NEXIA HOLDINGS, INC. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements
June 30, 2005

NOTE 1 - BASIS OF FINANCIAL STATEMENT PRESENTATION

The accompanying unaudited consolidated financial statements are those of Nexia Holdings, Inc. and Subsidiaries (the Company) and have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted in accordance with such rules and regulations. The information furnished in the interim consolidated financial statements includes normal recurring adjustments and reflects all adjustments, which, in the opinion of management, are necessary for a fair presentation of such financial statements. Although management believes the disclosures and information presented are adequate to make the information not misleading, it is suggested that these interim consolidated financial statements be read in conjunction with the Company's most recent audited consolidated financial statements and notes thereto included in its December 31, 2004 Annual Report on Form 10-KSB. Operating results for the six months ended June 30, 2005 are not indicative of the results that may be expected for the year ending December 31, 2005.

NOTE 2 - GOING CONCERN

The Company's consolidated financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has incurred cumulative operating losses through June 30, 2005 of \$12,989,483 which raises substantial doubt about the Company's ability to continue as a going concern. The Company had a positive working capital balance at June 30, 2005 of \$96,127..

Primarily, revenues have not been sufficient to cover the Company's operating costs. Management's plans to enable the Company to continue as a going concern include the following:

- Increasing revenues from rental properties by implementing new marketing programs.
- Making certain improvements to certain rental properties in order to make them more marketable.
 - Reducing expenses through consolidating or disposing of certain subsidiary companies.
 - Purchasing revenue producing real estate.
 - Decreasing payroll expenses and options.
 - Raising additional capital through private placements of the Company's common stock.
- Using stock and option-based compensation to cover payroll and other permissible labor costs.

Table of Contents

NEXIA HOLDINGS, INC. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements (continued)
June 30, 2005

There can be no assurance that the Company can or will be successful in implementing any of its plans or that they will be successful in enabling the company to continue as a going concern. The Company's consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3 - ACCOUNTS RECEIVABLE - RELATED PARTY

The Company has a receivable at June 30, 2005 from a related party, Dark Dynamite, Inc., in the amount of \$19,535. The receivable arose from consulting services provided by the Company and expenses for Dark Dynamite, Inc. paid by the Company.

The Company has a receivable of \$51,119 at June 30, 2005 from a related party, Black Chandelier, Inc., a subsidiary of Dark Dynamite, Inc. The receivable arose from rental income charges and accounting services provided by the Company.

NOTE 4 - OUTSTANDING STOCK OPTIONS

A summary of the status of the Company's stock option plans as of June 30, 2005 and June 30, 2004 and changes during those periods is presented below. The numbers of options reflect the effect of the November 1, 2004 reverse stock split:

	Average Exercise		Average Exercise	
	Shares	Price	Shares	Price
Outstanding, beginning of period	822,500	\$ -	-	\$ -
Granted	850,000,000	0.00015	1,006,500	0.00027
Exercised	(850,000,000)	0.00015	(584,000)	0.00027
Outstanding end of period	822,500	\$ 0.00015	422,500	\$ 0.00027
Exercisable	669,250	\$ 0.00015	422,500	\$ 0.00027

The Company determined the fair value of the stock options issued during the periods at the grant dates by using the Fair Market Value on the date of option grant less the 75% share of cash received by the Company.

The outstanding end of period price of \$0.00015 is an average price per share.

In view of the significant uncertainties inherent in the forward looking statements included herein, the inclusion of such information should not be regarded as a representation by Nexia or any other person that the objectives and plans of Nexia will be achieved.

General

Nexia's current operations consist of the acquisition, leasing and selling of real estate. The following discussion examines Nexia's financial condition as a result of operations for the three and six month periods ended June 30, 2005, and compares those results with the comparable periods in 2004.

Real Estate Operations

Nexia's objective, with respect to real estate operations, is to acquire, through subsidiaries, properties which management believes to be undervalued and which Nexia is able to acquire with limited cash outlays. Nexia will consider properties anywhere within the continental United States. Nexia attempts to acquire such properties by assuming existing favorable financing and paying the balance of the purchase price with nominal cash payments or through the issuance of shares of common stock. Once such properties are acquired, Nexia leases them to primarily commercial tenants. Nexia also makes limited investments to improve the properties with the objective of increasing occupancy and cash flows. Management believes that, with limited improvements and effective management, properties can be sold at a profit within a relatively short period of time.

