**☐ ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE OF
1934**

FOR THE FISCAL YEAR ENDED DECEMBER 31, 2008

**☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE
ACT OF 1934**

FOR THE TRANSITION PERIOD FROM _____ TO _____

COMMISSION FILE NUMBER: 000-33231

COROWARE, INC.

(Exact Name of the Company as Specified in its Charter)

Delaware

(State or Other Jurisdiction of Incorporation)

95-4868120

(I.R.S. Employer Identification No.)

4056 148th Avenue NE, Redmond, WA 98052

(Address of Principal Executive Offices)

(800) 641-2676

(Issuer registrant Telephone Number)

SECURITIES REGISTERED UNDER SECTION 12(B) OF THE ACT:

INNOVA ROBOTICS & AUTOMATION, INC.

(Former Name or Former Address, If Changed From Last Report)

Securities registered pursuant to Section 12(b) of the Act: None

SECURITIES REGISTERED UNDER SECTION 12(G) OF THE ACT:

COMMON STOCK, PAR VALUE \$.001

(TITLE OF CLASS)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) the Act.
Yes No

Indicate by check mark whether the Company (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Company was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Check if there is no disclosure of delinquent filers in response to Item 405 of Regulation S-K contained in this form, and no disclosure will be contained, to the best of the Company's knowledge, in definitive proxy or information

Edgar Filing: CoroWare, Inc, - Form 10-K

statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the of the registrant's common stock held by non-affiliates of the registrant, computed by reference to price at which the common equity was sold, or the average bid and asked price of such common stock as of March 31, 2009, was \$527,251. For purposes of this computation, the registrant has excluded the market value of all shares of its common stock reported as being beneficially owned by executive officers and directors and holders of more than 10% of the common stock on a fully diluted basis of the registrant; such exclusion shall not, however, be deemed to constitute an admission that any such person is an affiliate of the registrant.

As of March 31, 2009 there were 878,752,920 shares of the issuer's \$.001 par value common stock issued and outstanding.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

In this annual report, references to CoroWare, the Company, we, us, and our refer to CoroWare, Inc.

This Annual Report on Form 10-K contains forward-looking statements regarding our business, financial condition, results of operations and prospects. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and similar expressions or variations of such words are intended to identify forward-looking statements, but are not deemed to represent an all-inclusive means of identifying forward-looking statements as denoted in this Annual Report on Form 10-K. Additionally, statements concerning future matters are forward-looking statements.

Although forward-looking statements in this Annual Report on Form 10-K reflect the good faith judgment of our Management, such statements can only be based on facts and factors currently known by us. Consequently, forward-looking statements are inherently subject to risks and uncertainties and actual results and outcomes may differ materially from the results and outcomes discussed in or anticipated by the forward-looking statements. Factors that could cause or contribute to such differences in results and outcomes include, without limitation, those specifically addressed under the heading "Risks Related to Our Business" below, as well as those discussed elsewhere in this Annual Report on Form 10-K. Readers are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this Annual Report on Form 10-K.

The Company undertake no obligation to revise or update any forward-looking statements in order to reflect any event or circumstance that may arise after the date of this Annual Report on Form 10-K, except as required by law. Readers are urged to carefully review and consider the various disclosures made throughout the entirety of this Annual Report, which are designed to advise interested parties of the risks and factors that may affect our business, financial condition, results of operations and prospects.

PART I

ITEM 1.

BUSINESS

Overview

CoroWare, Inc (CoroWare or the Company) is a software and software professional services company with a strong focus on Information Technology integration and Robotics that delivers professional services, solutions and products that benefit customers in the software development, information technology, education, Homeland Security, military defense and automotive industry sectors. The Company has four subsidiaries: CoroWare Technologies, Inc. (CTI), Innova Robotics, Inc, Robotics Software Services, Inc., and Robotic Workspace Technologies, Inc.(RWT). The operating plan of the Company is to focus on its subsidiary CTI which delivers high value services and innovative solutions that maximize technology investments and achieve customer goals.

During 2007 and 2008 the Company s subsidiary Innova Robotics Inc. had no business operations, no revenues, no assets, no liabilities and no expenditures; however it still remains a wholly owned subsidiary of the Company. CTI has consolidated and assumed all of the Company s and its other subsidiaries development and engineering initiatives. In 2007, the Company purchased then subsequently sold the assets subject to its liabilities of Altronics Service, Inc, which was re-named Robotics Software Services, Inc. In 2007, RWT ceased all operations including manufacturing, sales and service of the Universal Robot Controller. The Company intends to sell RWT s robotic control technology patents to interested parties. However, there is no guaranty that there is a market for them.

Employees

As of March 31, 2009, the Company had a total of twenty four (24) employees (of which 15 are full time) and several independent contractors providing services. None of our employees are covered by the by collective bargaining agreements. The Company believes that its relations with its employees are good.

Three of the subsidiaries are described below. The fourth subsidiary has been inactive from inception.

COROWARE TECHNOLOGIES, INC.

CTI is a software professional services company with a strong focus on Information Technology integration and robotics integration, business automation solutions, and unmanned systems solutions to its customers in North America and Europe.

CTI s expertise includes the deployment and integration of computing platforms and applications, as well as the development of unmanned vehicle software and solutions for customers in the research, commercial, and homeland security market segments. CTI shall continue to offer its high value software systems development and integration services that complement the growing trend in outsourced software development services in Asia, Latin America and Eastern Europe. In addition, CTI is investigating the potential of offering software solutions that complement its High Value Software Systems Development and Integration Services, especially in the areas of Interactive Multimedia Tools and Innovation Collaboration Portals.

CTI is comprised of two principal solutions delivery groups:

Business Solutions

.

Robotics and Automation

Business Solutions

CTI provides release management, software systems development, and product integration services that help our customers deliver high quality products, solutions and services.

Release and Project Management

CTI's program managers are experts in Microsoft's product and solution development tools and processes. CTI uses that experience to create product specifications, develop project plans, and perform security and release management audits with the objective of helping Microsoft deliver its solutions and products efficiently, affordably and on schedule. CTI's senior consultants design complex testing and demonstration environments using the latest Microsoft virtualization technology, ensuring rapid, scalable and low-fault deployments.

Technology Adoption Lab Management

CTI's team of experienced hardware and software deployment engineers architect, deploy and support state-of-the-art computer lab facilities that include the latest builds of operating systems, developer tools, and servers. CTI engineers work side-by-side with Microsoft employees and partners to ensure that they can deploy and test applications on pre-release and newly released Microsoft platforms. CTI employees currently offer these services in two Microsoft data centers and labs.

Interactive Multimedia Solutions

CTI possesses the tools and experience to produce highly customizable electronic publications, providing Microsoft and other companies the opportunity to collect and publish electronic information in compelling, media-rich formats.

Solution Delivery

CTI is focused on delivering solutions around a key set of Microsoft products. CTI offers solutions, envisioning, design, development and testing services through architects and developers who are experienced in a range of Microsoft solutions and technologies.

Telepresence

In early 2009, CTI launched its telepresence initiative in order to address the needs of enterprise customers with distributed business operations that are turning to new technologies to address the cost of doing business in a world that is increasingly dependent on suppliers and partners and customers worldwide. In order to overcome these challenges, enterprise customers are looking for solutions that are demonstrably effective and operationally affordable.

Consistent with this apparent demand, International Data Corporation, ABI Research and Gartner Group listed telepresence as one of their 10 top growth areas in 2009 that promises to grow into a \$1B marketplace in the upcoming decade.

To begin addressing this growing market segment, CTI began selling an affordable and scalable high-definition multi-point telepresence solution that can be deployed in conference rooms and on individuals' desktops/laptops through its reseller partnership with Vidy.

Moreover, CTI has proposed acquiring LTC International to leverage its in-depth knowledge of application services that we believe will help the Company more expeditiously enter the personal telepresence marketplace. LTC was formed in 1992 with the goal of helping service providers and telecommunications companies meet their growing needs for dependable systems and software solutions.

Robotics and Automation

Professional Services

CTI is focused on the global market for service robots and offers its robotic integration expertise to customers who are looking for product realization, robotics simulation, systems architecture and design, and robotic applications development services. The Company believes CTI is uniquely positioned with its knowledge of robotics simulation, Microsoft Robotics Studio, software systems development, and hardware and software integration services to help its customers deliver innovative products and solutions. For example, CTI has been working on projects that help customers simulate and develop complex robots based on Microsoft Robotic Studio.

Solutions and Products

In May 2007, CTI began shipping the CoroBot, an affordable and flexible mobile robot for researchers, hobbyists and developers in the industrial and service robot segments. Some university customers are deploying CoroBots for use in various lab activities, including the development of swarm robotics applications designed to leverage groups of robots to complete complex tasks.

CTI designed the CoroBot to meet the need for affordable and flexible mobile robot platforms within the academic and commercial mobile robotics research and development community. Based on customer feedback, CTI believes that the availability of pre-installed Microsoft Robotics Studio® services will be viewed as a major advantage for users.

ROBOTIC WORKSPACE TECHNOLOGIES, INC.

During the third quarter of 2007 RWT ceased all operations including manufacturing, sales and service of the Universal Robot Controllers (URC). The Company intends to sell RWT's robotic control technology patents. There is no guarantee that there is a market for them.

Trademarks and Patents

RWT holds three pioneer patents issued by the United States Patent and Trademark Office that cover all applications pertaining to the interface of a general use computer and the mobility of robots, regardless of specific applications. During the third quarter of 2007 the Company discontinued the manufacturing of the URC and refocused that business on obtaining licenses for the RWT robotic motion control patents.

First Patent number 6,442,451 - awarded September 5, 2002 - Versatile robot control system - Abstract - An improved, versatile robot control system comprises a general purpose computer with a general purpose operating system in electronic communication with a real-time computer subsystem. The general-purpose computer includes a program execution module to selectively start and stop processing of a program of robot instructions and to generate a plurality of robot move commands. The real-time computer subsystem includes a move command data buffer for storing the plurality of move commands, a robot move module linked to the data buffer for sequentially processing the moves and calculating a required position for a robot mechanical joint. The real-time computer subsystem also includes a dynamic control algorithm in software communication with the move module to repeatedly calculate a required actuator activation signal from a robot joint position feedback signal.

Second Patent number 6,675,070 - awarded April 5, 2004 - Automation equipment control system Abstract - An automation equipment control system comprises a general-purpose computer with a general-purpose operating system in electronic communication with a real-time computer subsystem. The general-purpose computer includes a program execution module to selectively start and stop processing of a program of equipment instructions and to generate a plurality of move commands. The real-time computer subsystem includes a move command data buffer for storing the plurality of move commands, a move module linked to the data buffer for sequentially processing the moves and calculating a required position for a mechanical joint. The real-time computer subsystem also includes a dynamic control algorithm in software communication with the move module to repeatedly calculate a required actuator activation signal from a joint position feedback signal.

Third Patent number 6,922,611 - awarded July 26, 2005 - Reflects the company's continuing R&D efforts in open-architecture PC control technology spearheaded by RWT. Each of the Company's patents pertains to RWT's versatile PC control system suitable for controlling robots of various electromechanical configurations, other automation equipment, and its common programmer/operator interface.

ROBOTICS SOFTWARE SERVICES, INC.

During 2007 the Company purchased Altronics Service, Inc., then, subsequently, sold the assets subject to its liabilities. At the time of the sale the Company changed the name to Robotics Software Services Inc. which is no longer an operating company; however, it remains a wholly owned subsidiary of the Company.

On March 16, 2007, RWT, completed the purchase of all of the issued and outstanding shares of common stock of Altronics Service, Inc. (Altronics) pursuant to a certain Stock Purchase Agreement which RWT entered into with

Alfred Fleming and Andrea Fleming, being all of the shareholders of Altronics. In September 2007, the assets of Altronics Service were sold in exchange for \$100,000 in the form of a promissory note payable within 35 days secured by the assets of the buyer, the buyer's assumption of liabilities totaling \$365,000, the forgiveness of a promissory note for \$100,000 payable by the Company to the buyer, and the assignment of 250,000 shares of the Company's restricted Common Stock for cancellation. Except for an employment agreement between Altronics and Mr. Fleming which was terminated as a result of his resignation at closing of the sale of the assets, no material relationship exists between the Company and the Purchaser and/or its affiliates, directors, officers or any associate of an officer or director.

Competition

Competitors in the Professional Services market are both large and well established, such as Avanade, Tata Consultancy Services; and smaller, privately held consulting companies with practices in a single vertical arena such as multimedia production. We have maintained long-term relationships with our customers and have been successful in renewing contracts and in signing multi-month or year-long contracts.

Competitors in the Telepresence market include resellers and integrators, most of whom have been smaller, privately held consulting companies with practices in video conferencing. Recently, Cisco and Tandberg have been establishing reseller and service provider relationships with Tier 1 service providers, such as AT&T British Telecom.

