ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2010

Commission file number
1-10585

CHURCH & DWIGHT CO., INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

13-4996950
(I.R.S. Employer
Identification No.)

Edgar Filing: CHURCH & DWIGHT CO INC /DE/ - Form 10-K

469 North Harrison Street, Princeton, N.J. 08543

(Address of principal executive offices)

Registrant's telephone number, including area code: (609) 683-5900

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common Stock, \$1 par value	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding twelve months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the voting and non-voting common equity held by non-affiliates as of July 2, 2010 (the last business day of the registrant's most recently completed second fiscal quarter) was approximately \$4.4 billion. For purposes of making this calculation only, the registrant included all directors, executive officers and beneficial owners of more than ten percent of the Common Stock of the Company as affiliates. The aggregate market value is based on the closing price of such stock on the New York Stock Exchange on July 2, 2010.

As of February 18, 2011, there were 71,300,995 shares of Common Stock outstanding.

Documents Incorporated by Reference

Edgar Filing: CHURCH & DWIGHT CO INC /DE/ - Form 10-K

Certain provisions of the registrant's definitive proxy statement to be filed not later than April 30, 2011 are incorporated by reference in Items 10 through 14 of Item III of this Annual Report on Form 10-K.

CAUTIONARY NOTE ON FORWARD-LOOKING INFORMATION

This Annual Report contains forward-looking statements, including, among others, statements relating to short- and long-term financial objectives, sales and earnings growth, earnings per share, margin improvement, price increases, trade and marketing spending, the Company's hedge programs, increases in research and development and product development spending, interest rate collars and swap agreements, the impact of foreign exchange and commodity fluctuations, the effective tax rate, the impact of tax audits and the lapse of applicable statutes of limitations, pension plan contributions, the completion of the York, Pennsylvania laundry detergent and warehouse facility, capital expenditures relating to the new facility, facility restructuring charges, environmental matters, the closing of the Company's facilities in North Brunswick, New Jersey and certain facilities at an international location, the sufficiency of cash flows from operations and the Company's current and anticipated future borrowing capacity to meet capital expenditure program costs, and payment of dividends, the acquisition of the Simply Saline brand, Feline Pine brand and oral care technology, divestitures, the effect of the credit environment on the Company's liquidity and the Company's ability to renew its accounts receivable securitization facility. These statements represent the intentions, plans, expectations and beliefs of the Company, and are subject to risks, uncertainties and other factors, many of which are outside the Company's control and could cause actual results to differ materially from such forward-looking statements. Important factors that could cause actual results to differ materially from those in the forward-looking statements include a decline in market growth and consumer demand (including the effect of political, economic and marketplace conditions and events on consumer demand); unanticipated increases in raw material and energy prices; adverse developments affecting the financial condition of major customers and suppliers; competition; the impact of trade customer actions in response to changes in consumer demand and the economy, including increasing shelf space of private label products; consumer reaction to new product introductions and features; disruptions in the banking system and financial markets and the outcome of contingencies, including litigation, pending regulatory proceedings and environmental remediation.

The Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures we make on related subjects in our filings with the U.S. Securities and Exchange Commission.

Table of Contents

PART I

**ITEM 1. BUSINESS
GENERAL**

The Company, founded in 1846, develops, manufactures and markets a broad range of household, personal care and specialty products. The Company focuses its marketing efforts principally on its eight power brands. These well-recognized brand names include ARM & HAMMER, (used in multiple product categories such as baking soda, carpet deodorization and laundry detergent), TROJAN Condoms, XTRA laundry detergent, OXICLEAN pre-wash laundry additive, NAIR depilatories, FIRST RESPONSE home pregnancy and ovulation test kits, ORAJEL oral analgesics and SPINBRUSH battery-operated toothbrushes. The Company's business is divided into three primary segments, Consumer Domestic, Consumer International and Specialty Products. The Consumer Domestic segment includes the eight power brands and other household and personal care products such as SCRUB FREE, KABOOM and ORANGE GLO cleaning products, ANSWER home pregnancy and ovulation test kits, ARRID antiperspirant, and CLOSE-UP and AIM toothpastes. The Consumer International segment primarily sells a variety of personal care products, some of which use the same brands as our domestic product lines, in international markets, including Canada, France, Australia, the United Kingdom, Mexico, Brazil and China. The Specialty Products segment is the largest U.S. producer of sodium bicarbonate, which it sells together with other specialty inorganic chemicals for a variety of industrial, institutional, medical and food applications. This segment also sells a range of animal nutrition and specialty cleaning products. In 2010, the Consumer Domestic, Consumer International and Specialty Products segments represented approximately 73%, 17% and 10%, respectively, of the Company's net sales.

All domestic brand rankings contained in this report are based on dollar share rankings from AC Nielsen FDM excluding Wal-Mart for the 52 weeks ending December 25, 2010. Foreign brand rankings are derived from several sources.

2010 DEVELOPMENTS

On June 4, 2010, the Company acquired the SIMPLY SALINE brand of Nasal Saline Moisturizers from Blairex Laboratories (Simply Saline Acquisition) for cash consideration of \$70.0 million. This brand will complement the Company's existing STERIMAR brand nasal saline solution business in Europe and other parts of the world. The SIMPLY SALINE brand will be managed principally within the Consumer Domestic segment.

On December 21, 2010, the Company acquired the FELINE PINE cat litter brand from Nature's Earth Products, Inc. (Feline Pine Acquisition) for a cash consideration of \$46.0 million. This brand will complement the Company's existing cat litter business and position the Company as the leading supplier of natural cat litter. The FELINE PINE brand will be managed within the Consumer Domestic segment.

In the first quarter of 2010, the Company sold the BRILLO and certain LAMBERT KAY product lines, along with associated productive assets, that were classified as net assets held for sale at December 31, 2009. The aggregate carrying value of these assets at December 31, 2009 was approximately \$8.8 million. Subsequent to December 31, 2009, the Company received net proceeds from the sale of these assets of \$8.2 million, along with a note receivable of \$1.8 million, and, in the first quarter of 2010, recognized a gain of approximately \$1.0 million that was recorded as an offset to selling, general and administrative expenses in the Consumer Domestic segment.

On January 27, 2010, the Company's Board of Directors approved the termination, effective April 15, 2010, of the Church & Dwight Co., Inc. Retirement Plan for Hourly Employees (the U.S. Pension Plan), under which approximately 766 participants, including 46 active employees, have accrued benefits. On December 1, 2010, the Company as plan sponsor of the U.S. Pension Plan, purchased a non-participating group annuity contract from the Principal Life Insurance Company for the benefit of certain former and current employees with vested benefits in, and retired participants currently receiving benefits from the U.S. Pension Plan. In addition, effective December 1, 2010, an existing participating annuity contract with Aetna Insurance Company was changed to a non-participating annuity contract.

Table of Contents

The purchase price of the contracts was approximately \$63 million, which was funded from the assets of the U.S. Pension Plan on December 1, 2010 (considered the measurement date for accounting purposes) and a one-time payment by the Company of approximately \$14 million (or \$9 million after taxes). The transactions have resulted in the transfer and settlement of the U.S. pension benefit obligation, thus relieving the Company of any responsibility for the U.S. Pension Plan obligation. As a result of the transfer of the U.S. Pension Plan obligations and assets described above, the Company recorded a charge to earnings in the fourth quarter of 2010 of approximately \$24 million pre-tax or \$0.21 per share. This charge is included in selling, general and administrative costs.

The Company's York, Pennsylvania manufacturing and distribution facility, which started production in late 2009, has met the Company's expectation concerning production throughput and operating costs and was a key contributor to gross margin improvement in 2010.

FINANCIAL INFORMATION ABOUT SEGMENTS

As noted above, the Company's business is organized into three reportable segments, Consumer Domestic, Consumer International and Specialty Products (SPD). These segments are based on differences in the nature of products and organizational and ownership structures. The businesses of these segments generally are not seasonal, although the Consumer Domestic and Consumer International segments are affected by sales of SPINBRUSH battery-operated toothbrushes, which typically are higher during the fall, in advance of the holiday season, and sales of the depilatories and waxes product group, which typically are higher in the spring and summer months. Information concerning the net sales, operating income and identifiable assets of each of the segments is set forth in Note 19 to the consolidated financial statements included in this report and in Management's Discussion and Analysis of Financial Condition and Results of Operations, which is Item 7 of this report.

CONSUMER PRODUCTS

Consumer Domestic

Principal Products

The Company's founders first marketed baking soda in 1846 for use in home baking. Today, this product has a wide variety of uses in the home, including as a refrigerator and freezer deodorizer, scratch-free cleaner and deodorizer for kitchen surfaces and cooking appliances, bath additive, dentifrice, cat litter deodorizer and swimming pool pH stabilizer. The Company specializes in baking soda-based products, as well as other products which use the same raw materials or technology or are sold in the same markets. In addition, this segment includes other deodorizing and household cleaning products, as well as laundry and personal care products. The following table sets forth the principal products of the Company's Consumer Domestic segment.

Type of Product	Key Brand Names
Household	ARM & HAMMER Pure Baking Soda ARM & HAMMER and XTRA Powder and Liquid Laundry Detergents ARM & HAMMER Carpet & Room Deodorizers ARM & HAMMER Cat Litter Deodorizer ARM & HAMMER Clumping Cat Litters ARM & HAMMER FRESH N SOFT Fabric Softeners ARM & HAMMER Total 2-in-1 Dryer Cloths ARM & HAMMER Super Washing Soda SCRUB FREE Bathroom Cleaners CLEAN SHOWER Daily Shower Cleaner CAMEO Aluminum & Stainless Steel Cleaner SNO BOL Toilet Bowl Cleaner

Household Products

In 2010, household products constituted approximately 64% of the Company's Domestic Consumer sales and approximately 47% of the Company's total sales.

The ARM & HAMMER trademark was adopted in 1867. ARM & HAMMER Baking Soda remains the leading brand of baking soda in terms of consumer recognition of the brand name and reputation for quality and value. The deodorizing properties of baking soda have led to the development of several household products. For example, the Company markets ARM & HAMMER FRIDGE FRESH, a refrigerator deodorizer equipped with a baking soda filter to keep food tasting fresher. In addition, ARM & HAMMER Carpet and Room Deodorizer is the number one brand in the domestic carpet and room deodorizer market.

The Company's laundry detergents constitute its largest consumer business, measured by net sales. The Company markets its ARM & HAMMER brand laundry detergents, in both powder and liquid forms, as value products, priced at a discount from products identified by the Company as market leaders. The Company markets its XTRA laundry detergent in both powder and liquid at a slightly lower price than ARM & HAMMER brand laundry detergents. Although the powder laundry detergent segment continued its long-term steady decline throughout 2010, ARM & HAMMER powder maintained its position as the leading powder detergent value brand by dollar share. The Company also markets XTRA SCENTSATIONS, a highly fragranced and concentrated liquid laundry detergent, and OXICLEAN pre-wash laundry additive. OXICLEAN is the number one brand in the laundry pre-wash additives market in the U.S. The Company markets ARM & HAMMER plus OXICLEAN liquid and powder laundry detergents, combining the benefits of these two powerful laundry detergent products. In 2010, the Company launched ARM & HAMMER Power Gel Laundry Detergent.

Table of Contents

The Company's laundry products also include fabric softener sheets that prevent static cling and soften and freshen clothes. The Company markets ARM & HAMMER FRESH 'N SOFT liquid fabric softener and offers another liquid fabric softener, NICE 'N FLUFFY, at a slightly lower price enabling the Company to compete at several price points. The Company markets ARM & HAMMER Total 2-in-1 Dryer Cloths, a fabric softener sheet used in the clothes dryer that delivers liquid-like softening, freshening and static control.

The Company also markets a line of cat litter products, including ARM & HAMMER SUPER SCOOP clumping cat litter. Line extensions of SUPER SCOOP include ARM & HAMMER Multi-Cat cat litter, designed for households with more than one cat, ARM & HAMMER ODOR ALERT cat litter, with crystals that change color when activated, and ARM & HAMMER ESSENTIALS clumping cat litter, a corn-based scoopable litter made for consumers who prefer to use products made from natural ingredients. In December 2010, the Company acquired FELINE PINE brand cat litter. FELINE PINE cat litter is the number one brand in the natural litter segment, which is the highest growth segment in the litter category. This brand will complement the Company's existing cat litter business and position the Company as the leading supplier of natural cat litter. In 2010, the Company launched ARM & HAMMER Double Duty Cat Litter, which eliminates both urine and feces odors on contact.

In addition, the Company markets a line of household cleaning products including CLEAN SHOWER daily shower cleaner, SCRUB FREE bathroom cleaners and SNO BOL toilet bowl cleaner. The Company also markets KABOOM bathroom cleaner and ORANGE GLO household cleaning products.

Personal Care Products

The Company entered the personal care business using the unique strengths of its ARM & HAMMER trademark and baking soda technology, and has expanded its presence through its acquisition of antiperspirants, oral care products, depilatories, reproductive health products, oral analgesics and nasal saline moisturizers. In 2010, Personal Care Products constituted approximately 36% of the Company's Consumer Domestic sales and approximately 26% of the Company's total sales.

ARM & HAMMER Baking Soda, when used as a dentifrice, whitens and polishes teeth, removes plaque and leaves the mouth feeling fresh and clean. These properties led to the development of a complete line of sodium bicarbonate-based dentifrice products which are marketed and sold nationally primarily under the ARM & HAMMER DENTAL CARE brand name.

The Company also manufactures in the United States and markets in the United States (including Puerto Rico) and Canada, CLOSE-UP, PEPSODENT and AIM toothpastes, which are priced at a discount from the market leaders, and the MENTADENT brand of toothpaste and toothbrushes.

The Company markets ORAJEL oral analgesics, which includes products for adults as well as BABY ORAJEL Cooling Cucumber Teething Gel and BABY ORAJEL Tooth and Gum Cleanser.

The Company markets SPINBRUSH battery-operated toothbrushes in the United States (including Puerto Rico), the United Kingdom, Canada, China and Australia. In 2010, the SPINBRUSH battery-operated toothbrush was the number one brand of battery-operated toothbrushes in the United States. The Company also markets SPINBRUSH Pro-Select toothbrushes, a two speed version of SPINBRUSH, SPINBRUSH Pro-Recharge, a rechargeable toothbrush offering up to one week of power brushes between charges and SPINBRUSH Sonic, a reasonably priced high speed battery-operated toothbrush which competes with much more expensive sonic toothbrushes. In September 2010, the Company acquired additional technology related to our oral care business.

The Company's deodorant and antiperspirant products are marketed under the ARM & HAMMER, ARRID and LADY'S CHOICE brand names.

Table of Contents

Condoms are recognized as highly reliable contraceptives as well as an effective means of reducing the risk of sexually transmitted diseases (STDs). The TROJAN condom brand has been in use for more than 90 years. In 2010, the brand continued its market share leadership in the United States with the launch of the new ECSTASY product line and continued success of such products as EXTENDED PLEASURE, HER PLEASURE, TWISTED PLEASURE, SHARED PLEASURE, MAGNUM WITH WARM SENSATIONS, a unique lubricant system which warms the skin on contact for enhanced pleasure, and TROJAN Ultra Thin condoms. In 2010, the Company launched TROJAN Fire and Ice Condoms. The Company also markets a series of vibrating products under the TROJAN name.

In 2010, FIRST RESPONSE continued to be the number one brand in the home pregnancy and ovulation test kit business category. The Company also markets FIRST RESPONSE Rapid Result test kit, designed to tell a woman if she is pregnant within one minute after taking the test and ANSWER, which competes in the value segment of the home pregnancy and ovulation test kit market. The Company also markets an at-home female fertility test under the FIRST RESPONSE brand name.

The NAIR depilatory brand is the number one depilatory brand in the United States, with innovative products that address consumer needs for quick, complete and longer-lasting hair removal. The Company offers a full array of depilatory products for women, men and teens under the NAIR brand name.

In June 2010, the Company acquired the SIMPLY SALINE brand of nasal saline moisturizers. This brand will complement the Company s existing STERIMAR brand nasal saline solution business in Europe and other parts of the world.

Consumer International

The Consumer International segment markets and sells a variety of personal care products, over-the-counter and household products in international markets, including Canada, France, Australia, the United Kingdom, Mexico, Brazil and China.

Total Consumer International sales represented approximately 17% of the Company s consolidated net sales in 2010. Canada, France and the United Kingdom accounted for 38%, 18% and 16%, respectively, of the Company s international net sales in this segment in 2010. No other country in which the Company operates accounts for more than 10% of its total international net sales in this segment, and no brand accounts for more than 10% of total international net sales.

Certain of the Company s international product lines are similar to its domestic product lines. The Company markets depilatories and waxes, home pregnancy and ovulation test kits and oral care products in most of its international markets. For example, the Company markets waxes and depilatory products in virtually all international locations, and TROJAN condoms in Canada and Mexico.

The Company has expanded distribution of ARM & HAMMER products internationally by selling ARM & HAMMER laundry and pet care products in Canada and ARM & HAMMER laundry care products in Mexico. The Company also markets SPINBRUSH battery-operated toothbrushes, primarily in the United Kingdom, Canada, China and Australia, and OXICLEAN, KABOOM and ORANGE GLO products primarily in Mexico and Canada.

The Company sells PEARL DROPS products in Europe, Canada and Australia and STERIMAR nasal hygiene products in a number of markets in Europe, Latin America and Australia.

COMPETITION FOR CONSUMER DOMESTIC AND CONSUMER INTERNATIONAL

The Company competes in the oral care, personal care and deodorizing markets using the strengths of its trademarks and technologies. These are highly innovative markets, characterized by a continuous flow of new products and line extensions, and requiring heavy advertising and promotion.

Table of Contents

The domestic condom market is highly concentrated in product offerings with a limited number of competitors. The market is divided between premium brands and price brands, with companies competing on the basis of quality, innovation and price.

The domestic depilatories and waxes market is highly concentrated with a limited number of competitors. Products compete based on their functionality, innovation and price.

Consumer products, particularly those that are value-priced, such as laundry and household cleaning products, are subject to significant price competition. As a result, the Company may need to reduce the prices for some of its products to respond to competitive and customer pressures and to maintain market share.

Internationally, the Company's products compete in similar competitive categories.

Many of the Company's competitors are large companies, including The Procter & Gamble Company, Sun Products Corporation, The Clorox Company, Colgate-Palmolive Company, S.C. Johnson & Son, Inc., Henkel AG & Co. KGaA, Reckitt Benckiser Group plc, Johnson & Johnson and Inverness Medical Innovations, Inc.. Many of these companies have greater financial resources than the Company and have the capacity to outspend the Company if they attempt to gain market share.

Product introductions typically involve heavy marketing costs in the year of launch, and the Company usually is not able to determine whether the new products and line extensions will be successful until a period of time has elapsed following the introduction of the new products or the extension of the product line.

Because of the competitive environment facing retailers, the Company faces pricing pressure from customers, particularly the high-volume retail store customers, who have increasingly sought to obtain pricing concessions or better trade terms. These concessions or terms could reduce the Company's margins. Furthermore, if the Company is unable to maintain price or trade terms acceptable to its trade customers, the customers could increase product purchases from competitors and reduce purchases from the Company, which would harm the Company's sales and profitability.

DISTRIBUTION FOR CONSUMER DOMESTIC

Products in the Consumer Domestic segment are marketed throughout the United States primarily through a broad distribution platform that includes supermarkets, mass merchandisers, wholesale clubs, drugstores, convenience stores, pet specialty stores and dollar stores. The Company employs a sales force based regionally throughout the United States. In each market, the sales force utilizes the services of independent food brokers, who represent our products in the Food, Pet, Dollar and Club classes of trade. The Company's products are stored in Company plants and public warehouses and are either delivered by independent trucking companies or picked up by customers.

DISTRIBUTION FOR CONSUMER INTERNATIONAL

The Company's Consumer International distribution network reflects capacity and cost considerations in the markets served. In Canada, Mexico and Australia, finished goods are warehoused internally and shipped directly to customers through independent freight carriers. In the United Kingdom, domestic product distribution is subcontracted to professional distribution companies, while export product distribution is handled internally and shipped from the Company's warehouses. In France, distribution of consumer products to mass markets is handled internally while distribution of OTC products to pharmacies and professional diagnostics to laboratories is handled by outside agencies. In Brazil and China, all product distribution is subcontracted to professional distribution companies.

Table of Contents

Specialty Products (SPD)

Principal Products

The Company's SPD segment focuses on sales to businesses and participates in three product areas: Specialty Chemicals, Animal Nutrition and Specialty Cleaners. The following table sets forth the principal products of the Company's SPD segment.

Specialty Cleaners	Commercial & Professional Cleaners and Deodorizers ARMAKLEEN Aqueous Cleaners ⁽³⁾ ARMEX Blast Media ⁽³⁾

(1) Manufactured and marketed by Armand Products Company, an entity in which the Company holds a 50% joint venture interest.

(2) Manufactured for the Company by Armand Products Company.

(3) Distributed in North America by The ArmaKleen Company, an entity in which the Company holds a 50% joint venture interest.

Specialty Chemicals

The Company's specialty chemicals business primarily encompasses the manufacture, marketing and sale of sodium bicarbonate in a range of grades and granulations for use in industrial markets. In industrial markets, sodium bicarbonate is used by other manufacturing companies as a leavening agent for commercial baked goods, as an antacid in pharmaceuticals, as a carbon dioxide release agent in fire extinguishers, as an alkaline agent in swimming pool chemicals, and as a buffer in kidney dialysis.

The Company's 99.2% owned Brazilian subsidiary, Quimica Geral do Nordeste (QGN), is South America's leading provider of sodium bicarbonate.

The Company and Occidental Petroleum Corporation are equal partners in a joint venture, Armand Products Company, which manufactures and markets potassium carbonate and potassium bicarbonate for sale in domestic and international markets. The potassium-based products are used in a wide variety of applications, including agricultural products, specialty glass and ceramics, and potassium silicates. Armand Products also manufactures for the Company a potassium carbonate-based animal feed additive for sale in the dairy industry, described below under Animal Nutrition Products.

Animal Nutrition Products

A special grade of sodium bicarbonate, as well as sodium sesquicarbonate, is sold to the animal feed market as a feed additive for use by dairymen as a buffer, or antacid, for dairy cattle. The Company also markets and sells DCAD Plus feed grade potassium carbonate, which is manufactured by the Armand Products Company as a feed additive into the animal feed market.

Table of Contents

The Company manufactures, markets and sells MEGALAC rumen bypass fat, a nutritional supplement made from natural oils, which enables cows to maintain energy levels during the period of high milk production, resulting in improved milk yields and minimized weight loss. The product and the trademark MEGALAC are licensed under a long-term license agreement from a British company, Volac Ltd.

The Company also manufactures, markets and sells BIO-CHLOR and FERMENTEN, a range of specialty feed ingredients for dairy cows, which improve rumen feed efficiency and help increase milk production.

Specialty Cleaners

The Company also provides a line of cleaning and deodorizing products for use in commercial and industrial applications such as office buildings, hotels, restaurants and other facilities.

The Company and Safety-Kleen Corporation are equal partners in a joint venture, The ArmaKleen Company, which was formed to build a specialty cleaning products business based on the Company's technology and Safety-Kleen's sales and distribution organization. In North America, this joint venture distributes the Company's proprietary product line of aqueous cleaners along with the Company's ARMEX blast media line, which is designed for the removal of a wide variety of surface coatings. The Company continues to pursue opportunities to build this industrial cleaning business using the Company's aqueous-based technology as well as the ARMEX blast media line of products.

