INNOFONE.COM, INCORPORATED
Notes to the Financial Statements

Edgar Filing: INNOFONE COM INC - Form 10KSB/A

(Stated in United States Dollars)
June 30, 2004

1. NATURE OF OPERATION

The Company was incorporated in Nevada on December 19, 1995 and is in the process of attempting to raise capital for future operations

2. BASIS OF PRESENTATION

Going Concern Issue

These financial statements have been prepared on a going concern basis and do not include any adjustments to the measurement and classification of the recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The company has experienced several continuous years of operating losses. The Company's ability to realize its assets and discharge its liabilities in the normal course of business is dependent upon continued support. The Company is also dependent on an infusion of equity from potential shareholders. The Company is currently attempting to obtain additional financing from its existing shareholders and other strategic investors to continue its operations. However, there can be no assurance that the Company will obtain sufficient additional funds from these sources.

The conditions cause substantial doubt about the Company's ability to continue as a going concern. A failure to continue, as a going concern would require that stated amounts of assets and liabilities be reflected on a liquidation basis that could differ from the going concern basis.

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared by management in conformity with accounting principles generally accepted in the United States of America and include the following significant accounting policies:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates. These estimates are reviewed periodically and, as adjustments become necessary, they are reported in earnings in the period in which they become known.

3. SIGNIFICANT ACCOUNT POLICIES (continued)

Income Taxes

Edgar Filing: INNOFONE COM INC - Form 10KSB/A

Income taxes are accounted for under the asset and liability method. Future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Future tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on future tax assets and liabilities of a change in tax rates is recognized as income in the period that includes the enactment date.

Financial Instruments

Financial instruments included in the balance sheet are accounts payable. Their carrying values approximate fair market value.

4. CAPITAL STOCK

The number of outstanding shares of the Company as at June 30, 2004 is computed as follows:

Edgar Filing: INNOFONE COM INC - Form 10KSB/A

common stock and 25,000,000 shares of preferred stock each with a par value of \$0.001 per share. There are no outstanding preferred shares at year end.

A restatement of preferred shares and common shares have been adjusted to the opening balances for June 30, 2001.
