Table of Contents**MATTEL, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****1. Basis of Presentation**

The accompanying unaudited consolidated financial statements and related disclosures have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. In the opinion of management, all adjustments, consisting of only those of a normal recurring nature, considered necessary for a fair presentation of the financial position and interim results of Mattel, Inc. and its subsidiaries (Mattel or the Company) as of and for the periods presented, have been included. Because Mattel s business is seasonal, results for interim periods are not necessarily indicative of those that may be expected for a full year.

The year-end balance sheet data was derived from audited financial statements, however, the accompanying interim notes to the consolidated financial statements do not include all disclosures required by accounting principles generally accepted in the United States of America.

The financial information included herein should be read in conjunction with Mattel s consolidated financial statements and related notes in its 2009 Annual Report on Form 10-K.

2. Accounts Receivable

Accounts receivable are net of allowances for doubtful accounts of \$19.7 million, \$25.5 million, and \$24.5 million as of June 30, 2010, June 30, 2009, and December 31, 2009, respectively.

3. Inventories

Inventories include the following:

	June 30, 2010	June 30, 2009 (In thousands)	December 31, 2009
Raw materials and work in process	\$ 95,761	\$ 88,933	\$ 47,991
Finished goods	501,853	500,621	307,672
	\$ 597,614	\$ 589,554	\$ 355,663

4. Property, Plant, and Equipment

Property, plant, and equipment, net include the following:

	June 30, 2010	June 30, 2009 (In thousands)	December 31, 2009
Land	\$ 26,706	\$ 26,635	\$ 26,664

	1,845,480	1,811,257	1,823,060
Less: accumulated depreciation	(1,359,454)	(1,289,036)	(1,318,252)
	\$ 486,026	\$ 522,221	\$ 504,808

Table of Contents**5. Goodwill**

Goodwill is allocated to various reporting units, which are either at the operating segment level or one reporting level below the operating segment level, for purposes of evaluating whether goodwill is impaired. Mattel's reporting units are: Mattel Girls Brands US, Mattel Boys Brands US, Fisher-Price Brands US, American Girl Brands, and International. Mattel tests its goodwill for impairment annually in the third quarter, and whenever events or changes in circumstances indicate that the carrying value may not be recoverable, based on the fair value of the cash flows that the reporting units can be expected to generate in the future.

The change in the carrying amount of goodwill by reporting unit for the six months ended June 30, 2010 is shown below. Brand-specific goodwill held by foreign subsidiaries is allocated to the US reporting units selling those brands, thereby causing foreign currency translation impact for the US reporting units.

	December 31, 2009	Impact of Currency Exchange Rate Changes (In thousands)	June 30, 2010
Mattel Girls Brands US	\$ 32,082	\$ (2,220)	\$ 29,862
Mattel Boys Brands US	130,737	(173)	130,564

Accrued liabilities include the following:

	June 30, 2010	June 30, 2009 (In thousands)	December 31, 2009
Royalties	\$ 59,359	\$ 41,294	\$ 73,467
Taxes other than income taxes	37,454	30,935	70,817
Advertising and promotion	31,162	20,155	47,913
Derivatives payable	13,020	27,750	21,032

Edgar Filing: MATTEL INC /DE/ - Form 10-Q

Other	280,882	317,127	404,652
	\$ 421,877	\$ 437,261	\$ 617,881

Table of Contents**8. Product Recalls**

During 2007, Mattel recalled products with high-powered magnets that may become dislodged and other products, some of which were produced using non-approved paint containing lead in excess of applicable regulatory and Mattel standards. During the second half of 2007, additional products were recalled, withdrawn from retail stores, or replaced at the request of consumers as a result of safety or quality issues (collectively, the 2007 Product Recalls).

Following the announcement of the 2007 Product Recalls, a number of lawsuits were filed against Mattel with respect to the recalled products, which are more fully described in Note 14 to the Consolidated Financial Statements in Mattel's 2009 Annual Report on Form 10-K and Note 23,

Contingencies, of this Quarterly Report on Form 10-Q. During the three and six months ended June 30, 2009, Mattel recorded charges of \$1.1 million and \$22.0 million, respectively, to reserve for the settlement of a portion of the above-described product liability related litigation. Additionally, during the three months ended June 30, 2009, Mattel recorded a \$6.0 million benefit from an insurance recovery for product liability-related litigation. During the three and six months ended June 30, 2010, Mattel reduced its estimate of these settlement costs, which had the effect of reducing other selling and administrative expenses by \$1.2 million and \$8.7 million, respectively, primarily based on actual experience under the settlement program.

Although management is not aware of any additional quality or safety issues that are likely to result in material recalls or withdrawals, there can be no assurance that additional issues will not be identified in the future.

9. Restructuring Charges

During the second quarter of 2008, Mattel initiated its Global Cost Leadership program, which is designed to improve operating efficiencies and leverage Mattel's global scale to improve profitability and operating cash flows. The major initiatives within Mattel's Global Cost Leadership program include:

A global reduction in Mattel's professional workforce of approximately 1,000 employees that was initiated in November 2008, and an additional reduction in Mattel's professional workforce initiated in the third quarter of 2009.

A coordinated efficiency strategic plan that includes structural changes designed to lower costs and improve efficiencies; for example, offshoring and outsourcing certain back office functions, and more clustering of management in international markets.

Additional procurement initiatives designed to fully leverage Mattel's global scale in areas such as creative agency partnerships, legal services, and distribution, including ocean carriers and over-the-road freight vendors.

In connection with the Global Cost Leadership program, Mattel recorded severance and other termination-related charges of \$8.7 million and \$11.0 million during the three and six months ended June 30, 2010, respectively, and \$2.5 million and \$7.2 million during the three and six months ended June 30, 2009, respectively, which are included in other selling and administrative expenses.

The following table summarizes Mattel's severance and other termination costs activity for the six months ended June 30, 2010 and 2009 (in thousands):

	Reserves at December 31, 2009	Additional Expenses Incurred	Payments	Reserves at June 30, 2010
Severance	\$ 18,783	\$ 11,032	\$ (14,143)	\$ 15,672
Other termination costs	225	7	(88)	144
	\$ 19,008	\$ 11,039	\$ (14,231)	\$ 15,816

Table of Contents

	Reserves at December 31, 2008	Additional Expenses Incurred	Payments	Reserves at June 30, 2009
Severance	\$ 17,115	\$ 7,199	\$ (16,580)	\$ 7,734
Other termination costs	881		(407)	474
	\$ 17,996	\$ 7,199	\$ (16,987)	\$ 8,208

10. Long-term Debt

Long-term debt includes the following:

	June 30, 2010	June 30, 2009 (In thousands)	December 31, 2009
Medium-term notes due October 2010 to November 2013	\$ 160,000	\$ 210,000	\$ 200,000
2006 Senior Notes due June 2011	200,000	200,000	200,000
2008 Senior Notes due March 2013	350,000	350,000	350,000
	710,000	760,000	750,000
Less: current portion	(250,000)	(50,000)	(50,000)
	\$ 460,000	\$ 710,000	\$ 700,000

In November 2009 and May 2010, Mattel repaid \$10.0 million and \$40.0 million, respectively, of its Medium-term notes in connection with their scheduled maturity.

11. Other Noncurrent Liabilities

Other noncurrent liabilities include the following:

	June 30, 2010	June 30, 2009 (In thousands)	December 31, 2009
Benefit plan liabilities	\$ 248,262	\$ 285,412	\$ 255,234

	\$ (448,179)	\$ (376,172)	\$ (379,534)

Currency Translation Adjustments

Mattel's reporting currency is the US dollar. The translation of its results of operations and financial position of subsidiaries with non-US dollar functional currencies subjects Mattel to currency exchange rate fluctuations in its results of operations and financial position. Assets and liabilities of subsidiaries with non-US dollar functional currencies are translated into US dollars at fiscal period-end exchange rates. Income, expense, and cash flow items are translated at weighted average exchange rates prevailing during the fiscal period. The resulting currency translation adjustments are recorded as a component of accumulated other comprehensive loss within stockholders' equity. For the six months ended June 30, 2010, currency translation adjustments resulted in a net loss of \$106.6 million, with losses primarily from the weakening of the Euro, British pound sterling, Brazilian real, and Chilean peso against the US dollar, partially offset from the strengthening of the Mexican peso against the US dollar. For the six months ended June 30, 2009, currency translation adjustments resulted in a net gain of \$63.1 million, with gains primarily from the strengthening of the Mexican peso, Indonesian rupiah, Brazilian real, British pound sterling, Chilean peso, and Euro against the US dollar.

13. Derivative Instruments

Mattel seeks to mitigate its exposure to foreign currency transaction risk by monitoring its foreign currency transaction exposure for the year and partially hedging such exposure using foreign currency forward exchange contracts. Mattel uses foreign currency forward exchange contracts as cash flow hedges primarily to hedge its purchases and sales of inventory denominated in foreign currencies. These contracts generally have maturity dates up to 18 months. These derivative instruments have been designated as effective cash flow hedges, whereby the unsettled hedges are reported in Mattel's consolidated balance sheets at fair value, with changes in the fair value of the hedges reflected in other comprehensive income (OCI). Realized gains and losses for these contracts are recorded in the consolidated statements of operations in the period in which the inventory is sold to customers. Additionally, Mattel uses foreign currency forward exchange contracts to hedge intercompany loans and advances denominated in foreign currencies. Due to the short-term nature of the contracts involved, Mattel does not use hedge accounting for these contracts, and as such, changes in fair value are recorded in the period of change in the consolidated statements of operations. As of June 30, 2010, Mattel held foreign currency forward exchange contracts with notional amounts of approximately \$1.10 billion.

In connection with the issuance of its \$100.0 million 2006 unsecured floating rate senior notes (Floating Rate Senior Notes), Mattel entered into two interest rate swap agreements, each in a notional amount of \$50.0 million, for the purpose of hedging the variability of cash flows in the interest payments due to fluctuations of the US Dollar London Interbank Offered Rate (LIBOR) benchmark interest rate. The two interest rate swap agreements expired in June 2009, which corresponded with the maturity of the Floating Rate Senior Notes. These derivative instruments were designated as effective cash flow hedges, whereby the hedges were reported in Mattel's consolidated balance sheets at fair value, with changes in the fair value of the hedges reflected in OCI. Under the terms of the agreements, Mattel received quarterly interest payments from the swap

Table of Contents

counterparties based on the three-month LIBOR plus 40 basis points and made semi-annual interest payments to the swap counterparties based on a fixed rate of 5.871%. The three-month LIBOR used to determine interest payments under the interest rate swap agreements reset every three months, matching the variable interest on the Floating Rate Senior Notes.

The following table presents Mattel's derivative assets and liabilities (in thousands):

	Balance Sheet Classification	Asset Derivatives		
		June 30, 2010	Fair Value June 30, 2009	December 31, 2009
Derivatives designated as hedging instruments				
Foreign currency forward exchange contracts	Prepaid expenses and other current assets	\$ 30,802	\$ 14,943	\$ 7,008
Foreign currency forward exchange contracts	Other noncurrent assets	911	982	962
Total derivatives designated as hedging instruments		\$ 31,713	\$ 15,925	\$ 7,970
Derivatives not designated as hedging instruments				
Foreign currency forward exchange contracts	Prepaid expenses and other current assets	\$	\$	\$ 2,222
Total		\$ 31,713	\$ 15,925	\$ 10,192

	Balance Sheet Classification	Liability Derivatives		
		June 30, 2010	Fair Value June 30, 2009	December 31, 2009
Derivatives designated as hedging instruments				
Foreign currency forward exchange contracts	Accrued liabilities	\$ 5,132	\$ 27,648	\$ 21,032
Foreign currency forward exchange contracts	Other noncurrent liabilities	27	4,580	19
Total derivatives designated as hedging instruments		\$ 5,159	\$ 32,228	\$ 21,051
Derivatives not designated as hedging instruments				
Foreign currency forward exchange contracts	Accrued liabilities	\$ 7,888	\$ 102	\$
Total		\$ 13,047	\$ 32,330	\$ 21,051

Table of Contents

The following tables present the classification and amount of gains and losses, net of taxes, from derivatives reported in the consolidated statements of operations (in thousands):

	For the Three Months Ended June 30, 2010		For the Three Months Ended June 30, 2009		Statements of Operations Classification
	Amount of Gain (Loss) Recognized in OCI	Amount of Gain (Loss) Reclassified from Accumulated OCI to Statements of Operations	Amount of Gain (Loss) Recognized in OCI	Amount of Gain (Loss) Reclassified from Accumulated OCI to Statements of Operations	
Derivatives designated as hedging instruments					
Foreign currency forward exchange contracts	\$ 15,999	\$ (2,916)	\$ (23,922)	\$ 3,627	Cost of sales
Interest rate swaps				(1,550)	Interest expense
Total	\$ 15,999	\$ (2,916)	\$ (23,922)	\$ 2,077	

	For the Six Months Ended June 30, 2010		For the Six Months Ended June 30, 2009		Statements of Operations Classification
	Amount of Gain (Loss) Recognized in OCI	Amount of Gain (Loss) Reclassified from Accumulated OCI to Statements of Operations	Amount of Gain (Loss) Recognized in OCI	Amount of Gain (Loss) Reclassified from Accumulated OCI to Statements of Operations	
Derivatives designated as hedging instruments					
Foreign currency forward exchange contracts	\$ 27,738	\$ (5,674)	\$ (7,051)	\$ 5,288	Cost of sales
Interest rate swaps			(349)	(1,550)	Interest expense
Total	\$ 27,738	\$ (5,674)	\$ (7,400)	\$ 3,738	

The net loss of \$2.9 million and \$5.7 million reclassified from accumulated OCI to the statements of operations for the three and six months ended June 30, 2010, respectively, and the net gain of \$2.1 million and \$3.7 million reclassified from accumulated OCI to the statements of operations for the three and six months ended June 30, 2009, respectively, are offset by the changes in cash flows associated with the underlying hedged transactions.