On April 20, 2005, West Jordan Real Estate Holdings, Inc. a majority owned subsidiary of Nexia Holdings, Inc. ("Company") closed on the sale of real property known as the Glendale Plaza Shopping Center, located at 1199 South Glendale Drive, Salt Lake City, Utah to Paul R. Hatch and Dorothy Hatch, Trustees of the Hatch Family Trust wherein the Company agreed to transfer the property in exchange for a cash purchase price of \$1,860,000. All distributions related to the closing were completed prior to the 30th of April, 2005. Nexia is expected to realize a profit of \$756,372 as a result of the sale of the property. A loan secured by the real property in the amount of \$952,665.92 has been paid off in full as a result of the closing. The secured lender has released the sum of \$59,911.58 presently held in an escrow account retained for maintenance projects on the real property.

Table of Contents

At the time of the transaction, the property held by West Jordan Real Holdings, Inc. had a depreciated cost basis of approximately \$987,758, including purchase price paid and improvements that were made to the property and buildings during the period of ownership by West Jordan and while it was a subsidiary of Nexia. A press release related to the closing was released on April 21, 2005.

Nexia recorded rental revenues of \$ 111,186 and \$ 207,822 for the three and six months ended June 30, 2005, as compared to \$118,864 and \$247,001 for the comparable periods in 2004. The decrease of \$7,678 or 6.5% in rental revenues was due in part to the sale of the Glendale shopping center.

Nexia had a loss from real estate operations of \$ 4,654 and \$79,358 for the three and six months ended June 30, 2005, compared to a loss of \$100,729 and \$164,952 for the comparable periods in 2004. The change in loss in the amount of \$ 96,075 or 95% is attributable primarily to the reduced costs of operation of the real estate holdings of the Company as a result of the sale of the Glendale shopping center.

Nexia will continue efforts to improve profitability and cash flow by working to increase occupancy and rental income from those properties currently held and to seek new investment opportunities as they can be located and evaluated. Accordingly, Nexia hopes to not only minimize any real estate cash flow deficit, but also generate sufficient cash to record a substantial profit upon property disposition.

Company Operations as a Whole

Revenues

Gross revenues for the three and six month periods ended June 30, 2005, were \$ 111,186 and \$ 207,822 as compared to \$153,683 and \$303,444 for the same periods in 2004. The changes in three and six month revenues of \$42,497 and \$95,622 respectively are due to decreased rents resulting from the sale of a shopping center and no consulting revenue in 2005.

Operating Losses

Nexia recorded operating losses of \$184,575 and \$630,812 for the three and six month periods ended June 30, 2005, compared to losses of \$502,253 and \$1,408,653 for the comparable periods in the year 2004. The decreases in three and six month operating losses of \$ 317,678, or 63.3%, and \$777,841, or 55.2%, respectively were the result of the reduction of general and administrative costs, reduction of costs from discontinued consulting activities and limited losses resulting from worthless marketable securities in 2005 compared to 2004.

Net Income

Nexia recorded net income of \$741,184 and \$ 317,809 for the three and six month periods ended June 30, 2005, as compared to net losses of \$397,751 and \$1,149,911 for the comparable periods in 2004. The change from net losses to gains, reported above, is attributable primarily to the gain recognized on the sale of the Glendale shopping center in the amount of \$756,471 and income from settlement of litigation totaling \$181,500. The Company also recorded a decrease in expenses as a result of issuing fewer shares of common stock for services rendered by employees and contractors during the first six months of 2005.

Nexia may not operate at a profit through fiscal 2005. Since Nexia's activities are tied to its ability to operate its real estate properties at a profit, future profitability or its revenue growth tends to follow changes in the real estate market place. There can be no guarantee that profitability or revenue growth can be realized in the future.

Table of Contents

Expenses

General and administrative expenses for the three and six month periods ended June 30, 2005, were \$179,921 and \$551,454 compared to \$290,674 and \$859,419 for the same periods in 2004. The decreases in three and six month expenses of \$110,753, or 38.1%, and \$307,965, or 35.8%, respectively are due primarily to the continued reductions in staff and operating expenses for the Company during 2005 compared to the comparable period in 2004.

Depreciation and amortization expenses for the three and six months ended June 30, 2005, were \$39,312 and \$67,742 compared to \$32,325 and \$65,398 for same periods in 2004. The decrease in the three month expense of \$4,523, or 13.7 %, was attributable to the sale of a shopping center in the second quarter of 2005. The increase in the six month depreciation of \$2,344, or 3.6 %, was the result of the building improvements completed by the Company during the year ended 2004 and the first six months of 2005.

