CORPORATE HIGH YIELD FUND III, INC.

The Benefits and
Risks of
Leveraging

Corporate High Yield Fund III, Inc. utilizes leveraging through borrowings or issuance of short-term debt securities or shares of Preferred Stock. The concept of leveraging is based on the premise that the cost of assets to be obtained from leverage will be based on short-term interest rates, which normally will be lower than the return earned by the Fund on its longer-term portfolio investments. Since the total assets of the Fund (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, the Fund's Common Stock shareholders are the beneficiaries of the incremental yield.

Leverage creates risks for holders of Common Stock including the likelihood of greater net asset value and market price volatility. In addition, there is the

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

risk that fluctuations in interest rates on borrowings (or in the dividend rates on any Preferred Stock, if the Fund were to issue Preferred Stock) may reduce the Common Stock's yield and negatively impact its market price. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, the Fund's net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, the Fund's net income will be less than if leverage had not been used, and therefore the amount available for distribution to Common Stock shareholders will be reduced. In this case, the Fund may nevertheless decide to maintain its leveraged position in order to avoid capital losses on securities purchased with leverage. However, the Fund will not generally utilize leverage if it anticipates that its leveraged capital structure would result in a lower rate of return for its Common Stock than would be obtained if the Common Stock were unleveraged for any significant amount of time.

Corporate High Yield Fund III, Inc., May 31, 2003

DEAR SHAREHOLDER

The High Yield Market Overview

An impressive high yield market rally that started in mid October 2002 continued through the end of the Fund's fiscal year. For the 12-month and six-month periods ended May 31, 2003, the high yield market returned +13.25% and +15.37%, respectively, as measured by the unmanaged benchmark Credit Suisse First Boston (CSFB) High Yield Index. Fundamental drivers of the recent market performance included investors' improved outlook on the economy, modestly favorable corporate earnings reports, a shrinking number of defaults by high yield corporate borrowers and falling interest rates. Certain technicals also provided solid support to the high yield market, including strong cash inflows from institutional investors increasing their allocations to high yield and from retail investors who were searching for yield in the low interest rate environment. The yield for the CSFB High Yield Index at May 31, 2003 was 9.8% compared to 12.6% at November 30, 2002. Yield spreads relative to U.S. Treasury bonds fell from 929 basis points (9.29%) at November 30, 2002 to 742 basis points as of May 31, 2003, still well above the mid-500 basis point average we saw throughout much of the 1990s.

After such a run, the obvious question is: "Where will the high yield market go from here?" Near-term risks for the high yield market include recession and/or further earnings weakness. Sharply rising interest rates could also hurt the high yield market. In our view, the earnings-sensitive high yield market is supported in the near term by a flat-to-slightly improving economy, which we believe will result in increased earnings stability and continuing low interest rates. From a technical perspective, the high yield market is supported by investors seeking alternatives to low-yielding money market funds. Based on historical spreads to Treasury bonds near 580 basis points, the high yield market does not appear to be over valued at the current levels of 742 basis points. We would expect that the high default levels of recent years, at least in the near term, would drive investors to demand a spread greater than what historically has been expected to compensate for the additional risk of investing in the high yield arena. Therefore, we do not foresee dramatic spread tightening without the expectation of considerably lower default rates.

Fund Performance

For the year ended May 31, 2003, the Common Stock of Corporate High Yield Fund III, Inc. had a net annualized yield of 11.60%, based on a year-end per share net asset value of \$7.86 and \$.912 per share income dividends. For the same

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

period, the total investment return of the Fund's Common Stock was +16.46%, based on a change in per share net asset value from \$7.68 to \$7.86, and assuming reinvestment of \$.912 per share ordinary income dividends. For the six-month period ended May 31, 2003, the total investment return of the Fund's Common Stock was +25.80%, based on a change in per share net asset value from \$6.67 to \$7.86, and assuming reinvestment of \$.490 per share income dividends. In addition to outperforming the benchmark, the Fund also outperformed its peer group of Lipper closed-end high yield leveraged funds, which had average returns of +10.23% and +22.07% for the 12-month and six-month periods ended May 31, 2003, respectively.

For a description of the Fund's total investment return based on a change in the per share market value (as measured by the trading price of the Fund's shares on the New York Stock Exchange), and assuming reinvestment of dividends, please refer to the Financial Highlights section of the Financial Statements included in this report. As a closed-end fund, the Fund's shares may trade in the secondary market at a premium or a discount to the Fund's net asset value. As a result, total investment returns based on changes in the Fund's market value can vary significantly from total investment return based on changes in the Fund's net asset value.

Fund performance benefited significantly from leverage during the period, as is expected in a rising price environment. Our decision to overweight the utility and wireless sectors contributed meaningfully to the Fund's performance, as investors' views on these sectors became more positive. The utility sector, in particular, was drastically undervalued in the aftermath of Enron's financial misdealings and because of fears that a faltering economy would doom the more highly leveraged players in the sector. The improving economy, as well as investors' search for yield, led to recovery in both sectors. Within both the utility and the wireless sectors, credit selection also helped enhance Fund returns. In utilities, bonds of The AES Corporation and Calpine Corporation recovered dramatically as the companies regained financial flexibility through asset sales and refinancings. Mission Energy Holdings gained as investors grew more confident that the strengthening economy would support future earnings and permit continued servicing of the company's debt obligations. In the wireless sector, bonds of Millicom International Cellular SA, Nextel Communications, Inc., Nextel Partners Inc. and Nextel International Inc. benefited from refinancing and from investor recognition of solid operating performance.

