**Earnings Release**  
Munich, April 27, 2006

**Siemens in the second quarter 2006 (January 1 to March 31)**

**Net income was 887 million and earnings per share were 1.00, both up 14% compared to the second quarter a year earlier.**

**Group profit from Operations was 1.325 billion, 8% higher than in the prior-year period.**

**Orders rose to 24.413 billion, up 22% year-over-year, and sales increased 21%, to 21.510 billion.**

**On a continuing basis, operating and investing activities provided net cash of 401 million compared to net cash provided of 142 million in the second quarter a year earlier.**

Results for the second quarter demonstrate that our Fit4More program is making a significant difference after just one year, said Siemens CEO Klaus Kleinfeld. Our evolving portfolio is positioning Siemens strongly in its growth markets, resulting in double-digit increases in sales and orders in the second quarter. We also earned higher profits at the majority of our operating Groups, and despite significantly higher charges at our I&C Groups we achieved an increase in net income as well.

Looking ahead, we anticipate that volume growth will even out somewhat compared to the rapid pace of the first half, and that severance programs already in place in the I&C Groups will result in further charges in the second half. Overall, we continue to focus all our efforts on achieving our 2007 targets.

For the second quarter of fiscal 2006, ended March 31, 2006, Siemens reported net income of 887 million, up 14% compared to 781 million in the same period a year earlier. Basic and diluted earnings per share rose to 1.00 and 0.95, respectively, from 0.88 and 0.84 in the same quarter a year earlier.

**Table of Contents**

Discontinued operations lost 14 million in the quarter, compared to a loss of 79 million in the prior-year period. Income from continuing operations in the second quarter was 901 million, and corresponding basic and diluted earnings per share were 1.01 and 0.97, respectively. A year earlier, income from continuing operations in the second quarter was 860 million, and corresponding basic and diluted earnings per share were 0.96 and 0.92, respectively.

Group profit from Operations in the second quarter was 1.325 billion, up 8% from 1.225 billion in the same period a year earlier. Most Groups within Operations increased their earnings year-over-year, with major earnings contributions from Automation and Drives (A&D), Medical Solutions (Med), Siemens VDO Automotive (SV) and Osram. Severance charges at Communications (Com) and Siemens Business Services (SBS) totaled 178 million, approximately double the level in the prior-year period.

Net income in the second quarter benefited from a gain on the sale of an investment and a positive effect related to the settlement of an arbitration proceeding, both within corporate items. In contrast, earnings from Financing and Real Estate activities in the second quarter declined to 77 million from 123 million in the prior-year period, which included a special dividend related to an investment.

Second-quarter orders of 24.413 billion, including large orders at Power Generation (PG) and Transportation Systems (TS), were up 22% compared to the second quarter a year earlier. Sales increased 21% year-over-year, to 21.510 billion. While sales and orders rose modestly in Germany, all other regions reported double-digit growth in both sales and orders for the quarter. Excluding currency translation and portfolio effects, second-quarter orders rose 9% and sales were up 8% year-over-year.

On a continuing basis, net cash from operating and investing activities within Operations in the second quarter was 173 million compared to a negative 153 million in the prior-year period. While the current period included significantly higher payouts from severance programs compared to the prior-year period, it also included higher proceeds from sales of investments. In both periods under review, Operations used significant cash for net working capital and capital expenditures associated with business growth. Within Financing and Real Estate and Corporate Treasury activities, net cash from operating and investing activities in the second quarter was 228 million compared to 295 million a year earlier.

**Table of Contents**

For Siemens on a continuing basis, operating and investing activities in the second quarter provided net cash of 401 million compared to net cash provided of 142 million a year earlier.

**Operations in the second quarter of fiscal 2006****Information and Communications****Communications (Com)**

	<b>Second Quarter</b>			
			<b>% Change</b>	
( in millions)	<b>2006</b>	<b>2005</b>	<b>Actual</b>	<b>Adjusted*</b>
Group profit	27	108	(75)%	
Group profit margin	0.8%	3.4%		
Sales	3,383	3,162	7%	3%
New orders	3,562	3,418	4%	0%

\* Excluding currency translation effects of 4% and 3% on sales and orders, respectively, and portfolio effects of 1% on orders.

Com's second-quarter sales and orders were 3.383 billion and 3.562 billion, respectively. Group profit of 27 million in the second quarter included a positive effect related to a contract renegotiation. Both the current and prior-year period included modest severance charges, which are expected to increase in the second half of the current year. Com's Carrier Networks business delivered most of the Group's sales growth year-over-year, as pricing pressure and shifts in sales mix resulted in flat sales in the Enterprise Networks business and a decline in sales in the Devices business.

