Plan of Operations

During the three (3) month period of operations ending September 30, 2007, Westsphere and its subsidiaries generated a net loss from operations of \$23,743, while a net income from operations of \$239,496 was realized for the same period from the previous year. The decrease in net income of \$263,239 over the same period from the previous year was caused by an increase in total administrative expenses of \$224,701 to \$469,295 from the previous year's amount of \$244,594. The increase of \$224,701 in total administrative expenses are primarily due to an increase in salaries and benefits of \$46,598, an increase in other expense of \$35,088, and a decrease in gain on currency exchange of \$125,081. In addition, the decrease is also caused by a decrease in interest income of \$15,187.

The increase in salaries and benefits of \$46,598 was primarily due to an additional three new positions to the organization; a sales manager, a service technician, and a junior accountant. The increase in other expenses was primarily caused by an increase in office lease and staff accommodation totaling \$23,948, a write off of inventory with zero market value totaling \$9,506, and the remainder of \$1,634 was related to general operating costs. The decrease in gain on currency exchange of \$125,081 was caused by Westsphere's subsidiary Vencash no longer experiencing the fluctuation of currency exchange gain of 15% as the same period from previous year which is used between the time the payable is recorded and the time the payable is paid to an ATM supplier.

The significant decrease in interest income was caused by the sale of the sales-type lease contract in November 2006 and the mortgage receivable was paid in full on April 1, 2007. Therefore, no interest income was earned.

Westsphere's gross margin during the third quarter of year 2007 slightly decreased by 0.25% to 38.79% from the gross margin during the same period from the previous year of 39.04%. This was caused by a decrease in other revenue of \$46,487 and an increase in cost of sales under other expense of \$12,458. The increase in costs of sales under other expense is mainly from ATM telephone expenses. The decrease is partially offset against an increase in net residual and interchange income of \$27,520. The increase in net residual and interchange income was mainly caused by an increase in the number of placements of ATMs. Vencash capital mainly focuses on the placement, and finance/lease program offered by an ATM supplier in year 2006. The finance/lease program provides Vencash Capital an opportunity to place more ATMs in the market at a lower cost.

Westsphere and its subsidiaries currently generate sufficient cash flow to cover all of their consolidated operating expenses.

In order to grow Westsphere's businesses in ATM machines, in Finance/Lease, and in POS machines, Westsphere is dependent upon private placements, loans and/or joint venture arrangements. The profits are expected to be generated by the interchange and surcharges collected from ATM and POS machines, the sale of ATM and POS machines, and from Financing and leasing charges.

To this date 930 ATM and 543 POS sites are being processed between two switches.

On October 1, 2007 Vencash Capital Corporation commenced an agreement with Trans Armored Canada Ltd. a Halifax, Nova Scotia, Canada based corporation providing armored transport/ATM technical services for the delivery of currency and maintenance of cash dispensing machines. The terms of the agreement allows for Vencash to acquire a twenty percent share position within TAC and the allocation of the right to appoint fifty percent of the board of Directors of TAC. Financially Vencash will participate equally with TAC in the distribution of revenues both profit and loss. To date Vencash has not acquired any TAC ownership nor has Vencash appointed any Directors to TAC.

On October 21, 2007, Westsphere Asset Corporation, Inc. through its subsidiary companies Vencash Capital Corporation and Westsphere Systems Inc. have commenced an agreement with ACI Worldwide Inc. for the enablement of Westsphere Systems Inc to become a new ATM/POS acquirer (Switch) in the Canadian marketplace and in association with Canadian electronic payment network, Interac which Westsphere Systems Inc. is an indirect connect member.

In order to fund Westsphere s business growth in TAC and in its development of its electronic payment Switch as per its agreements with TAC and ACI, Westsphere is dependent upon private placements, loans and/or joint venture arrangements along with Westsphere s subsidiary cash flows to meet its financial needs.

On November 5, 2007, Westsphere s subsidiary Westsphere Systems Inc. raised \$81,579 (\$81,000 CDN) through a loan agreement with an external arm-length investor, bearing interest at 12% per annum, blended monthly payments of interest only of \$816 (\$810 CDN) to October 2009, with an automatic extension for a further 12 month term. The purpose of the loan is to funds the start up costs for the switch development.

