As of April 10, 2008, the Company had outstanding 4,629,962 shares of Common Stock, \$.01 par value per share.

SMITH-MIDLAND CORPORATION

**AMENDMENT NO. 1 TO FORM 10-K
For the Fiscal Year Ended December 31, 2007**

Explanatory Note

This Amendment No. 1 to the Annual Report on Form 10-K/A (“Amendment No. 1”) is being filed to amend the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2007, previously filed on April 15, 2008 (the “Original Filing”), in order to revise the disclosure relating to management’s conclusions as to the effectiveness of the Company’s disclosure controls and procedures contained in Item 9A(T) of Part II of the Annual Report and revise the certifications contained in Exhibits 31.1 and 31.2 to relate to the Company’s internal controls over financial reporting. This Amendment No. 1 on Form 10-K/A continues to describe conditions as of the date of the Original Filing, and we have not updated the disclosures contained herein to reflect events that occurred at a later date. Accordingly, this Amendment No. 1 should be read in conjunction with the Company’s SEC filings made subsequent to the Original Filing.

Item 9A(T). Controls and Procedures.

Management's Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of the financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. This process includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the internal control over financial reporting to future periods are subject to risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

Our management conducted an initial phase evaluation of the effectiveness of our internal control over financial reporting based on the framework in "Internal Control - Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"), as of December 31, 2007. This initial phase consisted of a top-down approach to risk assessment as provided for by SEC guidance and did not identify any material weaknesses. However, based on the stage of completion of our assessment, in particular, the lack of the testing phase of the operating effectiveness of our internal controls, our principal executive officer and principal financial officer can only conclude that our disclosure and controls procedures as of December 31, 2007 were not effective.

The Company was unable to complete the testing phase of the operating effectiveness of our internal controls due to the unexpected departure of our Chief Financial Officer and our controller going on medical leave. The Company secured the services provide financial management while the Company aggressively searches for a permanent CFO.

Since the completion of the internal control design phase of our evaluation of the effectiveness of our internal control over financial reporting, we have been working with our consulting firm to develop a plan which will be designed to test the operating effectiveness of our internal controls. We anticipate that this phase of the project will be completed by the end of 2008, in order to be in a position to provide a full and complete evaluation of the effectiveness of our internal control over financial reporting to be filed as part of the Form 10-K filing for the year ending December 31, 2008.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to such attestation pursuant to temporary rules of the SEC that require only management's report.

Disclosure controls and procedures

We carried out our evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report, pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended. Based on that evaluation and the remaining testing phase to be completed, our principal executive officer and principal financial officer can only conclude that our disclosure controls and procedures as of December 31, 2007 were not effective.

Changes in Internal Control over Financial Reporting

There has been no change in the Company's internal control over financial reporting during the quarter ended December 31, 2007 that has materially affected, or is reasonably likely to materially affect, its internal control over financial reporting except as disclosed above.

Item 15. Exhibits and Financial Statement Schedules

Exhibit Number	Description
31.1	Certification of Chief Executive Officer.
31.2	Certification of principal Accounting Officer
