Investment description

- Linked to an international basket of exchange traded funds
- Unlike ordinary debt securities, the securities do not pay interest or repay a fixed amount of principal at maturity. Instead, the securities provide for a payment at maturity that may be greater than, equal to or less than the initial

public offering price of the securities, depending on the performance of the Basket from its Initial Basket Value to its Final Basket Value.

The payment at maturity will reflect the following terms:

o If the value of the Basket increases:

You will receive the initial public offering price plus 125% participation in the upside performance of the Basket, subject to a maximum total return at maturity of 48.00% of the initial public offering price

o If the value of the Basket does not change or decreases but the decrease is not more than 20%:

You will be repaid the initial public offering price

o If the value of the Basket decreases by more than 20%:

You will receive less than the initial public offering price and will have 1-to-1 downside exposure to the decrease in the value of the Basket

- Investors may lose up to 100% of the initial public offering price
- All payments on the securities are subject to the credit risk of Royal Bank of Canada, and you will have no ability to pursue any basket component or any securities held by a basket component for payment; if Royal Bank of Canada defaults on its obligations, you could lose some or all of your investment
- No periodic interest payments or dividends
- No exchange listing; designed to be held to maturity

The issuer's initial estimated value of the securities as of the pricing date is $970.30 per $1,000 in principal amount, which is less than the public offering price. The market value of the securities at any time will reflect many factors, cannot be predicted with accuracy, and may be less than this amount. See "Risk Factors" and "Supplemental Plan of Distribution – Structuring the Securities" in the accompanying pricing supplement for further information.

The securities are not subject to conversion into our common shares under subsection 39.2(2.3) of the Canada Deposit Insurance Corporation Act.

The securities have complex features and investing in the securities involves risks not associated with an investment in conventional debt securities. See "Selected Risk Considerations" in this term sheet and "Risk Factors" in the accompanying pricing supplement.

This final term sheet should be read in conjunction with the accompanying pricing supplement, prospectus supplement and prospectus.

Hypothetical payout profile

The profile to the right is based on a maximum maturity payment amount of 148.00% or $1,480.00 per $1,000 security, a participation rate of 125% and a Threshold Value equal to 80% of the Initial Basket Value.

This graph has been prepared for purposes of illustration only. Your actual return will depend on the actual Final Basket Value and whether you hold your securities to maturity.

How the maturity payment amount is calculated

The maturity payment amount will be determined as follows:

- If the Final Basket Value is greater than the Initial Basket Value, the maturity payment amount per security will equal the lesser of:

(i)

(ii) the maximum maturity payment amount

- If the Final Basket Value is equal to or less than the Initial Basket Value but greater than or equal to the Threshold Value, the maturity payment amount per security will equal the issue price of $1,000.00
- If the Final Basket Value is less than the Threshold Value, the maturity payment amount per security will equal:

In such a case, you will lose up to 100% of your principal.

Hypothetical Historical Basket Values*

*The graph above sets forth the hypothetical historical daily values of the Basket for the period from January 1, 2014 to April 29, 2019, assuming that the Basket was constructed on January 1, 2014 with a starting value of 100 and that each of the basket components had the applicable weighting as of that day. The hypothetical historical performance of the Basket is not an indication of its future performance during the term of the securities.

Selected risk considerations

The risks set forth below are discussed in detail in the “Risk Factors” section in the accompanying pricing supplement. Please review those risk disclosures carefully.

- Your investment may result in a loss of up to 100% of your principal
- You will not receive interest payments on the securities
- Your yield may be lower than the yield on a standard debt security of comparable maturity
- Your return is limited and will not reflect the return of owning the shares of the basket components or the common stocks held by the basket components

3

- Owning the securities is not the same as owning the shares of the basket components or the common stocks held by the basket components
- There may not be an active trading market for the securities
- Changes in the prices of the basket components may offset each other
- The amount to be paid at maturity is not linked to the prices of the basket components at any time other than the valuation date
- Many factors affect the market value of the securities
- The correlation between the performance of a basket component and the performance of its Underlying Index may be imperfect
- An investment in the securities is subject to risks associated with foreign securities markets
- An investment in the securities is subject to foreign currency exchange rate risk
- The securities will be debt obligations of Royal Bank of Canada. No other company or entity will be responsible for payments under the securities
- Time zone differences between the cities where the securities comprising each Underlying Index and the applicable basket component trade may create discrepancies in trading levels
- The policies of the investment advisers of the basket components and changes that affect the Underlying Indices could affect the amount payable on the securities and their market value
- We have no affiliation with the Index Sponsors and will not be responsible for any actions taken by the Index Sponsors
- Historical prices of the basket components should not be taken as an indication of their future prices during the term of the securities
- Hedging transactions may affect the return on the securities
- Our initial estimated value of the securities is less than the initial public offering price
- The price, if any, at which you may be able to sell your securities prior to maturity may be less than the initial public offering price and our initial estimated value
- The initial estimated value of the securities is an estimate only, calculated as of the time the terms of the securities were set
- Potential conflicts of interest could arise
- The calculation agent may postpone the valuation date and, therefore, determination of the Final Basket Value and the maturity date if a market disruption event occurs on the valuation date
- There are potential conflicts of interest between you and the calculation agent
- The tax treatment of the securities is uncertain and gain on the securities may be treated as ordinary income under the constructive ownership rules

Not suitable for all investors

Investment suitability must be determined individually for each investor. The securities described herein are not a suitable investment for all investors. In particular, no investor should purchase the securities unless they understand and are able to bear the associated market, liquidity and yield risks. Unless market conditions and other relevant factors change significantly in your favor, a sale of the securities prior to maturity is likely to result in sale proceeds that are substantially less than the initial public offering price per security. Royal Bank of Canada, Wells Fargo Securities, LLC and their respective affiliates are not obligated to purchase the securities from you at any time prior to maturity.

The issuer has filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents the issuer has filed with the SEC for more complete information about the issuer and this offering. You may get these documents for free by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, any underwriter or any dealer participating in the offering will arrange to send you the prospectus if you request it by calling your financial advisor or by calling Royal Bank of Canada at 1-877-688-2301.

Consult your tax advisor

Investors should review carefully the accompanying pricing supplement, prospectus supplement and prospectus and consult their tax advisors regarding the application of the U.S. federal income tax laws to their particular circumstances, as well as any tax consequences arising under the laws of any state, local or foreign jurisdiction.
