GERMAN AMERICAN BANCORP, INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012****(unaudited, dollars in thousands except share and per share data)****Note 1 – Basis of Presentation**

German American Bancorp, Inc. operates primarily in the banking industry. The accounting and reporting policies of German American Bancorp, Inc. and its subsidiaries conform to U.S. generally accepted accounting principles. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. All adjustments which are, in the opinion of management, necessary for a fair presentation of the results for the periods reported have been included in the accompanying unaudited consolidated financial statements, and all such adjustments are of a normal recurring nature. Certain prior year amounts have been reclassified to conform with current year classifications. It is suggested that these consolidated financial statements and notes be read in conjunction with the financial statements and notes thereto in the German American Bancorp, Inc. December 31, 2011 Annual Report on Form 10-K.

Note 2 – Per Share Data

The computations of Basic Earnings per Share and Diluted Earnings per Share are as follows:

	Three Months Ended June 30,	
	2012	2011
Basic Earnings per Share:		
Net Income	\$5,967	\$4,864
Weighted Average Shares Outstanding	12,627,715	12,592,324
Basic Earnings per Share	\$0.47	\$0.39
Diluted Earnings per Share:		
Net Income	\$5,967	\$4,864
Weighted Average Shares Outstanding	12,627,715	12,592,324
Potentially Dilutive Shares, Net	10,811	5,555
Diluted Weighted Average Shares Outstanding	12,638,526	12,597,879

Edgar Filing: GERMAN AMERICAN BANCORP, INC. - Form 10-Q

Diluted Earnings per Share	\$0.47	\$0.39
----------------------------	--------	--------

Stock options for 89,275 shares of common stock were not considered in computing diluted earnings per share for the quarter ended June 30, 2011 because they were anti-dilutive. There were no anti-dilutive shares as of June 30, 2012.

The computations of Basic Earnings per Share and Diluted Earnings per Share are as follows:

	Six Months Ended	
	June 30, 2012	2011
Basic Earnings per Share:		
Net Income	\$11,569	\$9,509
Weighted Average Shares Outstanding	12,614,075	12,546,310
Basic Earnings per Share	\$0.92	\$0.76
Diluted Earnings per Share:		
Net Income	\$11,569	\$9,509
Weighted Average Shares Outstanding	12,614,075	12,546,310
Potentially Dilutive Shares, Net	14,003	6,221
Diluted Weighted Average Shares Outstanding	12,628,078	12,552,531
Diluted Earnings per Share	\$0.92	\$0.76

Stock options for 89,275 shares of common stock were not considered in computing diluted earnings per share for the six months ended June 30, 2011 because they were anti-dilutive. There were no anti-dilutive shares as of June 30, 2012.

GERMAN AMERICAN BANCORP, INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012****(unaudited, dollars in thousands except share and per share data)****Note 3 – Securities**

The amortized cost, unrealized gross gains and losses recognized in accumulated other comprehensive income (loss), and fair value of Securities Available-for-Sale at June 30, 2012 and December 31, 2011, were as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Securities Available-for-Sale:				
June 30, 2012				
U.S. Treasury and Agency Securities	\$ 4,829	\$ 59	\$ —	\$ 4,888
Obligations of State and Political Subdivisions	69,628	4,840	(10)	74,458
Mortgage-backed Securities - Residential	551,207	13,809	(141)	564,875
Equity Securities	684	—	(11)	673
Total	\$ 626,348	\$ 18,708	\$ (162)	\$ 644,894
December 31, 2011				
U.S. Treasury and Agency Securities	\$ 6,340	\$ 82	\$ —	\$ 6,422
Corporate Securities	1,003	2	—	1,005
Obligations of State and Political Subdivisions	60,606	4,195	(2)	64,799
Mortgage-backed Securities - Residential	431,495	12,529	(90)	443,934
Equity Securities	684	—	—	684
Total	\$ 500,128	\$ 16,808	\$ (92)	\$ 516,844

Equity securities that do not have readily determinable fair values are included in the above totals, are carried at historical cost and are evaluated for impairment on a periodic basis. All mortgage-backed securities in the above table are residential mortgage-backed securities and guaranteed by government sponsored entities.

The carrying amount, unrecognized gains and losses and fair value of Securities Held-to-Maturity at June 30, 2012 and December 31, 2011, were as follows:

	Carrying Amount	Gross Unrecognized Gains	Gross Unrecognized Losses	Fair Value
Securities Held-to-Maturity:				
June 30, 2012				
Obligations of State and Political Subdivisions	\$ 346	\$ 5	\$ —	\$ 351
December 31, 2011				
Obligations of State and Political Subdivisions	\$ 690	\$ 7	\$ —	\$ 697

The amortized cost and fair value of Securities at June 30, 2012 by contractual maturity are shown below. Expected maturities may differ from contractual maturities because some issuers have the right to call or prepay certain obligations with or without call or prepayment penalties. Mortgage-backed and Equity Securities are not due at a single maturity date and are shown separately.

	Amortized Cost	Fair Value
Securities Available-for-Sale:		
Due in one year or less	\$ 827	\$ 831
Due after one year through five years	16,780	17,257
Due after five years through ten years	25,394	27,207
Due after ten years	31,456	34,051
Mortgage-backed Securities - Residential	551,207	564,875
Equity Securities	684	673
Totals	\$ 626,348	\$ 644,894

GERMAN AMERICAN BANCORP, INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012****(unaudited, dollars in thousands except share and per share data)****Note 3 – Securities (continued)**

	Carrying Amount	Fair Value
Securities Held-to-Maturity:		
Due in one year or less	\$ —	\$—
Due after one year through five years	346	351
Due after five years through ten years	—	—
Due after ten years	—	—
Totals	\$ 346	\$ 351

Below is a summary of securities with unrealized losses as of June 30, 2012 and December 31, 2011, presented by length of time the securities have been in a continuous unrealized loss position:

	Less than 12 Months Fair Value	Unrealized Loss	12 Months or More Fair Value	Unrealized Loss	Total Fair Value	Unrealized Loss
At June 30, 2012:						
U.S. Treasury and Agency Securities	\$ —	\$ —	\$ —	\$ —	\$—	\$ —
Corporate Securities	—	—	—	—	—	—
Obligations of State and Political Subdivisions	984	(10)	—	—	984	(10)
Mortgage-backed Securities - Residential Equity Securities	29,322	(141)	—	—	29,322	(141)
	673	(11)	—	—	673	(11)
Total	\$ 30,979	\$ (162)	\$ —	\$ —	\$30,979	\$ (162)

	Less than 12 Months Fair Value	Unrealized Loss	12 Months or More Fair Value	Unrealized Loss	Total Fair Value	Unrealized Loss
At December 31, 2011:						
U.S. Treasury and Agency Securities	\$ —	\$ —	\$ —	\$ —	\$—	\$ —
Corporate Securities	—	—	—	—	—	—

Edgar Filing: GERMAN AMERICAN BANCORP, INC. - Form 10-Q

Obligations of State and Political Subdivisions	203	(2)	—	—	203	(2)
Mortgage-backed Securities - Residential Equity Securities	39,947	(90)	—	—	39,947	(90)
Total	\$ 40,150	\$ (92)	\$ —	\$ —	\$ 40,150	\$ (92)

Securities are written down to fair value when a decline in fair value is not considered temporary. In estimating other-than-temporary losses, management considers many factors, including: (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, (3) whether the market decline was affected by macroeconomic conditions, and (4) whether the Company has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. The Company does not intend to sell or expect to be required to sell these securities, and the decline in fair value is largely due to changes in market interest rates, therefore, the Company does not consider these securities to be other-than-temporarily impaired. All mortgage-backed securities in the Company's portfolio are guaranteed by government sponsored entities, are investment grade, and are performing as expected.

The Company held a minority interest in American Community Bancorp, Inc., prior to the acquisition on January 1, 2011. For the six months ended June 30, 2011, the Company recognized a gain of \$1.045 million on the stock held of American Community Bancorp, Inc. as a result of the acquisition.

GERMAN AMERICAN BANCORP, INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012****(unaudited, dollars in thousands except share and per share data)****Note 4 – Loans**

Loans were comprised of the following classifications at June 30, 2012 and December 31, 2011:

	June 30, 2012	December 31, 2011
Commercial:		
Commercial and Industrial Loans and Leases	\$323,618	\$ 293,172
Commercial Real Estate Loans	460,052	452,071

Troubled Debt Restructurings:

The Company has allocated \$196 of specific reserves on \$386 in principal to customers whose loan terms have been modified in troubled debt restructurings as of June 30, 2012. The Company had allocated \$198 of specific reserves on \$409 in principal to customers whose loan terms have been modified in troubled debt restructurings as of December 31, 2011. The Company has not committed to lending any additional amounts as of June 30, 2012 and December 31, 2011 to customers with outstanding loans that are classified as troubled debt restructurings.