COMPETITION FOR SPD

Competition within the specialty chemicals and animal nutrition product lines is intense. The specialty chemicals business operates in a competitive environment influenced by capacity utilization, buyers' leverage and the impact of raw material and energy costs. Product introductions typically involve introductory costs in the year of launch, and the Company usually is not able to determine whether new products and line extensions will be successful until some time following the introduction of new products or the extension of the product lines.

DISTRIBUTION FOR SPD

SPD markets sodium bicarbonate and other chemicals to industrial and agricultural customers primarily throughout the United States and Canada. Distribution is accomplished through a dedicated sales force supplemented by manufacturer's representatives and the sales personnel of independent distributors throughout the country. The Company's products in this segment are located in Company plants and public warehouses and are either delivered by independent trucking companies or picked up by customers at the Company's facilities.

RAW MATERIALS AND SOURCES OF SUPPLY

The Company manufactures sodium bicarbonate for both its consumer and specialty products businesses at its plants located at Green River, Wyoming and Old Fort, Ohio. The primary source of soda ash, a basic raw material used by the Company in the production of sodium bicarbonate is the mineral trona, which is found in abundance in southwestern Wyoming near the Company's Green River plant. The Company has adequate trona reserves under mineral leases to support the Company's sodium bicarbonate requirements for the foreseeable future.

The Company is party to a partnership agreement with General Chemical Corporation, which mines and processes trona reserves in Wyoming. Through the partnership and related supply and services agreements, the Company fulfills a substantial amount of its soda ash requirements, enabling the Company to achieve some of the economies of an integrated business capable of producing sodium bicarbonate and related products from the basic raw material. The Company also has an agreement for the supply of soda ash from another company. The partnership agreement and other supply agreements between the Company and General Chemical are terminable upon two years notice by either company. The Company believes that alternative sources of supply are available.

The Company believes that ample sources of raw materials are available for all of its other major products. Detergent chemicals are used in a variety of the Company's products and are available from a number of sources.

Table of Contents

Bottles, paper products and clay are available from multiple suppliers, although the Company chooses to source most of these materials from single sources under long-term supply agreements in order to gain favorable pricing. The Company also uses a palm oil fraction in its rumen bypass fats products. Alternative sources of supply are available in case of disruption or termination of the supply agreements.

Following a raw material price decline in 2009, prices for commodities generally increased in 2010. As a result, the cost of surfactants, diesel fuel, corrugated paper and oil-based raw and packaging materials used in the household and specialty products businesses were all higher at the end of 2010 than the 2009 average. Moreover, the price of palm fatty acid distillate (PFAD), which generally fluctuates with the price of global vegetable oil, and latex were at record levels by the end of 2010. Additional increases in the prices of certain raw materials could materially impact the Company's costs and financial results if the Company is unable to pass such costs along in the form of price increases to its customers.

The Company utilizes the services of third party contract manufacturers around the world for certain products.

PATENTS AND TRADEMARKS

The Company's trademarks (identified throughout this report in capitalized letters), including ARM & HAMMER, are registered with the United States Patent and Trademark Office and also with the trademark offices of many foreign countries. The ARM & HAMMER trademark has been used by the Company since 1867, and is a valuable asset and important to the successful operation of the Company's business. The Company's other valuable trademarks include TROJAN, NAIR, ORAJEL, FIRST RESPONSE, MENTADENT, CLOSE-UP, AIM, PEPSODENT, XTRA, ARRID, KABOOM, ORANGE GLO, SCRUB FREE, OXICLEAN, CLEAN SHOWER, SPINBRUSH, SIMPLY SALINE and FELINE PINE. A United States trademark registration has a term of 10 years and is renewable every 10 years so long as the trademark is used in the regular course of trade. The Company's portfolio of trademarks represent substantial goodwill in the businesses using the trademarks.

United States patents are currently granted for a term of 20 years from the date the patent application is filed. Although the Company actively seeks and maintains a number of patents, no single patent is considered significant to the business as a whole.

In conjunction with the 2005 acquisition of SPINBRUSH from Procter & Gamble, the Company received a royalty free license to use the Crest tradename until October 29, 2009, and Procter & Gamble agreed to refrain from using the Crest tradename on battery-operated toothbrushes for two years thereafter. The Company completed its transition plan to remove the Crest tradename from its SPINBRUSH products prior to termination of the license. The Company retained its position in 2010 as the number one brand in battery-operated toothbrushes but cannot predict the long-term effect that the loss of the tradename, or any effort by Procter & Gamble to market battery-operated toothbrushes under the Crest tradename after October 2011, will have on SPINBRUSH sales and profitability.

CUSTOMERS AND ORDER BACKLOG

In each of the years ended December 31, 2010, 2009, and 2008, net sales to the Company's largest customer, Wal-Mart Stores, Inc. and its affiliates were 23%, 22% and 22% respectively, of the Company's total consolidated net sales. The time between receipt of orders and shipment is generally short, and as a result, backlog is not significant.

RESEARCH & DEVELOPMENT

The Company conducts research and development activities primarily at its Princeton and Cranbury facilities in New Jersey. The Company devotes significant resources and attention to product development, process technology and basic research to develop differentiated products with new and distinctive features and to provide increased convenience and value to its customers. To increase its innovative capabilities, the Company

Table of Contents

engages outside contractors for general research and development in activities beyond its core areas of expertise. The Company spent \$53.7 million, \$55.1 million and \$51.2 million on research and development activities in 2010, 2009 and 2008, respectively.

GOVERNMENT REGULATION

Some of the Company's products are subject to regulation under the Food, Drug and Cosmetic Act, which is administered by the Food and Drug Administration and the Insecticide, Fungicide and Rodenticide Act and the Toxic Substances Control Act, which are administered by the Environmental Protection Agency. The Company also is subject to regulation by the Federal Trade Commission in connection with the content of its labeling, advertising, promotion, trade practices and other matters. The Company's relationship with certain union employees may be overseen by the National Labor Relations Board. The Company's activities also are regulated by various agencies of the states, localities and foreign countries in which the Company sells its products.

ENVIRONMENTAL MATTERS

The Company's operations are subject to federal, state and local regulations governing air emissions, wastewater discharges, and solid and hazardous waste management activities. The Company endeavors to take actions necessary to comply with such regulations. These steps include periodic environmental audits of each Company facility. The audits, conducted by independent engineering firms with expertise in environmental compliance, include site visits at each location, as well as a review of documentary information, to determine compliance with such federal, state and local regulations. Other than the item noted below, the Company believes that it is in compliance with existing environmental regulations.

In 2000, the Company acquired majority ownership in its Brazilian subsidiary, Quimica Geral Do Nordeste S.A. (QGN). The acquired operations included an inorganic salt manufacturing plant which began site operations in the late 1970's. Located on the site were two closed landfills, two active landfills and a pond for the management of the process waste streams. In 2009, QGN was advised by environmental authorities in the State of Bahia, the Institute of the Environment (IMA), that the plant was discharging contaminants into an adjacent creek. After learning of the discharge, QGN took immediate action to cease the discharge and retained two nationally recognized environmental firms to prepare a site investigation / remedial action plan (SI/RA). The SI/RA report was submitted by QGN to IMA in April 2010. The report concluded that the likely sources of the discharge were the failure of the pond and closed landfills.

In November 2010, IMA responded to QGN's recommendation for an additional study by issuing a notification requiring a broad range of remediation measures (the Remediation Notification). In addition, notwithstanding repeated discussions with IMA at QGN's request to consider QGN's proposed remediation alternatives, in December 2010, IMA imposed a fine of five million reais (approximately \$3 million) for the discharge of contaminants above allowable limits. QGN filed with IMA an administrative defense to the fine. IMA has not yet responded to QGN's administrative defense.

With respect to the Remediation Notification, QGN engaged in discussions with IMA during which QGN asserted that a number of the remediation measures and the timeframes for implementation were not appropriate and requested that the Remediation Notification be withdrawn. In response, IMA stayed the Remediation Notification pending its further review. QGN intends to continue discussions with IMA to seek agreement on a rational and appropriate remediation plan.

Table of Contents

As a result of the foregoing events, the Company accrued approximately \$3 million in 2009 and an additional \$4.8 million in 2010 for remediation, fines and related costs. However, the Company cannot assure that additional costs will not be incurred in connection with this matter.

GEOGRAPHIC AREAS

Approximately 79%, 81% and 78% of the Company's net sales in 2010, 2009 and 2008, respectively, were to customers in the United States. Approximately 96%, 95% and 94% of the Company's long-lived assets were located in the United States at December 31, 2010, 2009 and 2008, respectively. Other than the United States, no one country accounts for more than 7% of consolidated net sales and 3% of total assets.

EMPLOYEES

At December 31, 2010, the Company had approximately 3,600 employees. The Company is party to a labor contract with the International Machinists Union at its Colonial Heights, Virginia plant, which expires May 31, 2013. Internationally, the Company employs union employees in France, Mexico, Brazil and New Zealand. The Company believes that its relations with both its union and non-union employees are satisfactory.

CLASSES OF SIMILAR PRODUCTS

The Company's operations, exclusive of unconsolidated entities, constitute three reportable segments, Consumer Domestic, Consumer International and Specialty Products (SPD). The table set forth below shows the percentage of the Company's net sales contributed by each group of similar products marketed by the Company during 2010, 2009 and 2008.

	% of Net Sales		
	2010	2009	2008
Consumer Domestic			
Household Products	47%	47%	45%
Personal Care Products	26%	27%	26%
Consumer International	17%	16%	17%
Specialty Products	10%	10%	12%

The table above reflects consolidated net sales, exclusive of net sales of unconsolidated entities.

PUBLIC INFORMATION

The Company maintains a web site at www.churchdwright.com and on the Investors SEC Filings page of the web site makes available free of charge the Company's annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after the Company electronically files these materials with, or furnishes them to, the Securities and Exchange Commission. Also available on the Investors Corporate Governance page on the Company's website are the Company's Corporate Governance Guidelines, charters for the Audit, Compensation & Organization and Governance & Nominating Committees of the Company's Board of Directors and the Company's Code of Conduct. Each of the foregoing is also available in print free of charge and may be obtained upon written request to: Church & Dwight Co., Inc., 469 North Harrison Street, Princeton, New Jersey 08543, attention: Secretary. The information presented in the Company's web site is not a part of this report and the reference to the Company's web site is intended to be an inactive textual reference only.

Table of Contents

ITEM 1A. RISK FACTORS

The following risks and uncertainties, as well as others described elsewhere in this report, could materially adversely affect our business, results of operations and financial condition:

Economic conditions could adversely affect our business.

Uncertainty about current global economic conditions has affected demand for many products. Factors that can affect demand include rates of unemployment, consumer confidence, health care costs, fuel and other energy costs and other economic factors affecting consumer spending behavior. While the Company's products generally are consumer staples that should be less vulnerable to decreases in discretionary spending than other products, they may become subject to increasing price competition as recessionary conditions continue. Moreover, some of our products, such as laundry additives and battery-operated toothbrushes, are more likely to be affected by consumer decisions to control spending.

Some of our customers, including mass merchandisers, supermarkets, drugstores, convenience stores, wholesale clubs, pet specialty stores and dollar stores have experienced declining financial performance, which could affect their ability to pay amounts due to us on a timely basis or at all. In response, we regularly conduct a review of the financial strength of our key customers. As appropriate, we modify customer credit limits, which may have an adverse impact on future sales. We also regularly conduct a similar review of our suppliers to assess both their financial viability and the importance of their products to our operations. Where appropriate, we intend to identify alternate sources of materials and services. To date, we have not experienced a material adverse impact from economic conditions affecting our customers or suppliers. However, a continued economic decline that adversely affects our suppliers and customers could adversely affect our operations and sales.

The banking system and financial markets have experienced severe disruption, including, among other things, bank failures and consolidations, severely diminished liquidity and credit availability, rating downgrades, declines in asset valuations, and fluctuations in foreign currency exchange rates. These conditions present the following risks to us, among others:

We are dependent on the continued financial viability of the financial institutions that participate in the syndicate that is obligated to fund our \$500 million revolving credit agreement. In addition, our revolving credit agreement includes a commitment increase feature that enables us to increase the size of the facility by up to an additional \$500 million, subject to lending commitments and certain conditions as described in the agreement filed on the Company's Form 8-K on November 19, 2010. If one or more participating institutions are unable to honor their funding commitments, the cash availability under our revolving credit agreement may be curtailed.

We are dependent on the continued financial viability of the bank that administers and makes available a backstop line of credit under our accounts receivable securitization facility. The facility currently provides for maximum funding of \$115 million. Under the securitization facility, we sell from time to time throughout the term of the related agreements (which are renewed annually), our trade accounts receivable to a wholly-owned, consolidated, special purpose finance subsidiary. The finance subsidiary in turn sells on an ongoing basis, to a commercial paper issuer affiliated with the bank, an undivided interest in the pool of accounts receivable. The bank's backstop line of credit enables us to borrow from the bank in the event the commercial paper issuer is unable to sell commercial paper backed by the accounts receivable. We recently renewed the securitization facility, which now expires on February 14, 2012.

We have not been notified of any circumstances that would prevent any participating financial institution from funding our revolving credit agreement, or term loan accordion feature, or from participating in our securitization facility on February 14, 2012. However, under current or future circumstances, such constraints may exist. Although we believe that our operating cash flows, together with our access to the credit markets, provide us with significant discretionary funding capacity, the inability of one or more institutions to fund the credit facilities or participate in our securitization facility could have a material adverse effect on our liquidity and operations.

Table of Contents

If our trade customers discontinue or reduce distribution of our products or increase private label products, our sales may decline, adversely affecting our financial performance.

The economic crisis caused many of our trade customers to more critically analyze the number of brands they sell which may result in their reduction or discontinuance of certain of our product lines, particularly those products that are not number one or two in their category. If this occurs and we are unable to improve distribution for those products at other trade customers, our Company's results could be adversely affected.

In addition, many of our trade customers sell products under their own private label brands that compete with products that we sell. As consumers look for opportunities to decrease discretionary spending during these difficult economic times, our trade customers may discontinue or reduce distribution of our products to encourage those consumers to purchase our trade customers' less expensive private label products. To the extent some of our products are discontinued or are adversely affected by our trade customers' actions to increase shelf space for their private label products, we are focusing our efforts on improving distribution with other customers. Our results could be adversely affected if our efforts are not effective.

If the reputation of one or more of our leading brands erodes our financial results could suffer.

Our financial success is directly dependent on the success of our brands, particularly the ARM & HAMMER, OXICLEAN and TROJAN brands. The success of these brands can suffer if our marketing plans or product initiatives do not have the desired impact on a brand's image or its ability to attract consumers. Further, our results could be adversely affected if one of our leading brands suffers damage to its reputation due to real or perceived quality issues.

We have recently developed and commenced sales of a number of new products and line extensions, but if they do not gain widespread customer acceptance or if they cause sales of our existing products to decline, our financial performance could decline.

We introduced new consumer product line extensions such as ARM & HAMMER Power Gel laundry detergent, ARM & HAMMER Double Duty Cat Litter and TROJAN Fire and Ice condoms. The development and introduction of new products involves substantial research, development and marketing expenditures, which we may be unable to recover if the new products do not gain widespread market acceptance. In addition, if sales generated by new products result in a concomitant decline in sales of our existing products, our financial performance could be harmed.

We may discontinue products or product lines which could result in returns, asset write-offs and shutdown costs. We also may engage in product recalls that would reduce our cash flow and earnings.

From time to time, we have discontinued certain products and product lines, which resulted in returns from customers, asset write-offs and shutdown costs. We may suffer similar adverse consequences in the future to the extent we discontinue products that do not meet expectations or no longer satisfy consumer demand. Moreover, product quality defects or safety concerns could result in product recalls. Product returns or recalls, write-offs or shutdown costs would reduce sales, cash flow and earnings.

We face intense competition in a mature industry and we may be required to increase expenditures and accept lower profit margins to preserve or maintain our market share. Unless the markets in which we compete grow substantially, a loss of market share will result in reduced sales levels and declining operating results.

During 2010, approximately 79% of our sales were generated in U.S. markets. U.S. markets for consumer products are considered mature and commonly characterized by high household penetration, particularly with respect to our most significant product categories, such as laundry detergents, deodorizers, household cleaning

Table of Contents

products, toothpastes, antiperspirants and deodorants. Our unit sales growth in domestic markets will depend on increased use of our products by consumers, product innovation and our ability to capture market share from competitors. We may not succeed in implementing strategies to increase domestic revenues.

The consumer products industry, particularly the laundry detergent, personal care and air deodorizer categories, is intensely competitive. To protect existing market share or to capture increased market share, we may need to increase expenditures for promotion and advertising and to introduce and establish new products. Increased expenditures may not prove successful in maintaining or enhancing market share and could result in lower sales and profits. Many of our competitors are large companies, including The Procter & Gamble Company, Sun Products Corporation, The Clorox Company, Colgate-Palmolive Company, Henkel AG & Co. KGaA, Reckitt Benckiser Group plc, Johnson & Johnson, Inverness Medical Innovations, Inc. and S.C. Johnson & Son, Inc. Many of these companies have greater financial resources than we do, and, therefore, have the capacity to outspend us should they attempt to gain market share. If we lose market share and the markets in which we compete do not grow substantially, our sales levels and operating results will decline.

Loss of the Crest tradename on our SPINBRUSH products, or use of that tradename on a competitor's battery-operated toothbrushes, could cause SPINBRUSH sales to decline.

In conjunction with our 2005 acquisition of SPINBRUSH from Procter & Gamble, we received a royalty free license to use the Crest tradename until October 29, 2009, and Procter & Gamble agreed to refrain from using the Crest tradename on battery-operated toothbrushes for two years thereafter. We completed the transition plan to remove the Crest tradename from its SPINBRUSH products prior to termination of the license. SPINBRUSH retained its position in 2010 as the number one brand in battery-operated toothbrushes, but we cannot predict the long-term effect that the loss of the tradename, or any effort by Procter & Gamble to market battery-operated toothbrushes under the Crest tradename after October 2011, will have on SPINBRUSH sales and profitability.

Providing price concessions or trade terms that are acceptable to our trade customers, or the failure to do so, could adversely affect our sales and profitability.

Consumer products, particularly those that are value-priced like many of our products, are subject to significant price competition. As a result, we may need to reduce the prices for some of our products, or increase prices by an amount that does not cover manufacturing cost increases, to respond to competitive and customer pressures and to maintain market share. Any reduction in prices, or inability to raise prices sufficiently to cover manufacturing cost increases, in response to these pressures would harm profit margins. In addition, if our sales volumes fail to grow sufficiently to offset any reduction in margins, our results of operations would suffer.

Because of the competitive environment facing retailers, many of our trade customers, particularly our high-volume retail store customers, have increasingly sought to obtain pricing concessions or better trade terms. To the extent we provide concessions or better trade terms, our margins are reduced. Further, if we are unable to maintain terms that are acceptable to our trade customers, these trade customers could reduce purchases of our products and increase purchases of products from our competitors, which would harm our sales and profitability.

Reductions in inventory by our trade customers, including as a result of consolidations in the retail industry, could adversely affect orders for our products in periods during which the reduction occurs.

From time to time our retail customers have reduced inventory levels in managing their working capital requirements. Any reduction in inventory levels by our retail customers would result in reduced orders and harm our operating results for the financial periods affected by the reductions. In particular, continued consolidation within the retail industry could potentially reduce inventory levels maintained by our retail customers, which could result in reduced orders and adversely affect our results of operations for the financial periods affected by the reductions.

Table of Contents

A continued shift in the retail market from food and drug stores to club stores and mass merchandisers could cause our sales to decline.

Our performance also depends upon the general health of the economy and of the retail environment in particular and could be significantly harmed by changes affecting retailing and by the financial difficulties of retailers. Consumer products such as those marketed by us are increasingly being sold by club stores and mass merchandisers, while sales of consumer products by food and drug stores comprise a smaller proportion of the total volume of consumer products sold. Sales of our products are stronger in the food and drug channels of trade and not as strong in club stores and mass merchandiser channels. Although we have taken steps to improve sales to club stores and mass merchandisers, if we are not successful in further improving sales to these channels, and the current trend continues, our financial condition and operating results could suffer.

Loss of any of our principal customers could significantly decrease our sales and profitability.

Wal-Mart, together with its affiliates, is our largest customer, accounting for approximately 23% of net sales in 2010 and 22% in each of the years 2009 and 2008. Our top three customers accounted for approximately 33% of net sales in 2010, 32% of net sales in 2009 and 31% of net sales in 2008. The loss of or a substantial decrease in the volume of purchases by Wal-Mart and its affiliates or any of our other largest customers would harm our sales and profitability.

Failure to repay our indebtedness could adversely affect our financial condition and ability to operate our businesses.

As of December 31, 2010, we had \$339.7 million of total consolidated indebtedness. Our failure to service our indebtedness or obtain additional financing as needed could have a material adverse effect on our business operating results and financial condition.

We may make acquisitions that result in dilution to our current stockholders or increase our indebtedness, or both. In addition, acquisitions that are not properly integrated or are otherwise unsuccessful could strain or divert our resources.

We have made several acquisitions in recent years, including businesses previously operated by Del Pharmaceuticals, Inc. and Orange Glo International, Inc., the SIMPLY SALINE nasal moisturizer product line and the FELINE PINE natural cat litter product line. We may make additional acquisitions or substantial investments in complementary businesses or products in the future. Any future acquisitions or investments would entail various risks, including the difficulty of assimilating the operations and personnel of the acquired businesses or products, the potential disruption of our ongoing business and, generally, our potential inability to obtain the desired financial and strategic benefits from the acquisition or investment. The risks associated with assimilation are increased to the extent we acquire businesses that have operations or sources of supply outside of the United States and Canada, for which products are manufactured locally by third parties. These factors could harm our financial condition and operating results. Any future acquisitions or investments could result in substantial cash expenditures, the issuance of new equity by us or the incurrence of additional debt and contingent liabilities. In addition, any potential acquisitions or investments, whether or not ultimately completed, could divert the attention of management and divert other resources from other matters that are critical to our operations.

Our condom product line could suffer if the spermicide N-9 is proved or perceived to be harmful.

Our distribution of condoms under the TROJAN and other trademarks is regulated by the U.S. Food and Drug Administration (FDA). Certain of our condoms, and similar condoms sold by our competitors, contain the spermicide nonoxynol-9 (N-9). Some interested groups have issued reports that N-9 should not be used rectally or for multiple daily acts of vaginal intercourse. In late 2008, the FDA issued final labeling guidance for

Table of Contents

latex condoms but excluded N-9 lubricated condoms from the guidance. While we await further FDA guidance on N-9 lubricated condoms we believe that our present labeling for condoms with N-9 is compliant with the overall objectives of the FDA's guidance, and that condoms with N-9 will remain a viable contraceptive choice for those couples who wish to use them. However, we cannot predict the nature of the labeling that ultimately will be required by the FDA. If the FDA or state governments eventually promulgate rules that prohibit or restrict the use of N-9 in condoms (such as new labeling requirements), we could incur costs from obsolete products, packaging or raw materials, and sales of condoms could decline, which, in turn, could decrease our earnings.

Our manufacturing and other facilities may be subject to disruption from events beyond our control.

Operations at our manufacturing facilities may be subject to disruption from a variety of causes, including work stoppages, acts of war, terrorism, pandemics, fire, earthquake, flooding or other natural disasters. If a major disruption were to occur, it could result in harm to people or the natural environment, delays in shipments of products to customers or suspension of operations, any of which could have a material adverse effect on our business.

