NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

History

SRKP 22, Inc. (the Company), a development stage company, was incorporated under the laws of the State of Delaware on October 11, 2007. The Company is in the development stage as defined in Financial Accounting Standards Board Statement No. 7. The fiscal year end is December 31.

The Company filed a Form 10-SB registration statement with the Securities and Exchange Commission (SEC) pursuant to Section 12(g) of the Securities Exchange Act of 1934. The registration statement has been declared effective as of March 17, 2008.

Going Concern and Plan of Operation

The Company's financial statements have been presented on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company is in the development stage and has negative working capital, negative stockholders' equity and has not earned any revenues from operations to date. These conditions raise substantial doubt about its ability to continue as a going concern.

The Company is currently devoting its efforts to locating merger candidates. The Company's ability to continue as a going concern is dependent upon its ability to develop additional sources of capital, locate and complete a merger with another company, and ultimately, achieve profitable operations. The accompanying financial statements do not include any adjustments that might result from the outcome of these uncertainties.

Income Taxes

The Company uses the liability method of accounting for income taxes pursuant to Statement of Financial Accounting Standards No. 109. Under this method, deferred income taxes are recorded to reflect the tax consequences in future years of temporary differences between the tax basis of the assets and liabilities and their financial amounts at year-end.

For federal income tax purposes, substantially all startup and organizational expenses must be deferred until the Company commences business. The Company may elect a limited deduction of up to \$5,000 in the taxable year in which the trade or business begins. The \$5,000 must be reduced by the amount of startup costs in excess of \$50,000. The remainder of the expenses not deductible must be amortized over a 180-month period beginning with the month in which the active trade or business begins. These expenses will not be deducted for tax purposes and will represent a deferred tax asset. The Company will provide a valuation allowance in the full amount of the deferred tax asset since there is no assurance of future taxable income. Tax deductible losses can be carried forward for 20 years until utilized.

Deferred Offering Costs

Deferred offering costs, consisting of legal, accounting and filing fees relating to an offering will be capitalized. The deferred offering costs will be offset against offering proceeds in the event the offering is successful. In the event the offering is unsuccessful or is abandoned, the deferred offering costs will be expensed.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of cash in banks and highly liquid investments with original maturities of 90 days or less.

Concentrations of Credit Risk

The Company maintains all cash in deposit accounts, which at times may exceed federally insured limits. The Company has not experienced a loss in such accounts.

Earnings per Common Share

Basic earnings per common share are computed based upon the weighted average number of common shares outstanding during the period. Diluted earnings per share consists of the weighted average number of common shares outstanding plus the dilutive effects of options and warrants calculated using the treasury stock method. In loss periods, dilutive common equivalent shares are excluded as the effect would be anti-dilutive.

At March 31, 2008, the only potential dilutive securities were 7,096,390 common stock warrants. Due to the net loss, none of the potentially dilutive securities were included in the calculation of diluted earnings per share since their effect would be anti-dilutive.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates and assumptions.

Recently Issued Accounting Pronouncements

The Company has adopted all recently issued accounting pronouncements. The adoption of the accounting pronouncements, including those not yet effective, is not anticipated to have a material effect on the financial position or results of operations of the Company.

NOTE 2 - STOCKHOLDERS' EQUITY

During October 2007, the Company sold for \$5,000 cash 7,096,390 shares of its \$.0001 par value common stock to various investors. In addition, the Company also sold to these investors for \$2,500 cash warrants to purchase 7,096,390 shares of common stock at an exercise price of \$.0001. These warrants expire at the earlier date of 10 years from date of purchase or 5 years from the date the Company consummates a merger or other business combination with an operating business or any other event to which the Company ceases to be a "shell company."

Forward Looking Statement Notice

Certain statements made in this Quarterly Report on Form 10-Q are "forward-looking statements" (within the meaning of the Private Securities Litigation Reform Act of 1995) regarding the plans and objectives of management for future operations. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of SRKP 22, Inc. ("we", "us", "our" or the "Company") to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. The Company's plans and objectives are based, in part, on assumptions involving the continued expansion of business. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. Although the Company believes its assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance the forward-looking statements included in this Quarterly Report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved.