For the three and six months ended June 30, 2012, no troubled debt restructurings occurred. The troubled debt restructurings resulted in no charge-offs for the three and six months ended June 30, 2012.

For the three and six months ended June 30, 2012, there were no payment defaults within the twelve months following modification for troubled debt restructurings.

A loan is considered to be in payment default once it is 30 days contractually past due under the modified terms. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without modification. This evaluation is performed under the Company's internal underwriting policy.

GERMAN AMERICAN BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012

(unaudited, dollars in thousands except share and per share data)

NOTE 4 – Loans (continued)

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company classifies loans as to credit risk by individually analyzing loans. This analysis includes commercial and industrial loans, commercial real estate loans, and agricultural loans with an outstanding balance greater than \$100. This analysis is typically performed on at least an annual basis. The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans. Loans listed as not rated are either less than \$100 or are included in groups of

homogeneous loans. Based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

	Pass	Special Mention	Substandard	Doubtful	Total
June 30, 2012					
Commercial and Industrial Loans and Leases	\$297,071	\$16,062	\$11,495	\$—	\$324,628
Commercial Real Estate Loans	413,821	25,049	22,394	—	461,264
Agricultural Loans	155,796	2,181	2,460	—	160,437
Total	\$866,688	\$43,292	\$36,349	\$—	\$946,329

GERMAN AMERICAN BANCORP, INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012****(unaudited, dollars in thousands except share and per share data)****NOTE 4 – Loans (continued)**

The Company considers the performance of the loan portfolio and its impact on the allowance for loan losses. For home equity, consumer and residential mortgage loan classes, the Company also evaluates credit quality based on the aging status of the loan, which was previously presented, and by payment activity. The following table presents the recorded investment in home equity, consumer and residential mortgage loans based on payment activity as of June 30, 2012 and December 31, 2011:

	Home Equity Loans	Consumer Loans	Residential Mortgage Loans
June 30, 2012			
Performing	\$ 73,874	\$ 42,334	\$ 88,844
Nonperforming	55	176	328
Total	\$ 73,929	\$ 42,510	\$ 89,172

	Home Equity Loans	Consumer Loans	Residential Mortgage Loans

Accretion of Income	(784)	(564)
Reclassifications from Non-accretable Difference	206	—
Charge-off of Accretable Yield	—	—
Balance at June 30	\$ 389	\$ 1,478

For those purchased loans disclosed above, the Company did not increase the allowance for loan losses during the three and six months ended June 30, 2012. For those purchased loans disclosed above, the Company increases the allowance for loan losses by \$75 during the three and six months ended June 30, 2011. No allowances for loan losses were reversed during the same periods.

Note 5 – Segment Information

The Company's operations include three primary segments: core banking, trust and investment advisory services, and insurance operations. The core banking segment involves attracting deposits from the general public and using such funds to originate consumer, commercial and agricultural, commercial and agricultural real estate, and residential mortgage loans, primarily in the Company's local markets. The core banking segment also involves the sale of residential mortgage loans in the secondary market. The trust and investment advisory services segment involves providing trust, investment advisory, and brokerage services to customers. The insurance segment offers a full range of personal and corporate property and casualty insurance products, primarily in the Company's banking subsidiary's local markets.

The core banking segment is comprised by the Company's banking subsidiary, German American Bancorp, which operated through 34 retail banking offices at June 30, 2012. Net interest income from loans and investments funded by

deposits and borrowings is the primary revenue for the core-banking segment. The trust and investment advisory services segment's revenues are comprised primarily of fees generated by German American Financial Advisors & Trust Company. These fees are derived by providing trust, investment advisory, and brokerage services to its customers. The insurance segment primarily consists of German American Insurance, Inc., which provides a full line of personal and corporate insurance products. Commissions derived from the sale of insurance products are the primary source of revenue for the insurance segment.

The following segment financial information has been derived from the internal financial statements of German American Bancorp, Inc., which are used by management to monitor and manage the financial performance of the Company. The accounting policies of the three segments are the same as those of the Company. The evaluation process for segments does not include holding company income and expense. Holding company amounts are the primary differences between segment amounts and consolidated totals, and are reflected in the column labeled "Other" below, along with amounts to eliminate transactions between segments.

GERMAN AMERICAN BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012

(unaudited, dollars in thousands except share and per share data)

Note 6 – Stock Repurchase Plan

On April 26, 2001 the Company announced that its Board of Directors approved a stock repurchase program for up to 607,754 (as adjusted for subsequent stock dividends) of the outstanding Common Shares of the Company. Shares may be purchased from time to time in the open market and in large block privately negotiated transactions. The Company is not obligated to purchase any shares under the program, and the program may be discontinued at any time before the maximum number of shares specified by the program is purchased. As of June 30, 2012, the Company had purchased 334,965 (as adjusted for subsequent stock dividends) shares under the program. No shares were purchased under the program during the six months ended June 30, 2012 and 2011.

Note 7 – Equity Plans and Equity Based Compensation

The Company maintains three equity incentive plans under which stock options, restricted stock, and other equity incentive awards can be granted. At June 30, 2012, the Company has reserved 611,548 shares of Common Stock (as adjusted for subsequent stock dividends and subject to further customary anti-dilution adjustments) for the purpose of issuance pursuant to outstanding and future grants of options, restricted stock, and other equity awards to officers, directors and other employees of the Company.

For the six months ended June 30, 2012 and 2011, the Company granted no options, and accordingly, recorded no stock option expense related to option grants during the three and six months ended June 30, 2012 and 2011. The Company recorded no other stock compensation expense applicable to options during the quarter and six months ended June 30, 2012 and 2011 because all outstanding options were fully vested prior to 2007. In addition, there was no unrecognized option expense as all outstanding options were fully vested prior to June 30, 2012 and 2011.

During the periods presented, awards of long-term incentives were granted in the form of restricted stock, granted in tandem with cash credit entitlements. The incentive awards will typically be in the form of 50% restricted stock grants and 50% cash credit entitlements. The restricted stock grants and tandem cash credit entitlements are subject to

forfeiture in the event that the recipient of the grant does not continue employment with the Company through December 5 of the year of grant, at which time they generally vest 100 percent. For measuring compensation costs, restricted stock awards are valued based upon the market value of the common shares on the date of grant. During the quarter ended June 30, 2012, the Company granted no shares of restricted stock. During the six months ended June 30, 2012, the Company granted awards of 30,019 shares of restricted stock. During the three and six months ended June 30, 2011, the Company granted awards of 1,266 and 37,467 shares of restricted stock, respectively.

The following table presents expense recorded for restricted stock and cash entitlements as well as the related tax effect for the periods presented:

	Three Months Ended June 30,	
	2012	2011
Restricted Stock Expense	\$ 141	\$ 154
Cash Entitlement Expense	133	137
Tax Effect	(111)	(118)
Net of Tax	\$ 163	\$ 173

	Six Months Ended June 30,	
	2012	2011
Restricted Stock Expense	\$ 308	\$ 308
Cash Entitlement Expense	293	275
Tax Effect	(243)	(236)
Net of Tax	\$ 358	\$ 347

Unrecognized expense associated with the restricted stock grants and cash entitlements totaled \$601 and \$587 as of June 30, 2012 and 2011, respectively.

GERMAN AMERICAN BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012

(unaudited, dollars in thousands except share and per share data)

Note 7 – Equity Plans and Equity Based Compensation (continued)

The Company maintains an Employee Stock Purchase Plan whereby eligible employees have the option to purchase the Company's common stock at a discount. The purchase price of the shares under this Plan has been set at 95% of the fair market value of the Company's common stock as of the last day of the plan year. The plan provides for the purchase of up to 500,000 shares of common stock, which the Company may obtain by purchases on the open market or from private sources, or by issuing authorized but unissued common shares. Funding for the purchase of common stock is from employee and Company contributions.

The Employee Stock Purchase Plan is not considered compensatory. There was no expense recorded for the employee stock purchase plan during the three and six months ended June 30, 2012 and 2011, nor was there any unrecognized compensation expense as of June 30, 2012 and 2011 for the Employee Stock Purchase Plan.

Note 8 – Fair Value

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

Investment Securities: The fair values for investment securities are determined by quoted market prices, if available (Level 1). For securities where quoted prices are not available, fair values are calculated based on market prices of similar securities (Level 2). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3). Level 3 pricing is obtained from a third-party based upon similar trades that are not traded frequently without adjustment by the Company. At June 30, 2012, the Company held \$12.1 million in Level 3 securities which consist of \$11.8 million of non-rated Obligations of State and Political Subdivisions and \$353 thousand of equity securities that are not actively traded. Absent the credit rating, significant assumptions must be made such that the credit risk input becomes an unobservable input and thus these securities are reported by the Company in a Level 3 classification.