Price increases in raw and packaging materials or energy costs could erode our profit margins, which could harm operating results, and efforts to hedge against raw material price increases may adversely affect our operating results if raw material prices decline.

Increases in the prices of raw materials such as surfactants, which are cleaning agents, palm oil, paper products and bottles, or increases in energy costs, could significantly affect our profit margins. In particular, during the past few years, we have experienced extraordinary price increases for raw and packaging materials, diesel fuel and energy. Concerns about the adequacy of oil supply, in the face of increasing demand, continued to affect pricing. We use surfactants and bottles in the manufacture and marketing of laundry and household cleaning products. We use paper products for packaging in many of our consumer and specialty chemical products. We use palm oil in certain of our animal nutrition products. We have attempted to address these price increases through cost reduction programs and price increases of our own products, entering into pre-buying arrangements with certain suppliers and entering into hedge agreements for diesel fuel costs. If raw material price increases continue to occur, we may not be able to fully offset those price increases. This could harm our financial condition and operating results.

We use hedge agreements to mitigate the volatility of diesel fuel prices and related fuel surcharges. The hedge agreements are designed to add stability to our product costs, enabling us to make pricing decisions and lessen the economic impact of abrupt changes in diesel fuel prices over the term of the contract. However, in periods of declining fuel prices the hedge agreements can have the effect of increasing our expenditures for fuel.

We are subject to various government regulations in the countries in which we operate that could adversely affect our business.

The manufacturing, processing, formulation, packaging, labeling and advertising of our products are subject to regulation by federal agencies, including the FDA, the Federal Trade Commission (FTC) and the Consumer Product Safety Commission. In addition, our operations are subject to the oversight of the Environmental Protection Agency, the Occupational Safety and Health Administration and the National Labor Relations Board. Our activities are also regulated by various agencies of the states, localities and foreign countries in which our products are sold.

In particular, the FDA regulates the safety, manufacturing, labeling and distribution of condoms, home pregnancy and ovulation test kits, and over-the-counter pharmaceuticals. The FDA also exercises oversight over cosmetic products such as depilatories. In addition, under a memorandum of understanding between the FDA and the FTC, the FTC has jurisdiction with regard to the promotion and advertising of these products, and the FTC regulates the promotion and advertising of our other products as well. As part of its regulatory authority, the FDA

Table of Contents

may periodically conduct inspections of the physical facilities, machinery, processes and procedures that we use to manufacture regulated products and may observe compliance issues that would require us to make certain changes in our manufacturing facilities and processes. We may be required to make additional expenditures to address these issues or possibly stop selling certain products until a compliance issue has been remediated. As a result, our business could be adversely affected.

Our international operations, including the production of over-the-counter drug products, are subject to regulation in each of the foreign jurisdictions in which we manufacture or market goods. Changes in product standards or manufacturing requirements in any of these jurisdictions could require us to make certain modifications to our operations or product formulations, or to cease manufacturing certain products completely. The effect of the regulatory environment in foreign countries on our over-the-counter and medical devices may affect our ability to market and to make competitive claims for our products. As a result, our international business could be adversely affected.

We are subject to risks related to our international operations that could adversely affect our results of operations.

Our international operations subject us to risks customarily associated with foreign operations, including:

currency fluctuations;

import and export license requirements;

trade restrictions;

changes in tariffs and taxes;

restrictions on repatriating foreign profits back to the United States; and

difficulties in staffing and managing international operations.

In all foreign jurisdictions in which we operate, we are subject to laws and regulations that govern foreign investment, foreign trade and currency exchange transactions. These laws and regulations may limit our ability to repatriate cash as dividends or otherwise to the United States and may limit our ability to convert foreign currency cash flow into U.S. dollars. Outside the United States, sales and costs are denominated in a variety of currencies, including the Euro, British pound, Brazilian real, Canadian dollar, Mexican peso, Chinese yuan and Australian dollar. A weakening of the currencies in which sales are generated relative to the currencies in which costs are denominated would decrease operating profits and cash flow.

Environmental matters create potential liability risks.

We must comply with various environmental laws and regulations in the jurisdictions in which we operate, including those relating to the handling and disposal of solid and hazardous wastes and the remediation of contamination associated with the use and disposal of hazardous substances. A release of such substances due to accident or an intentional act could result in substantial liability to governmental authorities or to third parties. We have incurred, and will continue to incur, capital and operating expenditures and other costs in complying with environmental laws and regulations. It is possible that we could become subject to additional environmental liabilities in the future that could have a material adverse effect on our results of operations or financial condition.

Product liability claims could adversely affect the Company's sales and operating results.

We may be required to pay for losses or injuries actually or purportedly caused by our products. Claims could be based on allegations that, among other things, our products contain contaminants, provide inadequate instructions regarding their use, or inadequate warnings concerning interactions with other substances. Product

Table of Contents

liability claims also could result in negative publicity that could harm our sales and operating results. In addition, if one of our products is found to be defective, we could be required to recall it, which could result in adverse publicity and significant expenses. Although we maintain product liability insurance coverage, potential product liability claims may exceed the amount of insurance coverage or may be excluded under the terms of the policy, which could have a material adverse effect on our business, operating results and financial condition.

Failure to effectively utilize or successfully assert intellectual property rights could materially adversely affect our competitiveness. We rely on trademark, trade secret, patent and copyright laws to protect our intellectual property rights. We cannot be sure that these intellectual property rights will be effectively utilized or, if necessary, successfully asserted. There is a risk that we will not be able to obtain and perfect our own intellectual property rights, or, where appropriate, license from others intellectual property rights necessary to support new product introductions. We cannot be sure that these rights, if obtained, will not be invalidated, circumvented or challenged in the future. In addition, even if such rights are obtained in the United States, the laws of some of the other countries in which our products are or may be sold do not protect intellectual property rights to the same extent as the laws of the United States. Our failure to perfect or successfully assert intellectual property rights could make us less competitive and could have a material adverse effect on our business, operating results and financial condition.

A failure of a key information technology system could adversely affect our ability to conduct business. We rely extensively on information technology systems, some of which are managed by third-party service providers, to interact with internal personnel and external customers and suppliers, and other persons. These interactions include, but are not limited to, ordering and managing materials from suppliers, converting materials to finished products, shipping product to customers, processing transactions, summarizing and reporting results of operations, complying with regulatory, legal or tax requirements, and other processes necessary to manage our business. Our systems could be damaged or cease to function properly due to any number of causes, including catastrophic events, power outages, and security breaches. Although we have business continuity plans in place to address service interruptions, if our business continuity plans do not provide effective alternative processes on a timely basis, we may suffer interruptions in our ability to manage operations which may adversely affect our business. In addition, we are transitioning our ordering, shipping and billing systems in North America and Western Europe to a new system during 2011 and 2012. If the new system does not function properly upon implementation, our ability to process and deliver customer orders in regions in which we conduct the substantial majority of our business could be limited, which could adversely impact our results of operations during the period(s) of transition. In addition, we may be unable to process and receive payments for products sold, which could negatively impact our cash flows during those periods.

Changes in our effective tax rate may adversely affect our earnings and cash flow. Our future effective tax rate could be affected by changes in tax laws and regulations or their interpretation, changes in the mix of earnings in countries with differing statutory tax rates, or changes in the valuation of deferred tax assets and liabilities. The realization of deferred income tax assets is assessed and a valuation allowance is recorded if it is more likely than not that all or a portion of the deferred tax asset will not be realized. If the actual amount of our future taxable income is less than the amount we are currently projecting with respect to specific tax jurisdictions, or if there is a change in the time period within which the deferred tax asset becomes deductible, we could be required to record a valuation allowance against our deferred tax assets. The recording of a valuation allowance would result in an increase in our effective tax rate, and would have an adverse effect on our operating results. In addition, changes in statutory tax rates may change our deferred tax assets or liability balances, which would have either a favorable or unfavorable impact on our effective tax rate.

Table of Contents**Resolutions of tax disputes may adversely affect our earnings and cash flow.**

Significant judgment is required in determining our effective tax rate and in evaluating our tax positions. We provide for uncertain tax positions with respect to tax positions that do not meet the recognition thresholds or measurement standards mandated by applicable accounting guidance. Changes to uncertain tax positions, including related interest and penalties, impact our effective tax rate. When particular tax matters arise, a number of years may elapse before such matters are audited and finally resolved. Favorable resolution of such matters could be recognized as a reduction to our effective tax rate in the year of resolution. Unfavorable resolution of any tax matter could increase the effective tax rate. Any resolution of a tax issue may require the use of cash in the year of resolution.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES.

The Company's executive offices and primary research and development facilities are owned by the Company and are located on 22 acres of land in Princeton, New Jersey. These facilities include approximately 127,000 square feet of office and laboratory space. The Company also owns a 36,000 square foot research and development facility in Cranbury, New Jersey. In addition, the Company leases space in three buildings adjacent to its Princeton facility that contain approximately 140,000 square feet of office space under three leases, of which two expire in 2012, and the other expires in 2022. The Company also leases regional sales offices in various locations throughout the United States, Brazil and China.

The Company and its consolidated subsidiaries also own or lease other facilities as set forth in the following table:

Location	Products Manufactured	Approximate Area (Sq. Feet)
Owned:		
<i>Manufacturing facilities</i>		
York, Pennsylvania	Liquid laundry detergent	450,000
Harrisonville, Missouri	Liquid laundry detergent and fabric softener	360,000
Green River, Wyoming	Sodium bicarbonate and various consumer products	273,000

- (1) Lease expires in 2015. In conjunction with the opening of the new facility in York, Pennsylvania, the Company has subleased this building until July 2011.
- (2) Lease expires in 2024, subject to two five-year extensions at the option of the Company.
- (3) Lease expires in 2022, subject to two five-year extensions at the option of the Company.
- (4) In Barcelona, Spain, the Company leases an 85,000 square foot facility in which manufacturing operations ceased in the first quarter 2006. The lease expires in November 2012. The Company has subleased 57,000 square feet of the plant to a third party.
- (5) Lease expires on July 1, 2011.

In Syracuse, New York, the Company owns a 21 acre site which includes a group of connected buildings. This facility was closed in 2001 and a portion of the facility is now leased to a third party.

Armand Products Company, a joint venture in which the Company owns a 50% interest, operates a potassium carbonate manufacturing plant located in Muscle Shoals, Alabama. This facility contains approximately 53,000 square feet of space and has a production capacity of 103,000 tons of potassium carbonate per year.

The Company is 99.2% owned Brazilian subsidiary, QGN, has its administrative headquarters in Rio de Janeiro.

The Old Fort, Ohio plant has a production capacity for sodium bicarbonate of 280,000 tons per year. The Green River plant has a production capacity for sodium bicarbonate of 200,000 tons per year.

The Company believes that its operating and administrative facilities are adequate and suitable for the conduct of its business. The Company also believes that its production facilities are suitable for current

Table of Contents

manufacturing requirements for its consumer and specialty products businesses. In addition, the facilities possess a capacity sufficient to accommodate the Company's estimated increases in production requirements over the next several years, based on its current product lines.

ITEM 3. LEGAL PROCEEDINGS

The Company, in the ordinary course of its business, is the subject of, or party to, various pending or threatened legal actions. The Company believes that any liability ultimately arising from these actions will not have a material adverse effect on its financial condition or results of operation, including cash flows.

ITEM 7 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Company's consolidated financial statements.

OVERVIEW

The Company develops, manufactures and markets a broad range of consumer and specialty products. It recognizes revenues and profits from selling its products under a variety of brands to supermarkets, drug stores and mass merchandisers that sell the products to consumers. The Company also sells its products to industrial customers and distributors. The Company focuses its marketing efforts principally on its eight power brands. These well-recognized brand names include ARM & HAMMER, (used in multiple product categories such as baking soda, carpet deodorization and laundry detergent), TROJAN condoms, XTRA laundry detergent, OXICLEAN pre-wash laundry additive, NAIR depilatories, FIRST RESPONSE home pregnancy and ovulation test kits, ORAJEL oral analgesics and SPINBRUSH battery-operated toothbrushes. The Company's business is divided into three primary segments, Consumer Domestic, Consumer International and Specialty Products. The Consumer Domestic segment includes the eight power brands and other household and personal care products such as SCRUB FREE, KABOOM, ORANGE GLO cleaning products, ANSWER home pregnancy and ovulation test kits, ARRID antiperspirant, and CLOSE-UP and AIM toothpastes. The Consumer International segment primarily sells a variety of personal care products, some of which use the same brand names as our domestic product lines, in international markets, including Canada, France, Australia, the United Kingdom, Mexico, Brazil and China. The Specialty Products segment is the largest U.S. producer of sodium bicarbonate, which it sells together with other specialty inorganic chemicals for a variety of industrial, institutional, medical and food applications. This segment also sells a range of animal nutrition and specialty cleaning products. In 2010, the Consumer Domestic, Consumer International and Specialty Products segments represented approximately 73%, 17% and 10%, respectively, of the Company's net sales.

Recent Developments

On June 4, 2010, the Company acquired the SIMPLY SALINE brand of Nasal Saline Moisturizers from Blairex Laboratories (Simply Saline Acquisition) for cash consideration of \$70.0 million. This brand will complement the Company's existing STERIMAR brand nasal saline solution business in Europe and other parts of the world. The SIMPLY SALINE brand will be managed principally within the Consumer Domestic segment.

On December 21, 2010, the Company acquired the FELINE PINE cat litter brand from Nature's Earth Products, Inc. (Feline Pine Acquisition) for a cash consideration of \$46.0 million. This brand will complement the existing ARM & HAMMER cat litter business and position the Company as the leading supplier of natural cat litter. The FELINE PINE brand will be managed within the Consumer Domestic segment.

In the first quarter of 2010, the Company sold the BRILLO and certain LAMBERT KAY product lines, along with associated productive assets, that were classified as net assets held for sale at December 31, 2009. The aggregate carrying value of these assets at December 31, 2009 was approximately \$8.8 million. Subsequent to December 31, 2009, the Company received net proceeds from the sale of these assets of \$8.2 million, along with a note receivable of \$1.8 million, and, in the first quarter of 2010, recognized a gain of approximately \$1.0 million that was recorded as an offset to selling, general and administrative expenses in the Consumer Domestic segment.

On January 27, 2010, the Company's Board of Directors approved the termination, effective April 15, 2010, of The Church & Dwight Co., Inc. Retirement Plan for Hourly Employees (the U.S. Pension Plan), under which approximately 766 participants, including 46 active employees, have accrued benefits. On December 1, 2010, the Company as plan sponsor of U.S. Pension Plan, purchased a non participating group annuity contract

Table of Contents

from the Principal Life Insurance Company for the benefit of certain former and current employees with vested benefits in, and retired participants currently receiving benefits from the U.S. Pension Plan. In addition, effective December 1, 2010, an existing participating annuity contract with Aetna Insurance Company was changed to a non-participating annuity contract.

The purchase price of the contracts was approximately \$63 million, which was funded from the assets of the U.S. Pension Plan on December 1, 2010 (considered the measurement date for accounting purposes) and a one-time payment by the Company of approximately \$14 million (\$9 million after taxes). The transactions resulted in the transfer and settlement of the U.S. pension benefit obligation, thus relieving the Company of any responsibility for the U.S. Pension Plan obligations. As a result of the transfer of the pension plan obligations and assets described above, the Company recorded a charge to earnings in the fourth quarter of 2010 of approximately \$24 million pre-tax or \$0.21 per share. This charge is included in selling, general and administrative costs (SG&A).

Following a raw material price decline in 2009, prices for commodities generally increased in 2010. As a result, the cost of surfactants, diesel fuel, corrugated paper and oil-based raw and packaging materials used in the household and specialty products businesses were all higher at the end of 2010 than the 2009 average. Moreover, the price of palm fatty acid distillate (PFAD), which generally fluctuates with the price of global vegetable oil, and latex were at record levels by the end of 2010. Additional increases in the prices of certain raw materials could materially impact the Company's costs and financial results if the Company is unable to pass such costs along in the form of price increases to its customers.

The Company has recorded liabilities in connection with uncertain income tax positions that, although supportable, may be challenged by the tax authorities. Substantially all material federal, state, and international income tax matters have been effectively concluded for years through 2007. In 2010, the Company recognized a benefit from the reversal of approximately \$4.0 million in income tax expense and \$3.0 million in pretax interest expense associated with certain tax liabilities as a result of the settlement of an IRS audit and the lapse of applicable statutes of limitation of several state taxing authorities. In addition, as a result of the settlement of the IRS audit and the lapse of applicable statutes of limitation of several state taxing authorities, the Company's liabilities for uncertain income tax positions have decreased by \$15.0 million, from \$39.6 million at December 31, 2009 to \$24.6 million at December 31, 2010.

In 2000, the Company acquired majority ownership in its Brazilian subsidiary, Quimica Geral Do Nordeste S.A. (QGN). The acquired operations included an inorganic salt manufacturing plant which began site operations in the late 1970's. Located on the site were two closed landfills, two active landfills and a pond for the management of the process waste streams. In 2009, QGN was advised by environmental authorities in the State of Bahia, the Institute of the Environment (IMA), that the plant was discharging contaminants into an adjacent creek. After learning of the discharge, QGN took immediate action to cease the discharge and retained two nationally recognized environmental firms to prepare a site investigation / remedial action plan (SI/RA). The SI/RA report was submitted by QGN to IMA in April 2010. The report concluded that the likely sources of the discharge were the failure of the pond and closed landfills.

In November 2010, IMA responded to QGN's recommendation for an additional study by issuing a notification requiring a broad range of remediation measures (the Remediation Notification). In addition, notwithstanding repeated discussions with IMA at QGN's request to consider QGN's proposed remediation alternatives, in December 2010, IMA imposed a fine of five million reais (approximately \$3 million) for the discharge of contaminants above allowable limits. QGN filed with IMA an administrative defense to the fine. IMA has not yet responded to QGN's administrative defense.

With respect to the Remediation Notification, QGN engaged in discussions with IMA during which QGN asserted that a number of the remediation measures and the timeframes for implementation were not appropriate

Table of Contents

and requested that the Remediation Notification be withdrawn. In response, IMA stayed the Remediation Notification pending its further review. QGN intends to continue discussions with IMA to seek agreement on a rational and appropriate remediation plan.

As a result of the foregoing events, the Company accrued approximately \$3 million in 2009 and an additional \$4.8 million in 2010 for remediation, fines and related costs. However, the Company cannot assure that additional costs will not be incurred in connection with this matter.

Economic Conditions

Uncertainty about current global economic conditions has affected demand for many products. Factors that can affect demand include rates of unemployment, consumer confidence, health care costs, fuel and other energy costs and other economic factors that affect consumer spending behavior. While the Company's products generally are consumer staples that should be less vulnerable to decreases in discretionary spending than other products, the Company's products may become subject to increasing price competition as recessionary conditions continue. Moreover, some of our products, such as laundry additives and battery-operated toothbrushes, are more likely to be affected by consumer decisions to control spending.

Some of our customers, including mass merchandisers, supermarkets, drugstores, convenience stores, wholesale clubs, pet specialty stores and dollar stores have experienced declining financial performance, which could affect their ability to pay amounts due to us on a timely basis or at all. In response, we regularly conduct a review of the financial strength of our key customers. As appropriate, we modify customer credit limits, which may have an adverse impact on future sales. We also regularly conduct a similar review of our suppliers to assess both their financial viability and the importance of their products to our operations. Where appropriate, we will seek to identify alternate sources of materials and services. To date, we have not experienced a material adverse impact from economic conditions affecting our customers or suppliers. However, a continued economic decline that adversely affects our suppliers and customers could adversely affect our operations and sales.

In addition, many of our trade customers sell products under their own private label brands that compete with products that we sell. As consumers look for opportunities to decrease discretionary spending during current difficult economic times, our trade customers may discontinue or reduce distribution of our products to encourage those consumers to purchase our trade customers' less expensive private label products. To offset any adverse effect on our business that results when trade customers discontinue distribution of our products or take actions to increase shelf space for their private label products, we focus our efforts on improving distribution with other customers. Our results could be adversely affected if these efforts are not effective.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. By their nature, these judgments are subject to uncertainty. They are based on the Company's historical experience, its observation of trends in industry, information provided by its customers and information available from other outside sources, as appropriate. The Company's significant accounting policies and estimates are described below.

Table of Contents*Revenue Recognition and Promotional and Sales Return Reserves*

Virtually all of the Company's revenue represents sales of finished goods inventory and is recognized when delivered or picked up by our customers. The reserves for consumer and trade promotion liabilities and sales returns are established based on our best estimate of the amounts necessary to settle future and existing claims on products sold as of the balance sheet date. Promotional reserves are provided for sales incentives, such as coupons to consumers, and sales incentives provided to customers (such as slotting, cooperative advertising, incentive discounts based on volume of sales and other arrangements made directly with customers). All such costs are netted against sales. Slotting costs are recorded when the product is delivered to the customer. Cooperative advertising costs are recorded when the customer places the advertisement for the Company's products. Discounts relating to price reduction arrangements are recorded when the related sale takes place. Costs associated with end-aisle or other in-store displays are recorded when product that is subject to the promotion is sold. The Company relies on historical experience and forecasted data to determine the required reserves. For example, the Company uses historical experience to project coupon redemption rates to determine reserve requirements. Based on the total face value of Consumer Domestic coupons redeemed over the past several years, if the actual rate of redemptions were to deviate by 0.1% from the rate for which reserves are accrued in the financial statements, an approximately \$2.4 million difference in the reserve required for coupons would result. With regard to other promotional reserves and sales returns, the Company uses experience-based estimates, customer and sales organization inputs and historical trend analysis in arriving at the reserves required. If the Company's estimates for promotional activities and sales returns were to change by 10% the impact to promotional spending and sales return accruals would be approximately \$5.4 million. While management believes that its promotional and sales returns reserves are reasonable and that appropriate judgments have been made, estimated amounts could differ materially from actual future obligations. During the twelve months ended December 31, 2010, 2009 and 2008, the Company reduced promotion liabilities by approximately \$6.8 million, \$7.8 million and \$4.0 million, respectively, based on a change in estimate as a result of actual experience and updated information.

Impairment of goodwill, trademarks and other intangible assets and property, plant and equipment

Carrying values of goodwill, trademarks and other indefinite lived intangible assets are reviewed periodically for possible impairment. The Company's impairment review is based on a discounted cash flow approach that requires significant judgment with respect to unit volume, revenue and expense growth rates, and the selection of an appropriate discount rate. Management uses estimates based on expected trends in making these assumptions. With respect to goodwill, impairment occurs when the carrying value of the reporting unit exceeds the discounted present value of cash flows for that reporting unit. For trademarks and other intangible assets, an impairment charge is recorded for the difference between the carrying value and the net present value of estimated future cash flows, which represents the estimated fair value of the asset. The Company uses its judgment in assessing whether assets may have become impaired between annual valuations. Indicators such as unexpected adverse economic factors, unanticipated technological change, distribution losses, or competitive activities and acts by governments and courts may indicate that an asset has become impaired.

The Company recognized tradename impairment charges within selling, general and administrative expenses for the three year period ended December 31, 2010 as follows:

(In thousands)	2010	2009	2008
Segments:			
Consumer Domestic	\$ 0	\$ 0	\$ 1,910
Consumer International	0	0	3,764
Total	\$ 0	\$ 0	\$ 5,674

The tradename impairment charges recorded in 2008 were a result of management's decision to exit a business, a potential change of a brand's name, lost distribution at key customer accounts and reduced profitability. The amount of the impairment charge was determined by comparing the estimated fair value of the

Table of Contents

asset to its carrying amount. Fair value was estimated based on a relief from royalty discounted cash flow method. Under this method, the owner of an intangible asset must determine the arm's length royalty that likely would have been charged if the owner had to license that asset from a third party. Estimates under the relief from royalty method involve numerous variables that are subject to change as business conditions change, and therefore could affect fair values in the future. The Company determined that the remaining carrying value of all tradenames was recoverable based upon the forecasted cash flows and profitability of the brands.

