Each Fund s investments are reported at fair value. Fair value is defined as the price that each Fund would receive upon selling an asset or would pay upon satisfying a liability in an orderly transaction between market participants at the measurement date.

Accounting standards establish a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained

from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity s own assumptions about the factors that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Reoccurring fair value measurements of Level 3 securities shall include a reconciliation of the beginning to ending balances for reported fair market values. A fair value hierarchy and Level 3 reconciliation, if applicable, have been included in the Notes to Schedule of Investments for each respective Fund.

An individual investment s fair value measurement is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized as follows:

- Level 1 Observable input such as quoted prices, available in active markets, for identical assets or liabilities.
- Level 2 Significant other observable inputs, which may include, but are not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market corroborated inputs.
- Level 3 Significant unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available, which may include assumptions made by the Board or persons acting at their direction that are used in determining the fair market value of investments.

The following table summarizes the valuation of the Fund s investments by the above fair value hierarchy levels as of December 31, 2013:

	Level 1	Level 2	Level 3
Assets			
Investments in Securities			
Corporate Debt Securities	\$	\$ 356,962	\$ 8,377
Municipal Bonds		1,330	
Loans		56,481	48,326
Total	\$	\$ 414,773	\$ 56,703
Liabilities			
Forward Foreign Currency Contracts	\$	\$ 704	\$
Payable for Borrowing	\$	\$ 152,000	\$

The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	Corporate Debt Securities	
Beginning Balance 10-1-13	\$	s Loans \$ 35,321
Net realized gain (loss)		*
Net change in unrealized appreciation (depreciation)	227	7 154
Purchases		4,427
Sales		(111)
Amortization/Accretion of premium/discount	(1	1) 15
Transfers into Level 3 during the period	8,151	1 9,620
Transfers out of Level 3 during the period		(1,100)
Ending Balance 12-31-13	\$ 8,377	7 \$ 48,326
Net change in unrealized appreciation (depreciation) for all Level 3 investments still held as of 12-31-13	\$ 227	7 \$ 154

Transfers from Level 2 to Level 3 occurred primarily due to the lack of observable market data due to decreased market activity or information for these securities. Transfers from Level 3 to Level 2 occurred primarily due to the increased availability of observable market data due to increased market activity or information. As shown above, transfers in and out of Level 3 represent the values as of the beginning of the reporting period. There were no transfers between Levels 1 and 2 during the period ended December 31, 2013.

Information about Level 3 fair value measurements:
