PART I - FINANCIAL INFORMATION

ITEM 1 - FINANCIAL STATEMENTS

A. O. SMITH CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2017

(unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Accordingly, they do not include all of the information and footnotes required for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2017 are not necessarily indicative of the results expected for the full year. It is suggested that the accompanying condensed consolidated financial statements be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016 filed with the SEC on February 17, 2017.

Recent Accounting Pronouncements

In May 2017, the Financial Accounting Standards Board (FASB) amended Accounting Standards Codification (ASC) 718, *Compensation - Stock Compensation* (issued under Accounting Standards Update (ASU) 2017-09, *Scope of Modification Accounting*). This amendment clarifies when changes to the terms or conditions of share-based payment awards must be accounted for as a modification. Under this amendment, modification accounting must be used if three conditions are met: the fair value changes, the vesting conditions change, or the classification of the award changes due to the changes in terms or conditions. The amendment requires adoption on January 1, 2018 and permits early adoption. The Company does not expect that the adoption of ASU 2017-09 will have a material impact on its consolidated balance sheets, statements of earnings or statements of cash flows.

In March 2017, the FASB amended ASC 715, *Compensation - Retirement Benefits* (issued under ASU 2017-07, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*). This amendment changes the way net periodic benefit cost associated with employer-sponsored defined benefit plans is presented in the income statement. Under the amendment, the service cost component of net periodic benefit cost is included in the same lines in the income statement as other employee compensation costs and the other components of net periodic benefit cost must be presented separately outside of income from operations. The amendment requires adoption on January 1, 2018. The Company does not expect the adoption of ASU 2017-07 to have a material impact on its consolidated balance sheets, statements of earnings or statements of cash flows.

In January 2017, the FASB amended ASC 350, *Intangibles – Goodwill and Other* (issued under ASU 2017-04, *Simplifying the Test for Goodwill Impairment*). The amendment simplifies the test for goodwill impairment by only requiring an entity to perform an annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount and recognize an impairment charge for the amount that the carrying amount exceeds the reporting unit's fair value. Any loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. The amendment requires adoption on January 1, 2020. The Company does not expect that the adoption of ASU 2017-04 will have a material impact on its consolidated balance sheets, statements of earnings or statements of cash flows.

Table of Contents**1. Basis of Presentation (continued)**

In October 2016, the FASB amended ASC 740, *Income Taxes* (issued under ASU 2016-16). This amendment requires that the income tax consequences of an intra-entity transfer of an asset other than inventory be recognized when the transfer occurs. The amendment requires adoption on January 1, 2018. This amendment is required to be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings. The Company does not expect the adoption of amended ASU 2016-16 will have a material impact on its consolidated balance sheets, statements of earnings or statements of cash flows.

In August 2016, the FASB amended ASC 230, *Statement of Cash Flows* (issued under ASU 2016-15, *Clarification of Certain Cash Receipts and Cash Payments*). This amendment clarifies reporting for contingent consideration payments made after a business combination depending on how soon after the acquisition the payments are made. The amendment requires adoption on January 1, 2018 and permits early adoption. The Company does not expect the adoption of ASU 2016-15 will have a material impact on its consolidated balance sheets, statements of earnings or statements of cash flows.

In February 2016, the FASB amended ASC 842, *Leases* (issued under ASU 2016-02). This amendment requires the recognition of lease assets and lease liabilities on the balance sheet for most leasing arrangements currently classified as operating leases. This amendment requires adoption on January 1, 2019 and permits early adoption. The Company is in the process of determining whether the adoption of ASU 2016-02 will have a material impact on its consolidated balance sheets, statements of earnings or statements of cash flows.

In May 2014, the FASB issued ASC 606-10, *Revenue from Contracts with Customers* (issued under ASU 2014-09). ASU 2014-09 will replace all existing revenue recognition guidance when effective. In July 2015, the FASB approved a one-year deferral of the effective date resulting in required adoption on January 1, 2018. The Company is completing its review of its customer contracts and its analysis of the impact of the disclosure requirements of ASU 2014-09. The Company does not anticipate that its pattern of revenue recognition will change as a result of the adoption of the new guidance. The Company expects to utilize the full retrospective method of adoption and does not expect the adoption of ASU 2014-09 to have a material impact on its consolidated balance sheets, statements of earnings or statements of cash flows.

2. Acquisitions

On August 8, 2016, the Company acquired 100 percent of the shares of Aquasana, Inc. (Aquasana), a Texas-based water treatment company. With the addition of Aquasana, the Company entered the U.S. water treatment market. Aquasana is included in the Company's North America segment for reporting purposes.

The Company paid an aggregate cash purchase price of \$85.1 million, net of \$1.9 million of cash acquired. In addition, the Company incurred acquisition-related costs of approximately \$1.2 million and recorded a holdback liability to satisfy any potential obligations of the former owners of Aquasana to pay any adjustments to the purchase price. As of the acquisition date and June 30, 2017, the fair value of the holdback liability was \$1.7 million. The Company expects to pay the holdback liability in full to the former owners of Aquasana in the third quarter of 2017.

Table of Contents**2. Acquisitions (continued)**

The following table summarizes the allocation of the fair value of the assets acquired and liabilities assumed at the date of acquisition. The \$30.0 million of acquired intangible assets was comprised of \$21.5 million of trade names that are not subject to amortization, \$8.3 million of customer lists being amortized over ten years and \$0.2 million of patents being amortized over five years.