	Amount of Gain (Loss) Recognized in the Statements of Operations		Statements of Operations Classification
	For the Three Months Ended June 30, 2010	For the Three Months Ended June 30, 2009	
Derivatives not designated as hedging instruments			
Foreign currency forward exchange contracts	\$ (40,072)	\$ 24,291	Non-operating income/expense
Foreign currency forward exchange contracts	316		Cost of sales
Total	\$ (39,756)	\$ 24,291	

Table of Contents

	Amount of Gain (Loss) Recognized in the Statements of Operations		Statements of Operations Classification
	For the Six Months Ended	For the Six Months Ended	
	June 30, 2010	June 30, 2009	
Derivatives not designated as hedging instruments			
Foreign currency forward exchange contracts	\$ (52,469)	\$ 2,231	Non-operating income/expense
Foreign currency forward exchange contracts	1,948		Cost of sales
Total	\$ (50,521)	\$ 2,231	

The net loss of \$39.8 million and \$50.5 million recognized in the statements of operations for the three and six months ended June 30, 2010, respectively, and the net gain of \$24.3 million and \$2.2 million recognized in the statements of operations for the three and six months ended June 30, 2009, respectively, are offset by foreign currency transaction gains and losses on the related hedged balances.

14. Fair Value Measurements

The following table presents information about Mattel's assets and liabilities measured and reported in the financial statements at fair value on a recurring basis and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value. The three levels of the fair value hierarchy are as follows:

Level 1 Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the entity has the ability to access.

Level 2 Valuations based on quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable data for substantially the full term of the assets or liabilities.

Level 3 Valuations based on inputs that are unobservable, supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Mattel does not have any significant financial assets or liabilities measured at fair value using Level 1 or Level 3 inputs as of June 30, 2010, June 30, 2009, or December 31, 2009. Mattel's financial assets and liabilities measured using Level 2 inputs include the following:

	June 30, 2010	June 30, 2009 (In thousands)	December 31, 2009
Assets:			
Foreign currency forward exchange contracts	\$ 31,713	\$ 15,925	\$ 10,192
Liabilities:			
Foreign currency forward exchange contracts	\$ 13,047	\$ 32,330	\$ 21,051

The fair value of the foreign currency forward exchange contracts is based on dealer quotes of market forward rates and reflects the amount that Mattel would receive or pay at their maturity dates for contracts involving the same currencies and maturity dates.

15. Fair Value of Financial Instruments

Edgar Filing: MATTEL INC /DE/ - Form 10-Q

Mattel's financial instruments include cash and equivalents, accounts receivable and payable, short-term borrowings, and accrued liabilities. The carrying amount of these instruments approximates fair value because of their short-term nature.

Table of Contents

The estimated fair value of Mattel's long-term debt, including the current portion is \$753.8 million (compared to a carrying amount of \$710.0 million) as of June 30, 2010, \$774.6 million (compared to a carrying amount of \$760.0 million) as of June 30, 2009, and \$794.7 million (compared to a carrying amount of \$750.0 million) as of December 31, 2009. The estimated fair value has been calculated based on broker quotes or rates for the same or similar instruments.

The fair value related disclosures for Mattel's derivative financial instruments are included in Note 13, Derivative Instruments, and Note 14, Fair Value Measurements.

16. Earnings Per Share

Unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are included in the computation of earnings per share pursuant to the two-class method. Certain of Mattel's restricted stock units (RSUs) are considered participating securities because they contain nonforfeitable rights to dividend equivalents.

Under the two-class method, net income is reduced by the amount of dividends declared in the period for each class of common stock and participating securities. The remaining undistributed earnings are then allocated to common stock and participating securities as if all of the net income for the period had been distributed. Basic earnings per common share excludes dilution and is calculated by dividing net income allocable to common shares by the weighted average number of common shares outstanding for the period. Diluted earnings per common share is calculated by dividing net income allocable to common shares by the weighted average number of common shares for the period, as adjusted for the potential dilutive effect of non-participating share-based awards. The following table reconciles earnings per common share for the three and six months ended June 30, 2010 and 2009.

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
BASIC				
Net income (loss)	\$ 51,575	\$ 21,469	\$ 76,417	\$ (29,517)
Less net income allocable to participating RSUs	(602)	(231)	(900)	
Net income (loss) available for basic common shares	\$ 50,973	\$ 21,238	\$ 75,517	\$ (29,517)
Weighted average common shares outstanding	362,819	358,824	363,065	358,972
Basic net income (loss) per common share	\$ 0.14	\$ 0.06	\$ 0.21	\$ (0.08)
DILUTED				
Net income (loss)	\$ 51,575	\$ 21,469	\$ 76,417	\$ (29,517)
Less net income allocable to participating RSUs	(597)	(230)	(892)	
Net income (loss) available for diluted common shares	\$ 50,978	\$ 21,239	\$ 75,525	\$ (29,517)
Weighted average common shares outstanding	362,819	358,824	363,065	358,972
Weighted average common equivalent shares arising from:				
Dilutive stock options and non-participating RSUs	3,032	2,057	3,079	
Weighted average number of common and potential common shares	365,851	360,881	366,144	358,972
Diluted net income (loss) per common share	\$ 0.14	\$ 0.06	\$ 0.21	\$ (0.08)

Table of Contents

The calculation of potential common shares assumes the exercise of dilutive stock options and vesting of non-participating RSUs, net of assumed treasury share repurchases at average market prices. Nonqualified stock options and non-participating RSUs totaling 1.7 million and 21.3 million shares were excluded from the calculation of diluted net income per common share for the three months ended June 30, 2010 and 2009, respectively, because they were antidilutive. Nonqualified stock options and non-participating RSUs totaling 1.8 million shares were excluded from the calculation of diluted net income per common share for the six months ended June 30, 2010 because they were antidilutive. All potential common shares were excluded from the calculation of diluted net loss per common share for the six months ended June 30, 2009 because they were antidilutive due to Mattel's net loss position.

17. Employee Benefit Plans

Mattel and certain of its subsidiaries have qualified and nonqualified retirement plans covering substantially all employees of these companies, which are more fully described in Note 7 to the Consolidated Financial Statements in its 2009 Annual Report on Form 10-K.

A summary of the components of net periodic benefit cost for Mattel's defined benefit pension plans is as follows:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
	(In thousands)			
Service cost	\$ 2,715	\$ 2,531	\$ 6,032	\$ 5,913
Interest cost	7,862	7,665	16,017	15,165
Expected return on plan assets	(7,213)	(7,506)	(14,452)	(14,854)
Amortization of prior service cost	439	359	877	744
Recognized actuarial loss	4,254	3,034	7,922	6,059
	\$ 8,057	\$ 6,083	\$ 16,396	\$ 13,027

A summary of the components of net periodic benefit cost for Mattel's postretirement benefit plans is as follows:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
	(In thousands)			
Service cost	\$ 22	\$ 27	\$ 44	\$ 53
Interest cost	627	664	1,254	1,328
Recognized actuarial loss	149	176	298	353
	\$ 798	\$ 867	\$ 1,596	\$ 1,734

During the six months ended June 30, 2010, Mattel made cash contributions totaling approximately \$8 million and \$2 million to its defined benefit pension and postretirement benefit plans, respectively.

18. Share-Based Payments

Mattel has various stock compensation plans, which are more fully described in Note 10 to the Consolidated Financial Statements in its 2009 Annual Report on Form 10-K. In May 2010, Mattel's stockholders approved the Mattel, Inc. 2010 Equity and Long-Term Compensation Plan (the 2010 Plan). Upon approval of the 2010 Plan, Mattel terminated the Mattel, Inc. 2005 Equity Compensation Plan (the 2005 Plan), except with regard to grants then outstanding under the 2005 Plan. All equity compensation grants are now being made under the 2010 Plan. Under the 2010 Plan, Mattel has the ability to grant nonqualified stock options, incentive stock options,

Table of Contents

stock appreciation rights, restricted stock, RSUs, dividend equivalent rights, and shares of common stock to officers, employees, and other persons providing services to Mattel. Stock options are granted with exercise prices at the fair market value of Mattel's common stock on the applicable grant date and expire no later than ten years from the date of grant. Both stock options and RSUs generally provide for vesting over a period of three years from the date of grant.

Compensation expense, included within other selling and administrative expenses, related to stock options and RSUs is as follows:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
	(In thousands)			
Stock option compensation expense	\$ 1,887	\$ 2,333	\$ 4,571	\$ 4,795
RSU compensation expense	10,694	8,374	20,839	15,350
	\$ 12,581	\$ 10,707	\$ 25,410	\$ 20,145

Mattel recognized compensation expense of \$2.2 million and \$3.9 million during the three and six months ended June 30, 2010, respectively, and \$0.5 million and \$1.0 million during the three and six months ended June 30, 2009, respectively, which is included in the RSU compensation expense amounts noted above, for performance RSUs granted in connection with its January 1, 2008 – December 31, 2010 Long-Term Incentive Plan, which is more fully described in Note 10 to the Consolidated Financial Statements in its 2009 Annual Report on Form 10-K.

As of June 30, 2010, total unrecognized compensation cost related to unvested share-based payments totaled \$55.7 million and is expected to be recognized over a weighted-average period of 1.6 years.

Mattel uses treasury shares purchased under its share repurchase program to satisfy stock option exercises and the vesting of RSUs. Cash received for stock option exercises for the six months ended June 30, 2010 and 2009 was \$44.3 million and \$1.0 million, respectively.

19. Other Selling and Administrative Expenses

Other selling and administrative expenses include the following:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
	(In thousands)			
Design and development	\$ 42,917	\$ 43,789	\$ 84,312	\$ 83,909
Identifiable intangible asset amortization	2,549	2,591	5,101	5,315

20. Foreign Currency Transaction Gains and Losses

Currency exchange rate fluctuations may impact Mattel's results of operations and cash flows. Mattel's currency transaction exposures include gains and losses realized on unhedged inventory purchases and unhedged receivables and payables balances that are denominated in a currency other than the applicable functional currency. Gains and losses on unhedged inventory purchases and other transactions associated with operating activities are recorded in the components of operating income to which they relate in the consolidated statements of operations. For hedges of intercompany loans and advances, which do not qualify for hedge accounting treatment, the gains or losses on the hedges resulting from changes in fair value as well as the offsetting transaction gains or losses on the related hedged items, along with unhedged items, are recognized in non-operating (income) in the consolidated statements of operations. Inventory purchase and sale transactions denominated in the Euro, British pound sterling, and Mexican peso are the primary transactions that cause foreign currency transaction exposure for Mattel.

Table of Contents

Currency transaction gains included in the consolidated statements of operations are as follows:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
	(In thousands)			
Operating income	\$ 6,369	\$ 14,731	\$ 16,234	\$ 29,125
Other non-operating income, net	3,502	6,246	1,470	8,624
Net transaction gains	\$ 9,871	\$ 20,977	\$ 17,704	\$ 37,749

21. Venezuelan Operations

Mattel applies to the Venezuelan government's Foreign Exchange Administrative Commission, CADIVI, for the conversion of local currency to US dollars at the official exchange rate. Through May 17, 2010, for US dollar needs exceeding conversions obtained through CADIVI, the parallel exchange market, with rates substantially less favorable than the official exchange rate, was used to obtain US dollars without approval from CADIVI.

At December 31, 2009, Mattel changed the rate it used to translate its Venezuelan subsidiary's transactions and balances from the official exchange rate to the parallel exchange rate, which was quoted at 5.97 Venezuelan bolivar fuertes per US dollar on December 31, 2009. The resulting foreign currency translation adjustment of approximately \$15 million increased accumulated other comprehensive loss within stockholders' equity as of December 31, 2009. Mattel's considerations for changing the rate included indications that the Venezuelan government is not likely to continue to provide substantial currency exchange at the official rate for companies importing discretionary products, such as toys, difficulties in obtaining approval for the conversion of local currency to US dollars at the official exchange rate (for imported products and dividends), delays in previously obtained approvals being honored by CADIVI, and Mattel's 2009 repatriation of dividends from its Venezuelan subsidiary at the parallel exchange rate.

Effective January 1, 2010, Mattel has accounted for Venezuela as a highly inflationary economy as the three-year cumulative inflation rate for Venezuela, using a blend of the Consumer Price Index associated with the city of Caracas and the National Consumer Price Index (developed commencing in 2008 and covering the entire country of Venezuela), exceeded 100%. Accordingly, Mattel's Venezuelan subsidiary uses the US dollar as its functional currency. As a result of the change to a US dollar functional currency, monetary assets and liabilities denominated in Venezuelan bolivar fuertes generate income or expense for changes in value associated with foreign currency exchange rate fluctuations against the US dollar.

On January 11, 2010, the Venezuelan government devalued the Venezuelan bolivar fuerte and changed to a two-tier exchange structure. The official exchange rate moved from 2.15 Venezuelan bolivar fuerte per US dollar to 2.60 for essential goods and 4.30 for non-essential goods and services, with Mattel's products falling into the non-essential category. The devaluation is not expected to materially impact Mattel's 2010 consolidated financial statements, and had no impact on Mattel's consolidated financial statements during the three and six months ended June 30, 2010.

On May 17, 2010, the Venezuelan government enacted reforms to its foreign currency exchange control regulations (the exchange control regulations) to close down the parallel exchange market. On June 9, 2010, the Venezuelan government enacted additional reforms to its exchange control regulations and introduced a newly regulated foreign currency exchange system, Sistema de Transacciones con Titulos en Moneda Extranjera (SITME), which is controlled by the Central Bank of Venezuela (BCV). Foreign currency exchange transactions not conducted through CADIVI or SITME may not comply with the exchange control regulations, and could therefore be considered illegal. The SITME imposes volume restrictions on the conversion of Venezuelan bolivar fuerte to US dollar, currently limiting such activity to a maximum equivalent of \$350

Table of Contents

thousand per month. As a result of the enactment of the reforms to the exchange control regulations, Mattel changed the rate it uses to remeasure Venezuelan bolivar fuerte-denominated transactions from the parallel exchange rate to the SITME rate specified by the BCV, which was quoted at 5.30 Venezuelan bolivar fuertes per US dollar on June 30, 2010. The net gain resulting from the remeasurement of Venezuelan bolivar fuerte-denominated transactions to the SITME rate specified by the BCV increased pre-tax income by approximately \$4 million during the three months ended June 30, 2010.