Leverage Strategy

For the six-month period ended May 31, 2003, the Fund was on average about 22.8% leveraged, slightly below our mid-20% comfort range. Thus, the Fund borrowed the equivalent of 22.8% of total assets invested, earning incremental yield on the investments we made with the borrowed funds. For the year ended May 31, 2003, the average amount borrowed was approximately \$75,558,000 and the daily weighted average interest rate was 1.84%. While leverage hurts total return in a weak market, the converse also is true. We believe that market timing generally is not successful. Such a strategy adds to incremental yield, but increases volatility both in weak and in strong markets. (For a more complete explanation of the benefits and risks of leveraging, see page 1 of this report to shareholders.)

Investment Strategy

We did not change our investment strategy significantly in response to the run-up in the high yield market. We believe that long-term results in our market come from valuation and attention to credit quality. We continue to invest in a core of solid credits and to maintain a diverse portfolio, identifying downtrodden names that, in our opinion, represent significant value. We attempt to take advantage of market volatility and to add to, or establish positions in, companies that we believe have favorable long-term fundamentals.

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

The dramatic undervaluations found in the market over the past year have largely evaporated, leaving more limited potential for strong market moves for high yield as a whole and for individual sectors. We believe the utility and independent power producer sector still represents good relative value in the high yield market and, as of May 31, 2003, had our largest sector allocation in utilities, at approximately 8.1% of total assets. Representing a weighting similar to that of the benchmark CSFB High Yield Index, our investments in this area were both in bonds of higher-quality utilities, pipelines and independent power producers and in bonds of several more downtrodden names in the sector.

During the period, the Fund was overweight in the chemicals, energy--other and packaging sectors. Our position in chemicals primarily consisted of holdings in less cyclical, specialty chemical names that we believe have solid credit quality. In the energy--

2 & 3

Corporate High Yield Fund III, Inc., May 31, 2003

other category, we focused on the refining sector, where we saw the near-term fundamentals as strong and valuations attractive. Given continued market volatility, the packaging sector served as an important defensive position during the period.

In Conclusion

We thank you for your investment in Corporate High Yield Fund III, Inc., and we look forward to updating you again in our next report to shareholders.

Sincerely,

/s/ Terry K. Glenn

+ For Fund compliance purposes, "Industry" means any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

combine such industry sub-classifications for reporting ease. These industry classifications are unaudited.

- ++ Ratings of issues shown are unaudited.
- * Not Rated.
- ** Represents a zero coupon or step bond; the interest rate shown reflects the effective yield at the time of purchase by the Fund.
- (a) Tradeable Custodial Receipts (TRACERS).
- (b) Floating rate note.
- (c) Non-income producing security.
- (d) Represents a pay-in-kind security which may pay interest/dividends in additional face/shares.
- (e) The security may be offered and sold to "qualified institutional buyers" under Rule 144A of the Securities Act of 1933.
- (f) Warrants entitle the Fund to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (g) Restricted securities as to resale. The value of the Fund's investments in restricted securities was approximately \$3,283,000, representing 1.1% of net assets.

NOTES TO FINANCIAL STATEMENTS

1. Significant Accounting Policies:

Corporate High Yield Fund III, Inc. (the "Fund") is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The Fund's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which may require the use of management accruals and estimates. The Fund determines and makes available for publication the net asset value of its Common Stock on a weekly basis. The Fund's Common Stock is listed on the New York Stock Exchange under the symbol CYE. The following is a summary of significant accounting policies followed by the Fund.

(a) Valuation of investments--Portfolio securities are valued on the basis of

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

prices furnished by one or more pricing services which determine prices for normal, institutional-size trading units of such securities using market information, transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. In certain circumstances, portfolio securities are valued at the last sale price on the exchange that is the primary market for such securities, or the last quoted bid price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales during the day. The value of interest rate swaps, caps and floors is determined in accordance with a formula and then confirmed periodically by obtaining a bank quotation. Financial futures contracts and options thereon, which are traded on exchanges, are valued at their closing prices as of the close of such exchanges. Options written or purchased are valued at the last sale price in the case of exchange-traded options. In the case of options traded in the over-the-counter market, valuation is the last asked price (options written) or the last bid price (options purchased). Obligations with remaining maturities of sixty days or less are valued at amortized cost, which approximates market value, unless this method no longer produces fair valuations. Rights or warrants to acquire stock, or stock acquired pursuant to the exercise of a right or warrant, may be valued taking into account various factors such as original cost to the Fund, earnings and net worth of the issuer, market prices for securities of similar issuers, assessment of the issuer's future prosperity, liquidation value or third party transactions involving the issuer's securities. Securities and assets for which there exist no price quotations or valuations and all other assets are valued at fair value as determined in good faith by or on behalf of the Board of Directors of the Fund. Occasionally, events affecting the values of securities and other assets may occur between the times at which valuations of such securities are determined (that is, close of the market on which such securities trade) and the close of business on the NYSE. If events (for example, company announcement, natural disasters, market volatility) occur during such periods that are expected to materially affect the value for such securities, those securities may be valued at their fair market value as determined in good faith by the Fund's Board of Directors or by the investment adviser using a pricing service and/or procedures approved by the Board of Directors of the Fund.