Changes in Financial Position

During the Nine (9) month period ending September 30, 2007, total assets increased to \$1,491,370 primarily due to an increase in a property and equipment, a net of depreciation of \$113,814, and an increase in accounts receivable related parties of \$36,397, and an increase in notes receivable of \$114,171. The increase is partially offset against a decrease in accounts receivable of \$45,951.

The increase in property and equipment, net of depreciation, was caused by the purchase of used ATMs from investors at below market costs and an exercised early buyout on the leased ATMs.

The increase in accounts receivable related parties was caused by the sale of ATM and ATM parts to an officer 100% owned company. These transactions are in the normal course of operations and on terms and conditions that are similar to those of transactions with unrelated parties.

There are four notes receivable which are demand loan agreements. The first note receivable of \$26,916 (\$31,112 CDN) bearing interest at 12% per annum has a three year term, requiring monthly payments of principal and interest of \$894 (\$1,033 CDN) to December 1, 2009. The current balance on this note receivable is \$25,176 (\$26,669 CDN).

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10QSB

The remaining three notes receivable of \$115,822 (\$80,000CDN, \$20,000 CDN, \$15,000 CDN) bearing interest at 12% per annum, require monthly payments of interest only of \$1,158 (\$1,150 CDN). The purpose of these notes receivable are to supply vault cash to Westsphere's wholly owned subsidiary Vencash's customers' ATM equipment and site locations.

The two notes receivable of \$26,916 (\$31,112 CDN) and \$75,522 (\$80,000 CDN) are classified under current assets as an operating receivable at the time of filing the 10KSB 2006. These notes were converted into a formal note receivable during the first quarter of 2007. The remaining two notes receivable of \$18,880 (\$20,000 CDN) and \$9,507 (\$15,000 CDN) occurred during the year 2007.

Westsphere's current liabilities consist of accounts payable of \$444,664, accounts payable to related parties of \$110,982, and current portion of loans payable of \$123,501. Accounts payable includes payables of \$44,792 to suppliers for the purchase of ATM machines and POS machines, \$200,012 is payable for the return of surcharge and interchange, accounting and legal payables in the amount of \$69,696, unearned revenue in the amount of \$21,147, vehicle payable in the amount of \$6,002, travel expense in the amount of \$4,003, telephone expenses in the amount of \$9,968, vacation payable in the amount of \$37,058, and \$51,986 due for consulting services, office expenses and various other general fees and charges.

Accounts payable to related parties consists of Officers' and Directors' bonuses payable carried forward from year 2002 in the amount of \$67,598, and a loan advanced from Westsphere's President in the amount of \$43,384.

Long term liabilities as at September 30, 2007 consisted of \$256,109 for outstanding accounts due to shareholders of Westsphere and loan payables, less current portion of \$224,440. Westsphere's shareholder loans related to TRAC of \$198,198 and shareholder loans related to Westsphere of \$50,357 have interest rates of 18% and 9%, respectively. Trac's shareholder loan is a demand loan and Westsphere's shareholder loan is not a demand loan. The remaining shareholder loan related to TRAC of \$7,554 is without interest and specific repayment terms.

Westsphere's subsidiary Vencash entered into two loan agreements with its major ATM supplier in July of 2006. The first loan agreement of \$161,249 (\$188,080 CDN) bearing interest at 6% per annum requires blended monthly payments of principal and interest of \$4,452 to March 2009. The second loan agreement of \$36,226 (42,254 CDN), bearing interest at 18% per annum, requires blended monthly payments of principal and interest of \$1,041 to July 2011; with a final payment of \$90 in August 2011. These two loan payables are classified under current liabilities as an operating payable at the time of filing the 10KSB 2006. These two loans were converted into a formal loan payable during the first quarter of 2007.

In May 2007, Westsphere's subsidiary Vencash entered into a loan agreement with its major ATM supplier, bearing interest at 18% per annum, requiring blended monthly payments of principal and interest of \$820 (\$869 CDN) to May 2012; with a final payment of \$90 in May 2012.

In June 2007, Westsphere's subsidiary Vencash entered into a loan agreement with its major ATM supplier, bearing interest at 18% per annum, requiring blended monthly payments of principal and interest of \$820 (\$869 CDN) to June 2012; with a final payment of \$90 in June 2012.