August 8, 2016 (dollars in millions)	
Current assets, net of cash acquired	\$ 7.3
Property, plant and equipment	2.7
Intangible assets	30.0
Goodwill	60.4
 Total assets acquired	 100.4
Current liabilities	(7.1)
Long-term liabilities	(8.2)
 Total liabilities assumed	 (15.3)
 Net assets acquired	 \$ 85.1

The acquisition was accounted for using the purchase method of accounting, and accordingly, the results of operations have been included in the Company's consolidated financial statements from August 8, 2016, the date of acquisition.

On August 26, 2016, the Company acquired certain assets, primarily inventory, and assumed a lease of a small electric water heater manufacturer serving the North America market. The Company paid a cash purchase price of \$5.7 million for the assets. Under the purchase agreement, the Company agreed to make additional contingent payments related to the acquired assets if certain conditions are met over the next ten years. As of the acquisition date and June 30, 2017, the Company estimated the fair value of the contingent payments at \$5.2 million and has a liability recorded for the contingent consideration of that amount.

3. Inventories

The following table presents the components of the Company's inventory balances:

(dollars in millions)		
	June 30, 2017	December 31, 2016
Finished products	\$ 138.5	\$ 114.1
Work in process	17.1	13.0
Raw materials	150.1	142.4
 Inventories, at FIFO cost	 305.7	 269.5

Edgar Filing: SMITH A O CORP - Form 10-Q

LIFO reserve	(18.7)	(18.4)
Net inventory	\$ 287.0	\$ 251.1

Table of Contents**4. Product Warranties**

The Company offers warranties on the sales of certain of its products and records an accrual for the estimated future claims. The following table presents the Company's warranty liability activity.

(dollars in millions)	Three Months Ended June 30,	
	2017	2016
Balance at April 1,	\$ 142.6	\$ 140.6
Expense	8.0	12.0
Claims settled	(9.8)	(11.1)
Balance at June 30,	\$ 140.8	\$ 141.5

(dollars in millions)	Six Months Ended June 30,	
	2017	2016
Balance at January 1,	\$ 140.9	\$ 139.4
Expense	20.4	24.4
Claims settled	(20.5)	(22.3)
Balance at June 30,	\$ 140.8	\$ 141.5

5. Long-Term Debt

The Company has a \$500 million multi-year multi-currency revolving credit agreement with a group of nine banks, which expires on December 15, 2021. The facility has an accordion provision which allows it to be increased up to \$700 million if certain conditions (including lender approval) are satisfied.

Borrowings under bank credit lines and commercial paper borrowings are supported by the \$500 million revolving credit agreement. As a result of the long-term nature of this facility, the Company's commercial paper and credit line borrowings are classified as long-term debt at June 30, 2017. At its option, the Company either maintains cash balances or pays fees for bank credit and services.

On November 28, 2016, the Company issued an aggregate of \$45 million in term notes in two tranches to two insurance companies. Principal payments commence in 2023 and 2028 and the notes mature in 2029 and 2034, respectively. The notes have interest rates of 2.87 percent and 3.10 percent, respectively. The proceeds received from the issuance of the notes were used to pay down borrowings under the Company's revolving credit facility.

Table of Contents**6. Earnings per Share of Common Stock**

The numerator for the calculation of basic and diluted earnings per share is net earnings. The following table sets forth the computation of basic and diluted weighted-average shares used in the earnings per share calculations:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Denominator for basic earnings per share weighted average shares	172,992,419	174,961,720	173,185,177	175,327,862
Effect of dilutive stock options and share units	1,897,030	2,037,000	1,968,347	2,076,784
Denominator for diluted earnings per share	174,889,449	176,998,720	175,153,524	177,404,646

7. Stock Based Compensation

The Company adopted the A. O. Smith Combined Incentive Compensation Plan (the Plan) effective January 1, 2007. The Plan was reapproved by stockholders on April 16, 2012. The Plan is a continuation of the A. O. Smith Combined Executive Incentive Compensation Plan which was originally approved by stockholders in 2002. The number of shares available for granting of options or share units at June 30, 2017 was 2,895,234. Upon stock option exercise or share unit vesting, shares are issued from treasury stock.

Total stock based compensation expense recognized in the three months ended June 30, 2017 and 2016 was \$1.3 million and \$1.8 million, respectively. Total stock based compensation recognized in the six months ended June 30, 2017 and 2016 was \$7.2 million and \$6.9 million, respectively.

Stock Options

The stock options granted in the six months ended June 30, 2017 and 2016 have three year pro rata vesting from the date of grant. Stock options are issued at exercise prices equal to the fair value of the Company's Common Stock on the date of grant. For active employees, all options granted in 2017 and 2016 expire ten years after date of grant. The Company's stock options are expensed ratably over the three year vesting period; however, included in stock option expense for the three and six months ended June 30, 2017 and 2016 was expense associated with the accelerated vesting of stock option awards for certain employees who either are retirement eligible or become retirement eligible during the vesting period. Stock based compensation expense attributable to stock options in the three months ended June 30, 2017 and 2016 was \$0.5 million and \$0.9 million, respectively. Stock based compensation expense attributable to stock options in the six months ended June 30, 2017 and 2016 was \$3.4 million and \$3.4 million, respectively.