Impaired Loans: Fair values for impaired collateral dependent loans are generally based on appraisals obtained from licensed real estate appraisers and in certain circumstances consideration of offers obtained to purchase properties prior to foreclosure. Appraisals for commercial real estate generally use three methods to derive value: cost, sales or market comparison and income approach. The cost method bases value in the cost to replace the current property. Value of market comparison approach evaluates the sales price of similar properties in the same market area. The income approach considers net operating income generated by the property and an investors required return. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Comparable sales adjustments are based on known sales prices of similar type and similar use properties and duration of time that the property has been on the market to sell. Such adjustments made in the appraisal process are typically significant and result in a Level 3 classification of the inputs for determining fair value.

GERMAN AMERICAN BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012

(unaudited, dollars in thousands except share and per share data)

Note 8 – Fair Value (continued)

Appraisals for both collateral-dependent impaired loans and other real estate owned are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Company. Once received, a member of the Company's Risk Management Area reviews the assumptions and approaches utilized in the appraisal. In determining the value of impaired collateral dependent loans and other real estate owned, significant unobservable inputs may be used which include: physical condition of comparable properties sold, net operating income generated by the property and investor rates of return.

Other Real Estate: Nonrecurring adjustments to certain commercial and residential real estate properties classified as other real estate (ORE) are measured at the lower of carrying amount or fair value, less costs to sell. Fair values are generally based on third party appraisals of the property utilizing similar techniques as discussed above for Impaired Loans, resulting in a Level 3 classification. In cases where the carrying amount exceeds the fair value, less costs to sell, impairment loss is recognized.

Loans Held-for-Sale: The fair values of loans held for sale are determined by using quoted prices for similar assets, adjusted for specific attributes of that loan resulting in a Level 2 classification.

Assets and Liabilities Measured on a Recurring Basis

Assets and liabilities measured at fair value on a recurring basis, including financial assets and liabilities for which the Company has elected the fair value option, are summarized below:

Fair Value Measurements at June 30, 2012 Using

Edgar Filing: GERMAN AMERICAN BANCORP, INC. - Form 10-Q

There were no transfers between Level 1 and Level 2 for the periods ended June 30, 2012 and December 31, 2011.

GERMAN AMERICAN BANCORP, INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012****(unaudited, dollars in thousands except share and per share data)****Note 8 – Fair Value (continued)**

At June 30, 2012, the aggregate fair value of the Loans Held-for-Sale was \$8,627 and the aggregate contractual principal balance was \$8,529 with a difference of \$98. At December 31, 2011, the aggregate fair value of the Loans Held-for-Sale was \$21,485 and the aggregate contractual principle balance was \$21,225 with a difference of \$260.

The table below presents a reconciliation of all assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the three and six months ended June 30, 2012 and 2011:

	Obligations of State and Political					
	Subdivisions		Equity Securities		Corporate Securities	
	2012	2011	2012	2011	2012	2011
Balance of Recurring Level 3 Assets at March 31	\$ 4,075	\$ 4,772	\$ 353	\$ 353	\$ —	\$ 1,005
Total Gains or Losses (realized/unrealized) Included in earnings	51	—	—	—	—	—
Purchases	7,665	—	—	—	—	—
Balance of Recurring Level 3 Assets at June 30	\$ 11,791	\$ 4,772	\$ 353	\$ 353	\$ —	\$ 1,005

	Obligations of State and Political					
	Subdivisions		Equity Securities		Corporate Securities	
	2012	2011	2012	2011	2012	2011
Balance of Recurring Level 3 Assets at January 1	\$ 4,772	\$ —	\$ 353	\$ 353	\$ 1,005	\$ —
Total Gains or Losses (realized/unrealized) Included in earnings	51	—	—	—	—	—
Maturities / Calls	(697)	—	—	—	(1,005)	—

Edgar Filing: GERMAN AMERICAN BANCORP, INC. - Form 10-Q

Purchases	7,665	4,772	—	—	—	1,005
Balance of Recurring Level 3 Assets at June 30	\$ 11,791	\$ 4,772	\$ 353	\$ 353	\$ —	\$ 1,005

The fair value for nineteen obligations of state and political subdivisions with a fair value of \$7.665 million as of June 30, 2012 were placed into Level 3 at the time of purchase because quoted prices or market prices of similar securities were not available. These fair values were calculated using discounted cash flows or other market indicators. Level 3 pricing was obtained from a third-party based upon similar trades that are not traded frequently without adjustment by the Company. This fair value method is consistent with the fair value methodology used on the existing obligations of state and political subdivisions in Level 3 at January 1, 2012.

Assets and Liabilities Measured on a Non-Recurring Basis

Assets and liabilities measured at fair value on a non-recurring basis are summarized below:

	Fair Value Measurements at June 30, 2012 Using				Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Other Significant Inputs	Significant Unobservable Inputs (Level 3)	
Assets:					
Impaired Loans with Specific Allocations					
Commercial and Industrial Loans	\$ —	\$ —	\$ 1,455	\$ 1,455	\$ 1,455
Commercial Real Estate Loans	—	—	2,308	2,308	2,308

GERMAN AMERICAN BANCORP, INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012****(unaudited, dollars in thousands except share and per share data)****Note 8 – Fair Value (continued)**

	Fair Value Measurements at December 31, 2011 Using				
	Quoted				
	Prices				
	in				
	Active				
	Markets	Significant	Other	Significant	
	for				
	Identical	Observable	Inputs	Unobservable	
	Assets	Inputs		Inputs	
	(Level	(Level 2)		(Level 3)	Total
	1)				
Assets:					
Impaired Loans with Specific Allocations					
Commercial and Industrial Loans	\$ —	\$ —		\$ 2,035	\$ 2,035
Commercial Real Estate Loans	—	—		2,783	2,783
Other Real Estate					
Commercial Real Estate	—	—		250	250

Impaired loans, which are measured for impairment using the fair value of the collateral for collateral dependent loans, had a carrying amount of \$8,940 with a valuation allowance of \$5,177, resulting in a decreased provision for loan losses of \$200 for the three months ended June 30, 2012 and an additional provision for loan losses of \$633 for the six months ended June 30, 2012. Impaired loans, which are measured for impairment using the fair value of the collateral for collateral dependent loans, had a carrying amount of \$9,729 with a valuation allowance of \$4,911, resulting in an additional provision for loan losses of \$4,226 for the year ended December 31, 2011.

Other Real Estate is measured at the lower of carrying or fair value less costs to sell. No charge to earnings was included in the three or six months ended June 30, 2012 and 2011. Other Real Estate, which is measured at the lower of carrying or fair value less costs to sell, had a carrying amount of \$250 at December 31, 2011.

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at June 30, 2012:

	Fair Value	Valuation Technique(s)	Unobservable Input(s)	Range (Weighted Average)
Impaired Loans - Commercial Real Estate Loans	\$ 2,308	Sales comparison approach Income approach Cost approach	Adjustment for physical condition of comparable properties sold Adjustment for net operating income generated by the property Adjustment for investor rates of return	20%-75% (63%)
Impaired Loans - Commercial and Industrial Loans	\$ 1,455	Sales comparison approach	Adjustment for differences between the comparable sales	10%-60% (30%)

GERMAN AMERICAN BANCORP, INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012****(unaudited, dollars in thousands except share and per share data)****Note 8 – Fair Value (continued)**

The carrying amounts and estimated fair values of the Company's financial instruments not previously presented are provided in the table below for the periods ending June 30, 2012 and December 31, 2011. Not all of the Company's assets and liabilities are considered financial instruments, and therefore are not included in the table. Because no active market exists for a significant portion of the Company's financial instruments, fair value estimates were based on subjective judgments, and therefore cannot be determined with precision.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012

(unaudited, dollars in thousands except share and per share data)

Note 8 – Fair Value (continued)

Cash and Short-Term Investments:

The carrying amount of cash and short-term investments approximate fair values and are classified as Level 1 or Level 2.

Securities Held-to-Maturity:

The fair values for investment securities are determined by quoted market prices, if available (Level 1). For securities where quoted prices are not available, fair values are calculated based on market prices of similar securities (Level 2).

FHLB Stock and Other Restricted Stock:

It is not practical to determine the fair values of FHLB stock and other restricted stock due to restrictions placed on their transferability.

