Report of Independent Registered Public Accounting Firm

To the Board of Directors

Heartland, Inc.

Plymouth, MN

We have audited the accompanying balance sheets of Karkela Construction, Inc. (The Company) as of December 31, 2004 (restated) and 2003 and the related statements of operations and retained earnings, and cash flows for the years ended December 31, 2004 (restated) and 2003. These financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2004 (restated) and 2003, and the results of its operations and its cash flows for the years ended December 31, 2004 (restated) and 2003, in conformity with U.S. generally accepted accounting principles.

KARKELA CONSTRUCTION, INC.

NOTES TO FINANCIAL STATEMENTS

December 31, 2004

NOTE A - THE COMPANY AND NATURE OF BUSINESS

Karkela Construction, Inc. (the Company) was formed on April 27, 1990, pursuant to the provisions of Minnesota Statutes Chapter 302A. The Company is in the business of constructing build-out improvements of medical facilities in the Minnesota area.

On December 31, 2004, the sole stockholder sold all of his shares in the Company to Heartland, Inc.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents

The company considers all highly-liquid investments, with a maturity of three months or less when purchased, to be cash equivalents. There were no cash equivalents at December 2004 and 2003.

Property, Plant and Equipment

Property, plant and equipment is stated at cost and is depreciated using the straight line method over the estimated useful lives of the respective assets. Routine maintenance, repairs and replacement costs are expensed as incurred and improvements that extend the useful life of the assets are capitalized. When property, plant and equipment is sold or otherwise disposed of, the cost and related accumulated depreciation are eliminated from the accounts and any resulting gain or loss is recognized in operations.

Allowance for Doubtful Accounts

It is the company's policy to provide an allowance for doubtful accounts when it believes there is a potential for non-collectibility.

Revenue Recognition

Revenues from fixed-price and modified fixed-price construction contracts are recognized on the percentage-of-completion method, measured by the percentage of total cost incurred to date to

estimated total cost for each contract. This method is used because management considers expended total cost to be the best available measure of progress on these contracts.

Revenues from cost-plus-fee contracts are recognized on the basis of costs incurred during the period plus the fee earned, measured by the cost-to-cost method.

Contracts to manage, supervise, or coordinate the construction activity of others are recognized only to the extent of the fee revenue. The revenue earned in a period is based on the ratio of total cost incurred to the total estimated total cost required by the contract.

KARKELA CONSTRUCTION, INC.

NOTES TO FINANCIAL STATEMENTS

December 31, 2004

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition (Continued)

Contract costs include all direct material and labor costs and those indirect costs related to contract performance, such as indirect labor, supplies, tools, repairs, and depreciation costs. Selling, general, and administrative costs are charged to expense as incurred. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Changes in job performance, job conditions, and estimated profitability, including those arising from contract penalty provisions, and final contract settlements may result in revisions to costs and income and are recognized in the period in which the revisions are determined. Profit incentives are included in revenues when their realization is reasonably assured. An amount equal to contract costs attributable to claims is included in revenues when realization is probable and the amount can be reliably estimated.

The asset, Costs in excess of billings on uncompleted contracts, represents revenues earned in excess of amounts billed. The liability, Billings in excess of costs on uncompleted contracts, represents billings in excess of revenues earned.

Recent Accounting Pronouncements

In November 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 151 (SFAS 151), Inventory Costs. SFAS 151 amends the guidance in APB No. 43, Chapter 4, Inventory Pricing, to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). SFAS 151 requires that those items be recognized as current period charges regardless of whether they meet the criteria of so abnormal. In addition, SFAS 151 requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. SFAS 151 is effective for financial statements issued for fiscal years beginning after June 15, 2005. The adoption of SFAS 151 is not expected to have a material effect on the Company's financial position or results of operations.

In December 2004, the FASB issued Statement of Financial Accounting Standards No. 153 (SFAS 153), Exchanges of Non-monetary Assets. SFAS 153 amends the guidance in APB No. 29, Accounting for Non-monetary Assets. APB No. 29 was based on the principle that exchanges of non-monetary assets should be measured on the fair value of the assets exchanged. SFAS 153 amends APB No. 29 to eliminate the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. SFAS 151 is effective for financial statements issued for fiscal years beginning after June 15, 2005. The adoption of SFAS 153 is not expected to have a material effect on the Company's financial position or results of operations.

Edgar Filing: HEARTLAND, INC. - Form 8-K/A

In December 2004, the FASB revised Statement of Financial Accounting Standards No. 123 (SFAS 123(R)), Accounting for Stock-Based Compensation. The SFAS 123(R) revision established standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services and focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. It does not change the accounting guidance for share-based payment transactions with parties other than employees. For public entities that file as small business issuers, the revisions to SFAS 123(R) are effective as of the beginning of the first interim or annual reporting period that begins after December 15, 2005. The adoption of SFAS 123(R) is not expected to have a material effect on the Company's financial position or results of operations.

NOTE E - RELATED PARTY TRANSACTIONS (CONTINUED)

Employment Contract

The Company has a 2 year employment contract dated December 2004 with the President of the Company for salary in the amount of \$192,000.

NOTE F - INCOME TAXES

The Company has adopted Financial Accounting Standard No. 109, Accounting for Income Taxes. Under this method, the Company recognizes a deferred tax liability or asset for temporary differences between the tax basis of an asset or liability and the related amount reported on the financial statements. The principal types of differences, which are measured at the current tax rates, are differences in reporting year ends for financial and tax purposes. At December 31, 2004, these differences resulted in a deferred tax liability of \$43,637.

The components of provision for income taxes at December 31, are as follows:

	2004	2003
Current income tax expense:		
Federal	\$ 65,206	\$ 8,050
State	22,580	3,542
Total Current Income Tax Expense	87,786	11,592