Table of Contents**7. Stock Based Compensation (continued)**

Changes in option shares, all of which relate to the Company's Common Stock, were as follows for the six months ended June 30, 2017:

	Weighted-Avg. Per Share Exercise Price	Number of Options	Average Remaining Contractual Life	Aggregate Intrinsic Value (dollars in millions)
Outstanding at January 1, 2017	\$ 21.69	2,664,333		
Granted	50.16	358,150		
Exercised	18.65	(468,944)		
Forfeited	36.13	(3,640)		
Outstanding at June 30, 2017	26.22	2,549,899	7 years	\$ 75.8
Exercisable at June 30, 2017	\$ 19.31	1,666,017	6 years	\$ 61.0

The weighted-average fair value per option at the date of grant during the six months ended June 30, 2017 and 2016 using the Black-Scholes option-pricing model was \$13.04 and \$15.78, respectively. Assumptions were as follows:

	Six Months Ended June 30,	
	2017	2016
Expected life (years)	5.7	5.8
Risk-free interest rate	2.4%	1.7%
Dividend yield	1.0%	1.3%
Expected volatility	26.5%	27.8%

The expected lives of options for purposes of these models are based on historical exercise behavior. The risk-free interest rates for purposes of these models are based on the U.S. Treasury yield curve in effect on the date of grant for the respective expected lives of the option. The expected dividend yields for purposes of these models are based on the dividends paid in the preceding four quarters divided by the grant date market value of the Common Stock. The expected volatility for purposes of these models are based on the historical volatility of the Common Stock.

Stock Appreciations Rights (SARs)

Certain non-U.S.-based employees have been granted SARs. Each SAR award grants the employee the right to receive cash equal to the excess of the share price of the Company's Common Stock on the date that a participant exercises such right over the grant date price of the Common Stock. SARs granted have three year pro rata vesting from the date of grant. SARs were issued at exercise prices equal to the fair value of the Company's Common Stock on the date of grant and expire ten years from the date of grant. The fair value and compensation expense related to SARs are measured at each reporting period using the Black-Scholes option-pricing model, using assumptions similar to stock

option awards. No SARs were granted in 2017 or 2016. As of June 30, 2017, there were 23,660 SARs outstanding and 15,774 were exercisable. In the six months ended June 30, 2017, 427 SARs were exercised and 853 SARs were forfeited. Stock based compensation expense was minimal in the three and six months ended June 30, 2017 and 2016.

Table of Contents**7. Stock Based Compensation (continued)***Restricted Stock and Share Units*

Participants may also be awarded shares of restricted stock or share units under the Plan. The Company granted 107,755 and 155,480 share units under the plan in the six months ended June 30, 2017 and 2016, respectively. The share units were valued at \$5.4 million and \$4.9 million at the date of issuance in 2017 and 2016, respectively, based on the price of the Company's Common Stock at the date of grant. The share units are recognized as compensation expense ratably over the three-year vesting period; however, included in share unit expense in the three and six months ended June 30, 2017 and 2016 was expense associated with accelerated vesting of share unit awards for certain employees who either are retirement eligible or will become retirement eligible during the vesting period. Stock based compensation expense attributable to share units of \$0.8 million and \$0.9 million was recognized in the three months ended June 30, 2017 and 2016, respectively. Stock based compensation expense attributable to share units of \$3.8 million and \$3.5 million was recognized in the six months ended June 30, 2017 and 2016, respectively. Certain non-U.S.-based employees receive the cash value of vested shares at the vesting date in lieu of shares.

A summary of share unit activity under the plan is as follows for the six months ended June 30, 2017:

	Number of Units	Weighted-Average Grant Date Value
Issued and unvested at January 1, 2017	544,055	\$ 27.35
Granted	107,755	50.16
Vested	(213,863)	23.25
Forfeited	(3,010)	32.73
Issued and unvested at June 30, 2017	434,937	34.98

8. Pensions

The following table presents the components of the Company's net pension income.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Service cost	\$ 0.5	\$ 0.4	\$ 0.9	\$ 0.9
Interest cost	7.5	7.7	14.9	15.3
Expected return on plan assets	(14.3)	(13.8)	(28.7)	(27.6)
Amortization of unrecognized loss	4.4	4.5	8.8	8.8
Amortization of prior service cost	(0.3)	(0.2)	(0.2)	(0.5)
Defined benefit plan income	\$ (2.2)	\$ (1.4)	\$ (4.3)	\$ (3.1)

The Company was not required to make a contribution to its U.S. pension plan in 2016 but made a voluntary \$30 million contribution. The Company is not required to make a contribution in 2017.

Table of Contents**9. Segment Results**

The Company is comprised of two reporting segments: North America and Rest of World. The Rest of World segment is primarily comprised of China, Europe and India. Both segments manufacture and market comprehensive lines of residential and commercial gas, gas tankless and electric water heaters as well as water treatment products. Both segments primarily manufacture and market in their respective regions of the world. The North America segment also manufactures and globally markets specialty commercial water heating equipment, condensing and non-condensing boilers, residential water treatments products and water system tanks. The Rest of World segment also manufactures and markets in-home air purification products in China.