Competitors in the Mobile Robotics for Research market have comprised iRobot and privately held companies such as Mobile Robots, RoboSoft, and Evolution Robotics.

Customers

CoroWare's professional services are dependent on a small number of tier 1 customers in Europe and North America, and on a growing number of smaller, privately held software and hardware product companies in North America principally through our software development resources in North America and Latin America.

Regulation

CoroWare and products are not uniquely subject to governmental or industry regulations.

Research & Development

CoroWare's research and development activities have primarily been focused on the development of software components, such as JAUS, in support of its CoroBot and ClassPack product lines. The company began working on early investigative research in telepresence that we believe will complement CoroWare's telepresence and mobile robotics products, solutions and services.

Products

CoroBot:

CoroBot was created to minimize the complexity of robot development. By combining a powerful PC-class platform with a robust, object-oriented software development system, the CoroBot empowers users to rapidly deploy and develop robotic solutions. The CoroBot also assists the hardware developer with additional physical mounting space, ports, sensors and communication devices.

Classpack:

CoroWare ClassPack for Microsoft Robotics Studio is a simulation software package for the CoroBot development platform. The simulation CoroBot is physics based and supports the features of the real CoroBot model CB-WA. It has nearly identical functionality to the real CoroBot. ClassPack allows educators to put a virtual robot in the hands of every student while maintaining their department's budget.

Intellectual Property

RWT holds three pioneer patents issued by the United States Patent and Trademark Office that cover all applications pertaining to the interface of a general use computer and the mobility of robots, regardless of specific applications.

During the third quarter of 2007 the Company discontinued the manufacturing of the URC and refocused that business on obtaining licenses for the RWT robotic motion control patents.

First Patent number 6,442,451 - awarded September 5, 2002 - Versatile robot control system - Abstract - An improved, versatile robot control system comprises a general purpose computer with a general purpose operating system in electronic communication with a real-time computer subsystem. The general-purpose computer includes a program execution module to selectively start and stop processing of a program of robot instructions and to generate a plurality of robot move commands. The real-time computer subsystem includes a move command data buffer for storing the plurality of move commands, a robot move module linked to the data buffer for sequentially processing the moves and calculating a required position for a robot mechanical joint. The real-time computer subsystem also

includes a dynamic control algorithm in software communication with the move module to repeatedly calculate a required actuator activation signal from a robot joint position feedback signal.

Second Patent number 6,675,070 - awarded April 5, 2004 - Automation equipment control system Abstract - An automation equipment control system comprises a general-purpose computer with a general-purpose operating system in electronic communication with a real-time computer subsystem. The general-purpose computer includes a program execution module to selectively start and stop processing of a program of equipment instructions and to generate a plurality of move commands. Each of the Company's patents pertains to RWT's versatile PC control system suitable for controlling robots of various electromechanical configurations, other automation equipment, and its common programmer/operator interface.

ITEM 1A.

RISK FACTORS

As a smaller reporting company, as defined in Rule 12b-2 of the Securities Exchange Act of 1934, as amended (the Exchange Act), we are not required to provide the information required by this item.

ITEM 1B.

UNRESOLVED STAFF COMMENTS

As a smaller reporting company, as defined in Rule 12b-2 of the Exchange Act, we are not required to provide the information required by this item.

ITEM 2.

PROPERTIES

On May 5, 2006 the Company leased 1,400 square feet of space at 4074 148th Avenue, Redmond, Washington. The lease was with Yett Family Partnership, LP, with monthly payments of \$1,944 through May 31, 2007. The Company subsequently entered into a lease with PS Business Park at the same location beginning on June 1, 2007 for a period of three (3) years. The monthly rent is currently \$1,584 and will increase annually by 3%. The Company has subleased a portion of this space for \$1,500 a month running from September 1, 2008 through May 31, 2009.

On July 10, 2007 the Company leased 1,800 square feet of space at 4056 148th Avenue, Redmond, Washington, which serves as the Company's sole operating facility. The lease is with PS Business Park for a period of five (5) years. Monthly rental payments are \$2,057 and will increase annually by 3%.

Rental expense for the operating leases for the years ending December 31, 2008 and 2007 was \$55,876 and \$96,798, respectively.

ITEM 3.

LEGAL PROCEEDINGS

The Company is not currently a party to, nor is any of its property currently the subject of, any pending legal proceeding that will have a material adverse affect on its business. None of the Company's directors, officers or affiliates is involved in a proceeding adverse to our business or has a material interest adverse to its business.

ITEM 4.

ITEM 5.

MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Prices of Common Stock

Beginning in February 2002, the Company was eligible to participate in the OTC Bulletin Board, an electronic quotations medium for securities traded outside of the NASDAQ Stock Market. Our trading symbol was SRMW until such time as our acquisition of Hy-Tech Technology Group, Inc. on January 31, 2003 when our symbol became HYTT. In November 2006 the name of the Company was changed to Innova Robotics & Automation, Inc. and the trading symbol was changed to INRA. In April 2008, the Company's name was changed to CoroWare, Inc. and the trading symbol was changed to CROE. In April 2009, in conjunction with a 1-for-300 reverse stock split, the Company's trading symbol was changed to COWI.

The following table sets forth, for the fiscal quarters indicated, the high and low closing sales price of our Common Stock as reported on the NASD Over-the-Counter Bulletin Board for each quarterly period during fiscal years ended December 31, 2008 and 2007.

COMMON STOCK		
Year Ended December 31, 2008	High	Low
First Quarter	\$ 0.0180	\$ 0.0045
Second Quarter	\$ 0.0085	\$ 0.0015
Third Quarter	\$ 0.0022	\$ 0.0003
Fourth Quarter	\$ 0.0003	\$ 0.0001
Year Ended December 31, 2007	High	Low
First Quarter	\$ 0.310	\$ 0.100
Second Quarter	\$ 0.130	\$ 0.056
Third Quarter	\$ 0.080	\$ 0.017
Fourth Quarter	\$ 0.025	\$ 0.007

There are approximately 218 record holders (not including beneficial owners holding shares in street name) of our common stock as of March 31, 2009. The closing sale price of our common stock as reported on the Over-the-Counter Bulletin Board on May 13, 2009 was \$0.19 per share.

Dividend Policy

The Company has never declared or paid any cash dividends on its common stock. The Company anticipates that any earnings will be retained for development and expansion of its business and does not anticipate paying any cash dividends in the foreseeable future. Additionally, as of December 31, 2008 the Company has issued and has outstanding 159,666 shares of Series B Preferred Stock all of which earns a 5% dividend, payable in either cash or common stock of the Company. Such dividends on these Preferred Stocks will be paid before any dividends on common stock. The Board of Directors has sole discretion to pay cash dividends based on the Company's financial condition, results of operations, capital requirements, contractual obligations and other relevant factors. As of December 31, 2008, \$24,684 of Series B Preferred dividends had been converted into common stock.

Securities Authorized for Issuance Under Equity Compensation Plans

The following table set forth the information as of December 31, 2008 with respect to compensation plans under which equity securities of the Company are authorized for issuance:

EQUITY COMPENSATION PLAN INFORMATION**DECEMBER 31, 2008**

Plan Category	Number of shares to be issued upon exercise of outstanding options and warrants (a)	Weighted average exercise price of outstanding options and warrants (b)	Number of securities available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders:			
2003 Stock Option Plan		n/a	
2004 Stock Option Plan		n/a	
2005 Stock Option Plan	10,955,154	\$0.05	9,004,846
Equity Stock Compensation plan not approved by security holders:			
2006 Employee Compensation Plan	n/a	n/a	24,534
2008 Incentive Stock Plan		n/a	2,900,845
2008 Amended Incentive Stock Plan		n/a	18,321,701
Total	10,955,154		30,251,926

Stock Plans

As of December 31, 2008, the Company had three stock compensation plans which provided for the issuance of 231,000,000 shares to employees of the Company or its subsidiaries as follows:

Plan Description	Authorized Shares
2006 Employee Compensation Plan	1,000,000
2008 Incentive Stock Plan	30,000,000
2008 Amended Incentive Stock Plan	200,000,000
Total	231,000,000

Stock Options

As of December 31, 2008 the Company had one active Stock Option Plan known as the 2005 Stock Option Plan. The Plan was approved by the stockholders of the Company on November 3, 2006 and authorized the issuance of 20,000,000 shares of common stock. The Board of Directors on December 31, 2007 cancelled 7,910,000 options for 7,910,000 shares previously granted to current employees prior to that date which were exercisable at various prices and issued 7,910,000 options to these employees at the closing price as of December 31, 2007 or \$.01. The number of options issued and outstanding under the 2005 plan on December 31, 2008 is 10,955,154.

In addition to the options issued under the 2005 Stock Option Plan, 7,967,853 options were issued outside of the Plan. For services rendered, Agora Investor Relations Corp received 133,000 options to purchase restricted common stock at a purchase price of \$.17 per share, Friedland Capital received 1,150,000 options to purchase restricted common stock at \$0.13 per share, Stratex Solutions (a consulting company founded by Eugene Gartlan) received 1,212,128 options to purchase restricted common stock at \$0.05 per share. Members of the Board of Directors were issued an aggregate of 4,472,725 options to purchase common stock at \$0.11. Also, Maureen Gartlan received 1,000,000 options to purchase restricted common stock at \$.0062 per share. Those options were issued in accordance with an employment agreement with her late husband Eugene Gartlan who was the interim Chief Executive Officer of the Company prior to his passing.

In the fourth quarter of 2007, the 1,212,128 Stratex options were cancelled. In February 2008 the 4,472,725 options granted to the Board of Directors were converted into common stock using a one-to-one ratio. The 133,000 options issued to Agora, the 1,150,000 issued to Friedland Capital and the 1,000,000 issued to Maureen Gartlan remain outstanding at December 31, 2008.

ITEM 6

SELECTED FINANCIAL DATA

As a smaller reporting company, as defined in Rule 12-b-2 of the Exchange Act, we are not required to provide the information required by this item.

ITEM 7

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Cautionary and Forward Looking Statements

This section and other parts of this Form 10-K contain forward-looking statements that involve risks and uncertainties. Forward-looking statements can also be identified by words such as anticipates, expects, believes, plans, predicts, similar terms. Forward-looking statements are not guarantees of future performance and the Company's actual results may differ significantly from the results discussed in the forward-looking statements. The following discussion should be read in conjunction with the consolidated financial statements and notes thereto included in Item 8 of this Form 10-K. All information presented herein is based on the Company's fiscal calendar. The Company assumes no obligation to revise or update any forward-looking statements for any reason, except as required by law.

There is no assurance that we will be profitable, we may not be able to successfully develop, manage or market its products and services, we may not be able to attract or retain qualified executives and technology personnel, our products and services may become obsolete, government regulation may hinder our business, additional dilution in outstanding stock ownership may be incurred due to the issuance of more shares, warrants and stock options, or the exercise of warrants and stock options, and other risks inherent in the our businesses.

We undertake no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof. Readers should carefully review the factors described in other documents we file from time to time with the Securities and Exchange Commission, including the Quarterly Reports on Form 10-Q and Annual Report on Form 10-KSB filed by us in 2008 and any Current Reports on Form 8-K filed by us.

OVERVIEW

On August 25, 2004, the Company completed a reverse merger into Robotic Workspace Technologies, Inc. (RWT), a robotics software technology provider, in which RWT was deemed the "accounting acquirer." On May 16, 2006, the Company completed the purchase of all of the assets of CoroWare, Inc. pursuant to a certain Asset Purchase Agreement we and CoroWare entered into with Coroware Technologies, Inc., a wholly owned subsidiary of our company dated as of May 12, 2006. Under the terms of the Asset Purchase Agreement, the Company purchased, and CoroWare sold, all of its assets including, without limitation, all hardware, software, employee relations, customer contacts in the military and homeland security markets, contacts with Microsoft, Inc. and all other customers.

During 2008 and 2007 the Company's subsidiary Innova Robotics Inc. had no business operations, no revenues, no assets, no liabilities and no expenditures; however, it continues to be a subsidiary of the Company. CTI has consolidated and assumed all of the Company's and its other subsidiaries development and engineering initiatives. The Company also purchased then subsequently sold the assets subject to its liabilities of Altronics Service, Inc. Robotic Workspace Technologies (RWT) ceased all operations including manufacturing, sales and service of the Universal Robot Controllers. The Company intends to license RWT's robotic control technology patents to original equipment manufacturers (OEMs), software development companies, and other interested parties.

CRITICAL ACCOUNTING POLICIES

General

The consolidated financial statements and notes included in our quarterly and annual financial statements contain information that is pertinent to this management's discussion and analysis. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of its assets and liabilities, and affect the disclosure of any contingent assets and liabilities. We believe these accounting policies involve judgment due to the sensitivity of the methods, assumptions, and estimates necessary in determining the related asset and liability amounts. The significant accounting policies are described in its financial statements and notes included in its Form 10-K filed with the Securities and Exchange Commission.

