants and have provided a quarterly certification to our lenders to that effect. We believe that we currently meet all conditions set forth in the credit agreement to borrow thereunder and we are not aware of any conditions that would prevent us from borrowing part or all of the remaining available capacity under the revolving credit facility as of March 31, 2016 and through the date of this filing.

Edgar Filing: VIRTUSA CORP - Form 10-Q

On July 26, 2016, we entered into two 12-month forward starting interest rate swap transactions and on July 28, 2016 we entered into a third 12-month forward starting interest rate swap transaction to mitigate our interest rate risk on 50% of our variable rate debt (collectively, "The Interest Rate Swap Agreements"). Our objective is to limit the variability of cash flows associated with changes in LIBOR interest rate payments due on the Credit Agreement by using pay-fixed, receive-variable interest rate swaps to offset the future variable rate interest payments. We will recognize these transactions in accordance with ASC 815 *Derivatives and Hedging*, and have designated the swaps as cash flow hedges.

The Interest Rate Swap Agreements have an effective date of July 31, 2017 and a maturity date of July 31, 2020. The swaps have an aggregate beginning notional amount of \$93.8 million and hedge approximately 50% of our forecasted outstanding debt balance as

Table of Contents

of July 31, 2017. The notional amount of the swaps amortizes over the three swap periods corresponding to the quarterly principle payments on the term loan. The Interest Rate Swap Agreements require us to make monthly fixed interest rate payments based on the amortized notional amount at a blended weighted average rate of 1.025% and we will receive 1-month LIBOR on the same notional amounts.

The counterparties to the Interest Rate Swap Agreements could demand an early termination of the 2016 Swap Agreements if we are in default under the Credit Agreement, or any agreement that amends or replaces the Credit Agreement in which the counterparty is a member, and we are unable to cure the default. An event of default under the Credit Agreement includes customary events of default and failure to comply with financial covenants, including a maximum consolidated leverage ratio commencing on September 30, 2016, of not more than 3.25 to 1.00 for the first year of the Credit Agreement, of not more than 3.00 to 1.00 for the second year of the Credit Agreement, and 2.75 to 1.00 thereafter, each as determined for the four consecutive quarter period ending on each fiscal quarter and a minimum consolidated fixed charge coverage ratio of 1.25 to 1.00. As of September 30, 2016, we were in compliance with these covenants. The unrealized loss associated with the 2015 Swap Agreement was \$0.1 million as of September 30, 2016, which represents the estimated amount that we would pay to the counterparties in the event of an early termination.

At September 30, 2016, a significant portion of our cash and short-term investments was held by our foreign subsidiaries. We continually monitor our cash needs and employ tax planning and financing strategies to ensure cash is available in the appropriate jurisdictions to meet operating needs. The cash held by our foreign subsidiaries is considered indefinitely reinvested in local operations. If required, it could be repatriated to the United States. However, under current law, any repatriation would be subject to United States federal income tax less applicable foreign tax credits.

Beginning in fiscal 2009, our U.K. subsidiary entered into an agreement with an unrelated financial institution to sell, without recourse, certain of its Europe-based accounts receivable balances from one client to the financial institution. During the six months ended September 30, 2016, we sold \$11.5 million of receivables under the terms of the financing agreement. Fees paid pursuant to this agreement were not material during the three and six months ended September 30, 2016. No amounts were due under the financing agreement at September 30, 2016, but we may elect to use this program again in future periods. However, we cannot provide any assurances that this or any other financing facilities will be available or utilized in the future.

Cash flows

The following table summarizes our cash flows for the periods presented:

(in thousands)	Six Months Ended September 30,			
	2016		2015	
Net cash provided by operating activities	\$	8,057	\$	18,494
Net cash provided (used in) by investing activities		96,023		(60,726)
Net cash (used in) provided by financing activities		(94,537)		2,824
Effect of exchange rate changes on cash		368		(3,136)
Net (decrease) increase in cash and cash equivalents		9,911		(42,544)
Cash and cash equivalents, beginning of period		148,986		124,802
Cash and cash equivalents, end of period	\$	158,897	\$	82,258

Operating activities

Net cash provided by operating activities decreased in the six months ended September 30, 2016 compared to the six months ended September 30, 2015, primarily driven by a decrease in net income during the six months ended September 30, 2016 compared to the six months ended September 30, 2015.