The following table presents the Company's segment results:

(dollars in millions)

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Net sales				
North America	\$ 470.7	\$ 432.8	\$ 958.0	\$ 856.7
Rest of World	272.8	239.8	532.3	457.3
Inter-segment	(5.3)	(5.6)	(12.1)	(10.1)
	\$ 738.2	\$ 667.0	\$ 1,478.2	\$ 1,303.9
Segment earnings				
North America	\$ 109.2	\$ 104.2	\$ 213.4	\$ 196.1
Rest of World	32.5	33.0	65.0	59.8
Inter-segment	(0.1)		(0.2)	
	141.6	137.2	278.2	255.9
Corporate expense	(11.1)	(11.2)	(25.1)	(24.6)
Interest expense	(2.5)	(1.9)	(4.7)	(3.6)
Earnings before income taxes	128.0	124.1	248.4	227.7
Provision for income taxes	35.6	37.0	68.3	67.1
Net earnings	\$ 92.4	\$ 87.1	\$ 180.1	\$ 160.6

10. Fair Value Measurements

ASC 820, *Fair Value Measurements*, among other things, defines fair value, establishes a consistent framework for measuring fair value and expands disclosure for each major asset and liability category measured at fair value on either a recurring basis or nonrecurring basis. ASC 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level

1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Table of Contents**10. Fair Value Measurements (continued)**

Assets and liabilities measured at fair value are based on the market approach which are prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

The following table presents assets measured at fair value on a recurring basis.

(dollars in millions)		
Fair Value Measurement Using	June 30, 2017	December 31, 2016
Quoted prices in active markets for identical assets (Level 1)	\$ 434.7	\$ 424.5

There were no changes in the Company's valuation techniques used to measure fair values on a recurring basis during the six months ended June 30, 2017.

11. Derivative Instruments

ASC 815, *Derivatives and Hedging*, as amended, requires that all derivative instruments be recorded on the balance sheet at fair value and establishes criteria for designation and effectiveness of the hedging relationships. The accounting for changes in the fair value of a derivative instrument depends on whether it has been designated and qualifies as a part of a hedging relationship and, further, on the type of hedging relationship. For those derivative instruments that are designated and qualify as hedging instruments, the Company must designate the hedging instrument, based upon the exposure hedged, as a fair value hedge, a cash flow hedge, or a hedge of a net investment in a foreign operation.

The Company designates that all of its hedging instruments are cash flow hedges. For derivative instruments that are designated and qualify as a cash flow hedge (i.e., hedging the exposure to variability in expected future cash flows that is attributable to a particular risk), the effective portion of the gain or loss on the derivative instrument is reported as a component of other comprehensive loss, net of tax, and is reclassified into earnings in the same line item associated with the forecasted transaction and in the same period or periods during which the hedged transaction affects earnings. The amount by which the cumulative change in the value of the hedge more than offsets the cumulative change in the value of the hedged item (i.e., the ineffective portion) is recorded in earnings, net of tax, in the period the ineffectiveness occurs.

The Company utilizes certain derivative instruments to enhance its ability to manage currency exposure as well as raw materials price risk. Derivative instruments are entered into for periods consistent with the related underlying exposures and do not constitute positions independent of those exposures. The Company does not enter into contracts for speculative purposes. The contracts are executed with major financial institutions with no credit loss anticipated for failure of the counterparties to perform.

Foreign Currency Forward Contracts

The Company is exposed to foreign currency exchange risk as a result of transactions in currencies other than the functional currency of certain subsidiaries. The Company utilizes foreign currency forward purchase and sale contracts to manage the volatility associated with foreign currency purchases, sales and certain intercompany

transactions in the normal course of business. Currencies for which the Company utilizes foreign currency forward contracts include the British pound, Canadian dollar, Euro and Mexican peso.

Table of Contents**11. Derivative Instruments (continued)**

Gains and losses on these instruments are recorded in accumulated other comprehensive loss, net of tax, until the underlying transaction is recorded in earnings. When the hedged item is realized, gains or losses are reclassified from accumulated other comprehensive loss to the consolidated statement of earnings. The assessment of effectiveness for forward contracts is based on changes in the forward rates. These hedges have been determined to be effective.

The majority of the amounts in accumulated other comprehensive loss for cash flow hedges are expected to be reclassified into earnings within one year.

The following table summarizes, by currency, the contractual amounts of the Company's foreign currency forward contracts.

(dollars in millions)

	June 30,			
	2017		2016	
	Buy	Sell	Buy	Sell
British pound	\$	\$ 0.6	\$	\$ 0.5
Canadian dollar		63.4		62.7
Euro	13.1	0.9	12.9	0.9
Mexican peso	10.7		13.2	
Total	\$ 23.8	\$ 64.9	\$ 26.1	\$ 64.1

Commodity Futures Contracts

In addition to entering into supply arrangements in the normal course of business, the Company also entered into futures contracts to fix the cost of certain raw material purchases, principally copper and steel, with the objective of minimizing changes in cost due to market price fluctuations. The Company's hedging strategy for achieving this objective is to purchase commodities futures contracts on the open market of the London Metals Exchange (LME) or over the counter contracts based on the LME for copper. Steel futures contracts are purchased on the New York Metals Exchange (NYMEX).

With NYMEX, the Company is required to make cash deposits on unrealized losses on steel derivative contracts.

The after-tax gains and losses on the effective portion of the copper and steel hedge contracts as of June 30, 2017 were recorded in accumulated other comprehensive loss and will be reclassified into cost of products sold in the period in which the underlying transaction is recorded in earnings. The after-tax gains and losses on the effective portion of the contracts will be reclassified within one year. Contractual amounts of the Company's commodities futures contracts were immaterial as of June 30, 2017.

The following tables present the impact of derivative contracts on the Company's financial statements.

