NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

GENERAL

1. Basis of Presentation

The condensed unaudited interim consolidated financial statements included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. The condensed consolidated financial statements and notes are presented as permitted on Form 10-Q and do not contain information included in the Company's annual statements and notes. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed consolidated financial statements be read in conjunction with the December 31, 2005 audited consolidated financial statements and the accompanying notes thereto. While management believes the procedures followed in preparing these condensed consolidated financial statements are reasonable, the accuracy of the amounts are in some respects dependent upon the facts that will exist,

Edgar Filing: MEDIFAST INC - Form 10-Q

and procedures that will be accomplished by the Company later in the year.

These condensed unaudited consolidated financial statements reflect all adjustments, including normal recurring adjustments, which, in the opinion of management, are necessary to present fairly the operations and cash flows for the period presented.

2. Presentation of Financial Statements

The Company's condensed consolidated financial statements include the accounts of Medifast, Inc. and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.

3. Inventories

Inventories consist principally of finished packaged foods, packaging and raw materials held in either the Company's manufacturing facility and distribution warehouse. Inventories are valued with cost determined using the first-in, first-out (FIFO) method.

4. GOODWILL AND OTHER INTANGIBLE ASSETS

In June 2001, the Financial Accounting Standards Board ("FASB") issued Statement No. 142 "Goodwill and Other Intangible Assets". This statement addresses financial accounting and reporting for acquired goodwill and other intangible assets and supersedes APB Opinion No. 17, "Intangible Assets". It addresses how intangible assets that are acquired individually or with a group of other assets (but not those acquired in a business combination) should be accounted for in financial statements upon their acquisition. This Statement also addresses how goodwill and other intangible assets should be accounted for after they have been initially recognized in the financial statements. On January 17, 2006, the Company sold its goodwill balance of \$893,500 when the Consumer Choice Systems division was sold.

The Company has intangible assets, which include: customer lists, non-compete agreements, trademarks and patents. The non-compete agreements are being amortized over the legal life of the agreements ranging between 3 to 7 years. The customer lists are being amortized over a period ranging between 5 to 10 years based on management's best estimate of the expected benefits to be consumed or otherwise used up. Trademarks and patents are regularly reviewed to determine whether the facts and circumstances exist to indicate that the useful life is shorter than originally estimated or the carrying amount of the assets may not be recoverable. The Company assesses the recoverability of its

7

trademarks and patents by comparing the projected discounted net cash flows associated with the related asset, over their remaining lives, in comparison to their respective carrying amounts. Impairment, if any, is based on the excess of the carrying amount over the fair value of those assets.

AS OF MARCH 31, 2006		AS
GROSS CARRYING AMOUNT	ACCUMULATED AMORTIZATION	GROSS CARR AMOUNT
-----	-----	-----

Edgar Filing: MEDIFAST INC - Form 10-Q

Customer lists	\$ 4,295,000	\$ 1,090,000	\$ 4
Non-compete agreements	840,000	663,000	
Trademarks and patents	1,482,000	78,000	1
Goodwill	--	--	
	-----	-----	-----
Total	\$ 6,617,000	\$ 1,831,000	\$ 8
	=====	=====	=====

AMORTIZATION EXPENSE FOR THE THREE MONTHS ENDED MARCH 31, 2006 AND 2005 WAS AS FOLLOWS:

	2006	2005
	-----	-----
Customer lists	\$ 419,000	161,000
Non-compete agreements	97,000	72,000
Trademarks and patents	20,000	--
	-----	-----
Total Trademarks and Intangibles	\$ 536,000	\$ 233,000
	=====	=====

On January 17, 2006 the Consumers Choice Systems division of the Company was sold which included the sale of \$1,601,000 in gross intangible assets and \$265,000 in accumulated amortization.

Amortization expense is included in selling, general and administrative expenses.

5. Fixed Assets

Fixed assets are stated at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets, which are generally three to seven years. Leasehold improvements and equipment under capital leases are amortized on a straight-line basis over the lesser of the estimated useful life of the asset or the related lease terms. Expenditures for repairs and maintenance are charged to expense as incurred, while major renewals and improvements are capitalized.