Investing activities

Net cash provided by (used in) investing activities increased from cash used in investing activities in the six months ended September 30, 2015 to cash provided by investing activities in the six months ended September 30, 2016. Net cash provided by investing activities is primarily due to a decrease in restricted cash related to the Polaris mandatory offering and a decrease in business acquisition payments.

Financing activities

Net cash (used in) provided by financing activities decreased from cash provided by financing activities in the six months ended September 30, 2015 to cash used in financing activities in the six months ended September 30, 2016. Net cash used in

Table of Contents

financing activities was primarily due to the acquisition of noncontrolling interest related to Polaris and payments related to our term loan during the six months ended September 30, 2016.

Off-balance sheet arrangements

We do not have investments in special purpose entities or undisclosed borrowings or debt.

We maintain a foreign currency cash flow hedging program designed to further mitigate the risks of volatility in the Indian rupee against the U.S. dollar and U.K. pound sterling as described below in Quantitative and Qualitative Disclosures about Market Risk. From time to time, we may also purchase multiple foreign currency forward contracts designed to hedge fluctuation in foreign currencies, such as the U.K. pound sterling, euro and Swedish Krona against the U.S. dollar, or the U.K. pound sterling against the Sri Lankan rupee, and other multiple foreign currency hedges designed to hedge foreign currency transaction gains and losses on our intercompany balances as well as to minimize the impact of foreign currency fluctuations on foreign currency denominated revenue and expenses. Other than these foreign currency derivative contracts, we have not entered into off-balance sheet transactions, arrangements or other relationships with unconsolidated entities or other persons that are likely to affect liquidity or the availability of or requirements for capital resources.

Recent accounting pronouncements

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Company on April 1, 2018. Early application is permitted but not before periods beginning on or after January 1, 2017. In March, April and May 2016, the FASB issued updates to the new revenue standard to clarify the implementation guidance on principal versus agent considerations for reporting revenue gross versus net, identifying performance obligations, accounting for licenses of intellectual property, transition, contract modifications, collectability, non-cash consideration and presentation of sales and other similar taxes with the same effective date. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures.

In June 2014, the FASB issued ASU No. 2014-12, Compensation - Stock Compensation (Topic 718): Accounting for Share-Based Payments when the terms of an award provide that a performance target could be achieved after the requisite service period (a consensus of the FASB Emerging Issues Task Force). The ASU clarifies that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Topic 718 as it relates to awards with performance conditions that affect vesting to account for such awards. As such, the performance target should not be reflected in estimating the grant-date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. This ASU was effective for annual periods, and interim periods within those years, beginning after December 15, 2015. This ASU may be applied either (a) prospectively to all awards granted or modified after the effective date or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. The ASU did not have an impact on the Company's consolidated financial statements.

In January 2016, the FASB issued an update (ASU 2016-01) to the standard on financial instruments. The update significantly revises an entity's accounting related to (1) the classification and measurement of investments in equity securities and (2) the presentation of certain fair value changes for financial liabilities measured at fair value. The update also amends certain disclosure requirements. For public business entities, the amendments in this update are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Upon adoption, entities will be required to make a cumulative-effect adjustment to the statement of financial position as of the beginning of the first reporting period in which the guidance is effective. However, the specific guidance on equity securities without readily determinable fair value will apply prospectively to all equity investments that exist as of the date of adoption. Early adoption of certain sections of this update is permitted. The Company is currently evaluating the effect the new standard will have on the Company's consolidated financial statements and related disclosures.

In February 2016, the FASB issued an update (ASU 2016-02) to the standard on leases to increase transparency and comparability among organizations. The new standard replaces the existing guidance on leases and requires the lessee to recognize a right-of-use asset and a lease liability for all leases with lease terms equal to or greater than twelve months. For finance leases, the lessee would recognize interest expense and amortization of the right-of-use asset, and for operating leases, the lessee would recognize total lease expense on a straight-line basis. For public business entities this standard is effective for the annual periods beginning after December 15, 2018, and interim periods within those annual periods. Early adoption of this new standard is permitted. Entities will be required to use a modified retrospective transition which provides for certain practical expedients. The Company is currently evaluating the effect the new standard will have on its consolidated financial statements and related disclosures.

