For the Quarterly Period Ended June 30, 2008

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition Period from _____ to _____

Commission File Number 000-25032

UNIVERSAL STAINLESS & ALLOY PRODUCTS, INC.

(Exact name of Registrant as specified in its charter)

DELAWARE
(State or other jurisdiction of
incorporation or organization)

25-1724540
(IRS Employer
Identification No.)

600 Mayer Street

Bridgeville, PA 15017

(Address of principal executive offices, including zip code)

(412) 257-7600

(Registrant's telephone number, including area code)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

As of July 31, 2008, there were 6,727,677 shares of the Registrant's Common Stock issued and outstanding.

Table of Contents

UNIVERSAL STAINLESS & ALLOY PRODUCTS, INC.

Management's Discussion and Analysis and other sections of this Quarterly Report on Form 10-Q contain forward-looking statements that reflect the current views of Universal Stainless & Alloy Products, Inc. (the Company) with respect to future events and financial performance. Statements looking forward in time, including statements regarding future growth, cost savings, expanded production capacity, broader product lines, greater capacity to meet customer quality reliability, price and delivery needs, enhanced competitive posture, effect of new accounting pronouncements and no material financial impact from litigation or contingencies are included in this Quarterly Report on Form 10-Q pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995.

The Company's actual results may be affected by a wide range of factors including future compliance with Section 404 of the Sarbanes-Oxley Act of 2002; the concentrated nature of the Company's customer base to date and the Company's dependence on its significant customers; the receipt, pricing and timing of future customer orders; changes in product mix; the limited number of raw material and energy suppliers and significant fluctuations that may occur in raw material and energy prices; the Company's reliance on the continuing operation of critical manufacturing equipment; risks associated with labor matters; the Company's ongoing requirement for continued compliance with safety and environmental regulations; and the ultimate outcome of the Company's current and future litigation matters. Many of these factors are not within the Company's control and involve known and unknown risks and uncertainties that may cause the Company's actual results in future periods to be materially different from any future performance suggested herein. Any unfavorable change in the foregoing or other factors could have a material adverse effect on the Company's business, financial condition and results of operations. Further, the Company operates in an industry sector where securities values may be volatile and may be influenced by economic and other factors beyond the Company's control.

Table of Contents**UNIVERSAL STAINLESS & ALLOY PRODUCTS, INC.****NOTES TO THE UNAUDITED CONSOLIDATED CONDENSED FINANCIAL STATEMENTS****Note 1 Basis of Presentation**

The accompanying unaudited consolidated condensed financial statements of operations for the three- and six-month periods ended June 30, 2008 and 2007, balance sheets as of June 30, 2008 and December 31, 2007, and statements of cash flows for the six-month periods ended June 30, 2008 and 2007, have been prepared in accordance with generally accepted accounting principles for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. Accordingly, these statements should be read in conjunction with the audited financial statements, and notes thereto, as of and for the year ended December 31, 2007 included in the Company's Annual Report on Form 10-K. In the opinion of management, the accompanying unaudited, consolidated condensed financial statements contain all adjustments, all of which were of a normal, recurring nature, necessary to present fairly, in all material respects, the consolidated financial position at June 30, 2008 and December 31, 2007 and the consolidated results of operations and of cash flows for the periods ended June 30, 2008 and 2007, and are not necessarily indicative of the results to be expected for the full year.

Certain prior year amounts have been reclassified to conform to the 2008 presentation.

Note 2 Common Stock

The reconciliation of the weighted average number of shares of Common Stock outstanding utilized for the earnings per common share computations are as follows:

| | For the Three-month period ended June 30, | | For the Six-month period ended June 30, | |
|--|---|-----------|---|-----------|
| | 2008 | 2007 | 2008 | 2007 |
| Weighted average number of shares of Common Stock outstanding | 6,707,523 | 6,642,655 | 6,685,368 | 6,631,981 |
| Effect of dilutive securities | 112,023 | 131,898 | 110,146 | 135,874 |
| Weighted average number of shares of Common Stock outstanding, as adjusted | 6,819,546 | 6,774,553 | 6,795,514 | 6,767,855 |