Description of Business

The Company was incorporated in the State of Delaware on October 11, 2007 and maintains its principal executive office at 4737 North Ocean Drive, Suite 207, Lauderdale by the Sea, FL 33308. Since inception, the Company has been engaged in organizational efforts and obtaining initial financing. The Company was formed as a vehicle to pursue a business combination through the acquisition of, or merger with, an operating business. The Company filed a registration statement on Form 10-SB with the U.S. Securities and Exchange Commission (the "SEC") on January 16, 2008, and since its effectiveness, the Company has focused its efforts to identify a possible business combination.

The Company, based on proposed business activities, is a "blank check" company. The SEC defines those companies as "any development stage company that is issuing a penny stock, within the meaning of Section 3(a)(51) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and that has no specific business plan or purpose, or has indicated that its business plan is to merge with an unidentified company or companies." Many states have enacted statutes, rules and regulations limiting the sale of securities of "blank check" companies in their respective jurisdictions. The Company is also a "shell company," defined in Rule 12b-2 under the Exchange Act as a company with no or nominal assets (other than cash) and no or nominal operations. Management does not intend to undertake any efforts to cause a market to develop in our securities, either debt or equity, until we have successfully concluded a business combination. The Company intends to comply with the periodic reporting requirements of the Exchange Act for so long as we are subject to those requirements.

The Company was organized as a vehicle to investigate and, if such investigation warrants, acquire a target company or business seeking the perceived advantages of being a publicly held corporation. The Company's principal business objective for the next 12 months and beyond such time will be to achieve long-term growth potential through a combination with an operating business. The Company will not restrict its potential candidate target companies to any specific business, industry or geographical location and, thus, may acquire any type of business.

Liquidity and Capital Resources

As of March 31, 2008, the Company had assets equal to \$1,253 consisting exclusively of cash. The Company's current liabilities as of March 31, 2008 totaled \$32,500, comprised exclusively of monies due to stockholders. The Company can provide no assurance that it can continue to satisfy its cash requirements for at least the next twelve months.

The following is a summary of the Company's cash flows provided by (used in) operating, investing, and financing activities:

	Three months Ended March 31, 2008	Cumulative Period From October 11, 2007 (Inception) to March 31, 2008
Net cash (used) in operating activities	\$ (18,060)	\$ (38,747)
Net cash (used) in investing activities	\$ 0	\$ 0
Net cash provided by financing activities	\$ 10,000	\$ 40,000
Net increase/(decrease) in cash and cash equivalents	\$ (8,060)	\$ 1,253

The Company has nominal assets and has generated no revenues since inception. The Company is also dependent upon the receipt of capital investment or other financing to fund its ongoing operations and to execute its business plan of seeking a combination with a private operating company. In addition, the Company is dependent upon certain related parties to provide continued funding and capital resources. If continued funding and capital resources are unavailable at reasonable terms, the Company may not be able to implement its plan of operations.

Results of Operations

The Company has not conducted any active operations since inception, except for its efforts to locate suitable acquisition candidates. No revenue has been generated by the Company from October 11, 2007 (Inception) to March 31, 2008. It is unlikely the Company will have any revenues unless it is able to effect an acquisition, or merger with an operating company, of which there can be no assurance. It is management's assertion that these circumstances may hinder the Company's ability to continue as a going concern. The Company's plan of operation for the next twelve months shall be to continue its efforts to locate suitable acquisition candidates.

For the period from October 11, 2007 (Inception) to March 31, 2008, the Company had a net loss of \$38,747 comprised exclusively of legal, accounting, audit and other professional service fees incurred in relation to the filing of the Company's Registration Statement on Form 10-SB in January of 2008.

For the three months ending March 31, 2008, the Company had no activities that produced revenues from operations.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.