(b) Derivative financial instruments--The Fund may engage in various portfolio investment strategies both to increase the return of the Fund and to hedge, or protect, its exposure to interest rate movement and movements in the securities markets. Losses may arise due to changes in the value of the contract or if the counterparty does not perform under the contract.

o Options--The Fund is authorized to write and purchase call and put options. When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked to market to reflect the current market value of the option written.

16 & 17

Corporate High Yield Fund III, Inc., May 31, 2003

NOTES TO FINANCIAL STATEMENTS (continued)

When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

closing transaction exceeds the premium paid or received).

Written and purchased options are non-income producing investments.

o Financial futures contracts--The Fund may purchase or sell financial futures contracts and options on such futures contracts. Futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

o Interest rate swaps--The Fund is authorized to enter into swap agreements. In a swap agreement, the Fund exchanges with the counterparty their respective commitments to pay or receive interest on a specified notional principal amount. If the counterparty defaults on its obligation, the Fund's ability to receive interest will be delayed or limited. Furthermore, if the Fund does not have sufficient income to pay its obligation under the swap agreement, the Fund would be in default and the counterparty would be able to terminate the swap agreement. When the swap agreement is closed, the Fund records a realized gain or loss equal to the difference between the value of the swap agreement at the time it was entered into and the value at the time it was closed.

(c) Income taxes--It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no Federal income tax provision is required.

(d) Security transactions and investment income--Security transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income is recognized on the accrual basis. The Fund amortizes all premiums and discounts on debt securities.

(e) Dividends and distributions--Dividends from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates.

(f) Securities lending--The Fund may lend securities to financial institutions that provide cash or securities issued or guaranteed by the U.S. government as collateral, which will be maintained at all times in an amount equal to at least 100% of the current market value of the loaned securities. The market value of the loaned securities is determined at the close of business of the Fund and any additional required collateral is delivered to the Fund on the next business day. Where the Fund receives securities as collateral for the loaned securities, it collects a fee from the borrower. The Fund typically receives the income on the loaned securities but does not receive the income on the collateral. Where the Fund receives cash collateral, it may invest such collateral and retain the amount earned on such investment, net of any amount rebated to the borrower. Loans of securities are terminable at any time and the borrower, after notice, is required to return borrowed securities within five business days. The Fund may pay reasonable finder's, lending agent, administrative and custodial fees in connection with its loans. In the event that the borrower defaults on its obligation to return borrowed securities because of insolvency or for any other reason, the Fund could experience delays and costs in gaining access to the collateral. The Fund also could suffer a loss where the value of the collateral

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

falls below the market value of the borrowed securities, in the event of borrower default or in the event of losses on investments made with cash collateral.

(g) Reclassification--Accounting principles generally accepted in the United States of America require that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. Accordingly, the current year's permanent book/tax difference of \$577,027 has been reclassified between accumulated net realized capital losses and undistributed net investment income. This reclassification has no effect on net assets or net asset value per share.

2. Investment Advisory Agreement and Transactions with Affiliates:

The Fund has entered into an Investment Advisory Agreement with Fund Asset Management, L.P. ("FAM"). The general partner of FAM is Princeton Services, Inc. ("PSI"), an indirect, wholly-owned subsidiary of Merrill Lynch & Co., Inc. ("ML & Co."), which is the limited partner. FAM has entered into a Sub-Advisory Agreement with Merrill Lynch Asset Management U.K. Limited ("MLAM U.K."), an affiliate of FAM, pursuant to which MLAM U.K. provides investment advisory services to FAM with respect to the Fund. There is no increase in the aggregate fees paid by the Fund for these services.

FAM is responsible for the management of the Fund's portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operation of the Fund. For such services, the Fund pays a monthly fee at an annual rate of .60% of the Fund's average weekly net assets plus the proceeds of any outstanding principal borrowed.

The Fund has received an exemptive order from the Securities and Exchange Commission permitting it to lend portfolio securities to Merrill Lynch, Pierce, Fenner & Smith Incorporated ("MLPF&S") a subsidiary of ML & Co., or its affiliates. Pursuant to that order, the Fund also has retained Merrill Lynch Investment Managers, LLC ("MLIM, LLC"), an affiliate of FAM, as the securities lending agent for a fee based on a share of the returns on investment of cash collateral. MLIM, LLC may, on behalf of the Fund, invest cash collateral received by the Fund for such loans, among other things, in a private investment company managed by MLIM, LLC or in registered money market funds advised by FAM or its affiliates. For the year ended May 31, 2003, MLIM, LLC received \$862 in securities lending agent fees.

For the year ended May 31, 2003, the Fund paid Merrill Lynch Security Pricing Service, an affiliate of MLPF&S, \$201 for security price quotations to compute the net asset value of the Fund.

In addition, MLPF&S received \$10,859 in commissions on the execution of portfolio security transactions for the Fund for the year ended May 31, 2003.

For the year ended May 31, 2003, the Fund reimbursed FAM \$5,650 for certain accounting services.

Certain officers and/or directors of the Fund are officers and/or directors of FAM, PSI and/or ML & Co.

3. Investments:

Purchases and sales of investments, excluding short-term securities, for the year ended May 31, 2003 were \$261,493,298 and \$249,350,104, respectively.