Revenue Recognition

We derive our software system integration services revenue from short-duration, time and material contracts. Generally, such contracts provide for an hourly-rate and a stipulated maximum fee. Revenue is recorded only on executed arrangements as time is incurred on the project and as materials, which are insignificant to the total contract value, are expended. Revenue is not recognized in cases where customer acceptance of the work product is necessary, unless sufficient work has been performed to ascertain that the performance specifications are being met and the customer acknowledges that such performance specifications are being met. We periodically review contractual performance and estimate future performance requirements. Losses on contracts are recorded when estimable. No contractual losses were identified during the periods presented.

We recognize revenue for our software and software professional services as well as patents on motion control when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable and collectability is probable. Product sales are recognized by us generally at the time product is shipped. Shipping and handling costs are included in cost of goods sold.

We account for arrangements that contain multiple elements in accordance with EITF 00-21, *Revenue Arrangements with Multiple Deliverables*. When elements such as hardware, software and consulting services are contained in a single arrangement, or in related arrangements with the same customer, we allocate revenue to each element based on its relative fair value, provided that such element meets the criteria for treatment as a separate unit of accounting. The price charged when the element is sold separately generally determines fair value. In the absence of fair value for a delivered element, we allocate revenue first to the fair value of the underlying elements and allocate the residual revenue to the delivered elements. In the absence of fair value for an undelivered element, the arrangement is accounted for as a single unit of accounting, resulting in a delay of revenue recognition for the delivered elements until the undelivered elements are fulfilled. We limit the amount of revenue recognition for delivered elements to the amount that is not contingent on future delivery of products or services or subject to customer-specified return of refund privileges.

We recognize revenue from the sale of manufacturer's maintenance and extended warranty contracts in accordance with EITF 99-19 net of its costs of purchasing the related contracts.

Share-based payment

Stock based compensation expense is recorded in accordance with SFAS 123R (Revised 2004), *Share-Based Payment*, for stock and stock options awarded in return for services rendered. The expense is measured at the grant-date fair value of the award and recognized as compensation expense on a straight line basis over the service period, which is the vesting period. The Company estimates forfeitures that it expects will occur and records expense based upon the number of awards expected to vest.

Edgar Filing: CoroWare, Inc, - Form 10-K

The Company has estimated fair value at the date of grant using the Black-Scholes-Merton option-pricing-model with the following weighted average assumptions:

	2008	2007
Expected Volatility	75.10%	75.10%
Dividend yield	-0-	-0-
Expected term (in years)	0-10	0-5
Risk-free interest rate	4.41%	4.41%
Forfeiture rate	5.00%	5.00%

Derivative Financial Instruments

Derivative financial instruments, as defined in Financial Accounting Standard No. 133, Accounting for Derivative Financial Instruments and Hedging Activities (FAS 133), consist of financial instruments or other contracts that contain a notional amount and one or more underlying variables (e.g. interest rate, security price or other variable), require no initial net investment and permit net settlement. The caption Derivative Liability consists of (i) the fair values associated with derivative features embedded in the YA Global Investments, L.P. (f/k/a Cornell Capital Partners, L.P.) (Yorkville) financings and (ii) the fair values of the detachable warrants that were issued in connection with those financing arrangements. In addition, this caption includes the fair values of other pre-existing derivative financial instruments that were reclassified from stockholders' equity when net-share settlement was no longer within our control.

We generally do not use derivative financial instruments to hedge exposures to cash-flow, market or foreign-currency risks. However, we have entered into certain other financial instruments and contracts, such as debt financing arrangements and freestanding warrants with features that are either (i) not afforded equity classification, (ii) embody risks not clearly and closely related to host contracts, or (iii) may be net-cash settled by the counterparty. As required by FAS 133, these instruments are required to be carried as derivative liabilities, at fair value, in our financial statements.

We estimate fair values of derivative financial instruments using various techniques (and combinations thereof) that are considered to be consistent with the objective of measuring fair values. In selecting the appropriate technique, we consider, among other factors, the nature of the instrument, the market risks that it embodies and the expected means of settlement. For less complex derivative instruments, such as free-standing warrants, we generally use the Black-Scholes-Merton option valuation technique because it embodies all of the requisite assumptions (including trading volatility, estimated terms and risk free rates) necessary to fair value these instruments. For complex derivative instruments, such as embedded conversion options, we generally use the Flexible Monte Carlo valuation technique because it embodies all of the requisite assumptions (including credit risk, interest-rate risk and exercise/conversion behaviors) that are necessary to fair value these more complex instruments. Estimating fair values of derivative financial instruments requires the development of significant and subjective estimates that may, and are likely to, change over the duration of the instrument with related changes in internal and external market factors. In addition, option-based techniques are highly volatile and sensitive to changes in the trading market price of our common stock, which has a high-historical volatility. Since derivative financial instruments are initially and subsequently carried at fair values, our income will reflect the volatility in these estimate and assumption changes.

Plan of Operation

Looking forward, the Company through its CTI subsidiary is well positioned to continue strong growth into Fiscal Year 2009. CTI will continue to expand its Microsoft Practice and Robotics and Automation Practice, and will further grow its Enterprise Solutions Practice largely due to the launch of CTI's Near-shore Outsourcing Practice.

CTI intends to grow its Microsoft Practice by delivering release management, lab management and program management professional services to product, solutions and field sales groups across Microsoft. The Company anticipates growth in this business segment as it scales up its consulting team and recruiting initiatives.

CTI's Near-Shore Outsourcing group offers its customers the option of dedicating their internal resources to other purposes while maintaining control of outsourced offshore projects during standard business hours, and provides an attractive and equally affordable alternative to other outsourcing vendors in India and China. CTI's Near-Shore Outsourcing group comprises architects, developers and testers with experience in Microsoft Solutions Framework, software application development, software application integration, interactive web site development (including Microsoft Silverlight), service oriented architecture (SOA), collaboration portal development, IT infrastructure, and

Quality Assurance.

The Robotics and Automation group expects to accomplish its rapid growth by continuing to offer expert systems development services that address robotic simulation, Microsoft Robotics Studio and embedded systems development opportunities, and by addressing the rapidly expanding mobile robot marketplace through the introduction of hardware and software products that are built upon and compatible with Microsoft Robotics Studio.

The Company does not expect to sell any of its fixed assets, including its property or equipment in the next twelve months, nor does it expect to purchase any real property in the next twelve months. During the next twelve months the Company expects to purchase certain equipment to support software development, testing and continued deployment of its technologies. Additionally, the Company expects to purchase office equipment, computer equipment and laboratory development and testing equipment to support the planned increase of the number of employees of the Company.

The Company has begun to implement a more comprehensive investor relations plan to communicate more effectively and actively with its shareholders, and create greater awareness of CTI and of CTI's services, solutions and products.

Recent Financing Transactions

On July 22, 2005 the Company borrowed \$30,000 from a beneficial shareholder and entered into a short term note for that amount, the terms of which are: interest at the annual rate of 5%, due date in six months, and principal and accrued interest are convertible into common stock of the Company at \$.015 per share. The lender has agreed to a repayment plan that extends the term to December 31, 2008. The note is currently in default.

On July 21, 2006, the Company consummated a Securities Purchase Agreement dated July 21, 2006 with Yorkville providing for the sale by the Company to Yorkville of its 10% secured convertible debentures in the aggregate principal amount of \$2,825,000, net of deferred financing costs of \$263,143 of which \$1,250,000 was advanced immediately and \$575,000 was advanced in August concurrent with its filing of the Registration Statement with the Securities and Exchange Commission (SEC). The last installment of \$1,000,000 was advanced on December 7, 2006.

The Debentures mature on the third anniversary of the date of issuance. The holder of the Debentures may, at any time, convert amounts outstanding under the Debentures into shares of common stock of the Company at a fixed conversion price per share equal to \$0.04. The Company's obligations under the Purchase Agreement are secured by substantially all of the assets of the Company and those of its wholly owned subsidiary, CTI.

Under the Purchase Agreement, the Company also issued to Yorkville five-year warrants to purchase 1,000,000 and 1,500,000 shares of Common Stock at prices equal to \$0.50 and \$1.00, respectively, together with three-year warrants to purchase 2,300,000, 2,000,000 and 2,500,000 shares of Common Stock at prices equal to \$0.25, \$0.65 and \$0.75, respectively.

The Company has the right to redeem a portion or all amounts outstanding under the Debenture prior to the Maturity Date at a 10% redemption premium plus accrued interest provided that the closing bid price of the Common Stock is less than the Conversion Price and there is an effective Registration Statement covering the shares of Common Stock issuable upon conversion of the Debentures and exercise of the Warrants (as defined below). In addition, beginning on the earlier of: (i) the first trading day following the day which the Registration Statement is declared effective by the Commission, or (ii) December 1, 2006, and continuing on the first trading day of each calendar month thereafter, Cornell may require the Company to redeem up to \$500,000 of the remaining principal amount of the Debentures per calendar month. However, Cornell may not require the Company to redeem the Debentures if the closing bid price of the Common Stock exceeds the Conversion Price for each of the five consecutive trading days immediately prior to the redemption date, and the Registration Statement has been declared effective and remains effective on the redemption date. The Company has the option, in its sole discretion, to settle any requested redemptions by either paying cash plus a 10% redemption premium plus accrued interest or issuing the number of shares of the Company's common stock equal to the cash amount owed divided by a stock price equal to 95% of the lowest daily volume weighted average price of the Company's common stock during the thirty (30) trading days immediately preceding the date of the redemption.

On October 25, 2007, the Company consummated a Securities Purchase Agreement dated October 25, 2007 with Yorkville for the sale by the Company to Yorkville of its 12% secured convertible debentures in the aggregate

principal amount of \$600,000, net of deferred financing costs of \$75,000.

The Debentures mature on the third anniversary of the date of issuance. The holder of the Debentures may, at any time, convert amounts outstanding under the Debentures into shares of common stock of the Company at a fixed conversion price per share equal to \$0.02 or 85% of the lowest volume weighted average price for the 30 days preceding the conversion date. The Company may elect to pay in cash plus a conversion premium of 12% plus

accrued interest. The Company's obligations under the Purchase Agreement are secured by substantially all of the assets of the Company and those of its wholly owned subsidiary, CTI.

The Company has the right to redeem a portion or all amounts outstanding under the Debenture prior to the Maturity Date at a 12% redemption premium provided that the closing bid price of the Common Stock is less than the Conversion Price and there is an effective Registration Statement covering the shares of Common Stock issuable upon conversion of the Debentures and exercise of the Warrants (as defined below). In addition, beginning on the earlier of: (i) the first trading day following the day which the Registration Statement is declared effective by the Commission, or (ii) December 1, 2006, and continuing on the first trading day of each calendar month thereafter, Yorkville may require the Company to redeem up to \$500,000 of the remaining principal amount of the Debentures per calendar month. However, Yorkville may not require the Company to redeem the Debentures if the closing bid price of the Common Stock exceeds the Conversion Price for each of the five consecutive trading days immediately prior to the redemption date, and the Registration Statement has been declared effective and remains effective on the redemption date. The Company has the option, in its sole discretion, to settle any requested redemptions by either paying cash or issuing the number of shares of the Company's common stock equal to the cash amount owed divided by a stock price equal to 95% of the lowest daily volume weighted average price of the Company's common stock during the thirty (30) trading days immediately preceding the date of the redemption. If the Company elects to pay a requested redemption in cash, Yorkville will receive warrants to purchase 35,000 shares of common stock with an exercise price of \$0.025 per share for each \$100,000 redeemed.

On March 20, 2008, the Company entered into a Securities Purchase Agreement (the "Purchase Agreement") with Yorkville providing for the sale by the Company to Yorkville of (i) 14% Secured Convertible Debentures in the aggregate principal amount of \$300,000 (the "Debentures") due on March 20, 2010 (the "Repayment Date") and (ii) warrants to purchase 10,000,000 shares of common stock (the "Warrants"). Terms defined will have the same meaning as in the Purchase Agreement or the Debenture.

The Debentures are convertible into shares of the Company's common stock at \$0.02. On each Installment Date, the Company shall pay to Yorkville an amount equal to the lesser of (a) \$13,044 and (b) the Principal amount under the Debenture as of such Installment Date. On the Repayment Date, the Company shall pay to the Holder an amount in cash representing all outstanding Principal, accrued and unpaid Interest.

The Warrants to purchase 10,000,000 shares of Common Stock have an exercise price of \$0.02 per share. The Warrants have a term of five (5) years and shall be exercised on a cash basis.