Property, plant and equipment and other long-lived assets are reviewed whenever events or changes in circumstances occur that indicate possible impairment. The Company's impairment review is based on an undiscounted cash flow analysis at the lowest level at which cash flows of the long-lived assets are largely independent of other groups of Company assets and liabilities. The analysis requires management judgment with respect to changes in technology, the continued success of product lines, and future volume, revenue and expense growth rates. The Company conducts annual reviews to identify idle and underutilized equipment, and reviews business plans for possible impairment implications. Impairment occurs when the carrying value of the asset exceeds the future undiscounted cash flows. When an impairment is indicated, the estimated future cash flows are then discounted to determine the estimated fair value of the asset and an impairment charge is recorded for the difference between the carrying value and the net present value of estimated future cash flows.

The Company recognized charges related to plant impairment and equipment obsolescence, which occurs in the ordinary course of business during the three year period ended December 31, 2010 as follows:

(In thousands)	For the Year Ended December 31,		
	2010	2009	2008
Segments:			
Consumer Domestic	\$ 628	\$ 3,231	\$ 3,345
Consumer International	37	0	98
Specialty Products	3,090	6,916	142
Total	\$ 3,755	\$ 10,147	\$ 3,585

In 2010, the Company recorded a plant asset impairment charge of approximately \$3.1 million, representing the carrying value of certain assets associated with one of its international subsidiaries. The charge is a result of a reduction in forecasted sales volume which has negatively impacted projected profitability. The charge is included in cost of sales in the Specialty Products Division segment income statement. In 2009, the Company recorded a plant asset impairment charge of approximately \$6.9 million, representing the carrying value of certain assets, associated with one of its international subsidiaries. The Company measured the impairment charges using the discounted cash flow method. This subsidiary manufactures some products that compete with imports priced in U.S. dollars. As the dollar has weakened, it has been necessary to lower prices in the local currency to stay competitive, leading to negative cash flows, which is the key input under the discounted cash flow method. The charge is included in cost of sales in the Specialty Products Division segment. The other charges in 2010 are due to the idling of certain equipment. The \$3.2 million charge recorded in the Consumer Domestic Segment in 2009 is primarily a result of a lack of acceptance for certain products by our key customers that resulted in a decline of forecasted future cash flows and reduced profitability. The charges in 2008 are due to the idling of certain equipment. The estimates and assumptions used in connection with impairment analyses are consistent with the business plans and estimates that the Company uses to manage its business operations. Nevertheless, future outcomes may differ materially from management's estimates. If the Company's products fail to achieve estimated volume and pricing targets, market conditions unfavorably change or other significant estimates are not realized, then the Company's revenue and cost forecasts may not be achieved, and the Company may be required to recognize additional impairment charges.

Inventory valuation

When appropriate, the Company writes down the carrying value of its inventory to the lower of cost or market (net realizable value, which reflects any costs to sell or dispose). The Company identifies any slow moving, obsolete or excess inventory to determine whether an adjustment is needed. The determination of

Table of Contents

whether inventory items are slow moving, obsolete or in excess of needs requires estimates and assumptions about the future demand for the Company's products, technological changes, and new product introductions. In addition, the Company's allowance for obsolescence may be impacted by the reduction of the number of stock keeping units (SKUs). The Company evaluates its inventory levels and expected usage on a periodic basis and records adjustments as required. Adjustments to inventory to reflect a reduction in net realizable value were \$6.1 million at December 31, 2010, and \$8.8 million at December 31, 2009.

Valuation of pension and postretirement benefit costs

As noted above under Overview Recent Developments, the Company entered into transactions with insurance companies in 2010 that have resulted in the transfer and settlement of all of the Company's U.S. pension benefit obligation. The Company continues to have U.S. obligations with respect to non-pension postretirement benefits.

The Company's remaining pension costs relate solely to its international operations. Both pension and postretirement benefit costs are developed from actuarial valuations. Inherent in benefit cost valuations are key assumptions provided by the Company to its actuaries, including the discount rate and expected long-term rate of return on plan assets. Material changes in the Company's international pension and domestic/international postretirement benefit costs may occur in the future due to changes in these assumptions as well as fluctuations in plan assets.

The discount rate is subject to change each year, consistent with changes in applicable high-quality, long-term corporate bond indices. Based on the expected duration of the benefit payments for the Company's pension plans and postretirement plans, the Company refers to an applicable index and expected term of benefit payments to select a discount rate at which it believes the pension benefits could be effectively settled. The Company's weighted average discount rate for its remaining international pension plans as of December 31, 2010 is 5.32% as compared to 5.76% used at December 31, 2009. Based on the published rate as of December 31, 2010 that matched estimated cash flows for the plans, the Company used a discount rate of 5.20% for its domestic postretirement plan as compared to 5.75% used at December 31, 2009.

The expected long-term rate of return on international pension plan assets is selected by taking into account a historical trend, the expected duration of the projected benefit obligation for the plans, the asset mix of the plans, and known economic and market conditions at the time of valuation. Based on these factors, the Company's weighted average expected long-term rate of return for assets of its remaining pension plans for 2010 was 5.76%, compared to 6.72% used in 2009. A 50 basis point change in the expected long-term rate of return would result in approximately \$0.3 million change in pension expense for 2011.

As noted above, changes in assumptions used by management may result in material changes in the Company's pension and postretirement benefit costs. In 2010, other comprehensive income reflected a \$3.4 million increase in its remaining pension plan obligations and a \$1.3 million increase for postretirement benefit plans. The changes are primarily related to the change in discount rates for all plans.

The Company made cash contributions of approximately \$19.1 million to its pension plans in 2010 which includes approximately \$14.0 million to settle the U.S. pension plan. The Company estimates it will be required to make cash contributions to its international pension plans of approximately \$3.5 million in 2011 to offset 2011 benefit payments and administrative costs in excess of investment returns.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized to reflect the future tax consequences attributable to the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which the differences are expected to be recovered or settled. Management

Table of Contents

provides a valuation allowance against deferred tax assets for amounts which are not considered more likely than not to be realized. The liabilities relate to tax return positions that, although supportable by the Company, may be challenged by the tax authorities and do not meet the minimum recognition threshold required under applicable accounting guidance for the related tax benefit to be recognized in the income statement. The Company adjusts this liability as a result of changes in tax legislation, interpretations of laws by courts, rulings by tax authorities, changes in estimates and the expiration of the statute of limitations. Many of the judgments involved in adjusting the liability involve assumptions and estimates that are highly uncertain and subject to change. In this regard, settlement of any issue, or an adverse determination in litigation, with a taxing authority could require the use of cash and result in an increase in our annual tax rate. Conversely, favorable resolution of an issue with a taxing authority would be recognized as a reduction to our annual tax rate of Income before Income Taxes.

New Accounting Pronouncements

There are no accounting pronouncements issued but not yet adopted by the Company which are expected to have a material impact on the Company's financial position, results of operations or cash flows. Accounting pronouncements adopted during the periods presented resulted in changes to disclosures but did not have a material impact on the Company's financial position, results of operations or cash flows.

RESULTS OF OPERATIONS FOR THE YEARS ENDED DECEMBER 31, 2010, 2009 AND 2008

The discussion of results of operations at the consolidated level presented below is followed by a more detailed discussion of results of operations by segment. The discussion of the Company's consolidated results of operations and segment operating results is presented on a historical basis for the years ending December 31, 2010, 2009, and 2008. The segment discussion also addresses certain product line information. The Company's operating units are consistent with its reportable segments.

Consolidated results**2010 compared to 2009***Net Sales*

Net sales for the year ended December 31, 2010 were \$2,589.2 million, \$68.3 million or approximately 2.7% above 2009 net sales. The components of the net sales increase are the following:

	December 31, 2010
Net Sales Consolidated	
Product volumes sold	5.5%
Pricing and sales mix	(2.5%)
Foreign exchange rate fluctuations	1.1%
Change in customer delivery arrangements and allowances	(0.9%)
Acquired product lines ⁽¹⁾	0.5%
Divested product lines ⁽²⁾	(1.0%)
Net Sales increase	2.7%

- (1) On June 4, 2010, the Company acquired the SIMPLY SALINE product line, and in late December 2010, acquired the FELINE PINE product line. Net sales of the acquired product lines subsequent to the acquisition are included in the Company's results. (See Note 6 to the consolidated financial statements included in this report for further information.)
- (2) Product lines divested include the BRILLO and certain LAMBERT KAY product lines, which were divested in the first quarter of 2010, and ancillary products divested in the third quarter of 2009 that initially were acquired in connection with the Company's acquisition of the ORAJEL brand of products from Del Laboratories, Inc., a subsidiary of Coty, Inc., in October 2008 (the Orajel Acquisition).

Table of Contents

The reductions resulting from pricing and sales mix primarily reflect higher trade promotion and slotting costs in support of new product launches. At the beginning of the second quarter of 2010, the Company changed delivery arrangements with certain customers, which resulted in a reduction in net sales due to a transportation allowance for a customer pick-up program. Previously, the cost to ship product was included in cost of sales.

Operating Costs

The Company's gross profit was \$1,157.8 million in 2010, a \$56.8 million increase as compared to 2009. The gross profit increase was attributable to higher sales volumes and lower manufacturing conversion costs, partially as a result of cost efficiencies derived from the Company's new manufacturing facility in York, Pennsylvania, a reduction in costs associated with the shutdown of the Company's manufacturing and warehouse facility in North Brunswick, New Jersey in 2009; a contribution from the SIMPLY SALINE business, which was acquired late in the second quarter of 2010; and favorable foreign exchange rates. Partially offsetting the gross profit improvement were higher trade promotion and slotting costs, higher commodity costs, the net effect of the divested and acquired product lines, and the change in customer delivery arrangements. The 2010 gross profit includes charges for environmental remediation, asset impairment and plant shutdown of \$7.6 million at a Company's international subsidiary. The gross profit in 2009 reflected an asset impairment charge and an environmental remediation charge of approximately \$6.0 million also at the Company's international subsidiary. Gross margin increased 100 basis points to 44.7% as compared to 43.7% in 2009. This increase is principally due to the reduction in costs related to the North Brunswick plant shutdown, manufacturing efficiencies in the new plant in York, Pennsylvania, and the change in customer delivery arrangements, partially offset by higher trade spending and commodity costs.

Marketing expenses for 2010 were \$338.0 million, a decrease of \$15.7 million or 4.4% as compared to 2009. Marketing spending primarily was in support of the Company's eight power brands. Funds from the reduction in marketing expenses were primarily used to increase trade promotion expenses (reflected in net sales) due to competitive pricing activity.

Selling, general and administrative expenses (SG&A) were \$374.8 million in 2010, an increase of \$20.3 million as compared to 2009. The increase in SG&A in 2010 includes the approximate \$24.0 million expense related to the transfer and settlement of the U.S. Pension Plan obligations. The increase also is attributable to the effect of foreign exchange rates, higher selling costs in support of higher sales, costs associated with a global information system upgrade project and higher legal expenses partially offset by lower incentive compensation costs and the \$1.0 million gain on the sale of certain LAMBERT KAY product lines during the first quarter of 2010.

The consolidated statement of income for 2009 reflects the \$20.0 million pre-tax gain, net of legal expenses, recognized by the Company in connection with the settlement of its litigation against Abbott Laboratories, Inc. (see Note 17 to the consolidated financial statements included in this report for further information).

Other Income and Expenses

In 2010, equity in earnings of affiliates was \$5.0 million as compared to \$12.1 million in 2009. The decrease is due to lower equity income from the Company's Armand Products Company joint venture due to lower pricing resulting from increased competitive activity and higher raw material costs.

Other expense was approximately \$4.6 million in 2010 as compared to other income of \$1.5 million in 2009, which is primarily attributable to the write-off of approximately \$4.5 million of unamortized deferred financing costs associated with the Company's prepayment of variable and subordinated debt. (See the liquidity section in Management's Discussion and Analysis for further information.)

Interest expense for 2010 decreased \$7.8 million compared to 2009. The decline was due to the reversal of interest accruals of approximately \$3.0 million associated with certain tax reserves following the settlement of an

Table of Contents

IRS audit and the lapse of applicable statutes of limitations, lower interest rates compared to the prior year, and lower average debt outstanding, partially offset by a charge of \$4.6 million relating to the termination of the Company's interest rate collar and interest rate swap agreements. This termination was due to the Company's repayment of its variable rate debt in the fourth quarter of 2010. (See Note 11 to the consolidated financial statements included in this report for further information.)

Investment earnings of \$0.6 million were lower due to a significant decline in interest rates.

Taxation

The 2010 tax rate was 35.3% as compared to 37.9% in 2009. The effective tax rate for 2010 included a benefit from an increase in the U.S. manufacturing tax deduction and the reversal of approximately \$4.1 million associated with certain tax liabilities following the settlement of an IRS audit and the lapse of applicable statutes of limitations.

Consolidated results

2009 compared to 2008

Net Sales

Net sales for the year ended December 31, 2009 were \$2,520.9 million, \$98.5 million or approximately 4% above 2008 net sales. Foreign exchange rate fluctuations reduced sales in 2009 by 2%. Of the increase, approximately 2% is due to sales in the first half of 2009 of products acquired in connection with the July 2008 Orajel Acquisition. The balance of the increase in net sales is due primarily to higher prices and improved sales mix of approximately 3% and higher volumes of approximately 2%. These factors were offset in part by the reduction in sales resulting from the divestiture in the first quarter of 2008 of Brotherton Speciality Products Ltd. (Brotherton), a former United Kingdom subsidiary that was included in the Company's Specialty Products Division, the third quarter 2009 divestiture of certain non-core product lines acquired in the Orajel Acquisition and the third quarter 2008 divestiture of the Company's consumer products subsidiary in Spain.

Operating Costs

The Company's gross profit was \$1,101.0 million in 2009, a \$129.3 million increase as compared to 2008. Gross margin increased 360 basis points to 43.7% as compared to 40.1% in 2008. The increase in gross margin reflects lower commodity costs, the impact of price increases instituted in 2008, the benefits of cost reduction programs and the higher margins associated with sales of products related to the Orajel Acquisition. The gross profit increase was partially offset by increased costs related to the planned closing of the Company's North Brunswick, New Jersey manufacturing and warehousing facility, a fixed asset impairment charge of \$6.9 million at an international subsidiary in 2009, and the impact of foreign exchange rate fluctuations.

Marketing expenses for 2009 were \$353.6 million, an increase of \$59.5 million or 20% as compared to 2008. The increased marketing spending included expenditures in support of ARM & HAMMER liquid laundry detergent, OXICLEAN powder and liquid laundry additives, TROJAN condoms and vibrating products, SPINBRUSH battery-operated toothbrushes, ARM & HAMMER baking soda and ARM & HAMMER DENTAL CARE, and expenditures for products acquired in the Orajel Acquisition, partially offset by the effect of foreign exchange rates.

Selling, general and administrative expenses (SG&A) were \$354.5 million in 2009, an increase of \$17.3 million as compared to 2008. The increase in SG&A in 2009 reflects increases in compensation and information systems costs, as well as higher amortization and operating costs related to the Orajel Acquisition, partially offset by lower international costs due in part to favorable foreign exchange rate fluctuations. In addition, 2008 SG&A reflected charges related to the divestiture of the Spain subsidiary and the associated asset impairment charges of \$5.7 million, offset by the \$3.0 million gain on the divestiture of Brotherton.

Table of Contents

The consolidated statement of income for 2009 reflects the \$20.0 million pre-tax gain, net of legal expenses, recognized by the Company in connection with the settlement of its litigation against Abbott Laboratories, Inc. (see Note 17 to the consolidated financial statements included in this report for further information).

Other Income and Expenses

In 2009, equity in earnings of affiliates was \$12.1 million as compared to \$11.3 million in 2008. The changes primarily reflect improved profitability of Armand Products Company.

Other income was approximately \$1.5 million in 2009 as compared to other expense of \$3.2 million in 2008. The changes in both years principally reflect foreign exchange rate fluctuations.

Interest expense for 2009 decreased \$11.4 million compared to 2008. The decline was due to lower interest rates compared to the prior year. Investment earnings of \$1.3 million were lower due to a significant decline in interest rates.

Taxation

The 2009 tax rate was 37.9% as compared to 36.7% in 2008. The 2009 tax rate reflects higher U.S. taxable income, which carries a higher effective tax rate than our foreign entities. The 2008 tax rate reflects a tax benefit of \$4.0 million related to the divestiture of the subsidiary in Spain, partially offset by non-deductible losses in Company owned life insurance.

Segment results for 2010, 2009 and 2008

The Company operates three reportable segments: Consumer Domestic, Consumer International and Specialty Products Division (SPD). These segments are determined based on differences in the nature of products and organizational and ownership structures. The Company also has a Corporate segment.

Segment	Products
Consumer Domestic	Household and personal care products
Consumer International	Primarily personal care products
SPD	Specialty chemical products

The Corporate segment income consists of equity in earnings of affiliates. The Company had 50% ownership interests in Armand Products Company (Armand) and The ArmaKleen Company (ArmaKleen) as of December 31, 2010. The Company's 50% ownership interest in Esseco U.K. LLP (Esseco) was divested in the first quarter of 2008 as part of the sale of Brotherton. The Company's equity in earnings of Armand and ArmaKleen for the twelve months ended December 31, 2010, 2009 and 2008, and Esseco for the two months ended February 29, 2008 (prior to the sale of Brotherton), is included in the Corporate segment.

Some of the subsidiaries that are included in the Consumer International segment manufacture and sell personal care products to the Consumer Domestic segment. These sales are eliminated from the Consumer International segment results set forth below.

Table of Contents

Segment sales and income before taxes and minority interest for each of the three years ended December 31, 2010, 2009 and 2008 were as follows:

(In thousands)	Consumer Domestic	Consumer International	SPD	Corporate	Total
Net Sales⁽¹⁾					
2010	\$ 1,886,082	\$ 444,033	\$ 259,105	\$ 0	\$ 2,589,220
2009	1,881,748	393,696	245,478	0	2,520,922
2008	1,716,801	420,192	285,405	0	2,422,398
Income Before Income Taxes⁽²⁾					
2010	\$ 341,858	\$ 52,577	\$ 18,784	\$ 5,037	\$ 418,256
2009	325,633	38,562	15,991	12,050	392,236
2008	236,956	34,635	25,335	11,334	308,260

(1) Intersegment sales from Consumer International to Consumer Domestic, which are not reflected in the table, were \$3.6 million, \$3.0 million and \$5.2 million for the years ended December 31, 2010, 2009 and 2008, respectively.

(2) In determining Income before Income Taxes, interest expense, investment earnings, and other income (expense) were allocated among the segments based upon each segment's relative operating profit.

Product line revenues for external customers for the years ended December 31, 2010, 2009 and 2008 were as follows:

(In thousands)	2010	2009	2008
Household Products	\$ 1,207,390	\$ 1,196,474	\$ 1,081,440
Personal Care Products	678,692	685,274	635,361
Total Consumer Domestic	1,886,082	1,881,748	1,716,801
Total Consumer International	444,033	393,696	420,192
Total SPD	259,105	245,478	285,405
Total Consolidated Net Sales	\$ 2,589,220	\$ 2,520,922	\$ 2,422,398

Consumer Domestic

2010 compared to 2009

Consumer Domestic net sales in 2010 were \$1,886.1 million, an increase of \$4.3 million or 0.2% compared to net sales of \$1,881.7 million in 2009. The components of the net sales change are the following:

	December 31, 2010
Net Sales - Consumer Domestic	
Product volumes sold	5.6%
Pricing and sales mix	(3.5%)
Change in customer delivery arrangements and allowances	(1.2%)
Acquired product lines ⁽¹⁾	0.6%
Divested product lines ⁽²⁾	(1.3%)
Net Sales increase	0.2%

- (1) On June 4, 2010, the Company acquired the SIMPLY SALINE product line, and in late December 2010, acquired the FELINE PINE product line. Net sales of acquired product lines subsequent to the acquisition are included in the Company's segment results. (See Note 6 to the condensed consolidated financial statements included in this report for further information.)
- (2) Product lines divested included the BRILLO and certain LAMBERT KAY product lines, which were divested in the first quarter of 2010, and ancillary products divested in the third quarter of 2009 that initially were acquired in connection with the Orajel Acquisition.

Table of Contents

Higher sales of ARM & HAMMER liquid laundry detergent, ARM & HAMMER SUPER SCOOP cat litter, TROJAN condoms and KABOOM bathroom cleaner were offset by lower sales of XTRA liquid laundry detergent, OXICLEAN laundry additive, SPINBRUSH toothbrushes, ARM & HAMMER powder detergent, ARRID antiperspirant and other oral care products.

Consumer Domestic Income before Income Taxes for 2010 was \$341.9 million, a \$16.2 million increase as compared to 2009. The 2010 increase is due to the impact of higher product volumes sold, cost efficiencies derived from the Company's new manufacturing facility in York, Pennsylvania, lower costs associated with the North Brunswick, New Jersey plant and warehouse shutdown in 2009, lower manufacturing costs, lower marketing costs, lower SG&A costs and lower allocated interest expense, partially offset by higher trade promotion and slotting expenses and higher SG&A costs primarily related to the settlement of the U.S. Pension Plan obligations.

2009 compared to 2008

Consumer Domestic net sales in 2009 were \$1,881.7 million, an increase of \$164.9 million or 9.6% compared to net sales of \$1,716.8 million in 2008. Of the increase, approximately 2% reflects first half of 2009 sales of products acquired in connection with the July 2008 Orajel Acquisition. The increase also is attributable to higher volumes and higher prices and improved sales mix. At a product line level, sales of XTRA liquid laundry detergent, ARM & HAMMER liquid laundry detergent, OXICLEAN laundry additive, ARM & HAMMER SUPER SCOOP cat litter and ARM & HAMMER powder laundry detergent were all higher than in 2008. The higher prices are principally a result of the May 2008 price increase on ARM & HAMMER powder laundry detergent and the October 2008 price increase on liquid laundry detergents, toothpaste and battery-operated toothbrushes.

Consumer Domestic Income before Income Taxes for 2009 was \$325.6 million, an \$88.6 million increase as compared to 2008. The 2009 increase is due to higher profits relating to higher net sales, lower commodity costs, the \$20.0 million gain, net of legal expenses, recognized by the Company in connection with the settlement of its litigation against Abbott Laboratories, Inc. (see Note 17 to the consolidated financial statements included in this report), and lower allocated interest expense, partially offset by accelerated depreciation and other expenses associated with the Company's 2009 shutdown of its North Brunswick, New Jersey facility (see Note 9 to the consolidated financial statements included in this report), and increased marketing and SG&A costs. In addition, the results for 2009 also reflect the incremental effect of the Orajel Acquisition, which occurred in July 2008.

Consumer International*2010 compared to 2009*

Consumer International net sales in 2010 were \$444.0 million, an increase of \$50.3 million or 12.8% as compared to 2009. The components of the net sales change are the following:

Net Sales Consumer International	December 31, 2010
Product volumes sold	8.3%
Pricing and sales mix	(1.2%)
Foreign exchange rate fluctuations	5.9%
Acquired product lines ⁽¹⁾	0.1%
Divested products ⁽²⁾	(0.3%)
Net Sales increase	12.8%

- (1) On June 4, 2010, the Company acquired the SIMPLY SALINE product line. Net sales of this product line subsequent to the acquisition are included in the Company's segment results. (See Note 6 to the consolidated financial statements included in this report for further information.)
- (2) Product lines divested included the BRILLO and certain LAMBERT KAY product lines, which were divested in the first quarter of 2010, and ancillary products divested in the third quarter of 2009 that initially were acquired in connection with the Orajel Acquisition.