Loans:

Fair values of loans, excluding loans held for sale and collateral dependent impaired loans having a specific allowance allocation, are estimated as follows: For variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values resulting in a Level 3 classification. Fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality resulting in a Level 3 classification. Impaired loans are valued as described previously. The methods utilized to estimate fair value of loans do not necessarily represent an exit price.

Accrued Interest Receivable:

The carrying amount of accrued interest approximates fair value resulting in a Level 2 or Level 3 classification consistent with the asset they are associated with.

Deposits:

The fair values disclosed for demand deposits (e.g., interest and non-interest checking, savings and certain types of money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amount) resulting in a Level 1 classification. Fair values for fixed rate time deposits are estimated using a discounted cash flows calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits resulting in a Level 2 classification.

Short-term Borrowings:

The carrying amounts of federal funds purchased, borrowings under repurchase agreements, and other short-term borrowings, generally maturing within ninety days, approximate their fair values resulting in a Level 2 classification.

Long-Term Debt:

The fair values of the Company's long-term borrowings are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 2 classification.

The fair values of the Company's subordinated debentures are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 3 classification.

Accrued Interest Payable:

The carrying amount of accrued interest approximates fair value resulting in a Level 2 or Level 3 classification consistent with the liability they are associated with.

Off-balance Sheet Instruments:

Commitments to extend credit and standby letters of credit are generally short-term or variable rate with minimal fees charged. These instruments have no carrying value, and the fair value is not material. The fair value of commitments to sell loans is the cost or benefit of settling the commitments with the counter-party at the reporting date. At June 30, 2012 and December 31, 2011, none of the Company's commitments to sell loans were mandatory, and there is no cost or benefit to settle these commitments.

GERMAN AMERICAN BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012

(unaudited, dollars in thousands except share and per share data)

Note 9 – Newly Issued but Not Yet Effective Accounting Pronouncements

In December 2011, the FASB issued new guidance ASU No. 2011-11, “Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities.” This new guidance requires expanded information about financial instruments or derivatives that are either presented on a net basis in the balance sheet or subject to an enforceable master netting arrangement or similar arrangement. The new guidance does not change existing offsetting criteria in U.S. GAAP or the permitted balance sheet presentation for items meeting the criteria. The new disclosure requirements in the ASU are intended to enhance comparability between financial statements prepared using U.S. GAAP and those prepared using IFRS. The Company does not expect this guidance to have a material impact on its consolidated financial statements.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

GERMAN AMERICAN BANCORP, INC.

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

German American Bancorp, Inc. is a financial services holding company based in Jasper, Indiana. The Company’s Common Stock is traded on NASDAQ’s Global Select Market, under the symbol GABC. The principal subsidiary of German American Bancorp, Inc. is its banking subsidiary, German American Bancorp, which operates through 34 retail banking offices in twelve contiguous Southern Indiana counties. German American Bancorp owns a trust, brokerage, and financial planning subsidiary, which operates from its banking offices, and a full line property and casualty insurance agency with seven insurance agency offices throughout its market area.

Throughout this Management’s Discussion and Analysis, as elsewhere in this report, when we use the term “Company,” we will usually be referring to the business and affairs (financial and otherwise) of the Company and its subsidiaries and affiliates as a whole. Occasionally, we will refer to the term “parent company” or “holding company” when we mean to refer to only German American Bancorp, Inc.

This section presents an analysis of the consolidated financial condition of the Company as of June 30, 2012 and December 31, 2011 and the consolidated results of operations for the three and six months ended June 30, 2012 and 2011. This discussion should be read in conjunction with the consolidated financial statements and other financial data presented elsewhere herein and with the financial statements and other financial data, as well as the Management’s Discussion and Analysis of Financial Condition and Results of Operations, included in the Company’s December 31, 2011 Annual Report on Form 10-K.

MANAGEMENT OVERVIEW

This updated discussion should be read in conjunction with the Management Overview that was included in our Management’s Discussion and Analysis of Financial Condition and Results of Operations in the Company’s December 31, 2011 Annual Report on Form 10-K and in the Company’s Quarterly Report on Form 10-Q for the quarter ended March 31, 2012.

During the second quarter and first half of 2012, the Company achieved record levels of earnings. The Company's second quarter net income totaled \$5,967,000, or \$0.47 per share, representing an increase of approximately 21% on a per share basis, from the \$4,864,000, or \$0.39 per share, recorded during the same quarter last year. On a year-to-date basis, 2012 earnings improved to \$11,569,000 or \$0.92 per share, as compared to \$9,509,000, or \$0.76 per share for the first six months of 2011 representing an increase of approximately 21% on a per share basis.

The Company's second quarter and first half of 2012 earnings were positively impacted by a \$385,000 or 2% and \$1,890,000, or 6%, increase in the level of net interest income as compared to the same periods of 2011. The current year net interest income improvement was largely the result of a higher level of earning assets. Also contributing to the improved level of earnings in the second quarter of 2012 and the first half of 2012 was a lower level of loan loss provision compared with the same periods of 2011.

The Company's second quarter of 2012 earnings as compared with the second quarter of 2011 were also positively impacted by an increased level of non-interest income driven primarily by a higher level of trust and investment product fees and an increased net gain on the sale of residential mortgage loans. Operating expenses for the second quarter of 2012 remained relatively stable as compared with the second quarter of 2011 increasing by approximately 1%.

The Company's first half of 2012 earnings as compared with the first half of 2011 were also positively impacted by a lower level of operating expenses. This reduction was largely related to an elevated level of expenses in the first half of 2011 related to the acquisition of American Community Bancorp, Inc. effective January 1, 2011. Somewhat offsetting the positive impact of improved net interest income, a lower level provision for loan losses, and a lower level non-interest expense was a lower level of non-interest revenue. The largest component of the decline was the recognition of a security gain in the first quarter of 2011 related to the acquisition accounting treatment of the existing equity ownership position the Company held in American Community Bancorp, Inc. at the time of acquisition. Also, contributing to the decline in non-interest revenues was a decline in the level of the Company's contingency revenue generated by its insurance agency subsidiary.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The financial condition and results of operations for German American Bancorp, Inc. presented in the Consolidated Financial Statements, accompanying Notes to the Consolidated Financial Statements, and selected financial data appearing elsewhere within this Report, are, to a large degree, dependent upon the Company's accounting policies. The selection of and application of these policies involve estimates, judgments, and uncertainties that are subject to change. The critical accounting policies and estimates that the Company has determined to be the most susceptible to change in the near term relate to the determination of the allowance for loan losses, the valuation of securities available for sale, and the valuation allowance on deferred tax assets.

Allowance for Loan Losses

The Company maintains an allowance for loan losses to cover probable incurred credit losses at the balance sheet date. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. Allocations of the allowance may be made for specific loans, but the entire allowance is available for any loan that, in management's judgment, should be charged-off. A provision for loan losses is charged to operations based on management's periodic evaluation of the necessary allowance balance. Evaluations are conducted at least quarterly and more often if deemed necessary. The ultimate recovery of all loans is susceptible to future market factors beyond the Company's control.

The Company has an established process to determine the adequacy of the allowance for loan losses. The determination of the allowance is inherently subjective, as it requires significant estimates, including the amounts and timing of expected future cash flows on impaired loans, estimated losses on other classified loans and pools of homogeneous loans, and consideration of past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions, and other factors, all of which may be susceptible to significant change. The allowance consists of two components of allocations, specific and general. These two components represent the total allowance for loan losses deemed adequate to cover losses inherent in the loan portfolio.

Commercial and agricultural loans are subject to a standardized grading process administered by an internal loan review function. The need for specific reserves is considered for credits when graded substandard or when: (a) the customer's cash flow or net worth appears insufficient to repay the loan; (b) the loan has been criticized in a regulatory examination; (c) the loan is on non-accrual; or, (d) other reasons where the ultimate collectibility of the loan is in question, or the loan characteristics require special monitoring. Specific allowances are established in cases where management has identified significant conditions or circumstances related to an individual credit that we believe indicates the loan is impaired. Specific allocations on impaired loans are determined by comparing the loan balance to the present value of expected cash flows or expected collateral proceeds. Allocations are also applied to categories of loans not considered individually impaired but for which the rate of loss is expected to be greater than historical

averages, including those graded substandard and non-performing consumer or residential real estate loans. Such allocations are based on past loss experience and information about specific borrower situations and estimated collateral values.

General allocations are made for other pools of loans, including non-classified loans, homogeneous portfolios of consumer and residential real estate loans, and loans within certain industry categories believed to present unique risk of loss. General allocations of the allowance are primarily made based on a one-year historical average for loan losses for these portfolios, judgmentally adjusted for economic factors and portfolio trends.

