(**) Earnings before interest, taxes, depreciation and amortization

In 1Q06, Sabesp's gross operating revenue totaled R\$ 1,456.8 million and the EBITDA totaled R\$ 695.4 million. The 16.4% increase in gross operating revenue was mostly due to the following factors:

- 4.6% increase in billed water and sewage volume;
- Tariff readjustment of 9% as of August, 2005;
- The migration of customers to higher tariff brackets also contributed to this result.

Net operating revenue for the period totaled R\$ 1.3 billion, a R\$ 185.9 million increase in comparison to the same period of 2005. EBIT recorded a substantial growth of 32.6% due to the lower increase in costs and

expenses in comparison to the gross operating revenue. EBITDA grew from R\$ 559.3 million in 1Q05, to R\$ 695.4 million in 1Q06, and EBITDA margin grew from 48.3% to 51.7% .

The R\$ 327.9 million net income was R\$ 176.5 million higher than recorded in the same period of 2005, resulting mainly from the increase in sales and the appreciation of the Real in the period.

Costs, administrative and selling expenses	744.9	795.9	51.0	6.8

3.1. Salaries and payroll

The Company expanded its services in 1Q06 and productivity per employee rose 4.3% . The number of connections per employee grew from 632 in 1Q05 to 659 in 1Q06.

Salary and payroll expenses moved up by R\$ 23.8 million, or 9.4%, due to the following factors:

- A 7.9% wage increase (IPC-FIPE index) as of May/05 and a 2% rise in the Performance Evaluation as of June/05;
- During the period head count reduced 1.7% from 17,669 employees in March, 2005 to 17,364 employees in March, 2006.

3.2. General supplies

In 1Q06, the figure moved up R\$ 4.0 million, or 16.5%, primarily due to the following changes:

- R\$ 1.2 million, with vehicle fuel and lubricants, or 23.8%, mainly due to price readjustments;
- R\$ 0.8 million with network maintenance;
- R\$ 0.5 million with residential connections maintenances;

3.3. Treatment supplies

The R\$1.5 million increase, or 4.8%, was due to a greater volume of water treatment.

3.4. Third-party services

In 1Q06 third-party services showed an increase of R\$ 5.7 million, or 5.6%, going from R\$ 101.6 million to R\$ 107.3 million. The main highlights were:

- Increase in residential connection maintenance in the amount of R\$ 2.2 million with water distribution and sewage collection systems in the São Paulo Metropolitan Region;
 - R\$ 1.5 million increase with systems maintenance in the São Paulo Metropolitan Region and R\$ 1.5 million in Handset meter-reading and invoicing.
-

3.5. Electric power

In 1Q06, showed a R\$7.3 million increase, or 7.4%, in comparison to 1Q05, from R\$ 98.0 million to R\$ 105.3 million, as described bellow:

- 1.15% increase in energy consumption, due to the increase of the produced volume;
- 9.9% decrease of the captive market expenses. Although a 10.4% weighted average tariff increase in this market, costs reduced once 19.6% of the consumed energy in this segment migrated to free market.
- Due to the migration from the captive market to the free market, there was a 48.1% increase in the free market consumption that, together with the 17.9% readjustment in tariffs, resulted in a 74.6% increase in these expenses;
- ECE (Emergency Capacity Charge) tariff dismissal, as from December 2005, led to a 2.2% savings with total expenses in 1Q06

3.6. General expenses

General expenses decreased by R\$ 16.3 million or 42.7%, in 1Q06 over 1Q05, from R\$ 38.2 million to R\$ 21.9 million, mainly due to:

- R\$ 18.3 million decrease resulting from the lower provision needs for losses and judicial contingency (environmental and civil) in 1Q06;
- This quarter has accounted a R\$ 1.6 million charge by the Brazilian Water Regulatory Agency (ANA Agência Nacional de Águas) for the use of water resources from Capivari, Piracicaba and Jundiá basins.

3.7. Credit write-offs

Showed a R\$ 22.3 million increase, or 4.8%, due to the increase in provision basis of the analyzed quarters, explained mainly by the 6.78% tariff readjustments in 2004, the 6.4% increase in consumption and progressive tariff increase.

3.8. Tax expenses

Tax expenses showed a R\$ 1.5 million, or 22.8%, increase mainly due to CPMF (Provisional Financial Transaction Tax) payment resulting from a greater volume of financial investment.

4. Financial expenses and passive monetary variations

4.1. Financial expenses

Financial expenses decreased by R\$ 6.7 million, thanks to:

- Interest on domestic loans and financing, which increased by R\$ 22.7 million, resulting from the entrance of the 7th (March / 05) and 8th (June / 05) debenture issues. This increase was offset by interest decrease on external loans and financing in the amount of R\$ 26.5 million related to both the lower total debt balance in foreign currency and the Real appreciation versus US dollar;
- R\$ 1.9 million increase, relating to the provision of interest and updates of new lawsuits;
- The decrease, in the amount of R\$ 1.8 million, in banking fees expenses;
- R\$ 2.5 million decrease regarding expenses charge on taxes, occurred in 2005 and non-recurring in 2006.

4.2. Passive monetary variation

Passive monetary variation recorded a R\$ 80.2 million gain, specially resulting from the 7.2% appreciation of the Real versus the US dollar in 1Q06 in comparison to the 0.4% depreciation occurred in 1Q05 and from a lower total debt balance in foreign currency.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