Table of Contents

Higher unit volumes were generated principally in Canada, Australia, France, the United Kingdom and Brazil.

Consumer International income before income taxes was \$52.6 million in 2010, an increase of \$14.0 million compared to 2009. Higher profits are attributable to the higher sales volume and favorable exchange rates on U.S. dollar purchases of inventory and the translation of foreign financial statements to U.S. dollars, partially offset by higher SG&A and marketing costs.

2009 compared to 2008

Consumer International net sales in 2009 were \$393.7 million, a decrease of \$26.5 million or 6.3% as compared to 2008. This decrease reflects the approximately 10% impact of unfavorable foreign exchange rate fluctuations, and approximately 2% due to the divestiture of the Company's subsidiary in Spain. This decline was partially offset by higher volumes, higher prices and improved sales mix in Canada, Australia, the United Kingdom, Mexico and Brazil, and increased U.S. exports.

Consumer International income before income taxes was \$38.6 million in 2009, an increase of \$3.9 million compared to 2008. This increase is due to higher income associated with higher unit volume and favorable sales mix partially offset by higher marketing and SG&A expenses and the effect of foreign exchange rate fluctuations. In addition, 2008 income before income taxes reflected charges related to the sale of the subsidiary in Spain.

Specialty Products*2010 compared to 2009*

Specialty Products net sales were \$259.1 million for 2010, an increase of \$13.6 million, or 5.6% as compared to 2009. The components of the net sales change are the following:

	December 31, 2010
Net Sales Specialty Products Division	
Product volumes sold	0.3%
Pricing and sales mix	3.4%
Foreign exchange rate fluctuations	2.2%
Divested product lines ⁽¹⁾	(0.3%)
Net Sales increase	5.6%

(1) Product lines divested include the BRILLO product line, which was divested in the first quarter of 2010.

The pricing and sales mix increase in 2010 reflects higher sales prices in response to raw material increases primarily in the animal nutrition business. Product volume increases were realized in the animal nutrition business.

Specialty Products Income before Income Taxes for 2010 was \$18.8 million, an increase of \$2.8 million as compared to 2009. The increase in income in 2010 reflects the profits on higher net sales and a favorable foreign exchange rate associated with the Brazilian Real. Income before taxes in 2010 also includes expenses of \$9.7 million associated with an increase in environmental reserves of \$4.9 million and an impairment and plant shutdown charge of \$4.8 million at the Company's international subsidiary. Cost of sales includes \$7.6 million of these charges and SG&A includes \$2.1 million. In 2009 these items totaled approximately \$9.9 million.

2009 compared to 2008

Specialty Products net sales were \$245.5 million for 2009, a decrease of \$39.9 million, or 14.0% as compared to 2008. Volumes declined in the animal nutrition business primarily due to the continued lower U.S. milk prices which has depressed the dairy market, thus reducing the cash flow of dairy farmers. The decrease in

Table of Contents

net sales also reflects the approximately 2% impact of unfavorable foreign exchange rate fluctuations, as well as the impact of the sale of Brotherton during the first quarter of 2008. These factors were partially offset by higher prices and favorable sales mix of approximately 7% primarily of certain specialty chemical products.

Specialty Products Income before Income Taxes for 2009 was \$16.0 million, a decrease of \$9.3 million as compared to 2008. The decline in income in 2009 reflects the asset impairment charge and environmental remediation charge at one of the Company's international subsidiaries totaling approximately \$9.9 million, and lower income due to lower volumes. The results for 2008 included a \$3.0 million gain associated with the sale of Brotherton.

Liquidity and capital resources

As of December 31, 2010, the Company had \$189.2 million in cash, \$25.0 million available through its \$115.0 million accounts receivable securitization facility, approximately \$500 million available under its new revolving credit facility and a commitment increase feature that enables the Company to borrow up to an additional \$500.0 million, subject to lending commitments and certain conditions as described in the Credit Agreement. To enhance the safety of its cash resources, the Company invests its cash primarily in government agency money market funds.

On November 18, 2010, the Company entered into a new credit agreement (Credit Agreement) to replace its existing credit facility. The Credit Agreement provides for a \$500 million unsecured revolving credit facility. The Company also has the ability to increase its revolving credit facility by up to an additional \$500 million, subject to lender commitments and other conditions as described in the Credit Agreement. Unless extended, the Credit Agreement will terminate and all amounts outstanding thereunder will be due and payable on November 18, 2015. As a result of the new credit agreement, the Company paid off the remaining outstanding balance of its bank term loans of \$408 million. See Note 11 to the consolidated financial statements included in this report for additional information.

On December 15, 2010, the Company closed on an underwritten public offering of \$250 million aggregate principal amount of 3.35% senior notes due 2015 (the Notes). The Notes were issued under an indenture dated December 15, 2010, and a first supplemental indenture dated December 15, 2010, between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee relating to the Notes. The proceeds were used to retire the outstanding \$250 million principal amount of the Company's 6% senior subordinated notes due December 15, 2012.

Interest on the Notes is payable on June 15 and December 15 of each year, beginning June 15, 2011. The Notes will mature on December 15, 2015, unless earlier retired or redeemed as described below.

In addition, the Company terminated its interest rate collar and swap cash flow hedge agreements. As a result of the refinancing, the Company recorded in interest expense total hedge losses of \$4.6 million, of which \$4.3 million was a reclassification from accumulated other comprehensive income, and recorded, as other expense, the unamortized deferred financing costs of \$4.5 million associated with the previous debt arrangements. If the Company borrows under the revolving credit facility, it would consider entering into hedge agreements to mitigate the interest rate risk.

The Company renewed its accounts receivable securitization facility in February 2011. This facility has been renewed annually in the past, and the Company anticipates that this facility will be renewed in February 2012. As of December 31, 2010, the Company had borrowed \$90.0 million under this facility.

The current economic environment presents risks that could have adverse consequences for the Company's liquidity. (See Economic conditions could adversely affect our business under Risk Factors in Item 1A.) However, the Company does not currently anticipate that the potential adverse developments addressed in those

Table of Contents

risk factors will occur. In addition, the Company does not anticipate that current economic conditions will adversely affect its ability to comply with the financial covenants in its principal credit facilities because the Company currently is, and anticipates that it will continue to be, in compliance with the minimum interest coverage ratio requirement and the maximum leverage ratio requirement under its new credit facility described above. These financial ratios are discussed in more detail in this section under Certain Financial Covenants.

On February 7, 2011, the Board of Directors increased the Company's regular quarterly dividend from \$0.17 per share to \$0.34 per share, equivalent to an annual dividend rate of \$1.36 per share, commencing with the dividend payable on March 1, 2011. The higher dividend raises the annualized dividend payout from approximately \$49 million to approximately \$97 million. The Company last increased its dividend in August 2010.

The Company anticipates that its cash from operations, together with its current borrowing capacity, will be sufficient to meet its capital expenditure program costs, which are expected to be approximately \$80 to \$90 million in 2011 and pay dividends at the latest approved rate. As a result of the 2010 refinancing activities, the Company does not have any mandatory debt payments in 2011. Cash may be used for acquisitions that would complement the Company's existing product lines or geographic markets.

Net Debt

The Company had outstanding total debt of \$339.7 million and cash of \$189.2 million (of which approximately \$62.4 million resides in foreign subsidiaries) at December 31, 2010. Total debt less cash (net debt) was \$150.5 million at December 31, 2010. This compares to total debt of \$816.3 million and cash of \$447.1 million, resulting in net debt of \$369.2 million at December 31, 2009.

Cash Flow Analysis

(In thousands)	Year Ending December 31,		
	2010	2009	2008
Net cash provided by operating activities	\$ 428,482	\$ 400,949	\$ 336,167
Net cash (used in) investing activities	\$ (180,448)	\$ (104,140)	\$ (466,161)
Net cash (used in) financing activities	\$ (503,724)	\$ (58,315)	\$ 87,222

Net Cash Provided by Operating Activities The Company's net cash provided by operating activities in 2010 increased \$27.6 million to \$428.5 million as compared to 2009. The increase was primarily due to higher net income, higher deferred income taxes primarily due to tax amortization of intangibles and depreciation and a decrease in working capital (exclusive of cash).

For the year ended December 31, 2010, the components of working capital that significantly affected operating cash flow are as follows:

Accounts receivable increased \$12.7 million due to the timing of increased net sales.

Inventories decreased \$24.1 million primarily due to inventory management improvement efforts.

Accounts payable and other accrued expenses increased \$22.7 million primarily because of timing of invoice payments, offset by higher incentive and profit sharing compensation paid out in early 2010, and severance related payments associated with the closure of the Company's North Brunswick, New Jersey facility in 2009.

Income taxes payable decreased \$7.6 million due to the timing of payments.

Table of Contents

Net Cash Used in Investing Activities Net cash used in investing activities during 2010 was \$180.4 million, reflecting the \$70.0 million acquisition of the SIMPLY SALINE brand, the \$46.0 million acquisition of FELINE PINE cat litter, a \$10 million acquisition of oral care technology and \$63.8 million of property, plant and equipment expenditures partially offset by \$8.2 million of proceeds received for assets sold, \$1.8 million in payments received on outstanding notes receivable, and state government grants of \$1.7 million received in connection with the York, Pennsylvania facility.

Net Cash Used in Financing Activities Net cash used in financing activities during 2010 was \$503.7 million, principally reflecting a net decrease in debt of \$781.4 million resulting from the \$531.4 million retirement of the Company's term loan facility, the \$250.0 million retirement of the Company's 6% senior subordinated notes due 2012, and repayment of short term bank debt of \$4.9 million at one of the Company's international subsidiaries. The net decrease in debt was offset by \$249.7 million in net proceeds obtained through the Company's issuance of \$250 million principal amount of its 3.35% senior notes due 2015 and \$60.0 million obtained through the Company's increased borrowing under its accounts receivable securitization facility. Other net cash used in financing activities included \$44.0 million to pay cash dividends. In addition to new borrowings, cash used in financing activities also was partly offset by proceeds of and tax benefits from stock option exercises, aggregating \$7.3 million. See "Market Risk" below for management's discussion of interest rate risk.

Certain Financial Covenants

Consolidated EBITDA (referred to below as Adjusted EBITDA) is a component of the financial covenants contained in, and is defined in, the new Credit Agreement. Financial covenants include a leverage ratio (total debt to Adjusted EBITDA) and an interest coverage ratio (Adjusted EBITDA to total interest expense), which if not met, could result in an event of default and trigger the early termination of the Credit Agreement. Adjusted EBITDA may not be comparable to similarly titled measures used by other entities and should not be considered as an alternative to cash flows from operating activities, which is determined in accordance with accounting principles generally accepted in the United States. The leverage ratio during the twelve months ended December 31, 2010 was 0.64, which is below the maximum of 3.25 permitted under the Credit Agreement, and the interest coverage ratio for the twelve months ending December 31, 2010 was 18.70, which is above the minimum of 3.00 permitted under the Credit Agreement. See Note 11 to the consolidated financial statements included in this report for disclosures relating to the Credit Agreement.

The reconciliation of Net Cash Provided by Operating Activities (the most directly comparable GAAP financial measure) to Adjusted EBITDA for 2010 is as follows:

(In thousands)

Net Cash Provided by Operating Activities	\$ 428,482
Noncontrolling Interest	23
Interest paid	29,325
Current Income Tax Provision	108,709
Excess Tax Benefit on Stock Options Exercised	7,261
Change in Working Capital and Other Liabilities	(31,582)
Adjustments for Significant Acquisitions / Dispositions - net	6,737
Adjusted EBITDA (per Credit Agreement)	\$ 548,955

Table of Contents

Commitments as of December 31, 2010

The table below summarizes the Company's material contractual obligations and commitments as of December 31, 2010.

(In thousands)	Total	Payments Due by Period			After 2015
		2011	2012 to 2013	2014 to 2015	
Short & Long-Term Debt					
3.35% Senior Note	\$ 250,000	\$ 0	\$ 0	\$ 250,000	\$ 0
Accounts Receivable Securitization Facility	90,000	90,000	0	0	0
	340,000	90,000	0	250,000	0
Interest on Fixed Rate Debt⁽¹⁾	41,875	8,375	16,750	16,750	0
Operating Lease Obligations	96,021	17,227	26,607	18,124	34,063
Other Long-Term Liabilities					
Letters of Credit and Performance Bonds ⁽²⁾	3,691	3,691	0	0	0
Pension Contributions ⁽³⁾	3,521	3,521	0	0	0
Purchase Obligations ⁽⁴⁾	118,770	75,966	40,827	1,977	0
Total	\$ 603,878	\$ 198,780	\$ 84,184	\$ 286,851	\$ 34,063

(1) Represents interest on the Company's 3.35% senior note due in 2015.

(2) Letters of credit with several banks guarantee payment for items such as insurance claims in the event of the Company's insolvency and one year of rent on a warehouse. Performance Bonds are principally for required municipal property improvements.

(3) Pension contributions are based on actuarial assessments of government regulated employer funding requirements. These requirements are not projected beyond one year since they fluctuate with the change in plan assets, assumptions and demographics.

(4) The Company has outstanding purchase obligations with suppliers at the end of 2010 for raw, packaging and other materials and services in the normal course of business. These purchase obligation amounts represent only those items which are based on agreements that are enforceable and legally binding, and do not represent total anticipated purchases.

The Company has excluded from the table above uncertain tax liabilities due to the uncertainty of the amount per period of payment. As of December 31, 2010, the Company has gross uncertain tax liabilities, including interest, of \$27.2 million (see Note 12 to the consolidated financial statements included in this report).

Off-Balance Sheet Arrangements

The Company does not have off-balance sheet financing or unconsolidated special purpose entities.

OTHER ITEMS**Market risk***Concentration of Risk*

In each of the years ended December 31, 2010, 2009 and 2008, net sales to the Company's largest customer, Wal-Mart Stores, Inc. and its affiliates were 23%, 22% and 22% respectively, of the Company's total consolidated net sales.

Interest Rate Risk

Edgar Filing: CHURCH & DWIGHT CO INC /DE/ - Form 10-K

The Company has significantly reduced its interest rate risk as a result of its refinancing activities in 2010. While the Company had outstanding total debt at December 31, 2010 of \$339.7 million, \$250.0 million or 74% carries a fixed rate of interest at 3.35%. The remaining debt balance primarily is comprised of \$90.0 million

Table of Contents

outstanding under the accounts receivables securitization agreement, which had an interest rate of 1.30% at December 31, 2010. The Company previously entered into interest rate collar and swap agreements to mitigate the risk of interest rate fluctuations on its recently terminated bank term loans. The Company settled these agreements in connection with the termination of the bank loans. Should the Company need to use its revolving credit facility, it would consider entering into hedge agreements to mitigate the interest rate risk, if conditions warrant.

Diesel Fuel Hedge

The Company uses independent freight carriers to deliver its products. These carriers charge the Company a basic rate per mile that is subject to a mileage surcharge for diesel fuel price increases. During the second quarter of 2010, the Company entered into hedge agreements with a financial counterparty. Under the hedge agreements, the Company agreed to pay a fixed price per gallon of diesel fuel determined at the time the agreements were executed and to receive a floating rate payment reflecting the variable common carriers' mileage surcharge. The last of the agreements, which cover approximately 23% of the Company's 2011 diesel fuel requirements, expire on September 30, 2011. The floating rate payment is determined on a monthly basis based on the average of the Department of Energy's Diesel Fuel Index price during the applicable month. The floating rate payment is designed to offset any increase or decrease in fuel surcharge payments that the Company pays to its carriers. The Company uses the hedge agreements to mitigate the volatility of diesel fuel prices and related fuel surcharges, and not to speculate in the future price of diesel fuel. The hedge agreements are designed to add stability to the Company's product costs, enabling the Company to make pricing decisions and lessen the economic impact of abrupt changes in diesel fuel prices over the term of the contract. These agreements qualify for hedge accounting. Therefore, changes in the fair value of diesel fuel hedge agreements are recorded in Other Comprehensive Income on the balance sheet.

Foreign Currency

The Company is subject to exposure from fluctuations in foreign currency exchange rates, primarily U.S. Dollar/Euro, U.S. Dollar/British Pound, U.S. Dollar/Canadian Dollar, U.S. Dollar/Mexican Peso, U.S. Dollar/Australian Dollar, U.S. Dollar/Brazilian Real and U.S. Dollar/Chinese Yuan.

The Company, from time to time, enters into forward exchange contracts to reduce the impact of foreign exchange rate fluctuations related to anticipated but not yet committed intercompany sales or purchases denominated in the U.S. dollar, Canadian dollar, British pound and Euro. The Company's Canadian and Brazilian subsidiaries entered into forward exchange contracts to protect the Company from the risk that, due to changes in currency exchange rates, it would be adversely affected by net cash outflows. The face value of the unexpired contracts as of December 31, 2010 totaled U.S. \$34.3 million. The amount recorded, before taxes, as a result of changes in fair value of the forward exchange contracts, was an approximately \$0.3 million loss for the year ended December 31, 2010.

Equity Derivatives

The Company has entered into equity derivative contracts covering its own stock in order to minimize its liability, resulting from changes in quoted fair values of Company stock, to participants under its Executive Deferred Compensation Plan who have investments under that plan in a notional Company stock fund. Since the equity derivatives do not qualify for hedge accounting, the Company is required to mark the agreements to market throughout the life of the agreements and record changes in fair value in the consolidated statement of income.

See Note 3 to the condensed consolidated financial statements included in this report for additional information regarding the reported changes in fair values of the Company's derivative instruments.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

This information appears under the heading "Market Risk" in the "Management's Discussion and Analysis" section. Refer to page 40 of this annual report on Form 10-K.

**ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA
MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Management of Church & Dwight Co., Inc (the Company) is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management evaluated the Company's internal control over financial reporting as of December 31, 2010. In making this assessment, management used the framework established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). As a result of this assessment and based on the criteria in the COSO framework, management has concluded that, as of December 31, 2010, the Company's internal control over financial reporting was effective.

The Company's independent registered public accounting firm, Deloitte & Touche LLP, have audited the Company's internal control over financial reporting. Their opinions on the effectiveness of the Company's internal control over financial reporting and on the Company's consolidated financial statements and financial statement schedules appear on pages 43 and 44 of this annual report on Form 10-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of

Church & Dwight Co., Inc.

Princeton, New Jersey

We have audited the accompanying consolidated balance sheets of Church & Dwight Co., Inc. and subsidiaries (the Company) as of December 31, 2010 and 2009, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2010. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Church & Dwight Co., Inc. and subsidiaries at December 31, 2010 and 2009, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2010, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 24, 2011 expressed an unqualified opinion on the Company's internal control over financial reporting.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of

Church & Dwight Co., Inc.

Princeton, New Jersey

We have audited the internal control over financial reporting of Church & Dwight Co., Inc. and subsidiaries (the Company) as of December 31, 2010, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2010, based on the criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2010 of the Company and our report dated February 24, 2011 expressed an unqualified opinion on those financial statements and financial statement schedule.

Table of Contents

CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Significant Accounting Policies

Business

The Company develops, manufactures and markets a broad range of consumer and specialty products. It recognizes revenues and profits from selling its products, under a variety of brand names, including ARM & HAMMER and TROJAN, to supermarkets, drug stores and mass merchandisers that sell the products to consumers. The Company also sells its products to industrial customers and distributors.

Basis of Presentation

The accompanying Consolidated Financial Statements are presented in accordance with accounting principles generally accepted in the United States of America. The accompanying Consolidated Financial Statements include the accounts of the Company and its majority-owned subsidiaries. The Company accounts for equity investments on the cost method for those investments in which it does not control nor have the ability to exert significant influence over the investee, which generally is when the Company has less than a 20 percent ownership interest. In circumstances where the Company has greater than a 20 percent ownership interest and has the ability to exercise significant influence but does not control the investee, the investment is accounted for under the equity method. As a result, the Company accounts for its 50 percent interest in its Armand Products Company joint venture (Armand) and The ArmaKleen Company joint venture (ArmaKleen) under the equity method of accounting. Armand and ArmaKleen are specialty chemical businesses, and the Company's 50 percent portion of their equity earnings is reported in the Company's corporate segment, as described in Note 19. Neither of these entities are considered a significant subsidiary; therefore, summarized financial statement data is not presented.

Fiscal Calendar

The Company's fiscal year begins on January 1st and ends on December 31st. Quarterly periods are based on a 4 weeks 4 weeks 5 weeks methodology. As a result, the first quarter can include a partial or expanded week in the first four week period of the quarter. Similarly, the last five week period in the fourth quarter could include a partial or expanded week. Certain subsidiaries operating outside of North America are included for periods beginning and ending one month prior to the period presented, which enables timely consolidation of operating results. There were no material intervening events that occurred with respect to these subsidiaries in the one month period ending December 31, 2010.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent gains and losses at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Management makes estimates regarding inventory valuation, promotional and sales returns reserves, the carrying amount of goodwill and other intangible assets, the realization of deferred tax assets, tax reserves, liabilities related to pensions and other postretirement benefit obligations and other matters that affect the reported amounts and other disclosures in the financial statements. Estimates are based on judgment and available information. Therefore, actual results could differ materially from those estimates, and it is possible that changes in such estimates could occur in the near term.

Revenue Recognition

Revenue is recognized when finished goods are delivered to our customers or when finished goods are picked up by a customer or a customer's carrier.

Table of Contents

CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Promotional and Sales Returns Reserves

The Company conducts extensive promotional activities, primarily through the use of off-list discounts, slotting, co-op advertising, periodic price reduction arrangements, and end-aisle and other in-store displays. All such costs are netted against sales. Slotting costs are recorded when the product is delivered to the customer. Cooperative advertising costs are recorded when the customer places the advertisement for the Company's products. Discounts relating to price reduction arrangements are recorded when the related sale takes place. Costs associated with end-aisle or other in-store displays are recorded when the revenue from the product that is subject to the promotion is recognized. The reserves for sales returns and consumer and trade promotion liabilities are established based on the Company's best estimate of the amounts necessary to settle future and existing obligations for such items with respect to products sold as of the balance sheet date. The Company uses historical trend experience and coupon redemption provider input in arriving at coupon reserve requirements, and uses forecasted appropriations, customer and sales organization inputs, and historical trend analysis in determining the reserves for other promotional activities and sales returns.

Cost of Sales, Marketing and Selling, General and Administrative Expenses

Cost of sales include costs related to the manufacture of the Company's products, including raw material costs, inbound freight costs, direct labor, and indirect plant costs such as plant supervision, receiving, inspection, maintenance labor and materials, depreciation, taxes and insurance, purchasing, production planning, operations management, logistics, freight to customers, warehousing costs, internal transfer freight costs and plant impairment charges.

Marketing expenses include costs for advertising (excluding the costs of cooperative advertising programs, which are reflected in net sales), costs for coupon insertion (mainly the cost of printing and distribution), consumer promotion costs (such as on-shelf advertisements and floor ads), public relations, package design expense and market research costs.

Selling, general and administrative expenses include costs related to functions such as sales, corporate management, marketing administration and legal, among others. Such costs include salary compensation related costs (such as benefits, profit sharing, deferred compensation and employer contributions to savings plans); travel and entertainment related expenses; trade show expenses; insurance; professional and other consulting fees; costs related to temporary staff; staff relocation costs; and non-capitalizable software related costs.