Additionally, the Company entered into an amendment agreement (the "Amendment Agreement") with Yorkville, which amends all outstanding debentures, including (i) Secured Convertible Debenture due July 20, 2009 (#IVHG-2-1) issued on July 20, 2006, as amended in the original principal amount of \$1,250,000, (ii) Secured Convertible Debenture due August 22, 2009 (#IVHG-2-2) issued on August 22, 2006, as amended in the original principal amount of \$575,000, (iii) Secured Convertible Debenture due December 7, 2009, (#IVHG-2-3) issued on December 7, 2006, as amended in the original principal amount of \$1,000,000., and (iv) Secured Convertible Debenture due November 2, 2010, (#INRA-1-1) issued on November 2, 2007, as amended in the original principal amount of \$600,000 (collectively, the "Prior Debentures") held by Yorkville with the following:

a.

Interest will accrue on the outstanding principal balance of each of the Prior Debentures at an annual rate equal to fourteen percent (14%) effective as of the date hereof;

b.

The conversion price shall be the lower of .02 or eighty-five percent (85%) of the lowest Volume Weighted Average Price in the thirty (30) trading days prior to the conversion date.

RESULTS OF OPERATIONS

YEAR ENDED DECEMBER 31, 2008 COMPARED TO YEAR ENDED DECEMBER 31, 2007:

During the year ended December 31, 2008 (the "2008 Period") revenues were \$2,392,681 compared to revenues of \$3,866,869 during the year ended December 31, 2007 (the "2007 Period"). Revenues in the 2008 period were lower than in the 2007 period as customers began to delay or reduce spending on software development, multimedia production and infrastructure deployments. In response to this growing trend, the Company made a strategic decision to enter the telepresence marketplace as potential customers expressed an interest in reducing operational expenses. CoroBot sales remained consistent during the first three quarters of the 2008 period, but experienced a downturn in the fourth quarter of the 2008 period.

Cost of goods sold was \$1,906,705 and \$3,088,306 for the 2008 Period and the 2007 Period, respectively. Cost of goods sold primarily represents labor and labor-related costs in addition to overhead costs. All sales and cost of goods sold totals for 2008 and 2007 represent the operations of CoroWare.

Operating expenses were \$1,831,025 for the 2008 Period compared to \$3,989,835 for the 2007 Period. General and administrative expenses amounted to \$1,449,115 during the 2008 Period compared to \$3,599,197 for the 2007 Period, and represented mostly labor and related compensation costs, legal & professional fees, outside services, travel expenses, rental expense and related office expenses. General and Administrative expenses were significantly reduced in the third and fourth quarter 2008 periods as the Company renewed its focus and attention on aligning expenses with revenues. Sales and marketing expenses were \$119,310 for the 2008 Period compared to \$102,451 for the 2007 Period.. A portion of the Company's Sales, General and Administrative expenses in the 2008 fourth quarter period was spent on market research and planning as the Company stepped up its efforts to enter the telepresence marketplace. Research and Development costs were \$20,188 and \$49,396 from continuing operations during the 2008 Period compared to the 2007 Period, respectively. Depreciation and amortization costs were \$242,412 for the 2008 Period compared to \$238,791 for the 2007 Period.

Net loss for the 2008 Period was \$1,805,852 compared to net loss of \$2,304,517 for the 2007 period. The loss during the 2008 Period consisted of \$1,773,207 from continuing operations and \$32,645 from discontinued operations. The loss during 2007 consisted of \$974,265 from continuing operations and \$1,330,252 from discontinued operations.

LIQUIDITY AND CAPITAL RESOURCES

During the year ended December 31, 2008 (the 2008 Period) we used \$542,954 of cash for operating activities versus \$1,050,085 for the year ended December 31, 2007 (the 2007 Period). The usage in the 2008 Period is the result of decreased revenues. The usage of cash for operating activities has decreased from the 2007 Period as the direct result of cost reductions, especially general and administrative expenses at the parent company.

The Company's investing activities used \$43,551 in the 2008 Period and consisted primarily of purchases of office and computer equipment. The Company's investing activities in the 2007 Period used \$3,315 and was the net result of office and computer equipment purchases of \$62,171, a stock investment purchase of \$5,000, \$143,671 net outlay for the purchase of our subsidiary Altronics (now known as Robotics Software Services, Inc.) and \$207,527 loss on the subsequent sale of the assets of that subsidiary.

The Company's financing activities generated \$413,950 of cash during the 2008 Period. This primarily reflected borrowings under a convertible debenture that was executed in March 2008 of \$240,000 and proceeds from related party financings of \$173,300. In the 2007 Period, the Company generated \$674,109 of cash from financing activities. This primarily reflected borrowings under a convertible debenture that was executed in October 2007 of \$600,000, the net proceeds from third-party notes payable of \$39,139, the proceeds from the sale of common stock of \$60,000.

At December 31, 2008, we had current assets of \$93,759, current liabilities of \$3,775,756, negative working capital of \$3,681,997 and an accumulated deficit of \$19,225,572.

We presently do not have any available credit, bank financing or other external sources of liquidity. We will need to obtain additional capital in order to expand operations and become profitable. In order to obtain capital, we may need to sell additional shares of our common stock or borrow funds from private lenders. There can be no assurance that we will be successful in obtaining additional funding. We will still need additional capital in order to continue operations until we are able to achieve positive operating cash flow. Additional capital is being sought, but we cannot guarantee that we will be able to obtain such investments. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. However, Even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect significant amounts owed to

us, or experience unexpected cash requirements that would force us to seek alternative financing. Furthermore, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. If additional financing is not available or is not available on acceptable terms, we will have to curtail our operations.

OFF-BALANCE SHEET ARRANGEMENTS.

The Company does not have any off-balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity, or capital expenditures.

CONTRACTUAL OBLIGATIONS

The following table sets forth the contractual obligations of the Company as of December 31, 2008:

Contractual Obligations	Total	Payments due by Period			
		Less than 1 year	1-3 years	3-5 years	More than 5 years
Convertible debt	\$ 826,866	\$ 585,188	\$ 241,678	\$	\$
Notes payable	285,000	285,000			
Notes payable, related parties	227,100	227,100			
Operating leases	110,829	36,800	74,029		
Total	\$ 1,449,795	\$ 1,134,088	\$ 315,707	\$	\$

ITEM 7A.**QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

As a smaller reporting company, as defined in Rule 12b-2 of the Exchange Act, we are not required to provide the information required by this item.

ITEM 8**FINANCIAL STATEMENTS**

All financial information required by this Item is attached hereto at the end of this report beginning on page F-1 and is hereby incorporated by reference.

ITEM 9**CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURES**

None

ITEM 9A**CONTROLS AND PROCEDURES**

Evaluation of Disclosure Controls and Procedures:

As of December 31, 2008, our principal executive officer and principal financial officer evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended). This evaluation of the disclosure controls and procedures included controls and procedures designed to ensure that information required to be disclosed by the Company in its reports that it files or submits under the Act is recorded, processed, summarized and reported within the time periods specified in the Security and Exchange Commission's rules and forms. Such disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, to allow timely decisions regarding required disclosure. Based on this evaluation, the Company's principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures were not effective as of December 31, 2008 as we were unable to timely file our 10-K for the year ended December 31, 2008.

Changes in Internal Control over Financial Reporting

No changes in the Company's internal control over financial reporting have come to management's attention during the Company's last fiscal quarter that have materially affected, or are likely to materially affect, the Company's internal control over financial reporting.

Limitations on Controls

Management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent or detect all error and fraud. Any control system, no matter how well designed and operated, is based upon certain assumptions and can provide only reasonable, not absolute, assurance that its objectives will be met. Further, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected.

Management's Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control system was designed to provide reasonable assurance to our management and Board of Directors regarding the preparation and fair presentation of published financial statements.

The Company's management assessed the effectiveness of our internal control over financial reporting as of December 31, 2008. In making this assessment, it used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control Integrated Framework*. Based on its assessment the Company's management believes that, as of December 31, 2008, the Company's internal control over financial reporting is effective based on those criteria.

Auditor's Attestation

This annual report does not include an attestation report of the Company's registered accounting firm regarding internal control over financial reporting. The management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission.

ITEM 9B

OTHER INFORMATION

None

PART III**ITEM 10****DIRECTORS, EXECUTIVE OFFICERS, AND CORPORATE GOVERNANCE**

Our directors, principal executive officers and significant employees as of March 31, 2009 are as specified on the following table:

Name	Age	Position
Lloyd Spencer	52	Chief Executive Officer, Interim Chief Financial Officer, Director, Treasurer
David Hyams	52	Chief Technology Officer
Jon Mandrell	46	Director of Robotics and Automation, Secretary, Director
Charles H. House	68	Chairman, Director
Martin Nielson	57	Director
John Kroon	68	Director

The principal occupations for the past five years of each of our current executive officers and directors are as follows::

LLOYD T. SPENCER became Chief Executive Office of the Company on January 28 2008, interim Chief Financial Officer on November 17, 2008 and a member of the Board of Directors and Vice President of the Company since September 20, 2007. Mr. Spencer is also President and CEO of CoroWare Technologies, Inc. Mr. Spencer has over 24 years of experience in the computer and networking industries in engineering, product marketing, business development, and sales management. His expertise spans a spectrum of service provider industries and technologies, including distributed network computing and embedded systems hardware development. Previously, Mr. Spencer has served as Vice-President of Marketing and Sales at eQuest Technologies; Solutions Unit Manager at Microsoft; Assistant Vice-President and Business Unit Manager at Newbridge Networks; and Product Line Manager at Sun Microsystems.

Community involvement is an important part of Mr. Spencer's life. He is an active contributor to the robotics community in the Seattle area through his participation in the Seattle Robotics Society. He is also instrumental in initiating and fostering 4H robotics clubs and programs in Washington State.

Mr. Spencer received his Bachelors degree from Cornell University with a major in Biology and Animal Science and with an emphasis in Immunogenetics.

DAVID HYAMS is the Chief Technology Officer of CTI and has more than 20 years' experience in the computer and networking industries. His engineering and engineering management expertise ranges across a spectrum of embedded system and communications technologies, including automotive telematics, navigation and positioning systems, instrumentation and process control, and mobile-wireless personal communications.

Previously, David was a senior development manager at AT&T Wireless. He and his development teams architected, prototyped and developed innovative services such as Project Angel, a fixed wireless networking service that was acquired and is now marketed by SR Telecom, and AT&T Packet Data Service for Airborne Systems that was acquired and is now marketed by Sky Way Communications. Prior to AT&T, David was a software developer on

numerous projects at Microsoft Corporation, including Project Taj Mahal and the Microsoft Digital Home group, where he was responsible for architecting, prototyping and developing home control user interfaces and a component switching framework. Previously, David held development, systems engineering and product management positions at Applied Microsystems, including the development of diagnostic systems for monitoring system performance and automated control panels for use with microprocessor development instrumentation.

David is an avid radio controlled airplane enthusiast and an active contributor to the robotics community in Seattle area through his participation in the Seattle Robotics Society since 1985.

JON MANDRELL has been with CoroWare for 2 years in the position as Director of Robotics and Automation. He has 15 years of management experience, from technical lead to Director. Previously, Jon was senior firmware architect and lead for Vixel and Emulex Corporation, a producer of Fibre-Channel switches and hubs, where he was responsible for specifying processes and tools to be used on development projects, as well as managing requirements and high-level software architecture issues for products. This position involved significant customer contact supporting the sales team and assisting in closing sales. Prior to Vixel and Emulex, Jon was project engineer and team lead at Medtronic Physio-Control Corporation. Designing the user interface and printer drivers on Physio's

LifePak-12 product line, as well as many internal portions of the system, required Jon to become familiar with FDA-level requirements specifications and validation/verification activities. Before joining Medtronic Physio-Control Corporation, Jon worked as a consultant for Cyber Safe Corporation and as a software engineer for Performance Dynamics, Applied Microsystems Corporation, and Peripheral Technology Inc. Jon has also been on the Board of Directors as Secretary to Lake Washington Human Services, a 501(c)(3) corporation based in Kirkland, Washington.

CHARLES H. HOUSE became a member of the Board of Directors in January 2007 and the Company's Chairman in December 2007. Mr. House currently serves as the Executive Director for Stanford University's MediaX program, as well as a Senior Research Scholar for Stanford's Center for Studies in Language. Mr. House is also currently the Chairman of TII Network Technologies, Inc., a Nasdaq-listed company. He was instrumental in defining and creating the logic analysis instrumentation field, and recently led the Virtual Collaboration work for Intel's IT Innovation Research group. Mr. House was also instrumental in establishing the Center for Information Technologies and Society at the University of California, Santa Barbara.

Earlier in his career, Mr. House led start-up activities for Hewlett-Packard that resulted in the creation of 12 business units, and also served as a start-up or turn-around leader for companies such as Veritas, Informix and Spectron MicroSystems. From 1982 to 1987, Mr. House served as Corporate Engineering Director of Hewlett-Packard. In 1988, Hewlett-Packard established the Chuck House Productivity annual award, the company's first-ever award named after an employee. Mr. House holds a BS degree in Engineering Physics, California Institute of Technology, 1962; MS EE, Stanford University, 1964; MA History of Science, University of Colorado, 1970; and an MBA (Strategic Studies), Western Behavioral Sciences Institute, 1985.

