Fiscal 2015 Highlights

Fiscal 2015 financial results and our global irrigation business specifically were negatively impacted by lower commodity prices and farm incomes as we entered the second year of a downturn in the cyclical agriculture industry. Despite cyclical headwinds, the Company had many significant achievements in fiscal 2015 as we continued to maintain a long-term perspective as we executed on our strategic plan. Key highlights include:

While our irrigation business was negatively impacted by lower commodity prices and farm incomes, our infrastructure business partially offset these negatives with significant increases in revenue and profitability. Total revenues were \$560.2 million, a 9 percent decrease from \$617.9 million for fiscal 2014. Net earnings were \$26.3 million, or \$2.22 per diluted share, compared with \$51.5 million, or \$4.00 per diluted share, in the prior year. While irrigation revenues were down 16 percent from the prior year, the infrastructure business had an outstanding year with revenues increasing 40 percent versus prior year.

Backed by a strong balance sheet, we continued to execute on our capital allocation plan by making strategic investments for future growth and returning value to stockholders. Specific actions included:

- i **During fiscal 2015, we made two key synergistic water-related acquisitions that continue to enhance our global turnkey solutions capabilities.** In January 2015, we acquired Elecsys Corporation, a provider of machine-to-machine (M2M) technology solutions and custom electronic systems for \$67.2 million, net of cash received. In July 2015, we acquired SPF Water Engineering, LLC, a full-service water resource consulting firm, for \$2.4 million, net of cash received.
- i **During fiscal 2015, we repurchased \$97 million of our outstanding common stock.** The Board of Directors also approved a \$100 million increase in our outstanding share repurchase authorization during fiscal 2015, leaving us with \$112.1 million of remaining authority as of August 31, 2015.
- i **During fiscal 2015, we invested over \$15 million in capital expenditures.** This included start-up of our new manufacturing facility in Turkey.

- i **Effective August 31, 2015, we increased our quarterly dividend to \$0.28 per share, representing a 4 percent increase over the previous quarterly indicated rate.** This marked our thirteenth consecutive year of dividend increases.

During fiscal 2015, we took advantage of historically low interest rates to significantly improve our overall capital structure by borrowing \$115 million due in 2030 at an annual interest rate of 3.82%. After accounting for the investments listed above, the Company maintained a cash balance of \$139.1 million as of August 31, 2015.

Section 16(a) Beneficial Ownership

Reporting Compliance

The rules of the Securities and Exchange Commission require the Company to disclose the identity of directors and executive officers and of beneficial owners of more than 10% of the Company's common stock who did not file on a timely basis reports required by Section 16 of the Securities Exchange Act of 1934, as amended. Based solely on review of copies of those reports received by the Company, or written representations from reporting persons, the Company believes that all directors, executive officers and 10% beneficial owners complied with all filing requirements applicable to them during the Company's fiscal year ended August 31, 2015.

PROPOSAL 1

ELECTION OF DIRECTORS

The Company's Certificate of Incorporation requires that the Board of Directors be divided into three classes that are elected to the Board on a staggered basis for three-year terms. At the Annual Meeting, the terms of three directors will terminate and stockholders will be voting on nominees to fill two of these three positions on the Board. The third directorship has been eliminated as a result of a decision to reduce the total number of directors constituting the entire Board of Directors from nine to eight. Accordingly, the Board of Directors, upon recommendations made by the Corporate Governance and Nominating Committee, has nominated Michael C. Nahl and William F. Welsh II to serve as directors for terms ending in 2019. Messrs. Nahl and Welsh are current directors of the Company serving for terms expiring as of the date of the Annual Meeting. Howard G. Buffett, the other director whose term expires as of the date of the Annual Meeting, previously announced that he will retire from the Board upon the expiration of his current term. Both of Messrs. Nahl and Welsh have expressed an intention to serve, if elected. The Board of Directors knows of no reason why either of them might be unavailable to continue to serve, if elected. There are no arrangements or understandings between Messrs. Nahl and Welsh and any other person pursuant to which they were nominated to serve on the Board of Directors.

The election of a director requires the affirmative vote of a plurality of the votes cast in person or by proxy by persons entitled to vote at the Annual Meeting. Consequently, votes withheld and broker non-votes with respect to the election

of directors will have no impact on the election of directors. If either of Messrs. Nahl or Welsh is unable to serve, the shares represented by all valid proxies will be voted for the election of such substitute nominee as the Corporate Governance and Nominating Committee may recommend to the Board of Directors.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE ELECTION OF MESSRS. NAHL AND WELSH AS DIRECTORS OF THE COMPANY WITH TERMS ENDING IN 2019.

Corporate Governance

The Board of Directors operates pursuant to the provisions of the Company's Certificate of Incorporation and Bylaws as well as a set of Corporate Governance Principles which address a number of items, including the qualifications for serving as a director, the responsibilities of directors and board committees and the compensation of directors. The Company has adopted a Code of Ethical Conduct that applies to the Chief Executive Officer, Chief Financial Officer, Principal Accounting Officer and Corporate Controller, as required by Section 406 of the Sarbanes-Oxley Act of 2002. Additionally, the Company maintains a Code of Business Conduct and Ethics for all persons associated with the Company, including its directors, officers and employees, that complies with the listing standards adopted by the New York Stock Exchange. Both of these codes and the Company's Corporate Governance Principles are available on the Company's website at <http://www.lindsay.com> under the Investor Relations tab and are available in print to any stockholder who submits a request in writing to the Secretary of the Company.

The Board of Directors conducts its business through meetings and actions taken by written consent in lieu of meetings. During the fiscal year ended August 31, 2015, the Board of Directors held eleven meetings. During fiscal 2015, each director attended at least 75% of the aggregate of (i) the total number of meetings of the Board of Directors held during the period of such member's service and (ii) the total number of meetings of the committees of the Board of Directors on which he served held during the period of such member's service.

The Company's independent directors normally meet in executive session at each regularly scheduled Board meeting. The Chairman of the Board, currently Mr. Nahl, an independent director, serves as the presiding director at each executive session of the independent directors.

Table of Contents

Board Leadership Structure

The Company's Corporate Governance Principles provide that the position of Chairman of the Board of Directors be held by an independent director and, accordingly, the same individual cannot serve as both the Chairman of the Board and as the Company's Chief Executive Officer. This policy is designed to facilitate the ability of the Board of Directors to perform the important functions of providing independent oversight of management and to address risks faced by the Company. This policy also allows the Chairman to convene executive sessions with independent directors without the need for a separate director to discharge the role of a presiding director.

Board's Role in Risk Oversight

Management has the primary responsibility for identifying and managing the risks to which the Company is subject, under the oversight of the Board of Directors. Among other things, the Board of Directors considers risks presented by business strategy, competition, regulation, compensation plans, global economic conditions, general industry trends including the disruptive impact of technological change, capital structure and allocation, and mergers and acquisitions. The Board of Directors as a whole has the primary responsibility for performing this oversight function. The Company's three standing committees are also responsible for the assessment of risks associated with the general subject matters for which those standing committees have responsibility. The Board's risk oversight process includes close interaction with the Company's internal auditor and is facilitated by an annual risk assessment prepared by management. The Company has engaged the accounting firm of Deloitte & Touche LLP to design, execute and prepare reports with respect to the Company's overall internal audit plan and to perform certain other internal audit services with the assistance of the Company's internal auditor. Deloitte & Touche LLP provides regular updates to the Audit Committee regarding its services and testing results. The goal of the Board's risk evaluation process is to identify any activities that create risks that may not be appropriate for the Company, quantify the magnitude of these risks and work with management to develop a plan to mitigate these risks.

Committees of the Board of Directors

The Board of Directors has established an Audit Committee, a Compensation Committee and a Corporate Governance and Nominating Committee.

Audit Committee. The primary purpose of the Audit Committee is to assist the Board of Directors in the oversight of (i) the integrity of the Company's financial statements, (ii) the Company's compliance with legal and regulatory requirements, (iii) the independent auditor's qualifications and independence, and (iv) the performance of the Company's internal audit function. The Audit Committee is responsible for selecting, compensating and evaluating the Company's independent auditor. Specific functions performed by the Audit Committee include reviewing periodically with the independent auditor the performance of the services for which they are engaged, reviewing the scope of the annual audit and its results, reviewing the Company's annual financial statements and quarterly financial statements with management and the independent auditor, reviewing the scope and results of the Company's internal audit function, and reviewing the adequacy of the Company's internal accounting controls with management and the independent auditor. The Audit Committee operates under a written charter adopted by the Board of Directors which is available on the Company's website at <http://www.lindsay.com> under the Investor Relations tab and is available in print to any stockholder who submits a request in writing to the Secretary of the Company. The charter meets the requirements of the listing standards adopted by the New York Stock Exchange.

The Audit Committee is currently comprised of Directors Jagodinski (Chairman), Brunner, Christodolou, Nahl and Rayburn, each of whom has been determined to be independent by the Board of Directors under the rules of the Securities and Exchange Commission and under the listing standards adopted by the New York Stock Exchange. In

addition, the Board of Directors has determined that each of Messrs. Brunner,

Christodolou, Jagodinski, Nahl and Rayburn qualify as an audit committee financial expert under the rules of the Securities and Exchange Commission. The Committee held nine meetings during fiscal 2015.