Foreign Currency Translation

Unrealized gains and losses related to currency translation are recorded in Accumulated Other Comprehensive Income (Loss). Gains and losses on foreign currency transactions are recorded in the Consolidated Statements of Income.

Cash Equivalents

Cash equivalents consist of highly liquid short-term investments, which mature within three months of original maturity date.

Inventories

Inventories are valued at the lower of cost or market. Approximately 22% and 23% of the inventory at December 31, 2010 and 2009, including substantially all inventory in the Company's Specialty Products segment as well as domestic inventory sold primarily under the ARM & HAMMER trademark in the Consumer Domestic

Table of Contents

CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

segment, were determined utilizing the last-in, first-out (LIFO) method. The cost of the remaining inventory is determined using the first-in, first-out (FIFO) method. The Company identifies any slow moving, obsolete or excess inventory to determine whether an adjustment is required to establish a new carrying value. The determination of whether inventory items are slow moving, obsolete or in excess of needs requires estimates and assumptions about the future demand for the Company's products, technological changes, and new product introductions. The estimates as to the future demand used in the valuation of inventory involve judgments regarding the ongoing success of the Company's products. The Company evaluates its inventory levels and expected usage on a periodic basis and records adjustments as required. Adjustments to reflect inventory at net realizable value were \$6.1 million at December 31, 2010, and \$8.8 million at December 31, 2009.

Property, Plant and Equipment

Property, plant and equipment is stated at cost. Depreciation is recorded using the straight-line method over the estimated useful lives of the respective assets. Estimated useful lives for building and improvements, machinery and equipment, and office equipment range from 9-40, 3-20 and 3-10 years, respectively. Routine repairs and maintenance are expensed when incurred. Leasehold improvements are depreciated over a period no longer than the lease term, except when the lease renewal has been determined to be reasonably assured and failure to renew the lease results in an economic penalty to the Company.

Property, plant and equipment are reviewed whenever events or changes in circumstances indicate that possible impairment exists. The Company's impairment review is based on an undiscounted cash flow analysis at the lowest level at which cash flows of the long-lived assets are largely independent of other groups of Company assets and liabilities. The analysis requires management judgment with respect to changes in technology, the continued success of product lines, and future volume, revenue and expense growth rates. The Company conducts annual reviews to identify idle and underutilized equipment, and reviews business plans for possible impairment. Impairment occurs when the carrying value of the asset exceeds the future undiscounted cash flows. When an impairment is indicated, the estimated future cash flows are then discounted to determine the estimated fair value of the asset and an impairment charge is recorded for the difference between the carrying value and the net present value of estimated future cash flows.

Software

The Company capitalizes certain costs of developing computer software. Amortization is recorded using the straight-line method over the estimated useful lives of the software, none of which are estimated to be longer than 10 years.

Fair Value of Financial Instruments

Certain financial instruments are required to be recorded at fair value. The estimated fair values of such financial instruments (including investment securities and derivatives) have been determined using market information and valuation methodologies. Changes in assumptions or estimation methods could affect the fair value estimates. Other financial instruments, including cash equivalents and short-term debt are recorded at cost, which approximates fair value. Additional information regarding our risk management activities, including derivative instruments and hedging activities are separately disclosed.

Goodwill and Other Intangible Assets

Goodwill and intangible assets with indefinite useful lives are not amortized but are reviewed for impairment at least annually. Intangible assets with finite lives are amortized over their estimated useful lives using the straight-line method and reviewed for impairment. See the *Property, Plant and Equipment* section of this Note 1, above.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Research and Development*

The Company incurred research and development expenses in the amount of \$53.7 million, \$55.1 million and \$51.2 million in 2010, 2009 and 2008, respectively. These expenses are included in selling, general and administrative expenses.

Earnings Per Share (EPS)

Basic EPS is calculated based on income available to common shareholders and the weighted-average number of shares outstanding during the reported period. Diluted EPS includes additional dilution from potential common stock issuable pursuant to the exercise of stock options outstanding. The following table sets forth a reconciliation of the weighted average number of common shares outstanding to the weighted average number of shares outstanding on a diluted basis:

(In thousands)	2010	2009	2008
Weighted average common shares outstanding basic	71,031	70,379	67,870
Dilutive effect of stock options	1,170	1,098	1,236
Dilutive effect of convertible debt ⁽¹⁾	0	0	2,010
Weighted average common shares outstanding diluted	72,201	71,477	71,116
Antidilutive stock options outstanding	609	1,106	444

(1) All but a nominal portion of the Company's outstanding convertible debentures were converted into common stock.

Employee Stock Based Compensation

The fair value of share-based compensation is determined at the grant date and the related expense is recognized over the required employee service period in which the share-based compensation vests. In 2010, the Company recorded a pre-tax charge of \$10.9 million associated with the fair-value of unvested stock options, of which \$9.7 million was included in selling, general and administrative expenses and \$1.2 million in cost of goods sold.

Comprehensive Income

Comprehensive income consists of net income, foreign currency translation adjustments, changes in the fair value of certain derivative financial instruments designated and qualifying as cash flow hedges, and defined benefit plan adjustments, and is presented in the Consolidated Statements of Changes in Stockholders' Equity and addressed in Note 15.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized to reflect the future tax consequences attributable to the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which the differences are expected to be recovered or settled. Management provides a valuation allowance against deferred tax assets for amounts which are not considered more likely than not to be realized. The liabilities relate to tax return positions that, although supportable by the Company,

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

may be challenged by the tax authorities and do not meet the minimum recognition threshold required under applicable accounting guidance for the related tax benefit to be recognized in the income statement. The Company adjusts this liability as a result of changes in tax legislation, interpretations of laws by courts, rulings by tax authorities, changes in estimates and the expiration of the statute of limitations. Many of the judgments involved in adjusting the liability involve assumptions and estimates that are highly uncertain and subject to change. In this regard, settlement of any issue, or an adverse determination in litigation, with a taxing authority could require the use of cash and result in an increase in our annual tax rate. Conversely, favorable resolution of an issue with a taxing authority would be recognized as a reduction to our annual tax rate of Income before Income Taxes.

New Accounting Pronouncements Adopted

There are no accounting pronouncements issued but not yet adopted by the Company which are expected to have a material impact on the Company's financial position, results of operations or cash flows. Accounting pronouncements adopted during the periods presented resulted in changes to disclosures but did not have a material impact on the Company's financial position, results of operations or cash flows.

2. Fair Value Measurements*Fair Value Hierarchy*

Accounting guidance on fair value measurements and disclosures establishes a hierarchy that prioritizes the inputs (generally, assumptions that market participants would use in pricing an asset or liability) used to measure fair value based on the quality and reliability of the information provided by the inputs, as follows:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The Company recognizes transfers between input levels as of the actual date of the event. There were no transfers between input levels in the twelve months ended December 31, 2010. The following table summarizes the Company's financial assets and liabilities that are measured at fair value on a recurring basis, all of which were measured based on Level 2 inputs:

(In thousands)	December 31, 2010 (Level 2)	December 31, 2009 (Level 2)
Assets		
Equity derivatives	\$ 348	\$ 1,452
Diesel fuel contracts	626	596
	\$ 974	\$ 2,048
Liabilities		
Foreign exchange contracts	\$ 1,045	\$ 743
Diesel fuel contracts	0	343
Interest rate collars and swaps	0	5,120
	\$ 1,045	\$ 6,206

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The fair value of the foreign exchange contracts is based on observable forward rates in commonly quoted intervals for the full term of the contract.

The fair value of the equity derivatives is based on the quoted market prices of Company stock at the end of each reporting period.

The fair value of the diesel fuel contracts is based on home heating oil futures prices for the duration of the contract.

The fair value for the interest rate collars and swaps was derived using the forward three month LIBOR curve for the duration of the respective collars and swaps and a credit valuation adjustment relating to the credit risk of the counterparty. In 2010, the Company settled these contracts in conjunction with refinancing its debt.

Fair Values of Other Financial Instruments

The following table presents the carrying amounts and estimated fair values of the Company's other financial instruments at December 31, 2010 and December 31, 2009.

(In thousands)	December 31, 2010		December 31, 2009	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial Assets:				
Current portion of note receivable	\$ 1,554	\$ 1,565	\$ 1,388	\$ 1,388
Long-term note receivable	750	821	954	991
Financial Liabilities:				
Short-term borrowings	90,000	90,000	34,895	34,895
Current portion of long-term debt	0	0	184,054	178,045
6% Senior subordinated note debt	0	0	250,000	254,688
3.35% Senior note	249,673	250,170	0	0
Long-term bank debt	0	0	347,347	328,686

The following methods and assumptions were used to estimate the fair value of each class of financial instruments reflected in the Consolidated Balance Sheets:

Note Receivable: The fair value of the note receivable reflects what management believes is the appropriate interest factor at December 31, 2010 and December 31, 2009, respectively, based on similar risks in the market.

Short-term Borrowings: The carrying amounts of the Company's unsecured lines of credit and accounts receivable securitization equal fair value because of short maturities and variable interest rates.

Long-term Bank Debt, Current Portion of Long-term Debt: The Company determines fair value based upon the prevailing value of equivalent financing.

Senior Note Debt, Senior Subordinated Note Debt: The Company determines fair value of its senior note and senior subordinated notes based upon their quoted market value.

3. Derivative Instruments and Risk Management

Changes in interest rates, foreign exchange rates, the price of the Company's common stock and commodity prices expose the Company to market risk. The Company manages these risks by the use of derivative instruments, such as cash flow hedges, diesel hedge contracts, equity

derivatives and foreign exchange forward contracts. The Company does not use derivatives for trading or speculative purposes.

Table of Contents

CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

When it enters into derivative arrangements, the Company formally designates and documents qualifying instruments as hedges of underlying exposures. Changes in the fair value of derivatives designated as hedges and qualifying for hedge accounting are recorded in other comprehensive income and reclassified into earnings during the period in which the hedged exposure affects earnings. The Company reviews the effectiveness of its hedging instruments on a quarterly basis. If the Company determines that a derivative instrument is no longer highly effective in offsetting changes in fair values or cash flows, it recognizes in current period earnings the hedge ineffectiveness and discontinues hedge accounting with respect to the derivative instrument. Changes in fair value for derivatives not designated as hedges or those not qualifying for hedge accounting are recognized in current period earnings. Upon termination of cash flow hedges, the Company reclassifies gains and losses from other comprehensive income based on the timing of the underlying cash flows, unless the termination results from the failure of the intended transaction to occur in the expected timeframe. Such untimely transactions require immediate recognition in earnings of gains and losses previously recorded in other comprehensive income.

During 2010, the Company used derivative instruments to mitigate risk, some of which were designated as hedging instruments. The tables following the discussion of the derivative instruments summarize the fair value of the Company's derivative instruments and the effect of derivative instruments on the Company's consolidated statements of income and on other comprehensive income.

Derivatives Designated as Hedging Instruments

Interest Rate Collars and Swaps

The Company has significantly reduced its interest rate risk as a result of its refinancing activities in 2010. While the Company had outstanding total debt at December 31, 2010 of \$339.7 million, \$250.0 million or 74% carries a fixed rate of interest at 3.35%. The remaining debt balance primarily is comprised of \$90.0 million outstanding under an accounts receivables securitization agreement which currently has an interest rate of 1.30%. The Company previously entered into interest rate collar and swap agreements to mitigate the risk of interest rate fluctuations on its recently terminated bank term loans. The Company settled these agreements in connection with the termination of the bank term loans.

Diesel Fuel Hedges

The Company uses independent freight carriers to deliver its products. These carriers charge the Company a basic rate per mile that is subject to a mileage surcharge for diesel fuel price increases. In July 2008 and April 2009, in response to increasing fuel prices and a concomitant increase in mileage surcharges, the Company entered into agreements with two financial counterparties to hedge a notional amount to equal approximately 13% of its diesel fuel requirements for 2010. The Company uses the hedge agreements to mitigate the volatility of diesel fuel prices and related fuel surcharges, and not to speculate in the future price of diesel fuel. The hedge agreements are designed to add stability to the Company's product costs, enabling the Company to make pricing decisions and lessen the economic impact of abrupt changes in diesel fuel prices over the term of the contract.

During the second quarter of 2010, the Company entered into hedge agreements with a financial counterparty to pay a fixed price per gallon of diesel fuel determined at the time the agreement was executed and to receive a floating rate payment reflecting the variable common carriers mileage surcharge. The last of the agreements, which cover approximately 23% of the Company's estimated 2011 diesel fuel requirements, expire on September 30, 2011. The floating rate payment is determined on a monthly basis based on the average price of the Department of Energy's Diesel Fuel Index price during the applicable month. The floating rate payment is designed to offset any increase or decrease in fuel surcharge payments that the Company pays to its common

Table of Contents

CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

carriers. Since the agreements qualify for hedge accounting, changes in the fair value of cash flow hedge agreements are recorded in Other Comprehensive Income and reclassified to earnings when the hedged transactions affect earnings.

Foreign Currency

The Company is subject to exposure from fluctuations in foreign currency exchange rates, primarily U.S. Dollar/Euro, U.S. Dollar/British Pound, U.S. Dollar/Canadian Dollar, U.S. Dollar/Mexican Peso, U.S. Dollar/Australian Dollar, U.S. Dollar/Brazilian Real and U.S. Dollar/Chinese Yuan.

The Company, from time to time, enters into forward exchange contracts to hedge anticipated but not yet committed sales or purchases denominated in the U.S. Dollar, Canadian dollar, British pound and Euro. The last of the contracts expire by the end of October 2011. The Company's Canadian and Brazilian subsidiaries entered into forward exchange contracts to protect the Company from the risk that, due to changes in currency exchange rates, it would be adversely affected by net cash outflows. The face value of the unexpired contracts as of December 31, 2010 totaled U.S. \$34.3 million. The contracts qualified as foreign currency cash flow hedges, and, therefore, changes in the fair value of the contracts were recorded in Other Comprehensive Income (Loss) and reclassified to earnings when the hedged transaction affected earnings.

Derivatives not Designated as Hedging Instruments

Diesel Fuel Hedges

The Company had diesel fuel hedges established in 2009 that expired during 2010. These hedges did not qualify for hedge accounting.

Equity Derivatives

The Company has entered into equity derivative contracts covering its own stock in order to minimize its liability resulting from changes in quoted fair values of Company stock, to participants in its Executive Deferred Compensation Plan who have investments under that plan in a notional Company stock fund. The contracts are settled in cash.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following tables summarize the fair value of the Company's derivative instruments and the effect of derivative instruments on our Consolidated Statements of Income and on other comprehensive income (OCI):

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The notional amount of a financial instrument is the nominal or face amount that is used to calculate payments made on that instrument. Other than the reclassification of losses related to the termination of interest rate swap and interest rate collar agreements in the fourth quarter of 2010, there were no other material reclassifications of gains (losses) from other comprehensive income to earnings for the years ended December 31, 2010 and December 31, 2009.

4. Inventories

Inventories consist of the following:

(In thousands)	December 31, 2010	December 31, 2009
Raw materials and supplies	\$ 52,500	\$ 57,305
Work in process	12,114	9,141
Finished goods	130,787	150,424
Total	\$ 195,401	\$ 216,870

Inventories valued on the last-in, first-out (LIFO) method totaled \$42.9 million and \$50.8 million at December 31, 2010 and 2009, respectively, and would have been approximately \$4.5 million and \$6.7 million higher, respectively, had they been valued using the first-in, first-out (FIFO) method. The amount of LIFO liquidations in 2010 and 2009 were immaterial.

5. Property, Plant and Equipment

Property, Plant and Equipment (PP&E) consist of the following:

(In thousands)	December 31, 2010	December 31, 2009
Land	\$ 25,974	\$ 25,930
Buildings and improvements	228,978	226,783
Machinery and equipment	481,928	444,235
Office equipment and other assets	30,998	30,106
Software	54,207	48,395
Mineral rights	1,598	1,521
Construction in progress	39,494	29,293
Gross Property, Plant and Equipment	863,177	806,263
Less accumulated depreciation and amortization	394,853	350,627
Net Property, Plant and Equipment	\$ 468,324	\$ 455,636

(In thousands)	For the Year Ended December 31,		
	2010	2009	2008
Depreciation and amortization on PP&E	\$ 44,113	\$ 56,921	\$ 45,600

Edgar Filing: CHURCH & DWIGHT CO INC /DE/ - Form 10-K

Interest charges capitalized (in construction in progress)	\$ 987	\$ 2,389	\$ 729
--	--------	----------	--------

The Company closed its North Brunswick, New Jersey facility in the fourth quarter of 2009 and recorded accelerated depreciation charges in the Consumer Domestic Segment on those facilities following the announcement of the closing in June 2008. The accelerated depreciation charges of \$16.2 million for the twelve months ended December 31, 2009 are included in cost of sales (see Note 9).

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In 2009, capitalized interest charges are higher due to the construction of a laundry detergent manufacturing plant and distribution center in York, Pennsylvania through the first nine months of 2009.

The Company recognized charges related to equipment obsolescence, which occur in the ordinary course of business, and plant impairment charges during the three year period ended December 31, 2010 as follows:

(In thousands)	For the Year Ended December 31,		
	2010	2009	2008
Segments:			
Consumer Domestic	\$ 628	\$ 3,231	\$ 3,345
Consumer International	37	0	98
Specialty Products	3,090	6,916	142
Total	\$ 3,755	\$ 10,147	\$ 3,585

In 2010, the Company recorded a plant asset impairment charge of approximately \$3.1 million, representing the carrying value of certain assets, associated with one of its international subsidiaries. The charge is a result of a reduction in forecasted sales volume which has negatively impacted projected profitability. The charge is included in cost of sales in the Specialty Products Division segment income statement. In 2009, the Company recorded a plant asset impairment charge of approximately \$6.9 million, representing the carrying value of certain assets, associated with one of its international subsidiaries. The Company measured the impairment charge using the discounted cash flow method. This subsidiary manufactures some products that compete with imports priced in U.S. dollars. As the dollar has weakened, it has been necessary to lower prices in the local currency to stay competitive, leading to negative cash flows, which is the key input under the discounted cash flow method. The charge is included in cost of sales in the Specialty Products Division segment income statement. The \$3.2 million charge recorded in the Consumer Domestic Segment in 2009 is primarily a result of a lack of acceptance for certain products by our key customers that resulted in a decline of forecasted future cash flows and reduced profitability. The Company's fair value measurement input is considered a Level 3 input.

The table below summarizes the net book value of property, plant and equipment sold during the three-year period ending December 31, 2010:

(In thousands)	For the Year Ended December 31,		
	2010	2009	2008
Segments:			
Consumer Domestic	\$ 5,460	\$ 0	\$ 0
Consumer International	0	0	1,583
Specialty Products	0	0	5,958
Total	\$ 5,460	\$ 0	\$ 7,541

In 2010, the Company sold the BRILLO product line. During 2008, the Company sold its Specialty Products subsidiary in the United Kingdom and its Consumer Products subsidiary in Spain (see Note 8).

6. Acquisition of Assets

On June 4, 2010, the Company acquired the Simply Saline brand from Blairex Laboratories (Simply Saline Acquisition) for cash consideration of \$70.0 million. Simply Saline annual net sales are approximately \$20.0 million. The Simply Saline brand will be managed principally within the Consumer Domestic segment.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

On September 2, 2010, the Company acquired certain oral care technology (Technology Acquisition) for cash consideration of \$10.0 million. The new oral care technology will be managed principally within the Consumer Domestic segment.

On December 21, 2010, the Company acquired the Feline Pine cat litter brand from Nature's Earth Products, Inc. (Feline Pine Acquisition) for cash consideration of \$46.0 million. Feline Pine annual net sales are approximately \$20.0 million. The acquired brand will complement the existing Arm & Hammer's cat litter business. The Feline Pine brand will be managed within the Consumer Domestic segment.

The fair values of the assets acquired in 2010 are as follows:

(In thousands)	Fair Value of Assets Acquired in 2010			Total
	Simply Saline	Technology	Feline Pine	
Inventory / Current Assets	\$ 1,725	\$ 0	\$ 1,417	\$ 3,142
Tradenames and other intangibles	55,635	10,000	38,500	104,135
Goodwill	12,665	0	6,083	18,748
Total Assets	70,025	10,000	46,000	126,025
Liabilities	0	0	0	0
Purchase Price	\$ 70,025	\$ 10,000	\$ 46,000	\$ 126,025

The asset allocation of the Feline Pine Acquisition is based on a preliminary valuation. Pro forma results reflecting the Simply Saline and Feline Pine Acquisitions are not presented because they did not have a material effect on the Company's consolidated financial results.

The weighted average life of the amortizable intangible assets recognized from the Simply Saline Acquisition was 15 years and from the Technology Acquisition was 10 years.

On July 7, 2008, the Company purchased substantially all of the assets and certain liabilities of Del Pharmaceuticals, Inc. from Coty, Inc. (the Orajel Acquisition) for cash consideration of \$383.4 million including fees. Products acquired from Del Pharmaceuticals, Inc. include the Orajel brand of oral analgesics and various other over-the-counter brands.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****7. Goodwill and Other Intangibles**

The following table provides information related to the carrying value of all intangible assets, other than goodwill:

(In thousands)	December 31, 2010			Amortization Period (Years)	December 31, 2009		
	Gross Carrying Amount	Accumulated Amortization	Net		Gross Carrying Amount	Accumulated Amortization	Net
<i>Amortizable intangible assets:</i>							
Tradenames	\$ 117,077	\$ (53,871)	\$ 63,206	3-20	\$ 118,373	\$ (46,721)	\$ 71,652
Customer Relationships	250,540	(50,496)	200,044	15-20	241,640	(37,205)	204,435
Patents/Formulas	38,520	(21,049)	17,471	4-20	27,370	(18,084)	9,286
Non Compete Agreement	1,378	(1,059)	319	5-10	1,143	(918)	225
Total	\$ 407,515	\$ (126,475)	\$ 281,040		\$ 388,526	\$ (102,928)	\$ 285,598
<i>Indefinite lived intangible assets Carrying value</i>							
Tradenames	\$ 591,420				\$ 509,293		

Intangible amortization expense amounted to \$23.7 million for 2010, \$24.2 million for 2009 and \$21.8 million in 2008. The Company estimates that intangible amortization expense will be approximately \$24.8 million in 2011 and \$22.0 to \$24.0 million in each of the next four years.

Other intangible assets increased in 2010 due to the Simply Saline, Technology and Feline Pine Acquisitions. The acquired intangible assets reflect their allocable purchase price as of their respective purchase dates.

