NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. DOLLARS

NOTE 1: GENERAL

- a. Win Gaming Media, Inc., or the Company, was incorporated under the laws of the State of Nevada on April 23, 2002. The Company's shares are currently traded on the OTC Bulletin Board under the trading symbol WGMI.OB. Following the sale of its entire software assets, the Company no longer offers any gaming applications development work and currently the Company efforts are devoted to the recent launch of its new business activity in the field of binary options (see c. below).

The Company conducts its operations and business with and through its

Edgar Filing: Win Gaming Media, Inc. - Form 10-Q

subsidiaries, (1) Win Gaming Media, Inc., a Delaware corporation, (2) Win Gaming Media (Israel) Ltd., an Israeli company, (3) WGM Services Ltd., a company registered in Cyprus, (4) Gaming Ventures Plc, a company incorporated in the Isle of Man and (5) B. Option Ltd., an Israeli company.

- b. Concentration of risk that may have a significant impact on the Company:

The Company derived 100% of its revenues in the six and the three months ended June 30, 2010 from 3 customers (see Note 4).

- c. Since March 28, 2010 the Company has been offering online trading of binary options through its two newly organized fully-owned subsidiaries in Cyprus and in Israel. Worldwide trading is being offered by Cyprus-based WGM Services Ltd., on www.globaloption.com, later to expand through localized activities in leading markets around the world, while in Israel, the same services are featured through B. Option Ltd., on www.options.co.il. Specifically, the Company markets online binary options trading business towards investors who are seeking to realize any profit from their investments within a short period of time. The Company did not record any revenues from the binary options business in the first half of 2010.
- d. Emphasis of matter - the Company has suffered losses from operations and has negative cash flows from operations for the reported periods in 2010 and 2009. The Company currently depends on the success of its binary options business that commenced in March 2010, but has not generated material revenues through July 18, 2010. Unless the Company's binary options business provides the Company with the required cash flows in the near future, it will be under liquidity pressure and would be dependent on its shareholders by way of equity issuances or shareholder loans.

NOTE 2: BASIS OF PRESENTATION

NOTE 5: RECENTLY ADOPTED ACCOUNTING STANDARDS

- a. In January 2010, the FASB issued revised authoritative guidance that requires more robust disclosures about the different classes of assets and liabilities measured at fair value, the valuation techniques and inputs used, the activity in Level 3 fair value measurements, and the transfers between Levels 1, 2 and 3. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009 (which is January 1, 2010 for the Company) except for the disclosures about purchases, sales, issuances, and settlements in the roll forward activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years (which is January 1, 2011 for the Company). Early application is encouraged. The revised guidance was adopted as of January 1, 2010. The adoption of this guidance did not have a material impact on the Company's consolidated financial position, results of operations and cash flows.
- b. In April 2010, the FASB issued ASU 2010-13, "Compensation - Stock Compensation (Topic 718) - Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades." ASU 2010-13 provides amendments to Topic 718 to clarify that an employee share-based payment award with an exercise price denominated in the currency of a

Edgar Filing: Win Gaming Media, Inc. - Form 10-Q

market in which a substantial portion of the entity's equity securities trades should not be considered to contain a condition that is not a market, performance, or service condition. Therefore, an entity would not classify such an award as a liability if it otherwise qualifies as equity. The amendments in ASU 2010-13 are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. The adoption of this standard will not have an effect on our results of operation or our financial position.

FORWARD LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements. The business and operations of Win Gaming Media, Inc., or the Company, we, us, or our, are subject to substantial risks, which increase the uncertainty inherent in the forward-looking statements contained in this Quarterly Report on Form 10-Q. Forward-looking statements include our statements regarding our goals, beliefs, strategies, objectives, plans, including product and service developments, future financial conditions, results or projections or current expectations. For example, when we discuss our funding and growth plans and opportunities, including our expectation that our cash, together with our Netplay TV plc, or Netplay, shares, should be sufficient to meet our anticipated requirements for the next 12 months, or when we say that we expect to start generating revenue from our binary options business in the third quarter of 2010, we are using a forward looking statement. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," the negative of such terms, or other comparable terminology. These statements are subject to known and unknown risks, uncertainties, assumptions and other factors that may cause actual results to be materially different from those contemplated by the forward-looking statements. Except as required by law, we undertake no obligation to release publicly the result of any revision to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Further information on potential factors that could affect our business is described in Part I, Item 1A, "Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2009. Readers are also urged to carefully review and consider the various disclosures we have made in this Quarterly Report on Form 10-Q.