In September 2007, Westsphere's subsidiary Vencash entered into a loan agreement totaling \$100,715 (\$100,000 CDN) with an external arms-length investor, bearing interest at 12% per annum, blended monthly payments of interest

only of \$1,007 (\$1,000 CDN) to September 2008 with an automatic extension for a further 6 month term. The principle is to be repaid in a maximum of 18 months. The purpose of the loan is to supply vault cash to Westsphere's wholly owned subsidiary Vencash's customers' ATM equipment and site locations.

Shareholders' equity as of September 30, 2007 was \$331,674; inclusive of an accumulated loss from operations of \$1,776,341, as compared to shareholders equity of \$366,772 as of the same date from the previous year. Total issued and outstanding share capital as of the period ending September 30, 2007 was 592,785 common shares and 1,416,143 preferred shares as compared to a total of 551,700 common shares and 1,416,143 preferred shares as of December 31, 2006.

Summary of Working Capital and Stockholders' Equity

As of September 30, 2007, the Company had working capital of \$292,319 and Stockholders' Equity of \$331,674 compared with working capital of \$303,588 and Stockholders' Equity of \$366,772 as of December 31, 2006. The Company's working capital has decreased principally as a result of a decrease in accounts receivable of \$45,951 and an increase in current portion of loans payable of \$123,501. The decrease is partially offset against the decrease in accounts payable of \$131,957 and the repayment of accounts payable to related parties of \$11,481. Stockholders' Equity decreased as a result of a net loss for the nine months ending September 30, 2007 of \$140,967. The decrease is partially offset against an increase in common stock of \$49,699. There was no change in operations during the third quarter of year 2007.

The Company's consolidated operations provided negative \$121,578 in net cash, compared to the use of net cash in the amount of \$132,365 during the same period from the previous year. This decrease in net cash flow from operations was the result of a decrease in accounts receivable of \$75,448, a decrease in inventory of \$10,167, and a decrease in accounts payable and accrued liabilities of \$41,612.

Investing activities during the nine month period resulted in the use of net cash of negative \$98,533, which was caused by the purchase of equipment of \$220,656 and partially offset against the disposal of equipment of \$53,856 and collection on loans receivable of \$68,267.

Financing activities during the nine month period resulted in the use of net cash of positive \$104,560, which were primarily caused by the funds raised during September from an arms-length investor totaling \$100,715 (\$100,000 CDN). The purpose of the loan is to supply vault cash to Westsphere's wholly owned subsidiary Vencash's customers

ATM equipment and site locations. The increase was also caused by the issuance of common stock of \$7,017 to one of the Executive Officers who has exercised a portion of his 2002 options to purchase shares of our common stock at \$0.70 per share. The increase is partially offset against the repayment of debt totaled \$15,733.

Liquidity

On a short term basis, Westsphere anticipates that its subsidiary Vencash Capital will generate sufficient revenues to meet overhead needs. The Company, as of November 13, 2007, has \$189,132 in cash, and will not have to raise additional funds to meet its operational needs for the next twelve months. In order to meet its growth plan, Westsphere will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds. Westsphere believes that it will continue as a going concern with the present revenues from its subsidiary Vencash Capital Corporation, but it will be unable to meet its market growth projections without further funding outside of the ongoing revenue from operations of Vencash.

As mentioned above, Westsphere believes that its subsidiary, Vencash Capital, generates sufficient ongoing revenues to ensure that Westsphere is a going concern. It is anticipated that operations will have substantial increases in net cash flow at the fiscal year end December 31, 2007. In addition, Westsphere believes that further substantial cost savings will occur with the new program system implemented to improve the effectiveness and efficiency of the operations. Westsphere will remain reliant on the successful development and marketing of the products related to its business for possibility of future income.

Capital Resources

The primary capital resource of Westsphere is the operations of Vencash Capital, its wholly owned subsidiary.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

The shares sold are restricted securities and the certificates representing these shares have been affixed with a standard restrictive legend, which states that the securities cannot be sold without registration under the Securities Act of 1933, or an exemption there from and we are required to refuse to register any transfer that does not comply with such requirements.