8

6. Note Receivable

Medifast realized a \$1,503,000 note receivable as a result of the sale of Consumer Choice Systems on January 17, 2006 to a former board member. The note has a 10-year term with imputed interest of 4% collateralized by 50,000 shares of Medifast stock and all the assets of the Company. The amount of principal to be collected over each of the next 5 years is \$183,000 per year with the remaining amount collectible thereafter of \$588,000.

7. Income Per Common Share

Basic income per share is calculated by dividing net income by the weighted average number of outstanding common shares during the year. Basic income per share excludes any dilutive effects of options, warrants and other stock-based compensation.

8. Estimates

The preparation of financial statements in conformity with accounting principles

Edgar Filing: MEDIFAST INC - Form 10-Q

generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

9. Share Based Payments

Stock-Based Compensation

Effective December 31, 2005, the Company adopted the provisions of Financial Accounting Standards Board Statement of Financial Accounting Standard ("SFAS") No. 123(R), "Share-Based Payments," which establishes the accounting for employee stock-based awards. Under the provisions of SFAS No.123(R), stock-based compensation is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the requisite employee service period (generally the vesting period of the grant). The Company adopted SFAS No. 123(R) using the modified prospective method and, as a result, periods prior to December 31, 2005 have not been restated. The Company recognized stock-based compensation for awards issued under the Company's stock option plans in the Selling, General and Administrative line item of the Condensed Consolidated Statement of Operations. Additionally, no modifications were made to outstanding stock options prior to the adoption of SFAS No. 123(R), and no cumulative adjustments were recorded in the Company's financial statements.

Prior to December 31, 2005, the Company accounted for stock-based compensation in accordance with provisions of Accounting Principles Board Opinion No. 25 ("APB No. 25"), "Accounting for Stock Issued to Employees," and related interpretations. Under APB No. 25, compensation cost was recognized based on the difference, if any, on the date of grant between the fair value of the Company's stock and the amount an employee must pay to acquire the stock. The Company grants stock options at an exercise price equal to 100% of the market price on the date of grant. Accordingly, no compensation expense was recognized for the stock option grants in periods prior to the adoption of SFAS No. 123(R).

9

Unearned compensation represents shares issued to executives that will be vested over a 5-6 year period. These shares will be amortized over the vesting period in accordance with FASB 123(R). The expense related to the vesting of unearned compensation was \$15,000 and \$0 at March 31, 2006 and March 31, 2005, respectively.

SFAS No. 123(R) requires disclosure of pro-forma information for periods prior to the adoption. The pro-forma disclosures are based on the fair value of awards at the grant date, amortized to expense over the service period. The following table illustrates the effect on net income and earnings per share as if the Company had applied the fair value recognition provisions of SFAS No. 123, "Accounting for Stock-Based Compensation", for the period prior to the adoption of SFAS No. 123(R), and the actual effect on net income and earnings per share for the period after the adoption of SFAS No. 123(R).

	Three Months Ended

The following summarizes the stock option activity for the three months ended March 31, 2006:

10. Recent Accounting Pronouncements

Edgar Filing: MEDIFAST INC - Form 10-Q

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 151, "Inventory Costs." SFAS No. 151 requires abnormal amounts of inventory costs related to idle facility, freight handling and wasted material expenses to be recognized as current period charges. Additionally, SFAS No. 151 requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The standard is effective for fiscal years beginning after June 15, 2005. The adoption of SFAS No. 151 did not have a material impact on the Company's financial position or results of operations.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections." SFAS No. 154 replaces Accounting Principles Board ("APB") Opinion No. 20, "Accounting Changes" and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements." SFAS No. 154 requires retrospective application to prior periods' financial statements of a voluntary change in accounting principle unless it is impracticable. APB No. 20 previously required that most voluntary changes in accounting principle be recognized by including the cumulative effect of changing to the new accounting principle in net income in the period of the change. SFAS No. 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The adoption of SFAS No. 154 did not have a material impact on the Company's financial position or results of operations.