Table of Contents**11. Derivative Instruments (continued)**

Fair value of derivatives designated as hedging instruments under ASC 815:

(dollars in millions)

	Balance Sheet Location	June 30, 2017	December 31, 2016
Foreign currency contracts	Other current assets	\$ 1.2	\$ 1.9
	Accrued liabilities	(0.3)	(2.0)
Commodities contracts	Other current assets	0.3	0.8
	Accrued liabilities		(0.3)
Total derivatives designated as hedging instruments		\$ 1.2	\$ 0.4

The effect of derivatives designated as hedging instruments on the statement of earnings is as follows:

Three Months Ended June 30 (dollars in millions):

	Amount of gain (loss) recognized in OCI on derivative		Location of gain (loss) reclassified from OCI into earnings (effective portion)	Amount of gain (loss) reclassified from accumulated OCI into earnings (effective portion)		Location of gain (loss) recognized in earnings on derivative (ineffective portion)	Amount of gain (loss) recognized in earnings on a derivative (ineffective portion)	
Derivatives in ASC 815 cash flow hedging relationships	2017	2016	(effective portion)	2017	2016	(ineffective portion)	2017	2016
Foreign currency contracts	\$ 0.4	\$ (1.1)	Cost of products sold	\$ 0.6	\$ (1.0)	N/A	\$	\$
Commodities contracts	0.1	0.8	Cost of products sold	0.6		Cost of products sold		
	\$ 0.5	\$ (0.3)		\$ 1.2	\$ (1.0)		\$	\$

Six Months Ended June 30 (dollars in millions):

Derivatives in ASC 815 cash flow hedging relationships	Amount of gain (loss) recognized in OCI on derivative (effective portion)		Location of gain (loss) reclassified from OCI into earnings	Amount of gain (loss) reclassified from accumulated OCI into earnings (effective portion)		Location of gain (loss) recognized in earnings on derivative (ineffective portion)	Amount of gain (loss) recognized in earnings	

	earnings (effective portion)			on a derivative (ineffective portion)		
	2017	2016		2017	2016	2017 2016
Foreign currency contracts	\$ 1.5	\$ (4.8)	Cost of products sold	\$ 0.6	\$ (0.7)	N/A

	\$ 1.6	\$ (3.1)		\$ 0.7	\$ (0.7)	\$ \$

Table of Contents

12. Income Taxes

The effective income tax rates for the three and six months ended June 30, 2017 were 27.8 percent and 27.5 percent, respectively. The Company estimates that its annual effective income tax rate for the full year 2017 will be approximately 28.5 percent, assuming no material changes to existing tax codes. The effective income tax rates for the three and six months ended June 30, 2016 were 29.8 percent and 29.5 percent, respectively. The full year effective income tax rate in 2016 was 29.4 percent. The lower effective income tax rate in the three and six months ended June 30, 2017 compared to the prior year periods was primarily due to lower state income taxes and a change in geographic earnings mix.

As of June 30, 2017, the Company had \$4.2 million of unrecognized tax benefits of which \$0.6 million would affect its effective income tax rate if recognized. The Company recognizes potential interest and penalties related to unrecognized tax benefits as a component of income tax expense.

The Company's U.S. federal income tax returns for 2014-2016 are subject to audit. The Company is subject to state and local income tax audits for tax years 2001-2016. The Company is subject to non-U.S. income tax examinations for years 2008-2016.

Table of Contents**13. Changes in Accumulated Other Comprehensive Loss by Component**

Changes to accumulated other comprehensive loss by component are as follows:

(dollars in millions)

	Three Months Ended June 30,	
	2017	2016

Table of Contents

PART I - FINANCIAL INFORMATION

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Our Company is comprised of two reporting segments: North America and Rest of World. Our Rest of World segment is primarily comprised of China, Europe and India. Both segments manufacture and market comprehensive lines of residential and commercial gas, gas tankless and electric water heaters, as well as water treatment products. Both segments primarily manufacture and market in their respective region of the world. Our North America segment also manufactures and globally markets specialty commercial water heating equipment, condensing and non-condensing boilers, residential water treatment products and water systems tanks. Our Rest of World segment also manufactures and markets in-home air purifier products in China.

Sales in our North America segment increased approximately nine percent in the second quarter of 2017 over the same period last year primarily driven by higher volumes of commercial water heaters and boilers in the U.S. and pricing actions in August 2016 related to steel cost increases and inflationary pressure on other input costs. Aquasana, which we acquired in August 2016, added \$13.0 million to segment sales in the second quarter of 2017.

We project our sales in the U.S. will grow in 2017 compared to 2016 due to higher residential and commercial water heater volumes resulting from industry-wide new construction growth and expansion of replacement demand. We expect sales of Lochinvar-branded products to grow eight percent in 2017 driven by double-digit commercial boiler sales growth due to new product introductions and growth in sales of energy efficient products. We expect Aquasana to incrementally add nearly \$40 million to our full year 2017 sales.

Sales in our Rest of World segment grew approximately 14 percent in the second quarter of 2017 compared to the same period last year as a result of 15 percent sales growth in China. China sales in local currency terms grew approximately 20 percent in the second quarter driven by higher demand for our consumer products, led by water treatment and air purification, and pricing actions due to higher steel and other costs.