Note 3 Inventory

The major classes of inventory are as follows:

| <i>(dollars in thousands)</i> | June 30, 2008 | December 31, 2007 |
|---|------------------|----------------------|
| Raw materials and supplies | \$ 14,602 | \$ 8,309 |
| Semi-finished and finished steel products | 55,688 | 55,404 |
| Operating materials | 2,109 | 1,859 |
| Total inventory | \$ 72,399 | \$ 65,572 |

Table of Contents**Note 4 Property, Plant and Equipment**

Property, plant and equipment consists of the following:

| <i>(dollars in thousands)</i> | June 30, 2008 | December 31, 2007 |
|------------------------------------|------------------|----------------------|
| Land and land improvements | \$ 2,323 | \$ 2,208 |
| Buildings | 11,025 | 10,371 |
| Machinery and equipment | 69,926 | 66,432 |
| Construction in progress | 4,967 | 4,571 |
| | 88,241 | 83,582 |
| Accumulated depreciation | (30,884) | (29,311) |
| Property, plant and equipment, net | \$ 57,357 | \$ 54,271 |

Note 5 Long-Term Debt

The Company maintains a credit agreement with PNC Bank for a \$15.0 million revolving credit facility with a term expiring on June 30, 2009. There was no balance outstanding under the revolver at June 30, 2008 or December 31, 2007. The credit agreement included a term loan which the Company retired in December 2007. Interest on borrowings under the revolving credit facility is based on short-term market rates, which may be adjusted, based upon the Company maintaining certain financial ratios. PNC Bank also charges a commitment fee payable on the unused portion of the revolving credit facility of 0.25%, provided certain financial ratios are maintained. The Company is required to be in compliance with three financial covenants: a minimum leverage ratio, a minimum debt service ratio and minimum tangible net worth. The Company was in compliance with all such covenants at June 30, 2008.

The Company maintains two separate loan agreements with the Commonwealth of Pennsylvania's Department of Commerce with original principal balances aggregating \$600,000. A \$200,000 15-year loan bears interest at 5% per annum with the term ending in 2011 and a \$400,000 20-year loan bears interest at 6% per annum with the term ending in 2016. On February 14, 2002, Dunkirk Specialty Steel issued two ten-year, 5% interest-bearing notes payable to the New York Job Development Authority for the combined amount of \$3.0 million. The remaining unpaid balance of all government loans was \$1.6 million at June 30, 2008 and \$1.8 million at December 31, 2007.

Note 6 Commitments and Contingencies

From time to time, various lawsuits and claims have been or may be asserted against the Company relating to the conduct of our business, including routine litigation relating to commercial and employment matters. The ultimate cost and outcome of any litigation or claim cannot be predicted with certainty. Management believes, based on information presently available, that the likelihood that the ultimate outcome of any such pending matter will have a material adverse effect on our financial condition, or liquidity or a material impact to our results of operations is remote, although the resolution in any quarter of one or more of these matters may have a material adverse effect on our results of operations for the period in which the resolution occurs.

On May 31, 2007, the Company agreed to a complete settlement of an outstanding suit. Under the terms of the settlement, both parties released all claims against the other party in exchange for cash and other consideration resulting in a charge of \$800,000.

At June 30, 2008, the Company maintains reserves that it believes are adequate for outstanding product claims and legal actions

Note 7 Income Taxes

The tax rate used for interim periods is the estimated annual effective tax rate, based on the current estimate of full year results, except that taxes related to specific events, if any, are recorded in the interim period in which they occur.

The effective income tax rate in the three- and six-month periods ended June 30, 2008 was 33.0% as compared to 35.0% for the three- and six-month periods ended June 30, 2007. The effective income rate in the current period reflects a decrease in state income taxes and an increase

Edgar Filing: UNIVERSAL STAINLESS & ALLOY PRODUCTS INC - Form 10-Q

in the Company's permanent tax deductions related to investment tax credits that will be generated from capital improvements made at the Dunkirk facility in 2008.

