AUTOINFO, INC. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Forward Looking Statements

Certain statements made in this Quarterly Report on Form 10-Q are "forward-looking statements regarding the plans and objectives of management for future operations. Such statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. Our plans and objectives are based, in part, on assumptions involving judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Although we believe that our assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein particularly in view of the current state of our operations, the inclusion of such information should not be regarded as a statement by us or any other person that our objectives and plans will be achieved. Factors that could cause actual results to differ materially from those expressed or implied by forward-looking statements include, but are not limited to, the factors set forth under the headings "Business," and "Risk Factors" in our Annual Report on Form 10-KSB for the year ended December 31, 2004 as filed with the Securities and Exchange Commission.

Note 1. - Business and Summary of Significant Accounting Policies

Business

The Company, through its wholly-owned subsidiary, Sunteck Transport Co., Inc. (Sunteck), is a non-asset based transportation services company. As a non-asset based provider of brokerage and contract carrier transportation services, the Company does not own any equipment and its services are provided

Edgar Filing: AUTOINFO INC - Form 10-Q

through its strategic alliances with less than truckload, truckload, air, rail, ocean common carriers and independent owner-operators to service customers' needs. The Company's brokerage and contract carrier services are provided through a network of independent sales agents throughout the United States and Canada. During its most recently completed fiscal year, the Company generated revenue, net revenue and net income of approximately \$46.5 million, \$8.7 million and \$1.5 million, respectively.

Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Company have been prepared using the accrual basis of accounting under accounting principles generally accepted in the United States of America (GAAP).

The consolidated financial statements, which are unaudited, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). In management's opinion, these financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of the results of operations for the interim periods presented. The results of operations for the three and nine months ended September 30, 2005 and 2004 are not necessarily indicative of results to be expected for the entire year. Pursuant to SEC rules and regulations, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been omitted from these statements. The consolidated financial statements and notes thereto should be

6

read in conjunction with the financial statements and notes included in our Annual Report on Form 10-KSB for the year ended December 31, 2004.

Principles of Consolidation

The consolidated financial statements include the accounts of the AutoInfo, Inc. (the Company), its wholly-owned subsidiary Sunteck Transport Co., Inc. and its wholly-owned subsidiary Sunteck Transport & Logistics, Inc., collectively (Sunteck). All significant intercompany balances and transactions have been eliminated in consolidation.

Revenue Recognition

As a third party transportation logistics provider, the Company acts as the shippers' agent and arranges for a carrier to handle the freight. Gross revenues consist of the total dollar value of services purchased by shippers. Revenue is recognized upon the delivery of freight, at which time the related transportation cost, including commission, is also recognized. At that time, the Company's obligations are completed and collection of receivables is reasonably assured.

Emerging Issues Task Force No. 99-19, "Reporting Revenues Gross as a Principal Versus Net as an Agent" (EITF 99-19), establishes criteria for recognizing revenues on a gross or net basis. The Company is the primary obligor in its transactions, has all credit risk, maintains substantially all risk and rewards, has discretion in selecting the supplier, and has latitude in pricing decisions. Accordingly, the Company records all transactions at the gross amount, consistent with the provisions of EITF 99-19.

Provision For Doubtful Accounts

Edgar Filing: AUTOINFO INC - Form 10-Q

The Company continuously monitors the creditworthiness of its customers and has established an allowance for amounts that may become uncollectible in the future based on current economic trends, its historical payment and bad debt write-off experience, and any specific customer related collection issues.

Cash

From time to time, the Company has on deposit at financial institutions cash balances which exceed federal deposit insurance limitations. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash.

Fixed Assets

Fixed assets as of September 30, 2005 and December 31, 2004, consisting predominantly of furniture, fixtures, equipment and computer system development costs, were carried at cost net of accumulated depreciation. Depreciation of fixed assets was provided on the straight-line method over the estimated useful lives of the related assets which range from five to nine years.

Income Per Share

Basic income per share is based on net income divided by the weighted average number of common shares outstanding. Common stock equivalents outstanding were 2,113,000 and 2,358,000 and 2,449,000 and 2,508,000, for the three and nine month periods ended September 30, 2005 and 2004, respectively.

7

Use of Estimates

The preparation of these financial statements in conformity with GAAP requires management to make certain estimates and assumptions. These estimates and assumptions affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the periods presented. The Company believes that all such assumptions are reasonable and that all estimates are adequate, however, actual results could differ from those estimates.