Due to the imprecise nature of estimating the allowance for loan losses, the Company's allowance for loan losses includes a minor unallocated component. The unallocated component of the allowance for loan losses incorporates the Company's judgmental determination of inherent losses that may not be fully reflected in other allocations, including factors such as economic uncertainties, lending staff quality, industry trends impacting specific portfolio segments, and broad portfolio quality trends. Therefore, the ratio of allocated to unallocated components within the total allowance may fluctuate from period to period.

Securities Valuation

Securities available-for-sale are carried at fair value, with unrealized holding gains and losses reported separately in accumulated other comprehensive income (loss), net of tax. The Company obtains market values from a third party on a monthly basis in order to adjust the securities to fair value. Equity securities that do not have readily determinable fair values are carried at cost. Additionally, when securities are deemed to be other than temporarily impaired, a charge will be recorded through earnings; therefore, future changes in the fair value of securities could have a significant impact on the Company's operating results. In determining whether a market value decline is other than temporary, management considers the reason for the decline, the extent of the decline, the duration of the decline and whether the Company intends to sell or believes it will be required to sell the securities prior to recovery. As of June 30, 2012, gross unrealized losses on the securities available-for-sale portfolio totaled approximately \$162,000 and gross unrealized gains totaled approximately \$18,708,000. As of June 30, 2012, held-to-maturity securities had a gross unrecognized gain of approximately \$5,000.

Income Tax Expense

Income tax expense involves estimates related to the valuation allowance on deferred tax assets and loss contingencies related to exposure from tax examinations.

A valuation allowance reduces deferred tax assets to the amount management believes is more likely than not to be realized. In evaluating the realization of deferred tax assets, management considers the likelihood that sufficient taxable income of appropriate character will be generated within carryback and carryforward periods, including consideration of available tax planning strategies. Tax related loss contingencies, including assessments arising from tax examinations and tax strategies, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. In considering the likelihood of loss, management considers the nature of the contingency, the progress of any examination or related protest or appeal, the views of legal counsel and other advisors, experience of the Company or other enterprises in similar matters, if any, and management's intended response to any assessment.

RESULTS OF OPERATIONS

Net Income:

Net income for the quarter ended June 30, 2012 totaled \$5,967,000, or \$0.47 per share, an increase of \$1,103,000 or 23% from the quarter ended June 30, 2011 net income of \$4,864,000, or \$0.39 per share. The improvement in the second quarter of 2012 earnings from the second quarter of 2011 represented an increase of approximately 21% on a per share basis.

Net income for the six months ended June 30, 2012 totaled \$11,569,000, or \$0.92 per share, an increase of \$2,060,000 or 22% from the six months ended June 30, 2011 net income of \$9,509,000, or \$0.76 per share. The improvement in the first half of 2012 earnings from the first half of 2011 earnings represented an increase of approximately 21% on a per share basis.

Net Interest Income:

Net interest income is the Company's single largest source of earnings, and represents the difference between interest and fees realized on earning assets, less interest paid on deposits and borrowed funds. Several factors contribute to the determination of net interest income and net interest margin, including the volume and mix of earning assets, interest rates, and income taxes. Many factors affecting net interest income are subject to control by management policies and actions. Factors beyond the control of management include the general level of credit and deposit demand, Federal Reserve Board monetary policy, and changes in tax laws.

The following table summarizes net interest income (on a tax-equivalent basis). For tax-equivalent adjustments, an effective tax rate of 35% was used for all periods presented ⁽¹⁾.

	Average Balance Sheet (Tax-equivalent basis / dollars in thousands)					
	Three Months Ended June 30, 2012			Three Months Ended June 30, 2011		
	Principal Balance	Income / Expense	Yield / Rate	Principal Balance	Income / Expense	Yield / Rate

⁽¹⁾ Effective tax rates were determined as though interest earned on the Company's investments in municipal bonds and loans was fully taxable.

⁽²⁾ Loans held-for-sale and non-accruing loans have been included in average loans.

Net interest income increased \$385,000 or 2% (an increase of \$480,000 or 3% on a tax-equivalent basis) for the quarter ended June 30, 2012 compared with the same quarter of 2011. The increased net interest income during the first quarter of 2012 compared with the first quarter of 2011 was driven by a higher level of earning assets including both modest average loan growth and growth in the securities portfolio which resulted from growth of the Company's deposit base.

Average earning assets increased by approximately \$133.0 million for the three months ended June 30, 2012 compared with the same period of 2011. Average loans outstanding increased \$14.4 million during the three months ended June 30, 2012 compared with the second quarter of 2011. Average federal funds sold and other short-term investments decreased by \$20.9 million during the second quarter of 2012 compared with the same quarter of 2011. The average securities portfolio increased approximately \$139.5 million, or 29%, in the three months ended June 30, 2012 compared with the second quarter of 2011. The key driver of the increased securities portfolio was the decline in the federal funds sold position and an increased level of average core deposits (core deposits defined as demand deposits - both interest and non-interest bearing, savings, money market and time deposits in denominations of less than \$100,000). The increase in average core deposits totaled \$104.1 million, or approximately 7%, during the second quarter of 2012 compared with the second quarter of 2011.

The net interest margin represents tax-equivalent net interest income expressed as a percentage of average earning assets. The tax equivalent net interest margin was 3.77% for the second quarter of 2012 compared to 3.95% during the second quarter of 2011. The yield on earning assets totaled 4.42% during the quarter ended June 30, 2012 compared to 4.96% in the same period of 2011 while the cost of funds (expressed as a percentage of average earning assets) totaled 0.65% during the quarter ended June 30, 2012 compared to 1.01% in the same period of 2011.

The decline in the net interest margin in the second quarter of 2012 compared with the second quarter of 2011 was largely attributable to the continued downward pressure on earning asset yields being driven by a historically low market interest rate environment and a very competitive marketplace for lending opportunities. Accretion of loan discounts on certain acquired loans contributed approximately 18 basis points on an annualized basis to the net interest margin in the quarter ended June 30, 2012 compared to approximately 25 basis points during the second quarter of 2011. The decline in the Company's cost of funds by approximately 36 basis points during the second quarter of 2012 compared to the second quarter 2011 was driven by a continued decline in deposit rates.

The following table summarizes net interest income (on a tax-equivalent basis). For tax-equivalent adjustments, an effective tax rate of 35% was used for all periods presented ⁽¹⁾.

	Average Balance Sheet (Tax-equivalent basis / dollars in thousands)					
	Six Months Ended June 30, 2012			Six Months Ended June 30, 2011		
	Principal Balance	Income / Expense	Yield / Rate	Principal Balance	Income / Expense	Yield / Rate

Cost of Funds			0.68 %			1.06 %
Net Interest Income		\$34,020			\$31,919	
Net Interest Margin			3.82 %			3.89 %

(1) Effective tax rates were determined as though interest earned on the Company's investments in municipal bonds and loans was fully taxable.

(2) Loans held-for-sale and non-accruing loans have been included in average loans.

Net interest income increased \$1,890,000 or 6% (an increase of \$2,101,000 or 7% on a tax-equivalent basis) for the six months ended June 30, 2012 compared with the same period of 2011. The increased net interest income during the first half of 2012 compared with the first half of 2011 was driven by a higher level of earning assets including both modest average loan growth and growth in the securities portfolio which resulted from growth of the Company's deposit base.

Average earning assets increased by approximately \$136.2 million for the six months ended June 30, 2012 compared with the same period of 2011. Average loans outstanding increased \$7.1 million during the six months ended June 30, 2012 compared with the second period of 2011. Average federal funds sold and other short-term investments decreased by \$35.4 million during the six months ended June 30, 2012 compared with the same period of 2011. The average securities portfolio increased approximately \$164.5 million, or 37%, in the six months ended June 30, 2012 compared with the first half of 2011. The key driver of the increased securities portfolio was the decline in the federal funds sold position and an increased level of average core deposits (core deposits defined as demand deposits - both interest and non-interest bearing, savings, money market and time deposits in denominations of less than \$100,000). The increase in average core deposits totaled \$120.1 million, or approximately 9%, during the first six months of 2012 compared with the same period of 2011.

The tax equivalent net interest margin was 3.82% for the six months ended June 30, 2012 compared to 3.89% during the same period of 2011. The yield on earning assets totaled 4.50% during the six months ended June 30, 2012 compared to 4.95% in the same period of 2011 while the cost of funds (expressed as a percentage of average earning assets) totaled 0.68% during the six months ended June 30, 2012 compared to 1.06% in the same period of 2011.

