ITEM 8.01 OTHER EVENTS

On July 1, 2010, BGC Partners, Inc. (the Registrant or we or BGC Partners or the Company) made the following updates to its existing disclosure:

PARTNERSHIP REDEMPTION AND COMPENSATION RESTRUCTURING PROGRAM AND STOCK SALES:

As previously described in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2010, we are conducting a global partnership redemption and compensation restructuring program to enhance our employment arrangements by leveraging our unique partnership structure. Launched initially in the UK in the first quarter of 2010, the program was expanded to partners based primarily in the United States and Asia in the second quarter of 2010.

Under the ongoing partnership redemption and compensation restructuring program, participating partners generally agree to extend the lengths of their employment agreements, to accept a larger portion of their compensation in partnership units and to other contractual modifications sought by the Company. Also as part of this program, we redeem limited partnership units for cash and other units and grant exchangeability to certain units. At the same time, the Company sells shares of Class A Common Stock under its offsetting controlled equity offering. In general, during the month of June 2010, the Company redeemed approximately 3.3 million limited partnership units under the program and sold approximately 3.2 million shares under our controlled equity offering to offset the cost of the program.

Overall, since March 31, 2010, the Company has agreed (i) to redeem approximately 15.4 million REUs and RPU, for an equal number of PSUs and PSIs; (ii) to grant exchangeability with respect to approximately 4.5 million PSUs and PSIs, of which the holders of approximately 3.5 million have elected to receive cash for such units, approximately 2.5 million of which have been redeemed as part of the 3.3 million limited partnership units discussed in the prior paragraph. Further, the holders of approximately 0.4 million PSUs and PSIs have requested exchange of their units for an equal number of shares of Class A Common Stock. In addition, holders of approximately 1.5 million Founding Partner Units have agreed to receive cash for such units (approximately 0.8 million of which were redeemed in June and are included in the 3.3 million limited partnership units discussed in the prior paragraph). Holders of approximately 1.3 million Founding Partner Units received exchangeability for such units, of which the holders of approximately 0.4 million of these units have requested exchange of their units for an equal number of shares of Class A Common Stock. In the aggregate, the cash payments are expected to settle in the third quarter of 2010 while the other aspects of the transaction have been recorded as of June 30, 2010.

Specifically, with respect to the second quarter of 2010, the impact of this portion of the partnership redemption and compensation restructuring program is expected to be as follows: The number of limited partnership units outstanding will be reduced for June 30, 2010 by approximately 3.3 million in connection with this portion of the

program. As a result of the Company's ongoing controlled equity offering, the Company's outstanding shares of Class A Common Stock will increase by approximately 3.2 million shares. The Company's fully diluted share count will remain substantially unchanged as a result of these transactions.

The Company's cash expenditure for the third quarter of 2010 with respect to the partners who have elected to receive cash for their units at the June 2010 average share price is expected to be approximately \$18.8 million before the offset of the proceeds from the June sales of shares in the controlled equity offering. This represents an average cash redemption price per unit for June of approximately \$5.61. At the same time, the Company's controlled equity offering in which the Company sold an aggregate of approximately 3.2 million shares in June 2010, produced approximately \$18.1 million of net cash proceeds in the second quarter of 2010, resulting in weighted average net proceeds per share for June of approximately \$5.60.

Charges with respect to grants of exchangeability of partnership units of approximately \$27.0 million will be included in the second quarter of 2010 for GAAP purposes. These charges will not be included in the Company's calculation of its non-GAAP financial measure of distributable earnings for the second quarter of 2010, as described below, because such grants of exchangeability are non-cash, non-dilutive and non-economic.

OUTLOOK FOR THE SECOND QUARTER:

We expect to generate distributable earnings revenues around the high end of the previously announced range of \$320 million to \$340 million for the second quarter of 2010. We also expect that second quarter 2010 post-tax distributable earnings will be around the high end of the previously announced range of \$32 million to \$38 million. These calculations assume an effective tax rate of 15% for the second quarter for distributable earnings purposes and are based on our previously announced definition of distributable earnings.

BGC Partners uses non-GAAP financial measures including Revenues for distributable earnings, pre-tax distributable earnings and post-tax distributable earnings as supplemental measures of operating performance and which are used by management to evaluate the financial

performance of the Company and its subsidiaries. BGC Partners believe that distributable earnings best reflects the operating earnings generated by the Company on a consolidated basis and are the earnings which management considers available for distribution to BGC Partners, Inc. and its common stockholders as well as to holders of BGC Holdings, L.P. partnership units during any period. As compared with income (loss) from continuing operations before income taxes, net income (loss) for fully diluted shares, and fully diluted earnings (loss) per share, all prepared in accordance with GAAP, distributable earnings calculations exclude certain non-cash compensation and other expenses which generally do not involve the receipt or outlay of cash by BGC Partners, and which do not dilute existing stockholders, and which do not have economic consequences, as described below.

Revenues for distributable earnings are defined as GAAP revenues excluding the impact of BGC Partners' pro rata share of earnings or losses from its equity investments, such as in Aqua Securities, L.P. (Aqua) and ELX Electronic Liquidity Exchange (ELX).

Pre-tax distributable earnings are defined as GAAP income (loss) from continuing operations before income taxes excluding non-cash, non-dilutive, and non-economic items, including, for example:

Non-cash stock based equity compensation charges, for REUs granted or issued prior to the merger of BGC Partners with and into eSpeed, as well as post-merger non-cash, non-dilutive equity-based compensation related to partnership unit exchange or conversion;

Allocation of net income to founding/working partner and other units, including REUs, RPU, PSUs and PSIs; and

Non-cash asset impairment charges, if any.

Distributable earnings calculations also exclude charges related to repurchases, cancellations or redemptions of partnership interests and certain one-time or non-recurring items, if any.

Since distributable earnings are calculated on a pre-tax basis, management intends to also report post-tax distributable earnings and post-tax distributable earnings per fully diluted share :

Post-tax distributable earnings are defined as pre-tax distributable earnings adjusted to assume that all pre-tax distributable earnings were taxed at the same effective rate.

Post-tax distributable earnings per fully diluted share are defined as post-tax distributable earnings divided by the weighted average number of fully diluted shares for the period. In the event that there is a GAAP loss but positive distributable earnings, the distributable earnings per share calculation will include all fully diluted shares that would be excluded under GAAP to avoid anti-dilution.

LEGAL PROCEEDINGS:

On June 18, 2010, the District Court in the New Jersey case brought by Tullett Prebon plc against the Company in October 2009 dismissed Tullett's complaint with prejudice. The case and the related arbitration proceeding are summarized in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2010.

REGISTRATION STATEMENT:

The Company expects to file a resale Registration Statement on Form S-3 with respect to 3,500,000 shares of Class A Common Stock which may be sold by Cantor Fitzgerald, L.P. (Cantor) for the account of certain current and former partners of Cantor and/or by such current and former partners, as distributees of shares of Class A Common Stock from Cantor, from time to time on a delayed or continuous basis. The primary purpose of this Registration Statement is to enable such current and former partners of Cantor an opportunity to register certain distribution rights shares which they have a right to acquire from Cantor at certain periods following the merger on April 1, 2008. These shares were part of such partners' consideration in the 2008 merger and have been previously disclosed.

While Cantor is nominally listed as a Selling Stockholder, it will not sell shares for its own account under the Registration Statement.