We expect full year 2017 sales in China to grow compared to 2016 at a rate of almost 17 percent in local currency terms driven by expected continued overall water heater market growth, market share gains, higher average selling prices and water treatment product sales growth at a rate significantly higher than 15 percent. Our sales in India were approximately \$18 million last year and we expect sales in India to grow over 30 percent in 2017.

Combining all of these factors, we expect total company sales growth of between ten percent and 11 percent in 2017 compared to 2016 and between 11.5 percent and 12.5 percent in local currency terms.

RESULTS OF OPERATIONS

SECOND QUARTER AND FIRST SIX MONTHS OF 2017 COMPARED TO 2016

Sales for the second quarter of 2017 were \$738.2 million or approximately 11 percent higher than sales of \$667.0 million in the second quarter of 2016. Sales in the first six months of 2017 increased to \$1,478.2 million from \$1,303.9 million in the same period last year. Excluding the impact of the appreciation of the U.S. dollar against the Chinese currency, sales increased approximately 12 percent and 15 percent in the second quarter and first six months of 2017, respectively, compared to the prior year periods. China sales grew approximately 20 percent and 23 percent

in local currency in the second quarter and first six months of 2017, respectively, compared to prior periods primarily due to higher sales of water treatment and air purification products.

Table of Contents

Gross profit margin in the second quarter of 2017 of 41.4 percent was lower than the gross profit margin of 42.5 percent in the second quarter of 2016. Gross profit margin in the first six months of 2017 decreased to 41.1 percent from 41.9 percent in the first six months of 2016. Margins in the second quarter and first six months of 2017 were impacted by significantly higher steel prices that more than offset pricing actions announced earlier this year.

Selling, general and administrative (SG&A) expenses in the second quarter and first six months of 2017 increased by \$17.3 million and \$40.0 million, respectively, as compared to the prior year periods. The increase in SG&A expenses in the second quarter and first six months of 2017 was primarily due to higher selling and advertising expenses to support increased volumes, brand building and the expansion of water treatment and air purification retail outlets in China.

Interest expense in the second quarter of 2017 was \$2.5 million compared to \$1.9 million in the same period last year. Interest expense in the first six months of 2017 was \$4.7 million compared to \$3.6 million in the same period last year. The increase in interest expense in the second quarter and first six months of 2017 compared to prior year periods was primarily due to higher interest rates as well as higher overall debt levels primarily related to share repurchases and our Aquasana acquisition.

Other income was \$1.9 million in the second quarter of 2017, down from \$2.3 million in the same period last year. Other income in the first six months of 2017 was \$4.3 million, equal to the first six months of 2016. The decrease in other income in the second quarter of 2017 was primarily due to higher currency and translation losses that were partially offset by higher interest income.

Our pension costs and credits are developed from actuarial valuations. The valuations reflect key assumptions regarding, among other things, discount rates, expected return on assets, retirement ages, and years of service. We consider current market conditions including changes in interest rates in making these assumptions. Our assumption for the expected rate of return on plan assets is 7.5 percent in 2017, consistent with 2016. The discount rate used to determine net periodic pension costs decreased to 4.15 percent in 2017 from 4.40 percent in 2016. Pension income for the first half of 2017 was \$4.3 million compared to \$3.1 million in the first half of 2016. Our pension income is reflected in cost of products sold and SG&A expenses.

Our effective income tax rates for the second quarter and first six months of 2017 were 27.8 percent and 27.5 percent, respectively. Our effective income tax rates for the second quarter and first six months of 2016 were 29.8 percent and 29.5 percent, respectively. The lower effective income tax rates in the second quarter and first six months of 2017 compared to the same periods last year were primarily due to lower state income taxes and geographic earnings mix. We estimate that our effective income tax rate for the full year 2017 will be approximately 28.5 percent, assuming no material changes to existing tax codes.

North America

Sales in the North America segment were \$470.7 million in the second quarter of 2017 or \$37.9 million higher than sales of \$432.8 million in the second quarter of 2016. Sales for the first six months of 2017 were \$958.0 million or \$101.3 million higher than sales of \$856.7 million in the same period last year. The increases in sales in 2017 were primarily due to higher volumes of water heaters in the U.S. and Canada and pricing actions in August 2016 related to steel cost increases and inflationary pressure on other input costs. Sales in the second quarter of 2017 also benefitted from higher boiler sales. Aquasana, acquired in August 2016, added \$13.0 million and \$23.3 million to North America sales in the second quarter and first half of 2017, respectively.

Table of Contents

North America segment earnings were \$109.2 million in the second quarter of 2017 or approximately five percent higher than segment earnings of \$104.2 million in the same period of 2016. Segment earnings in the first six months of 2017 were \$213.4 million or approximately nine percent higher than segment earnings of \$196.1 million in the first six months of 2016. The higher segment earnings in both periods of 2017 compared to 2016 were primarily due to higher sales of water heaters in the U.S. and Canada and higher prices that were partially offset by significantly higher steel and other input costs. The second quarter of 2017 also benefitted from higher boiler sales. Segment margin of 23.2 percent in the second quarter of 2017 was lower than 24.1 percent in the same period last year. Segment margin of 22.3 percent in the first six months of 2017 was lower than 22.9 percent in the same period in 2016. The decreased segment margin in both the second quarter and first half of 2017 as compared to the same periods last year was primarily due to higher steel prices and the impact of newly acquired Aquasana, which has lower operating margins than the segment average. We expect full year segment margin to be between 21.75 and 22.0 percent in 2017, which is slightly lower than last year due to lower Aquasana operating margins and continued volatility in steel prices.