Net realized losses for the year ended May 31, 2003 and net unrealized losses as of May 31, 2003 were as follows:

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

	Realized Losses	Unrealized Losses
Long-term investments	\$ (54,338,746)	\$ (8,612,924)
Total	\$ (54,338,746) =====	\$ (8,612,924) =====

As of May 31, 2003, net unrealized depreciation for Federal income tax purposes aggregated \$6,682,988, of which \$28,696,883 related to appreciated securities and \$35,379,871 related to depreciated securities. The aggregate cost of investments at May 31, 2003 for Federal income tax purposes was \$383,419,967.

4. Capital Share Transactions:

The Fund is authorized to issue 200,000,000 shares of capital stock, par value \$.10, all of which were initially classified as Common Stock. The Board of Directors is authorized, however, to classify and reclassify any unissued shares of capital stock without approval of the holders of Common Stock.

Shares issued and outstanding during the years ended May 31, 2003 and May 31, 2002 increased by 496,500 and 736,614, respectively, as a result of dividend reinvestment.

18 & 19

Corporate High Yield Fund III, Inc., May 31, 2003

NOTES TO FINANCIAL STATEMENTS (concluded)

5. Short-Term Borrowings:

On May 28, 2003, the Fund entered into its \$160,000,000 revolving credit and security agreement with Citibank, N.A. and other lenders (the "Lenders"). Under the revolving credit and security agreement, the Fund may borrow money through (i) a line of credit from certain Lenders at the Eurodollar rate plus .75% or the highest of the Federal Funds rate plus .50%, a base rate as determined by Citibank, N.A. and/or the latest three-week moving average of secondary market morning offering rates in the United States for three-month certificates of deposit of major United States money market banks plus .50%, or (ii) the issuance of commercial paper notes by certain Lenders at rates of interest based upon the weighted average of the per annum rates paid or payable by such Lenders in respect of those commercial paper notes. As security for its obligations to the Lenders under the revolving credit and security agreement, the Fund has granted a security interest in substantially all of its assets to and in favor of the Lenders.

For the year ended May 31, 2003, the average amount borrowed was approximately \$75,558,000 and the daily weighted average interest rate was 1.84%.

6. Distributions to Shareholders:

The Fund paid an ordinary income dividend in the amount of \$.073485 per share on June 30, 2003 to shareholders of record on June 16, 2003.

The tax character of distributions paid during the fiscal years ended May 31, 2003 and May 31, 2002 was as follows:

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

	5/31/2003	5/31/2002
Distributions paid from:		
Ordinary income	\$33,386,856	\$40,453,896
Total taxable distributions	\$33,386,856	\$40,453,896
	=====	=====

As of May 31, 2003, the components of accumulated losses on a tax basis were as follows:

Undistributed ordinary income--net	\$ 3,722,543
Undistributed long-term capital gains--net	--
Total undistributed earnings--net	3,722,543
Capital loss carryforward	(235,005,228)*
Unrealized losses--net	(19,828,492)**
Total accumulated losses--net	\$(251,111,177)
	=====

* On May 31, 2003, the Fund had a net capital loss carryforward of \$235,005,228, of which \$6,419,421 expires in 2007, \$21,954,305 expires in 2008, \$34,200,029 expires in 2009, \$52,918,036 expires in 2010 and \$119,513,437 expires in 2011. This amount will be available to offset like amounts of any future taxable gains.

** The difference between book-basis and tax-basis net unrealized losses is attributable primarily to the tax deferral of losses on wash sales, the difference between book and tax amortization methods for premiums and discounts on fixed income securities, other book/tax basis adjustments, the book/tax differences in the accrual of income on securities in default and the deferral of post-October capital losses for tax purposes.

INDEPENDENT AUDITORS' REPORT

To the Shareholders and Board of Directors of
Corporate High Yield Fund III, Inc.:

We have audited the accompanying statement of assets, liabilities and capital, including the schedule of investments, of Corporate High Yield Fund III, Inc. as of May 31, 2003, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of May 31, 2003, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Corporate High Yield Fund III, Inc. as of May 31, 2003, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and its financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

PORTFOLIO INFORMATION (unaudited)

As of May 31, 2003

=====		
Top Ten Holdings	Williams Companies Inc.*	Williams Companies is involved in a number of energy activities. Activities include transport and storage of natural gas, petroleum products, as well as oil and gas exploration. The company is also a refiner of petroleum products and related commodities.
	The AES Corporation*	AES is a worldwide power producer with operations in Europe, Latin America and Asia. Electricity generated primarily made to wholesale customers, although the company also has a distribution business to end users.
	Comcast UK Cable Partners Ltd.	Comcast provides communications services to residential and wholesale customers. The company offers residential television and Internet access services.
	Terra*	Terra is a producer of nitrogen fertilizer and crop protection products. Customers include agricultural, turf, ornamental and industrial customers. Terra also produces nitrogen products and related services.
	Qwest*	Qwest provides a broad range of telecommunication services including broadband Internet-based data, voice and image communications, exchange services, and data and long-distance services to residential and business customers. The company also provides high-speed Internet access and private networks.
	Cablevision Systems Corporation (CSC)*	Cablevision provides telecommunications and entertainment services. The company has operations in multimedia delivery, subscription television services, championship professional sports, and television program networks. Cablevision serves customers primarily in the New York metropolitan area.