In February 2006, the FASB issued SFAS No. 155, "Accounting for Certain Hybrid Financial Instruments, an amendment of FASB Statements No. 133 and 140." SFAS No. 155 resolves issues addressed in SFAS No. 133 Implementation Issue No. D1, "Application of Statement 133 to Beneficial Interests in Securitized Financial Assets," and permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation, clarifies which interest-only strips and principal-only strips are not subject to the requirements of SFAS No. 133, establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation, clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives and amends SFAS No. 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of the first fiscal year that begins after September 15, 2006. The Company is currently evaluating the effect the adoption of SFAS No. 155 will have on its financial position or results of operations.

In March 2006, the FASB issued SFAS No. 156, "Accounting for Servicing of Financial Assets, an amendment of FASB Statement No. 140." SFAS No. 156 requires an entity to recognize a servicing asset or liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract under a transfer of the servicer's financial assets that meets the requirements for sale accounting, a transfer of the servicer's financial assets to a qualified special-purpose entity in a guaranteed mortgage securitization in which the transferor retains all of the resulting securities and classifies them as either available-for-sale or trading securities in accordance with SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities" and an acquisition or assumption of an obligation to service a financial asset that does not relate to financial assets of the servicer or its consolidated affiliates. Additionally, SFAS No. 156 requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair

Edgar Filing: MEDIFAST INC - Form 10-Q

value, permits an entity to choose either the use of an amortization or fair value method for subsequent measurements, permits at initial adoption a one-time reclassification of available-for-sale securities to trading securities by entities with recognized servicing rights and requires separate presentation of servicing assets and liabilities subsequently measured at fair value and additional disclosures for all separately recognized servicing assets and liabilities. SFAS No. 156 is effective for transactions entered into after the beginning of the first fiscal year that begins after September 15, 2006. The Company is currently evaluating the effect the adoption of SFAS No. 156 will have on its financial position or results of operations.

11. Revenue Recognition

Revenue is recognized for product sales upon shipment and passing of risk to the customer and when estimates of discounts, rebates, promotional adjustments, price adjustments, returns, and other potential adjustments are reasonably determinable, collection is reasonably assured and the Company has no further performance obligations. These estimates are presented in the financial statements as reductions to net revenues and accounts receivable. Estimated sales returns, allowances and discounts are provided for.

Outbound shipping charges to customers and outbound shipping-related costs are netted and included in "cost of sales."

Returns - Consistent with industry practice, the Company maintains a return policy that allows its customers to return product within a specified period (30 days). Because the period of payment generally approximates the period revenue was originally recognized, refunds are recorded as a reduction of revenue when paid. The Company's estimate for returns is based upon its historical experience with actual returns. While such experience has allowed for reasonable estimation in the past, history may not always be an accurate indicator of future returns. The Company continually monitors its estimates for returns and makes adjustments when it believes that actual product returns may differ from the established accruals.

12

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Except for the historical information contained herein, this Report on Form 10-Q contains certain forward-looking statements that involve substantial risks and uncertainties. When used in this Report, the words "anticipate," "believe," "estimate," "expect" and similar expressions, as they relate to Medifast, Inc. or its management, are intended to identify such forward-looking statements. The Company's actual results, performance or achievements could differ materially from the results expressed in, or implied by, these forward-looking statements. Accordingly, there is no assurance that the results in the forward-looking statements will be achieved.