MARTIN NIELSON was the Company's Chief Executive Officer and Chairman of the Board of Directors from May 2003 until he resigned as Chairman effective June 1, 2004. Mr. Nielson is still on our Board of Directors. Mr. Nielson is a principal of Altos Bancorp, Inc., serving as its Chairman and Chief Executive Officer since November 2002. He has also served as Chief Executive Officer and director of Inclusion Inc. since September, 2000. Mr. Nielson and Altos were instrumental in assisting the Company in the negotiations that led to the Company's settlement of its litigation with SunTrust Bank and in securing the financing that funded that settlement. Mr. Nielson will continue as a director of the Company. Mr. Nielson is a senior executive with extensive experience in operations and finance. He has been a business builder for 30 years with such companies as Gap, Businessland, and Corporate Express.

Altos, which is an outgrowth of Nielson's M&A practice during his ten years in London is engaged in providing investment banking and business development services to growth oriented, emerging companies throughout the United States and Europe. Altos was retained by the Company to act as its business advisor, but that contract was concluded to coincide with the acquisition of RWT. Mr. Nielson is also a director of Advanced Communications Technologies, Inc.

JOHN C. KROON became a Director in April 2007. Mr. Kroon was the President and Chief Executive Officer and has recently retired as the Vice-Chairman of ImageGuide, Inc., which is a medical assist-device start-up company, in Baltimore, Maryland. Prior to this he worked for 6 years as the Vice-President of Corporate Strategies and Business development for GEFanuc North America in Charlottesville, Virginia. While at GEFanuc, he completed, amongst other things, 5 acquisitions worth \$150 million including a NASDAQ publicly traded company.

In 1974, Mr. Kroon began working with Reuter-Stokes Electronic Components developing radiation sensor systems for oil-well logging, thickness gauging and in-core sensors for boiling-water nuclear reactors. General Electric acquired Reuter-Stokes in 1984 and Mr. Kroon became the President of Reuter-Stokes in 1986. This position led to a varied 17-year career with GE as a Senior Executive that included a 4-year assignment as President of GEFanuc Europe's Industrial Automation Business in Frankfurt and Luxembourg. He is a senior member of the IEEE, serves on several Boards, has 5 patents and 32 technical publications

Mr. Kroon began his career as a chemist for Eldorado Mining & Refining, engaged in Uranium mining and processing in Canada, and later worked at Atomic Energy of Canada Ltd., in Chalk River, Ontario as a Research Scientist in reactor instrumentation. He received both his Bachelor of Science and PhD degrees in Nuclear Physics from the University of Ottawa. Mr. Kroon was born in the Netherlands and his family emigrated from Amsterdam to Ottawa, Canada in 1957.

Our directors will serve until the next annual meeting of stockholders. Our executive officers are appointed by our Board of Directors and serve at the discretion of the Board of Directors.

Section 16(a) of the Securities and Exchange Act of 1934

Section 16 (a) of the Securities and Exchange Act of 1934 requires the Company's officers and directors and persons who beneficially own more than 10% of the Company's common stock (collectively, Reporting Persons) to file reports of beneficial ownership and changes in beneficial ownership with the SEC. Reporting Persons are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file. We believe that all Reporting Persons complied with all applicable reporting requirements, except for the late filings of Form 3 (Initial Statement of Beneficial Ownership of Securities), and 4 (Statement of Changes of Beneficial Ownership of Securities) filings of Charles House, John Kroon, Lloyd Spencer, Linda Robison, Jon Mandrell, Gary McNear, Craig Conklin, Martin Nielson, Jerry Horne and Sheri Aws.

CODE OF ETHICS DISCLOSURE COMPLIANCE

The Company has adopted a Code of Ethics that applies to the Company's principal executive officer, principal financial officer, principal accounting officer and other employees performing similar functions. The Code of Ethics was revised and updated in 2007 and approved by the Board on December 6, 2007. The Code of Ethics is posted on its website www.coroware.com under the investor section of its website.

ITEM 11

EXECUTIVE COMPENSATION

Summary Compensation Table

The following table sets forth the cash compensation (including cash bonuses) paid or accrued and equity awards granted by us for years ended December 31, 2008 and 2007 to our Chief Executive Officer and our two most highly compensated officers other than the Chief Executive Officer at December 31, 2008 whose total compensation exceeded \$100,000.

Notes:

(1) Lloyd Spencer has served as CEO since January 28, 2008 and interim CFO since November 17, 2008. On September 20, 2007 he accepted the offices of Vice President of Business Development and Director. Mr. Spencer is CFO and President of the Company's subsidiary, CoroWare Technologies, Inc. with an annual salary of \$150,000. On May 16, 2006 Mr. Spencer entered into an employment agreement which granted him 500,000 stock options to purchase restricted shares of the Company's common stock at \$.18 which were cancelled on December 31, 2007 and converted into restricted common stock one-for-one and issued in lieu thereof by action of the Board of Directors. Mr. Spencer was granted 500,000 options to purchase restricted shares of the Company's common stock at \$.04 on May 16, 2006. These options have a ten year term and vest ratably over three years. On December 31, 2007 the options were re-priced from \$.04 to \$.01. As of March 31, 2009, 479,167 of these options have vested. On September 12, 2007, Mr. Spencer was granted 1,500,000 options to purchase restricted shares of the Company's common stock at \$.04. On December 31, 2007 the options were re-priced from \$.04 to \$.01. As of March 31, 2009, 770,883 of these options have vested.

(2) Jon Mandrell was appointed Corporate Secretary of the Company on July 2, 2008 and was appointed to the Board of Directors in March 2009. Mr. Mandrell has worked for the Company's subsidiary, CTI, as Director and Business Unit Manager for the Robotics and Automation team for 2 years. On January 29, 2007, the Company entered into a three year employment agreement with Mr. Mandrell calling for an annual salary of \$110,000. The agreement also granted Mr. Mandrell 400,000 options to purchase restricted shares of the Company's common stock at \$0.17 per share. At the September 12, 2007 Board of Directors meeting, it was approved to reduce the exercise price of all outstanding options to \$0.04. On December 31, 2007 the options were again re-priced from \$0.04 to \$0.01. At March 31, 2009, 300,000 of those options are vested. On September 12, 2007 Mr. Mandrell was granted 600,000 options to purchase restricted shares of the Company's common stock at \$0.04 per share. On December 31, 2007 the options were re-priced from \$0.04 to \$0.01. At March 31, 2009, 308,333 of those options are vested.

(3) Walter K. Weisel served as Chairman and CEO of the Company from August 25, 2004, the date the merger between the Company and RWT closed until his resignation as CEO on August 21, 2007 and from all other positions and the Board of Directors in December 2007. Under his employment agreement prior to August 21, 2007, Mr. Weisel's salary was increased on April 1, 2007 from \$150,000 to \$220,000. The difference between \$150,000 and \$220,000 was accrued and included in the settlement agreement with Mr. Weisel upon his termination. After August 21, 2007, his new salary was \$150,000. On December 13, 2007, Mr. Weisel entered into an Employment Termination and Retirement Agreement with the Company whereby the Company agreed to pay Mr. Weisel the aggregate gross sum of \$110,000, less applicable health insurance premiums, in 11 monthly installments beginning in January 2008. In addition, the Company agreed to a stock bonus of 2,800,000 shares to be paid in 4 equal quarterly installments throughout 2008. Mr. Weisel passed away following a brief illness in May 2008. All payments under the terms of the Employment Termination and Retirement Agreement are being made to his surviving spouse.

(4) Mr. Gartlan served as a consultant to the Company since December 15, 2004 through his wholly owned company, Stratex Solutions, LLC. ("Stratex"), a business consulting firm. Stratex earned 1,200,000 shares of the Company's common stock and received reimbursement of business expenses of approximately \$12,000 as consideration for these consulting services. Additionally, on December 15, 2004 Stratex received 1,212,128 options at an exercise price of \$0.05 per share with a term of ten years. Upon the direction of Stratex the shares were issued directly to Mr. Gartlan. On June 30, 2005, the Company and Mr. Gartlan entered into an Employment Agreement effective as of June 14, 2005. For all the services to be rendered by Mr. Gartlan from June 14, 2005 through December 14, 2005, Mr. Gartlan was granted stock options to purchase 1,800,000 shares of common stock of the Company at the purchase price of \$0.36 with a term of ten years. After December 14, 2005, Mr. Gartlan was paid a salary of \$15,000 per month, which payment commenced in January 2006 and terminated on December 13, 2006. In March 2006 the Company modified the 1,800,000 options granted to Mr. Gartlan as part of his employment agreement dated June 30, 2005 by changing their vesting from a three year period to 100% vested as of December 14, 2005, and by modifying the exercise price from \$0.036 to \$0.1. They expire in June 2015. Additionally, the 1,212,128 options that were granted to Stratex Solutions, Inc. in December 2004 were modified in March 2006 to vest over three years. They expire in December 2014. On December 31, 2007, all of these options were cancelled and converted into restricted common stock one-for-one and issued in lieu thereof by action of the Board of Directors.

On December 13, 2006 Mr. Gartlan resigned as CFO and accepted the office of Executive Director of Strategic Development at an annual salary of \$45,000 and became a Director

In August 2007, upon the departure of Walt Weisel, Mr. Gartlan was appointed CEO of the Company. His salary was established at \$220,000 per annum with \$45,000 to be paid in cash and \$175,000 to be paid in stock. In September, upon the departure of Ken Vandenberg, Mr. Gartlan was appointed CFO of the Company.

Eugene V. Gartlan passed away following a brief illness in January 2008 prior to completion of a new employment agreement reflecting the terms of his employment as CEO and CFO. The compensation committee had agreed to a salary of \$200,000 per year, with \$42,000 payable as cash and the balance in stock at the current price. As of the date

of his death, \$90,879 remained to be paid in cash and stock. During 2008, shares valued at \$30,121 were issued to Mr. Gartlan's surviving spouse in partial satisfaction of this liability. At March 31, 2009, \$60,758 remains as an accrued liabilities of which \$16,841 is to be paid in cash and \$43,917 is to be paid in stock. As per terms of his employment agreement, Mr. Gartlan was also to be awarded 2,000,000 shares of restricted common stock and 1,000,000 fully vested options at a purchase price of \$.01. The stock and the options were awarded to his surviving spouse in 2008.

(5) Kenneth Vanden Berg served as CFO of the Company from December 13, 2006 through his termination

September 10, 2007. Mr. Vanden Berg entered into an employment agreement effective as of December 13, 2006 granting him stock options to purchase 1,000,000 shares of restricted common stock of the Company at the purchase price of \$.20 with a term of ten years. His salary under the agreement was \$152,000 per annum and subsequently increased to \$175,000 per annum on April 1, 2007. None of the options granted to Mr. Vanden Berg were vested on the date of his termination and all options were cancelled.

Stock Option Plans

The Company's 2005 Stock Option Plan was ratified by the Stockholders of the Corporation at a Special Meeting of the Stockholders on November 3, 2006. The plan is presently administered by the Company's Board of Directors, which selects the eligible persons to whom options shall be granted, determines the number of common shares subject to each option, the exercise price therefore and the periods during which options are exercisable, interprets the provisions of the plan and, subject to certain limitations, may amend the plan. Each option granted under the plan shall be evidenced by a written agreement between the Company and the optionee.

Options may be granted to employees (including officers) and directors and certain consultants and advisors.

The exercise price for stock options is determined by the Board of Directors. The term of the option is determined by the Board of Directors. Options granted under the plan are not transferable, except by will and the laws of descent and distribution.

Notes:

(1) On May 16, 2006, Mr. Spencer entered into an employment agreement and was granted 500,000 options to purchase restricted shares of the Company's common stock at a purchase price of \$0.18, expiring in ten years, and vesting ratably over three years. The Board of Directors voted to re-price these options to \$0.04 at September 12, 2007 and again to \$0.01 at December 31, 2007. On February 4, 2008 these options were converted into 500,000 share of the Company's common stock as per a directive from the Board of Directors. On September 12, 2007, Mr. Spencer was granted 1,500,000 options to purchase restricted shares of the Company's common stock at \$0.04. On December 31, 2007 the options were re-priced to \$.01. As of March 31, 2009, 770,883 of these options have vested.

(2) Mr. Hyams entered into an employment agreement and was granted 500,000 options to purchase restricted shares of the Company's common stock at a purchase price of \$0.18, expiring in ten years, and vesting ratably over three years. The Board of Directors voted to re-price these options to \$0.04 at September 12, 2007 and again to \$0.01 at December 31, 2007. On February 4, 2008 these options were converted into 500,000 share of the Company's common stock as per a directive from the Board of Directors. On September 12, 2007 Mr. Hyams was granted 1,500,000 options to purchase restricted shares of the Company's common stock at \$0.04 per share. On December 31, 2007 the options were re-priced \$.01. At March 31, 2009, 770,833 of those options are vested.

(3) Mr. Mandrell entered into an employment agreement and was granted 500,000 options to purchase restricted shares of the Company's common stock at a purchase price of \$0.17, expiring in ten years, and vesting ratably over three years. The Board of Directors voted to re-price these options to \$0.04 at September 12, 2007 and again to \$0.01 at December 31, 2007. As of March 31, 2009, 300,000 of these options have vested. On September 12, 2007

Mr. Mandrell was granted 600,000 options to purchase restricted shares of the Company's common stock at \$0.04 per share. On December 31, 2007 the options were re-priced to \$0.01. At March 31, 2009, 308,333 of those options are vested.

(4) Walter K. Weisel was employed as CEO of the Company from August 25, 2004, until his resignation August 21, 2007 and from all other positions in December 2007. Mr. Weisel was granted 1,500,000 options on April 12, 2005 at an exercise price of \$.10, expiring in ten years and vesting ratably over three years. Upon his termination December 13, 2007 1,000,000 of the 1,500,000 options had vested and remain exercisable until their termination date. On March 10, 2006, Mr. Weisel was granted 500,000 options at an exercise price of \$.10 and immediate vesting. In accordance to the Option Plan the options were granted under, Mr. Weisel had up to 3 months after his termination to exercise these options. They were not exercised and were forfeited. On April 1, 2007, Mr. Weisel was granted 2,000,000 options to purchase restricted shares of the Company's common stock at \$.13, expiring in 10 years, vesting ratably over 3 years. These options did not vest prior to Mr. Weisel's termination.

(5) Mr. Gartlan was employed as the Company's Chief Financial Officer effective June 14, 2005. He did not receive any cash compensation, including salary or bonus in 2005. Mr. Gartlan was granted 1,800,000 options in lieu of a cash salary. In March 2006 the Company modified the 1,800,000 options granted to Mr. Gartlan as part of his employment agreement dated June 30, 2005 by changing their vesting from a three year period to 100% vested as of December 14, 2005, and by modifying the exercise price from \$.036 to \$.01. The term remains ten years with expiration in June 2015. The Company granted 1,212,128 options to Stratex Solutions, LLC, Mr. Gartlan's Consulting Company in Mr. Gartlan's name at his request. These options had an exercise price of \$.05, ten year term, and vested ratably over three years. All of these options were cancelled and converted into restricted common stock one-for-one and issued in lieu thereof by action of the Board of Directors. In December of 2007 the Board of Directors voted to convert options to common stock on a one to one ratio. In February 2008, Mr. Gartlan was granted 3,012,128 shares of restricted common stock in exchange for 3,012,128 common stock options that were outstanding. Subsequent to his passing, the Company granted 1,000,000 fully vested, ten-year options to Mr. Gartlan's surviving spouse to buy restricted common stock of the Company at \$0.01.

(6) Mr. Vanden Berg's employment was terminated in September 2007 prior to the vesting of any options and all of his options were cancelled.

Except as described above no other equity awards were made in 2008 and 2007 to any of the Executive Officers.

Outstanding Equity Awards at Year End

The following table sets forth information for the named executive officers regarding the number of options and stock awards, as well as the exercise prices and expiration dates thereof, as of December 31, 2008.

Name	Number of Securities Underlying Unexercised	Option Awards			Stock Awards				
		Number of Securities Underlying Unexercised	Equity Incentive Plan Awards: Number	Option Exercise Price (\$)	Option Expiration Date	Number of Shares or Units of Stock	Market Value of Shares or Units of	Equity Incentive Plan Awards: Number of	Equity Incentive Plan Awards: Market or Payout Value

	Options (#) Exercisable	Options (#) Unexercisable (1)	of Securities Underlying Unexercised Unearned Options (#)	That Have Not Vested (#)	Stock That Have Not Vested (\$)	Unearned Shares, Units or Other Rights That Have Not Vested (#)	of Unearned Shares, Units or Other Rights That Have Not Vested (\$)
Lloyd Spencer	645,833	854,167	\$.01	9/2017			
John Mandrell	266,667	133,333	\$.01	1/2017			
John Mandrell	258,333	341,667	\$.01	9/2017			
David Lyams	645,833	854,167	\$.01	9/2017			

(1) These awards rest ratably over three years from the date of grant and are exercisable for ten years.

Director's Compensation

The Company has not paid and does not presently propose to pay cash compensation to any director for acting in such capacity.

On April 12, 2007, the Board of Directors upon recommendation of the Compensation Committee adopted plan set forth below for compensating non employee directors. Under the plan the compensation of the Company's Board of Directors is all paid in restricted shares of the common stock of the Company and does not include any cash compensation for Board member or Committee member activities. Directors may be reimbursed for out of pocket expenses in restricted common stock or cash. The plan is as follows:

Annual fee for outside Board membership and meeting attendance	restricted common stock valued at \$25,000
Annual fee for audit committee chair	restricted common stock valued at \$8,000
Annual fee for compensation, nominating and other chairs	restricted common stock valued at \$6,500
Annual fee for committee membership (1)	restricted common stock valued at \$5,000
Options awarded in January valued at closing price on grant date options for shares valued at \$50,000	

(1) committees include the Compensation Committee, the Audit Committee and the Nominating Committee.

All restricted common stock is allocated at beginning of year based on January's 30 day volume weighted average closing price and delivered to board members monthly as earned by attendance, either by phone or in person. New outside directors receive restricted common stock valued at \$130,000, which vests ratably equally over 24 months.

Each current outside director, Messrs. Nielsen, House and Kroon, was entitled to receive for his service in 2008, stock in the following amounts:

Restricted Common

Director	Stock to be		Share Price
	Issued in 2008		
Martin Nielson	4,300,000	\$.01
Charles House	4,000,000	\$.01
John Kroon	3,150,000	\$.01

The above shares will be issued in 2009.

In April 2007 each director who served during 2006, Messrs. Nielsen, McNear, Conklin, and Wynns, were each awarded options for 500,000 shares of common stock at an exercise price of \$0.11 per share, expiring in ten years and vesting ratably over three years. Each of these options was converted into common stock in February 2008. Also in April 2007 each director who served during 2007, Messrs. Nielsen, McNear, Conklin, Wynns and House received options for 454,545 shares of common stock at an exercise price of \$0.11 per share, expiring in ten years and vesting ratably over three years. In December 2007, all of these options were cancelled and converted into restricted common stock one-for-one and issued in lieu thereof by action of the Board of Directors. The shares were issued in February 2008.

Employment Agreements with Executive Officers

Currently there is an employment agreement with Lloyd Spencer, CEO and interim CFO of CoroWare, Inc., and President and CEO of Coroware Technology, Inc. The Company entered into a five year employment agreement with Mr. Spencer on May 16, 2005. Under the terms of this agreement, Mr. Spencer is to serve as the President of CoroWare and to provide services as needed to the Company. His salary is \$150,000 per annum. An annual bonus may be awarded at the discretion of the Board of Directors. At the inception of the agreement, Mr. Spencer was awarded 5,000,000 stock options to purchase the Company's common stock at \$0.018 per share. These options vest annually over three years and terminate on the tenth anniversary of the date of grant.

Employment Termination and Retirement Agreement

On December 18, 2007, the Company entered into a Termination and Resignation Agreement and Consulting Agreement with Walter Weisel. Upon execution of the Termination and Retirement Agreement, Mr. Weisel was paid cash in the amount of \$10,000 as accrued but unpaid salary. In addition, he was paid \$3,200 for non reimbursed expenses. The aggregate gross sum of \$110,000 of accrued and unpaid compensation, less applicable health insurance premiums, is payable to Mr. Weisel as follows:

(a) Eleven monthly payments beginning in March 2008 of \$10,000 in the Corporation's restricted common stock at the Volume Weighted Average Price (VWAP) of the Corporation's stock price for the five (5) trading days immediately preceding the payment date; such VWAP will be the share price amount as determined by Bloomberg. The payment amount shall be less such amount as it is required to pay the actual premiums for Executive's health insurance during the period January 1, 2008 thru June 30, 2008, not to exceed the amount that would be payable by Executive if Executive elected COBRA coverage. All such stock shall be subject to Rule 144. All such monthly payments shall end after eleven (11) months of payment.

(b) Additional Stock Payment. The Corporation shall pay 2,800,000 shares of the Corporation's restricted common stock to Executive in four equal quarterly installments in 2008 beginning April 1, 2008. Such stock shall be subject to Rule 144.

The Consulting Agreement with Mr. Weisel provides that Mr. Weisel shall have the exclusive right to market the HLPR Chair for the benefit of the Corporation and its shareholders on terms acceptable to the Corporation. Consultant shall not at any time either during the six (6) month period of the Consulting Agreement or for eighteen months (18) months thereafter, market the HLPR Chair for the benefit of any other party, unless expressly approved in writing by the Corporation. Mr. Weisel further agreed that the development work done with the HLPR Chair was and is for the benefit of the Corporation and that he will not disclose any confidential information or be employed by any entity which is developing the HLPR Chair if there is no agreement between the developer of the HLPR Chair and the Corporation and or one of its subsidiaries.

Additionally, the Consulting Agreement provides that Consultant shall have the nonexclusive right to license the RWT intellectual property (patents) and pursue compensation for trade secret violations, subject to the Corporation's approval of any licensing agreement or trade secret award or settlement. Consultant shall be paid 7.5% of all net revenues received by the Corporation during the period commencing on the date of this agreement through the date which is the third anniversary of this agreement from such licensing agreements or trade secret awards or settlement agreements entered as a direct result of Consultant's efforts. Mr. Weisel passed away unexpectedly in May 2008. At that time he had not been successful in obtaining any license agreements or trade secret awards or settlements.

ITEM 12

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth certain information regarding the beneficial ownership of our common stock as of March 31, 2009 by each person or entity known by us to be the beneficial owner of more than 5% of the outstanding shares of common stock, each of our directors and named executive officers, and all of our directors and executive officers as a group. Beneficial ownership has been determined in accordance with Rule 13d-3 of the Securities Exchange Act of 1934, as amended. Generally, a person is deemed to be the beneficial owner of a security if he has the right to acquire voting or investment power within 60 days.

Percentage ownership in the following table is based on 878,752,920 shares of common stock outstanding as of March 31, 2009. A person is deemed to be the beneficial owner of securities that can be acquired by that person within 60 days from March 31, 2009 upon the exercise of options, warrants or convertible securities, or other rights. Each beneficial owner's percentage ownership is determined by dividing the number of shares beneficially owned by that person by the base number of outstanding shares, increased to reflect the shares underlying options, warrants, convertible securities, or other rights included in that person's holdings, but not those underlying shares held by any other person.

Name and Address of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percent of Class
Charles House 13 Campbell Lane Menlo Park, CA 94025	454,545	0.05%
Martin Nielsen 101 First Street #493 Los Altos, CA 94022	4,963,049	0.57%

ITEM 13**CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE**

No director, executive officer or nominee for election as a director of our company, and no owner of five percent or more of our outstanding shares or any member of their immediate family has entered into or proposed any transaction in which the amount involved exceeds \$60,000 except as set forth below.

During November 2004, a principal shareholder loaned the Company \$165,000 to pay down the line of credit with Fifth Third Bank. The loan had the same terms as the Fifth Third Bank line of credit, except that it remained unsecured until such time as the Fifth Third Bank line of credit was fully paid, including principal and accrued interest, and was due upon demand. In January 2005, the Fifth Third Bank line of credit was paid off. The loan and accrued interest was exchanged for stock in October 2007.

During October 2007, several current directors and officers invested \$35,000 in Series C preferred stock, which is described in Note 13 in the notes to financial statements. In April 2008 all of the Series C preferred shareholders converted their investments into common stock of the Company.

The Company also entered into short-term debt obligations other than in the ordinary course of business. The following table sets forth the pertinent information relating to the obligations:

Lender	Interest Rate	Original	Outstanding	Date of Loan	Due Date
--------	---------------	----------	-------------	--------------	----------

Edgar Filing: CoroWare, Inc, - Form 10-K

		Amount of	Balance at		
		Loan	December 31,		
			2008		
Rick Wynns	5%	\$ 30,000	\$ 27,500	July 22, 2005	December 31, 2007
Rick Wynns	10%	\$ 30,000	\$ 10,000	October 3, 2005	December 31, 2007
Rick Wynns	10%	\$ 30,000	\$ 30,000	October 17, 2005	December 31, 2007
Amy Spencer	18%	\$ 50,000	\$ 50,000	July 3, 2008	December 20, 2008
Raphael Cariou	18%	\$ 62,900	\$ 62,900	July 3 December 19, 2008	Various date thru June 30, 2009
Viejo Coro	0%	\$ 36,006	\$	May 16, 2006	
Linda Robison	0%	\$ 53,700	\$	March & June 2008	
Jerry Horne	10%	\$ 50,000	\$	November 28, 2005	

All of the lenders are shareholders of the Company, except Viejo Coro which is the corporation from which the Company purchased the assets of its CTI subsidiary. The note to Viejo Coro was converted into 86,849,782 shares of the Company's common stock during 2008. Ms. Robison loaned the Company \$40,000 in March 2008 and was re-paid within two weeks. Ms. Robison also loaned the Company \$13,700 in June 2008 and was re-paid in July 2008. Mr. Horne converted his loans and accrued interest into 14,892,650 shares of the Company's common stock in October of 2007. All the remaining notes are in default at December 31, 2008.