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

Primedia, Inc.*	Primedia, a media company, provides specialized information for the consumer, business-to-business and education markets. Primedia's products include specialty magazines, technical and information products, supplemental education materials and networks. Primedia's consumer magazines include Success, Modern Bride.
Georgia Pacific Corporation*	Georgia Pacific produces pulp, paper and building products. Its line of paper products includes pulp, communication paper, board, packaging and tissue. Consumer brands include Kleenex, Gras paper towels, Quilted Northern, Angel Soft and Softex tissue, the Green Forest brand and Dixie disposable paper service products. Building products include plywood, particle board and industrial panels, lumber, gypsum products.
Edison International Inc.*	Through its subsidiaries, this utility holding company owns and operates power generation facilities worldwide. The company also owns and manages energy and infrastructure projects. Our bonds are issued through the company's Mission Energy Holdings subsidiary.
Forest City Enterprises Inc.*	Forest City is a diversified real estate development company that acquires, owns and manages commercial and residential real estate projects in 21 states and the District of Columbia.

* Includes combined holdings and/or affiliates.

AUTOMATIC DIVIDEND REINVESTMENT PLAN

The following description of the Fund's Automatic Dividend Reinvestment Plan (the "Plan") is sent to you annually as required by Federal securities laws.

Pursuant to the Fund's Plan, unless a holder of Common Stock otherwise elects, all dividend and capital gains distributions will be automatically reinvested by EquiServe (the "Plan Agent"), as agent for shareholders in administering the Plan, in additional shares of Common Stock of the Fund. Holders of Common Stock who elect not to participate in the Plan will receive all distributions in cash paid by check mailed directly to the shareholder of record (or, if the shares are held in street or other nominee name then to such nominee) by EquiServe, as dividend paying agent. Such participants may elect not to participate in the Plan and to receive all distributions of dividends and capital gains in cash by sending written instructions to EquiServe, as dividend paying agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by written notice if received by the Plan Agent not less than ten days prior to any dividend record date; otherwise such termination will be effective with respect to any subsequently declared dividend or distribution.

Whenever the Fund declares an income dividend or capital gains distribution (collectively referred to as "dividends") payable either in shares or in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in shares of Common Stock. The shares will be acquired by the Plan Agent for the participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized shares of Common Stock from the Fund ("newly issued shares") or (ii) by purchase of outstanding shares of Common Stock on the open market ("open-market purchases") on the New York Stock Exchange or elsewhere. If on the payment date for the dividend, the net asset value per share of the Common Stock is equal to or less than the market price per share of the Common Stock plus estimated brokerage commissions (such conditions being referred to herein as "market premium"), the Plan Agent will invest the dividend amount in newly

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

issued shares on behalf of the participant. The number of newly issued shares of Common Stock to be credited to the participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value (such condition being referred to herein as "market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases.

In the event of a market discount on the dividend payment date, the Plan Agent will have until the last business day before the next date on which the shares trade on an "ex-dividend" basis or in no event more than 30 days after the dividend payment date (the "last purchase date") to invest the dividend amount in shares acquired in open-market purchases. It is contemplated that the Fund will pay monthly income dividends. Therefore, the period during which open-market purchases can be made will exist only from the payment date on the dividend through the date before the next "ex-dividend" date, which typically will be approximately ten days. If, before the Plan Agent has completed its open-market purchases, the market price of a share of Common Stock exceeds the net asset value per share, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Fund's shares, resulting in the acquisitions of fewer shares than if the dividend had been paid in newly issued shares on the dividend payment date. Because of the foregoing difficulty with respect to open-market purchases, the Plan provides that if the Plan Agent is unable to invest the full dividend amount in open-market purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Agent will cease making open-market purchases

22 & 23

Corporate High Yield Fund III, Inc., May 31, 2003

AUTOMATIC DIVIDEND REINVESTMENT PLAN (concluded)

and will invest the uninvested portion of the dividend amount in newly issued shares at the close of business on the last purchase date determined by dividing the uninvested portion of the dividend by the net asset value per share.

The Plan Agent maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the account, including information needed by shareholders for tax records. Shares in the account of each Plan participant will be held by the Plan Agent in non-certificated form in the name of the participant, and each shareholder's proxy will include those shares purchased or received pursuant to the Plan. The Plan Agent will forward all proxy solicitation materials to participants and vote proxies for shares held pursuant to the Plan in accordance with the instructions of the participants.

In the case of shareholders such as banks, brokers or nominees which hold shares of others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the record shareholders as representing the total amount registered in the record shareholder's name and held for the account of beneficial owners who are to participate in the Plan.

There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with the reinvestment of dividends.

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

The automatic reinvestment of dividends and distributions will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such dividends.

Shareholders participating in the Plan may receive benefits not available to shareholders not participating in the Plan. If the market price plus commissions of the Fund's shares is above the net asset value, participants in the Plan will receive shares of the Fund at less than they could otherwise purchase them and will have shares with a cash value greater than the value of any cash distribution they would have received on their shares. If the market price plus commissions is below the net asset value, participants will receive distributions in shares with a net asset value greater than the value of any cash distribution they would have received on their shares. However, there may be insufficient shares available in the market to make distributions in shares at prices below the net asset value. Also, since the Fund does not redeem shares, the price on resale may be more or less than the net asset value.