GENERAL

THREE MONTHS ENDED MARCH 31, 2006 AND MARCH 31, 2005

Revenues for the first three months of 2006 were \$19,183,000, representing an increase of \$10,857,000 (130%) from the \$8,326,000 reported for the three-month period ending March 31, 2005. The growth in revenue is primarily the result of an increased advertising campaign which consisted of print, TV, internet and radio advertising which is believed to have increased consumer awareness of the Medifast brand. Advertising expense for the first quarter of 2006 was

Edgar Filing: MEDIFAST INC - Form 10-Q

approximately \$2,500,000 as compared to approximately \$850,000 in the first quarter of 2005. The direct sales network, Take Shape For Life, continues to experience increased sales volume as a result of the expansion of the sales network. The Company continues to create new tools and training materials for health advisors and is in the final stages of implementing a new IT platform. The new software will empower the Take Shape for Life direct selling model by implementing the infrastructure and tools that are critical in supporting health advisors grow their business. At the same time, we are implementing an Enterprise Resource Management solution to upgrade our technology infrastructure and improve manufacturing and business processes. This will enable us to handle future growth and improve efficiencies across the business platform.

As compared to the first quarter of 2005, the direct marketing sales channel, which is fueled primarily by consumer advertising increased by approximately 240% in the first three months of 2006. Take Shape for Life sales, which are fueled by person to person recruiting and support increased by 75% year over year. The Hi-Energy corporate clinics experienced significant sales growth as compared to the first three months of 2005.

Due to the significant growth in the first quarter of 2006, Medifast, Inc. began exploring third party over-sourcing capabilities in both the call center and product production. The Company began using an outsourced call center for overflow call volume in late April. Also, an outsourced production facility was employed in late April to produce certain high volume products in order to increase our inventory levels for anticipated future growth. The Company believes that these over-sourcing capabilities will provide the Company with the scalability necessary to seamlessly handle increased demands as the business continues to grow.

Cost of sales for the first quarter of 2006 increased by \$2,705,000, which was a 130% increase from the first quarter of 2005. Cost of goods sold, as a percentage of revenue, remained steady at 25% of sales. Gross profit for the first quarter of 2006 increased by \$8,152,000 (130%) from the first quarter of 2005. Selling, general and administrative expenses for the first quarter of 2006 were \$11,351,000, which increased by \$6,010,000 (113%) as compared to the same period in 2005. Selling, general and administrative expenses as a percentage of sales decreased from 64% at March 31, 2005 to 59% at March 31, 2006.

13

On January 17, 2006 the assets of Consumer Choice Systems, a division of Medifast, Inc., were sold to a former Board member. The promissory note calls for monthly principal only payments over a 10-year term. Therefore, when imputing an interest rate on the loan, a \$323,000 loss had to be realized due to the difference in the present value of the note receivable compared to the amount realizable over 10-years. This is a one-time loss that will not effect any future periods.

The Company reported pre-tax income of \$2,819,000, a 230% increase compared to \$854,000 for the quarter-ended March 31, 2005. The Company reported net income of \$1,694,000, or \$0.13 per basic share (\$0.13 per diluted share), versus \$507,000 or \$0.04 per basic share (\$0.04 per diluted share) in 2005. The increase in earnings per share is due to sales growth as well as a decrease in selling, general and administrative expenses as a percentage of sales.

LIQUIDITY AND CAPITAL RESOURCES

The Company had stockholders' equity of \$23,738,000 and working capital of \$11,175,000 on March 31, 2006 compared with \$19,748,000 and \$8,037,000 at March 31, 2005, respectively. The \$4,072,000 net increase in stockholder's equity and

Edgar Filing: MEDIFAST INC - Form 10-Q

the \$3,138,000 net increase in working capital reflects the increased profitability of the Company. The Company's cash position increased from \$1.5 million at December 31, 2005 to \$3.8 million at March 31, 2006 which is attributable to the increased sales and a decrease in expenses as compared to total sales. On March 31, 2006 the Company's current ratio was 3.4 to 1.

SEASONALITY

The Company's weight management products and programs have historically been subject to seasonality. Traditionally the holiday season in November/December of each year is considered poor for diet control products and services. January and February generally show increases in sales, as these months are considered the commencement of the "diet season." In 2005 and into 2006 seasonality has not been much of a factor. This is largely due to the increase in the consumer's awareness of the overall health and nutritional benefits accompanied with the use of the Company's product line. As consumers continue to increase their association of nutritional weight loss programs with overall health, seasonality will continue to decrease.