Rest of World

Sales in the Rest of World segment were \$272.8 million in the second quarter of 2017 or \$33.0 million higher than sales of \$239.8 million in the second quarter of 2016. Sales in the first six months of 2017 were \$532.3 million or \$75.0 million higher than sales of \$457.3 million in the first six months of 2016. China sales grew approximately 20 percent and 23 percent in local currency in the second quarter and first six months of 2016, respectively, due to higher demand for the majority of our consumer products in the region, led by water treatment and air purification products. A. O. Smith branded water treatment products grew 40 percent in local currency in the second quarter of 2017 and first six months of 2017. Air purification products sales quadrupled to \$10 million in the second quarter of 2017 as compared to the same period last year. Sales in the second quarter of 2017 also benefitted from pricing actions announced earlier this year related to higher steel and other costs.

Rest of World segment earnings were \$32.5 million in the second quarter of 2017, slightly lower than segment earnings of \$33.0 million in the second quarter of 2016. Segment earnings in the first six months of 2017 were \$65.0 million, approximately nine percent higher than segment earnings of \$59.8 million in the first six months of 2016. China currency translation negatively impacted segment earnings by \$2 million and \$3.6 million in the second quarter and first six months of 2017, respectively. In both periods of 2017, higher China sales, including a price increase, were partially offset by increased SG&A expenses in China. Segment earnings in the second quarter of 2017 were further impacted by higher steel prices and a less profitable mix in China resulting in a decrease in segment earnings compared to the same period last year. Higher SG&A expenses in the 2017 periods were primarily due to higher selling and advertising expenses in China to support brand building and the expansion of water treatment and air purification retail outlets in tier 2 and tier 3 cities. Segment margin of 11.9 percent in the second quarter of 2017 was lower than our segment margin of 13.8 percent in the same period last year. Segment margin of 12.2 percent in the first six months of 2017 was lower than our segment margin of 13.1 percent in the first six months of last year. Segment margins in both the second quarter and first six months of 2017 were lower than the same periods last year primarily due to the factors mentioned above. We expect our full year segment margin to be approximately 14 percent in 2017. We project improved segment margin in the second half of 2017 compared to the first half due to a full half year benefit of the price increase and lower advertising expenses as a percentage of sales in China. Additionally, lower losses in India as compared to 2016 will contribute to higher segment margins in the second half of 2017.

Table of Contents

Outlook

We expect total company sales to grow between ten and 11 percent in 2017 and between 11.5 and 12.5 percent in local currency terms. With record earnings in the first and second quarters of the year, we increased the midpoint of our guidance for 2017. We believe we will achieve full-year earnings of between \$2.07 and \$2.11 per share, which excludes the potential impact from future acquisitions.

Liquidity & Capital Resources

Working capital of \$934.5 million at June 30, 2017 was \$138.1 million higher than at December 31, 2016 primarily due to sales-related increases to accounts receivable balances, higher inventory levels and lower receipts of cash in advance of sales from distribution customers in China. As of June 30, 2017, essentially all of our \$740.9 million of cash, cash equivalents and marketable securities was held by our foreign subsidiaries. We would incur a cost to repatriate these funds to the U.S. and have accrued \$37.8 million for the repatriation of a portion of these funds.

Cash provided by operating activities in the first half of 2017 was \$73.2 million compared with \$155.1 million of cash provided by operations during the same period last year. Higher earnings were more than offset by higher outlays for working capital. These factors resulted in lower cash flow in the first half of 2017. For the full year 2017, we expect cash provided by operating activities to be approximately \$375 million.

Capital expenditures totaled \$36.3 million in the first half of 2017, compared with \$37.7 million in the year ago period. We project 2017 capital expenditures will be approximately \$100 million, including an estimated \$45 million related to capacity expansion to support growth of water treatment and air purification products in China. We expect full year depreciation and amortization will be approximately \$70 million.

In December 2016, we completed a \$500 million multi-currency credit facility with a group of nine banks, which expires in December 2021. The facility has an accordion provision that allows us to increase it up to \$700 million if certain conditions (including lender approval) are satisfied. Borrowing rates under the facility are determined by our leverage ratio. The facility requires us to maintain two financial covenants, a leverage ratio test and an interest coverage test, and we were in compliance with the covenants as of June 30, 2017.

The facility backs up commercial paper and credit line borrowings. As a result of the long-term nature of this facility, our commercial paper and credit line borrowings, as well as drawings under the facility, are classified as long-term debt. At June 30, 2017, we had available borrowing capacity of \$255.0 million under this facility. We believe the combination of available borrowing capacity and operating cash flows will provide sufficient funds to finance our existing operations for the foreseeable future.

In November 2016, we issued an aggregate of \$45 million of fixed rate term notes in two tranches to two insurance companies. Principal payments commence in 2023 and 2028 and the notes mature in 2029 and 2034, respectively. The notes carry interest rates of 2.87 percent and 3.10 percent, respectively. We used proceeds from the issuance of the notes to pay down borrowings under our revolving credit facility.

Table of Contents

Our total debt increased \$51.5 million from \$323.6 million at December 31, 2016 to \$375.1 million at June 30, 2017, as our cash flows generated in the U.S. were more than offset by our share repurchase activity and dividend payments. Our leverage, as measured by the ratio of total debt to total capitalization, was 18.9 percent at June 30, 2017, compared with 17.6 percent at December 31, 2016.