Mattel's Venezuelan subsidiary had approximately \$21 million of net monetary assets denominated in Venezuelan bolivar fuertes as of June 30, 2010. For every \$10 million of net monetary assets denominated in Venezuelan bolivar fuertes, a 1% increase/(decrease) in the foreign currency exchange rate would decrease/(increase) Mattel's pre-tax income by approximately \$100 thousand. While Mattel's level of net monetary assets denominated in Venezuelan bolivar fuertes will vary from one period to another based on operating cycles and seasonality, Mattel does not expect future remeasurement adjustments to be material to Mattel's consolidated financial statements. During the three and six months ended June 30, 2010, Mattel's Venezuelan subsidiary generated less than 1% of Mattel's consolidated net sales.

22. Income Taxes

Mattel's provision for income taxes was \$18.9 million for the six months ended June 30, 2010, as compared to an income tax benefit of \$12.1 million for the six months ended June 30, 2009. Mattel recognized discrete tax benefits of \$4.6 million and \$4.3 million during the three and six months ended June 30, 2010, respectively, primarily related to reassessments of prior years' tax liabilities based on the status of current audits and tax filings in various jurisdictions, settlements, and enacted tax law changes. Mattel recognized discrete tax benefits of \$2.5 million during the three and six months ended June 30, 2009, primarily related to reassessments of prior years' tax liabilities based on the status of current audits and tax filings in various jurisdictions, settlements, and enacted tax law changes.

During the six months ended June 30, 2010, Mattel reached a resolution with the IRS regarding all open issues relating to the examination of Mattel's US federal income tax returns for the years 2006 and 2007. The resolution did not have a material impact on Mattel's consolidated financial statement for the six months ended June 30, 2010.

23. Contingencies

With regards to the claims against Mattel described below, Mattel intends to defend itself vigorously. Except as more fully described in Note 8 to the Consolidated Financial Statements Product Recalls, management cannot reasonably determine the scope or amount of possible liabilities that could result from an unfavorable settlement or resolution of these claims, and no reserves for these claims have been established as of June 30, 2010. However, it is possible that an unfavorable resolution of these claims could have a material adverse effect on Mattel's financial condition and results of operations, and there can be no assurance that Mattel will be able to achieve a favorable settlement or resolution of these claims.

Litigation Related to Carter Bryant and MGA Entertainment, Inc.

In April 2004, Mattel filed a lawsuit in Los Angeles County Superior Court against Carter Bryant (Bryant), a former Mattel design employee. The suit alleges that Bryant aided and assisted a Mattel competitor, MGA Entertainment, Inc. (MGA), during the time he was employed by Mattel, in violation of his contractual and other duties to Mattel. In September 2004, Bryant asserted counterclaims against Mattel, including counterclaims in which Bryant sought, as a putative class action representative, to invalidate Mattel's Confidential Information and Proprietary Inventions Agreements with its employees. Bryant also removed Mattel's suit to the United States District Court for the Central District of California. In December 2004, MGA intervened as a party-defendant in Mattel's action against Bryant, asserting that its rights to Bratz properties are at stake in the litigation.

Table of Contents

Separately, in November 2004, Bryant filed an action against Mattel in the United States District Court for the Central District of California. The action sought a judicial declaration that Bryant's purported conveyance of rights in Bratz was proper and that he did not misappropriate Mattel property in creating Bratz.

In April 2005, MGA filed suit against Mattel in the United States District Court for the Central District of California. MGA's action alleges claims of trade dress infringement, trade dress dilution, false designation of origin, unfair competition, and unjust enrichment. The suit alleges, among other things, that certain products, themes, packaging, and/or television commercials in various Mattel product lines have infringed upon products, themes, packaging, and/or television commercials for various MGA product lines, including Bratz. The complaint also asserts that various alleged Mattel acts with respect to unidentified retailers, distributors, and licensees have damaged MGA and that various alleged acts by industry organizations, purportedly induced by Mattel, have damaged MGA. MGA's suit alleges that MGA has been damaged in an amount believed to reach or exceed tens of millions of dollars and further seeks punitive damages, disgorgement of Mattel's profits and injunctive relief.

In June 2006, the three cases were consolidated in the United States District Court for the Central District of California. On July 17, 2006, the Court issued an order dismissing all claims that Bryant had asserted against Mattel, including Bryant's purported counterclaims to invalidate Mattel's Confidential Information and Proprietary Inventions Agreements with its employees, and Bryant's claims for declaratory relief.

In November 2006, Mattel asked the Court for leave to file an Amended Complaint that included not only additional claims against Bryant, but also included claims for copyright infringement, RICO violations, misappropriation of trade secrets, intentional interference with contract, aiding and abetting breach of fiduciary duty and breach of duty of loyalty, and unfair competition, among others, against MGA, its CEO Isaac Larian, certain MGA affiliates and an MGA employee. The RICO claim alleged that MGA stole Bratz and then, by recruiting and hiring key Mattel employees and directing them to bring with them Mattel confidential and proprietary information, unfairly competed against Mattel using Mattel's trade secrets, confidential information, and key employees to build their business. On January 12, 2007, the Court granted Mattel leave to file these claims as counterclaims in the consolidated cases, which Mattel did that same day.

Mattel sought to try all of its claims in a single trial, but in February 2007, the Court decided that the consolidated cases would be tried in two phases, with the first trial to determine claims and defenses related to Mattel's ownership of Bratz works and whether MGA infringed those works. On May 19, 2008, Bryant reached a settlement agreement with Mattel and is no longer a defendant in the litigation. In the public stipulation entered by Mattel and Bryant in connection with the resolution, Bryant agreed that he was and would continue to be bound by all prior and future Court Orders relating to Bratz ownership and infringement, including the Court's summary judgment rulings.

The first phase of the first trial, which began on May 27, 2008, resulted in a unanimous jury verdict on July 17, 2008 in favor of Mattel. The jury found that almost all of the Bratz design drawings and other works in question were created by Bryant while he was employed at Mattel; that MGA and Isaac Larian intentionally interfered with the contractual duties owed by Bryant to Mattel, aided and abetted Bryant's breaches of his duty of loyalty to Mattel, aided and abetted Bryant's breaches of the fiduciary duties he owed to Mattel, and converted Mattel property for their own use. The same jury determined that defendants MGA, Larian, and MGA Entertainment (HK) Limited infringed Mattel's copyrights in the Bratz design drawings and other Bratz works, and awarded Mattel total damages of approximately \$100 million against the defendants. On December 3, 2008, the Court issued a series of orders rejecting MGA's equitable defenses and granting Mattel's motions for equitable relief, including an order enjoining the MGA party defendants from manufacturing, marketing, or selling certain Bratz fashion dolls or from using the Bratz name. The Court stayed the effect of the December 3, 2008 injunctive orders until further order of the Court and entered a further specified stay of the injunctive orders on January 7, 2009.

Table of Contents

The parties filed and argued additional motions for post-trial relief, including a request by MGA to enter judgment as a matter of law on Mattel's claims in MGA's favor and to reduce the jury's damages award to Mattel. Mattel additionally moved for the appointment of a receiver. On April 27, 2009, the Court entered an order confirming that Bratz works found by the jury to have been created by Bryant during his Mattel employment were Mattel's property and that hundreds of Bratz female fashion dolls infringe Mattel's copyrights. The Court also upheld the jury's award of damages in the amount of \$100 million and ordered an accounting of post-trial Bratz sales. The Court further vacated the stay of the December 3, 2008 orders, except to the extent specified by the Court's January 7, 2009 modification.

MGA appealed the Court's equitable orders to the Court of Appeals for the Ninth Circuit. On December 9, 2009, the Ninth Circuit heard oral argument on MGA's appeal and issued an order staying the District Court's equitable orders pending a further order to be issued by the Ninth Circuit. The Ninth Circuit opinion vacating the relief ordered by the District Court was issued on July 22, 2010. The Ninth Circuit stated that, because of several jury instruction errors it identified, a significant portion if not all of the jury verdict and damage award should be vacated.

In its opinion, the Ninth Circuit found that the District Court erred in concluding that Mattel's Invention agreement unambiguously applied to ideas; that it should have considered extrinsic evidence in determining the application of the agreement; and if the conclusion turns on conflicting evidence, it should have been up to the jury to decide. The Ninth Circuit also concluded that the District Judge erred in transferring the entire brand to Mattel based on misappropriated names and that the Court should have submitted to the jury, rather than deciding itself, whether Bryant's agreement assigned works created outside the scope of his employment and whether Bryant's creation of the Bratz designs and sculpt was outside of his employment. The Court then went on to address copyright issues which would be raised after a retrial, since Mattel might well convince a properly instructed jury that it owns Bryant's designs and sculpt. The Ninth Circuit stated that the sculpt itself was entitled only to thin copyright protection against virtually identical works, while the Bratz sketches were entitled to broad protection against substantially similar works; in applying the broad protection, however, the Ninth Circuit found that the lower court had erred in failing to filter out all of the unprotectable elements of Bryant's sketches. This mistake, the Court said, caused the lower court to conclude that all Bratz dolls were substantially similar to Bryant's original sketches.

Judge Stephen Larson, who presided over the first trial, has since retired from the bench, and the case has been transferred to Judge David O. Carter. Discovery has been ongoing as to the claims that were not tried in Phase 1. Judge Carter had previously granted Mattel leave to file a Fourth Amended Answer and Counterclaims which focused on RICO, trade secret and other claims, and added additional parties. Judge Carter informed the parties that he was awaiting the decision of the Ninth Circuit to set a trial date, so as to take account of claims that might have to be retried in light of that decision. The Ninth Circuit opinion concludes that the entire case will probably need to be retried.

Product Liability Litigation Related to Product Recalls and Withdrawals

Litigation Related to Product Recalls and Withdrawals in the United States

Twenty-two lawsuits have been filed in the United States asserting claims arising out of the August 2, August 14, September 4, and/or October 25, 2007 voluntary product recalls by Mattel and Fisher-Price, as well as the withdrawal of red and green toy blood pressure cuffs from retail stores or their replacement at the request of consumers.

Eighteen of those cases were commenced in the following United States District Courts: ten in the Central District of California (Mayhew v. Mattel, filed August 7, 2007; White v. Mattel, filed August 16, 2007; Luttenberger v. Mattel, filed August 23, 2007; Puerzer v. Mattel, filed August 29, 2007; Shah v. Fisher-Price,

Table of Contents

filed September 13, 2007; Rusterholtz v. Mattel, filed September 27, 2007; Jimenez v. Mattel, filed October 12, 2007; Probst v. Mattel, filed November 5, 2007; Entsminger v. Mattel, filed November 9, 2007; and White v. Mattel, filed November 26, 2007, hereinafter, *White II*); three in the Southern District of New York (Shoukry v. Fisher-Price, filed August 10, 2007; Goldman v. Fisher-Price, filed August 31, 2007; and Allen v. Fisher-Price, filed November 16, 2007); two in the Eastern District of Pennsylvania (Monroe v. Mattel, filed August 17, 2007, and Chow v. Mattel, filed September 7, 2007); one in the Southern District of Indiana (Sarjent v. Fisher-Price, filed August 16, 2007); one in the District of South Carolina (Hughey v. Fisher-Price, filed August 24, 2007); and one in the Eastern District of Louisiana (Sanders v. Mattel, filed November 14, 2007). Two other actions originally filed in Los Angeles County Superior Court were removed to federal court in the Central District of California (Healy v. Mattel, filed August 21, 2007, and Powell v. Mattel, filed August 20, 2007). Another lawsuit commenced in San Francisco County Superior Court was removed to the federal court in the Northern District of California (Harrington v. Mattel, filed August 20, 2007). One other action was commenced in District of Columbia Superior Court and removed to the United States District Court for the District of Columbia (DiGiacinto v. Mattel, filed August 29, 2007). Mattel was named as a defendant in all of the actions, while Fisher-Price was named as a defendant in nineteen of the cases.

Multidistrict Litigation (MDL) in the United States

On September 5, 2007, Mattel and Fisher-Price filed a motion before the Judicial Panel on Multidistrict Litigation (JPML) asking that all federal actions related to the recalls be coordinated and transferred to the Central District of California (In re Mattel Inc. Toy Lead Paint Products Liability Litigation). On December 18, 2007, the JPML issued a transfer order, transferring six actions pending outside the Central District of California (Sarjent, Shoukry, Goldman, Monroe, Chow and Hughey) to the Central District of California for coordinated or consolidated pretrial proceedings with five actions pending in the Central District (Mayhew, White, Luttenberger, Puerzer and Shah). The remaining cases (Healy, Powell, Rusterholtz, Jimenez, Probst, Harrington, DiGiacinto, Allen, Sanders, Entsminger, and White II), so-called potential tag-along actions, are either already pending in the Central District of California or have been transferred there pursuant to January 3 and January 17, 2008 conditional transfer orders issued by the JPML. These matters are all currently pending in In re Mattel, Inc. Toy Lead Paint Products Liability Litigation, No. 2:07-ML-01897-DSF-AJW, MDL 1897 (C. D. Ca.) (the MDL proceeding).

On March 31, 2008, plaintiffs filed a Consolidated Amended Class Action Complaint in the MDL proceeding, which was followed with a Second Consolidated Amended Complaint (the Consolidated Complaint), filed on May 16, 2008. Plaintiffs seek certification of a class of all persons who, from May 2003 through the present, purchased and/or acquired certain allegedly hazardous toys. The Consolidated Complaint defines hazardous toys as those toys recalled between August 2, 2007 and October 25, 2007, due to the presence of lead in excess of applicable standards in the paint on some parts of some of the toys; those toys recalled on November 21, 2006 and August 14, 2007, related to magnets; and the red and green toy blood pressure cuffs voluntarily withdrawn from retail stores or replaced at the request of consumers. Defendants named in the Consolidated Complaint are Mattel, Fisher-Price, Target Corporation, Toys R Us, Inc., Wal-Mart Stores, Inc., KB Toys, Inc., and Kmart Corporation. Mattel has assumed the defense of Target Corporation, Toys R Us, Inc., KB Toys, Inc., and Kmart Corporation, and agreed to indemnify all of the retailer defendants, for the specific claims raised in the Consolidated Complaint, which claims relate to the sale of Mattel and Fisher-Price toys.