INFLATION

To date, inflation has not had a material effect on the Company's business.

ITEM 5. OTHER INFORMATION

Litigation:

There was no material pending or threatened litigation as of 3/31/06.

Long-Term Employment Contracts

14

The Board of Directors of Medifast, Inc. is in the process of implementing a management succession plan which will take place over the next 24 months. In doing so, they have had 3 key executive officers sign 6-year employment contracts to ensure that there will be minimal turnover in selected key management positions. The Executives associated with this succession plan include Michael S. McDevitt, President and Chief Financial Officer, Margaret MacDonald, VP of Operations and Brendan Connors, CPA, VP of Finance. Bradley T. MacDonald, the Executive Chairman of the Board of Directors and CEO has signed and executed a new 5 year employment agreement as the Executive Chairman of the Board of Directors and will provide on-going executive mentoring, financial and M&A advice, and new business development for the Company.

On February 8, 2006, three executive officers of the company signed 6-year employment contracts. The officers received shares of common stock in varying amounts totaling 380,000 shares at \$6.25 per share that will be vested over 6 years. In addition, Bradley T. MacDonald, Chairman and CEO signed a new 5-year employment agreement and was granted 100,000 stock options at \$6.25 that will vest over 5 years beginning on February 8, 2007.

Planned stock sale

In order to diversify his retirement portfolio which is largely invested in Medifast stock, Bradley MacDonald, Chairman and CEO is planning on selling approximately 250,000 shares of Medifast stock over the next 12 months. After the sale, he will still beneficially own approximately 1.1 million shares of Medifast, Inc. common stock which would currently represent about 8% of the outstanding shares.

Edgar Filing: MEDIFAST INC - Form 10-Q

Earnings Per Share: The Company follows the provisions of Statement of Financial Accounting Standards No. 128, "Earnings Per

Share." The calculation of basic and diluted earnings per share ("EPS") is reflected on the accompanying Consolidated Statement of Operations.

Issuance of Common Stock: Due to the conversion of all remaining shares of Series "B" preferred stock, dividends paid on Series "C" preferred stock and the exercising of warrants the Company issued 1,172,386 shares of common stock throughout the first quarter of 2005. Of these shares issued, 1,122,386 were from the conversion of Series "B" convertible preferred stock.

Code of Ethics: In September 2002, the Company implemented a Code of Ethics by which directors, officers and employees commit and undertake to personal and corporate growth, dedicate themselves to excellence, integrity and responsiveness to the marketplace, and work together to enhance the value of the Company for the shareholders, vendors, and customers.

Trading Policy: In March 2003, the Company implemented a Trading Policy whereby if a director, officer or employee has material non-public information relating to the Company, neither that person nor any related person may buy or sell securities of the Company or engage in any other action to take advantage of, or pass on to others, that information. Additionally, insiders may purchase or sell MED securities if such purchase or sale is made within 30 days after an earnings or special announcement to include the 10-K, 10-Q and 8-K in order to insure that investors have available the same information necessary to make investment decisions as insiders.

Internal Control Policy: As of March 31, 2006, the Company's management, with the participation of the Chief Executive Officer and the President, performed an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based on that evaluation, the Chief Executive Officer and the President have concluded that the design and operation of these disclosure controls and procedures were effective as of the end of the period covered by this report. In connection with this evaluation, no change in the Company's internal control over financial reporting was identified that occurred during the period covered by this report that has materially affected, or is reasonably likely to affect the Company's internal control over financial reporting.

15

Forward Looking Statements: Some of the information presented in this quarterly report constitutes forward-looking statements within the meaning of the private Securities Litigation Reform Act of 1995. Statements that are not historical facts, including statements about management's expectations for fiscal year 2003 and beyond, are forward-looking statements and involve various risks and uncertainties. Although the Company believes that its expectations are based on reasonable assumptions within the bounds of its knowledge, there can be no assurance that actual results will not differ materially from the Company's expectations. The Company cautions investors not to place undue reliance on forward-looking statements which speak only to management's experience on this date.