**Siemens Business Services (SBS)**

	<b>Second Quarter</b>	
		<b>% Change</b>

( in millions)	<u>2006</u>	<u>2005</u>	<u>Actual</u>	<u>Adjusted*</u>
Group profit	(194)	(129)	(50)%

Sales	1,393	1,284	8%	1%
New orders	1,360	1,549	(12)%	(16)%

\* Excluding currency translation effects of 2% on sales and orders, and portfolio effects of 5% and 2% on sales and orders, respectively.

SBS recorded higher second-quarter sales of 1.393 billion. Orders came in at 1.360 billion, lower than in the prior-year period due to more selective order intake and a smaller number of major orders compared to the second quarter a year earlier.

**Table of Contents**

The Group's loss of 194 million included higher severance charges, which totaled 155 million compared to 63 million in the second quarter a year earlier. SBS expects severance charges in the second half of the fiscal year to come in below the level of the first half. After the end of the second quarter, SBS closed the sale of its Product Related Services (PRS) business to Fujitsu Siemens Computers (Holding) BV.

**Automation and Control****Automation and Drives (A&D)**

( in millions)	Second Quarter			
	2006	2005	% Change

Sales	3,155	2,386	32%	9%
New orders	3,471	2,481	40%	13%

\* Excluding currency translation effects of 4% on sales and orders, and portfolio effects of 19% and 23% on sales and orders, respectively.

A&D increased Group profit to a record 371 million in the second quarter, up 33% compared to the same period a year earlier. The increase was broad-based, including positive contributions from acquisitions between the periods under review. A&D boosted second-quarter sales 32% year-over-year, to 3.155 billion, benefiting from both acquisitions and organic growth. Orders increased even faster, rising 40% to 3.471 billion on strong demand in Asia-Pacific and Europe.

**Industrial Solutions and Services (I&S)**

	Second Quarter	
	% Change	

( in millions)	<u>2006</u>	<u>2005</u>	<u>Actual</u>	<u>Adjusted*</u>
Group profit	74	59	25%	
Group profit margin	3.5%	4.2%		
Sales	2,132	1,392	53%	9%
New orders	2,447	1,872	31%	(9)%

\* Excluding currency translation effects of 6% and 5% on sales and orders, respectively, and portfolio effects of 38% and 35% on sales and orders, respectively.

Second-quarter orders at I&S increased to 2.447 billion, largely due to Siemens' acquisition of VA Technologie AG (VA Tech) between the periods under review. The VA Tech activities allocated to I&S more than offset lower orders in the Group's Postal Automation and Airport Logistics divisions compared to the prior-year period.

**Table of Contents**

The VA Tech acquisition also made a significant contribution to the increase in sales at I&S. Group profit rose to 74 million from 59 million a year earlier, primarily due to higher sales.

**Siemens Building Technologies (SBT)**

( in millions)	Second Quarter			
	2006	2005	% Change	
			Actual	Adjusted*
Group profit	52	22	136%	
Group profit margin	4.4%	2.1%		
Sales	1,169	1,030	13%	7%
New orders	1,318	1,128	17%	12%

\* Excluding currency translation effects of 5% and 4% on sales and orders, respectively, and portfolio effects of 1% on sales and orders.

Group profit at SBT was 52 million in the second quarter, up from 22 million in the same period a year earlier. The increase resulted from higher capacity utilization combined with higher sales, which rose to 1.169 billion. Orders climbed to 1.318 billion, on higher demand for SBT's building automation and fire safety solutions.

**Power****Power Generation (PG)**

( in millions)	Second Quarter

Group profit	247	257	(4)%

	_____	_____	_____	_____

\* Excluding currency translation effects of 3% and 4% on sales and orders, respectively, and portfolio effects of 3% and 4% on sales and orders, respectively.

Second-quarter orders at PG climbed 30% year-over-year, to 3.259 billion, fueled by a number of major orders including a very large power generation contract in the Middle East. Sales rose 21%, to 2.453 billion, spanning the Group's power generation, industrial turbine and wind power businesses. Group profit was 247 million in the second quarter compared to 257 million in the same period a year earlier, due in part to lower equity earnings from a joint venture. The decline in the Group's earnings margin year-over-year reflects its changing sales mix as well as market-driven shifts in pricing for gas turbine systems.

**Table of Contents****Power Transmission and Distribution (PTD)**

( in millions)	Second Quarter			
	2006	2005	% Change	
			Actual	Adjusted*
Group profit	81	61	33%

New orders	1,797	1,229	46%	15%

\* Excluding currency translation effects of 8% on sales and orders, and portfolio effects of 30% and 23% on sales and orders, respectively.

PTD's sales surged 68% year-over-year, to 1.496 billion, and orders climbed 46%, to 1.797 billion, on a combination of organic growth and additional volume from the VA Tech acquisition between the periods under review. While PTD's second-quarter Group profit rose to 81 million from 61 million a year earlier, the Group's earnings margin showed the effects of integrating its VA Tech activities.