The value of shares acquired pursuant to the Plan will generally be excluded from gross income to the extent that the cash amount reinvested would be excluded from gross income. If, when the Fund's shares are trading at a premium over net asset value, the Fund issues shares pursuant to the Plan that have a greater fair market value than the amount of cash reinvested, it is possible that all or a portion of such discount (which may not exceed 5% of the fair market value of the Fund's shares) could be viewed as a taxable distribution. If the discount is viewed as a taxable distribution, it is also possible that the taxable character of this discount would be allocable to all the shareholders, including shareholders who do not participate in the Plan. Thus, shareholders who do not participate in the Plan might be required to report as ordinary income a portion of their distributions equal to their allocable share of the discount.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence concerning the Plan should be directed to the Plan Agent at EquiServe, P.O. Box 43010, Providence, RI 02940-3010, Telephone: 1-800-426-5523.

Corporate High Yield Fund III, Inc. seeks to provide shareholders with current income by investing primarily in a diversified portfolio of fixed income securities that are rated in the lower rating categories of the established rating services (Ba or lower by Moody's Investors Service, Inc. or BB or lower by Standard & Poor's Corporation) or are unrated securities of comparable quality.

This report, including the financial information herein, is transmitted to shareholders of Corporate High Yield Fund III, Inc. for their information. It is not a prospectus. The Fund has leveraged its Common Stock to provide Common Stock shareholders with a potentially higher rate of return. Leverage creates risk for Common Stock shareholders, including the likelihood of greater volatility of net asset value and market price of Common Stock shares, and the risk that fluctuations in short-term interest rates may reduce the Common Stock's yield. Past performance results shown in this report should not be considered a representation of future performance. Statements and other information herein are as dated and are subject to change.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free 1-800-MER-FUND (1-800-637-3863); (2) on www.mutualfunds.ml.com; and (3) on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

- Item 2 - Did registrant adopt a code of ethics, as of the end of the period covered by this report, that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party? If not, why not? Briefly describe any amendments or waivers that occurred during the period. State here if code of ethics/amendments/waivers are on website and give website address-. State here if fund will send code of ethics to shareholders without charge upon request-- N/A (annual requirement only and not required to be answered until the registrant's fiscal year-end on or after July 15, 2003)
- Item 3 - Did the registrant's board of directors determine that the registrant either: (i) has at least one audit committee financial expert serving on its audit committee; or (ii) does not have an audit committee financial expert serving on its audit committee? If yes, disclose name of financial expert and whether he/she is "independent," (fund may, but is not required, to disclose name/independence of more than one financial expert) If no, explain why not. -N/A (annual requirement only and not required to be answered until the registrant's fiscal year-end on or after July 15, 2003)
- Item 4 - Disclose annually only (not answered until December 15, 2003)
- (a) Audit Fees - Disclose aggregate fees billed for each of the last two fiscal years for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years. N/A.
- (b) Audit-Related Fees - Disclose aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item. Registrants shall describe the nature of the services comprising the fees disclosed under this category. N/A.
- (c) Tax Fees - Disclose aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning. Registrants shall describe the nature of the services comprising the fees disclosed under this category. N/A.
- (d) All Other Fees - Disclose aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item. Registrants shall describe the nature of the services comprising the fees disclosed under this category. N/A.
- (e) (1) Disclose the audit committee's pre-approval policies and procedures described in paragraph (c) (7) of Rule 2-01 of Regulation S-X. N/A.

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

- (e) (2) Disclose the percentage of services described in each of paragraphs (b) through (d) of this Item that were approved by the audit committee pursuant to paragraph (c) (7) (i) (C) of Rule 2-01 of Regulation S-X. N/A.
- (f) If greater than 50%, disclose the percentage of hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees. N/A.
- (g) Disclose the aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for each of the last two fiscal years of the registrant. N/A.
- (h) Disclose whether the registrant's audit committee has considered whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any subadviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c) (7) (ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence. N/A.

Item 5 - If the registrant is a listed issuer as defined in Rule 10A-3 under the Exchange Act, state whether or not the registrant has a separately-designated standing audit committee established in accordance with Section 3(a) (58) (A) of the Exchange Act. If the registrant has such a committee, however designated, identify each committee member. If the entire board of directors is acting as the registrant's audit committee in Section 3(a) (58) (B) of the Exchange Act, so state.

If applicable, provide the disclosure required by Rule 10A-3(d) under the Exchange Act regarding an exemption from the listing standards for audit committees. N/A

(Listed issuers must be in compliance with the new listing rules by the earlier of their first annual shareholders meeting after January 2004, or October 31, 2004 (annual requirement))

Item 6 - Reserved

Item 7 - For closed-end funds that contain voting securities in their portfolio, describe the policies and procedures that it uses to determine how to vote proxies relating to those portfolio securities.

Proxy Voting Policies and Procedures

Each Fund's Board of Directors/Trustees has delegated to Merrill Lynch Investment Managers, L.P. and/or Fund Asset Management, L.P. (the "Investment Adviser") authority to vote all proxies relating to the Fund's portfolio securities. The Investment Adviser has adopted policies and procedures ("Proxy Voting Procedures") with respect to the voting of

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

proxies related to the portfolio securities held in the account of one or more of its clients, including a Fund. Pursuant to these Proxy Voting Procedures, the Investment Adviser's primary objective when voting proxies is to make proxy voting decisions solely in the best interests of each Fund and its shareholders, and to act in a manner that the Investment Adviser believes is most likely to enhance the economic value of the securities held by the Fund. The Proxy Voting Procedures are designed to ensure that the Investment Adviser considers the interests of its clients, including the Funds, and not the interests of the Investment Adviser, when voting proxies and that real (or perceived) material conflicts that may arise between the Investment Adviser's interest and those of the Investment Adviser's clients are properly addressed and resolved.