OVERVIEW

Our financial statements are stated in United States Dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

You should read the following discussion of our financial condition and results of operations together with the unaudited financial statements and the notes to unaudited financial statements included elsewhere in this Quarterly Report on Form 10-Q.

Since March 28, 2010 we have been offering online trading of binary options through our two newly organized fully-owned subsidiaries in Cyprus and in Israel. RESULTS OF OPERATIONS FOR SIX AND THREE MONTHS ENDED JUNE 30, 2010 COMPARED TO SIX AND THREE MONTHS ENDED JUNE 30, 2009.

REVENUES AND COST OF REVENUES

The Company is entitled to royalties from revenue sharing arrangements upon sublicensing of the Company's products to end-users. The Company recognizes royalties from revenue sharing arrangements during the applicable period based on reports obtained from its customers, on a monthly basis, during such reporting period.

In the six and three months ended June 30, 2010 and June 30, 2009, we generated our revenues from our revenue sharing arrangements with Lodgnet Interactive Corporation, or Lodgnet, Cablevision Systems Corporation, or Cablevision, and Netplay TV plc, or Netplay. The total revenues for the six months ended June 30, 2010 decreased by 19% to \$48,534 from \$59,734 for the six months ended June 30, 2009. The total revenues for the three months ended June 30, 2010 decreased by 3% to \$26,870 from \$27,787 for the three months ended June 30, 2009. The decrease is attributable to decrease in revenues at Lodgnet and Cablevision during the first quarter of 2010. We have not generated any revenues in the six and three months ended June 30, 2010 from our binary options business which we launched in March 2010.

Cost of revenues for the six months ended June 30, 2010 decreased by 45% to \$146,169 from \$265,957 for the six months ended June 30, 2009. Cost of revenues for the three months ended June 30, 2010 decreased by 10% to \$95,758 from \$106,196 for the three months ended June 30, 2009. The decrease is attributable to the sale of certain gaming services, known as Challenge Jackpot, to Netplay by Two Way Gaming Limited, or TWG, our affiliated company, offset by the launching of our new business of binary options including salaries and social benefits for our new employees. TWG filed for dissolution in 2010 and no longer provides services.

General and administrative expenses reported for the three months ended March 31, 2010, totaling \$50,411, were reclassified as cost of revenues for the six months ended June 30, 2010.

SELLING AND MARKETING

Selling and marketing expenses for the six and three months ended June 30, 2010 increased to \$99,123 compared to \$0 for the six and three months ended June 30, 2009. The increase in selling and marketing expenses is attributable to marketing expenses of our online trading of binary options sites, including online advertisement and sponsorships.

Edgar Filing: Win Gaming Media, Inc. - Form 10-Q

GENERAL AND ADMINISTRATIVE

General and administrative expenses for the six months ended June 30, 2010 increased by 42% to \$371,582 from \$261,792 for the six months ended June 30, 2009. General and administrative expenses for the three months ended June 30, 2010 increased by 11% to \$180,491 from \$163,118 for the three months ended June 30, 2009. The increase in general and administrative expenses is primarily attributable to the launching of our new business activity of binary options.

SHARE IN PROFITS/LOSSES OF AFFILIATED COMPANY

Share in profits for the six months ended June 30, 2010 changed to a profit of \$45,789 compared to a loss of \$114,046 for the six months ended June 30, 2009. Share in losses for the three months ended June 30, 2010 was \$0 compared to a loss of \$85,863 for the three months ended June 30, 2009. While in 2009 we recorded our share in losses of TWG, our affiliated company, during the first quarter of 2010 we filed for the dissolution of TWG and received \$45,789 for our portion in the remaining assets of TWG. We recorded this amount as share in profits during the first quarter of 2010.