In the Consolidated Complaint, plaintiffs assert claims for breach of implied and express warranties, negligence, strict liability, violation of the United States Consumer Product Safety Act (CPSA) and related Consumer Product Safety Rules, various California consumer protection statutes, and unjust enrichment. Plaintiffs seek (i) declaratory and injunctive relief enjoining defendants from continuing the allegedly unlawful practices raised in the Consolidated Complaint; (ii) restitution and disgorgement of monies acquired by defendants from the allegedly unlawful practices; (iii) costs of initial diagnostic blood lead level testing to detect

Table of Contents

possible injury to plaintiffs and members of the class; (iv) costs of treatment for those who test positive to the initial diagnostic blood lead level testing; (v) reimbursement of the purchase price for the allegedly hazardous toys; and (vi) costs and attorneys' fees. On June 24, 2008, defendants filed motions to dismiss the Consolidated Complaint. On November 24, 2008, the Court granted defendants' motion with respect to plaintiffs' claims under the CPSA related to the magnet toys and the toy blood pressure cuffs and denied defendants' motions in all other respects.

On October 13, 2009, plaintiffs and Mattel filed a joint motion with the Court seeking preliminary approval of a class action settlement of the MDL proceeding, which the Court granted on October 23, 2009. Pursuant to the Court's order of preliminary approval, the parties began to implement the settlement. Under the settlement, Mattel agreed, among other things, to provide various categories of economic relief for members of the settlement class, maintain a quality assurance system, make a charitable contribution to fund child safety programs, and not object to plaintiffs' counsel's application to the Court for attorneys' fees and expenses up to a specified amount. On March 15, 2010, the Court held a hearing on the parties' motion for final approval of the class action settlement. On March 26, 2010, the Court entered a final judgment dismissing the MDL proceeding with prejudice, certifying the settlement class, and approving all aspects of the class action settlement except plaintiffs' counsel's application to the Court for attorneys' fees and expenses. On May 5, 2010, the Court entered an order awarding plaintiffs' counsel approximately \$11 million in fees and expenses, which was paid by Mattel during the three months ended June 30, 2010.

Three appeals have been filed relating to the approval of the settlement, dismissal of the MDL actions, and the award of attorneys' fees and expenses. In addition, plaintiffs have appealed the award of attorneys' fees and expenses. All of the appeals are pending.

Litigation Related to Product Recalls and Withdrawals in Canada

Since September 26, 2007, eight proposed class actions have been filed in the provincial superior courts of the following Canadian provinces: British Columbia (*Trainor v. Fisher-Price*, filed September 26, 2007); Alberta (*Cairns v. Fisher-Price*, filed September 26, 2007); Saskatchewan (*Sharp v. Mattel Canada*, filed September 26, 2007); Quebec (*El-Mousfi v. Mattel Canada*, filed September 27, 2007, and *Fortier v. Mattel Canada*, filed October 10, 2007); Ontario (*Wiggins v. Mattel Canada*, filed September 28, 2007); New Brunswick (*Travis v. Fisher-Price*, filed September 28, 2007); and Manitoba (*Close v. Fisher-Price*, filed October 3, 2007). Mattel, Fisher-Price, and Mattel Canada are defendants in all of the actions, and Fisher-Price Canada is a defendant in two of the actions (*El-Mousfi* and *Wiggins*). All but one of the cases seek certification of both a class of residents of that province and a class of all other residents of Canada outside the province where the action was filed. The classes are generally defined similarly in all of the actions to include both purchasers of the toys recalled by Mattel and Fisher-Price in August and September 2007 and children, either directly or through their parents as next friends, who have had contact with those toys.

The actions in Canada generally allege that defendants were negligent in allowing their products to be manufactured and sold with lead paint on the toys and negligent in the design of the toys with small magnets, which led to the sale of defective products. The cases typically state claims in four categories: (i) production of a defective product; (ii) misrepresentations; (iii) negligence; and (iv) violations of consumer protection statutes. Plaintiffs generally seek general and special damages, damages in the amount of monies paid for testing of children based on alleged exposure to lead, restitution of any amount of monies paid for replacing recalled toys, disgorgement of benefits resulting from recalled toys, aggravated and punitive damages, pre-judgment and post-judgment interest, and an award of litigation costs and attorneys' fees. Plaintiffs in all of the actions except one do not specify the amount of damages sought. In the Ontario action (*Wiggins*), plaintiff demands general damages of Canadian dollar \$75 million and special damages of Canadian dollar \$150 million, in addition to the other remedies. In November 2007, the class action suit commenced by Mr. Fortier was voluntarily discontinued. In December 2009, the Quebec court granted plaintiff's request in the *El-Mousfi* action to discontinue that proceeding. On February 3, 2010, the plaintiff in the Saskatchewan action (*Sharp*) served a notice of motion

Table of Contents

seeking certification of the action as a class action. That motion for certification is scheduled to be heard before the Saskatchewan court on November 29, 2010. Certification has not yet been sought in any of the other actions in Canada.

After the discontinuance of his class action suit, Mr. Fortier filed an individual action in Quebec (*Fortier v. Mattel Canada, Inc.*, filed on November 22, 2007). In his individual action, Mr. Fortier initially alleged that he purchased recalled toys and, as a result, suffered damages, including consequential and incidental damages such as worry, concern, and costs of the products and replacement products, medicines, diagnosis, and treatment. Although Mr. Fortier subsequently amended his complaint to eliminate claims for physical injury, he later sought to have those claims reinstated. Mr. Fortier alleged damages of Canadian dollar \$5 million. Mattel moved to stay Mr. Fortier's individual action pending resolution of the request to proceed as a class action filed in the El-Mousfi action also pending in Quebec, and that motion to stay was denied. Mattel subsequently moved to dismiss Mr. Fortier's action, and on June 30, 2010, the Quebec court granted Mattel's motion.

All of the actions in Canada are at a preliminary stage.

Litigation Related to Product Recalls in Brazil

Three consumer protection associations and agencies have filed claims against Mattel's subsidiary Mattel do Brasil Ltda. in the following courts in Brazil: (a) the Public Treasury Court in the State of Santa Catarina (Associação Catarinense de Defesa dos Cidadãos, dos Consumidores e dos Contribuintes (ACC/SC) ACC/SC v. Mattel do Brasil Ltda., filed on February 2, 2007); (b) the Second Commercial Court in the State of Rio de Janeiro (Consumer Protection Committee of the Rio de Janeiro State Legislative Body (CPLeg/RJ) CPLeg/RJ v. Mattel do Brasil Ltda., filed on August 17, 2007); and (c) the Sixth Civil Court of the Federal District (Brazilian Institute for the Study and Defense of Consumer Relationships (IBEDEC) IBEDEC v. Mattel do Brasil Ltda., filed on September 13, 2007). The ACC/SC case is related to the recall of magnetic products in November 2006; the CPLeg/RJ case is related to the August 2007 recall of magnetic products; and the IBEDEC case is related to the August and September 2007 recalls of magnetic products and products with non-approved paint containing lead exceeding the limits established by applicable regulations and Mattel standards. The cases generally state claims in four categories: (i) production of a defective product; (ii) misrepresentations; (iii) negligence; and (iv) violations of consumer protection statutes. Plaintiffs generally seek general and special damages; restitution of monies paid by consumers to replace recalled toys; disgorgement of benefits resulting from recalled toys; aggravated and punitive damages; pre-judgment and post-judgment interest; injunctive relief; and litigation costs and attorneys' fees. The amount of damages sought by plaintiffs is not generally specified, except that in the Public Treasury Court in the State of Santa Catarina action, ACC/SC demands general damages of approximately \$1 million, in addition to other remedies. In the Sixth Civil Court of the Federal District action, IBEDEC demands damages of approximately \$21 million, which amount will be used as a basis for calculating court fees, in addition to requesting other remedies.

On June 18, 2008, the court held that the action brought by IBEDEC was without merit, and on July 1, 2008, IBEDEC filed an appeal. On July 23, 2008, Mattel do Brasil submitted its appellate brief. On September 15, 2008, the Public Prosecutor's Office submitted its opinion to the court, which supported upholding the original decision, given that no reason had been cited for ordering the company to pay pain and suffering damages. Moreover, just as the judge had done, the Public Prosecutor's Office determined that the mere recall of products does not trigger any obligation to indemnify any party. On November 4, 2008, the panel of three appellate judges unanimously upheld the lower court's decision. On November 18, 2008, IBEDEC filed a special appeal and on January 5, 2009 Mattel do Brasil filed its response. On February 2, 2009, the special appeal lodged by IBEDEC was rejected. In February, 2009, IBEDEC filed a new interlocutory appeal, and on March 16, 2009, Mattel do Brasil presented its counter arguments to the IBEDEC interlocutory appeal. On December 7, 2009, the Federal Superior Court (STJ) published a decision denying IBEDEC's appeal. IBEDEC did not file any other appeal thereby confirming the decision rendered by the lower court judge. As a procedural matter, the court must file its records of the case. Mattel do Brasil will continue monitoring the case until the final filing has been completed. There is no longer any risk exposure to Mattel do Brasil.

Table of Contents

On July 9, 2008, the court also rendered a decision concerning the action brought by CPLeg/RJ. The judge rejected the claim for general damages, but Mattel do Brasil was ordered to provide product-exchange outlets in certain locations for replacement of the recalled products, to publish in newspapers the provisions of the court decision, and to make available on its website the addresses of the outlets for replacement of recalled products and the provisions of the court's decision. The decision also allowed the consumers who were affected by the recall to submit information to the court, so that the applicability of pecuniary damages can be analyzed later, on a case by case basis. It finally ordered Mattel do Brasil to pay attorneys' fees in an amount equal to 10% of the value placed on the claim (with a value placed on the claim of approximately \$12,500). Mattel do Brasil filed a motion seeking to resolve apparent discrepancies in the court's decision, but the judge sustained the decision, as rendered, and Mattel do Brasil filed its appeal of such decision. On September 19, 2008, the appeals court accepted Mattel's appeal for purposes of remand, only, and not to stay the proceedings. Seeking to prevent execution on the judgment, Mattel do Brasil filed an interlocutory appeal and requested the court grant a preliminary injunction. On October 14, 2008 the injunction was granted. On February 5, 2009, the court heard the interlocutory appeal and confirmed the injunction. On September 1, 2009, the appeals court in Rio de Janeiro unanimously reversed the judgment issued by the lower court. Therefore, Mattel do Brasil is not required to establish outlets in each city of the State of Rio de Janeiro for purposes of further conducting the magnet and lead recalls. CODECON did not file the special appeal thereby confirming the decision rendered by the originating court in favor of Mattel do Brasil. As a procedural matter, the court must file its records of the case. Mattel do Brasil will continue monitoring the case until the final filing has been completed. There is no longer any risk exposure to Mattel do Brasil.

Since August 20, 2007, the Department of Consumer Protection and Defense (DPDC), the Consumer Protection Office (PROCON) of São Paulo, Mato Grosso and Rio de Janeiro, and public prosecutors from the States of Pernambuco, Rio Grande do Norte, and Rio de Janeiro have brought eight administrative proceedings against Mattel do Brasil, alleging that the company offered products whose risks to consumers' health and safety should have been known by Mattel. The proceedings have been filed with the following administrative courts: (a) DPDC (DPDC v. Mattel do Brasil Ltda., filed on August 20, 2007, and DPDC v. Mattel do Brasil Ltda., filed on September 14, 2007); (b) PROCON (PROCON/MT v. Mattel do Brasil, filed on August 29, 2007, PROCON/SP v. Mattel do Brasil, filed on September 4, 2007, and PROCON/RJ v. Mattel do Brasil, filed on August 27, 2007); and (c) the Public Prosecutor's Office (MP/RJ v. Mattel do Brasil, filed on September 27, 2007, MP/PE v. Mattel do Brasil, filed on September 28, 2007, and MP/RN v. Mattel do Brasil, filed on October 10, 2007). The administrative proceedings generally state claims based on the alleged negligence of Mattel do Brasil regarding recalled products. The PROCON/MT has been dismissed. In the MP/PE and MP/RJ cases, the prosecution recommended to dismiss the cases against Mattel do Brasil due to the lack of grounds to sustain negligent behavior. Such recommendation is subject to approval within the Public Prosecutor's offices in Brazil. In the DPDC cases, the cases are still under review with the DPDC. On December 21, 2007, PROCON/SP rendered a decision and decided to impose a fine on Mattel do Brasil in the approximate amount of \$200,000. On January 9, 2008, Mattel do Brasil filed an administrative appeal regarding the decision of December 21, 2007. On January 29, 2009, the administrative appeal was not granted and as a consequence Mattel do Brasil decided to pursue further adjudication of this matter in the Brazilian courts.

All of the actions in Brazil are progressing and are at various stages of adjudication as described above.

Licensee Drop-Side Crib Litigation in Canada

In late November 2009, five proposed class actions were filed in provincial superior courts in five different Canadian provinces against Fisher-Price, Inc. and Fisher-Price Canada Inc. alleging claims based on alleged manufacturing defects in drop-side cribs manufactured by Stork Craft Manufacturing Inc. (Stork Craft) between 1993 and 2009, including Fisher-Price branded drop-side cribs manufactured and sold by Stork Craft pursuant to a License Agreement with Fisher-Price, Inc. These claims follow product recalls of Stork Craft-manufactured drop-side cribs in the United States and Canada. Stork Craft and the corporate entities of a number of retailers, including Wal-Mart, Sears, The Bay and Toys R Us, also have been named as defendants in the

Table of Contents

proposed class actions. The five proposed class actions are: Cedar Dodd v. Stork Craft Manufacturing Inc. et al., filed in the Supreme Court of British Columbia on November 24, 2009, Victoria Registry, Action No. 09 5327; Amy St. Pierre et al. v. Fisher-Price Canada Inc., et al., filed in the Court of Queen's Bench of Alberta on November 24, 2009, Judicial District of Calgary, Action No. 0901-17700; Kim Riel v. Stork Craft Manufacturing Inc. et al., filed in the Court of Queen's Bench of Saskatchewan, on November 25, 2009, Judicial Centre of Regina, Q.B. No. 1794 of 2009; Tara Russell v. Stork Craft Manufacturing Inc. et al., filed in the Court of Queen's Bench of Manitoba, on November 25, 2009, Winnipeg Centre, File No. C1 09-01-63980; and David Duong et al. v. Stork Craft Manufacturing Inc. et al., filed in the Ontario Superior Court of Justice on November 25, 2009, in Ottawa, Court File No. 09-46962.