The Company recognized tradename impairment charges within selling, general and administrative expenses during the three year period ended December 31, 2010 as follows:

(In thousands)	2010	2009	2008
Segments:			
Consumer Domestic	\$ 0	\$ 0	\$ 1,910
Consumer International	0	0	3,764
Total	\$ 0	\$ 0	\$ 5,674

The tradename impairment charges recorded in 2008 were a result of management's decision to exit a business, a potential change of a brand's name, lost distribution at key customer accounts and reduced profitability. The amount of the impairment charge was determined by comparing the estimated fair value of the asset to its carrying amount. Fair value was estimated based on a relief from royalty discounted cash flow method. Under this method, the owner of an intangible asset must determine the arm's length royalty that likely would have been charged if the owner had to license that asset from a third party. Estimates under the relief from royalty method involve numerous variables that are subject to change as business conditions change, and therefore could impact fair values in the future. The Company determined that the remaining carrying value of all tradenames was recoverable based upon the forecasted cash flows and profitability of the related brands.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The changes in the carrying amount of goodwill for the year ended December 31, 2010 are as follows:

(In thousands)	Consumer Domestic	Consumer International	Specialty Products	Total
Balance December 31, 2008	\$ 788,516	\$ 36,486	\$ 20,228	\$ 845,230
Adjustments to the Orajel Acquisition purchase price allocation ⁽¹⁾	(3,929)	0	0	(3,929)
Additional contingent consideration	700	0	0	700
Other ⁽²⁾	(3,923)	0	0	(3,923)
Balance December 31, 2009	\$ 781,364	\$ 36,486	\$ 20,228	\$ 838,078
Simply Saline acquired goodwill	12,665	0	0	12,665
Additional contingent consideration	535	0	0	535
Feline Pine acquired goodwill	6,083	0	0	6,083
Balance December 31, 2010	\$ 800,647	\$ 36,486	\$ 20,228	\$ 857,361

(1) Changes in the carrying amount of goodwill associated with the Orajel Acquisition primarily reflect adjustments to the fair values of net assets acquired.

(2) Reflects goodwill associated with assets held for sale.

The Company performed its annual goodwill impairment test as of the beginning of the second quarter of 2010, and no adjustments were required.

8. Sale of Assets

In the first quarter of 2010, the Company sold the BRILLO and certain LAMBERT KAY product lines, along with associated productive assets, that were classified as net assets held for sale at December 31, 2009. The aggregate carrying value of these assets at December 31, 2009 was approximately \$8.8 million. In 2010, the Company received net proceeds from the sale of these assets of \$8.2 million, along with a note receivable of \$1.8 million, and, in the first quarter of 2010, recognized a gain of approximately \$1.0 million that was recorded as an offset to selling, general and administrative expenses in the Consumer Domestic segment.

On August 29, 2008, the Company sold its Consumer International subsidiary in Spain for \$6.0 million. The transaction resulted in a pre-tax charge of \$3.5 million, which was recorded in selling, general and administrative expenses for the Consumer International Segment. As a result of the sale, a \$4.0 million tax benefit also was recorded as a reduction to tax expense.

On February 29, 2008, the Company sold its wholly-owned British subsidiary, Brotherton Speciality Products Ltd. (Brotherton), for \$11.2 million, net of fees. The sale resulted in a pre-tax gain of \$3.0 million, which was recorded as a reduction of selling, general and administrative (SG&A) expenses in the Specialty Products Division segment.

9. Restructuring Activities*International Facility Closing Costs*

During the third quarter of 2010, the Company decided to cease operations at two plants at one of its international subsidiaries. The Company incurred a total of \$0.6 million and paid \$0.5 million relating to severance costs. These charges were included in cost of sales in the Specialty Products segment. All other costs associated with the international plant shut down activity will be recorded in the period in which the liability is

incurred (generally, when goods or services associated with the activity are received). The Company is currently assessing the on-going costs associated with the shutdown of these plants.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)***North Brunswick, New Jersey Closing Costs*

In the fourth quarter of 2009, the Company completed construction and started operations in its integrated laundry detergent manufacturing plant and distribution center in York, Pennsylvania. In conjunction with the opening of the new facility, the Company closed its existing laundry detergent manufacturing plant and distribution facility in North Brunswick, New Jersey. The North Brunswick facility was comprised of five separate buildings, which had resulted in significant inefficiencies and could not accommodate expansion to address expected future growth.

The following table summarizes the liabilities and cash costs paid or settled in connection with the closing of the North Brunswick facility, for the twelve months ended December 31, 2010 and 2009, which have been included in for the results of the Consumer Domestic segments:

(In thousands)	Severance Liability	Contract Termination Costs	Other Exit and Disposal Costs	Total Costs
Balance at December 31, 2008	\$ 1,855	\$ 0	\$ 0	\$ 1,855
Costs incurred and charged to expenses	1,171	6,300	1,877	9,348
Costs paid or settled	(292)	(562)	(1,000)	(1,854)
Liability Balance at December 31, 2009	\$ 2,734	\$ 5,738	\$ 877	\$ 9,349
Costs incurred and charged to expenses	0	2,932	1	2,933
Adjustments related to the North Brunswick Lease	0	2,068	728	2,796
Costs paid or settled	(2,734)	(5,992)	(1,200)	(9,926)
Liability Balance at December 31, 2010	\$ 0	\$ 4,746	\$ 406	\$ 5,152
Cumulative restructuring costs incurred to date	\$ 3,000	\$ 11,485	\$ 2,513	\$ 16,998

The Company does not anticipate any additional material expenditures in connection with the closing of the North Brunswick facility.

10. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of the following:

(In thousands)	2010	2009
Trade accounts payable	\$ 206,278	\$ 177,778
Accrued marketing and promotion costs	83,889	77,722
Accrued wages and related costs	38,936	48,077
Accrued profit sharing	11,529	17,342
Other accrued current liabilities	14,689	11,531
Total	\$ 355,321	\$ 332,450

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****11. Short-Term Borrowings and Long-Term Debt**

Short-term borrowings and long-term debt consist of the following:

(In thousands)	2010	2009
Short-term borrowings		
Securitization of accounts receivable	\$ 90,000	\$ 30,000
Various debt due to international banks	0	4,895
Total short-term borrowings	\$ 90,000	\$ 34,895
Long-term debt		
Term Loan facility	\$ 0	\$ 531,401
6% Senior subordinated debt	0	250,000
3.35% Senior note due December 15, 2015	250,000	0
Less: Discount	(327)	0
Less: current maturities	0	(184,054)
Net long-term debt	\$ 249,673	\$ 597,347

Securitization

In 2003, the Company entered into a receivables purchase agreement with an issuer of receivables-backed commercial paper in order to refinance a portion of its primary credit facility and to lower its financing costs by accessing the commercial paper market. Under this arrangement, the Company sold, and has agreed to sell from time to time throughout the term of the agreement (which is renewed annually), its trade accounts receivable to a wholly-owned, consolidated, special purpose finance subsidiary, Harrison Street Funding LLC, a Delaware limited liability company (Harrison). Harrison in turn sold, and has agreed to sell on an ongoing basis, to the commercial paper issuer an undivided interest in the pool of accounts receivable. The receivables assets and the short-term borrowings of Harrison are included in the consolidated financial statements of the Company. The maximum amount that can be borrowed is \$115.0 million.

During 2010, the Company increased net borrowings by \$60.0 million under its accounts receivable securitization facility. In February 2011, the accounts receivable securitization facility was renewed with a new maturity date of February 14, 2012 under similar terms and conditions to those previously in effect.

New Revolving Credit Agreement

On November 18, 2010, the Company repaid its entire \$408 million outstanding term loan debt and replaced its former credit facility with a new \$500 million unsecured revolving credit facility. Under the credit agreement relating to the new credit facility (the Credit Agreement), the Company has the ability to increase its revolving credit facility up to \$500 million, subject to lender commitments and certain conditions as described in the Credit Agreement. Unless extended, the revolving credit facility will terminate and all amounts outstanding thereunder will be due and payable on November 18, 2015.

Interest on the Company's borrowings under the Credit Agreement is based, at the Company's option, upon either (i) the Base Rate (generally equal to the highest of (a) the Federal Funds Rate plus 0.5%, (b) Bank of America's prime rate and (c) a LIBOR-based rate plus 1.00% or (ii) the Eurocurrency Rate (generally, the LIBOR-based rate). Depending upon the leverage ratio of the Company (described below), interest on borrowings accrues at rates ranging from 0.75% to 1.50% per annum above the Base Rate and 1.75% to 2.50% per annum above the Eurocurrency Rate.

Table of Contents

CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Credit Agreement contains customary affirmative and negative covenants, including without limitation, restrictions on the following: indebtedness, liens, investments, asset dispositions, fundamental changes, changes in the nature of the business conducted, affiliate transactions, burdensome agreements and use of proceeds.

Under the Credit Agreement, the Company is required to maintain a minimum interest coverage ratio, defined as the ratio of Adjusted EBITDA (as defined in the Credit Agreement) to Consolidated Interest Charges (as defined in the Credit Agreement), of 3.00 to 1.00. The Company also is required to keep its leverage ratio, defined as the ratio of Consolidated Funded Indebtedness (as defined in the Credit Agreement) to Adjusted EBITDA, below a level of 3.25 to 1.00. However, if the Company consummates a material acquisition, the maximum leverage ratio increases to a level of 3.50 to 1.00 during the twelve month period commencing on the date of such acquisition.

The Credit Agreement also contains customary events of default, including without limitation, failure to make certain payments when due, materially incorrect representations and warranties, breach of covenants, events of bankruptcy, default on other indebtedness, changes in control with respect to the Company, material adverse judgments, certain events relating to pension plans and the failure of any of the loan documents to remain in full force and effect. Certain parties to the Credit Agreement, and affiliates of those parties, provide banking, investment banking and other financial services to the Company from time to time.

As a result of terminating its entire term loan, the Company terminated its interest rate collar and swap cash flow hedge agreements, and recorded interest expense of \$4.6 million. The unamortized deferred financing costs of \$3.2 million associated with the term loan were charged to other expense in the fourth quarter.

3.35% Senior Notes

On December 15, 2010, the Company closed on an underwritten public offering of \$250 million aggregate principal amount of 3.35% senior notes due 2015 (the *Notes*). The Notes were issued under an indenture, dated December 15, 2010 (the *Indenture*), and a first supplemental indenture (the *First Supplemental Indenture*), dated December 15, 2010, between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee relating to the Notes. On December 30, 2010, the proceeds of the offering were utilized to retire the outstanding \$250 million principal amount of the Company's 6% Senior Subordinated Notes due 2012. The unamortized deferred financing costs of \$1.3 million associated with the Senior Subordinated Notes was charged to other expense in the fourth quarter.

Interest on the new Notes is payable on June 15 and December 15 of each year, beginning June 15, 2011. The Notes will mature on December 15, 2015, unless earlier retired or redeemed as described below.

The Company may redeem the Notes, at any time in whole or from time to time in part, prior to their maturity date at a redemption price equal to the greater of: (i) 100% of the principal amount of the notes being redeemed; and (ii) the sum of the present values of the remaining scheduled payments of principal and interest thereon (not including any portion of such payments of interest accrued as of the date of redemption), discounted to the date of redemption on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined in the First Supplemental Indenture), plus 25 basis points. In addition, if the Company undergoes a change of control as defined by the First Supplemental Indenture, and if, generally within 60 days thereafter, the Notes are rated below investment grade by each of the rating agencies designated in the First Supplemental Indenture, the Company may be required to offer to repurchase the Notes at 101% of par plus accrued and unpaid interest to the date of repurchase.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Notes are senior unsecured obligations and rank equal in right of payment to the Company's other senior unsecured debt from time to time outstanding. The Notes are effectively subordinated to any secured debt the Company incurs to the extent of the collateral securing such indebtedness, and will be structurally subordinated to all future and existing obligations of the Company's subsidiaries.

The Indenture and the First Supplemental Indenture contain covenants with respect to the Company that, among other things, restrict the creation of liens, sale-leaseback transactions, consolidations, mergers and dispositions of all or substantially all of the Company's assets. The covenants are subject to a number of important exceptions and qualifications.

In addition, the Company has agreed to cause each subsidiary that guarantees its obligations under its senior unsecured credit facility to guarantee the Company's obligations under the Notes on a senior unsecured basis. Currently, none of the Company's subsidiaries guarantee the Company's obligations under its senior unsecured credit facility.

Other Debt

The Company's Brazilian subsidiary, Quimica Geral do Nordeste S.A. (QGN), has lines of credit that enable it to borrow in its local currency subject to various interest rates that are determined by several local inflation indexes. The various lines of credit will expire in mid 2011, but are expected to be renewed. Amounts available under the lines of credit total \$7.0 million. There were no borrowings as of December 31, 2010.

12. Income Taxes

The components of income before taxes are as follows:

(in thousands)	2010	2009	2008
Domestic	\$ 382,176	\$ 364,205	\$ 266,058
Foreign	36,080	28,031	42,202
Total	\$ 418,256	\$ 392,236	\$ 308,260

The following table summarizes the provision for U.S. federal, state and foreign income taxes:

(in thousands)	2010	2009	2008
Current:			
U.S. federal	\$ 78,993	\$ 93,794	\$ 68,469
State	15,374	18,758	12,402

Effective tax rate	35.3%	37.9%	36.7%
---------------------------	--------------	-------	-------

At December 31, 2010, foreign subsidiaries of the Company had net operating loss carryforwards of approximately \$46 million. Approximately one third of the net operating loss carryforwards expire on various dates through December 31, 2018. The remaining net operating loss carryforwards are not subject to expiration.

The Company believes that it is more likely than not that the benefit from certain foreign net operating loss carryforwards will not be realized. In recognition of this risk, the Company has provided a valuation allowance of \$3.5 million and \$3.3 million at December 31, 2010 and 2009, respectively, on the deferred tax asset relating to these foreign net operating loss carryforwards.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company has undistributed earnings of foreign subsidiaries of approximately \$160.9 million at December 31, 2010 for which deferred taxes have not been provided. These earnings, which are considered to be permanently reinvested, would be subject to U.S. tax if they were remitted as dividends. It is not practicable to determine the deferred tax liability on these earnings.

The Company has recorded liabilities in connection with uncertain tax positions, which, although supportable by the Company, may be challenged by tax authorities. Under applicable accounting guidance, these tax positions do not meet the minimum threshold required for the related tax benefit to be recognized in the income statement.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

(in thousands)	2010	2009	2008
Unrecognized tax benefits at January 1	\$ 39,628	\$ 35,471	\$ 27,798
Gross increases tax positions in current period	0	4,122	7,999
Gross increases tax positions in prior period	4,625	10,088	468
Gross decreases tax positions in prior period	(14,211)	(6,154)	(668)
Settlements	(4,889)	(3,720)	0
Lapse of statute of limitations	(576)	(179)	(126)
Unrecognized tax benefits at December 31	\$ 24,577	\$ 39,628	\$ 35,471

The Company has recorded liabilities in connection with uncertain income tax positions that, although supportable, may be challenged by the tax authorities. Substantially all material federal, state, and international income tax matters have been effectively concluded for years through 2007. In 2010, the Company recognized a benefit from the reversal of approximately \$4.0 million in income tax expense and \$3.0 million in pretax interest expense associated with certain tax liabilities as a result of the settlement of an IRS audit and the lapse of applicable statutes of limitation of several state taxing authorities. In addition, as a result of the settlement of the IRS audit and the lapse of applicable statutes of limitation of several state taxing authorities, the Company's liabilities for uncertain income tax positions have decreased by \$15.0 million, from \$39.6 million at December 31, 2009 to \$24.6 million at December 31, 2010.

Included in the balance of unrecognized tax benefits at December 31, 2010, 2009 and 2008 are \$15.0 million, \$19.9 million and \$16.7 million, respectively, of tax benefits that, if recognized, would affect the effective tax rate. Also included in the balance of unrecognized tax benefits at December 31, 2010, 2009 and 2008, are \$9.6 million, \$19.7 million and \$18.8 million, respectively, of tax benefits that, if recognized, would result in adjustments to balance sheet tax accounts, primarily deferred taxes.

The Company is subject to U.S. federal income tax as well as the income tax in multiple state and international jurisdictions. Substantially all material federal, state, and international income tax matters have been effectively concluded for years through 2007. The tax years 2008 and 2009 are currently under audit by the U.S. Internal Revenue Service and several state taxing authorities. In addition, certain statutes of limitations are scheduled to expire in the near future. It is reasonably possible that a decrease of approximately \$21.7 million in the unrecognized tax benefits may occur within the next twelve months related to the settlement of these audits or the lapse of applicable statutes of limitations. Of this amount, \$8.8 million would result in adjustments to balance sheet tax accounts, primarily deferred taxes and would not affect the effective tax rate.

The Company's policy for recording interest associated with income tax examinations is to record interest as a component of Income before Income Taxes. During the twelve months ended December 31, 2010, the

Table of Contents

CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Company recognized a net reversal of accrued interest expense associated with uncertain tax positions of approximately \$4.2 million. During the twelve months ended December 31, 2009 and December 31, 2008, the Company recognized approximately \$1.9 million, and \$2.5 million, respectively, in interest expense associated with uncertain tax positions. As of December 31, 2010 and December 31, 2009, the Company had \$2.6 million and \$6.8 million, respectively, in accrued interest expense related to unrecognized tax benefits.

13. Benefit Plans

Defined Benefit Retirement Plans

The Company has defined benefit pension plans covering certain employees. Pension benefits to retired employees are based upon the employees' length of service and a percentage of their qualifying compensation during the final years of employment. The Company's funding policy is consistent with federal/statutory funding requirements. The Company also maintains unfunded plans, which provide medical benefits for eligible domestic retirees and their dependents and employees in Canada. The cost of such benefits is recognized during the employees' respective active working careers. The Company recognizes the unfunded status of a benefit plan in the balance sheet, which is a long-term liability for the Company. Any previously unrecognized gains or losses are recorded in the equity section of the balance sheet within accumulated other comprehensive income.

U.S. Pension Plan Termination

On January 27, 2010, the Company's Board of Directors approved the termination, effective April 15, 2010, of The Church & Dwight Co., Inc. Retirement Plan for Hourly Employees (the U.S. Pension Plan), under which approximately 766 participants, including 46 active employees, have accrued benefits. On December 1, 2010, the Company as plan sponsor of the U.S. Pension Plan, purchased a non-participating group annuity contract from the Principal Life Insurance Company for the benefit of certain former and current employees with vested benefits in, and retired participants currently receiving benefits from, the U.S. Pension Plan. In addition, effective December 1, 2010, an existing participating annuity contract with Aetna Insurance Company was changed to a non-participating annuity contract.

The purchase price of the contracts was approximately \$63 million, which was funded from the assets of the U.S. Pension Plan on December 1, 2010 (considered the measurement date for accounting purposes) and a one-time payment by the Company of approximately \$14 million (\$9 million after taxes). The transactions resulted in the transfer and settlement of the U.S. pension benefit obligation, thus relieving the Company of any responsibility for the U.S. Pension Plan obligations.

As a result of the transfer of the U.S. Pension Plan obligations and assets described above, the Company recorded a charge to earnings in the fourth quarter of 2010 of approximately \$24 million pre-tax or \$0.21 per share. This charge is included in selling, general and administrative expenses.

CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In 2010, the change in accumulated other comprehensive loss (income) was a \$3.4 million increase in the Company's remaining pension plan obligations and a \$1.3 million increase in postretirement benefit plan obligations. The changes are primarily related to the change in discount rates for all plans.

Weighted-average assumptions used to determine benefit obligations as of December 31:

	Pension Plans		Nonpension Postretirement Plans	
	2010	2009	2010	2009
Discount Rate	5.32%	5.76%	5.28%	5.80%
Rate of Compensation increase	3.65%	4.26%	N/A	N/A

Net Pension and Net Postretirement Benefit Costs consisted of the following components:

(In thousands)	2010	Pension Costs 2009	2008	Nonpension Postretirement Costs 2010	2009	2008
Components of Net Periodic Benefit Cost:						
Service cost	\$ 1,728	\$ 1,604	\$ 2,180	\$ 338	\$ 295	\$ 476
Interest cost	6,861	6,749	7,527	1,237	1,237	1,237
Expected return on plan assets	(5,126)	(6,254)	(8,213)	0	0	0
Amortization of prior service cost	8	426	15	117	51	38
Amortization of transition obligation	14	0	0	0	0	0
Recognized actuarial loss (gain)	698	1,432	7	(3)	(4)	(3)
Net deferrals	0	0	(38)	0	(7)	0
Settlement (gain) loss	24,276	(767)	73	0	0	0
Net periodic benefit cost	\$ 28,459	\$ 3,190	\$ 1,551	\$ 1,689	\$ 1,572	\$ 1,748

In 2011, amounts in accumulated other comprehensive income expected to be recognized in the income statement are estimated to be losses of approximately \$4.8 million and \$0.0 million for pension and postretirement plans, respectively.

Weighted-average assumptions used to determine net periodic benefit cost for years ended December 31:

	Pension Plans			Nonpension Postretirement Plans		
	2010	2009	2008	2010	2009	2008
Discount Rate	5.75%	6.61%	6.04%	5.80%	6.48%	6.15%
Rate of Compensation increase	3.73%	4.07%	4.47%	N/A	N/A	N/A
Expected long-term rate of return on plan assets	5.76%	6.72%	7.21%	N/A	N/A	N/A

The Company's pension and postretirement benefit costs are developed from actuarial valuations. These valuations reflect key assumptions provided by the Company to its actuaries, including the discount rate and expected long-term rate of return on plan assets. Material changes in the Company's pension and postretirement benefit costs may occur in the future due to changes in these assumptions.

Edgar Filing: CHURCH & DWIGHT CO INC /DE/ - Form 10-K

The discount rate is subject to change each year, consistent with changes in applicable high-quality, long-term corporate bond indices. Based on the expected duration of the benefit payments for the Company's pension plans and postretirement plans, the Company refers to an applicable index and expected term of the benefit payments to select a discount rate at which it believes the pension benefits could be effectively settled.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The expected long-term rate of return on pension plan assets is selected by taking into account a historical trend, the expected duration of the projected benefit obligation for the plans, the asset mix of the plans, and known economic and market conditions at the time of valuation. A 50 basis point change in the expected long-term rate of return would result in an approximate \$0.3 million change in pension expense for 2011.

The Company's investment policy is designed to provide flexibility in the asset mix based on management's assessment of economic conditions, with an overall objective of realizing maximum rates of return appropriately balanced to minimize market risks. Our long-term strategic goal is to maintain an asset mix consisting of approximately 60% equity securities and 40% debt/guaranteed investment securities.

The fair values of Company's pension plan assets by asset category are as follows:

(In thousands)	Total	Fair Value Measurements at December 31, 2009		
		Quoted Prices in Active Markets for Identical (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Asset Category

The Company made cash contributions of approximately \$19.1 million to its pension plans in 2010, which includes approximately \$14.0 million to settle the Company's obligations under the U.S. Pension Plan. The

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Company estimates it will be required to make cash contributions to its pension plans of approximately \$3.5 million in 2011 to offset 2011 benefit payments and administrative costs in excess of investment returns.

The following benefit payments are expected to be paid from the defined benefit plans:

(In thousands)	Pension Plans	Nonpension Postretirement Plans
2011	\$ 4,319	\$ 1,170
2012	4,283	1,257
2013	4,404	1,330
2014	4,387	1,428
2015	4,658	1,506
2016-2020	24,785	8,995

The accumulated postretirement benefit obligation has been determined by application of the provisions of the Company's medical plans including established maximums and sharing of costs, relevant actuarial assumptions and health-care cost trend rates projected at approximately 10.0% for 2011 and decreasing to an ultimate rate of approximately 5.0% in 2029. The Company has a maximum annual benefit based on years of service for those participants over 65 years of age.

The following chart shows the effect of a 1% change in healthcare cost trends:

(in thousands)	2010	2009
Effect of 1% increase in health-care cost trend rates on:		
Postretirement benefit obligation	\$ 1,942	\$ 1,842
Total of service cost and interest cost component	169	163
Effect of 1% decrease in health-care cost trend rates on:		
Postretirement benefit obligation	(1,680)	(1,607)
Total of service cost and interest cost component	(143)	(143)

Other Benefit Plans

The Company also maintains a defined contribution profit sharing plan for domestic salaried and certain hourly employees. Amounts charged to earnings for this plan were \$11.5 million, \$17.3 million and \$12.8 million in 2010, 2009 and 2008, respectively. The higher expense in 2009 is due to the improved Company performance.