Table of Contents**Note 8 Business Segments**

The Company is comprised of two business segments: Universal Stainless & Alloy Products, which consists of the Bridgeville and Titusville facilities, and Dunkirk Specialty Steel, the Company's wholly-owned subsidiary located in Dunkirk, New York. The Universal Stainless & Alloy Products manufacturing process involves melting, remelting, treating and hot and cold rolling of semi-finished and finished specialty steels. Dunkirk Specialty Steel's manufacturing process involves hot rolling and finishing of specialty steel bar, rod and wire products. The segment data are as follows (dollars in thousands):

| | For the Three-month period ended June 30, | | For the Six-month period ended June 30, | |

Note 9 Subsequent Event

On July 31, 2008 the Company terminated its participation in the Steelworkers Pension Trust, a multi-employer defined-benefit pension plan open to all hourly and salaried employees associated with the Bridgeville plant. Effective August 1, 2008, all company contributions for the

retirement benefit of the affected employees will be paid to their individual accounts in the existing 401(k) retirement plans.

Table of Contents**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**
Results of Operations

An analysis of the Company's operations for the three- and six-month periods ended June 30, 2008 and 2007 is as follows (dollars in thousands):

| | For the Three-month period ended June 30, | | For the Six-month period ended June 30, | |

| Selling and administrative expenses | 2,634 | 3,407 | 5,709 | 5,961 |
| Operating income | \$ 7,830 | \$ 9,207 | \$ 14,821 | \$ 19,872 |

Market Segment Information

| | For the Three-month period ended June 30, | | For the Six-month period ended June 30, | |
|----------------------------------|---|-----------|---|------------|
| | 2008 | 2007 | 2008 | 2007 |
| Net sales: | | | | |
| Service centers | \$ 33,850 | \$ 32,598 | \$ 63,084 | \$ 61,703 |
| Forgers | 11,142 | 13,744 | 20,160 | 26,318 |
| Rerollers | 9,240 | 8,658 | 20,479 | 15,850 |
| Original equipment manufacturers | 5,795 | 4,540 | 11,236 | 9,417 |
| Wire redrawers | 1,692 | 2,015 | 3,061 | 3,913 |
| Conversion services | 448 | 492 | 973 | 981 |
| Miscellaneous | 1,315 | 9 | 1,334 | 113 |
| Total net sales | \$ 63,482 | \$ 62,056 | \$ 120,327 | \$ 118,295 |
| Tons Shipped | 11,423 | 11,327 | 23,190 | 22,484 |

Three- and six-month periods ended June 30, 2008 as compared to the similar periods in 2007

Net sales for the three- and six-month period ended June 30, 2008 increased \$1.4 million and \$2.0 million, respectively, as compared to the similar periods in 2007. The increase for the three- and six-month periods ended June 30, 2008 is primarily due to an increased tonnage shipped of 1% and 3%, respectively, partially offset by lower surcharges, plus the sale of excess scrap that generated \$1.1 million of revenue during the three-month period ended June 30, 2008. Increased sales to service centers is primarily related to an increase in tool steel plate shipments more than offsetting lower shipments of vacuum-arc remelted (VAR) and other bar products. Lower shipments of VAR products also contributed to the decrease in sales to forgers. Increased shipments of finished bar, rod and wire products resulted in higher sales to OEMs. The six-month period ended June 30, 2008 also benefitted from increased shipments to rerollers.

Table of Contents

Cost of products sold, as a percentage of net sales, was 83.5% and 79.7% for the three-month periods ended June 30, 2008 and 2007, respectively, and was 82.9% and 78.2% for the six-month periods ended June 30, 2008 and 2007, respectively. The increase for the three- and six-month periods ended June 30, 2008 in comparison to the prior year periods is a result of the relationship of raw material surcharges assessed against material costs more fully discussed in the Dunkirk Specialty Steel Segment results below. In addition, cost of products sold was impacted by a net inventory charge for the three- and six-month periods ended June 30, 2008 of \$1.5 million as compared to a \$1.0 million charge for the three- and six-month periods ended June 30, 2007. The net inventory charge is related to declines in nickel prices in each period.

Selling and administrative expenses decreased by \$773,000 and \$252,000 in the three- and six-month periods ended June 30, 2008, respectively, as compared to the similar periods in 2007. These decreases are primarily due to the \$800,000 charge related to the settlement of a lawsuit between the Company and Teledyne Technologies Incorporated (Teledyne) during the three-month period ended June 30, 2007. For the six-month period ended June 30, 2008, the decrease was partially offset by an increase in stock-based compensation expense, additional costs incurred as a result of complying with the Sarbanes-Oxley Section 404 requirements for the first time as of December 31, 2007, and higher legal fees resulting from the Company's defense of a contractor litigation matter.