Table of Contents

In March 2016, the FASB issued an update (ASU 2016-05) to the standard on derivatives and hedging on the effect of derivative contract notations on existing hedge accounting relationships. As it relates to derivative instruments, novation refers to replacing one of the parties to a derivative instrument with a new party, which may occur for a variety of reasons such as: financial institution mergers, intercompany transactions, an entity exiting a particular derivatives business or relationship, or because of laws or regulatory requirements. The update clarifies that a change in the counterparty to a derivative instrument that has been designated as the hedging instrument does not, in and of itself, require designation of that hedge accounting relationship provided that all other hedge accounting criteria continue to be met. The update is effective for fiscal years, and interim periods within those fiscal years, beginning on or after January 1, 2017. Upon adoption, the entities can choose to apply on either a prospective basis or a modified retrospective basis. Early adoption of this update is permitted. The adoption of this guidance is not expected to have a material impact on the consolidated financial statements.

In March 2016, the FASB issued an update (ASU 2016-09) to the standard on Compensation – Stock Compensation, which simplifies several aspects of the accounting for employee share-based payment transactions including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. For public business entities, the amendments in this update are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted for any entity in any interim or annual period. Upon adoption, entities will be required to apply a modified retrospective, prospective or retrospective transition method depending on the specific section of the guidance being adopted. The Company is currently evaluating the effect the update will have on its consolidated financial statements and related disclosures.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments – Measurement of Credit Losses on Financial Instruments, which modifies the measurement of expected credit losses of certain financial instruments. This standard update requires financial assets measured at amortized cost basis to be presented at the net amount expected to be collected. This update is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the effect of this new standard will have on its consolidated financial statements and related disclosures.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230). This update is intended to reduce diversity in practice in how certain cash receipts and payments are classified in the statement of cash flows. This standard update addresses eight specific cash flow issues, including debt prepayment or extinguishment costs, the settlement of contingent liabilities arising from a business combination, proceeds from insurance settlements, and distributions from certain equity method investees. The guidance is effective for interim and annual periods beginning after December 15, 2017, and early adoption is permitted. The guidance requires application using a retrospective transition method. The Company is currently evaluating the effect of this new standard will have on its consolidated financial statements and related disclosures.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our market risks, and the ways we manage them, are summarized in Item 7A of the Annual Report. There have been no material changes in the six months ended September 30, 2016 to such risks or to our management of such risks except for the risks already disclosed in Item 3 of our quarterly filing on Form 10-Q for the quarter ended June 30, 2016.

Foreign Currency Exchange Rate Risk

We are exposed to foreign currency exchange rate risk in the ordinary course of business. We have historically entered into, and in the future we may enter into, foreign currency derivative contracts to minimize the impact of foreign currency fluctuations on both foreign currency denominated assets and forecasted expenses. The purpose of this foreign exchange policy is to protect us from the risk that the recognition of and eventual cash flows related to Indian rupee denominated expenses might be affected by changes in exchange rates. Some of these contracts meet the criteria for hedge accounting as cash flow hedges (See Note 6 of the notes to our financial statements included herein for a description of recent hedging activities).

We evaluate our foreign exchange policy on an ongoing basis to assess our ability to address foreign exchange exposures on our balance sheet, statement of income (loss) and operating cash flows from all foreign currencies, including most significantly the U.K. pound sterling, the Indian rupee, the euro, the Sri Lankan rupee and the Swedish krona.

We have two 24 month rolling programs comprised of a series of foreign exchange forward contracts that are designated as cash flow hedges. One program is designed to mitigate the impact of volatility in the U.S. dollar equivalent of our Indian rupee denominated expenses. The second program was assumed as part of the Polaris acquisition and is intended to mitigate the volatility of the U.S. dollar denominated revenue that is translated into Indian rupees. The U.S. dollar equivalent market value of the outstanding foreign currency derivative contracts at September 30, 2016 was \$204.3 million. There is no assurance that these hedging programs or

Table of Contents

hedging contracts will be effective. As these foreign currency hedging programs are designed to reduce volatility in the Indian rupee, they not only reduce the negative impact of a stronger Indian rupee but also reduce the positive impact of a weaker Indian rupee on our Indian rupee expenses. In addition, to the extent that these hedges do not qualify for hedge accounting, we may have to recognize gains or losses on the aggregate amount of hedges placed earlier than expected.