**Transportation****Transportation Systems (TS)**

\* Excluding currency translation effects of 1% on sales and orders, and portfolio effects of 2% on sales and orders.

Group profit was 21 million at TS in the second quarter. The period included a large number of major new contracts in Europe, the Middle East and Africa. As a result, orders came in 78% higher than a year earlier, at 1.803 billion. Sales rose 7% year-over-year, to 1.005 billion.

**Table of Contents****Siemens VDO Automotive (SV)**

New orders	2,612	2,343	11%	6%
* Excluding currency translation effects of 5% on sales and orders.				

SV's second-quarter Group profit of 177 million benefited from a gain on the sale of an investment, which largely offset significantly higher research and development expenses compared to the prior-year period. Sales and orders rose 11% year-over-year, to 2.615 billion and 2.612 billion, respectively.

**Medical****Medical Solutions (Med)**

Second-quarter Group profit at Med was up 18% year-over-year, climbing to 258 million. Diagnostics imaging solutions continued their strong contribution to both earnings and volume growth. Sales and orders rose to 2.047 billion and 2.096 billion, respectively, highlighted by fast-growing demand in Asia-Pacific.

**Table of Contents****Lighting****Osram**

( in millions)	<b>Second Quarter</b>			
	<b>2006</b>	<b>2005</b>	<b>% Change</b>	
			<b>Actual</b>	<b>Adjusted*</b>

Sales	1,206	1,057	14%	8%
New orders	1,206	1,057	14%	8%

\* Excluding currency translation effects of 6% on sales and orders.

Osram boosted second-quarter Group profit 13%, to 132 million. Demand was particularly strong in the U.S. and China, sending sales and orders up to 1.206 billion from 1.057 billion in the second quarter a year earlier.

**Other Operations**

Other Operations consist of centrally held operating businesses not related to a Group. These businesses include joint ventures, equity investments, a portion of the VA Tech acquisition, and the Dematic businesses carved out of the former Logistics and Assembly Systems Group. In the second quarter, Group profit from Other Operations was 79 million compared to 70 million a year earlier. Earnings from joint ventures in the second quarter were somewhat higher than in the same quarter a year earlier. The Dematic businesses posted losses in both periods, and anticipate restructuring and other measures in the second half of the fiscal year. The VA Tech acquisition contributed to the increase in sales year-over-year, to 890 million from 660 million a year earlier.

**Corporate items, pensions and eliminations**

Corporate items, pensions and eliminations totaled a negative 184 million in the second quarter, compared to a negative 289 million in the same period a year earlier. The improvement is due to a gain of 95 million on the sale of an investment and a positive effect related to the settlement of an arbitration proceeding. Centrally carried pension expense increased slightly due to a reduction in the discount rate assumption at September 30, 2005.

**Table of Contents****Financing and Real Estate****Siemens Financial Services (SFS)**

( in millions)	<b>Second Quarter</b>		
	<b>2006</b>	<b>2005</b>	<b>% Change</b>

	<b>March 31, 2006</b>	<b>Sept. 30, 2005</b>	
Total assets	10,213	10,148	1%

Income before income taxes at SFS was 44 million in the second quarter. The difference year-over-year is due primarily to a one-time benefit in the prior-year period, when an investment held by the Equity division paid a special dividend. Total assets at the end of the second quarter were nearly unchanged compared to the end of fiscal 2005.

**Siemens Real Estate (SRE)**

( in millions)	<b>Second Quarter</b>		
	<b>2006</b>	<b>2005</b>	<b>% Change</b>

	<b>March 31, 2006</b>	<b>Sept. 30, 2005</b>	
Total assets	3,381	3,496	(3)%

In the second quarter, SRE recorded income before income taxes of 33 million, level with the prior-year period. The Group offset lower rental earnings with higher income from sales of real property.

**Eliminations, reclassifications and Corporate Treasury**

Income before income taxes from Eliminations, reclassifications and Corporate Treasury was 99 million in the second quarter, compared to 77 million a year earlier. The difference was due mainly to increased interest income at Corporate Treasury from intra-company financing.

**Income statement highlights in the second quarter**

Net income for Siemens in the second quarter was 887 million, up 14% from 781 million in the second quarter a year earlier. Income from continuing operations was 901 million compared to 860 million in the prior-year period.

**Table of Contents**

Gross profit increased by 14%, as a majority of the Groups in Operations increased their earnings year-over-year. Gross profit margin for the second quarter came in lower, at 27.8% compared to 29.6% a year earlier, notably due to SBS, PTD, Com and PG. Second-quarter R&D expenses increased to 1.420 billion from 1.231 billion a year earlier, including significantly higher outlays at Med, SV and A&D. Due to a significant increase in sales, however, R&D declined as a percent of sales to 6.6% from 6.9% in the prior-year quarter. Marketing, selling and general administrative expenses as a percent of sales also declined year-over-year, to 17.7% from 18.1%. Other operating income of 106 million benefited from a positive effect related to the settlement of an arbitration proceeding. A year earlier, other operating income was a negative 23 million. A gain on the sale of a centrally held investment was the major factor in higher income from investments, which increased to 297 million from 212 million in the prior-year period.

