Press Release dated February 9, 2004

February 9, 2004

PAN AMERICAN PURCHASES MOROCOCHA SILVER MINE, PERU

(all amounts in \$US unless otherwise stated)

Vancouver, Canada - Pan American Silver Corp. (PAAS: NASDAQ; PAA: TSX) is pleased to announce it has signed a binding agreement with a number of individuals, subject to regulatory approval and other conditions, to purchase for approximately \$35 million 92.014% of the voting shares of Compania Minera Argentum S.A. ("Argentum"). Argentum will acquire, through a split-off process from Sociedad Minera Corona S.A., the Anticona and Manuelita mining units and related infrastructure and processing assets ("Morococha"). Morococha is located in central Peru 150 km northeast of Lima. Historically, the operation has produced approximately 3.5 million ounces of silver annually,

together with significant amounts of byproduct zinc, copper and lead, at a cash cost, net of by-product credits, of below \$3 per ounce of silver. Morococha is located only 80 km from Pan American's 4.5 million ounce/year Huaron silver mine, which is also an underground vein mine producing silver-bearing concentrates.

Morococha hosts a very large and prolific network of veins and replacement bodies within a mineral rights package covering 6,648 hectares of historically productive and highly prospective concessions. The mine has proven and probable reserves of 9.2 million ounces of silver, measured and indicated resources of 5.7 million ounces of silver, and inferred resources of 40 million ounces of silver.*

The addition of Morococha is immediately accretive to Pan American's silver production, cash flow and earnings per share, and will reduce the Company's consolidated cash and total operating costs per ounce of silver produced. The new production will increase the Company's 2004 silver production forecast from 10.1 million ounces to 13 million ounces and will reduce forecast cash costs to below \$3.50/oz, bringing anticipated total costs to less than \$4/oz for the year. The acquisition will increase Pan American's annual Peruvian silver production to over 10 million ounces and will allow many administrative synergies with the Company's other two Peruvian underground mines and its Lima administrative office.

Based on an extensive technical due diligence review, Pan American plans to carry out stepped-up mine development and mill upgrades to enable sustained long-term production averaging 3.9 million ounces of silver annually at a cash cost of below \$2.50 per ounce.

According to Pan American Chairman and CEO, Ross Beaty, "Morococha is a rare opportunity - low cost, long life and in Peru, a great mining country where we already have an important presence. It is an excellent addition to Pan American's assets and will help us achieve our mission of becoming the world's leading primary silver producer in the near future. This acquisition is a perfect fit with our existing Peruvian asset base and is immediately accretive by every measure. I particularly like the mine's great exploration potential, which we intend to evaluate aggressively."

*Mineral Reserves and Resources as at June 30, 2003

| | Tonnes | Grade (g/t Ag) | Grade Zn(%) | Grade Pb(%) | Grade Cu(%) | Silver (ounces) |
|--------------------------------------|------------------|-------------------|----------------|----------------|----------------|--------------------|
| Proven Mineral Reserves | 982,973 | 270 | 4.88 | 1.88 | 0.44 | 8,560,000 |
| Probable Mineral Reserves | 77,240 | 257 | 5.60 | 2.20 | 0.37 | 640,000 |
| Total | 1,060,213 | 269 | 4.94 | 1.90 | 0.43 | 9,200,000 |
| Measured Mineral Resources Indicated | 115,102 | 343 | 2.58 | 1.09 | 0.48 | 1,274,000 |
| Mineral Resources | 509,535 | 272 | 4.34 | 1.64 | 0.38 | 4,465,000 |
| Total | 624,637 | 285 | 4.02 | 1.53 | 0.40 | 5,739,000 |
| Inferred Mineral Resources | 5,117,426 | 242 | 4.07 | 2.08 | 0.25 | 39,938,000 |

Donald Earnest, P.Geo., President of Resource Evaluation Inc. is the Qualified Person (QP) who has reviewed and approved the proven/probable reserves provided by the owners of the Morococho operations and who has performed the estimates of measured and indicated mineral resources and inferred resources.

CAUTIONARY NOTE

Some of the statements in this news release are forward-looking statements and as such are based on an assumed set of economic conditions and courses of action. These include estimates of future production levels, expectations regarding mine production costs, expected trends in mineral prices and statements that describe Pan American's future plans, objectives or goals. There is a significant risk that actual results will vary, perhaps materially, from results projected depending on such factors as changes in general economic conditions and financial markets, changes in prices for silver and other metals, technological and operational hazards in Pan American's mining and mine development activities, uncertainties inherent in the calculation of mineral reserves, mineral resources and metal recoveries, the timing and availability of financing, governmental and other approvals, political unrest or instability in countries where Pan American is active, labor relations and other risk factors listed from time to time in Pan American's Form 40-F.