As was the case in the quarterly comparison, the decline in the net interest margin in the first half of 2012 compared with the first half of 2011 was largely attributable to the continued downward pressure on earning asset yields being driven by a historically low market interest rate environment and a very competitive marketplace for lending opportunities. Accretion of loan discounts on certain acquired loans contributed approximately 18 basis points on an annualized basis to the net interest margin in the six months ended June 30, 2012 compared to approximately 21 basis points during the same period of 2011. The decline in the Company's cost of funds by approximately 38 basis points during the first half of 2012 compared to the first half of 2011 was driven by a continued decline in deposit rates.

Provision for Loan Losses:

The Company provides for loan losses through regular provisions to the allowance for loan losses. The provision is affected by net charge-offs on loans and changes in specific and general allocations of the allowance. The provision for loan losses totaled \$391,000 during the quarter ended June 30, 2012, a decrease of \$909,000 or 70% compared to the provision of \$1,300,000 during the quarter ended June 30, 2011. The provision for loan losses totaled \$1,081,000 for the six months ended June 30, 2012, a decrease of \$1,519,000 or 58% compared to the provision of \$2,600,000 during the six months ended June 30, 2011. The decline in the provision for loan losses in the three and six month periods ended June 30, 2012 compared with the same periods of 2011 was attributable to a reduced level of net charge-offs, lower levels of non-performing loans, and a lower level of adversely classified loans.

During the second quarter of 2012, the annualized provision for loan losses represented 0.14% of average loans outstanding compared with 0.47% on an annualized basis of average loans outstanding during the second quarter of 2011. Net charge-offs totaled \$464,000 or 0.17% on an annualized basis of average loans outstanding during the three months ended June 30, 2012, compared with \$693,000 or 0.25% on an annualized basis of average loans outstanding during the same period of 2011.

During the six months ended June 30, 2012, the annualized provision for loan losses represented 0.19% of average loans outstanding compared with 0.47% on an annualized basis of average loans outstanding during the first half of 2011. Net charge-offs totaled \$700,000 or 0.13% on an annualized basis of average loans outstanding during the six months ended June 30, 2012, compared with \$1,137,000 or 0.20% on an annualized basis of average loans outstanding during the same period of 2011.

The provision for loan losses made during the three and six months ended June 30, 2012 was made at a level deemed necessary by management to absorb estimated, probable incurred losses in the loan portfolio. A detailed evaluation of the adequacy of the allowance for loan losses is completed quarterly by management, the results of which are used to determine provision for loan losses. Management estimates the allowance balance required using past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions, and other factors.

Non-interest Income:

During the quarter ended June 30, 2012, non-interest income totaled \$4,833,000, an increase of \$471,000 or 11% compared with the second quarter of 2011.

Non-interest Income (dollars in thousands)	Three Months		Change from Prior Period		
	Ended June 30, 2012	2011	Amount	Percent	
Trust and Investment Product Fees	\$ 664	\$ 495	\$ 169	34	%
Service Charges on Deposit Accounts	1,017	1,074	(57)	(5)
Insurance Revenues	1,358	1,290	68	5	
Company Owned Life Insurance	266	250	16	6	
Interchange Fee Income	460	378	82	22	
Other Operating Income	316	496	(180)	(36)
Subtotal	4,081	3,983	98	2	
Net Gains on Sales of Loans	676	379	297	78	
Net Gains on Securities	76	—	76	n/m	
Total Non-interest Income	\$4,833	\$4,362	\$471	11	

n/m = not meaningful

Trust and investment product fees increased \$169,000, or 34%, during the three months ended June 30, 2012 compared with the same period of 2011. The increase was primarily attributable to an increased level of trust revenues generated by a significant expansion of trust assets under management during the past several quarters. Other operating income decreased \$180,000 or 36% during the quarter ended June 30, 2012 compared with the second quarter of 2011. The decline was primarily related to a net loss on the sale of other real estate during the quarter ended June 30, 2012 compared with a net gain on sale of other real estate during second quarter of 2011.

Net gains on sales of loans increased \$297,000, or 78%, during the second quarter of 2012 compared with the second quarter of 2011. Loan sales totaled \$36.3 million during the second quarter of 2012 compared with \$16.9 million during the second quarter of 2011.

During the six months ended June 30, 2012, non-interest income totaled \$9,634,000, a decrease of \$742,000 or 7% compared with the first six months of 2011.

Non-interest Income (dollars in thousands)	Six Months		Change from Prior Period		
	Ended June 30, 2012	2011	Amount Change	Percent Change	
Trust and Investment Product Fees	\$1,360	\$959	\$401	42	%
Service Charges on Deposit Accounts	1,952	2,015	(63)	(3))
Insurance Revenues	2,749	3,339	(590)	(18))
Company Owned Life Insurance	510	603	(93)	(15))
Interchange Fee Income	891	731	160	22	
Other Operating Income	689	896	(207)	(23))
Subtotal	8,151	8,543	(392)	(5))
Net Gains on Sales of Loans	1,389	788	601	76	
Net Gains on Securities	94	1,045	(951)	(91))
Total Non-interest Income	\$9,634	\$10,376	\$(742)	(7))

Trust and investment product fees increased 42% during the six months ended June 30, 2012 compared with the same period of 2011. The increase was primarily attributable to increased trust revenues supplemented by increased retail brokerage revenues. Insurance revenues decreased approximately 18% during the six months ended June 30, 2012 as compared to the first half of 2011 as a result of lower contingency revenue. Contingency revenue totaled \$88,000 during the six months ended June 30, 2012 compared with contingency revenue of \$872,000 in the first half of 2011. The fluctuation in contingency revenue during 2012 and 2011 is a normal course of business type of variance and is reflective of claims and loss experience with insurance carriers that the Company represents through its property and casualty insurance agency.

Net interchange revenues related to debit cards increased approximately 22% during the first half of 2012 compared with the six months ended June 30, 2011 primarily due to increased customer utilization. Other operating income decreased 23% during the six months ended June 30, 2012 compared with the same period of 2011. The decline was primarily related to net a net loss on the sale of other real estate during the six months ended June 30, 2012 compared with a net gain on sale of other real estate during first half of 2011.

Net gains on sales of loans increased \$601,000, or 76%, during the six months ended June 30, 2012 compared with the same period of 2011. Loan sales totaled \$90.4 million during the six months ended June 30, 2012 compared with \$53.3 million during the same period of 2011. The net gain on securities declined \$951,000, or 91%, during the first half of 2012 compared with the first six months of 2011. The Company realized a net gain on securities of \$1,045,000 during the first half of 2011 related to the acquisition accounting treatment of the existing equity ownership position the Company held in American Community at the time of acquisition.

Non-interest Expense:

During the quarter ended June 30, 2012, non-interest expense totaled \$12,423,000, an increase of \$152,000 or 1% compared with the second quarter of 2011.

Non-interest Expense (dollars in thousands)	Three Months		Change from Prior Period	
	Ended June 30, 2012	2011	Amount Change	Percent Change
Salaries and Employee Benefits	\$6,828	\$6,722	\$ 106	2 %
Occupancy, Furniture and Equipment Expense	1,785	1,841	(56)	(3)
FDIC Premiums	283	382	(99)	(26)
Data Processing Fees	321	395	(74)	(19)
Professional Fees	587	499	88	18
Advertising and Promotion	396	314	82	26
Intangible Amortization	423	498	(75)	(15)
Other Operating Expenses	1,800	1,620	180	11
Total Non-interest Expense	\$12,423	\$12,271	\$ 152	1

Salaries and employee benefits increased 2% during the quarter ended June 30, 2012 compared with the second quarter of 2011. The increase was largely related to a modestly increased level of full-time equivalent employees. The Company's FDIC deposit insurance assessments decreased 26% during the second quarter of 2012 compared with second quarter of 2011 largely due to FDIC premium expense adjustments related to the Bank of Evansville acquisition recorded during the second quarter of 2011.

Data processing fees declined 19% during the quarter ended June 30, 2012 compared the second quarter of 2011. The decline was largely related to running the Company's existing core processing system and the Bank of Evansville's core processing system during the second quarter of 2011. The customers of the Bank of Evansville were moved to the Company's core processing system during April 2011. Other operating expenses increased approximately 11% during the quarter ended June 30, 2012 compared with the second quarter of 2011 largely due to an increased level of loan expenses associated with a higher level of residential mortgage loan originations.

During the six months ended June 30, 2012, non-interest expense totaled \$25,016,000, a decrease of \$1,125,000 or 4% compared with the first six months of 2011.

Non-interest Expense	Six Months	Change from Prior Period
----------------------	------------	-----------------------------

(dollars in thousands)	Ended June 30,		Amount	Percent
	2012	2011	Change	Change

n/m = not meaningful

The Company's FDIC deposit insurance assessments decreased 35% during the six months ended June 30, 2012 compared with same period of 2011. This decline was attributable to changes in the deposit insurance assessment calculation which became effective in the second quarter of 2011 related to the Dodd Frank Act.