**Income and earnings per share in the first six months**

Net income for Siemens in the first six months of fiscal 2006 was 1.700 billion, compared to 1.782 billion in the first half a year earlier. Group profit from Operations of 2.727 billion came in lower than 2.790 billion in the prior-year period, due primarily to substantially higher severance charges at Com and SBS, totaling 530 million compared to 106 million in the first six months a year earlier. The increase in severance charges year-over-year was partially offset by higher gains from sales of Juniper shares, which were 356 million compared to 208 million in the prior-year period, and from higher gains on sales of investments. Basic and diluted earnings per share for the first two quarters were 1.91 and 1.82 respectively. In the prior-year period, basic and diluted earnings per share were 2.00 and 1.91, respectively. Income from continuing operations was 1.716 billion in the first half, down from 1.943 billion in the same period a year earlier due primarily to higher losses at SBS. On a continuing basis, basic and diluted earnings per share were 1.93 and 1.84, respectively, compared to 2.18 and 2.08 in the same period a year earlier.

**Sales and order trends for the first six months**

Sales in the first six months of fiscal 2006 were 42.229 billion, a 22% increase from 34.756 billion in the prior-year period. Orders of 51.201 billion were up 27% from 40.431 billion a year earlier. Excluding currency translation effects and the net effect of acquisitions and dispositions, sales rose 8% and orders climbed 11%. Major orders were numerous and well-distributed, and international markets were the growth engines for the first half. In Germany, sales were up 4%, at 8.036 billion, and orders increased 6%, to 8.850 billion, primarily due to acquisitions between the periods under review.

**Table of Contents**

Meanwhile international sales for the first two quarters rose 27% compared to the prior-year period, to 34.193 billion, and orders climbed 32% year-over-year, to 42.351 billion.

Within international growth, Asia-Pacific posted sales of 6.034 billion, a 38% increase year-over-year, and orders of 8.269 billion, a 42% jump. Within Asia-Pacific, first-half sales in China surged 66%, to 2.075 billion, while first-half orders in China climbed 43%, to just below 3.0 billion. Growth in the Americas was also robust, with the region as a whole generating sales and order growth of 28% and 27%, respectively. Within this trend, the U.S. posted sales of 8.208 billion and orders of 8.922 billion, both 22% higher than in the first half a year earlier including beneficial currency translation effects. In Europe outside Germany, sales for the first six months were 17% higher year-over-year, at 13.418 billion, and orders increased 20%, to 15.915 billion.

**Liquidity for the first six months**

In the first six months, on a continuing basis, operating and investing activities used net cash of 419 million compared to net cash used of 1.864 billion in the prior-year period. Discontinued operations used net cash of 230 million in the first half-year, compared to net cash used of 634 million in the same period a year earlier.

Within Operations, operating activities provided net cash of 267 million in the first six months of fiscal 2006, despite substantial cash outflows for severance payouts. In the prior-year period, operating activities used net cash of 852 million, including 1.496 billion in supplemental contributions to Siemens pension plans. Both periods included significant build-ups of net working capital associated with business growth. Investing activities also showed the effects of overall business growth in both periods, particularly including significant cash outflows for capital expenditures.

## **Table of Contents**

Net cash used in investing activities was 1.024 billion in the first half of the current year, compared to 1.299 billion a year earlier. The difference between the two periods is due largely to higher proceeds from sales of investments and marketable securities in the current period.

The other two components of Siemens, which include Financing and Real Estate and Corporate Treasury activities, provided net cash from operating and investing activities of 338 million in the first half of fiscal 2006. In the same period a year earlier, these components provided net cash of 287 million from operating and investing activities.

### **Funding status of pension plans**

Siemens reduced the under-funding of its principal pension plans as of March 31, 2006 to approximately 2.9 billion from approximately 3.5 billion at September 30, 2005. The improvement includes a return on plan assets in the first six months of 864 million, or 8.6% on an annualized basis, which is above the expected annual return of 6.7%.

### **Economic Value Added**

Economic Value Added (EVA) in the first half of fiscal 2006 was positive and level with the same period a year earlier.

### **Subsequent events**

After the close of the quarter, Siemens sold its remaining shares in Infineon Technologies AG for net proceeds of approximately 1.1 billion and a gain of 33 million. Also after the close of the quarter, Siemens announced an agreement to sell its VA Tech hydropower activities to Andritz AG of Austria. The sale, which requires regulatory approval, is expected to close in the third quarter.
