SUBJECT: Catalyst Semiconductor and ON Semiconductor Pending Merger Message to Catalyst Customers from ON's President and CEO Keith Jackson

As the President and CEO of ON Semiconductor, it is my privilege to inform you that we are making fast progress on all fronts aimed at closing the acquisition of Catalyst Semiconductor. Catalyst will bring a healthy EEPROM business and growing analog/mixed-signal product lines to complement ON Semiconductor's ASIC and power product offerings, addressing our mutual goal to more comprehensively address your future technology requirements.

It is ON Semiconductor's intent to nurture Catalyst's already strong business base and provide the resources to grow it even more quickly. I want to assure you that, after the acquisition is completed, we have no plans to take any integration steps that could impede this growth or hamper our support of your business, product and support needs.

Our most important focus will be to make the merger seamless from your perspective, enabling you to continue conducting business easily and efficiently for both Catalyst and ON Semiconductor-brand products. Our objective is minimum change for maximum customer support and growth.

To this end, we plan to retain the Catalyst brand for all E²PROM products under the ON Semiconductor Corporation umbrella and Catalyst will operate as a business group within ON Semiconductor. This means Catalyst part numbers would remain unchanged and we would not expect to EOL (end-of-life) any Catalyst products as a result of the acquisition. Additionally, all supply-chain activities (including quotes, POs, credit terms, order fulfillment, shipping, invoicing and payment) for Catalyst products would remain unchanged for now. In essence, we are planning for business as usual.

As a fabless company, we plan to have Catalyst continue manufacturing at its existing outsourced foundries. Be assured that any potential future front-end or back-end manufacturing changes would be implemented with a standard transition process and detailed communications to provide sufficient time to qualify new foundries and vendors as necessary.

Upon completion of the pending merger, your new ON Semiconductor Account Management team will contact you to answer any questions and address any issues you may have.

On behalf of the entire ON Semiconductor team, I would like to thank you for your continuing business and look forward to providing you with the products, service and support you expect from a world-class semiconductor supplier.

Sincerely,

Keith Jackson

President and CEO