Data processing fees declined \$1,065,000, or 71%, during the six months ended June 30, 2012 compared the first six months of 2011. The decline was largely related to running the Company's existing core processing system and the Bank of Evansville's core processing system during the first four months of 2011 and the resolution of a contractual dispute during the first quarter of 2012 related to the acquisition of American Community Bancorp and its banking subsidiary the Bank of Evansville. An expense for the cancellation of a data processing contract was recorded in the first quarter of 2011, and upon resolution of the contractual dispute, a portion of that accrued expense was reversed in the first quarter of 2012. The customers of the Bank of Evansville were moved to the Company's core processing system during April 2011. Other operating expenses increased approximately 9% during the six months ended June 30, 2012 compared with the same period of 2011 largely due to an increased level of loan expenses associated with a higher level of residential mortgage loan originations.

Income Taxes:

The Company's effective income tax rate was 31.2% and 31.1% during the three months ended June 30, 2012 and 2011. The Company's effective income tax rate approximated 31.1% and 26.9% during the six months ended June 30, 2012 and 2011. The effective tax rate in all periods presented was lower than the blended statutory rate of 40.5% resulting primarily from the Company's tax-exempt investment income on securities, loans and company owned life insurance, income tax credits generated from investments in a new markets tax credit project, and income generated by subsidiaries domiciled in a state with no state or local income tax. Further lowering the effective tax rate during the first half of 2011 was the non-taxability of the \$1.045 million gain on securities related to the acquisition accounting treatment of the existing equity ownership position the Company held in American Community at the time of acquisition.

FINANCIAL CONDITION

Total assets at June 30, 2012 increased \$70.0 million to \$1.944 billion compared with \$1.874 billion in total assets at December 31, 2011. Securities available-for-sale increased \$128.1 million to \$644.9 million at June 30, 2012 compared with \$516.8 million at year-end 2011. This increase was primarily the result of the re-investment of funds early during the first quarter of 2012 following a security sale transaction late in the fourth quarter of 2011 and deposit growth during the first half of 2012.

Total loans outstanding increased \$23.5 million, or approximately 4% on an annualized basis, at June 30, 2012 compared with year-end 2011. The increase in loans was the result of increases in commercial and industrial loans and commercial real estate loans driven in large part to the Company's entrance into a new lending market during the second quarter of 2012.

End of Period Loan Balances: (dollars in thousands)	June 30, 2012	December 31, 2011	Current Period Change
Commercial & Industrial Loans	\$323,618	\$ 293,172	\$30,446
Commercial Real Estate Loans	460,052	452,071	7,981
Agricultural Loans	158,463	167,693	(9,230)
Home Equity & Consumer Loans	116,049	124,479	(8,430)
Residential Mortgage Loans	88,859	86,134	2,725
Total Loans	\$1,147,041	\$ 1,123,549	\$23,492

Edgar Filing: GERMAN AMERICAN BANCORP, INC. - Form 10-Q

The Company's allowance for loan losses totaled \$15.7 million at June 30, 2012 representing an increase of \$380,000 or 5% on an annualized basis from year end 2011. The allowance for loan losses represented 1.37% of period end loans at both June 30, 2012 and year-end 2011. Under acquisition accounting treatment, loans acquired are recorded at fair value which includes a credit risk component, and therefore the allowance on loans acquired is not carried over from the seller. As of June 30, 2012, the Company held a discount on acquired loans of \$4.7 million.

Total deposits increased \$47.0 million or approximately 6% on an annualized basis, as of June 30, 2012 compared with year-end 2011 total deposits.

End of Period Deposit Balances: (dollars in thousands)	June 30, 2012	December 31, 2011	Current Period Change
Non-interest-bearing Demand Deposits	\$303,040	\$282,335	\$20,705
Interest-bearing Demand, Savings, & Money Market Accounts	944,730	899,584	45,146
Time Deposits < \$100,000	259,350	273,663	(14,313)
Time Deposits of \$100,000 or more & Brokered Deposits	96,120	100,616	(4,496)
Total Deposits	\$1,603,240	\$1,556,198	\$47,042

36

The following is an analysis of the Company's non-performing assets at June 30, 2012 and December 31, 2011:

Non-performing Assets:

(dollars in thousands)

	June 30, 2012	December 31, 2011		
Non-accrual Loans	\$13,398	\$ 17,857		
Past Due Loans (90 days or more and still accruing)	99	—		
Restructured Loans	386	409		
Total Non-performing Loans	13,883	18,266		
Other Real Estate	4,250	2,343		
Total Non-performing Assets	\$18,133	\$ 20,609		
Non-performing Loans to Total Loans	1.21 %	1.63 %		
Allowance for Loan Loss to Non-performing Loans	113.03 %	83.83 %		

Non-performing assets totaled \$18.1 million at June 30, 2012 compared to \$20.6 million of non-performing assets at December 31, 2011. Non-performing assets represented 0.93% of total assets at June 30, 2012 compared to 1.10% of total assets at year end 2011. Non-performing loans totaled \$13.9 million at June 30, 2012 compared to \$18.3 million at year end 2011. Non-performing loans represented 1.21% of total loans at June 30, 2012 compared with 1.63% of total outstanding loans at year end 2011. The reduction in non-performing loans during the first half of 2012 was spread across multiple credit relationships.

Capital Resources:

Federal banking regulations provide guidelines for determining the capital adequacy of bank holding companies and banks. These guidelines provide for a more narrow definition of core capital and assign a measure of risk to the various categories of assets. The Company is required to maintain minimum levels of capital in proportion to total risk-weighted assets and off-balance sheet exposures such as loan commitments and standby letters of credit.

Tier 1, or core capital, consists of shareholders' equity plus certain amounts of instruments commonly referred to as trust preferred securities, less goodwill, core deposit intangibles, other identifiable intangibles and certain deferred tax assets defined by bank regulations. Tier 2 capital currently consists of the amount of the allowance for loan losses which does not exceed a defined maximum allowance limit of 1.25 percent of gross risk adjusted assets and certain amounts of subordinated debenture obligations. Total capital is the sum of Tier 1 and Tier 2 capital.

The minimum requirements under these standards are generally at least a 4.0 percent leverage ratio, which is Tier 1 capital divided by defined “total assets”; 4.0 percent Tier 1 capital to risk-adjusted assets; and, an 8.0 percent total capital to risk-adjusted assets ratios. Under these guidelines, the Company, on a consolidated basis, and its subsidiary bank, have capital ratios that exceed the regulatory minimums.

The Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA) requires federal regulatory agencies to define capital tiers. These are: well-capitalized, adequately-capitalized, under-capitalized, significantly under-capitalized, and critically under-capitalized. Under these regulations, a “well-capitalized” entity must achieve a Tier 1 risk-based capital ratio of at least 6.0 percent; a total capital ratio of at least 10.0 percent; and, a leverage ratio of at least 5.0 percent, and not be under a capital directive. The Company’s subsidiary bank was categorized as well-capitalized as of June 30, 2012.

At June 30, 2012, management was not under such a capital directive, nor was it aware of any current recommendations by banking regulatory authorities which, if they were to be implemented, would have or are reasonably likely to have, a material effect on the Company’s liquidity, capital resources or operations.

The table below presents the Company's consolidated capital ratios under regulatory guidelines:

	Minimum for Capital Adequacy Purposes	At June 30, 2012	At December 31, 2011			
Leverage Ratio	4.00	% 7.82	% 7.46	%		
Tier 1 Capital to Risk-adjusted Assets	4.00	% 11.27	% 10.58	%		
Total Capital to Risk-adjusted Assets	8.00	% 14.08	% 13.52	%		

As of June 30, 2012, shareholders' equity increased by \$9.6 million to \$177.2 million compared with \$167.6 million at year-end 2011. The increase in shareholders' equity was primarily attributable to an increase of \$8.0 million in retained earnings and an increase of \$1.2 million in accumulated other comprehensive income related to an increase in net unrealized gains in the Company's securities available-for-sale portfolio. Shareholders' equity represented 9.1% of total assets at June 30, 2012 and 8.9% of total assets at December 31, 2011. Shareholders' equity included \$22.3 million of goodwill and other intangible assets at June 30, 2012 compared to \$23.2 million of goodwill and other intangible assets at December 31, 2011.