Income Taxes

The Company utilizes the asset and liability method for accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and future benefits to be recognized upon the utilization of certain operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Stock-Based Compensation

The Company applies Statement of Financial Accounting Standards No. 123, "Accounting for Stock Based Compensation" (SFAS 123). As permitted by SFAS 123, the Company has chosen to continue to apply Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" (APB 25) and, accordingly, no

Edgar Filing: AUTOINFO INC - Form 10-Q

compensation cost has been recognized for stock options issued to employees in the financial statements.

The pro-forma effect of options issued to employees on net income and earnings per share, utilizing the Black-Scholes option-pricing model, consistent with the method stipulated by SFAS 123, was not material to the Company's results of operations.

The Company accounts for stock options issued to non-employees using the fair value method in accordance with SFAS 123. Deferred compensation, representing the fair market value of the options issued utilizing the Black-Scholes option-pricing model, is charged to earnings over the vesting period.

Note 2- Income Taxes

For the three and nine month periods ended September 30, 2005 and 2004, the provision for income taxes consisted of the following:

	Nine Months Ended September 30,			
	2005		2004	
	Current	Deferred	Current	Deferred
Tax expense before application of operating loss carryforwards	\$ 529,000	\$ --	\$ 292,000	\$ --
Tax expense (benefit) of operating loss carryforwards	(452,000)	452,000	(249,000)	249,000
Change in valuation allowance	--	(613,000)	--	(279,000)
Income tax expense (benefit)	\$ 77,000	\$ (161,000)	\$ 43,000	\$ (30,000)

8

	Three Months Ended September 30,			
	2005		2004	
	Current	Deferred	Current	Deferred
Tax expense before application of operating loss carryforwards	\$ 222,000	\$ --	\$ 116,000	\$ --
Tax expense (benefit) of operating loss carryforwards	(190,000)	190,000	(99,000)	99,000
Change in valuation allowance	--	(239,000)	--	(109,000)
Income tax expense (benefit)	\$ 32,000	\$ (49,000)	\$ 17,000	\$ (10,000)

Edgar Filing: AUTOINFO INC - Form 10-Q

Deferred taxes are comprised of the following at September 30, 2005 and December 31, 2004:

	September 30, 2005	December 31, 2004
	-----	-----
Deferred tax assets:		
Net operating loss carryforward	\$ 5,138,000	\$ 5,590,000
	-----	-----
Gross deferred tax assets	5,138,000	5,590,000
Less: valuation allowance	(3,655,000)	(4,269,000)
	-----	-----
Deferred tax asset	\$ 1,483,000	\$ 1,321,000
	=====	=====

The deferred tax asset represents expected future tax savings resulting from the Company's net operating loss carryforward. As of December 31, 2004, the Company has a net operating loss carryforward of approximately \$16.5 million for federal income tax purposes which expire through 2014. Utilization of this benefit is primarily subject to the extent of future earning of the Company, and may be limited by, among other things, shareholder changes, including the possible issuance by the Company of additional shares in one or more financing or acquisition transactions. The Company has established a valuation allowance for the portion of the possible tax savings not likely to be realized by the end of the carryforward period.

Based upon available objective evidence, including the Company's post-merger history of profitability, management believes it is more likely than not that forecasted taxable income will be sufficient to utilize a portion of the net operating loss carryforward before its expiration in 2014. However, there can be no assurance that the Company will meet its expectations of future income.

9

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary statement identifying important factors that could cause our actual results to differ from those projected in forward looking statements.

Readers of this report are advised that this document contains both statements of historical facts and forward looking statements. Forward looking statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those indicated by the forward looking statements. Examples of forward looking statements include, but are not limited to (i) projections of revenues, income or loss, earnings per share, capital expenditures, dividends, capital structure and other financial items, (ii) statements of our plans and objectives with respect to business transactions and enhancement of shareholder value, (iii) statements of future economic performance, and (iv) statements of assumptions underlying other statements and statements about our business prospects.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our financial statements and the notes thereto appearing elsewhere in this report.

Edgar Filing: AUTOINFO INC - Form 10-Q

Overview

Through our wholly-owned subsidiary, Sunteck Transport Co., Inc. (Sunteck), we are a non-asset based transportation services company, providing transportation capacity and related transportation services to shippers throughout the United States, and to a lesser extent, Canada. As a non-asset based provider of brokerage and contract carrier transportation services, we do not own any equipment and our services are provided through our strategic alliances with less than truckload, truckload, air, rail, ocean common carriers and independent owner-operators to service our customers' needs. Our non-asset based services include ground transportation coast to coast, local pick up and delivery, air freight and ocean freight. We have strategic alliances with less than truckload, truckload, air, rail and ocean common carriers to service our customers' needs. Our business services emphasize safety, information coordination and customer service and are delivered through a network of independent commissioned sales agents and third party capacity providers coordinated by us. The independent commissioned sales agents typically enter into non-exclusive contractual arrangements with Sunteck and are responsible for locating freight and coordinating the transportation of the freight with customers and capacity providers. The third party capacity providers consist of independent contractors who provide truck capacity to us, including owner-operators who operate under our contract carrier license, air cargo carriers and railroads. Through this network of agents and capacity providers, Sunteck operates a transportation services business with revenue, net revenue and net income of approximately \$46.5 million, \$8.7million and \$1.5 million, respectively, during our most recently completed fiscal year.