Our pension plan continues to meet all funding requirements under ERISA regulations. We are not required to make a contribution to the plan in 2017.

In 2016, our Board of Directors approved adding 3,000,000 shares of common stock to an existing discretionary share repurchase authority. Under the share repurchase program, our common stock may be purchased through a combination of a Rule 10b5-1 automatic trading plan and discretionary purchases in accordance with applicable securities laws. The stock repurchase authorization remains effective until terminated by our Board of Directors, which may occur at any time, subject to the parameters of any Rule 10b5-1 automatic trading plan that we may then have in effect. During the first half of 2017, we repurchased 1,278,850 shares of our stock at a total cost of \$66.2 million. A total of approximately 3,600,000 shares remained on the existing repurchase authority at June 30, 2017. Depending on factors such as stock price, working capital requirements and alternative investment opportunities, we expect to spend approximately \$135 million on stock repurchases through our Rule 10b5-1 automatic trading plan in 2017. In addition, we may opportunistically spend an additional \$65 million on share repurchases in 2017.

On July 10, 2017, our Board of Directors declared a cash dividend of \$0.14 per share on our Common Stock and Class A common stock. The dividend is payable on August 15, 2017 to shareholders of record on July 31, 2017.

Critical Accounting Policies

Our consolidated financial statements are prepared in conformity with accounting principles generally accepted in the U.S., which requires the use of estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements. The critical accounting policies that we believe could have the most significant effect on our reported results or require complex judgment by management are contained in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the year ended December 31, 2016. We believe that at June 30, 2017, there has been no material change to this information.

Recent Accounting Pronouncements

Refer to *Recent Accounting Pronouncements* in Note 1 – Basis of Presentation in the notes to our condensed consolidated financial statements included in Part 1 Financial Information.

Forward Looking Statements

This filing contains statements that we believe are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements generally can be identified by the use of words such as may, will, expect, intend, estimate, anticipate, believe, forecast, guidance or words of similar import. Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those anticipated as of the date of this filing. Important factors that could cause actual results to differ materially from these expectations include, among other things, the following: a further slowdown in the growth rate of the Chinese economy and/or a decline in the growth rate of consumer spending in China; potential weakening in the high efficiency boiler segment in the U.S.; significant volatility in raw material prices; our inability to implement or maintain pricing actions; potential weakening in U.S. residential or commercial construction or instability in our replacement markets; foreign currency fluctuations; our ability to successfully integrate or achieve our strategic objectives resulting from acquisitions; competitive pressures on our businesses; the impact of potential information technology or data security breaches; changes in governmental regulations or regulatory requirements; and adverse developments in general economic, political and business conditions in key regions of the world. Forward-looking statements included in this filing are made only as of the date of this filing, and we are under no obligation to update these statements to reflect subsequent events or circumstances. All subsequent written and oral forward-looking statements attributed to the Company, or persons acting on our behalf, are qualified entirely by these cautionary statements.

Table of Contents

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As is more fully described in our Annual Report on Form 10-K for the year ended December 31, 2016, we are exposed to various types of market risks, including currency and certain commodity risks. Our quantitative and qualitative disclosures about market risk have not materially changed since that report was filed. We monitor our currency and commodity risks on a continuous basis and generally enter into forward and futures contracts to minimize these exposures. The majority of the contracts are for periods of less than one year. Our Company does not engage in speculation in our derivative strategies. It is important to note that gains and losses from our forward and futures contract activities are offset by changes in the underlying costs of the transactions being hedged.

ITEM 4 - CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (Exchange Act). Based upon this evaluation of these disclosure controls and procedures, our principal executive officer and principal financial officer concluded that the disclosure controls and procedures were effective as of June 30, 2017 to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time period specified in the SEC rules and forms, and to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate, to allow timely decisions regarding disclosure.

Changes in internal control over financial reporting

There have been no significant changes in our internal control over financial reporting during the quarter ended June 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II - OTHER INFORMATION****ITEM 1 - LEGAL PROCEEDINGS**

There have been no material changes in the legal and environmental matters discussed in Part 1, Item 3 and Note 13 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 2 - UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In 2016, our Board of Directors approved adding 3,000,000 shares of Common Stock to an existing discretionary share repurchase authority. Under the share repurchase program, the Common Stock may be purchased through a combination of Rule 10b5-1 automatic trading plan and discretionary purchases in accordance with applicable securities laws. The number of shares purchased and the timing of the purchases will depend on a number of factors, including share price, trading volume and general market conditions, as well as working capital requirements, general business conditions and other factors, including alternative investment opportunities. The stock repurchase authorization remains effective until terminated by our Board of Directors which may occur at any time, subject to the parameters of any Rule 10b5-1 automatic trading plan that we may then have in effect. In the second quarter of 2017, we repurchased 672,000 shares at an average price of \$53.63 per share and at a total cost of \$36.0 million. As of June 30, 2017, there were 3,627,553 shares remaining on the existing repurchase authorization.

ISSUER PURCHASES OF EQUITY SECURITIES

Period		Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that may yet be Purchased Under the Plans or Programs
April 1	April 30, 2017	212,000	\$ 50.61	212,000	4,087,553
May 1	May 31, 2017	238,500	54.05	238,500	3,849,053
June 1	June 30, 2017	221,500	56.06	221,500	3,627,553

ITEM 5 - OTHER INFORMATION

None.