Liquidity:

The Consolidated Statement of Cash Flows details the elements of changes in the Company's consolidated cash and cash equivalents. Total cash and cash equivalents decreased \$18.0 million during the six months ended June 30, 2012 ending at \$43.2 million. During the six months ended June 30, 2012, operating activities resulted in net cash inflows of \$35.8 million. Investing activities resulted in net cash outflows of \$109.4 million during the six months ended June 30, 2012 primarily related to the purchase of available for sale securities. Financing activities resulted in net cash inflows for the six months ended June 30, 2012 of \$55.7 million primarily the result of increased deposits.

The parent company is a corporation separate and distinct from its bank and other subsidiaries. The Company uses funds at the parent company level to pay dividends to its shareholders, to acquire or make other investments in other businesses or their securities or assets, to repurchase its stock from time to time, and for other general corporate purposes including debt service. The parent company does not have access at the parent-company level to the deposits and certain other sources of funds that are available to its bank subsidiary to support its operations. Instead, the parent company has historically derived most of its revenues from dividends paid to the parent company by its bank subsidiary. The Company's banking subsidiary is subject to statutory restrictions on its ability to pay dividends to the parent company. The parent company has in recent years supplemented the dividends received from its subsidiaries with borrowings. As of June 30, 2012, the parent company had approximately \$21.5 million of cash and cash equivalents available to meet its cash flow needs.

FORWARD-LOOKING STATEMENTS AND ASSOCIATED RISKS

The Company from time to time in its oral and written communications makes statements relating to its expectations regarding the future. These types of statements are considered “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. The Company may include forward-looking statements in filings with the Securities and Exchange Commission (“SEC”), such as this Form 10-Q, in other written materials, and in oral statements made by senior management to analysts, investors, representatives of the media, and others. Such forward looking statements can include statements about the Company’s net interest income or net interest margin; its adequacy of allowance for loan losses, levels of provisions for loan losses, and the quality of the Company’s loans and other assets; simulations of changes in interest rates; expected results from mergers with or acquisitions of other businesses; litigation results; tax estimates and recognition; dividend policy; parent company cash resources and cash requirements, and parent company capital resources; estimated cost savings, plans and objectives for future operations; and expectations about the Company’s financial and business performance and other business matters as well as economic and market conditions and trends. They often can be identified by the use of words like “expect,” “may,” “will,” “would,” “could,” “should,” “intend,” “project,” “estimate,” “believe” or “anticipate,” or similar expressions.

Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the forward-looking statement is made.

Readers are cautioned that, by their nature, all forward-looking statements are based on assumptions and are subject to risks, uncertainties, and other factors. Actual results may differ materially and adversely from the expectations of the Company that are expressed or implied by any forward-looking statement. The discussions in this Item 2 list some of the factors that could cause the Company's actual results to vary materially from those expressed or implied by any forward-looking statements. Other risks, uncertainties, and factors that could cause the Company's actual results to vary materially from those expressed or implied by any forward-looking statement include the unknown future direction of interest rates and the timing and magnitude of any changes in interest rates; changes in competitive conditions; the introduction, withdrawal, success and timing of asset/liability management strategies or of mergers and acquisitions and other business initiatives and strategies; changes in customer borrowing, repayment, investment and deposit practices; changes in fiscal, monetary and tax policies; changes in financial and capital markets; deterioration in general economic conditions, either nationally or locally, resulting in, among other things, credit quality deterioration; capital management activities, including possible future sales of new securities, or possible repurchases or redemptions by the Company of outstanding debt or equity securities; risks of expansion through acquisitions and mergers, such as unexpected credit quality problems of the acquired loans or other assets, unexpected attrition of the customer base of the acquired institution or branches, and difficulties in integration of the acquired operations; factors driving impairment charges on investments; the impact, extent and timing of technological changes; litigation liabilities, including related costs, expenses, settlements and judgments, or the outcome of matters before regulatory agencies, whether pending or commencing in the future; actions of the Federal Reserve Board; changes in accounting principles and interpretations; potential increases of federal deposit insurance premium expense, and possible future special assessments of FDIC premiums, either industry wide or specific to the Company's banking subsidiary; actions of the regulatory authorities under the Dodd-Frank Wall Street Reform and Consumer Protection Act and the Federal Deposit Insurance Act and other possible legislative and regulatory actions and reforms; and the continued availability of earnings and excess capital sufficient for the lawful and prudent declaration and payment of cash dividends. Such statements reflect our views with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to the operations, results of operations, growth strategy and liquidity of the Company. Readers are cautioned not to place undue reliance on these forward-looking statements.

Investors should consider these risks, uncertainties, and other factors, in addition to those mentioned by the Company in its Annual Report on Form 10-K for its fiscal year ended December 31, 2011, and other SEC filings from time to time, when considering any forward-looking statement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's exposure to market risk is reviewed on a regular basis by the Asset/Liability Committee and Boards of Directors of the parent company and its subsidiary bank. Primary market risks which impact the Company's operations are liquidity risk and interest rate risk.

The liquidity of the parent company is dependent upon the receipt of dividends from its subsidiary bank, which is subject to certain regulatory limitations. The Bank's source of funding is predominately core deposits, maturities of securities, repayments of loan principal and interest, federal funds purchased, securities sold under agreements to

repurchase and borrowings from the Federal Home Loan Bank.

The Company monitors interest rate risk by the use of computer simulation modeling to estimate the potential impact on its net interest income under various interest rate scenarios, and by estimating its static interest rate sensitivity position. Another method by which the Company's interest rate risk position can be estimated is by computing estimated changes in its net portfolio value ("NPV"). This method estimates interest rate risk exposure from movements in interest rates by using interest rate sensitivity analysis to determine the change in the NPV of discounted cash flows from assets and liabilities.

NPV represents the market value of portfolio equity and is equal to the estimated market value of assets minus the estimated market value of liabilities. Computations are based on a number of assumptions, including the relative levels of market interest rates and prepayments in mortgage loans and certain types of investments. These computations do not contemplate any actions management may undertake in response to changes in interest rates, and should not be relied upon as indicative of actual results. In addition, certain shortcomings are inherent in the method of computing NPV. Should interest rates remain or decrease below current levels, the proportion of adjustable rate loans could decrease in future periods due to refinancing activity. In the event of an interest rate change, prepayment levels would likely be different from those assumed in the table. Lastly, the ability of many borrowers to repay their adjustable rate debt may decline during a rising interest rate environment.

The table below provides an assessment of the risk to NPV in the event of a sudden and sustained 2% increase and decrease in prevailing interest rates (dollars in thousands).

Interest Rate Sensitivity as of June 30, 2012

Changes in rates	Net Portfolio Value		Net Portfolio Value as a % of Present Value of Assets			
	Amount	% Change	NPV Ratio		Change	
+2%	\$ 158,658	(16.60)%	8.50 %		(125)b.p.	
Base	190,228	—	9.75 %		—	
-2%	150,491	(20.89)%	7.65 %		(210)b.p.	

This Item 3 includes forward-looking statements. See “Forward-looking Statements” included in Part I, Item 2 of this Report for a discussion of certain factors that could cause the Company’s actual exposure to market risk to vary materially from that expressed or implied above. These factors include possible changes in economic conditions; interest rate fluctuations, competitive product and pricing pressures within the Company’s markets; and equity and fixed income market fluctuations. Actual experience may also vary materially to the extent that the Company’s assumptions described above prove to be inaccurate.

Item 4. Controls and Procedures

As of June 30, 2012, the Company carried out an evaluation, under the supervision and with the participation of its principal executive officer and principal financial officer, of the effectiveness of the design and operation of its disclosure controls and procedures. Based on this evaluation, the Company's principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures were as of that date effective in timely alerting them to material information required to be included in the Company's periodic reports filed with the Securities and Exchange Commission. There are inherent limitations to the effectiveness of systems of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective systems of disclosure controls and procedures can provide only reasonable assurances of achieving their control objectives.

There was no change in the Company’s internal control over financial reporting that occurred during the Company’s second fiscal quarter of 2012 that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II. OTHER INFORMATION**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

(e) The following table sets forth information regarding the Company's purchases of its common shares during each of the three months ended June 30, 2012.

Period	Total Number Of Shares (or Units) Purchased	Average Price Paid Per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased under the Plans or Programs ⁽¹⁾
4/1/12 – 4/30/12	—	—	—	272,789
5/1/12 – 5/31/12	—	—	—	272,789
6/1/12 – 6/30/12	—	—	—	272,789
	—	—	—	

⁽¹⁾ On April 26, 2001, the Company announced that its Board of Directors had approved a stock repurchase program for up to 607,754 of its outstanding common shares, of which the Company had purchased 334,965 common shares through June 30, 2012 (both such numbers adjusted for subsequent stock dividends). The Board of Directors established no expiration date for this program. The Company purchased no shares under this program during the three months ended June 30, 2012.