The five proposed class actions are all brought by the same plaintiff's law firm and the allegations are essentially the same. Each of the proposed class actions is based on allegation that the drop-side mechanisms used in the Stork Craft cribs are dangerously defective in that they create a risk that infants will be injured as result falling from or becoming entrapped in the crib. The claims are based in negligence, waiver of tort and breach of provincial sale of goods and consumer protection legislation. The claims seek damages for personal injury and economic loss, including recovery of the purchase price paid for the cribs, as well as an accounting, disgorgement or restitution of revenue earned by the defendants from selling the cribs. The claims further seek exemplary, aggravated and punitive damages. No amount of damages is specified in any of the claims, except the Ontario claim which seeks Canadian dollar \$1 million in general damages and Canadian dollar \$1 million in special damages. Each of the proposed class actions seeks certification on behalf of a class consisting of all persons (except defendants) that owned or purchased the drop-side cribs in question. No motion for certification has yet been filed in any of the actions.

The License Agreement between Fisher-Price and Stork Craft includes an indemnity clause whereby Stork Craft agreed to indemnify Fisher-Price in respect of claims against Fisher-Price relating to Stork Craft manufactured products. While Mattel intends for Fisher-Price to seek indemnity from Stork Craft to cover all costs related to these claims, there can be no assurance that Fisher-Price ultimately would be successful in obtaining full indemnity from Stork Craft.

All of the proposed class actions are at a preliminary stage.

24. Segment Information

Mattel's operating segments are separately managed business units and are divided on a geographic basis between domestic and international. Mattel's domestic operating segments include:

Mattel Girls & Boys Brands including Barbie® fashion dolls and accessories (Barbie®), Polly Pocket®, Little Mommy®, Disney Classics®, and High School Musical® (collectively Other Girls Brands), Hot Wheels®, Matchbox®, Battle Force 5 , and Tyco R/C® vehicles and play sets (collectively Wheels), and CARS , Radio Toy Story®, Max Steel®, WWE® Wrestling, and Batman® products, and games and puzzles (collectively Entertainment).

Fisher-Price Brands including Fisher-Price®, Little People®, BabyGear , and View-Master® (collectively Core Fisher-Price®), Sesame Street®, Dora the Explorer®, Go Diego Go!®, Thomas and Friends®, and See N Say® (collectively Fisher-Price® Friends), and Power Wheels®.

American Girl Brands including Just Like You®, the historical collection, and Bitty Baby®. American Girl Brands products are sold directly to consumers via its catalogue, website, and proprietary retail stores. Its children's publications are also sold to certain retailers.

Additionally, the International segment sells products in all toy categories, except American Girl Brands. The following tables present information about revenues, income (loss), and assets by segment. Mattel does not include sales adjustments such as trade discounts and other allowances in the calculation of segment revenues

Table of Contents

(referred to as gross sales). Mattel records these adjustments in its financial accounting systems at the time of sale to each customer, but the adjustments are not allocated to individual products. For this reason, Mattel's chief operating decision maker uses gross sales by segment as one of the metrics to measure segment performance. Such sales adjustments are included in the determination of segment income (loss) from operations based on the adjustments recorded in the financial accounting systems. Segment income (loss) from operations represents operating income (loss), while consolidated income (loss) from operations represents income (loss) from operations before income taxes as reported in the consolidated statements of operations. The corporate and other category includes costs not allocated to individual segments, including charges related to incentive compensation, share-based payments, and corporate headquarters functions managed on a worldwide basis, and the impact of changes in foreign currency rates on intercompany transactions.

25. New Accounting Pronouncements

Effective January 1, 2010, Mattel adopted Financial Accounting Standards Board Accounting Standards Update (ASU) 2009-16, *Accounting for Transfers of Financial Assets*. This pronouncement improves the relevance and comparability of the information that a reporting entity provides in its financial statements about transfers of financial assets; the effects of the transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets. This pronouncement also eliminates the concept of a qualifying special-purpose entity, creates more stringent conditions for reporting a transfer of a portion of a financial asset as a sale, clarifies other sale-accounting criteria, and changes the initial measurement of a transferor's interest in transferred financial assets. The adoption of this pronouncement did not impact Mattel's financial position or results of operations as of or for the three and six months ended June 30, 2010. Additionally, based on Mattel's current arrangements for selling accounts receivable, Mattel does not expect the adoption to have an impact on the amounts reported in the financial statements in future periods.

Effective January 1, 2010, Mattel adopted ASU 2009-17, *Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities*. This pronouncement requires an enterprise to determine

Table of Contents

whether its variable interest or interests give it a controlling financial interest in a variable interest entity. The primary beneficiary of a variable interest entity is the enterprise that has both (i) the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance, and (ii) the obligation to absorb losses of the entity that could potentially be significant to the variable interest entity or the right to receive benefits from the entity that could potentially be significant to the variable interest entity. The adoption of this pronouncement did not impact Mattel's financial position or results of operations as of or for the three and six months ended June 30, 2010.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

The following discussion should be read in conjunction with the consolidated financial information and related notes that appear in Part I, Item 1, of this Quarterly Report. Mattel's business is seasonal; therefore, results of operations are comparable only with corresponding periods.

Factors That May Affect Future Results

(Cautionary Statement Under the Private Securities Litigation Reform Act of 1995)

Mattel is including this cautionary statement to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the "Act") for forward-looking statements. This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of the Act. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts. They often include words such as believes, expects, anticipates, estimates, intends, plans, seeks or words of similar meaning, or future or conditional verbs such as will, should, could, may, aims, intends, or projects. A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. Investors should not place undue reliance on the forward-looking statements, which speak only as of the date of this Form 10-Q. These forward-looking statements are all based on currently available operating, financial, economic and competitive information and are subject to various risks and uncertainties. The Company's actual future results and trends may differ materially depending on a variety of factors, including, but not limited to, the risks and uncertainties detailed in Item 1A. "Risk Factors" in Mattel's 2009 Annual Report on Form 10-K.

Overview

Mattel designs, manufactures, and markets a broad variety of toy products worldwide, which are sold to its customers and directly to consumers. Mattel's business is dependent in great part on its ability each year to redesign, restyle, and extend existing core products and product lines, to design and develop innovative new products and product lines, and to successfully market those products and product lines. Mattel plans to continue to focus on its portfolio of traditional brands that have historically had worldwide appeal, to create new brands utilizing its knowledge of children's play patterns, and to target customer and consumer preferences around the world.

Mattel's portfolio of brands and products are grouped in the following categories:

Mattel Girls & Boys Brands including Barbie® fashion dolls and accessories (Barbie®), Polly Pocket®, Little Mommy®, Disney Classics®, and High School Musical® (collectively Other Girls Brands), Hot Wheels®, Matchbox®, Battle Force 5, and Tyco R/C® vehicles and play sets (collectively Wheels), and Carrera®, Radica®, Toy Story®, Max Steel®, WWE® Wrestling, and Batman® products, and games and puzzles (collectively Entertainment).

Fisher-Price Brands including Fisher-Price®, Little People®, BabyGear, and View-Master® (collectively Core Fisher-Price®), Sesame Street®, Dora the Explorer®, Go Diego Go!®, Thomas and Friends®, and See 'N Say® (collectively Fisher-Price® Friends), and Power Wheels®.

American Girl Brands including Just Like You®, the historical collection, and Bitty Baby®. American Girl Brands products are sold directly to consumers via its catalogue, website, and proprietary retail stores. Its children's publications are also sold to certain retailers.

Mattel's objective is to continue to create long-term stockholder value by generating strong cash flow and deploying it in a disciplined and opportunistic manner as outlined in Mattel's capital and investment framework (see "Liquidity and Capital Resources" Capital and Investment Framework). To achieve this objective, management has established three overarching goals.

Table of Contents

The first goal is to grow core brands by continuing to develop popular toys that are innovative and responsive to current play patterns and other trends. Additionally, Mattel plans to pursue additional licensing arrangements and strategic partnerships to extend its portfolio of brands into areas outside of traditional toys.

The second goal is to improve execution in areas including manufacturing, distribution, and selling. Mattel continues to focus on improving the efficiency of its supply chain using Lean supply chain initiatives. The objective of the Lean program is to improve the flow of processes, do more with less, and focus on the value chain from beginning to end.

The third goal is to further capitalize on Mattel's scale advantage. For example, as the world's largest toy company, Mattel believes it can realize cost savings when making purchasing decisions based on a One Mattel philosophy.

Second Quarter 2010 Overview

Mattel's results for the second quarter of 2010 include a net sales increase of 13%, as compared to the second quarter of 2009, reflecting strong performance domestically and internationally, and continued improvement in its profit margins. Net sales during the second quarter of 2010 benefited from sales of products tied to Mattel's new entertainment properties, including Disney/Pixar's Toy Story[®], WWE[®] Wrestling, and HIT Entertainment's Thomas and Friends[®], as well as increased sales of Mattel's core brands, such as Barbie[®] and Hot Wheels[®]. Additionally:

Gross margin increased from 45.2% in the second quarter of 2009 to 48.1% in 2010, primarily due to lower product costs, price increases, and cost savings related to Mattel's Global Cost Leadership program, partially offset by higher royalty expense as a result of increased sales of products tied to licensed properties.

Operating income in the second quarter of 2010 was \$69.4 million, as compared to \$32.5 million in 2009. The increase in operating income is primarily due to higher sales and gross margin improvement, partially offset by higher other selling and administrative expenses and higher advertising and promotion expenses.

Mattel's Global Cost Leadership program generated year-over-year incremental gross cost savings of approximately \$12 million during the second quarter of 2010 (or approximately \$3 million net of severance charges of \$9 million).

Results of Operations - Second Quarter

Consolidated Results

Net sales for the second quarter of 2010 were \$1.02 billion, up 13% as compared to \$898.2 million in 2009, including unfavorable changes in currency exchange rates of 3 percentage points. Net income for the second quarter of 2010 was \$51.6 million, or \$0.14 per diluted share, as compared to a net income of \$21.5 million, or \$0.06 per diluted share, in 2009. Net income for the second quarter of 2010 was positively impacted by higher sales and gross margin improvement, partially offset by higher other selling and administrative expenses and higher advertising and promotion expenses.

Table of Contents

The following table provides a summary of Mattel's consolidated results for the second quarter of 2010 and 2009 (in millions, except percentage and basis point information):

	For the Three Months Ended June 30, 2010		2009		Year/Year Change	
	Amount	% of Net Sales	Amount	% of Net Sales	%	Basis Points of Net Sales

Sales

Net sales for the second quarter of 2010 were \$1.02 billion, up 13% as compared to \$898.2 million in 2009, including unfavorable changes in currency exchange rates of 3 percentage points. Gross sales within the US increased 17% in the second quarter of 2010, as compared to 2009, and accounted for 52% of consolidated gross sales in the second quarter of 2010, as compared to 50% of consolidated gross sales in 2009. Gross sales in international markets increased 9% in the second quarter of 2010, as compared to 2009, with unfavorable changes in currency exchange rates of 5 percentage points.

Worldwide gross sales of Mattel Girls & Boys Brands increased 21% in the second quarter of 2010 to \$653.2 million, with unfavorable changes in currency exchange rates of 3 percentage points. Domestic gross sales of Mattel Girls & Boys Brands increased 36% and international gross sales increased 11%, with unfavorable changes in currency exchange rates of 5 percentage points. Worldwide gross sales of Barbie® increased 6%, with unfavorable changes in currency exchange rates of 4 percentage points. Domestic gross sales of Barbie® increased 16% and international gross sales increased 1%, with unfavorable changes in currency exchange rates of 6 percentage points. Worldwide gross sales of Other Girls products increased 3%, with unfavorable changes in currency exchange rates of 3 percentage points, driven primarily by increased sales of Disney Princess products, partially offset by decreased sales of High School Musical®, Hannah Montana®, and Polly Pocket® products internationally. Worldwide gross sales of Wheels products increased 5%, with unfavorable changes in currency exchange rates of 2 percentage points, driven primarily by increased sales of Hot Wheels® products. Worldwide gross sales of Hot Wheels® increased 11%, with no impact from currency exchange rates. Worldwide gross sales of Entertainment products increased 60%, with unfavorable changes in currency exchange rates of 5 percentage points, driven primarily by sales of Toy Story® 3 products and continued momentum from other new entertainment properties, including WWE® Wrestling, as well as increased sales of games products.

Worldwide gross sales of Fisher-Price Brands increased 4% in the second quarter of 2010 to \$385.2 million, with unfavorable changes in currency exchange rates of 2 percentage points. Domestic gross sales of Fisher-Price Brands increased 4% and international gross sales increased 5%, with unfavorable changes in currency exchange rates of 5 percentage points. Worldwide gross sales of Core Fisher-Price® were flat, with unfavorable changes in currency exchange rates of 2 percentage points. Domestic gross sales of Core Fisher-Price® decreased 1% and international gross sales increased 1%, with unfavorable changes in currency exchange rates of 5 percentage points. Worldwide gross sales of Fisher-Price® Friends increased 35%, with unfavorable changes in currency

Table of Contents

exchange rates of 5 percentage points, driven primarily by the addition of products supporting the new Thomas and Friends® property, as well as increased sales of Dora the Explorer® and Disney products. Domestic gross sales of Fisher-Price® Friends increased 45% and international gross sales increased 25%, with unfavorable changes in currency exchange rates of 10 percentage points.