On July 22, 2005 the Company borrowed \$30,000 from a beneficial shareholder and director, Rick Wynns, and entered into a short term note requiring interest at the annual rate of 5%, maturing in six months, and principal and accrued interest are convertible into common stock of the Company at \$.15 per share. A payment of \$2,500 was made during the 4th quarter of 2006. The due date of the note was extended to December 31, 2007. To date there have been no conversions. In addition in October 2005 the Company entered into a second short-term obligation with Mr. Wynns for \$30,000. The note bears interest at 10% and matured in April 2006. A \$20,000 principal payment was made on this note in May 2006. The due date of the note was extended to December 31, 2007. In October 2005, The Company entered into a third short-term obligation with Mr. Wynns for \$30,000. This note bears interest at 10% and also matured in April 2006. This note was also extended through December 31, 2007. All three notes are currently in default.

On October 26, 2007, CTI entered into a short-term debt obligation totaling \$85,000 with Amy Spencer, the spouse of a director and current Chief Executive Officer. The entire balance of the loan plus accrued interest at 1.5% per month was due on November 15, 2007. A late fee of 5% was payable, if the loan was in default. The loan was paid in full within the terms of the loan. In July 2008 CTI entered into another short-term debt obligation totaling \$50,000 with Amy Spencer. The entire balance of the loan plus accrued interest at 1.5% per month was due on December 20, 2008. The note was not paid at maturity and is currently accruing late fees of 0.5% per month in addition to the interest.

During 2008 the Company borrowed an aggregate \$62,900 from Raphael Cariou, a shareholder and employee of the Company. The notes bear interest at 18% and mature on various dates beginning December 20, 2008 and running through June 30, 2009. Notes aggregating \$15,000 are currently in default and accruing late fees of 0.5% per month in addition to the interest.

ITEM 14

PRINCIPAL ACCOUNTANT FEES AND SERVICES

(1) Audit Fees

The aggregate fees billed for professional services rendered by LBB & Associates Ltd., LLP for the audit of the Registrant's annual financial statements and review of the financial statements included in the Registrant's Forms 10-Q or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for fiscal years 2008 and 2007, were \$120,000 and \$63,200, respectively.

(2) Audit Related Fees

The aggregate fees billed for professional services rendered by LBB & Associates Ltd., LLP for audit related fees for fiscal years 2008 and 2007 were \$0 and \$0, respectively.

(3) Tax Fees

The aggregate fees billed for professional services rendered by LBB & Associates Ltd., LLP for the preparation of the Registrant's tax returns, including tax planning for fiscal years 2008 and 2007 were \$0 and \$0, respectively.

(4) All Other Fees

No other fees were paid to LBB & Associates Ltd., LLP for fiscal years 2008 and 2007.

(5) Audit Committee Policies and Procedures

The Registrant does have an audit committee. The Board of Directors of the Registrant approved all of the services rendered to the Registrant by LBB & Associates Ltd., LLP for fiscal years 2008 and 2007.

(6) Audit Work Attributed to Persons Other than LBB & Associates Ltd., LLP.

Not applicable.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors

CoroWare, Inc.

Redmond, WA 98052

We have audited the accompanying consolidated balance sheets of CoroWare, Inc. (the Company) as of December 31, 2008 and 2007 and the related consolidated statements of operations, stockholders' deficit, and cash flows for each of the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of CoroWare, Inc. as of December 31, 2008 and 2007 and the consolidated results of its operations and its cash flows for each of the years then ended, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2 to the consolidated financial statements, the Company's recurring losses from operations, and its need for additional financing in order to fund its projected loss in 2009 raise substantial doubt about its ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

COROWARE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - NATURE OF THE COMPANY, BASIS OF PRESENTATION, AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation and consolidation policy:

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, CoroWare Technologies, Inc. (CTI), Innova Robotics, Inc. (IR), Robotic Workspace Technologies, Inc. (RWT), and Robotics Software Services, Inc. (RSS) (Herein are referred to as the Subsidiaries). All significant inter-company balances and transactions have been eliminated in the consolidated financial statements.

Nature of the Company:

CoroWare, Inc (CoroWare or the Company) is a software and software professional services company with a strong focus on information technology integration and robotics that delivers professional services, solutions and products that benefit customers in the software development, information technology, education, Homeland Security, military defense and automotive industry sectors. The Company changed its name from Innova Robotics and Automation, Inc. to CoroWare, Inc. effective May 17, 2008. The operating plan of the Company is to focus on its subsidiary CoroWare Technologies, Inc. (CTI). CTI delivers high value services and innovative solutions that maximize technology investments and achieve customer goals. In addition, high growth markets will be identified and developed so that the Company can leverage its existing expertise into value-added service, solutions and products.

COROWARE TECHNOLOGIES, INC.

CTI is a software professional services company with a strong focus on Information Technology integration and robotics integration, business automation solutions, and unmanned systems solutions to its customers in North America and Europe.

CTI s expertise includes the deployment and integration of computing platforms and applications, as well as the development of unmanned vehicle software and solutions for customers in the research, commercial, and homeland security market segments. CTI shall continue to offer its high value software systems development and integration services that complement the growing trend in outsourced software development services in Asia, Latin America and Eastern Europe. In addition, CTI is investigating the potential of offering software solutions that complement its High Value Software Systems Development and Integration Services, especially in the areas of Interactive Multimedia Tools and Innovation Collaboration Portals.

CTI is comprised of three principal solutions delivery groups:

.

Microsoft Practice

.

Enterprise Business Solutions

.

Robotics and Automation

Microsoft Practice

Release and Project Management

CTI's program managers are experts in Microsoft's product and solution development tools and processes. CTI uses that experience to create product specifications, develop project plans, perform security and release management audits with the objective of helping Microsoft deliver its solutions and products efficiently, affordably and on schedule. CTI's senior consultants design complex testing and demonstration environments using the latest Microsoft virtualization technology, ensuring rapid, scalable and low-fault deployments.

F- 9

Technology Adoption Lab Management

CTI's team of experienced hardware and software deployment engineers architect, deploy and support state-of-the-art computer lab facilities that include the latest builds of operating systems, developer tools, and servers. CTI engineers work side-by-side with Microsoft employees and partners to ensure that they can deploy and test applications on pre-release and newly released Microsoft platforms. CTI employees currently offer these services in two Microsoft data centers and labs.

Interactive Multimedia Solutions

CTI possesses the tools and experience to produce highly customizable electronic publications, providing Microsoft and other companies the opportunity to collect and publish electronic information in compelling, media-rich formats.

Enterprise Business Solutions

Service Oriented Business Applications (SOBA)

CTI's software and systems engineering staff has many years experience with the development and deployment of application software that is based on XML web services and service-oriented architecture. According to IDC (International Data Corporation) the SOA (Service Oriented Applications) market segment will continue to exhibit considerable growth with a CAGR of 75 percent from 2004 to 2009, reaching nearly \$9 billion by 2009.

Knowledge Management and Collaboration Portals

By implementing proven workflow strategies, CTI delivers knowledge management solutions that maximize user experience and provide the foundation for effective organization and collaboration. According to IDC collaboration software revenue is forecasted to reach value of \$2.0 billion in FY 08.

Solution Delivery

CTI is focused on delivering solutions around a key set of Microsoft products. CTI offers solutions, envisioning, design, development and testing services through architects and developers who are experienced in a range of Microsoft solutions and technologies.

Robotics and Automation

Professional Services

CTI is focused on the global market for service robots and offers its robotic integration expertise to customers who are looking for product realization, robotics simulation, systems architecture and design, and robotic applications development services. We believe CTI is uniquely positioned with its knowledge of robotics simulation, Microsoft Robotics Studio, software systems development, and hardware and software integration services to help its customers deliver innovative product and solutions. For example, CTI has been working on projects that help customers simulate and develop complex robots based on Microsoft Robotic Studio.

Solutions and Products

In May 2007, CTI began shipping the CoroBot, an affordable and flexible mobile robot for researchers, hobbyists and developers in the industrial and service robot segments. Some university customers are deploying CoroBots for use in various lab activities, including the development of swarm robotics applications designed to leverage groups of robots to complete complex tasks.

CTI designed the CoroBot to meet the need for affordable and flexible mobile robot platforms within the academic and commercial mobile robotics research and development community. Based on customer feedback, CTI believes that the availability of pre-installed Microsoft Robotics Studio® services will be viewed as a major advantage for users.

ROBOTIC WORKSPACE TECHNOLOGIES, INC.

During the third quarter of 2007 Robotic Workspace Technologies ceased all operations including manufacturing, sales and service of the Universal Robot Controllers (URC). The Company intends to license RWT's robotic control technology patents to original equipment manufacturers, software development companies, and other interested parties. At this moment, there is no guarantee that a market exists for selling licenses for these pioneer patents.

ROBOTICS SOFTWARE SERVICES, INC.

During 2007, the Company purchased Altronics Service Inc., then, subsequently, sold the assets subject to its liabilities. At the time of the sale the Company changed the name to Robotics Software Services, Inc which is not an operating company.

Summary of significant accounting policies:

Cash and cash equivalents:

Cash and cash equivalents include cash and all highly liquid financial instruments with original purchased maturities of three months or less.

Accounts receivable:

The Company's accounts receivable are exposed to credit risk. During the normal course of business, the Company extends unsecured credit to its customers with normal and traditional trade terms. Typically credit terms require payments to be made by the thirtieth day following the sale. The Company regularly evaluates and monitors the creditworthiness of each customer. The Company provides an allowance for doubtful accounts based on our continuing evaluation of its customers' credit risk and its overall collection history. At December 31, 2008 and December 31, 2007, no allowance was deemed necessary.

Property and equipment:

Property and equipment are stated at cost less accumulated depreciation. Major renovations, renewals and improvements are capitalized; minor replacements, maintenance and repairs are charged to current operations. Depreciation is computed by applying the straight-line method over the estimated useful lives which are generally five to ten years.

Intangible assets:

The Company's intangible assets, which are recorded at cost, consist primarily of the unamortized cost basis of customer lists and employment contracts. These assets are being amortized on a straight line basis over estimated useful lives, which range from three to five years.

Impairment of long-lived assets:

The Company evaluates the carrying value and recoverability of its long-lived assets when circumstances warrant such evaluation by applying the provisions of Financial Accounting Standard No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (FAS 144). FAS 144 requires that long-lived assets be reviewed for impairment

whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable through the estimated undiscounted cash flows expected to result from the use and eventual disposition of the assets. Whenever any such impairment exists, an impairment loss will be recognized for the amount by which the carrying value exceeds the fair value.

Deferred finance costs:

Deferred finance costs are associated with the convertible debenture financings (see Note 10) and are being amortized on a straight line basis over the term of the underlying debt instrument. Upon conversion the deferred finance cost associated with the converted amount is amortized.

Income taxes:

Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax

bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized. Additionally, taxes are calculated and expensed in accordance with applicable tax code.

Financial instruments:

Financial instruments, as defined in Financial Accounting Standard No. 107 Disclosures about Fair Value of Financial Instruments (FAS 107), consist of cash, accounts receivable, accounts payable, accrued expenses, notes payable, derivative financial instruments, and debt.

The Company carries cash, accounts receivable, accounts payable and accrued expenses at historical costs; their respective estimated fair values approximate carrying values due to their current nature. The Company also carries notes payable and convertible debt. The fair values of debt instruments approximate carrying values based on the comparable market interest rates applicable to similar instruments.

Derivative financial instruments, as defined in Financial Accounting Standard No. 133, Accounting for Derivative Financial Instruments and Hedging Activities (FAS 133), consist of financial instruments or other contracts that contain a notional amount and one or more underlying variables (e.g. interest rate, security price or other variable), require no initial net investment and permit net settlement. The caption Derivative Liability consists of (i) the fair values associated with derivative features embedded in the convertible debt financings and (ii) the fair values of the detachable warrants that were issued in connection with those financing arrangements.

The Company generally does not use derivative financial instruments to hedge exposures to cash-flow, market or foreign-currency risks. However, the Company has entered into certain other financial instruments and contracts, such as debt financing arrangements and freestanding warrants with features that are either (i) not afforded equity classification, (ii) embody risks not clearly and closely related to host contracts, or (iii) may be net-cash settled by the counterparty. As required by FAS 133, these instruments are required to be carried as derivative liabilities, at fair value, in its financial statements.

