**Fair Value Measurements** Various inputs are used in determining the fair value of investments and derivative financial instruments. These inputs to valuation techniques are categorized into a disclosure hierarchy consisting of three broad levels for financial reporting purposes. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The categorization of a value determined for investments and derivative financial instruments is based on the pricing transparency of the investment and derivative financial instrument and is not necessarily an indication of the risks associated with investing in those securities. The three levels of the fair value hierarchy are as follows:

**Level 1** unadjusted price quotations in active markets/exchanges for identical assets or liabilities that the Fund has the ability to access

**Level 2** other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

**Level 3** unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund's own assumptions used in determining the fair value of investments)

## Edgar Filing: BLACKROCK DEBT STRATEGIES FUND, INC. - Form N-Q

Changes in valuation techniques may result in transfers into or out of an assigned level within the disclosure hierarchy. In accordance with the Fund's policy, transfers between different levels of the fair value disclosure hierarchy are deemed to have occurred as of the beginning of the reporting period. For information about the Fund's policy regarding valuation of investments and derivative financial instruments, refer to the Fund's most recent financial statements as contained in its annual report.

<sup>1</sup> As of February 28, 2015, the Fund used significant observable inputs in determining the value of certain investments. As of May 31, 2015, the Fund used unobservable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$7,350,209 transferred from Level 2 to Level 3 in the disclosure hierarchy.

<sup>2</sup> As of February 28, 2015, the Fund used significant unobservable inputs in determining the value of certain investments. As of May 31, 2015, the Fund used observable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$24,722,499 transferred from Level 3 to Level 2 in the disclosure hierarchy.

<sup>3</sup> Included in the related net change in unrealized appreciation (depreciation) in the Consolidated Statement of Operations.

<sup>4</sup> Any difference between net change in unrealized appreciation (depreciation) and net change in unrealized appreciation (depreciation) on investments still held at May 31, 2015 is generally due to investments no longer held or categorized as Level 3 at period end.

The following table summarizes the valuation techniques used and unobservable inputs utilized by the BlackRock Global Valuation Methodologies Committee (the "Global Valuation Committee") to determine the value of certain of the Fund's Level 3 investments as of May 31, 2015. The table does not include Level 3 investments with values based upon unadjusted third party pricing information in the amount of \$27,886,338. A significant change in such third party pricing information could result in a significantly lower or higher value of such Level 3 investments.