Our brokerage services are provided through a network of independent sales agents throughout the United States and Canada. Our services include arranging for the transport of customers' freight from the shippers location to the designated destination. We do not own any trucking equipment and rely on independent carriers for the movement of customers' freight. We seek to establish long-term relationships with our customers and provide a variety of logistics services and solutions to eliminate inefficiencies in our customers' supply chain management.

Our contract carrier services are also provided through a network of independent sales agents and independent owner-operators throughout the United States. We do not own any trucking equipment; our independent owner-operators lease onto our operating authority and transport freight under the Sunteck name.

The most significant factor in our growth during the past two years has been the expansion of our brokerage services agent network and the introduction and expansion of our contract carrier services agent and owner operator network. This growth is readily measured by the number of transactions we have processed, which increased for the respective nine month periods from 30,500 in 2004 to 39,600 in 2005, an increase of 30%. The average revenue dollars per load in our brokerage division increased by 17% in 2005 as compared to 2004. This is the result of several factors

10

including an increase in truckload business versus less than truckload at higher per load revenues, the addition of sales agents hauling heavy equipment at higher per load revenues and, to a lesser degree, a general increase in prices. The net revenue percentage in our brokerage division increased by 9% in 2005 as compared to 2004. This is primarily the result of revenue mix and, to a lesser degree, a general increase in prices.

During the next twelve months, we plan to continue to offer our brokerage

Edgar Filing: AUTOINFO INC - Form 10-Q

and contract carrier transportation services and expand our agent network. We are presently profitable and have adequate available lines of credit to satisfy our working capital requirements during the next twelve months.

Results of operations

For the three and nine months ended September 30, 2005 and 2004

During the three and nine month periods ended September 30, 2005, we continued to implement our strategic growth business plan consisting primarily of the expansion of client services, the opening of regional operations centers in key geographical markets, and the addition of independent sales agents providing brokerage and contract carrier services. Our net revenues (gross revenues less cost of transportation) are the primary indicator of our ability to source, add value and resell service that are provided by third parties and are considered to be the primary measurement of growth. Therefore, the discussion of the results of operations below focuses on the changes in our net revenues. The increases in net revenues and all related cost and expense categories are the direct result of our business expansion.

The following table represents certain statement of operation data as a percentage of net revenues:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2005	2004	2005	2004
	-----	-----	-----	-----
Net revenues	100.0%	100.0%	100.0%	100.0%
	-----	-----	-----	-----
Commissions	61.3%	58.9%	61.0%	58.0%
Operating expenses	21.6%	28.0%	23.8%	28.5%
Interest expense	.5%	1.1%	1.0%	.9%
Income taxes	(.5%)	.3%	(.9%)	.2%
	-----	-----	-----	-----
Net income	17.1%	11.7%	15.1%	12.4%
	-----	-----	-----	-----

Revenues

For the three months ended September 30, 2005, gross revenues, consisting of freight fees and other related services revenue, totaled \$17,336,000 as compared with \$12,938,000 in the prior year period, an increase of 34%. Net revenues were \$3,396,000 as compared with \$2,368,000 in the prior year period, an increase of 43%. Gross revenues from brokerage services increased to \$14,912,000 from \$10,028,000 and net revenues increased to \$3,013,000 from \$1,898,000 in the prior year period. This increase is the direct result of the continued expansion of our agent network and customer base which resulted in a 25% increase in the number of transactions processed and an increase of 19% in the average dollars per load. Gross revenues from contract carrier services decreased to \$2,424,000 from \$2,910,000 and net

revenues decreased to \$383,000 from \$470,000 which is a direct result of a 20% decrease in the number of transactions processed. This is the result of a decrease in the number of agents and owner-operators. While we are actively pursuing new agents as we seek to expand our agent network, this decrease will

Edgar Filing: AUTOINFO INC - Form 10-Q

likely impact the fourth quarter of 2005.