Interest expense and other financing costs decreased by \$168,000 for the three-month period ended June 30, 2008 as compared to the three-month period ended June 30, 2007 and decreased by \$367,000 for the six-month period ended June 30, 2008 as compared to the six-month period ended June 30, 2007. The decreases were primarily due to not having to borrow on the Company's revolving credit facility since August 2007 and the December 2007 retirement of the PNC Term Loan.

The effective income tax rate utilized in the three- and six-month periods ended June 30, 2008 was 33.0% as compared to 35.0% for the three- and six-month periods ended June 30, 2007. The effective income rate in the current period reflects a decrease in state income taxes and an increase in the Company's permanent tax deductions related to investment tax credits that will be generated from capital improvements made at the Dunkirk facility in 2008.

Business Segment Results

An analysis of net sales and operating income for the reportable segments for the three- and six-month periods ended June 30, 2008 and 2007 is as follows (dollars in thousands):

Universal Stainless & Alloy Products Segment

| | For the Three-month period ended June 30, | | For the Six-month period ended June 30, | |
|-------------------------------------|---|-----------|---|-----------|
| | 2008 | 2007 | 2008 | 2007 |
| Net sales: | | | | |
| Stainless steel | \$ 28,901 | \$ 30,804 | \$ 56,211 | \$ 55,800 |
| Tool steel | 11,278 | 6,111 | 19,702 | 12,270 |

Table of Contents

Net sales for the three- and six-month periods ended June 30, 2008 for this segment, which consists of the Bridgeville and Titusville facilities, decreased by \$2.0 million, or 3.6%, in comparison to the three-month period ended June 30, 2007 and \$2.0 million, or 1.9%, in comparison to the similar 2007 six-month period. Tons shipped declined 8% for the three-month period ended June 30, 2008 in comparison to the similar 2007 period. Higher shipments of tool steel plate to service centers partially offset lower shipments of semi-finished products to forgers and rollers, including intersegment sales to the Dunkirk Specialty Steel Segment, and of bar products to service centers. Tons shipped declined 1% for the six-month period ended June 30, 2008 in comparison to the similar 2007 period. Higher shipments of tool steel plate to service centers and semi-finished products to rollers partially offset lower shipments of semi-finished products to forgers and bar products to service centers. Lower raw material surcharges also impacted sales, led by a decrease in average nickel prices during the three- and six-month periods ended June 30, 2008 in comparison to the similar periods in 2007. In addition, sales for the three- and six-month periods ended June 30, 2008 benefitted from the sale of excess scrap that generated \$1.1 million of revenue.

Operating income remained level for the three-month period ended June 30, 2008 as compared to June 30, 2007 and decreased by \$2.4 million, or 18.8%, for the six-month period ended June 30, 2008 in comparison to the similar 2007 six-month period. These results were primarily impacted by the change in mix of products described above. In addition, operating income for the three- and six-month periods ended June 30, 2008 were negatively impacted by a \$1.2 million increase to its lower-of-cost-or-market reserve and the three- and six-month periods ended June 30, 2007 were negatively impacted by \$1.3 million for the settlement of a lawsuit between the Company and Teledyne and a net inventory adjustment mainly due to increased reserves related to the decline in nickel prices in June 2007.