In order to implement the Proxy Voting Procedures, the Investment Adviser has formed a Proxy Voting Committee (the "Committee"). The Committee is comprised of the Investment Adviser's Chief Investment Officer (the "CIO"), one or more other senior investment professionals appointed by the CIO, portfolio managers and investment analysts appointed by the CIO and any other personnel the CIO deems appropriate. The Committee will also include two non-voting representatives from the Investment Adviser's Legal department appointed by the Investment Adviser's General Counsel. The Committee's membership shall be limited to full-time employees of the Investment Adviser. No person with any investment banking, trading, retail brokerage or research responsibilities for the Investment Adviser's affiliates may serve as a member of the Committee or participate in its decision making (except to the extent such person is asked by the Committee to present information to the Committee, on the same basis as other interested knowledgeable parties not affiliated with the Investment Adviser might be asked to do so). The Committee determines how to vote the proxies of all clients, including a Fund, that have delegated proxy voting authority to the Investment Adviser and seeks to ensure that all votes are consistent with the best interests of those clients and are free from unwarranted and inappropriate influences. The Committee establishes general proxy voting policies for the Investment Adviser and is responsible for determining how those policies are applied to specific proxy votes, in light of each issuer's unique structure, management, strategic options and, in certain circumstances, probable economic and other anticipated consequences of alternate actions. In so doing, the Committee may determine to vote a particular proxy in a manner contrary to its generally stated policies. In addition, the Committee will be responsible for ensuring that all reporting and recordkeeping requirements related to proxy voting are fulfilled.

The Committee may determine that the subject matter of a recurring proxy issue is not suitable for general voting policies and requires a case-by-case determination. In such cases, the Committee may elect not to adopt a specific voting policy applicable to that issue. The Investment Adviser believes that certain proxy voting issues require investment analysis - such as approval of mergers and other significant corporate transactions - akin to investment decisions, and are, therefore, not suitable for general guidelines. The Committee may elect to adopt a common position for the Investment Adviser on certain proxy votes that are akin to investment decisions, or determine to permit the portfolio manager to make individual decisions on how best to maximize economic value for a Fund (similar to normal buy/sell investment decisions made by such portfolio managers). While it is expected that the Investment Adviser will generally seek to vote proxies over which the Investment Adviser exercises voting authority in a uniform manner for all the Investment Adviser's clients, the Committee, in conjunction with a Fund's portfolio manager, may determine that the Fund's specific circumstances require that its

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

proxies be voted differently.

To assist the Investment Adviser in voting proxies, the Committee has retained Institutional Shareholder Services ("ISS"). ISS is an independent adviser that specializes in providing a variety of fiduciary-level proxy-related services to institutional investment managers, plan sponsors, custodians, consultants, and other institutional investors. The services provided to the Investment Adviser by ISS include in-depth research, voting recommendations (although the Investment Adviser is not obligated to follow such recommendations), vote execution, and recordkeeping. ISS will also assist the Fund in fulfilling its reporting and recordkeeping obligations under the Investment Company Act.

The Investment Adviser's Proxy Voting Procedures also address special circumstances that can arise in connection with proxy voting. For instance, under the Proxy Voting Procedures, the Investment Adviser generally will not seek to vote proxies related to portfolio securities that are on loan, although it may do so under certain circumstances. In addition, the Investment Adviser will vote proxies related to securities of foreign issuers only on a best efforts basis and may elect not to vote at all in certain countries where the Committee determines that the costs associated with voting generally outweigh the benefits. The Committee may at any time override these general policies if it determines that such action is in the best interests of a Fund.

From time to time, the Investment Adviser may be required to vote proxies in respect of an issuer where an affiliate of the Investment Adviser (each, an "Affiliate"), or a money management or other client of the Investment Adviser (each, a "Client") is involved. The Proxy Voting Procedures and the Investment Adviser's adherence to those procedures are designed to address such conflicts of interest. The Committee intends to strictly adhere to the Proxy Voting Procedures in all proxy matters, including matters involving Affiliates and Clients. If, however, an issue representing a non-routine matter that is material to an Affiliate or a widely known Client is involved such that the Committee does not reasonably believe it is able to follow its guidelines (or if the particular proxy matter is not addressed by the guidelines) and vote impartially, the Committee may, in its discretion for the purposes of ensuring that an independent determination is reached, retain an independent fiduciary to advise the Committee on how to vote or to cast votes on behalf of the Investment Adviser's clients.