For the nine months ended September 30, 2005, gross revenues, consisting of freight fees and other related services revenue, totaled \$47,728,000 as compared with \$32,057,000 in the prior year period, an increase of 49%. Net revenues were \$9,378,000 as compared with \$5,866,000 in the prior year period, an increase of 60%. Gross revenues from brokerage services increased to \$40,422,000 from \$25,261,000 and net revenues increased to \$8,097,000 from \$4,652,000 in the prior year period. This increase is the direct result of the continued expansion of our agent network and customer base which resulted in a 36% increase in the number of transactions processed and an increase of 17% in the average dollars per load. Gross revenues from contract carrier services increased to \$7,306,000 from \$6,796,000 and net revenues increased to \$1,281,000 from \$1,214,000 which is a direct result of a 9% increase in the number of transactions processed.

Costs and expenses

Commissions

For the three months ended September 30, 2005, commissions totaled \$2,081,000 as compared with \$1,394,000 in the prior year period. As a percentage of net revenues, commissions were 61% as compared with 59% in the prior year period. For the nine months ended September 30, 2005, commissions totaled \$5,720,000 as compared with \$3,403,000 in the prior year period. As a percentage of net revenues, commissions were 61% as compared with 58% in the prior year period. These increases are the result of the higher commission rates associated with the expansion of the sales agent base in our brokerage services.

Operating expenses

For the three months ended September 30, 2005, operating expenses totaled \$735,000 as compared with \$662,000 in the prior year period. As a percentage of net revenues, operating expenses were 22% as compared with 28% in the prior year period. For the nine months ended September 30, 2005, operating expenses totaled \$2,233,000 as compared with \$1,672,000 in the prior year period. As a percentage of net revenues, operating expenses were 24% as compared with 29% in the prior year period. These decreases are the direct result of management's ability to leverage selling, general and administrative expenses in connection with business expansion. During 2005, we moved our headquarters increasing our space to 5,300 square feet. We have increased administrative staff commensurate with the increase in transaction volume. We presently have adequate facilities and management to handle the present and anticipated transaction volume through 2006 without a significant increase in overhead.

Interest Expense

For the three months ended September 30, 2005, interest expense, which includes fees and other bank charges, totaled \$17,000 as compared with \$27,000 in the prior year period. For the nine months ended September 30, 2005, interest expense totaled \$94,000 as compared with \$53,000 in the prior year period. The decrease in the three month period ended September 30, 2005 is the result of lower average outstanding borrowings as compared to the prior year period which is primarily the result of the use of funds generated by operations to pay down the line of credit during the second quarter of 2005. The increase for the nine months ended September 30, 2005 is primarily the result of increased borrowings pursuant to our \$2.5 million line of credit at a higher average rate of interest due to an increase in the prime rate and an increase in bank fees as a result of increased transaction volume.

Edgar Filing: AUTOINFO INC - Form 10-Q

Income tax

The income tax benefit of \$17,000 for the three months ended September 30, 2005 consisted of \$239,000 resulting from the anticipated future utilization of an available federal tax loss carryforward, net of the utilization of deferred tax benefit of \$190,000 and state income taxes of \$32,000. The income tax expense of \$7,000 for the three months ended September 30, 2004 consisted of \$109,000 resulting from the anticipated future utilization of an available federal tax loss carryforward, net of the utilization of deferred tax benefit of \$99,000 and state income taxes of \$17,000. The income tax benefit of \$84,000 for the nine months ended September 30, 2005 consisted of \$613,000 resulting from the anticipated future utilization of an available federal tax loss carryforward, net of the utilization of deferred tax benefit of \$452,000 and state income taxes of \$77,000. The income tax expense of \$13,000 for the nine months ended September 30, 2004 consisted of \$279,000 resulting from the anticipated future utilization of an available federal tax loss carryforward, net of the utilization of deferred tax benefit of \$249,000 and state income taxes of \$43,000. Based upon available objective evidence, including our history of profitability, management believes it is more likely than not that forecasted taxable income will be sufficient to utilize a portion of the net operating loss carryforward before its expiration in 2014. Accordingly, the valuation allowance was reduced by an additional \$239,000 and \$613,000 for the three and nine months ended September 30, 2005, respectively.

Net income

For the three months ended September 30, 2005, net income totaled \$580,000 as compared with \$278,000 in the prior year period. For the nine months ended September 30, 2005, net income totaled \$1,414,000 as compared with \$725,000 in the prior year period. These increases are the direct result of the increase in revenues due to the continuing expansion of our operations and the additional recognition of the deferred tax asset of \$239,000 and \$613,000 for the three and nine months ended September 30, 2005, respectively.