Capital Resources and Liquidity

On June 30, 2005, Nexia had current assets of \$ 1,344,950 and \$ 3,872,416 in total assets compared to current assets of \$565,834 and total assets of \$4,006,060 as of December 31, 2004. Nexia had net working capital of \$ 96,127 at June 30, 2005, as compared to a net working capital deficit of \$51,335 at December 31, 2004. The increase in working capital is due primarily to the reduction in outstanding accounts payable and pay off of the Glendale Plaza mortgage, as a result of the property sale, during the first six months of 2005.

Net cash provided by operating activities was \$404,885 for the six months ended June 30, 2005, compared to net cash used by operating activities of \$131,346 for the six months ended June 30, 2004. The increase of cash provided in the sum of \$536,221 resulted primarily from reduced expenses and profit from the Glendale Plaza sale during the six month period ended June 30, 2005.

Cash provided by investing activities was \$555,875 for the six months ended June 30, 2005, compared to cash used by investing activities of \$117,030 for the comparable six month period in 2004. The increase of \$672,905 was primarily the result of the Glendale Plaza sale during the six month period ended June 30, 2005.

Cash used in financing activities was \$512,749 for the six months ended June 30, 2005, compared to cash provided of \$229,292 for the six months ended June 30, 2004. The decrease of \$742,041 was due primarily to the pay off of the mortgage note payable on the Glendale Plaza during the six months ended June 30, 2005.

Due to Nexia's debt service on real estate holdings and willingness to acquire properties with negative cash flow shortages, Nexia may experience occasional cash flow shortages. To cover these shortages we may need to issue its shares of common stock in payment for services rendered. The Company is currently experiencing challenges with regard to cash flows. We are looking at several options to improve this situation, including having signed for an equity line of credit.

Stock and Options To Employees and Contractors

During the quarter ending June 30, 2005, Nexia's subsidiary, Hudson Consulting Group, Inc., has discontinued a policy of limited cash payments to its employees and its reliance on the issuance of common stock registered under the Company's S-8 Registration Statement for employee compensation. During the three month period ended June 30, 2005 no common shares were issued by the Company pursuant to the S-8 Registration Statement. Subsequent to the end of the quarter a total of 150,000,000 shares were issued as compensation to four persons in exchange for services provided to the Company.

Impact of Inflation

Nexia believes that inflation has had a negligible effect on operations over the past three years. Nexia believes that it can offset inflationary increases in the cost of materials and labor by increasing sales and improving operating efficiencies.

Known Trends, Events, or Uncertainties

General Real Estate Investment Risks

Nexia's investments are subject to varying degrees of risk generally incident to the ownership of real property. Real estate values and income from Nexia's current properties may be adversely affected by changes in national or local economic conditions and neighborhood characteristics, changes in interest rates and in the availability, cost and terms of mortgage funds, the impact of present or future environmental legislation and compliance with environmental laws, the ongoing need for capital improvements, changes in governmental rules and fiscal policies, civil unrest, acts of God, including earthquakes and other natural disasters which may result in uninsured losses, acts of war, adverse changes in zoning laws and other factors which are beyond the control of Nexia.

Value and Illiquidity of Real Estate

Real estate investments are relatively illiquid. The ability of Nexia to vary its ownership of real estate property in response to changes in economic and other conditions is limited. If Nexia must sell an investment, there can be no assurance that Nexia will be able to dispose of it in the time period it desires or that the sales price of any investment will recoup the amount of Nexia's investment.

Property Taxes

Nexia's real property is subject to real property taxes. The real property taxes may increase or decrease as property tax rates change and as the property is assessed or reassessed by taxing authorities. If property taxes increase, Nexia's operations could be adversely affected.

ITEM 3. CONTROLS AND PROCEDURES

Nexia's president acts both as the Company's chief executive officer and chief financial officer ("Certifying Officer") and is responsible for establishing and maintaining disclosure controls and procedures for Nexia. The Certifying Officer has concluded (based on his evaluation of these controls and procedures as of a date within 90 days of the filing of this report) that the design and operation of Nexia's disclosure controls and procedures (as defined in Rule 13a-14(c) under the Securities Exchange Act of 1934) are effective and adequate.

There were no significant changes made in Nexia's internal controls or in other factors that could significantly affect Nexia's controls subsequent to the date of the evaluation, including any corrective actions with regard to slight deficiencies and material weaknesses. Due to the Certifying Officer's dual role as chief executive officer and chief financial officer, Nexia has no segregation of duties related to internal controls.