The Company also has a domestic employee 401K savings plan. The Company matches 50% of each employee's contribution up to a maximum of 6% of the employee's earnings. The Company's matching contributions to the savings plan were \$3.7 million, \$3.5 million and \$3.3 million in 2010, 2009 and 2008, respectively.

The Company has an employee stock purchase plan which permits employees to purchase the Company's common stock at a 15% discount to the prevailing market price. No more than \$25 thousand can be purchased by any one employee during a plan year. The 15% discount is included in selling, general and administrative expenses. Total expenses for 2010, 2009 and 2008 were \$0.5 million in each year.

Deferred Compensation Plans

Edgar Filing: CHURCH & DWIGHT CO INC /DE/ - Form 10-K

The Company maintains a deferred compensation plan under which certain members of management are eligible to defer a maximum of 85% of their regular compensation (i.e. salary) and incentive bonus. The amounts deferred under this plan are credited with earnings or losses based upon changes in values of notional

Table of Contents

CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

investments elected by the plan participant. The investment options available include notional investments in various stock, bond and money market funds as well as Company Common Stock. Each plan participant is fully vested in the amounts the participant defers. The plan also functions as an excess plan, and Profit Sharing contributions that cannot otherwise be contributed to the qualified Savings and Profit Sharing Plan due to limitations under Department of Treasury regulations are credited to this plan. These contributions vest under the same vesting schedule as is applicable to the qualified plan.

The liability to plan participants for contributions designated for notional investment in Company stock is based on the quoted fair value of the Company's stock plus any dividends credited. The Company uses cash-settled hedging instruments to minimize the cost related to the volatility of Company stock. At December 31, 2010 and 2009, the amount of the Company's liability under the deferred compensation plan was \$57.7 million and \$47.9 million, respectively and the funded balances amounted to \$42.7 million and \$36.9 million, respectively. The amounts charged to earnings, including the effect of the hedges, totaled \$2.4 million, \$1.6 million, and \$1.2 million in 2010, 2009 and 2008, respectively.

Non-employee members of the Company's Board of Directors are eligible to defer up to 100% of their directors' compensation into a similar plan; however, the only option for investment is Company stock. Directors are always 100% vested in their account balance.

The Company amended the directors' deferred compensation plan during the second quarter of 2008 to provide that compensation deferrals credited to a director's account will be settled in the Company's stock. Previously, compensation deferrals consisted of notional investments in Company stock that settled exclusively in cash. This change resulted in a \$6.6 million reclassification of the value of the underlying stock from long term liabilities to equity. Subsequent changes in the fair value of the Company's stock are not recognized. Subsequent directors' deferred compensation will increase stockholders' equity. The shares related to the stock settlement obligation are reflected in the weighted average number of basic and diluted shares used for the EPS calculations.

In 2009, the Company placed approximately 120 thousand shares of Company stock from shares held as Treasury Stock in a rabbi trust to protect the interest of the directors' deferred compensation plan participants in the event of a change of control. The balance in this trust as of December 31, 2010 is approximately 95 thousand shares due to distributions to various directors.

14. Stock Based Compensation Plans

a. Stock Option Plans

The Company has options outstanding under four equity compensation plans. Under the Omnibus Equity Plan, the Company may grant options and other stock-based awards to employees and directors. Under the 1983 Stock Option Plan and the Stock Award Plan, the Company granted options to key management employees. Under the Stock Option Plan for Directors, the Company granted options to non-employee directors. Following adoption of the Omnibus Equity Plan by stockholders in 2008, no further grants may be made under the other plans. Options outstanding under the plans are issued at market value on the date of grant, vest on the third anniversary of the date of grant and must be exercised within ten years of the date of grant. If, upon termination of a participant's employment (other than a termination for cause), a participant is at least 55 years old, has at least 5 years of service, and the sum of the participant's age and years of service is at least 65, the participant may exercise any stock options granted in 2007 or later within a period of three years from the date of termination or, if earlier, the date such stock options otherwise would have expired, subject to specified conditions. A total of 10.5 million shares of the Company's common stock is authorized for issuance upon the exercise of stock options. Issuances of Common Stock to satisfy employee option exercises currently are made from treasury stock.

Edgar Filing: CHURCH & DWIGHT CO INC /DE/ - Form 10-K

The table above represents the Company's estimate of options fully vested and expected to vest. Expected forfeitures are not material and, therefore, are not reflected in the table above.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table provides information regarding the intrinsic value of stock options exercised, stock compensation expense related to stock option awards, weighted average fair value of stock options issued and assumptions used in determining fair value:

	2010	2009	2008
Intrinsic Value of Stock Options Exercised (in thousands)	\$ 25,533	\$ 16,395	\$ 21,390
Stock Compensation Expense Related to Stock Option Awards (in thousands)	\$ 10,866	\$ 11,841	\$ 11,308
Issued Stock Options (in thousands)	607	710	671
Weighted Average Fair Value of Stock Options issued (per share)	\$ 16.72	\$ 14.83	\$ 16.55
Fair Value of Stock Options Issued (in thousands)	\$ 10,153	\$ 10,520	\$ 11,105

Assumptions Used:

Risk-free interest rate	2.7%	3.2%	3.7%
Expected life in Years	6.5	6.4	6.6
Expected volatility	21.4%	21.9%	22.5%
Dividend Yield	0.8%	0.7%	0.6%

The fair value of stock options is based upon the Black Scholes option pricing model. The Company determined the options' life based on historical exercise behavior and determined the options' expected volatility and dividend yield based on the historical changes in stock price and dividend payments. The risk free interest rate is based on the yield of an applicable term Treasury instrument.

As of December 31, 2010, there was a fair value of \$7.8 million related to unamortized stock option compensation expense, which is expected to be recognized over a weighted-average period of approximately one and a half years. The Company's Consolidated Statements of Cash Flow reflects an add back to Net Cash Provided by Operating Activities of \$11.8 million and \$12.7 million in 2010 and 2009, respectively, for non-cash compensation expense, primarily stock option expense. Net Cash Provided by (Used in) Financing Activities includes \$7.3 million and \$5.0 million in 2010 and 2009, respectively, of excess tax benefits on stock option exercised. The total tax benefit for 2010, 2009 and 2008 was \$8.5, \$5.8 and \$7.5 million, respectively.

b. Restricted Stock Plan

During 2005, the Company instituted a program under which officers who, during a specified period of time, elect to receive up to 50% of their annual incentive compensation in shares of the Company's common stock or stock equivalents, or otherwise increase their share ownership or ownership of certain interests deemed to be stock equivalents, will be awarded restricted shares having a fair market value of 20% of the amount of stock and stock equivalents that an officer elects to receive or otherwise acquires. The restricted shares vest on the third anniversary of the date of grant. During the three year vesting period, officers holding these shares will have voting rights and receive dividends either in cash or through reinvestment in additional shares.

Activity for the three years ended December 31, 2010 are as follows:

(in thousands)	2010	2009	2008
Shares issued	4	5	5
Total value granted	\$ 287	\$ 258	\$ 264
Compensation expense	\$ 303	\$ 398	\$ 524

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****15. Comprehensive Income**

Comprehensive income is defined as net income and other changes in stockholders' equity from transactions and other events from sources other than stockholders.

Consolidated Statement of Comprehensive Income

The following table provides information related to the Company's comprehensive income for the three years ended December 31, 2010:

(In thousands)	Twelve Months Ended December 31,		
	2010	2009	2008
Net Income	\$ 270,694	\$ 243,521	\$ 195,182
Other Comprehensive Income, Net of Tax:			
Foreign Exchange Translation Adjustments	(2,469)	34,129	(47,518)
Derivative Agreements			
Gains (Losses) from derivative agreements	753	1,138	(3,451)
Reclassification adjustments for interest rate collar net loss included in net income	2,616	0	0
Defined Benefit Plan Adjustments			
Net periodic benefit cost	(3,195)	(4,726)	(8,623)
Reclassification adjustments for pension plan termination net loss included in net income	8,528	0	0
Comprehensive Income	276,927	274,062	135,590
Comprehensive Income attributable to the noncontrolling interest	19	3	2
Comprehensive Income attributable to Church & Dwight Co., Inc.	\$ 276,946	\$ 274,065	\$ 135,592

Accumulated Other Comprehensive Income

The components of changes in accumulated other comprehensive income are as follows:

(In thousands)	Foreign	Defined	Derivative	Accumulated
	Currency	Benefit		Other
	Adjustments	Plans	Agreements	Comprehensive
Balance January 1, 2008	\$ 40,335	\$ 56	\$ (1,263)	\$ 39,128
Comprehensive income changes during the year (net of taxes of \$7,935)	(47,508)	(8,623)	(3,451)	(59,582)
Balance December 31, 2008	(7,173)	(8,567)	(4,714)	(20,454)
Comprehensive income changes during the year (net of taxes of \$51)	34,120	(4,726)	1,138	30,532
Balance December 31, 2009	26,947	(13,293)	(3,576)	10,078
	(2,473)	5,333	3,369	6,229

Comprehensive income changes during the year (net of taxes of \$6,525)

Balance December 31, 2010	\$ 24,474	\$ (7,960)	\$ (207)	\$ 16,307
----------------------------------	------------------	-------------------	-----------------	------------------

The 2010 change in comprehensive income related to derivatives reflects \$4.3 million (\$2.6 million after tax) reclassified to interest expense as a result of the termination of the Company's interest rate collar and swap cash flow hedge agreements. The 2010 Defined Benefit Plan Adjustments includes \$14 million (\$8.5 million after tax) reclassified to earnings as a result of the termination of the U.S. Pension Plan.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****16. Commitments, Contingencies and Guarantees**

a. Rent expense amounted to \$18.0 million in 2010, \$20.5 million in 2009 and \$22.2 million in 2008. The Company is obligated to pay minimum annual rentals under non-cancelable long-term operating leases as follows:

(In thousands)

2011	\$ 17,227
2012	15,283
2013	11,324
2014	9,910
2015	8,214
2016 and thereafter	34,063
Total future minimum lease commitments	\$ 96,021

The Company also has capital lease obligations at certain of its foreign subsidiaries. The commitments on these obligations are immaterial.

b. In December 1981, the Company formed a partnership with a supplier of raw materials that mines and processes sodium-based mineral deposits. The Company purchases the majority of its sodium-based raw material requirements from the partnership. The partnership agreement terminates upon two years' written notice by either partner. Under the partnership agreement, the Company has an annual commitment to purchase 240,000 tons of sodium-based raw materials at the prevailing market price. The Company is not engaged in any other material transactions with the partnership or the Company's partner.

c. Our distribution of condoms under the TROJAN and other trademarks is regulated by the U.S. Food and Drug Administration (FDA). Certain of the Company's condoms, and similar condoms sold by our competitors, contain the spermicide nonoxynol-9 (N-9). Some interested groups have issued reports that N-9 should not be used rectally or for multiple daily acts of vaginal intercourse. In late 2008, the FDA issued final labeling guidance for latex condoms but excluded N-9 lubricated condoms from the guidance. While the Company awaits further FDA guidance on N-9 lubricated condoms, the Company believes that its present labeling for condoms with N-9 is compliant with the overall objectives of the FDA's guidance, and that condoms with N-9 will remain a viable contraceptive choice for those couples who wish to use them. However, the Company cannot predict the nature of the labeling that ultimately will be required by the FDA. If the FDA or state governments eventually promulgate rules that prohibit or restrict the use of N-9 in condoms (such as new labeling requirements), the Company could incur costs from obsolete products, packaging or raw materials, and sales of condoms could decline, which, in turn, could decrease the Company's operating income.

d. As of December 31, 2010, the Company had commitments through 2014 to acquire approximately \$118.8 million of raw materials, packaging supplies and services from its vendors at market prices. The packaging supplies are in either a converted or non-converted status. These commitments enable the Company to respond quickly to changes in customer orders or requirements.

e. The Company has \$3.7 million of outstanding letters of credit drawn on several banks which guarantee payment for such things as insurance claims in the event of the Company's insolvency. In addition, the Company guarantees the payment of rent on a leased facility in Spain. The lease expires in November 2012, and the aggregate monthly lease payment obligations from December 31, 2010 through the remainder of the lease term are approximately \$1.4 million. Approximately two thirds of the rental space is subleased to a third party.

Table of Contents

CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

f. In connection with the Company's acquisition of Unilever's oral care brands in the United States and Canada in October 2003, the Company is required to make additional performance-based payments of a minimum of \$5.0 million and a maximum of \$12.0 million over the eight year period following the acquisition. The Company made cash payments of \$0.6 million, and accrued a payment of \$0.1 million in 2010. The payment and accrual were accounted for as additional purchase price. The Company has paid approximately \$10.3 million, exclusive of the \$0.1 million accrual, in additional performance-based payments since the acquisition.

g. In 2000, the Company acquired majority ownership in its Brazilian subsidiary, Quimica Geral Do Nordeste S.A. (QGN). The acquired operations included an inorganic salt manufacturing plant which began site operations in the late 1970's. Located on the site were two closed landfills, two active landfills and a pond for the management of the process waste streams. In 2009, QGN was advised by environmental authorities in the State of Bahia, the Institute of the Environment (IMA), that the plant was discharging contaminants into an adjacent creek. After learning of the discharge, QGN took immediate action to cease the discharge and retained two nationally recognized environmental firms to prepare a site investigation / remedial action plan (SI/RA). The SI/RA report was submitted by QGN to IMA in April 2010. The report concluded that the likely sources of the discharge were the failure of the pond and closed landfills.

In November 2010, IMA responded to QGN's recommendation for an additional study by issuing a notification requiring a broad range of remediation measures (the Remediation Notification). In addition, notwithstanding repeated discussions with IMA at QGN's request to consider QGN's proposed remediation alternatives, in December 2010, IMA imposed a fine of five million reais (approximately \$3 million) for the discharge of contaminants above allowable limits. QGN filed with IMA an administrative defense to the fine. IMA has not yet responded to QGN's administrative defense.

With respect to the Remediation Notification, QGN engaged in discussions with IMA during which QGN asserted that a number of the remediation measures and the timeframes for implementation were not appropriate and requested that the Remediation Notification be withdrawn. In response, IMA stayed the Remediation Notification pending its further review. QGN intends to continue discussions with IMA to seek agreement on a rational and appropriate remediation plan.

As a result of the foregoing events, the Company accrued approximately \$3 million in 2009 and an additional \$4.8 million in 2010 for remediation, fines and related costs. However, the Company cannot assure that additional costs will not be incurred in connection with this matter.

h. The Company received a subpoena and civil investigative demand from the Federal Trade Commission (FTC) in connection with a non-public investigation in which the FTC is seeking to determine if the Company has engaged or is engaging in any unfair methods of competition with respect to the distribution and sale of condoms in the United States through potentially exclusionary practices. The Company believes that its distribution and sales practices involving the sale of condoms in the United States are in full compliance with applicable law. The FTC has notified the Company that it has made no determination as to whether to take any further administrative or legal action.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

i. The Company, in the ordinary course of its business, is the subject of, or a party to, various other pending or threatened legal actions. The Company believes that any ultimate liability arising from these actions will not have a material adverse effect on its financial position, results of operations and cash flows.

17. Litigation Settlements*Abbott Laboratories*

In April 2005, the Company filed suit against Abbott Laboratories, Inc. (Abbott) claiming infringement of certain patents resulting from Abbott s manufacture and sale of its Fact Plus pregnancy diagnostic test kits. In a separate action commenced in July 2007, Abbott sued the Company in the United States District Court for the Northern District of Illinois for infringement of certain patents for which Abbott was an exclusive licensee. On September 17, 2009, the Company and Abbott agreed to settle the litigation and, as part of the settlement, Abbott paid \$27 million to the Company on October 2, 2009, after which the New Jersey and Illinois actions were both dismissed with prejudice. The Company recognized a gain, net of legal expenses, of \$20.0 million as of September 2009, which is reflected in the results of the Consumer Domestic segment.

18. Related Party Transactions

The following summarizes the balances and transactions between the Company and each of two 50% owned entities, Armand Products Company (Armand) and The ArmaKleen Company (ArmaKleen):

(In thousands)	Armand			ArmaKleen		
	Year Ended December 31,			Year Ended December 31,		
	2010	2009	2008	2010	2009	2008
Purchases by Company	\$ 13,820	\$ 9,931	\$ 14,968	\$ 0	\$ 0	\$ 0
Sales by Company	\$ 0	\$ 0	\$ 0	\$ 5,500	\$ 4,855	\$ 5,178
Outstanding Accounts Receivable	\$ 265	\$ 0	\$ 0	\$ 471	\$ 469	\$ 698
Outstanding Accounts Payable	\$ 900	\$ 2,299	\$ 136	\$ 0	\$ 0	\$ 0
Administration & Management Oversight Services ⁽¹⁾	\$ 1,691	\$ 1,691	\$ 1,635	\$ 2,466	\$ 2,685	\$ 2,673

(1) Billed by Company and recorded as a reduction of selling, general and administrative expenses.

19. Segments*Segment Information*

The Company operates three reportable segments: Consumer Domestic, Consumer International and Specialty Products Division (SPD). These segments are determined based on differences in the nature of products and organizational and ownership structures. The Company also has a Corporate segment.

Segment revenues are derived from the sale of the following products:

Segment	Products
Consumer Domestic	Household and personal care products

Edgar Filing: CHURCH & DWIGHT CO INC /DE/ - Form 10-K

Consumer International

Primarily personal care products

SPD

Specialty chemical products

The Corporate segment income consists of equity in earnings of affiliates. The Company had 50% ownership interests in Armand Products Company (Armand) and The ArmaKleen Company (ArmaKleen) as

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

of December 31, 2010. The Company's 50% ownership interest in Esseco U.K. LLP (Esseco) was divested in the first quarter of 2008 as part of the sale of Brotherton. The Company's equity in earnings of Armand and ArmaKleen for the years ended December 31, 2010, 2009 and 2008, and Esseco for the two months ended February 29, 2008 (prior to the sale of Brotherton) is included in the Corporate segment.

Some of the subsidiaries that are included in the Consumer International segment manufacture and sell personal care products to the Consumer Domestic segment. These sales are eliminated from the Consumer International segment results set forth below.

The following table presents selected financial information relating to the Company's segments for each of the three years in the period ended December 31, 2010.

(In thousands)	Consumer Domestic	Consumer International	SPD	Corporate ⁽¹⁾	As Reported

2008	57,186	6,262	4,733	3,223	71,404

(1) The Corporate segment reflects the following:

- (A) The administrative costs of the production planning and logistics functions are included in segment Selling, General and Administrative expenses but are elements of Cost of Sales in the Company's Consolidated Statements of Income. Such amounts were \$26.6 million, \$31.8 million, and \$25.3 million for 2010, 2009 and 2008, respectively.
- (B) Equity in earnings of affiliates from Armand and Armakleen.
- (C) Corporate assets include notes receivable, domestic deferred income taxes, deferred compensation investments and the Company's investment in unconsolidated affiliates.

(2) In determining Income before Income Taxes, interest expense, investment earnings, and other income (expense) were allocated to the segments based upon each segment's relative operating profit.

Other than the differences noted in footnotes ⁽¹⁾ and ⁽²⁾ above, the accounting policies followed by each of the segments, including intersegment transactions, are substantially consistent with the accounting policies set forth in Note 1.

Intersegment sales from Consumer International to Consumer Domestic, which are not reflected in the table, were \$3.6 million, \$3.0 million and \$5.2 million for the twelve months ended December 31, 2010, December 31, 2009 and December 31, 2008, respectively.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Product line revenues from external customers for each of the three years were as follows:

(In thousands)	2010	2009	2008
Household Products	\$ 1,207,390	\$ 1,196,474	\$ 1,081,440
Personal Care Products	678,692	685,274	635,361
Total Consumer Domestic	1,886,082	1,881,748	1,716,801
Total Consumer International	444,033	393,696	420,192
Total SPD	259,105	245,478	285,405
Total Consolidated Net Sales	\$ 2,589,220	\$ 2,520,922	\$ 2,422,398

Household Products include deodorizing, cleaning and laundry products. Personal Care Products include condoms, pregnancy kits, oral care products and skin care products.

Geographic Information

Approximately 79%, 81% and 78% of the net sales reported in the accompanying consolidated financial statements in 2010, 2009 and 2008, respectively were to customers in the United States. Approximately 96%, 95% and 94% of long-lived assets were located in the U.S. at December 31, 2010, 2009 and 2008, respectively. Other than the United States, no one country accounts for more than 7% of consolidated net sales and 3% of total assets.

Customers

A group of three customers accounted for approximately 33% of consolidated net sales in 2010, of which a single customer (Wal-Mart Stores, Inc and its affiliates) accounted for approximately 23%. A group of three customers accounted for approximately 32% of consolidated net sales in 2009, of which Wal-Mart and its affiliates accounted for approximately 22%. A group of three customers accounted for approximately 31% of consolidated net sales in 2008 of which Wal-Mart and its affiliates accounted for approximately 22%.

20. Subsequent Events

On February 7, 2011, the Board of Directors declared an increase in the regular quarterly dividend from \$0.17 share to \$0.34 per share, equivalent to an annual dividend rate of \$1.36 per share. The higher dividend raises the Company's annualized dividend payout from approximately \$49 million to approximately \$97 million. The Company last increased its dividend in August 2010.

Table of Contents**CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Unaudited Quarterly Financial Information**

The unaudited quarterly results of operations are prepared in conformity with generally accepted accounting principles and reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of the results of operations for the periods presented. Adjustments are of a normal, recurring nature, except as discussed in the accompanying notes. Due to rounding differences, the sum of the quarterly amounts may not add precisely to the annual amounts.

(in thousands, except per share data)	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Full Year

The fourth quarter of 2010 includes a pension settlement charge of approximately \$24 million pre-tax (\$15.5 million after tax).

In the third and fourth quarters of 2009, the Company recorded fixed asset impairment charges of \$4.4 million and \$2.5 million, respectively, relating to the carrying value of assets associated with one of its international subsidiaries. These charges are associated with products that compete with imports priced in U.S. dollars. As the dollar has weakened, it has been necessary to lower prices in the local currency to stay competitive, leading to negative cash flows.

In the third quarter of 2009, the Company recorded a pre-tax gain of \$20 million, net of expenses, related to the patent infringement legal settlement with Abbott.

CHURCH & DWIGHT CO., INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In connection with the shutdown of its North Brunswick, New Jersey facility, the Company recorded accelerated depreciation charges of approximately \$4 million in each of the four quarters of 2009, and in the fourth quarter also recorded a \$7.2 million charge associated with operating leases no longer in use.

In the first quarter of 2008, the Company sold Brotherton, which resulted in a pre-tax gain of \$3.0 million, and the Company recorded an asset impairment charge of \$5.6 million due to its decision to exit a business.

In the fourth quarter of 2008, the Company recorded impairments of intangible assets of \$2.2 million. These impairments were a result of lost distribution at key customer accounts and to a lesser extent lost profitability.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

a) Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act:)) at the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures as of the end of the period covered by this report are effective to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Exchange Act are (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding the disclosure.

b) Management's Report on Internal Control Over Financial Reporting

Our management's report on internal control over financial reporting is set forth in Item 8 of this annual report on Form 10-K and is incorporated by reference herein. Our independent registered public accounting firm has issued an audit report on the effectiveness of the Company's internal control over financial reporting, which is set forth in Item 8 of this Annual Report on Form 10-K.

c) Change in Internal Control over Financial Reporting

No change in the Company's internal control over financial reporting occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

Not applicable.