Trends and uncertainties

The transportation industry is highly competitive and highly fragmented. Our primary competitors are other non-asset based as well as asset based third party logistics companies, freight brokers, carriers offering logistics services and freight forwarders. We also compete with customers' and shippers' internal traffic and transportation departments as well as carriers internal sales and marketing departments directly seeking shippers' freight. We anticipate that competition for our services will continue to increase. Many of our competitors have substantially greater capital resources, sales and marketing resources and experience. We cannot assure you that we will be able to effectively compete with our competitors in effecting our business expansion plans. The most significant trend contributing to our growth during the past four years has been the expansion of our brokerage services agent network and, in 2003, the introduction and expansion of our contract carrier agent and owner operator network. Sales agents are independent contractors and, as such, there are no assurances that we can either maintain our existing agent network or continue to expand this network.

For the nine months ended September 30, 2005, we increased gross revenues from \$32.1 million to \$47.7 million and had net income of \$1,414,000 as compared with \$725,000 in the prior year. As of September 30, 2005, we had an accumulated deficit of \$13.3 million.

Depending on our ability to generate revenues, we may require additional funds to expand Sunteck's business operations and for working capital and

Edgar Filing: AUTOINFO INC - Form 10-Q

general corporate purposes. Any additional equity financing may be dilutive to stockholders, and debt financings may involve restrictive covenants that further limit our ability to make decisions that we believe will be in our best interests. In the event we cannot obtain additional financing on terms acceptable to us when required, our ability to expand Sunteck's operations may be materially adversely affected.

13

Liquidity and capital resources

During the past two years, our sources for cash have been the cash flow generated from operations and available borrowings under lines of credit.

At September 30, 2005, we had borrowings outstanding pursuant to our \$2,500,000 line of credit of \$747,000. The line of credit, obtained from a bank in May 2003, is subject to the maintenance of certain financial covenants, is secured by accounts receivable and other operating assets, and matures in June 2006. We believe that we have sufficient working capital to meet our short-term operating needs and that we will be able to increase, extend or replace the line of credit on terms acceptable to us.

At September 30, 2005, we had liquid assets of approximately \$418,000. Available cash is used to reduce borrowings on our line of credit.

The total amount of debt outstanding as of September 30, 2005 and 2004 was \$747,000 and \$1,998,000, respectively. The following table presents our debt instruments and their weighted average interest rates as of September 30, 2005 and 2004, respectively:

	Balance	Weighted Average Rate	Balance	Weighted Average Rate
	2005		2004	
Line of Credit	\$747,000	7.25%	\$1,935,000	5.0%

Inflation and changing prices had no material impact on our revenues or the results of operations for the period ended September 30, 2005.

Critical accounting policies

Preparation of our financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Note 1 of the Notes to Financial Statements includes a summary of the significant accounting policies and methods used in the preparation of our financial statements. The most significant areas involving management estimates and assumptions are described below. Actual results could differ materially from management's estimates under different assumptions or conditions.

Revenue Recognition

As a third party transportation logistics provider, we act as the shippers' agent and arrange for a carrier to handle the freight. Gross revenues consist of the total dollar value of services purchased by shippers. Revenue is recognized upon the delivery of freight, at which time the related

Edgar Filing: AUTOINFO INC - Form 10-Q

transportation cost, including commission, is also recognized. At that time our obligations are completed and collection of receivables is reasonably assured.

Emerging Issues Task Force No. 99-19, "Reporting Revenues Gross as a Principal Versus Net as an Agent" (EITF 99-19), establishes criteria for recognizing revenues on a gross or net basis. The company is the primary obligor in its transactions, has all credit risk, maintains substantially all risk and rewards, has discretion in selecting the supplier, and has latitude in pricing decisions. Accordingly, we record all transactions at the gross amount, consistent with the provisions of EITF 99-19.

14

Income Taxes

The deferred tax asset represents expected future tax savings resulting from our net operating loss carryforward. As of December 31, 2004, we had a net operating loss carryforward of approximately \$16.5 million for federal income tax purposes which expire through 2014. Utilization of this benefit is primarily subject to the extent of our future earnings, and may be limited by, among other things, shareholder changes, including the possible issuance of additional shares in one or more financing or acquisition transactions. We have established a valuation allowance for the portion of possible tax savings not likely to be realized by the end of the carryforward period.

Provision For Doubtful Accounts

We continuously monitor the creditworthiness of our customers and have established an allowance for amounts that may become uncollectible in the future based on current economic trends, our historical payment and bad debt write-off experience, and any specific customer related collection issues.

Off-balance sheet arrangements

We do not have any off-balance sheet arrangements.

CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Information required to be disclosed by the Company in the reports it files or submit under the Exchange Act is accumulated and communicated to management, including the Company's principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
