Item 1.01. Entry Into a Material Definitive Agreement.

InterDigital, Inc.'s subsidiary, InterDigital Technology Corporation, has entered into an Amendment to Patent License Agreement ("Amendment"), effective as of January 1, 2007 with NEC Corporation ("NEC"). The Amendment modifies the parties' Narrowband CDMA and Third Generation Patent License Agreement dated January 15, 2002 ("Agreement"). Under the terms of the Amendment, in exchange for a gradual reduction in royalty rates applicable to sales of covered products under the Agreement, the parties have agreed to eliminate NEC's most favored licensee rights applicable to such products. Under the Amendment, NEC and InterDigital Technology Corporation also agreed that the Agreement will expire on December 31, 2015, and in advance of such expiration date, to negotiate the royalty rates applicable to Narrowband CDMA and Third Generation products for 2016 and thereafter.

InterDigital Technology Corporation and NEC are also parties to a Patent License Agreement dated May 8, 1995 covering TDMA-based 2G products which remains in place.