American Girl Brands gross sales decreased 4% in the second quarter of 2010 to \$58.9 million, primarily as a result of last year's second quarter launch of Rebecca and a slightly earlier Easter this year, partially offset by continued strong sales of Lanie, the 2010 Girl of the Year®, and the benefit from the new American Girl® store in Denver, Colorado.

Cost of Sales

Cost of sales as a percentage of net sales was 51.9% in the second quarter of 2010, as compared to 54.8% in 2009. Cost of sales increased by \$36.8 million, or 7%, from \$492.1 million in the second quarter of 2009 to \$528.9 million in 2010, as compared to a 13% increase in net sales. On an overall basis, cost of sales as a percentage of net sales decreased due to lower product costs and cost savings from Mattel's Global Cost Leadership program, partially offset by higher royalty expense as a result of increased sales of products tied to licensed properties. Within cost of sales, royalty expense increased by \$21.6 million, or 75%, from \$28.8 million in the second quarter of 2009 to \$50.4 million in 2010; product costs increased by \$11.4 million, or 3%, from \$409.3 million in the second quarter of 2009 to \$420.7 million in 2010; and freight and logistics expenses increased by \$3.8 million, or 7%, from \$54.0 million in the second quarter of 2009 to \$57.8 million in 2010.

Gross Profit

Gross profit as a percentage of net sales was 48.1% in the second quarter of 2010, as compared to 45.2% in 2009. The increase in gross profit as a percentage of net sales was primarily due to lower products costs, prices increases, and cost savings from Mattel's Global Cost Leadership program, partially offset by higher royalty expense as a result of increased sales of products tied to licensed properties. Mattel continues to expect pressure on input costs in its gross margin beginning in the second half of 2010 given the current commodity and labor cost environments relative to year ago levels.

Advertising and Promotion Expenses

Advertising and promotion expenses remained flat at 10.0% of net sales in the second quarter of 2010, as compared to 2009.

Other Selling and Administrative Expenses

Other selling and administrative expenses were \$318.3 million, or 31.3% of net sales, in the second quarter of 2010, as compared to \$283.8 million, or 31.6% of net sales, in 2009. The dollar increase primarily reflects increased legal-related costs, employee-related costs, including incentive compensation accruals and merit increases, and severance costs, partially offset by savings related to Mattel's Global Cost Leadership program.

Non-Operating Income (Expense)

Interest expense decreased from \$17.5 million in the second quarter of 2009 to \$13.4 million in 2010, driven primarily by lower average borrowings and lower average interest rates. Interest income increased from \$2.5 million in the second quarter of 2009 to \$2.8 million in 2010, driven primarily by higher average invested cash balances. Other non-operating income decreased from \$6.3 million in the second quarter of 2009 to \$3.3 million in 2010, driven primarily by lower foreign currency exchange gains.

Table of Contents*Provision for Income Taxes*

Mattel's provision for income taxes was \$10.5 million in the second quarter of 2010, as compared to \$2.3 million in 2009. Mattel recognized discrete tax benefits of \$4.6 million and \$2.5 million during the second quarter of 2010 and 2009, respectively, primarily related to reassessments of prior years' tax liabilities based on the status of current audits and tax filings in various jurisdictions, settlements, and enacted tax law changes.

Business Segment Results

Mattel's reportable segments are separately managed business units and are divided on a geographic basis between domestic and international. The Domestic segment is further divided into Mattel Girls & Boys Brands US, Fisher-Price Brands US, and American Girl Brands.

Domestic Segment

Mattel Girls & Boys Brands US gross sales were \$289.7 million in the second quarter of 2010, up \$77.0 million or 36%, as compared to \$212.7 million in 2009. Within this segment, gross sales of Barbie® products increased 16% and gross sales of Other Girls products increased 15%, driven primarily by increased sales of Disney Princess products. Gross sales of Wheels products increased 14%, driven primarily by increased sales of Hot Wheels® products. Gross sales of Entertainment products increased 90%, driven primarily by sales of Toy Story® 3 products and continued momentum from other new entertainment properties, including WWE® Wrestling. Mattel Girls & Boys Brands US segment income increased \$37.9 million, from \$17.8 million in the second quarter of 2009 to \$55.7 million in 2010, driven primarily by higher sales volume and higher gross margin.

Fisher-Price Brands US gross sales were \$223.9 million in the second quarter of 2010, up \$8.1 million or 4%, as compared to \$215.8 million in 2009. Within this segment, gross sales of Fisher-Price® Friends products increased 45%, driven primarily by the addition of products supporting the new Thomas and Friends® property, and gross sales of Core Fisher-Price® products decreased 1%. Fisher-Price Brands US segment income decreased \$1.9 million, from \$22.6 million in the second quarter of 2009 to \$20.7 million in 2010, driven primarily by lower gross margin.

American Girl Brands gross sales were \$58.9 million in the second quarter of 2010, as compared to \$61.0 million in 2009, primarily as a result of last year's second quarter launch of Rebecca and a slightly earlier Easter this year, partially offset by continued strong sales of Lanie, the 2010 Girl of the Year®, and the benefit from the new American Girl® store in Denver, Colorado. American Girl Brands segment loss increased \$0.7 million, from \$2.5 million in the second quarter of 2009 to \$3.2 million in 2010, driven primarily by lower sales volume.

International Segment

The following table provides a summary of percentage changes in gross sales within the International segment for the second quarter of 2010 versus 2009:

	% Change in Gross Sales	Impact of Change in Currency (in % pts)
Non-US Regions:		
Total International	9	(5)
Europe	7	(7)
Latin America	1	(10)
Asia Pacific	28	6
Other	21	9

Table of Contents

International gross sales were \$529.6 million in the second quarter of 2010, up \$44.1 million or 9%, as compared to 2009, with unfavorable changes in currency exchange rates of 5 percentage points. Gross sales of Mattel Girls & Boys Brands increased 11%, with unfavorable changes in currency exchange rates of 5 percentage points. Gross sales of Barbie® products increased 1%, with unfavorable changes in currency exchange rates of 6 percentage points. Gross sales of Other Girls products decreased 7%, with unfavorable changes in currency exchange rates of 5 percentage points, driven primarily by decreased sales of Hannah Montana®, Polly Pocket®, and High School Musical® products, partially offset by increased sales of Disney Princess products. Gross sales of Wheels products were flat, with unfavorable changes in currency exchange rates of 1 percentage point. Gross sales of Entertainment products increased 40%, with unfavorable changes in currency exchange rates of 8 percentage points, driven primarily by sales of Toy Story® 3 products and continued momentum from other new entertainment products, including WWE® Wrestling, as well as increased sales of games products. Gross sales of Fisher-Price Brands increased 5%, with unfavorable changes in currency exchange rates of 5 percentage points. Gross sales of Fisher-Price® Friends products increased 25%, with unfavorable changes in currency exchange rates of 10 percentage points, driven primarily by the addition of products supporting the new Thomas and Friends® property, as well as increased sales of Disney products. Gross sales of Core Fisher-Price® products increased 1%, with unfavorable changes in currency exchange rates of 5 percentage points. International segment income increased by \$40.1 million from \$27.3 million in the second quarter of 2009 to \$67.4 million in 2010, driven primarily by higher sales volume and higher gross margin.

Results of Operations First Half*Consolidated Results*

Net sales for the first half of 2010 were \$1.90 billion, up 13% as compared to \$1.68 billion in 2009, with no impact from changes in currency exchange rates. Net income for the first half of 2010 was \$76.4 million, or \$0.21 per diluted share, as compared to a net loss of \$29.5 million, or \$0.08 per diluted share, in 2009. Net income for the first half of 2010 was positively impacted by higher sales and gross margin improvement, partially offset by higher advertising and promotion expenses and higher other selling and administrative expenses.

The following table provides a summary of Mattel's consolidated results for the first half of 2010 and 2009 (in millions, except percentage and basis point information):

	For the Six Months Ended June 30, 2010		2009		Year/Year Change	
	Amount	% of Net Sales	Amount	% of Net Sales	%	Basis Points of Net Sales
Net sales	\$ 1,898.6	100.0%	\$ 1,683.8	100.0%	13%

Sales

Net sales for the first half of 2010 were \$1.90 billion, up 13% as compared to \$1.68 billion in 2009, with no impact from changes in currency exchange rates. Gross sales within the US increased 15% in the first half of

Table of Contents

2010, as compared to 2009, and accounted for 53% of consolidated gross sales in the first half of 2010, as compared to 52% in 2009. Gross sales in international markets increased 10% in the first half of 2010, as compared to 2009, with no impact from changes in currency exchange rates.

Worldwide gross sales of Mattel Girls & Boys Brands increased 17% in the first half of 2010 to \$1.23 billion, with no impact from changes in currency exchange rates. Domestic gross sales of Mattel Girls & Boys Brands increased 27% and international gross sales increased 11%, with favorable changes in currency exchange rates of 1 percentage point. Worldwide gross sales of Barbie® increased 5%, with unfavorable changes in currency exchange rates of 1 percentage point. Domestic gross sales of Barbie® increased 14% and international gross sales increased 1%, with favorable changes in currency exchange rates of 1 percentage point. Worldwide gross sales of Other Girls products increased 11%, with favorable changes in currency exchange rates of 1 percentage point, driven primarily by increased sales of Disney Princess products, partially offset by decreased sales of High School Musical® and Hannah Montana® products internationally. Worldwide gross sales of Wheels products increased 4%, with favorable changes in currency exchange rates of 1 percentage point, driven primarily by increased sales of Hot Wheels® products, partially offset by declines of other Wheels products not continuing into 2010. Worldwide gross sales of Hot Wheels® increased 10%, with favorable changes in currency exchange rates of 2 percentage points. Worldwide gross sales of Entertainment products increased 49%, with unfavorable changes in currency exchange rates of 1 percentage point, driven primarily by sales of Toy Story® 3 products and continued momentum from other new entertainment properties, including WWE® Wrestling, as well as increased sales of games products.

Worldwide gross sales of Fisher-Price Brands increased 7% in the first half of 2010 to \$701.4 million, with no impact from changes in currency exchange rates. Domestic gross sales of Fisher-Price Brands increased 5% and international gross sales increased 10%, with no impact from changes in currency exchange rates. Worldwide gross sales of Core Fisher-Price® increased 2%, with no impact from changes in currency exchange rates. Domestic gross sales of Core Fisher-Price® were flat and international gross sales increased 5%, with no impact from changes in currency exchange rates. Worldwide gross sales of Fisher-Price® Friends increased 39%, with unfavorable changes in currency exchange rates of 3 percentage points, driven primarily by the addition of products supporting the new Thomas and Friends® property, as well as increased sales of Disney and Dora the Explorer® products. Domestic gross sales of Fisher-Price® Friends increased 40% and international gross sales increased 38%, with unfavorable changes in currency exchange rates of 5 percentage points.

American Girl Brands gross sales increased 1% in the first half of 2010 to \$129.1 million, primarily due to strong sales of Lanie, the 2010 Girl of the Year®, and the benefit from the new American Girl® store in Denver, Colorado.

Cost of Sales

Cost of sales as a percentage of net sales was 51.5% in the first half of 2010, as compared to 55.3% in 2009. Cost of sales increased by \$45.2 million, or 5%, from \$931.9 million in the first half of 2009 to \$977.1 million in 2010, as compared to a 13% increase in net sales. On an overall basis, cost of sales as a percentage of net sales decreased due to lower product costs and cost savings from Mattel's Global Cost Leadership program, partially offset by higher royalty expense as a result of increased sales of products tied to licensed properties. Within cost of sales, royalty expense increased \$33.6 million, or 64%, from \$52.5 million in the first half of 2009 to \$86.1 million in 2010; product costs increased by \$10.2 million, or 1%, from \$764.7 million in the first half of 2009 to \$774.9 million in 2010; and freight and logistics expenses increased by \$1.4 million, or 1%, from \$114.7 million in the first half of 2009 to \$116.1 million in 2010.

Gross Profit

Gross profit as a percentage of net sales was 48.5% in the first half of 2010 as compared to 44.7% in 2009. The increase in gross profit as a percentage of net sales was primarily due to lower product costs, price increases,

Table of Contents

and savings from Mattel's Global Cost Leadership program, partially offset by higher royalty expense as a result of increased sales of products tied to licensed properties. Mattel continues to expect pressure on input costs in its gross margin beginning in the second half of 2010 given the current commodity and labor cost environments relative to year ago levels.

Advertising and Promotion Expenses

Advertising and promotion expenses remained flat at 10.3% of net sales in the first half of 2010, as compared to 2009.

Other Selling and Administrative Expenses

Other selling and administrative expenses were \$610.8 million, or 32.2% of net sales, in the first half of 2010 as compared to \$600.7 million, or 35.7% of net sales, in 2009. The dollar increase is primarily due to higher employee-related costs, including incentive compensation accruals and merit increases, and higher legal-related costs, partially offset by lower legal settlement-related costs and net cost savings related to Mattel's Global Cost Leadership program.

Non-Operating Income (Expense)

Interest expense decreased from \$33.4 million in the first half of 2009 to \$27.1 million in 2010, driven primarily by lower average borrowings and lower average interest rates. Interest income decreased from \$6.0 million in the first half of 2009 to \$5.2 million in 2010, driven primarily by lower average interest rates, partially offset by higher average invested cash balances. Other non-operating income decreased from \$8.5 million in the first half of 2009 to \$2.6 million in 2010, driven primarily by lower foreign currency exchange gains.

Provision for Income Taxes

Mattel's income tax provision was \$19.0 million in the first half of 2010, as compared to an income tax benefit of \$12.1 million in 2009. Mattel recognized discrete tax benefits of \$4.3 million and \$2.5 million during the first half of 2010 and 2009, respectively, primarily related to reassessments of prior years' tax liabilities based on the status of current audits and tax filings in various jurisdictions, settlements, and enacted tax law changes.

During the first half of 2010, Mattel reached a resolution with the IRS regarding all open issues relating to the examination of Mattel's US federal income tax returns for the years 2006 and 2007. The resolution did not have a material impact on Mattel's consolidated financial statement for the first half of 2010.