NET LOSS/INCOME ATTRIBUTABLE TO THE COMPANY

Net loss attributable to the Company for the six months ended June 30, 2010 was \$530,406 compared to a net income of \$1,002,976 for the six months ended June 30, 2009. Net loss attributable to the Company for the three months ended June 30, 2010 was \$351,797 compared to a net income of \$1,295,667 for the three months ended June 30, 2009. Net loss per share attributable to the Company for six months ended June 30, 2010 was \$0.02 compared to a net income per share of \$0.03 for the six months ended June 30, 2009. Net loss per share attributable to the Company for three months ended June 30, 2010 was \$0.01 compared to a net income per share of \$0.04 for the three months ended June 30, 2009. The net loss for the six and three months ended June 30, 2010 is primarily attributable to the increasing cost of our new operation in the binary options business. The net income attributable to the Company for the six and three months ended June 30, 2009 is primarily attributable to the Netplay transfer agreement in which we received 4,266,666 Netplay shares valued at \$1.5 million. Our weighted average number of shares of common stock used in computing basic and diluted net loss per share for the six and three months ended June 30, 2010 and June 30, 2009 was 32,319,031.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2010, our total current assets were \$737,997 and our total current liabilities were \$114,921. On June 30, 2010, we had an accumulated deficit of \$16,527,065. We currently finance our operations through the sale of marketable securities of Netplay and revenues from sharing arrangements. During the first half of 2010 we sold 1,000,000 shares of Netplay for a total amount of \$347,061. As of June 30, 2010 we held 1,966,666 shares of Netplay. The fair value of these shares was \$507,385. The fair value of these shares is subject to fluctuation of Netplay's stock price and foreign currency rate. We had working capital of \$623,076 on June 30, 2010 compared with a working capital of \$1,199,905 and \$1,441,118 on March 31, 2010 and December 31, 2009, respectively. Cash and cash equivalents on June 30, 2010 were \$146,696, a decrease of \$206,104 from the \$352,800 reported on December 31, 2009. The decrease in cash is primarily attributable to our cost of operation offset by the sale of 1,000,000 shares of Netplay during the first quarter of 2010.

Edgar Filing: Win Gaming Media, Inc. - Form 10-Q

Operating activities used cash of \$544,746 in the six months ended June 30, 2010. OFF-BALANCE SHEET ARRANGEMENTS

According to the Services and License Agreement, or the License Agreement, with ParagonEX Limited, or Paragon EX, two of our subsidiaries, WGM and B. Option, are obligated together to invest, in marketing activity of the binary options sites, a total amount of \$500,000 during the first 8 months from the go live date of March 28, 2010; otherwise a fee of \$50,000 is owed to ParagonEX jointly by WGM and B. Option. In addition, if B. Option and WGM collectively generate revenues lower than \$250,000 per month, B. Option and WGM would be obligated to pay to ParagonEX a 12% per month processing fee calculated from B. Option's and WGM's collective profits. For more information on the License Agreement or our off-balance sheet arrangement with ParagonEX, please see "Item 1. Business - Recent Developments" of our Annual Report on Form 10-K for the year ended December 31, 2009.

OUTLOOK

We expect that our current cash, together with our Netplay shares should be sufficient to meet our anticipated requirements for the next 12 months. Our efforts are devoted to the recent launch of our binary options business, which is expected to generate revenue starting from the third quarter of 2010, and to leverage our wholly owned subsidiary, Gaming Ventures Plc, that is registered with the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended, or the Exchange Act, by either an outright sale or by incorporating new activities which will generate revenues. There is no assurance that our efforts will be successful.

ITEM 4T. CONTROLS AND PROCEDURES.

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

As of the end of the period covered by this Quarterly Report on Form 10-Q, we carried out an evaluation, under the supervision and with the participation of our management, our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) of the Exchange Act. These disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure. Based on that evaluation and the material weakness

Edgar Filing: Win Gaming Media, Inc. - Form 10-Q

described below, our management concluded that we did not maintain effective disclosure controls and procedures as of June 30, 2010. Our management has identified control deficiencies regarding a lack of segregation of duties, an insufficient qualification and training of employees, and a need for a stronger internal control environment. Our management believes that these deficiencies, which in the aggregate constitute a material weakness, are due to the small size of our staff, which makes it challenging to maintain adequate disclosure controls.

The ineffectiveness of disclosure controls and procedures as of June 30, 2010 continued in large part from several significant changes in the Company's executive officers, and personnel cutbacks. Although we continue to strive to provide improved disclosure controls and procedures in the future, in the interim, these changes have caused control deficiencies, which in the aggregate resulted in a material weakness.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There has been no change in our internal control over financial reporting during the second quarter of 2010 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