Compensation Committee. The Compensation Committee reviews and approves the Company's compensation policies, benefit plans, employment agreements, salary levels, bonus payments, and awards pursuant to the Company's management incentive plans for its executive officers and other elected officers. The Compensation Committee approves all individual grants and awards under the Company's long-term equity incentive plans. It also reviews compensation for non-employee directors and recommends changes in such compensation to the Board of Directors. The Compensation Committee is specifically responsible for determining the compensation of the Company's Chief Executive Officer and conducts an annual performance evaluation of the Chief Executive Officer. The Company's Chief Executive Officer makes recommendations to the Compensation Committee regarding the compensation paid to executive officers and other elected officers. However, the final authority for setting executive officer compensation rests with the Compensation Committee. The Compensation Committee has the discretion to delegate specific responsibilities to the Committee Chair, any other Committee member(s) or subcommittees as the Compensation Committee may establish from time to time.

The Compensation Committee has periodically retained external compensation consulting firms to assist and advise it on particular matters. During fiscal 2015, the Company received independent compensation consulting services from Fariet Advisors LLC (Fariet) and Meridian Compensation Partners, LLC (Meridian). Both firms were engaged directly by the Compensation Committee, but their fees were paid by the Company. The nature and scope of Fariet's and Meridian's engagement with respect to the Compensation Committee's decisions regarding fiscal 2015 executive and director compensation are described under Compensation Discussion and Analysis found later in this Proxy Statement. Meridian was engaged to provide services with respect to executive and director compensation for fiscal 2016.

The Compensation Committee operates under a written charter adopted by the Board of Directors which is available on the Company's website at <http://www.lindsay.com> under the Investor Relations tab and is available in print to any stockholder who submits a request in writing to the Secretary of the Company. The charter meets the requirements of the listing standards adopted by the New York Stock Exchange. The Compensation Committee is currently comprised of Directors Brunner (Chairman), Christodolou, Rayburn, Walter and Welsh, each of whom has been determined to be independent by the Board of Directors under the listing standards adopted by the New York Stock Exchange. The Committee held eleven meetings during fiscal 2015.

Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee is responsible for making recommendations to the Board of Directors of persons to serve as directors of the Company and as chairmen and members of committees of the Board of Directors and for reviewing and recommending changes in the general Corporate Governance Principles of the Company. It also oversees the annual evaluation by the Board of Directors to determine whether the Board and its committees are functioning effectively. The Corporate Governance and Nominating Committee operates under a written charter adopted by the Board of Directors which is available on the Company's website at <http://www.lindsay.com> under the Investor Relations tab and is available in print to any stockholder who submits a request in writing to the Secretary of the Company. The charter meets the requirements of the listing standards adopted by the New York Stock Exchange.

The Corporate Governance and Nominating Committee identifies nominees to serve as a director of the Company through a combination of suggestions made by independent search firms, directors and stockholders. The Corporate Governance and Nominating Committee will consider director nominees for the 2017 Annual Meeting recommended by stockholders which are submitted in writing, complete with biographical and business experience information regarding the nominee, to the Secretary of the Company by August 19, 2016. Candidates for directors are evaluated

based on their independence, character, judgment, diversity of experience, financial or business acumen, ability to represent and act on behalf of all stockholders, and the needs of the Board. The Corporate Governance and Nominating Committee does not have a formal policy on diversity with regard to

consideration of director nominees, but the Corporate Governance and Nominating Committee considers diversity in its selection of nominees and seeks to have a Board that reflects a diverse range of views, backgrounds and experience. The Corporate Governance and Nominating Committee uses the same criteria to evaluate its own nominees for director as it does for persons nominated by Company stockholders.

The Corporate Governance and Nominating Committee is currently comprised of Directors Walter (Chairman), Buffett, Christodolou and Welsh, each of whom has been determined to be independent by the Board of Directors under the listing standards adopted by the New York Stock Exchange. Mr. Buffett will resign from the Corporate Governance and Nominating Committee on January 25, 2016 when his current term as a director expires. The Committee held four meetings during fiscal 2015.

Related Party Transactions.

The Board of Directors has adopted a written policy regarding the review, approval or ratification of related party transactions. Under the policy, all such related party transactions must be pre-approved by the Audit Committee or ratified by the Audit Committee if pre-approval is impracticable. Under the policy, certain transactions are excluded from the definition of related party transaction, including (i) transactions available to all employees generally, (ii) director and officer compensation approved by the Compensation Committee and/or Board of Directors, as applicable, (iii) transactions in the ordinary course of the Company's business that are on substantially the same terms as those prevailing at the time for comparable products and services to unrelated third parties, and (iv) certain transactions with other companies where the related party's only relationship is as an employee (other than an executive officer), director or beneficial owner of less than 5% of that company's shares, if the aggregate amount involved during the fiscal year does not exceed the greater of \$1,000,000 or 2% of that company's total annual revenues. In determining whether to approve or ratify a related party transaction, the Audit Committee will consider, among other factors, whether the terms of the transaction are fair to the Company, whether the transaction would present an improper conflict of interest for any director, officer or other related party, or whether the transaction would impair the independence of an outside director. Any Audit Committee member who has an interest in a transaction under discussion must abstain from voting on the proposed transaction.

Since the beginning of fiscal 2015, The Howard G. Buffett Foundation, a private charitable foundation of which Howard Buffett is Chairman and Chief Executive Officer, has purchased \$726,559 of irrigation equipment, ancillary equipment and services from the Company. These transactions were at prices in accordance with the Company's pricing policy for qualifying charitable, nonprofit, educational and research organizations.

Compensation Discussion and Analysis

Compensation Philosophy and Overview. The overall goal of the Company's compensation policy is to maximize stockholder value by attracting, retaining and motivating the executive officers that are critical to its long-term success. The Board's Compensation Committee (the Committee) believes that executive compensation should be designed to promote both the short-term and long-term economic goals of the Company. Accordingly, an important component of the Committee's compensation philosophy is to closely align the financial interests of the Company's executive officers with those of the Company's stockholders. The Board of Directors and the Committee take several measures to monitor this degree of alignment, which include conducting a non-binding say on pay vote at each annual meeting of the Company's stockholders. Stockholders have approved the non-binding say on pay resolution by a vote of more than 95% of the votes cast on this proposal at each of the Company's last three annual meetings held in 2013, 2014 and 2015. While the Committee considered the 2013, 2014 and 2015 say on pay voting results in establishing fiscal 2015 and fiscal 2016 compensation, respectively, no specific actions were deemed necessary as the Committee believed the results of the 2013, 2014 and 2015 say on pay votes were a confirmation that stockholders were in

general agreement with the Committee's compensation philosophy. The Committee will continue to consider the say on pay voting results and other feedback provided from the Company's stockholders when making future compensation decisions concerning the Company's executive officers.

Table of Contents

In order to implement its compensation philosophy, the Committee has determined that the total compensation program for executive officers should consist of the following components:

Base salaries to reflect responsibility, experience, tenure and performance of key executives, as well as the scarcity of qualified executives for key positions;

Annual cash incentive awards to reward performance against short-term corporate, business unit and/or individual objectives;

Long-term equity incentive compensation to emphasize longer-term strategic objectives and align the interests of executives with those of stockholders; and

Other benefits as appropriate to be competitive in the market place.

It has been the intent of the Committee that executive salaries, target annual incentive opportunities and target long-term incentive values be aimed at the median of manufacturing and general industry companies of similar size (measured by annual revenues) and complexity (measured primarily by number of distinct business lines and scope of international focus) to the Company for comparable positions, based on available peer group and survey data, with variation due to differences in executive skill levels and experience, the executive's role and internal fairness with other positions and roles within the Company.

The Committee's practice is to regularly compare the Company's executive compensation program with those provided by similar companies. The Committee annually compares the named executive officers' general compensation levels against available market data and then also performs an in-depth review of the entire compensation program approximately every three years in order to comprehensively review the Company's short and long-term compensation strategies, award mixes and performance metrics. The Committee engaged Farient Advisors LLC (Farient) in fiscal 2015 to provide a competitive assessment of the Company's executive compensation program and to evaluate the compensation of the named executive officers in comparison to peer group proxy data and relevant survey data. Farient was engaged directly by the Compensation Committee, but its fees were paid by the Company. The Committee has adopted a pre-approval policy for certain compensation consulting services to be provided by Farient to management of the Company, but has determined that the scope of services and annual limit on fees set forth in the pre-approval policy will not impair Farient's independence from management.

In conducting its review and analysis, Farient used a combination of proxy data from peer companies and survey composite data, with each being weighted equally for purposes of establishing benchmark compensation levels. The composite data was obtained from the 2014 Mercer U.S. Executive Benchmark Database survey and comprised companies with revenue between \$150 million and \$1.25 billion. The peer group was established using the following criteria: (i) U.S. based company listed on a major U.S. exchange; (ii) similar industry, with a qualitative assessment of business fit; (iii) revenue for the most recent fiscal year of between \$250 million and \$1.25 billion; and (iv) similar business and organizational complexity, focusing on companies having international revenue in excess of 25% of total revenue and having at least two distinct operating segments. The selected revenue range was consistent with prior year and was approximately one-half to two times the Company's revenue for its most recently completed fiscal year, resulting in a peer group where the Company's revenue was within a reasonable range of the peer group median revenue. Based on these criteria, the following peer group was established for fiscal 2015:

Aegion Corp.
Alamo Group, Inc.
Ampco-Pittsburgh Corp.
Astec Industries Inc.
CIRCOR International, Inc.

Columbus McKinnon Corp.
Commercial Vehicle Group, Inc.
EnPro Industries, Inc.
Federal Signal Corp.
Graco, Inc.

Lydall, Inc.
Manitex International, Inc.
NN, Inc.
Twin Disc Inc.

Table of Contents

Since the Company does not have a large and generally recognized group of peer companies, Fariet deemed it appropriate to use a mix of proxy data from peer companies and composite survey data. The Committee intends to conduct an annual review of the peer group composition. The peer group for fiscal 2015 contained two changes from the peer group established for fiscal 2014. Kaydon Corp. was removed because it was acquired by another company. Kaydon was replaced with Manitex International, Inc., a manufacturing company based in the Midwest with two distinct business segments and significant international revenue. While Manitex revenue was slightly below the revenue threshold, current year projected revenue was within the stated criteria. The replacement of Kaydon with Manitex lower revenue helped balance the Company's position in the peer group as the Company's revenue had decreased year-over-year.

Based on its review and analysis, Fariet recommended various minor changes to the Company's fiscal 2015 executive compensation program in order to position each component of compensation (and total direct compensation) for each executive at approximately the median of the Fariet competitive market data. In addition to reviewing the compensation of executive officers against the competitive market, the Committee also considers recommendations from the Company's President and Chief Executive Officer regarding the total compensation for executive officers. Further, the Committee considered the historical compensation of each executive officer, from both a total compensation and a component by component basis, in setting the fiscal year 2015 compensation for the executive officers.

The Committee is of the view that awards of annual cash incentive and long-term incentive compensation awarded to executive officers should be adjusted in the event of restatements of the Company's financial results. Accordingly, the Committee has adopted a policy that allows recoupment or repayment of annual cash incentive and long-term incentive compensation payments made to executive officers during the three years preceding the restatement of Company financial statements to the extent such payments exceeded the amounts that would have been payable based on the restated financial results. Conversely, the policy allows for additional payments to the extent the amounts paid as annual cash incentive and long-term incentive payments received in the three years preceding a restatement of Company financial statements were less than the amounts that would have been payable based on the restated financial results.

The Committee has assessed the risks that could arise from the Company's compensation program and does not believe that the terms of this program encourage excessive risk-taking that is reasonably likely to have a material adverse effect on the Company. For example, the Company's compensation program: (i) focuses on both short-term and long-term financial goals; (ii) utilizes a mix of financial performance goals so as to avoid over-emphasis on any one metric; (iii) is subject to a clawback policy in the event of restatements of the Company's financial results; (iv) includes long-term incentives with a three-year vesting period; (v) contains caps on the maximum incentive payouts; and (vi) requires management to meet robust stock ownership guidelines.

2015 Executive Compensation Program. The Company's fiscal year 2015 compensation program for its executive officers, including the executive officers named in the Summary Compensation Table included in this Proxy Statement, consisted of four basic components, which are (i) base salary, (ii) annual cash incentive awards, (iii) long-term incentive compensation and (iv) other employee benefits. The purposes of each of these components of executive compensation and the manner in which compensation for fiscal 2015 under these components was determined by the Committee for executive officers are as follows:

Base Salary. Base salaries are designed to provide executive officers with a competitive level of fixed compensation that is commensurate with the executive officer's individual responsibility, experience, tenure and general performance of duties. Base salary levels are also subject to competitive pressures faced by the Company for attracting and retaining qualified executives to fill key positions in the different geographic regions where the Company's executives

reside. The Committee considers peer group and compensation survey information regarding base salary levels for executive officers with comparable positions and responsibilities in similar companies in order to maintain base salaries at competitive levels. In general, the Committee evaluates each executive officer's base salary on an annual basis to determine if an increase from the prior year's base salary is

Table of Contents

justified based on these criteria and considerations. In the case of Mr. Parod, base salary was initially established by the terms of his employment agreement and is subject to annual increases as determined by the Committee.

In the first quarter of fiscal 2015, the Committee established the base salaries for each of the Named Executive Officers. With respect to the base salaries of Named Executive Officers other than Mr. Parod, the Committee considered Mr. Parod's recommendations for salary adjustments and competitive salary information included in Farient's report on executive compensation. Mr. Parod made his recommendations for salary adjustments primarily based on individual performance and the Farient report. The Committee also took note that the recommended salaries were consistent with its policy of establishing base salary levels for its executive officers at levels that approximate the median salaries paid to persons holding comparable positions by manufacturing and general industry companies with annual revenues and business complexity similar to those of the Company. With respect to Mr. Parod, the Committee considered the competitive salary information included in Farient's report on executive compensation, the Company's performance and Mr. Parod's personal performance and concluded that an increase in his base salary from \$600,000 to \$640,000 (or 6.7%) was appropriate. This increase brought Mr. Parod's salary to approximately the median of the competitive market data.

Annual Cash Incentive Awards. The Company paid annual cash incentive awards to its executive officers under a Management Incentive Plan for fiscal 2015 (the 2015 MIP) that was adopted by the Committee pursuant to the terms of the Company's 2014 Management Incentive Umbrella Plan which was approved by the stockholders at the Company's annual stockholder meeting in 2014. The Company used annual cash payments under the 2015 MIP primarily to encourage its executive officers to achieve specific short-term financial goals of the Company generally and, in some cases, for achievement of the Company's financial results in certain market segments. In addition, a portion of the annual cash incentives is designated to reward individual performance objectives of each executive officer participating in the 2015 MIP. The Committee adopted the 2015 MIP and established the financial and individual goals for executive officers under the 2015 MIP during the first quarter of fiscal 2015.

The 2015 MIP established a target cash incentive amount for each Named Executive Officer (each a Target Cash Incentive Award). The Target Cash Incentive Award for Mr. Parod was set at 80% of his base salary (which was the same as his prior year target percentage). The Target Cash Incentive Award for each of Messrs. Raabe, Downing and Ruffalo was set at 50% of his respective base salary (which was the same as each officer's prior year target percentage). In each case, a Target Cash Incentive Award represents the total cash incentive a Named Executive Officer was entitled to receive if he had achieved 100% of the target levels under the financial performance component and individual performance component established for such Named Executive Officer under the 2015 MIP.

The financial performance component accounted for 80% of each Named Executive Officer's potential annual cash incentive award. This component consisted of three subcomponents: revenue, operating margin and economic profit. The Committee believed the use of revenue, operating margin and economic profit would provide a good balance of financial objectives to promote maximum stockholder value. For each of Messrs. Parod and Raabe, the financial performance component was based 100% on consolidated Company financial performance. For each of Messrs. Downing and Ruffalo, the financial performance component was split equally between consolidated Company financial performance and the financial performance (also based on revenue, operating margin and economic profit) of their respective business units. For purposes of the 2015 MIP, (i) revenue was defined as the Company's fiscal 2015 operating revenues, (ii) operating margin was defined as the Company's fiscal 2015 operating income divided by fiscal 2015 operating revenues, and (iii) economic profit was defined as the Company's fiscal 2015 net operating profit after taxes less an operating charge equal to the Company's fiscal 2015 average monthly net assets multiplied by the Company's weighted average cost of capital. Each of the three subcomponents was calculated using the Company's Consolidated Statement of Operations for the year ended August 31, 2015, net of any effect of acquisitions made

during fiscal 2015. The Committee chose to use revenue, operating margin and economic profit as the financial performance measures

Table of Contents

for determining annual cash incentive awards under the 2015 MIP because it believed that the Named Executive Officers had significant influence over these measures, that these measures align the interests of officers with the creation of stockholder value and that these measures are well understood by management and stockholders. Accordingly, the revenue, operating margin and economic profit subcomponents were assigned weightings of 50%, 40% and 10%, respectively, by the Committee.

In general, the Committee seeks to establish target levels for financial performance goals based on the Company's annual budget for the relevant fiscal year as approved by the Board of Directors. The 2015 targets for revenue, operating margin and economic profit were \$600.0 million, 11.7% and \$8.7 million, respectively. Each target corresponds to the Company's operating budget for fiscal 2015. The targets established for specific business units also correspond to the fiscal 2015 operating budget. As noted above, each target excludes the effect of any acquisitions made during fiscal 2015. The Committee took into consideration the cyclical nature of the Company's business in establishing these target levels, acknowledging that the revenue and operating margin targets for fiscal 2015 were less than the Company's actual performance for fiscal 2014 due to the cyclical downturn in the agricultural markets.

The Committee also approved the use of individual performance objectives to determine 20% of the annual cash incentives under the 2015 MIP for each Named Executive Officer. These individual performance objectives were approved by the Committee, based on recommendations by Mr. Parod, for each Named Executive Officer according to his respective area of responsibility. Unlike the financial performance measures described above, which the Committee viewed as short-term performance measures, the individual performance objectives were designed to focus on goals or initiatives that will create longer-term value for the Company. Depending on the officer, these performance objectives relate to areas such as strategic acquisitions, market development, market share growth and product development. Some of these individual performance objectives are objective and depend upon the accomplishment of specific, measurable goals such as increased sales, expansion of international manufacturing capacity, introduction of new products or cost reductions. Others are subjective in nature, such as performance objectives tied to customer service, marketing, process improvements, or the strengthening of operational and sales capabilities.

Under the 2015 MIP, a Named Executive Officer could earn a portion of his Target Cash Incentive Award if he achieved at least a threshold level of performance for any of the financial or individual performance components. Separate calculations were performed to determine the payout earned under the financial performance component and the individual performance component, and those two components were then added together to determine the final cash incentive awarded to a Named Executive Officer. The financial performance subcomponents are calculated according to a scale that provides varying percentage payouts for threshold, intermediate, target and maximum performance levels. If the Company fails to meet the threshold performance level for a specific financial performance subcomponent, then the Named Executive Officer will receive no payout under that specific subcomponent. Percentage payouts between the threshold, intermediate, target and maximum levels are linearly interpolated for each financial performance subcomponent. The following performance levels trigger the following percentage awards (calculated as a percentage of the Target Cash Incentive Award available under the overall Company financial performance component):

	Revenue (50%)	Average Operating Margin (40%)	Economic Profit (10%)	Target Cash Incentive Award Available for Financial Performance Subcomponent
Maximum	\$900.0 million	13.5%	\$13.0 million	200%

Edgar Filing: LINDSAY CORP - Form DEF 14A

Target	\$600.0 million	11.7%	\$8.7 million	100%
Intermediate	\$450.0 million	8.8%	\$6.5 million	75%
Threshold	\$300.0 million	5.9%	\$4.3 million	15%
Below Threshold	-	-	-	0%

Table of Contents

Likewise, the cash incentive awarded under the individual performance component is calculated according to a scale providing the following percentage awards (calculated as a percentage of the Target Cash Incentive Award available under the individual performance component):

Performance Level	Percentage of Target Cash Incentive Award Available for Individual Component
Significantly exceeds objectives	200%
Exceeds objectives	150%
Meets all objectives	100%
Meets most objectives	75%
Meets some objectives	50%
Does not meet objectives	0%

Both the financial and individual performance component calculations offer a range of payouts for performance that exceeds or falls short of the target level. The Committee believes that this not only provides an incentive to executives to achieve performance that exceeds expectations, but it also provides constant motivation during down cycles. By rewarding a range of performance, the Committee hoped to partially counteract the cyclical nature of the Company's business. Likewise, the receipt of an award under one component or subcomponent is not contingent upon meeting a certain performance standard under the other component or subcomponents. For example, an executive who has met all of his individual performance objectives would still receive a payout under the individual component even if the Company failed to meet the threshold financial performance objectives. Similarly, an executive may receive a payout if the threshold level is met for a specific financial performance subcomponent even if the executive failed to meet his or her individual performance objectives and/or the Company failed to meet the threshold levels for the other financial performance subcomponents. If any sort of unplanned event should arise, the 2015 MIP gives the Committee the discretion to reduce (but not increase) the incentive payouts under the plan. The following example demonstrates how a hypothetical executive officer's annual cash incentive payment was calculated under the 2015 MIP:

An officer receiving a base salary of \$300,000 (with a target incentive percentage of 50% of his base salary) would be eligible for a Target Cash Incentive Award of \$150,000. \$120,000 of that amount would be attributable to the Company's financial performance component (80% of the Target Cash Incentive Award), whereas \$30,000 of that amount would be attributable to the officer's individual performance component (20% of the Target Cash Incentive Award). If the Company generated revenues of \$600.0 million, operating margin of 8.8%, economic profit of \$13.0 million, and the officer met all of his individual performance objectives, he would receive a total cash incentive payout of \$150,000, calculated as follows:

Company Financial Performance Component: $\$60,000^A + \$36,000^B + \$24,000^C = \$120,000$

^A Revenue Subcomponent: $\$120,000 \times 50\% \times 100\%$ performance multiplier

^B Operating Margin Subcomponent: $\$120,000 \times 40\% \times 75\%$ performance multiplier

^C Economic Profit Subcomponent: $\$120,000 \times 10\% \times 200\%$ performance multiplier
Individual Performance Component: $\$30,000 \times 100\%$ performance multiplier = $\$30,000$

Total Cash Incentive Awarded: $\$120,000 + \$30,000 = \$150,000$

During fiscal 2015, for purposes of the 2015 MIP, the Company recorded revenue of \$541.8 million, operating margin of 9.6% and economic profit (loss) of \$(8.8) million. Based on these results, the overall Company Financial Performance Component payout percentage was 78% based on subcomponent payout percentages of 90%, 82% and 0% for each of the revenue (50%), operating margin (40%) and economic profit

Table of Contents

(10%) subcomponents, respectively. The payout percentage for certain market financial performance components for Named Executive Officers ranged from 83% to 148%. At a meeting in October 2015, the Committee verified the attainment of these measures used for the Financial Performance Component of the 2015 MIP. In addition, after the conclusion of fiscal 2015, Mr. Parod recommended scores to the Committee for each Named Executive Officer under the Individual Performance Component of the 2015 MIP. The Committee then discussed and approved those scores, determining that the Named Executive Officers were entitled to performance multipliers under the Individual Performance Component of the 2015 MIP ranging from 72% to 88%.

Long-Term Incentive Compensation. Long-term incentive compensation is designed to reward the achievement of longer-term strategic objectives and align the financial interests of the Company's executive officers with those of the Company's stockholders. For fiscal 2015, the Committee approved a target dollar amount for the long-term incentive award for each of the Company's Named Executive Officers and allocated one third of that award in the form of performance stock units (PSUs), one third in the form of restricted stock units (RSUs) and one third in the form of nonqualified stock options. The PSUs, RSUs and stock options were granted pursuant to the Company's 2010 Long-Term Incentive Plan, which was approved by the stockholders at the Company's annual stockholder meeting in January 2010. The Committee believes that this mix of PSUs, RSUs and stock options will continue to promote sustained long-term performance, goal alignment and retention.

In determining the number of PSUs, RSUs and stock options granted to the Named Executive Officers as part of their long term incentive compensation for fiscal 2015, the Committee first established a dollar value of the total long-term incentive awards to be awarded to each Named Executive Officer assuming they achieved target performance levels for the PSUs. With assistance from Fairient's recommendations, the Committee established total long-term incentive award amounts as follows:

Mr. Parod	\$1,000,000
Mr. Raabe	\$385,000
Mr. Downing	\$300,000
Mr. Ruffalo	\$225,000

The dollar value of the total long-term incentive awards for each Named Executive Officer above is approximately at the median level indicated in the Fairient competitive market data for that officer with adjustments to reflect the relative size and scope of responsibilities and other internal pay equity reasons. For each Named Executive Officer, the dollar value was divided into thirds, with one third representing an RSU award, one third representing a PSU award and one third representing a stock option award.

The dollar values allocated to PSUs and RSUs were divided by the closing sale price of the Company's common stock on the grant date (\$83.53 as of October 24, 2014) to convert those dollar values into total numbers of stock units initially awarded to each Named Executive Officer. While the dollar value of PSUs was based upon a payout ratio of 100%, the actual PSU payout ratio may be as low as 0% if the Company fails to meet the threshold performance level for both performance measures. Alternatively, the PSU payout ratio may be as high as 200% if the Company meets or exceeds the maximum performance level for both performance measures. The dollar values allocated to stock options were converted to a number of stock options by using the Black-Scholes option pricing formula on the grant date.

Under the terms of the individual award agreements, both the PSUs and RSUs awarded to Named Executive Officers for fiscal 2015 are payable in common stock and provide the Named Executive Officers with special cash dividend equivalents which entitle them to receive any special cash dividend paid by the Company while the PSUs and RSUs are outstanding; provided, however, that any special cash dividend equivalents will be converted into additional units

and will not be payable until all applicable vesting and performance conditions have been met. No cash payment or dividend equivalent will be payable in connection with any regular quarterly dividends. In addition, awards under the PSUs, RSUs and stock options are subject to certain anti-dilution adjustments in the event of a stock split, stock dividend, merger or other similar corporate transaction. The

Table of Contents

Committee has adopted a policy regarding the timing of grants of PSUs, RSUs and stock options to employees which generally provides that such grants will be made on an annual basis during the first quarter or at the beginning of the second quarter of the fiscal year and at least two business days after the Company has issued its full-year earnings release for the prior fiscal year.

Each of the PSUs and RSUs has a three-year vesting period. The PSUs awarded during fiscal 2015 will not become realizable until fiscal 2018. At that point, depending upon the Company's performance over the three-year period, the PSUs will either convert into a specified number of shares of the Company common stock or become worthless. The Committee selected a three-year performance period because measuring performance over a long period would be less affected by cyclical variations in the Company's business and one-time events. The Committee felt that a three-year period was commonly used by similar companies for this reason. The RSUs awarded during fiscal 2015 will ratably vest over the same three-year period, with one third of the RSUs converting into Company common stock on November 1 in each fiscal year following the grant date, provided that the Named Executive Officer continues his employment with the Company. Nonqualified stock options vest ratably over a four-year period, provided that the Named Executive Officer continues his employment with the Company, and expire 10 years after the grant date.

The specific terms of the PSU, RSU and stock option grants made to the Named Executive Officers for fiscal 2015 are as follows:

Performance Stock Unit (PSU) Awards. For the previously discussed reasons, the Committee determined that one third of the long-term incentive award granted to each Named Executive Officer would consist of PSUs. PSUs represent a right to receive a certain target number of shares of the Company's common stock at a specified time in the future if certain performance objectives have been met during the specified performance period leading up to the payout of the PSU. PSUs are, therefore, designed to reward achievement of specific performance objectives over this period. Historically, the Compensation Committee has awarded PSUs with a threshold payout of 50% of the target number and a maximum payout of 200% of the target number. In addition to requiring satisfaction of the applicable threshold performance levels, PSUs are only payable if the recipient remains employed with the Company until payout occurs after the end of the performance period (or under certain circumstances involving a change in control, death or complete disability, as discussed in the Termination Payments section below).

Each PSU awarded in fiscal 2015 has a three-year performance period running through the end of fiscal 2017 (i.e. August 31, 2017) and will vest on November 1, 2017. Consistent with prior years, the Committee chose Revenue Growth and Return on Net Assets (RONA) as the performance measures to be used to determine PSU payouts for the three-year performance period. The Committee previously considered several performance measures, including measures that were tied to the Company's stock price or the accomplishment of specific performance objectives, but decided against using stock price as a performance measure because it felt that such a plan would be susceptible to distortion from the cyclical nature of the Company's business. Likewise, the Committee decided against the use of other performance objectives because of the difficulty in correlating such objectives to stockholder value. While revenue is also used as a component of the Company's annual cash incentive award, the Committee believed that top line revenue is an appropriate metric for both short-term and long-term performance. The annual cash incentive program is based on performance against the Company's annual budget, while PSUs are focused on cumulative revenue growth over a three-year period. Considering the cyclical nature of the Company's business, the Committee believed this mix of short-term and long-term targets provides a balanced focus on top-line revenue growth. Additionally, each of the annual cash incentive and long-term incentive programs utilize other performance measures that incentivize profitability, with revenue only accounting for a 40% weighting for the annual cash incentive program (50% of the financial performance component which accounts for 80% of total annual cash incentive award) and Revenue Growth only accounting for a 50% weighting for the PSU awards.

Ultimately, the Committee chose to base PSU payouts on Revenue Growth and RONA because it determined that there was a reasonable relationship between these performance measures and stockholder value.

Table of Contents

Additionally, these performance measures could be easily quantified and calculated for the purposes of determining whether the Company had met the necessary performance requirements. The Committee assigned equal weighting to Revenue Growth and RONA for purposes of determining PSU payouts in order to drive profitable growth and focus on appropriate asset management. Additionally, the Committee was concerned that considering RONA alone could create an incentive for Named Executive Officers to unnecessarily dispose of assets in order to manage the denominator and inflate the Company's RONA and thereby increase their PSU payout. To prevent such an occurrence, the Committee decided to use both RONA and Revenue Growth as performance measures and to weight them equally. Although the Committee feels that Revenue Growth and RONA reasonably approximate the connection between executive performance and stockholder value, future developments could possibly prompt the Committee to make subsequent PSU awards according to different performance measures.

Revenue Growth is calculated according to cumulative revenue growth as opposed to average annual revenue growth in order to minimize the year-to-year distortion that can result from short-term cyclical changes in revenue growth. For purposes of measuring performance, the target annual Revenue Growth rate is converted into a cumulative revenue amount which will be computed as the sum of all revenue generated during the three-year performance period assuming the target annual growth rate. Actual performance will be calculated as the sum of the Company's actual consolidated operating revenues during the three-year performance period in comparison to the target amount of cumulative revenue.

RONA is calculated in the following manner:

Net Income

(Average*Total Assets - Average*Current Liabilities + Average*Current Portion of Long-Term Debt)

* - These averages will be computed using the beginning and ending amounts of Total Assets, Current Liabilities, and Current Portion of Long-Term Debt for the applicable fiscal year.

For the purposes of calculating Revenue Growth and RONA, any acquisitions made by the Company and revenues, expenses or assets associated with such acquisitions are excluded in the fiscal year of the acquisition, but will be fully included during every year thereafter.

The Committee has established the following three-year average performance measures for Revenue Growth and RONA for the PSUs awarded in fiscal 2015:

	Annual Revenue Growth (50% weight)	RONA (50% weight)	Cumulative Payout as % of Target
Maximum	15%	16%	200%
Target	10%	12%	100%
Threshold	6%	9%	50%

Table of Contents

The Revenue Growth and RONA performance measures are weighted equally and will be independently calculated and paid if the defined threshold for such performance measure is achieved, even if the threshold for the other performance measure is not achieved. The payout for the PSUs will be determined by the actual performance measured against the performance goals for each performance measure. At the threshold level for both performance measures each PSU will have a payout ratio of 50%, and this ratio increases to 100% if the target level is achieved for both performance measures and 200% if the maximum level is achieved for both performance measures. The Committee determined that the payout ratio of 200% used at the maximum level for both performance measures was appropriate because it believed the maximum levels were aggressive goals that would be difficult to achieve. Payout factors will be linearly interpolated when actual performance results fall between the threshold, target and maximum levels.

The Committee is also entitled to adjust the conversion calculation in order to reduce (but not increase) the amount of stock awarded to take into account any unanticipated events including, but not limited to, extraordinary or nonrecurring items, changes in tax laws, changes in generally accepted accounting principles, impacts of discontinued operations and restatements of prior period financial results.

The following is an example of how the payout of PSUs would be calculated for a hypothetical executive officer who received a total award of 1,000 PSUs in fiscal 2015.

Assume that the Company achieves (i) cumulative revenue for the three-year performance period equal to the cumulative revenue that would have been generated at a target annual revenue growth rate of 10%, and (ii) three-year average RONA at the 9% threshold level. Accordingly, the executive's 1,000 PSUs will convert into 750 shares of common stock on the vesting date of November 1, 2017, calculated as follows:

PSU Payout Calculation: 500 shares^A + 250 shares^B = 750 shares

^A Revenue Growth Subcomponent: 1,000 PSUs x 50% weighting x 100% performance multiplier (target)

^B RONA Subcomponent: 1,000 PSUs x 50% weighting x 50% performance multiplier (threshold)

In the event of a change in control of the Company, the PSUs will convert into an amount of Company common stock that is pro-rated to account for the amount of time the Named Executive Officers held the PSUs prior to the change of control transaction and will be paid out based on the probable or expected level of Revenue Growth and RONA at the time of the change in control. If any of the Company's financial statements are restated before the payout of PSUs as the result of errors, omissions or fraud, for any fiscal year during the three-year performance period, such restated results will be used to recalculate any PSU conversions made at the expiration of the performance period.

Restricted Stock Unit (RSU) Awards. For the previously discussed reasons, the Committee determined that one third of each Named Executive Officer's long-term incentive award should consist of RSUs. RSUs represent a right to receive a certain number of shares of the Company's common stock at a specified time in the future, but are not conditioned upon achieving any specific performance objectives, and are only payable if the recipient remains employed by the Company at the end of the vesting period leading up to the payout of the RSU (or under certain circumstances involving a change in control, death or complete disability, as discussed in the Termination Payments section below). RSUs are designed primarily to encourage retention of executive officers and key employees.

The RSUs awarded in fiscal 2015 vest according to a three-year schedule, with one-third of the RSUs vesting on November 1 of each fiscal year following the fiscal year of their award contingent upon the Named Executive Officer's continued employment with the Company. Upon vesting, each RSU converts into a share of the Company's common stock. Accordingly, if a Named Executive Officer received 1,500 RSUs for fiscal 2015

Table of Contents

and remained employed with the Company, 500 of those RSUs would convert into 500 shares of common stock on November 1, 2015. Another 500 RSUs would convert into 500 shares of common stock on November 1, 2016, and then the final 500 RSUs would convert into 500 shares of common stock on November 1, 2017. All RSUs granted in fiscal 2015 will fully vest upon a change in control of the Company.

Nonqualified Stock Option Awards. For the previously discussed reasons, the Committee determined that one third of each Named Executive Officer's long-term incentive award should consist of nonqualified stock options. Nonqualified stock options represent an option to purchase shares of the Company's common stock at an option price equal to the closing price on the New York Stock Exchange of the Company's common stock on the grant date. Stock options have a 10-year term and will vest ratably (one-fourth each year) on November 1 of the next four calendar years following the grant date (or under certain circumstances involving a change in control, death or complete disability, as discussed in the Termination Payments section below). The stock options are designed to motivate executives to increase stockholder value as the stock options will only have value if our stockholders also benefit from increasing stock prices.

The nonqualified stock options awarded in fiscal 2015 have an option price of \$83.53 (which is equal to the closing price on the New York Stock Exchange of the Company's common stock on the grant date) and will vest ratably (one-fourth each year) on November 1 of the next four calendar years following the grant date. Vesting is contingent upon the Named Executive Officer's continued employment with the Company. No stock option may be exercised more than 10 years from the date of grant. All stock options granted in fiscal 2015 will fully vest upon a change in control of the Company.

Fiscal 2013-2015 Performance. The end of fiscal 2015 marked the end of the three-year performance period for the PSUs awarded in fiscal 2013. For this performance period, the Company achieved three-year cumulative revenue growth of \$1,849.8 million and three-year average RONA of 12.9% which equated to a cumulative payout percentage of 74.0% of target. In accordance with the terms of the PSUs earned for this performance period, Mr. Parod was issued 3,259 shares of common stock (resulting from 4,404 PSUs awarded in fiscal 2013), Mr. Raabe was issued 912 shares of common stock (resulting from 1,233 PSUs awarded in fiscal 2013), and Mr. Downing was issued 651 shares of common stock (resulting from 880 PSUs awarded in fiscal 2013). No payouts have yet been earned with respect to the PSUs awarded in fiscal 2014 and fiscal 2015 which have three-year performance periods ending at the end of fiscal 2016 and fiscal 2017, respectively.

Committee's View on Executive Stock Ownership. The Committee intends that annual grants of long-term incentive awards will create a layering effect that will provide constant motivation and alignment of executive and stockholder interests extending into the future and will support executive retention. In December 2014, the Board adopted formal stock ownership guidelines applicable to all members of senior management. Each Named Executive Officer is expected to reach his respective ownership requirement within seven years after the date of his appointment as an officer. In addition to shares owned by the executive, outstanding RSUs and in-the-money stock options, net of taxes and exercise price, are counted toward the ownership requirement. PSUs are not counted toward the ownership requirement until they are earned, vested and distributed to the executive. The following table sets forth the applicable stock ownership guideline for each Named Executive Officer and the current ownership multiple for such officer as of December 1, 2015. Mr. Ruffalo has been intentionally omitted given his departure from the Company.

Anti-Pledging/Hedging Policy. The Board has adopted a policy prohibiting directors and executive officers from pledging Company securities as collateral for any outstanding obligation or entering into any transactions designed to hedge or offset any decrease in the market value of Company securities.

Other Employee Benefits. The Company also provides certain other benefits to its Named Executive Officers in the normal course of business as appropriate to be competitive with market practice. In addition to this standard benefits package, Named Executive Officers are provided supplemental life insurance coverage. Also, during fiscal 2015, Mr. Parod received a taxable car allowance of \$2,000 per month according to the terms of his employment agreement. Other benefits provided to the Named Executive Officers are generally those which are available to all employees of the Company, such as participation in Company sponsored health and dental insurance, life insurance and disability benefits. The Company and employee participants share in the cost of these programs. The Company also maintains a qualified 401(k) retirement plan to which the Company makes matching contributions corresponding to employee contributions. The Company's Named Executive Officers are eligible to participate in each of these employee benefit plans.

Termination Payments. The Company is party to arrangements with its Named Executive Officers that provide for termination payments under several possible scenarios, including payments that are triggered by a change in control of the Company. As of the end of fiscal 2015, all outstanding equity awards would be treated as follows in the event of a change in control:

All stock options issued to the Named Executive Officers, as well as to other employees of the Company, are subject to immediate vesting in connection with a change in control transaction.

In the event of a change in control of the Company, outstanding PSUs will convert into an amount of Company common stock that is pro-rated to account for the amount of time the Named Executive Officers held the PSUs prior to the change in control transaction and will be paid out based on the probable or expected level of Revenue Growth and RONA at the time of the change in control.

Any outstanding RSUs will fully vest upon a change in control.

Beginning in fiscal 2016 under the Company's new 2015 Long-Term Incentive Plan, there will be no acceleration of vesting of RSUs and options upon a change in control unless (i) such awards are not assumed or substituted by the acquirer or (ii) the acquirer's securities are not publicly traded in the United States, in which case, vesting would be fully accelerated.

The Company has entered into employment agreements with each Named Executive Officer which do provide for certain additional compensation to them if their employment with the Company is terminated without cause. In the case of Mr. Parod, he will be entitled to receive a lump sum payment equal to 3.2 times his annual salary if his employment is terminated without cause prior to a change in control (or a pro-rated target bonus for the portion of the fiscal year in which his termination occurs and a lump sum payment equal to three times his annual salary and target bonus if his employment is terminated without cause or if he terminates his employment for good reason within two years following a change in control). In the case of Messrs. Downing and Raabe, each of them will be entitled to receive a lump sum payment equal to one times his annual salary if his employment is terminated without cause prior to a change in control or one times his annual salary plus target bonus if his employment is terminated without cause or if he terminates his employment for good reason within one year following a change in control. The termination

provisions contained in Mr. Parod's employment agreement were specifically negotiated between the Company and Mr. Parod at the time he joined the Company and were considered necessary in order to attract and retain him. In fiscal 2010, the Company modified the definition of separation payment under Mr. Parod's employment agreement from two times annual salary and target bonus to 3.2 times annual salary (which is the economic equivalent of the prior arrangement) to avoid potential issues with the deductibility of annual bonus payments under Section 162(m) of the Internal Revenue Code, as amended. All termination provisions are designed to provide these executive officers with cash to provide for their living expenses in situations where their employment was not terminated voluntarily or for cause.

Table of Contents

The following tables set forth the estimated amount of the benefits that each of the Named Executive Officers would have received under a variety of hypothetical termination and change in control scenarios. Mr. Ruffalo's employment with the Company terminated on March 9, 2015. Mr. Ruffalo is therefore intentionally omitted from the following tables. All of the information presented in the following tables is provided for illustrative purposes only.

TERMINATION SCENARIOS NOT INVOLVING A CHANGE IN CONTROL

Name	Termination of NEO's employment agreement by the Company without Cause occurring on August 31, 2015:		Termination of NEO's employment agreement by reason of the NEO's death or disability occurring on August 31, 2015:		
	Cash Payment (\$) ⁽¹⁾	Accelerated Equity Awards (\$) ⁽²⁾	Cash Payment (\$)	Death/Disability Benefit (\$) ⁽⁴⁾	Accelerated Equity Awards (\$) ⁽⁵⁾
Richard W. Parod	\$2,048,000	-	\$512,000 ⁽³⁾	\$1,500,000	\$1,346,779
James C. Raabe	\$340,000	-	-	\$840,000	\$461,681
David B. Downing	\$350,000	-	-	\$850,000	\$314,143

⁽¹⁾ These amounts represent the payments that the Named Executive Officers (NEOs) would receive under their employment agreements if the Company should terminate their employment without Cause prior to a Change in Control (each as defined in the applicable employment agreement).

⁽²⁾ The NEOs' RSU and PSU award agreements both require that an NEO must remain employed with the Company on the scheduled RSU and PSU vesting date. In this scenario, if an NEO's employment with the Company were to terminate on August 31, 2015, then that NEO would automatically forfeit the entirety of his previously issued and outstanding RSUs and PSUs.

(3) In the event of Mr. Parod's death or complete disability, his employment agreement entitles his estate or him to a pro-rated target bonus for the portion of the fiscal year which he completed prior to his death or disability. The amount shown represents the amount which Mr. Parod or his estate would be entitled to receive if his employment was terminated as a result of his death or permanent disability on August 31, 2015.

(4) These amounts represent the amount of life insurance benefits that the NEO's designated beneficiaries would receive upon the NEO's death under life insurance coverage provided by the Company. The amounts do not include any additional benefits which might be paid out under supplemental coverage purchased by the NEOs on their own accord through the Company. The Company also provides disability insurance for the NEOs. In the event of a complete disability, the NEOs would first receive six months of short term disability benefits through regular payroll equal to 75% of their base salary. The disabled NEOs would then receive monthly long term payments equal to 66.7% of their monthly base salary capped at \$12,500 a month, continuing until they reach age 65.

(5) These amounts represent (i) the value of PSU and RSU awards which would convert into shares of Company common stock, and (ii) the in-the-money value of unvested stock options that would vest following the termination of an NEO's employment as a result of the NEO's death or complete disability. These amounts do not include the value of stock options that had already vested prior to the triggering event. Following a termination as a result of death or complete disability, (i) unvested stock options will become fully vested, (ii) outstanding RSUs will automatically convert into one share of Company common stock, and (iii) outstanding PSUs will convert into an amount of Company common stock that is pro-rated to account for the amount of time the Named Executive Officers held the PSUs prior to termination by reason of death or complete disability and will be paid out based on the probable or expected level of Revenue Growth and RONA at the time of termination by reason of death or complete disability. For illustrative purposes, these amounts were calculated assuming that the Company would have achieved a target level performance during the period prior to the termination by death or complete disability and that it would be probable and expected following the termination for the Company to continue that target performance for the remainder of the PSUs award period. These amounts were calculated using the \$76.23 closing price of the Company's common stock on the assumed date of termination by reason of death or complete disability of August 31, 2015.

Table of Contents**CHANGE IN CONTROL SCENARIOS**

Scenario 1 The Company undergoes a Change in Control on August 31, 2015, where the Company does not terminate the NEO's employment without Cause and the NEO does not terminate his employment with Good Reason.

Scenario 2 The Company undergoes a Change in Control on August 31, 2015 and on that same date the Company either terminates the NEO's employment without Cause or the NEO terminates his employment with Good Reason.

These amounts do not include the value of stock options that had already vested prior to the triggering event. Following a Change in Control, (i) unvested stock options will become fully vested, (ii) outstanding RSUs will automatically convert into one share of Company common stock, and (iii) outstanding PSUs will convert into an amount of Company common stock that is pro-rated to account for the amount of time the Named Executive Officers held the PSUs prior to the Change in Control transaction and will be paid out based on the probable or expected level of Revenue Growth and RONA at the time of the Change in Control. For illustrative purposes, these amounts were calculated assuming that the Company would have achieved a target level performance during the period prior to the

Change in Control and that it would be probable and expected following the Change in Control for the Company to continue that target performance for the remainder of the PSUs award period. These amounts were calculated using the \$76.23 closing price of the Company's common stock on the assumed Change in Control date of August 31, 2015.

(2) These amounts represent the payments that each NEO would receive under his employment agreement if the Company should terminate his employment without Cause or if he should terminate his employment with Good Reason (each as defined in the applicable employment agreement) within one year (or two years with respect to Mr. Parod) following a Change in Control.

Tax Considerations. Section 162(m) of the Internal Revenue Code of 1986 imposes an annual, individual limit of \$1 million on the deductibility of the Company's compensation payments to the chief executive officer and to the three most highly compensated executive officers (other than the principal financial officer). Specified compensation is excluded for this purpose, including performance-based compensation, provided that certain conditions are satisfied. The Committee has attempted to preserve, to the extent practicable, the deductibility of all compensation payments to the Company's executive officers. With the exception of approximately \$190,000 of compensation paid to Mr. Parod, all compensation paid to covered employees is expected to be deductible under Section 162(m) for fiscal 2015. To better preserve deductibility of compensation paid to Mr. Parod, the Committee added a performance goal to Mr. Parod's individual performance objectives under the Fiscal 2016 Management Incentive Plan and the restricted stock units issued to Mr. Parod in fiscal 2016 that should be excluded in future years from the Section 162(m) calculation as performance-based compensation.

(1) These awards consist of both restricted stock units and performance stock units granted under the Company's 2010 Long-Term Incentive Plan. The restricted stock units vest 33 1/3% per year over three years and the performance stock units cliff vest on November 1 following the end of their three-year performance period. The amount shown reflects the aggregate grant date fair value computed in accordance with Financial Accounting Standards Board Accounting Standards Codification (ASC 718), Stock Compensation, assuming a payout at target for equity incentive plan awards. Assuming the maximum level of performance was achieved for the performance stock units awarded in fiscal 2015, the grant date fair value of these awards would have been: Mr. Parod, \$961,550; Mr. Raabe, \$370,161; Mr. Downing, \$288,465; and Mr. Ruffalo, \$216,168.

(2) These awards consist of stock option awards granted under the Company's 2010 Long-Term Incentive Plan. The stock options vest 25% per year over four years on November 1 of each year following the date of grant. The amounts shown reflect the grant date fair value as computed in accordance with ASC 718, Stock Compensation. The assumptions used to calculate the grant date fair value of stock option awards are included in Note R to the consolidated financial statements contained in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2015.

(3) These amounts represent annual cash incentive awards received under the Company's Management Incentive Plan for each fiscal year.

⁽¹⁾ Amounts reflect grants made under the Management Incentive Plan for fiscal 2015 (the 2015 MIP is discussed in our Compensation Discussion and Analysis section). Actual payouts earned under the program for fiscal 2015 were below target, and can be found in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.

⁽²⁾ These awards consist of performance stock units (PSUs) granted in fiscal 2015 under the Company's 2010 Long-Term Incentive Plan for the fiscal 2015 to fiscal 2017 performance period. The amounts shown equal the

aggregate number of shares of common stock into which the PSUs will convert if certain threshold, target and maximum performance objectives are met.

(3) These awards consist of restricted stock units (RSUs) granted in fiscal 2015 under the Company's 2010 Long-Term Incentive Plan. The amounts shown equal the aggregate number of shares of common stock into which the restricted stock units will convert if the grantee maintains his employment with the Company for the entire vesting period. These RSUs vest according to a three-year schedule, with one-third of the RSUs vesting on November 1 of each fiscal year following the fiscal year of the award.

(4) These awards consist of stock options granted in fiscal 2015 under the Company's 2010 Long-Term Incentive Plan. The amounts shown equal the aggregate number of shares of common stock into which the stock options will convert if the grantee maintains his employment with the Company for the entire vesting period. These options vest according to a four-year schedule, with one-fourth of the options vesting on November 1 of each fiscal year following the fiscal year of the award.

(5) The exercise price is the closing price of the Company's common stock on October 24, 2014, the date of grant.

(6) Amounts are computed in accordance with ASC 718, *Stock Compensation*. Performance stock units are valued assuming a payout at target. The assumptions used to calculate the grant date fair value of stock option awards are included in Note R to the consolidated financial statements contained in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2015.

Table of Contents

The following table sets forth information concerning unexercised options, stock that has not vested and equity incentive plan awards for each of the Company's Named Executive Officers that were outstanding as of the end of the last completed fiscal year. Mr. Ruffalo is intentionally omitted from this table since his employment with the Company terminated on March 9, 2015, resulting in no outstanding equity awards at fiscal year-end.

These performance stock units cliff vest on November 1 following the end of their respective three-year performance period. Each performance stock unit converts into one share of common stock if target levels of performance are achieved, but may ultimately convert into a larger or smaller amount of stock depending upon actual performance achieved over the relevant three-year performance period.

⁽³⁾ The market value of unearned shares is calculated using \$76.23 per share, which is the closing market price of the Company's common stock on the NYSE on the last day of fiscal 2015.

The value realized upon vesting was calculated by multiplying the number of vesting restricted stock units by the \$87.70 closing price of the Company's common stock on November 1, 2014.

Pension Benefits

The Company does not provide for any defined benefit and actuarial pension plans for its Named Executive Officers. Accordingly no tabular disclosure is being provided under this heading.

Nonqualified Deferred Compensation

The Company does not provide for any deferred compensation arrangements for its Named Executive Officers. Accordingly no tabular disclosure is being provided under this heading.

Compensation of Directors

In addition to the regular compensation reviews that the Committee conducts for the executive officer compensation program (as discussed in the Compensation Discussion and Analysis), the Committee also evaluates the Company's compensation program for its Board of Directors. The Committee recommended that no changes be made to the Board compensation program for fiscal 2015.

For fiscal 2015, Directors who were not employees of the Company received annual cash retainers of \$60,000. Members of the Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee received an additional cash retainer of \$5,000, \$3,000 and \$2,000, respectively. In addition, for fiscal 2015, the Chairman of the Board of Directors received \$45,000 for serving in that capacity, the Chairman of the Audit Committee received \$10,000 for serving as such Chairman, the Chairman of the Compensation Committee received \$8,000 for serving as such Chairman, and the Chairman of the Corporate Governance and Nominating Committee received \$5,000 for serving as such Chairman. Directors are reimbursed for expenses they incur in attending meetings and are reimbursed for attending continuing education programs up to \$5,000 per year or as otherwise approved by the Chairman of the Board of Directors.

Table of Contents

Additionally, for fiscal 2015, each non-employee director received an annual grant of restricted stock units with an award value of \$70,000 with the award being made on the date of the Annual Meeting. The number of restricted stock units to be awarded is based on the closing price of the Company's common stock on the grant date, and the restricted stock units are payable in shares of common stock under the 2010 Long-Term Incentive Plan. Accordingly on January 26, 2015, each of Messrs. Brunner, Buffett, Christodolou, Jagodinski, Nahl, Rayburn, Walter and Welsh received an award of 815 restricted stock units. The restricted stock units vested on November 1, 2015.

For fiscal 2015, new directors who are not employees of the Company would have received a one-time grant of restricted stock units with an award value equal to the prorated amount of the last annual grant of restricted stock units based on the amount of time the new director will serve on the Board of Directors until the next annual meeting of stockholders, with the grant being made on the date of their first regular Board meeting as a director. The number of units awarded would equal the prorated amount divided by the closing stock price on the date of grant. These restricted stock units vest on the earlier of November 1 following the date of grant or the date of the next annual meeting of stockholders. Mr. Rayburn joined the Board of Directors in November 2014 and received a prorated award of 150 restricted stock units which vested on January 26, 2015.

In December 2014, the Board adopted formal stock ownership guidelines applicable to both senior management and directors. Directors are expected to maintain stock ownership equal to five times the Board annual cash retainer within five years of their election as a director. In addition to shares owned by the directors, outstanding restricted stock units are counted toward the ownership requirement. With the exception of Messrs. Brunner and Rayburn, each of whom joined the Board within the past three years, all directors maintain stock ownership in excess of the Board's stock ownership guidelines.

The following table sets forth the compensation paid to the Company's directors in fiscal 2015. Mr. Parod also serves as a director, but his compensation is discussed within the various tables included within the Compensation Discussion and Analysis contained within this Proxy Statement.

(2) The award consists of restricted stock units granted in fiscal 2015 under the Company's 2010 Plan. These restricted stock units vested on January 26, 2015. As a new director in fiscal 2015, Mr. Rayburn received a one-time grant of restricted stock units with an award value equal to the prorated amount of the last annual grant of restricted stock units based on the amount of time the new director will serve on the Board of Directors until the next annual meeting of stockholders, with the grant being made on the date of their first regular Board meeting as a director. The number of units awarded was equal to the prorated amount divided by the closing stock price on the date of grant.

Compensation Committee Interlocks

and Insider Participation

During fiscal 2015, there were no compensation committee interlocks and no insider participation in compensation decisions that were required to be reported under the rules and regulations of the Securities Exchange Act of 1934, as amended.

Report of the Audit Committee

The following report of the Audit Committee shall not be deemed to be soliciting material or to be filed with the Securities and Exchange Commission, nor shall this report be incorporated by reference into any filing made by the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended.

The Audit Committee is comprised of W. Thomas Jagodinski (as Chairman), Robert E. Brunner, Michael N. Christodolou, Michael C. Nahl, and David B. Rayburn, each of whom is an independent director of the Company under the rules adopted by Securities and Exchange Commission (SEC) and the New York Stock Exchange.

The Company's management is responsible for the preparation of the Company's financial statements and for maintaining an adequate system of internal controls and processes for that purpose. KPMG LLP (KPMG) acts as the Company's independent registered public accounting firm and they are responsible for conducting an independent audit of the Company's annual financial statements and effectiveness of internal control over financial reporting in accordance with generally accepted auditing standards and issuing reports on the results of their audits. The Audit Committee is responsible for providing independent, objective oversight of both of these processes.

The Audit Committee has reviewed and discussed the audited financial statements for the year ended August 31, 2015 with management of the Company and with representatives of KPMG. Our discussions with KPMG also included the matters required to be discussed with the Audit Committee under the applicable Public Company Accounting Oversight Board (PCAOB) standards and SEC regulations.

In addition, the Audit Committee reviewed the independence of KPMG. We have discussed KPMG's independence with them and have received written disclosures and a letter from KPMG regarding their independence as required by the applicable requirements of the PCAOB and SEC regarding the independent accountant's communications with the audit committee concerning independence.

Based on the reviews and discussions described above, the Audit Committee has recommended to the full Board of Directors that the audited financial statements of the Company for the year ended August 31, 2015 be included in the Company's Annual Report on Form 10-K to be filed with the SEC.

PROPOSAL 2

RATIFICATION OF APPOINTMENT OF

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

KPMG LLP, the Company's independent registered public accounting firm since 2001, has been appointed by the Audit Committee as the independent registered public accounting firm for the Company and its subsidiaries for the fiscal year ending August 31, 2016. This appointment is being presented to the stockholders for ratification. The ratification of the appointment of the independent registered public accounting firm requires the affirmative vote of the holders of a majority of the votes cast in person or by proxy by persons entitled to vote at the Annual Meeting. Abstentions and broker non-votes will not be considered votes cast with respect to ratification of the appointment and will not be counted as votes for or against the ratification.

If stockholders fail to ratify the appointment of KPMG LLP as our independent registered public accounting firm, the Audit Committee will reconsider whether to retain KPMG LLP, but may ultimately decide to retain them. Any decision to retain KPMG LLP or another independent registered public accounting firm will be made by the Audit Committee and will not be resubmitted to stockholders. In addition, even if stockholders ratify the appointment of KPMG LLP, the Audit Committee retains the right to appoint a different independent registered public accounting firm for fiscal 2016 if it determines that it would be in the Company's best interests.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF KPMG LLP AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING AUGUST 31, 2016.

Representatives of KPMG LLP are expected to be present at the Annual Meeting and will be provided an opportunity to make a statement and to respond to appropriate inquiries from stockholders.

Accounting Fees and Services

The following table sets forth the aggregate fees for professional services rendered by KPMG for each of the last two fiscal years:

Category of Fee	Fiscal 2015	Fiscal 2014
Audit Fees ⁽¹⁾	\$1,040,721	\$982,442
Audit-Related Fees ⁽²⁾	\$27,000	\$19,000
Tax Fees ⁽³⁾	\$111,604	\$83,188
All Other Fees ⁽⁴⁾	\$868	\$27,978
Total Fees	\$1,180,192	\$1,112,608

- (1) Audit fees consist of the audit of the Company's 2015 and 2014 annual financial statements and review of the Company's quarterly financial statements during 2015 and 2014.
- (2) Audit-related fees were for audits of the Company's employee benefit plan and Form S-8.
- (3) Tax fees were for tax consultation and tax compliance services.
- (4) All other fees were for corporate compliance services.

As provided in its Charter, the Audit Committee must pre-approve all services provided to the Company by its independent auditors. The Audit Committee approved all services provided by KPMG LLP to the Company in fiscal 2015 and determined that the services listed above did not adversely affect KPMG LLP's independence in providing audit services.

PROPOSAL 3

ADVISORY VOTE ON EXECUTIVE COMPENSATION

Section 951 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act) added Section 14A to the Securities Exchange Act of 1934 which requires, among other things, that companies with publicly-traded securities, such as Lindsay, take a separate non-binding vote at their annual meeting of stockholders to consider a resolution to approve the compensation of their named executive officers as disclosed in the proxy statement for the annual meeting in accordance with SEC regulations. To that end, the Board of Directors has submitted the following resolution to be voted on by our stockholders at the Annual Meeting:

The stockholders of Lindsay Corporation hereby approve the compensation of the Company's Named Executive Officers as described in the definitive Proxy Statement relating to the Company's 2016 Annual Meeting of Stockholders, including the sections thereof entitled Executive Compensation and Compensation Discussion and Analysis.

As described in the Compensation Discussion and Analysis, the overall goal of the Company's compensation policy is to maximize stockholder value by attracting, retaining and motivating the executive officers that are critical to its long-term success. It is also the belief of our Board of Directors that executive compensation should be designed to promote both the short-term and long-term economic goals of the Company and, accordingly, an important component of our executive compensation philosophy is to closely align the financial interests of the Company's executive officers with those of the Company's stockholders. The Board and Compensation Committee have a strong focus on paying for performance, with targeted incentive compensation for our Named Executive Officers being over half of their total target compensation. **Stockholders are encouraged to carefully review the COMPENSATION DISCUSSION AND ANALYSIS and EXECUTIVE COMPENSATION sections of this Proxy Statement for a detailed discussion of our executive compensation program.**

The vote on the compensation of the Company's Named Executive Officers is non-binding and does not require the Company to make any specific changes to the compensation of its Named Executive Officers or take any other action if the resolution is not approved by our stockholders. However, our Board of Directors values and encourages constructive input from our stockholders regarding the Company's compensation philosophy, policies and practices and believes that stockholder feedback on executive compensation provided by this non-binding vote can provide our Board and Compensation Committee with useful information on investor sentiment about these important matters. Our Board of Directors and Compensation Committee will review the voting results and, to the extent there is a negative vote on this proposal, our Board of Directors expects to consider a number of steps, including consulting with significant stockholders to better understand the concerns that influenced the vote. Our Board and Compensation Committee intend to consider all constructive feedback obtained through this say-on-pay process in making future decisions regarding the compensation of the Company's Named Executive Officers.

The Company's stockholders approved the say on pay resolution presented at the Company's 2015 Annual Meeting of Stockholders by a vote of more than 97% of the votes cast on the proposal. The Compensation Committee believes the results of the 2015 say on pay vote were a confirmation that the stockholders were in general agreement with the Committee's compensation philosophy.

The proposal to approve the resolution regarding the compensation of the Named Executive Officers will be deemed to be approved if a greater number of votes cast by persons entitled to vote at the Annual Meeting are voted in favor of the resolution than are voted against the resolution. Consequently, abstentions and broker non-votes will have no effect on the outcome of the vote on this resolution.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE RESOLUTION TO APPROVE THE COMPENSATION OF THE COMPANY S NAMED EXECUTIVE OFFICERS.

Table of Contents

Stockholders and other interested parties may communicate with the Chairman of the Board of Directors, the Chairman of the Audit, Compensation or Corporate Governance and Nominating Committee, or any individual director by sending a letter to the attention of the appropriate person (which may be marked as confidential) addressed to the Secretary of the Company.
