Board of Directors

California Coastal Communities, Inc.

6 Executive Circle, Suite 250

Irvine, CA 92614

Gentlemen:

As you are all aware, we are one of the largest shareholders of California Coastal Communities, Inc. ( "CALC" or the "Company" ). We have been long term holders of the Company's common stock, having purchased our first shares in June 2003. We since that time have also been unqualifiedly supportive of both management and the Board of Directors. Moreover, we believe management and the Board of Directors have done an excellent job of steering the Company through the lengthy and tortuous entitlement process for the Brightwater development at the Bolsa Chica site. With that critical development entitlement approval now in hand, however, we believe the Company is making a serious mistake in strategy. The Company should immediately enter into a public formal auction process to sell or liquidate, rather than build out the Brightwater project itself.

The asset representing the overwhelming portion of the Company's value currently is, and has always been, the unique and immensely valuable Bolsa Chica site. With 105 irreplaceable acres overlooking the Pacific Ocean in Huntington Beach, the worth of the site is extraordinary. The land acquired in 2003 in Oxnard is also very special and valuable. The Company, however, has also recently expanded its commoditized homebuilding business in Riverside and San Bernardino Counties. The latter business dilutes the uniqueness of Bolsa Chica and perpetuates an expensive corporate existence that is destroying shareholder value.

While we are not privy to all corporate strategic actions, by piecing together the Company's Form 10-K and other information, it appears as though the Company has made a weak, half-hearted effort at determining potential third party interest in buying the Company. Now it appears, through putting in place an expanded stock options program and by paying million dollar bonuses to executives, that self-interest and the personal desire to take four years or longer to build out the Brightwater project itself have replaced the far more compelling logic of simply selling the Company and allowing a larger real estate homebuilder to complete the development.

Over the past five years we have spent a countless amount of time and effort to exhaustively value both the Bolsa Chica site and the Company. Based on current market costs and values, as well as public information provided by the Company, it is clear that CALC's assets are worth a significant premium to the current stock price. We urge the Board of Directors to do the right thing for shareholders and immediately commence a formal, public auction for the sale of the Company. Shareholders want to be rewarded for their patience and support of management to date, as well as the current significant value created within the Company. Shareholders do not want to be, and should not be, subject to the four or five years of substantial execution risk, interest rate risk and real estate market risk inherent in management's strategy to build out Brightwater itself. Nor are we interested in turning the Company into another generic, low-multiple California homebuilder.

We look forward to discussing these critical judgments with the Board of Directors immediately.

Sincerely,

MERCURY REAL ESTATE ADVISORS LLC