Share-based payments:

Stock based compensation expense is recorded in accordance with SFAS 123R (Revised 2004), *Share-Based Payment*, for stock and stock options awarded in return for services rendered. The expense is measured at the grant-date fair value of the award and recognized as compensation expense on a straight line basis over the service period, which is the vesting period. The Company estimates forfeitures that it expects will occur and records expense based upon the number of awards expected to vest.

The Company has estimated fair value at the date of grant using the Black-Scholes-Merton option-pricing-model with the following weighted average assumptions:

	2008	2007
Expected Volatility	75.10%	75.10%
Dividend yield	-0-	-0-
Expected term (in years)	0-10	0-5
Risk-free interest rate	4.41%	4.41%

Forfeiture rate	5.00%	5.00%
-----------------	-------	-------

Revenue recognition:

We derive our software system integration services revenue from short-duration, time and material contracts. Generally, such contracts provide for an hourly-rate and a stipulated maximum fee. Revenue is recorded only on executed arrangements as time is incurred on the project and as materials, which are insignificant to the total contract value, are expended. Revenue is not recognized in cases where customer acceptance of the work product is necessary, unless sufficient work has been performed to ascertain that the performance specifications are being met and the customer acknowledges that such performance specifications are being met. We periodically review contractual performance and estimate future performance requirements. Losses on contracts are recorded when estimable. No contractual losses were identified during the periods presented.

We recognize revenue for our software and software professional services as well as patents on motion control when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable and collectability is probable. Product sales are recognized by us generally at the time product is shipped. Shipping and handling costs are included in cost of goods sold.

We account for arrangements that contain multiple elements in accordance with EITF 00-21, Revenue Arrangements with Multiple Deliverables. When elements such as hardware, software and consulting services are contained in a single arrangement, or in related arrangements with the same customer, we allocate revenue to each element based on its relative fair value, provided that such element meets the criteria for treatment as a separate unit of accounting. The price charged when the element is sold separately generally determines fair value. In the absence of fair value for a delivered element, we allocate revenue first to the fair value of the underlying elements and allocate the residual revenue to the delivered elements. In the absence of fair value for an undelivered element, the arrangement is accounted for as a single unit of accounting, resulting in a delay of revenue recognition for the delivered elements until the undelivered elements are fulfilled. We limit the amount of revenue recognition for delivered elements to the amount that is not contingent on future delivery of products or services or subject to customer-specified return of refund privileges.

We recognize revenue from the sale of manufacturer's maintenance and extended warranty contracts in accordance with EITF 99-19 net of its costs of purchasing the related contracts.

Research and development:

Research and development costs relate to the development of new products, including significant improvements and refinements to existing products, and are expensed as incurred. Research and development expenses from continuing operations for the years ended December 31, 2008 and 2007 were \$20,188 and \$49,396, respectively.

Advertising expense:

The Company expenses advertising costs as they are incurred. Advertising expense for the years ending December 31, 2008 and 2007 were \$8,695 and \$99,387, respectively.

Concentration of Credit Risk:

Financial instruments which potentially expose the Company to concentrations of credit risk are cash and cash equivalents and trade accounts receivable.

The Company maintains its cash and cash equivalents in deposit accounts with high quality, credit-worthy financial institutions. At times during 2008, our cash balances exceeded federally insured limits.

At December 31, 2008, 72% and 18% of the Company's revenues were from two customers. Those same two customers comprised 28% and 0%, respectively of the Company's accounts receivable balance at December 31, 2008. At December 31, 2007, 87% of the Company's revenues were from one customer. That customer also comprised 50% of the Company's accounts receivable balance at December 31, 2007.

Basic and diluted loss per share:

The Company is required to provide basic and dilutive earnings (loss) per common share information. The basic net loss per common share is computed by dividing the net loss applicable to common stockholders by the weighted average number of common shares outstanding.

Diluted net loss per common share is computed by dividing the net loss applicable to common stockholders, adjusted on an "as if converted" basis, by the weighted average number of common shares outstanding plus potential dilutive securities. For the years ended December 2008 and 2007, potential dilutive securities had an anti-dilutive effect and were not included in the calculation of diluted net loss per common share.

Dividend Policy

The Company has never declared or paid any cash dividends on its common stock. The Company anticipates that any earnings will be retained for development and expansion of its business and does not anticipate paying any cash dividends in the foreseeable future. Additionally, as of December 31, 2008 and 2007 the Company has issued and has outstanding shares of Series B Preferred Stock which earns a 5% dividend, payable in either cash or common

stock of the Company. Such dividends on these Preferred Stocks will be paid before any dividends on common stock. The Board of Directors has sole discretion to pay cash dividends based on the Company's financial condition, results of operations, capital requirements, contractual obligations and other relevant factors.

Recent Accounting Pronouncements:

Management does not expect the impact of recently issued accounting pronouncements to have a material impact on its financial condition or results of operations.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among the more significant estimates included in the Company's financial statements are the following:

.
estimating future bad debts on accounts receivable that are carried at net realizable values;

.
estimating the fair value of its financial instruments that are required to be carried at fair value; and

.
estimating the recoverability of its long-lived assets.

The Company uses all available information and appropriate techniques to develop its estimates. However, actual results could differ from its estimates.

Reclassifications:

Certain 2007 balances have been reclassified to conform to current year presentation.

NOTE 2 - FINANCIAL CONDITION AND GOING CONCERN

The Company has incurred losses for the years ended December 31, 2008 and 2007 of \$1,805,852 and \$2,304,517, respectively. Because of these losses, the Company will require additional working capital to develop its business operations.

The Company intends to raise additional working capital through the use of private placements, public offerings and/or bank financing.

There are no assurances that the Company will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placements, public

offerings and/or bank financing necessary to support the Company's working capital requirements. To the extent that funds generated from operations, any private placements, public offerings and/or bank financing are insufficient, The Company will have to raise additional working capital. No assurance can be given that additional financing will be available, or if available, will be on terms acceptable to the Company

These conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 3 - PURCHASE OF BUSINESSES

ALTRONICS SERVICES, INC.

On March 16, 2007, Robotic Workspace Technologies, Inc., a wholly owned subsidiary of the Company, completed the purchase of all of the issued and outstanding shares of common stock of Altronics Service, Inc. (Altronics) pursuant to a certain Stock Purchase Agreement dated as of March 16, 2007 (the Agreement) which RWT entered into with Alfred Fleming and Andrea Fleming (the Sellers), being all of the shareholders of Altronics. The Company made this acquisition in order to engage Altronics principal employees and to benefit from Altronics strategic business relationships.

Under the terms of the Agreement, RWT purchased, and the Sellers sold, an aggregate of 280 shares of common stock of Altronics, representing all of the issued and outstanding shares of Altronics (the Shares) for an aggregate purchase price of \$285,700 (the Purchase Price), paid or to be paid by the Company as follows: (i) \$150,000 was paid on March 16, 2007 (the Closing Date); (ii) \$100,000 to be paid in two installments, the first installment of \$50,000 within 180 days after the Closing Date, and the second installment within one year after the Closing Date, which was evidenced in the form of a \$100,000 Promissory Note issued by the Company to the Sellers on the Closing Date; and (iii) \$35,700 in restricted shares of common stock of the Company at a per share price equal to \$0.1428 (250,000 shares), which was delivered to the Sellers on the Closing Date and vest as follows, provided that Alfred Fleming is an employee of Altronics at each vesting date: (x) 100,000 shares on the first anniversary of the Closing Date; (y) 100,000 shares on the second anniversary of the Closing Date; and (z) 50,000 shares on the third anniversary of the Closing Date.

The Company claims an exemption from the registration requirements of the Securities Act of 1933, as amended (the Act), for the issuance of the securities pursuant to Section 4(2) of the Act and/or Regulation D promulgated thereunder since, among other things, the transaction did not involve a public offering, the Sellers are accredited investors, they had access to information about the Company, the Sellers took the securities for investment and not resale, and the Company took appropriate measures to restrict the transfer of the securities.

In addition, on March 16, 2007, Altronics entered into an Employment Agreement (the Employment Agreement) with Alfred Fleming under which the Company employed Mr. Fleming as a Vice President for a period of three years commencing March 16, 2007 and to end on March 15, 2010 which was to be automatically renewed for successive one year periods until 30 days prior written notice not to renew is delivered by either the Company or Mr. Fleming. Mr. Fleming was to be paid a monthly salary of \$6,250, or \$75,000 per annum, and shall be issued stock options in accordance with the Company s executive level option schedule, which will vest over the three year term of the Employment Agreement. Further, Mr. Fleming may be eligible for Altronics employee bonus program, to be determined by the Board of Directors of Altronics based on meeting performance objectives and bonus criteria. During the term of his employment and for a period thereafter, Mr. Fleming will be subject to confidentiality and non-competition provisions, subject to standard exceptions.

The purchase price for Altronics amounted to \$285,700. The purchase of Altronics was accounted for as a purchase business combination, where the fair value of the purchase consideration was allocated to the assets acquired and liabilities assumed based upon fair values. In connection with the allocation, the fair values of assets acquired and liabilities assumed exceeded the purchase price by \$182,508. As a result, long-lived tangible and intangible assets acquired were reduced for this amount, which was allocated on a relative fair value basis. The operating results of the acquired business will be included in results of the Company as of March 1, 2007.

The following table summarizes the components of the purchase price allocation:

	Purchase Allocation	Fair Values
Current assets	\$ 252,754	\$ 252,754
Long-lived assets:		
Acquired customer lists (a)	126,492	300,000
Employment contracts (b)	60,000	69,000

Fixed assets		52,246		52,246
Accounts payable and accrued liabilities		(205,792)		(205,792)
	\$	285,700	\$	468,208
Purchase price:				
Cash	\$	150,000		
Note payable		100,000		
Common stock		35,700		
	\$	285,700		

Notes:

(a)

Customer lists were estimated to have an economic life of three years. The Company amortized this acquired intangible asset using the straight-line method over the estimated life.

(b)

Acquired employment contracts with key members of former Altronics management have terms of three years and embody significant restrictive covenants and non-competition agreements. The fair value of these intangible assets will be amortized over the contractual term of three years using the straight-line method.

The determination of the consideration to be paid in the transaction was determined in arms length negotiations between the Boards of Directors of the Company and Altronics. The negotiations took into account the value of the assets sold to the Company and the consideration paid. At the time of the transaction, there were no material relationships between Altronics and the Company, or any of its affiliates, any director or officer of the Company, or any associate of any such officer or director.

NOTE 4 DISCONTINUED OPERATIONS

Robotic Workspace Technologies:

During the third quarter of 2007, the Company made the decision to discontinue operations including manufacturing, sales, service production of the Universal Robot Controller due to a change in focus of the core business of the Company. In accordance with FAS 144, *Accounting for the Impairment or Disposal of Long-lived Assets*, the assets associated with this discontinued operation were reclassified to assets held for sale on the face of the accompanying consolidated 2007 balance sheet. The assets consisted of machinery and equipment of \$22,645 and inventory of \$10,000. During the fourth quarter of 2008 management wrote off those assets as they were unable to sell them.

Discontinued operations include the following:

	For the Year ended December 31,	
	2008	2007
Impairment loss	\$ (32,645)	\$ (68,696)
Loss on operations		(1,182,087)
Loss from discontinued operations	\$ (32,645)	\$ (1,250,783)

Robotics Software Services, Inc. (f/k/a Altronics Services, Inc. (Altronics)):

During the third quarter of 2007, the Company made the decision to sell the assets of Altronics back to the original owner because the Company changed its focus in its core business and the Altronics operations no longer fit with the future business plans. On September 28, 2007, the Company and its subsidiaries entered into an Asset Purchase Agreement with Alfred Fleming and The Transaction Acquisition Company LLC (TAC and collectively with Mr. Fleming, the Purchaser) pursuant to which the Purchaser agreed to purchase substantially all of the assets of Altronics. The purchase price paid to the Company was \$100,000 in the form of a promissory note due 35 days from closing (which was received by the Company in November 2007), the assumption of approximately \$365,000 in liabilities, the assignment of a note to the Seller in the amount of \$100,000 that was initially issued to the Purchaser upon the Company acquiring Altronics, and the return of 250,000 shares of common stock of the Company by the Purchaser. The Note is secured by all of the membership interest in TAC. The closing of the sale of the Assets occurred on September 28, 2007. Since the closing occurred prior to the end of the quarter, there were no assets

transferred to be held for sale.

The components of the loss on disposal are as follows:

Assets sold to Purchaser		
Cash	\$	2,865
Accounts receivable		52,546
Inventory		440,914
Machinery and equipment, net		49,230
Intangible assets, net		165,768
Liabilities assumed by Purchaser		(365,231)
Note receivable issued by Purchaser		(100,000)
Note payable assumed by Purchaser		(100,000)
Innova common stock returned by Purchaser		(35,700)
Total loss on disposal	\$	110,392

Discontinued operations include the following:
