CGG Wins Multi-Year Dedicated Center Contract for Brunei Shell Petroleum

Paris, France February 21, 2017

CGG announced today that it has been awarded a contract by Brunei Shell Petroleum to operate a dedicated processing center (DPC) at its Seria office in Brunei Darussalam. The contract will run for a period of six years, from 1 January 2017 to 31 December 2022.

Under the terms of the contract, CGG will deliver the full scope of processing services for 2D, 3D and 4D seismic data acquired onshore and offshore Brunei, ranging from field data processing to advanced pre-stack depth imaging, using advanced processing and subsurface imaging technology.

In addition, CGG will add value to Local Business Development by committing to recruit and develop local geoscience-related personnel and execute business opportunities locally.

Jean-Georges Malcor, CEO, CGG, said: For many decades, CGG has been a leading provider of DPCs to E&P companies around the world, including Shell. During this time, our reputation as an excellent service and technology partner has been strongly established and we are very pleased that this has led to our selection for this major DPC award in the APAC region. We look forward to our in-house processing expertise bringing Brunei Shell Petroleum significant benefits in terms of faster project turnaround time and informed E&P decision-making to achieve their business objectives.