Business Segment Results

Mattel's reportable segments are separately managed business units and are divided on a geographic basis between domestic and international. The Domestic segment is further divided into Mattel Girls & Boys Brands US, Fisher-Price Brands US, and American Girl Brands.

Domestic Segment

Mattel Girls & Boys Brands US gross sales were \$549.0 million in the first half of 2010, up \$115.4 million or 27%, as compared to \$433.6 million in 2009. Within this segment, gross sales of Barbie® products increased 14% and gross sales of Other Girls products increased 28%, driven primarily by increased sales of Disney Princess products. Gross sales of Wheels products increased 6%, driven primarily by increased sales of Hot Wheels® products. Gross sales of Entertainment products increased 62%, driven primarily by sales of Toy Story® 3 products and continued momentum from other new entertainment properties, including WWE® Wrestling. Mattel Girls & Boys Brands US segment income increased \$64.7 million, from \$31.9 million in the first half of 2009 to \$96.6 million in 2010, driven primarily by higher sales volume and higher gross margin, partially offset by higher advertising and promotion expenses.

Table of Contents

Fisher-Price Brands US gross sales were \$407.1 million in the first half of 2010, up \$21.0 million or 5%, as compared to \$386.1 million in 2009. Within this segment, gross sales of Fisher-Price® Friends products increased 40%, driven primarily by the addition of products supporting the new Thomas and Friends® property and increased sales of Dora the Explorer® products. Gross sales of Core Fisher-Price® products was flat with 2009. Fisher-Price Brands US segment income increased \$14.4 million, from \$18.6 million in the first half of 2009 to \$33.0 million in 2010, driven primarily by higher sales volume and higher gross margin.

American Girl Brands gross sales were \$129.1 million in the first half of 2010, as compared to \$127.5 million in 2009, primarily due to strong sales of Lanie, the 2010 Girl of the Year®, and the benefit from the new American Girl® store in Denver, Colorado. American Girl Brands segment loss decreased \$5.0 million, from \$5.2 million in the first half of 2009 to \$0.2 million in 2010, driven primarily by higher sales volume and higher gross margin.

International Segment

The following table provides a summary of percentage changes in gross sales within the International segment for the first half of 2010 versus 2009:

	% Change in Gross Sales	Impact of Change in Currency (in % pts)
Non-US Regions:		
Total International	10	
Europe	8	(1)
Latin America	4	(6)
Asia Pacific	30	10
Other	15	11

International gross sales were \$977.1 million in the first half of 2010, up \$92.1 million or 10%, as compared to 2009, with no impact from changes in currency exchange rates. Gross sales of Mattel Girls & Boys Brands increased 11% in the first half of 2010, with favorable changes in currency exchange rates of 1 percentage point. Gross sales of Barbie® increased 1%, with favorable changes in currency exchange rates of 1 percentage point. Gross sales of Other Girls products was flat with 2009, with favorable changes in currency exchange rates of 3 percentage points. Increased sales of Disney Princess products were partially offset by decreased sales of High School Musical® and Hannah Montana® products. Gross sales of Wheels products increased 3%, with favorable changes in currency exchange rates of 2 percentage points, driven primarily by increased sales of Hot Wheels® products, partially offset by decreased sales of other Wheels products not continuing into 2010. Gross sales of Entertainment products increased 40%, with unfavorable changes in currency exchange rates of 1 percentage point, driven primarily by sales of Toy Story® 3 products and continued momentum from other new entertainment properties, including WWE® Wrestling, as well as increased sales of games products. Gross sales of Fisher-Price Brands increased 10% in the first half of 2010, with no impact from changes in currency exchange rates. Gross sales of Core Fisher-Price® products increased 5%, with no impact from changes in currency exchange rates. Gross sales of Fisher-Price® Friends products increased 38%, with unfavorable changes in currency exchange rates of 5 percentage points, driven primarily by the addition of products supporting the new Thomas and Friends® property and increased sales of Disney products. International segment income increased \$70.7 million from \$36.6 million in the first half of 2009 to \$107.3 million in 2010, driven primarily by higher sales volume and higher gross margins, partially offset by higher advertising and promotion expenses.

Table of Contents

Global Cost Leadership Program

In mid-2008, Mattel initiated its Global Cost Leadership program, which is designed to improve operating efficiencies and leverage Mattel's global scale to improve profitability and operating cash flows. The major initiatives within Mattel's Global Cost Leadership program include:

A global reduction in Mattel's professional workforce of approximately 1,000 employees that was initiated in November 2008, and an additional reduction in Mattel's professional workforce initiated in the third quarter of 2009.

A coordinated efficiency strategic plan that includes structural changes designed to lower costs and improve efficiencies; for example, offshoring and outsourcing certain back office functions, and more clustering of management in international markets.

Additional procurement initiatives designed to fully leverage Mattel's global scale in areas such as creative agency partnerships, legal services, and distribution, including ocean carriers and over-the-road freight vendors.

During the second quarter of 2010, Mattel realized approximately \$12 million of year-over-year incremental gross cost savings before severance charges of approximately \$9 million (or approximately \$3 million in net cost savings). Of the gross cost savings realized during the second quarter of 2010, approximately \$5 million is reflected within gross profit, approximately \$4 million within other selling and administrative expenses, and approximately \$3 million within advertising and promotion expenses.

During the first half of 2010, Mattel realized approximately \$29 million of year-over-year incremental gross cost savings before severance charges of approximately \$11 million (or approximately \$18 million in net cost savings). Of the gross cost savings realized during the first half of 2010, approximately \$16 million is reflected within gross profit, approximately \$9 million within other selling and administrative expenses, and approximately \$4 million within advertising and promotion expenses.

Through June 30, 2010, the Global Cost Leadership program has generated approximately \$182 million of cumulative annual net cost savings. Mattel expects to meet its 2010 goal of approximately \$180 million to \$200 million of cumulative annual net cost savings.

Income Taxes

Mattel's provision for income taxes was \$18.9 million in the first half of 2010, as compared to an income tax benefit of \$12.1 million for the first half 2009. Mattel recognized discrete tax benefits of \$4.3 million and \$2.5 million during the first half of 2010 and 2009, respectively, primarily related to reassessments of prior years' tax liabilities based on the status of current audits and tax filings in various jurisdictions, settlements, and enacted tax law changes. Mattel expects its full year 2010 effective tax rate to be approximately 24 to 25 percent.

During the first half of 2010, Mattel reached a resolution with the IRS regarding all open issues relating to the examination of Mattel's US federal income tax returns for the years 2006 and 2007. The resolution did not have a material impact on Mattel's consolidated financial statement for the first half of 2010.

Liquidity and Capital Resources

Mattel's primary sources of liquidity are its cash and equivalents balances, access to short-term borrowing facilities, including its \$1.08 billion domestic unsecured committed revolving credit facility, and issuances of long-term debt securities. Cash flows from operating activities could be negatively impacted by decreased demand for Mattel's products, which could result from factors such as adverse economic conditions and changes in public and consumer preferences, or by increased costs associated with manufacturing and distribution of products or shortages in raw materials or component parts. Additionally, Mattel's ability to issue long-term debt

Table of Contents

and obtain seasonal financing could be adversely affected by factors such as the current global economic crisis and tight credit environment, an inability to meet its debt covenant requirements, which include maintaining consolidated debt-to-EBITDA and interest coverage ratios, or a deterioration of Mattel's credit ratings. Mattel's ability to conduct its operations could be negatively impacted should these or other adverse conditions affect its primary sources of liquidity.

Current Market Conditions

Mattel is exposed to financial market risk resulting from changes in interest and foreign currency rates. Mattel believes that it has ample liquidity to fund its business needs, including beginning of the year cash and equivalents, cash flows from operations, and access to its \$1.08 billion domestic unsecured committed revolving credit facility, which it uses for seasonal working capital requirements. As of June 30, 2010, Mattel had available incremental borrowing resources totaling \$1.08 billion under this unsecured committed revolving credit facility, and Mattel has not experienced any limitations on its ability to access this source of liquidity. Market conditions could affect certain terms of other debt instruments that Mattel enters into from time to time.

Mattel monitors the third-party depository institutions that hold the company's cash and equivalents. Mattel's emphasis is primarily on safety and liquidity of principal, and secondarily on maximizing the yield on those funds. Mattel diversifies its cash and equivalents among counterparties and securities to minimize risks.

Mattel is subject to credit risks relating to the ability of its counterparties of hedging transactions to meet their contractual payment obligations. The risks related to creditworthiness and nonperformance have been considered in the fair value measurements of Mattel's foreign currency forward exchange contracts. Mattel closely monitors its counterparties and takes action, as necessary, to manage its counterparty credit risk.

Mattel expects that some of its customers and vendors may experience difficulty in obtaining the liquidity required to buy inventory or raw materials. Mattel monitors its customers' financial condition and their liquidity in order to mitigate Mattel's accounts receivable collectibility risks and customer terms and credit limits are adjusted, if necessary. Additionally, Mattel uses a variety of financial arrangements to ensure collectibility of accounts receivable of customers deemed to be a credit risk, including requiring letters of credit, factoring or purchasing various forms of credit insurance with unrelated third parties, or requiring cash in advance of shipment.

Mattel sponsors defined benefit pension plans and postretirement benefit plans for employees of the company. Actual returns below the expected rate of return, along with changes in interest rates that affect the measurement of the liability, would impact the amount and timing of Mattel's future contributions to these plans.

Capital and Investment Framework

To guide future capital deployment decisions, with a goal of maximizing stockholder value, Mattel's Board of Directors in 2003 established the following capital and investment framework:

To maintain approximately \$800 million to \$1 billion in year-end cash available to fund a substantial portion of seasonal working capital;

To maintain a year-end debt-to-capital ratio of about 25%;

To invest approximately \$180 million to \$200 million in capital expenditures annually to maintain and grow the business;

To make strategic acquisitions consistent with Mattel's long-term vision; and

To return excess funds to stockholders through dividends and share repurchases.

Table of Contents

Over the long term, assuming cash flows from operating activities remain strong, Mattel plans to use its free cash flows to invest in strategic acquisitions and to return funds to stockholders through cash dividends and share repurchases. Mattel's share repurchase program has no expiration date and repurchases will take place from time to time, depending on market conditions. The ability to successfully implement the capital deployment plan is directly dependent on Mattel's ability to generate strong cash flows from operating activities. There is no assurance that Mattel will continue to generate strong cash flows from operating activities or achieve its targeted goals for investing activities.

Operating Activities

Cash flows used for operating activities were \$372.1 million in the first half of 2010, as compared to \$349.8 million in 2009. The increase in cash flows used for operating activities was primarily due to the absence of accounts receivable being sold during the second quarter of 2010, and higher working capital requirements, partially offset by higher profitability.

Investing Activities

Cash flows used for investing activities in the first half of 2010 were \$97.3 million, as compared to \$8.7 million provided by investing activities in the first half of 2009. Cash flows used for investing activities were higher in the first half of 2010 primarily due to the absence of proceeds received from the redemption of a money market investment fund of approximately \$67 million during 2009 and higher net payments relating to settled foreign currency forward exchange contracts.

Financing Activities

Cash flows used for financing activities in the first half of 2010 were \$99.1 million, as compared to \$143.3 million provided by financing activities in the first half of 2009. The increase in cash flows used for financing activities was primarily due to higher share repurchases and lower net borrowings.

Seasonal Financing

Mattel maintains and periodically amends or replaces its domestic unsecured committed revolving credit facility with a commercial bank group that is used as the primary source of financing for the seasonal working capital requirements of its domestic subsidiaries. The agreement in effect was amended and restated on March 23, 2009 to, among other things, (i) extend the maturity date of the credit facility to March 23, 2012, (ii) reduce aggregate commitments under the credit facility from \$1.3 billion to \$880.0 million, with an accordion feature, which would allow Mattel to increase the availability under the credit facility to \$1.08 billion under certain circumstances, (iii) add an interest rate floor equal to 30-day US Dollar London Interbank Offered Rate (LIBOR) plus 1.00% for base rate loans under the credit facility, (iv) increase the applicable interest rate margins to a range of 2.00% to 3.00% above the applicable base rate for base rate loans, and 2.5% to 3.5% above the applicable LIBOR rate for Eurodollar rate loans, depending on Mattel's senior unsecured long-term debt rating, (v) increase commitment fees to a range of 0.25% to 0.75% of the unused commitments under the credit facility, and (vi) replace the consolidated debt-to-capital ratio with a consolidated debt-to-earnings before interest, taxes, depreciation, and amortization (EBITDA) ratio. During 2009, Mattel utilized the accordion feature of the credit facility to increase the aggregate commitments under the credit facility from \$880.0 million to \$1.08 billion, which is the maximum aggregate commitment available under the credit facility.

The credit facility contains a variety of covenants, including financial covenants that Mattel is required to meet at the end of each fiscal quarter and fiscal year, using the formulae specified in the credit agreement to calculate the ratios. Mattel was in compliance with such covenants at the end of the second quarter of 2010. As of June 30, 2010, Mattel's consolidated debt-to-EBITDA ratio, as calculated per the terms of the credit agreement, was 0.7 to 1 (compared to a maximum allowed of 3.0 to 1) and Mattel's interest coverage ratio was 15.7 to 1 (compared to a minimum required of 3.50 to 1).

Table of Contents

The domestic unsecured committed revolving credit facility is a material agreement and failure to comply with the financial covenant ratios may result in an event of default under the terms of the facility. If Mattel defaulted under the terms of the domestic unsecured committed revolving credit facility, its ability to meet its seasonal financing requirements could be adversely affected.

To finance seasonal working capital requirements of certain foreign subsidiaries, Mattel avails itself of individual short-term credit lines with a number of banks. Mattel expects to extend the majority of these credit lines throughout 2010.

In April 2010, a major credit rating agency changed Mattel's long-term credit rating from BBB- to BBB and short-term credit rating from A-3 to A-2, and maintained its outlook at stable. In May 2010, another major credit rating agency changed Mattel's long-term credit rating from BBB to BBB+ and its outlook from stable to positive.

Mattel believes its cash on hand, amounts available under its domestic unsecured committed revolving credit facility, and its foreign credit lines will be ample to meet its seasonal financing requirements in 2010.