The U.K. pound sterling, Swedish krona and the euro exchange fluctuations can have an unpredictable impact on our U.K. pound sterling, Swedish krona and the euro revenues generated, and costs incurred. In response to this volatility, we have entered into hedging transactions designed to hedge our forecasted revenue and expenses denominated in the U.K. pound sterling, the Swedish krona as well as the euro. These derivative contracts have maximum duration of 92 days and do not meet the criteria for hedge accounting. Such hedges may not be effective in mitigating this currency volatility. These hedges are designed to reduce the negative impact of a weaker U.K. pound sterling, Swedish krona or the euro, however they also reduce the positive impact of a stronger U.K. pound sterling, Swedish krona or the euro.

Table of Contents

Interest Rate Risk

In connection with the Polaris acquisition, on February 25, 2016, we drew down the full \$200.0 million of the term loan under the Credit Facility. Interest under this facility accrues at a rate per annum of LIBOR plus 2.75%, subject to step-downs based on the Company's ratio of debt to EBITDA. The Credit Agreement includes customary minimum cash, maximum debt to EBITDA and minimum fixed charge coverage covenants see Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources . The term of the Credit Agreement ends on February 24, 2021. We do not believe we are exposed to material direct risks associated with changes in interest rates other than with respect to our Credit Facility, our cash and cash equivalents, short-term investments and long-term investments. To mitigate the Company's exposure to movements in the one-month London Inter-Bank Offer Rate (LIBOR) rate on future outstanding debt, the Company entered into the Interest Rate Swap Agreements to convert a portion of the Company's outstanding debt from a floating to a fixed rate of interest (See Note 11 of the notes to our financial statements included herein for a detail description of our debt).

At September 30, 2016, we had \$227.3 million in cash and cash equivalents, short-term investments and long-term investments, the interest income from which is affected by changes in interest rates. Our invested securities primarily consist of government sponsored entity bonds, money market mutual funds, commercial paper, corporate debts, preference shares and municipal bonds. Our investments in debt securities are classified as available-for-sale and

are recorded at fair value. Our available-for-sale investments are sensitive to changes in interest rates. Interest rate changes would result in a change in the net fair value of these financial instruments due to the difference between the market interest rate at the period end and the market interest rate at the date of purchase of the financial instrument.

Concentration of Credit Risk

Financial instruments which potentially expose us to concentrations of credit risk primarily consist of cash and cash equivalents, short-term investments and long-term investments, accounts receivable, derivative contracts, other financial assets and unbilled accounts receivable. We place our operating cash, investments and derivatives in highly-rated financial institutions. We adhere to a formal investment policy with the primary objective of preservation of principal, which contains minimum credit rating and diversification requirements. We believe that our credit policies reflect normal industry terms and business risk. We do not anticipate non-performance by the counterparties and, accordingly, do not require collateral. Credit losses and write-offs of accounts receivable balances have historically not been material to our financial statements and have not exceeded our expectations.

Table of Contents

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, as ours are designed to do, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

At September 30, 2016, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) and internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at a reasonable assurance level in (i) enabling us to record, process, summarize and report information required to be included in our periodic SEC filings within the required time period and (ii) ensuring that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Except for changes made as part of the inclusion of Polaris, there were no changes in our internal control over financial reporting during the six months ended September 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sale of Equity Securities and Use of Proceeds; Purchases of Equity Securities By the Issuer and Affiliated Purchasers

Under the terms of our 2007 Stock Option and Incentive Plan (2007 Plan) and 2015 Stock Option and Incentive Plan (2015 Plan), we have issued shares of restricted stock to our employees. On the date that these restricted shares vest, we automatically withhold, via a net exercise provision pursuant to our applicable restricted stock agreements and the 2007 Plan and 2015 Plan, as the case may be, the number of vested shares (based on the closing price of our common stock on such vesting date) equal to tax liability owed by such grantee. The shares withheld from the grantees under the 2007 Plan or the 2015 Plan, as the case may be, to settle their tax liability are reallocated to the number of shares available for issuance under the 2015 Plan. For the three month period ended September 30, 2016, we withheld an aggregate of 45,891 shares of restricted stock at a price of \$26.23 per share.