In the event that the Committee determines not to retain an independent fiduciary, or it does not follow the advice of such an independent fiduciary, the powers of the Committee shall pass to a subcommittee, appointed by the CIO (with advice from the Secretary of the Committee), consisting solely of Committee members selected by the CIO. The CIO shall appoint to the subcommittee, where appropriate, only persons whose job responsibilities do not include contact with the Client and whose job evaluations would not be affected by the Investment Adviser's relationship with the Client (or failure to retain such relationship). The subcommittee shall determine whether and how to vote all proxies on behalf of the Investment Adviser's clients or, if the proxy matter is, in their judgment, akin to an investment decision, to defer to the applicable portfolio managers, provided that, if the subcommittee determines to alter the Investment Adviser's normal voting guidelines or, on matters where the Investment Adviser's policy is case-by-case, does not follow the voting recommendation of any proxy voting service or other independent fiduciary that may be retained to provide research or advice to the Investment Adviser on that matter, no proxies relating to the Client may be voted unless the Secretary, or in the Secretary's absence, the Assistant Secretary of the Committee concurs that the subcommittee's determination

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

is consistent with the Investment Adviser's fiduciary duties.

In addition to the general principles outlined above, the Investment Adviser has adopted voting guidelines with respect to certain recurring proxy issues that are not expected to involve unusual circumstances. These policies are guidelines only, and the Investment Adviser may elect to vote differently from the recommendation set forth in a voting guideline if the Committee determines that it is in a Fund's best interest to do so. In addition, the guidelines may be reviewed at any time upon the request of a Committee member and may be amended or deleted upon the vote of a majority of Committee members present at a Committee meeting at which there is a quorum.

The Investment Adviser has adopted specific voting guidelines with respect to the following proxy issues:

- o Proposals related to the composition of the Board of Directors of issuers other than investment companies. As a general matter, the Committee believes that a company's Board of Directors (rather than shareholders) is most likely to have access to important, nonpublic information regarding a company's business and prospects, and is therefore best-positioned to set corporate policy and oversee management. The Committee, therefore, believes that the foundation of good corporate governance is the election of qualified, independent corporate directors who are likely to diligently represent the interests of shareholders and oversee management of the corporation in a manner that will seek to maximize shareholder value over time. In individual cases, the Committee may look at a nominee's history of representing shareholder interests as a director of other companies or other factors, to the extent the Committee deems relevant.
- o Proposals related to the selection of an issuer's independent auditors. As a general matter, the Committee believes that corporate auditors have a responsibility to represent the interests of shareholders and provide an independent view on the propriety of financial reporting decisions of corporate management. While the Committee will generally defer to a corporation's choice of auditor, in individual cases, the Committee may look at an auditors' history of representing shareholder interests as auditor of other companies, to the extent the Committee deems relevant.
- o Proposals related to management compensation and employee benefits. As a general matter, the Committee favors disclosure of an issuer's compensation and benefit policies and opposes excessive compensation, but believes that compensation matters are normally best determined by an issuer's board of directors, rather than shareholders. Proposals to "micro-manage" an issuer's compensation practices or to set arbitrary restrictions on compensation or benefits will, therefore, generally not be supported.
- o Proposals related to requests, principally from management, for approval of amendments that would alter an issuer's capital structure. As a general matter, the Committee will support requests that enhance the rights of common shareholders and oppose requests that appear to be unreasonably dilutive.
- o Proposals related to requests for approval of amendments to an issuer's charter or by-laws. As a general matter, the Committee opposes poison pill provisions.
- o Routine proposals related to requests regarding the formalities of corporate meetings.

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

- o Proposals related to proxy issues associated solely with holdings of investment company shares. As with other types of companies, the Committee believes that a fund's Board of Directors (rather than its shareholders) is best-positioned to set fund policy and oversee management. However, the Committee opposes granting Boards of Directors authority over certain matters, such as changes to a fund's investment objective, that the Investment Company Act envisions will be approved directly by shareholders.

Proposals related to limiting corporate conduct in some manner that relates to the shareholder's environmental or social concerns. The Committee generally believes that annual shareholder meetings are inappropriate forums for discussion of larger social issues, and opposes shareholder resolutions "micromanaging" corporate conduct or requesting release of information that would not help a shareholder evaluate an investment in the corporation as an economic matter. While the Committee is generally supportive of proposals to require corporate disclosure of matters that seem relevant and material to the economic interests of shareholders, the Committee is generally not supportive of proposals to require disclosure of corporate matters for other purposes.

- o Proposals related to limiting corporate conduct in some manner that relates to the shareholder's environmental or social concerns. The Committee generally believes that annual shareholder meetings are inappropriate forums for discussion of larger social issues, and opposes shareholder resolutions "micromanaging" corporate conduct or requesting release of information that would not help a shareholder evaluate an investment in the corporation as an economic matter. While the Committee is generally supportive of proposals to require corporate disclosure of matters that seem relevant and materials to the economic interests of shareholders, the Committee is generally not supportive of proposals to require disclosure of corporate matters for other purposes.

Item 8 -- Reserved

Item 9(a) - The registrant's certifying officers have reasonably designed such disclosure controls and procedures to ensure material information relating to the registrant is made known to us by others particularly during the period in which this report is being prepared. The registrant's certifying officers have determined that the registrant's disclosure controls and procedures are effective based on our evaluation of these controls and procedures as of a date within 90 days prior to the filing date of this report.

Item 9(b) -- There were no significant changes in the registrant's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Item 10 - Exhibits

10(a) - Attach code of ethics or amendments/waivers, unless code of ethics or amendments/waivers is on website or offered to shareholders upon request without charge. N/A.

10(b) - Attach certifications pursuant to Section 302 of the Sarbanes-Oxley Act. Attached hereto.

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSR

signed on its behalf by the undersigned, thereunto duly authorized.