Mattel has a \$300.0 million domestic receivables sales facility that was also amended in connection with the amendment of the credit facility. The amendment to the receivables sales facility, among other things, (i) extended the maturity date of the receivables sales facility to March 23, 2012, and (ii) incorporated the credit facility's increased applicable interest rate margins described above. The outstanding amount of receivables sold under the domestic receivables facility may not exceed \$300.0 million at any given time, and the amount available to be borrowed under the credit facility is reduced to the extent of any such outstanding receivables sold. Under the domestic receivables facility, certain trade receivables are sold to a group of banks, which currently include, among others, Bank of America, N.A., as administrative agent, Citicorp USA, Inc. and Barclays Bank PLC, as co-syndication agents, and Societe Generale and BNP Paribas, as co-documentation agents. Pursuant to the domestic receivables facility, Mattel Sales Corp., Fisher-Price, Inc., and Mattel Direct Import, Inc. (which are wholly owned subsidiaries of Mattel) can sell eligible trade receivables from Wal-Mart and Target to Mattel Factoring, Inc. (Mattel Factoring), a Delaware corporation and wholly owned, consolidated subsidiary of Mattel. Mattel Factoring is a special purpose entity whose activities are limited to purchasing and selling receivables under this facility. Pursuant to the terms of the domestic receivables facility and simultaneous with each receivables purchase, Mattel Factoring sells those receivables to the bank group. Mattel records the transaction, reflecting cash proceeds and sale of accounts receivable in its consolidated balance sheet, at the time of the sale of the receivables to the bank group.

The outstanding amounts of accounts receivable that have been sold under these facilities and other factoring arrangements, net of collections from customers, have been excluded from Mattel's consolidated balance sheets and are summarized as follows:

	June 30, 2010	June 30, 2009	December 31, 2009
	(In millions)		
Receivables sold pursuant to the:			
Domestic receivables facility	\$	\$ 81.0	\$ 299.7
Other factoring arrangements			33.4
	\$	\$ 81.0	\$ 333.1

During the three and six months ended June 30, 2010, Mattel did not sell accounts receivable under the receivable sales facility or other factoring arrangements.

Table of Contents*Financial Position*

Mattel's cash and equivalents decreased by \$572.1 million to \$544.9 million at June 30, 2010, as compared to December 31, 2009. The decrease was driven primarily by the timing and amount of accounts payable and accrued liabilities payments, seasonal increases in inventory, \$111.2 million of share repurchases, \$57.5 million of purchases of tools, dies, and molds, and other property, plant, and equipment, and a \$40.0 million scheduled repayment of Medium-term notes, partially offset by proceeds received from the exercise of stock options.

Accounts payable and accrued liabilities decreased by \$205.9 million to \$762.6 million at June 30, 2010, as compared to December 31, 2009. The decrease was driven primarily by the timing and amount of payments of various accrued liability balances, including incentive compensation, royalties, and advertising obligations.

The current portion of long-term debt increased \$200.0 million to \$250.0 million at June 30, 2010, as compared to \$50.0 million at December 31, 2009, due to a \$40.0 million scheduled repayment of Medium-term notes in May 2010, offset by the reclassification of \$200.0 million of 2006 Senior Notes and \$40.0 million of Medium-term notes from noncurrent to current.

A summary of Mattel's capitalization is as follows:

	June 30, 2010		June 30, 2009		December 31, 2009	
	(In millions, except percentage information)					
Medium-term notes	\$ 110.0	3%	\$ 160.0	5%	\$ 150.0	4%
2006 Senior Notes			200.0	6	200.0	5
2008 Senior Notes	350.0	10	350.0	10	350.0	10
Total noncurrent long-term debt	460.0	13	710.0	21	700.0	19
Other noncurrent liabilities	481.0	14	550.4	16	488.7	13
Stockholders' equity	2,507.0	73	2,169.7	63	2,531.0	68
	\$ 3,448.0	100%	\$ 3,430.1	100%	\$ 3,719.7	100%

Total noncurrent long-term debt decreased by \$240.0 million at June 30, 2010, as compared to December 31, 2009, due to the reclassification of \$200.0 million of 2006 Senior Notes and \$40.0 million of Medium-term notes to current. Mattel expects to satisfy its future long-term capital needs through the generation of corporate earnings and issuance of long-term debt instruments, as needed.

Other noncurrent liabilities decreased \$69.4 million at June 30, 2010, as compared to June 30, 2009, due primarily to decreases in long-term defined benefit pension plan obligations.

Stockholders' equity of \$2.51 billion increased \$337.3 million from June 30, 2009, primarily as a result of net income, partially offset by the payment of the annual dividend in the fourth quarter of 2009, unfavorable currency translation adjustment, and share repurchases in the second quarter of 2010.

Mattel's debt-to-capital ratio, including short-term borrowings and current portion of long-term debt, decreased from 32.7% at June 30, 2009 to 22.1% at June 30, 2010 due to the aforementioned increase in stockholders' equity and decrease in debt. Mattel's objective is to maintain a year-end debt-to-capital ratio of approximately 25%.

Litigation

See Part II, Item 1 - Legal Proceedings.

Application of Critical Accounting Policies and Estimates

Mattel's critical accounting policies and estimates are included in its Annual Report on Form 10-K for the year ended December 31, 2009, and did not change during the first half of 2010.

Table of Contents**Non-GAAP Financial Measure**

In this Quarterly Report on Form 10-Q, Mattel includes a non-GAAP financial measure, gross sales, which it uses to analyze its continuing operations and to monitor, assess and identify meaningful trends in its operating and financial performance. Net sales, as reported in the consolidated statements of operations, include the impact of sales adjustments, such as trade discounts and other allowances. Gross sales represent sales to customers, excluding the impact of sales adjustments.

Consistent with its segment reporting, Mattel presents changes in gross sales as a metric for comparing its aggregate, business unit, brand and geographic results to highlight significant trends in Mattel's business. Changes in gross sales are discussed because, while Mattel records the detail of such sales adjustments in its financial accounting systems at the time of sale, such sales adjustments are generally not associated with individual products, making net sales less meaningful. A reconciliation of gross sales to the most directly comparable GAAP financial measure, net sales, is as follows:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
	(In thousands)			
Worldwide Revenues				
Mattel Girls & Boys Brands	\$ 653,159	\$ 540,571	\$ 1,226,271	\$ 1,044,595
Fisher-Price Brands	385,167	369,937	701,360	653,672
American Girl Brands	58,880	61,040	129,086	127,470
Other	4,839	3,487	5,602	6,437
Gross sales	1,102,045	975,035	2,062,319	1,832,174
Sales adjustments	(83,542)	(76,838)	(163,734)	(148,331)
Net sales	\$ 1,018,503	\$ 898,197	\$ 1,898,585	\$ 1,683,843

Item 3. Quantitative and Qualitative Disclosures About Market Risk.*Foreign Currency Exchange Rate Risk*

Currency exchange rate fluctuations may impact Mattel's results of operations and cash flows. Inventory purchase and sale transactions denominated in the Euro, British pound sterling, and Mexican peso were the primary transactions that caused foreign currency transaction exposure for Mattel. Mattel seeks to mitigate its exposure to market risk by monitoring its currency transaction exposure for the year and partially hedging such exposure using foreign currency forward exchange contracts primarily to hedge its purchase and sale of inventory, and other intercompany transactions denominated in foreign currencies. These contracts generally have maturity dates of up to 18 months. For those intercompany receivables and payables that are not hedged, the transaction gains or losses are recorded in the consolidated statement of operations in the period in which the exchange rate changes as part of operating loss or other non-operating (income) expense, net based on the nature of the underlying transaction. Transaction gains or losses on hedged intercompany inventory transactions are recorded in the consolidated statement of operations in the period in which the inventory is sold to customers. In addition, Mattel manages its exposure to currency exchange rate fluctuations through the selection of currencies used for international borrowings. Mattel does not trade in financial instruments for speculative purposes.

Mattel's financial position is also impacted by currency exchange rate fluctuations on translation of its net investment in subsidiaries with non-US dollar functional currencies. Assets and liabilities of subsidiaries with non-US dollar functional currencies are translated into US dollars at fiscal period-end exchange rates. Income, expense, and cash flow items are translated at weighted average exchange rates prevailing during the fiscal year. The resulting currency translation adjustments are recorded as a component of accumulated other comprehensive loss within stockholders' equity. Mattel's primary currency translation exposures for the second quarter of 2010 were related to its net investment in entities having functional currencies denominated in the Euro, British pound sterling, and Mexican peso.

Table of Contents

There are numerous factors impacting the amount by which Mattel's financial results are affected by foreign currency transaction and translation gains and losses resulting from changes in currency exchange rates, including but not limited to the level of foreign currency forward exchange contracts in place at a given time and the volume of foreign currency denominated transactions in a given period. However, assuming that such factors were held constant, Mattel estimates that a 1 percent change in the US dollar Trade-Weighted Index would impact Mattel's net sales by approximately 0.5% and its full year earnings per share by approximately \$0.01 to \$0.02.

Risks Associated with Venezuelan Operations

Mattel's pricing decisions in Venezuela are intended to mitigate the risks of government imposed currency controls and significant inflation by aligning Mattel's prices with its expectations of the local currency cost of acquiring inventory and distributing earnings in US dollars. Mattel applies to the Venezuelan government's Foreign Exchange Administrative Commission, CADIVI, for the conversion of local currency to US dollars at the official exchange rate. Through May 17, 2010, for US dollar needs exceeding conversions obtained through CADIVI, the parallel exchange market, with rates substantially less favorable than the official exchange rate, was used to obtain US dollars without approval from CADIVI.

At December 31, 2009, Mattel changed the rate it used to translate its Venezuelan subsidiary's transactions and balances from the official exchange rate to the parallel exchange rate, which was quoted at 5.97 Venezuelan bolivar fuertes per US dollar on December 31, 2009. The resulting foreign currency translation adjustment of approximately \$15 million increased accumulated other comprehensive loss within stockholders' equity as of December 31, 2009. Mattel's considerations for changing the rate included indications that the Venezuelan government is not likely to continue to provide substantial currency exchange at the official rate for companies importing discretionary products, such as toys, difficulties in obtaining approval for the conversion of local currency to US dollars at the official exchange rate (for imported products and dividends), delays in previously obtained approvals being honored by CADIVI, and Mattel's 2009 repatriation of dividends from its Venezuelan subsidiary at the parallel exchange rate.

Effective January 1, 2010, Mattel has accounted for Venezuela as a highly inflationary economy as the three-year cumulative inflation rate for Venezuela, using a blend of the Consumer Price Index associated with the city of Caracas and the National Consumer Price Index (developed commencing in 2008 and covering the entire country of Venezuela), exceeded 100%. Accordingly, Mattel's Venezuelan subsidiary uses the US dollar as its functional currency. As a result of the change to a US dollar functional currency, monetary assets and liabilities denominated in Venezuelan bolivar fuertes generate income or expense for changes in value associated with foreign currency exchange rate fluctuations against the US dollar.

On January 11, 2010, the Venezuelan government devalued the Venezuelan bolivar fuerte and changed to a two-tier exchange structure. The official exchange rate moved from 2.15 Venezuelan bolivar fuerte per US dollar to 2.60 for essential goods and 4.30 for non-essential goods and services, with Mattel's products falling into the non-essential category. The devaluation is not expected to materially impact Mattel's 2010 consolidated financial statements, and had no impact on Mattel's consolidated financial statements during the three and six months ended June 30, 2010.

On May 17, 2010, the Venezuelan government enacted reforms to its foreign currency exchange control regulations (the exchange control regulations) to close down the parallel exchange market. On June 9, 2010, the Venezuelan government enacted additional reforms to its exchange control regulations and introduced a newly regulated foreign currency exchange system, Sistema de Transacciones con Títulos en Moneda Extranjera (SITME), which is controlled by the Central Bank of Venezuela (BCV). Foreign currency exchange transactions not conducted through CADIVI or SITME may not comply with the exchange control regulations, and could therefore be considered illegal. The SITME imposes volume restrictions on the conversion of Venezuelan bolivar fuerte to US dollar, currently limiting such activity to a maximum equivalent of \$350

Table of Contents

thousand per month. As a result of the enactment of the reforms to the exchange control regulations, Mattel changed the rate it uses to remeasure Venezuelan bolivar fuerte-denominated transactions from the parallel exchange rate to the SITME rate specified by the BCV, which was quoted at 5.30 Venezuelan bolivar fuertes per US dollar on June 30, 2010. The net gain resulting from the remeasurement of Venezuelan bolivar fuerte-denominated transactions to the SITME rate specified by the BCV increased pre-tax income by approximately \$4 million during the three months ended June 30, 2010.

Mattel's Venezuelan subsidiary had approximately \$21 million of net monetary assets denominated in Venezuelan bolivar fuertes as of June 30, 2010. For every \$10 million of net monetary assets denominated in Venezuelan bolivar fuertes, a 1% increase/(decrease) in the foreign currency exchange rate would decrease/(increase) Mattel's pre-tax income by approximately \$100 thousand. While Mattel's level of net monetary assets denominated in Venezuelan bolivar fuertes will vary from one period to another based on operating cycles and seasonality, Mattel does not expect future remeasurement adjustments to be material to Mattel's consolidated financial statements. During the three and six months ended June 30, 2010, Mattel's Venezuelan subsidiary generated less than 1% of Mattel's consolidated net sales.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As of June 30, 2010, Mattel's disclosure controls and procedures were evaluated to provide reasonable assurance that information required to be disclosed by Mattel in the reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to management, as appropriate, in a timely manner that would alert them to material information relating to Mattel that would be required to be included in Mattel's periodic reports and to provide reasonable assurance that such information was recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms. Based on this evaluation, Robert A. Eckert, Mattel's principal executive officer, and Kevin M. Farr, Mattel's principal financial officer, concluded that these disclosure controls and procedures were effective as of June 30, 2010.

Changes in Internal Control Over Financial Reporting

Mattel made no changes to its internal control over financial reporting or in other factors that materially affected, or were reasonably likely to have materially affected, its internal control over financial reporting during the quarter ended June 30, 2010.