Dunkirk Specialty Steel Segment

| | For the Three-month period ended June 30, | | For the Six-month period ended June 30, | |
|-------------------------------------|---|-----------|---|-----------|
| | 2008 | 2007 | 2008 | 2007 |
| Net sales: | | | | |
| Stainless steel | \$ 14,859 | \$ 14,324 | \$ 29,577 | \$ 28,898 |
| Tool steel | 381 | 333 | 1,064 | 1,271 |
| High-strength low alloy steel | 1,820 | 3,750 | 4,718 | 5,984 |
| High-temperature alloy steel | 2,415 | 1,439 | 2,992 | 2,954 |
| Conversion services | 152 | 167 | 320 | 329 |
| Other | 75 | 29 | 93 | 47 |
| | 19,702 | 20,042 | 38,764 | 39,483 |
| Intersegment | 1,474 | 1,279 | 2,462 | 2,278 |
| Total net sales | 21,176 | 21,321 | 41,226 | 41,761 |
| Material cost of sales | 13,126 | 12,048 | 24,965 | 23,244 |
| Operation cost of sales | 5,159 | 4,719 | 9,648 | 9,306 |
| Selling and administrative expenses | 765 | 836 | 1,702 | 1,672 |
| Operating income | \$ 2,126 | \$ 3,718 | \$ 4,911 | \$ 7,539 |

Net sales for the three- and six-month periods ended June 30, 2008 for this segment remained level in comparison to the three-month period ended June 30, 2007 and \$0.5 million, or 1.3%, in comparison to the similar 2007 six-month period. Tons shipped increased 4% and 3%, respectively, for the three- and six-month periods ended June 30, 2008 in comparison to the similar 2007 periods. Higher shipments of finished rod and wire products to service centers and OEMs and of finished bar products to OEMs, offset lower shipments of vacuum-arc remelted finished bar products to service centers. Lower raw material surcharges also impacted sales, led by a decrease in average nickel prices during the three- and six-month periods ended June 30, 2008 in comparison to the similar 2007 periods.

Operating income for the three- and six-month periods ended June 30, 2008 decreased \$1.6 million, or 42.8%, and \$2.6 million, or 34.9%, in comparison to the three- and six-month periods ended June 30, 2007 primarily due to the impact from nickel price fluctuations. For this segment, raw material surcharges are primarily assessed at the time of shipment while the material cost of those shipments is determined at the time of order entry. Based upon the timing of surcharges assessed, the Company estimates Dunkirk generated an operating income benefit of \$1.2 million and \$2.4 million for the three- and six-month periods ended June 30, 2007 in comparison to an operating income charge of \$0 and \$157,000 for the three- and six-month periods ended June 30, 2008.

Table of Contents**Liquidity and Capital Resources**

The Company has financed its operating activities through cash on hand at the beginning of the period. At June 30, 2008, working capital approximated \$94.6 million as compared to \$85.9 million at December 31, 2007. The increase in inventory, principally raw materials, was offset by the increase in accounts payable. The increase in raw materials will be used to support an increase in future production. Inventory levels in comparison to quarterly cost of sales declined from 143 days at December 31, 2007 to 123 days at June 30, 2008. The decline is primarily attributable to lower sales/cost of sales activity in the fourth quarter of 2007. Accounts receivable increased \$7.1 million, or 26%, as a result of a 28% increase in sales for the three-month period ended June 30, 2008 in comparison to the three-month period ended December 31, 2007. The ratio of current assets to current liabilities decreased from 4.7:1 at December 31, 2007 to 4.0:1 at June 30, 2008. The debt to total capitalization ratio was 1.2% at June 30, 2008 and 1.4% at December 31, 2007.

Cash received from sales of \$63.2 million and \$112.4 million for the three- and six-month periods ended June 30, 2008 and of \$59.8 million and \$112.6 million for the three- and six-month periods ended June 30, 2007 represent the primary source of cash from operations. An analysis of the primary uses of cash is as follows (dollars in thousands):

| | For the Three-month period ended June 30, | | For the Six-month period ended June 30, | |
|------------------------|---|-----------|---|------------|
| | 2008 | 2007 | 2008 | 2007 |
| Raw material purchases | \$ 32,185 | \$ 28,502 | \$ 56,506 | \$ 52,629 |
| Employment costs | 8,335 | 8,145 | 20,179 | 18,890 |
| Utilities | 4,842 | 5,151 | 9,954 | 10,278 |
| Other | 13,149 | 16,382 | 20,840 | 26,722 |
| Total uses of cash | \$ 58,511 | \$ 58,180 | \$ 107,479 | \$ 108,519 |

Cash used in raw material purchases increased in 2008 in comparison to 2007 primarily due to higher quantities of molybdenum purchased to support increased production of tool steel plate and of rod product to support increased shipments of wire products in Dunkirk. The Company continuously monitors market price fluctuations of its key raw materials. The following table reflects the average market value per pound for selected months during the last eighteen-month period.

| | June 2008 | December 2007 | June 2007 | December 2006 |
|--------------|--------------|------------------|--------------|------------------|
| Nickel | \$ 10.23 | \$ 11.79 | \$ 18.92 | \$ 15.68 |
| Chrome | \$ 2.19 | \$ 1.66 | \$ 1.27 | \$ 0.64 |
| Molybdenum | \$ 33.22 | \$ 32.54 | \$ 32.65 | \$ 24.87 |
| Carbon scrap | \$ 0.34 | \$ 0.14 | \$ 0.13 | \$ 0.10 |

The market values for these raw materials and others continue to fluctuate based on supply and demand, market disruptions and other factors. The Company maintains sales price surcharge mechanisms, priced at time of shipment, to mitigate the risk of substantial raw material cost fluctuations. There can be no assurance that these sales price adjustments will completely offset the Company's raw material costs.

Increased employment costs are primarily due to increased payouts under the Company's profit sharing and other incentive compensation plans, and higher employee-related insurance costs. Lower utility costs are primarily due to reduced consumption of electricity resulting from a decrease in vacuum-arc remelting production at the Bridgeville and Titusville facilities. The decrease in other uses of cash, the majority of which is cash for outside conversion services, plant maintenance and production supplies, is directly attributable to support lower production volumes. In addition, payments for income taxes for the six-month period ended June 30, 2008 decreased by \$3.3 million over the same period in 2007.

The Company had capital expenditures for the six-month period ended June 30, 2008 of \$5.4 million compared with \$2.9 million for the same period in 2007. The 2008 expenditures were primarily for Bridgeville plant improvements and the construction of the high temperature annealing system at the Dunkirk facility. Most of the 2007 expenditures were used to refurbish and equip an office building at the Bridgeville Facility that now represents the Company's corporate office.

Edgar Filing: UNIVERSAL STAINLESS & ALLOY PRODUCTS INC - Form 10-Q

The Company maintains a credit agreement with PNC Bank for a \$15.0 million revolving credit facility with the term expiring June 30, 2009. At June 30, 2008, the Company had all of its \$15.0 million revolving line of credit with PNC Bank available for borrowings. The Company is required to be in compliance with three financial covenants: a minimum leverage ratio, a minimum debt service ratio and minimum tangible net worth. The Company is in compliance with all such covenants as of June 30, 2008.

The Company does not maintain off-balance sheet arrangements other than operating leases nor does it participate in non-exchange traded contracts requiring fair value accounting treatment or material related-party transaction arrangements.

Table of Contents

The Company anticipates that it will fund its 2008 working capital requirements and its capital expenditures primarily from funds generated from operations, borrowings and stock issuances resulting from the exercise of outstanding stock options. Financing the Company's long-term liquidity requirements, including capital expenditures, are expected from a combination of internally generated funds, borrowings and other sources of external financing, if needed.

Critical Accounting Policies

Revenue recognition is the most critical accounting policy of the Company. Revenue from the sale of products is recognized when both risk of loss and title have transferred to the customer, which in most cases coincides with shipment of the related products, and collection is reasonably assured. The Company manufactures specialty steel product to customer purchase order specifications and in recognition of requirements for product acceptance. Material certification forms are executed, indicating compliance with the customer purchase orders, before the specialty steel products are packed and shipped to the customer. Occasionally customers request that the packed products be held at the Company's facility beyond the stated shipment date. In these situations, the Company receives written confirmation of the request, acknowledgement that title has passed to the customer and that normal payment terms apply. The impact on revenue was less than 1% of net sales in each period presented.

Revenue from conversion services is recognized when the performance of the service is complete. Invoiced shipping and handling costs are also accounted for as revenue.

In addition, management constantly monitors the ability to collect its unpaid sales invoices and the valuation of its inventory. The allowance for doubtful accounts includes specific reserves for the value of outstanding invoices issued to customers currently operating under the protection of the federal bankruptcy law and other amounts that are deemed potentially not collectible along with a reserve equal to 15% of 90-day or older balances not specifically reserved. However, the total reserve will not be less than 1% of trade accounts receivable. An inventory reserve is provided for material on hand for which management believes cost exceeds fair market value and for material on hand for more than one year not assigned to a specific customer order.

Long-lived assets are reviewed for impairment annually by each operating facility. An impairment write-down will be recognized whenever events or changes in circumstances indicate that the carrying value may not be recoverable through estimated future undiscounted cash flows.

Based on management's assessment of the carrying values of such long-lived assets, no impairment reserve had been deemed necessary as of June 30, 2008 and 2007. Retirements and disposals are removed from cost and accumulated depreciation accounts, with the gain or loss reflected in operating income.

In addition, management assesses the need to record a valuation allowance to reduce deferred tax assets to the amount that is more likely than not to be realized. The Company believes it will generate sufficient income in addition to taxable income generated from the reversal of its temporary differences to utilize the deferred tax assets recorded at June 30, 2008.

2008 Outlook

These are forward-looking statements for purposes of the Private Securities Litigation Reform Act of 1995 and actual results may vary.

The Company estimates that third quarter 2008 sales will range from \$60 to \$65 million and that diluted EPS will range from \$0.70 to \$0.75. This compares with sales of \$62.0 million and diluted EPS of \$0.81 in the third quarter of 2007. The following factors were considered in developing these estimates:

The Company's firm backlog at June 30, 2008 approximated \$97 million compared to \$88 million at March 31, 2008. The increased backlog is primarily attributable to demand for the Company's tool steel plate and electro-slag remelted products.

Sales from the Dunkirk Specialty Steel segment are expected to approximate \$19 million on shipment volumes that are expected to approximate the 2007 third quarter level. The reduction in revenues is expected to be a result of lower surcharges anticipated due to the decline in the market value of nickel, which also is expected to eliminate the first-in, first-out inventory accounting method benefit the Company has experienced mainly in the Dunkirk segment as a result of rising nickel prices in 2007.

Edgar Filing: UNIVERSAL STAINLESS & ALLOY PRODUCTS INC - Form 10-Q

The Company has initiated a project to relocate the round bar finishing facility from Bridgeville to Dunkirk. The estimated cost of relocating the equipment of \$800,000, or \$0.08 per diluted share, will be expensed as incurred. The Company expects the relocation project to be complete and all costs recognized by September 30, 2008.

Table of Contents

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company has reviewed the status of its market risk and believes there are no significant changes from that disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2007, except as provided in this Form 10-Q in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 4. CONTROLS AND PROCEDURES

The Company's management, including the Company's Chief Executive Officer and the Vice President of Finance, Chief Financial Officer and Treasurer, performed an evaluation of the effectiveness of the Company's disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and the Vice President of Finance, Chief Financial Officer and Treasurer concluded that, as of the end of the fiscal period covered by this quarterly report, the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed in reports filed or submitted by the Company under the Exchange Act is recorded, processed, summarized and reported within the time limits specified in the SEC rules and forms, and that information required to be disclosed by the Company is accumulated and communicated to the Company's management to allow timely decisions regarding the required disclosure. During the quarter ended June 30, 2008, there were no changes in the Company's internal control over financial reporting which have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

There are no material changes from the legal proceedings disclosed in Item 3. of the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

Item 1A. RISK FACTORS

There are no material changes from the risk factors disclosed in Item 1A. of the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

Item 3. DEFAULTS UPON SENIOR SECURITIES

None.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Annual Meeting of Stockholders of Universal Stainless & Alloy Products, Inc. was held on May 21, 2008, for the purpose of electing a board of directors and ratifying the appointment of an independent registered public accounting firm for 2008. Proxies for the meeting were solicited pursuant to section 14(a) of the Securities Exchange Act of 1934, and there was no solicitation in opposition to management's solicitation.

All of the management's nominees for directors as listed in the proxy statement were elected by the following vote:

Edgar Filing: UNIVERSAL STAINLESS & ALLOY PRODUCTS INC - Form 10-Q

| | Shares Voted For | Shares Withheld |
|-----------------|------------------|-----------------|
| D. M. Dunn | 5,981,906 | 204,607 |
| M. D. Kornblatt | 5,325,872 | 860,641 |
