respectively, compared to third quarter of 2005;
-- Achieved an EPS of Ps. 0.38 (US \$0.41 per ADS) for the third quarter.

Comments from the CEO:

Cristobal Mondragon, CEO of Bachoco stated, "The third quarter is historically the weakest of the year for our company, so the results we achieved in this quarter are in line with our expectations.

"The cost of our main raw materials was stable for most of the quarter with an increase towards the end.

"In Chicken, we have continued our efforts to better serve all of our distribution channels and are specifically focusing on enhancing the demand of our value-added products, which we believe have significant growth potential within the Mexican poultry industry.

"Prices of table eggs were strong, increasing 15.6% when compared with third quarter of 2005. These gains also reflect the Company's efforts to be innovative in this business line, and as we launch our enrichment type egg, we expect to quickly position this product with our customers.

"The company continues to increase its market share in Balance feed where volume sold grew 33.4% versus the same period of last year.

"On September, 20th, we announced the impact of hurricane Lane on our Northwest complex, located in the state of Sinaloa. As a result of our coordination efforts, we were able to maintain a steady supply to our customers in that region, and we are close the reestablishment of almost all of our production facilities that were affected by the hurricane.

"The Company's financial profile remains strong, with cash and cash equivalents of Ps. 3,474.3 million, and debt capitalization remains at historically low levels. Our CAPEX continues to be internally financed through our operations."

THIRD QUARTER 2006 RESULTS

Net Sales

Net sales for the quarter reached Ps. 3,576.2 million, a decrease of 6.7% compared to the Ps. 3,834.3 million reported for the 3Q05. This decline was mainly due to revenue decreases of 12.9% in chicken and 10.5% in swine, which were partially offset by increases of 34.5% in balanced feed and 16.5% in eggs sales.

Net Sales by Product Line	3Q05 %	3Q06 %
CHICKEN	81.75	76.33
EGGS	8.00	9.99

TOTAL COMPANY	100.00%	100.00%

Operating Results

Bachoco's gross margin was 20.5% in 3Q06, compared to 30.8% in 3Q05, mainly due to 12.0% decrease in the price of chicken and 10.3% in swine price. The Company's operating margin was 6.9%, compared to 18.4% in the same quarter of 2005. EBITDA during the quarter reached Ps. 377.2 million.

Net Income

Net income for 3Q06 was Ps. 277.1 million, while Earnings per share reached Ps. 0.38 (US \$0.41 per ADS) compared to Ps. 0.90 (US \$0.99 per ADS) reported in the same period of 2005.

RESULTS BY BUSINESS SEGMENT

Chicken

Chicken sales decreased by 12.9% during 3Q06 as a result of a 12.0% decrease in prices and 1.1% decrease in volume compared with 3Q05. The decline in prices was mainly due to more normalized market conditions, while the decrease in volume was due primarily to a reduction in yield as the Company moves to offering more value-added products.

Table Eggs

Sales of table eggs increased by 16.5% and volume improved by 4.5% during the 3Q06 as a result of an 11.5% increase in prices when compared to the same quarter in 3Q05. Prices and supply for this segment were more normalized in the market during the quarter.

Balanced Feed

Sales of balanced feed increased 34.5% when compared to third quarter of last year, as a result of a 33.4% increase in volume. Balanced feed prices remained similar to the same quarter of 2005.

Swine and Other Lines

Volume sold decreased 0.3%, while sales of swine decreased 10.5%. These declines are mainly a result of the 10.3% reduction in prices of swine compared to 3Q05 due to larger supplies in the Mexican market.

NINE MONTHS 2006 RESULTS

Net Sales

Net sales for the first nine months of 2006 reached Ps. 10,811.9 million, compared to Ps. 11,442.4 million reported for the same period of 2005, representing a decrease of 5.5%.
