## PART I — FINANCIAL INFORMATION

### ITEM 1. CONSOLIDATED FINANCIAL STATEMENTS.

Certain information and footnote disclosures required under accounting principles generally accepted in the United States of America have been condensed or omitted from the following consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission. The following unaudited consolidated financial statements should be read in conjunction with the year-end restated consolidated financial statements and notes thereto included in the Company's Form 10-K for the year ended December 31, 2012.

The results of operations for the three and six months ended June 30, 2013 and 2012 are not necessarily indicative of the results for the entire fiscal year or for any other period.

PureSafe Water Systems Inc. and Subsidiary  
Notes to Condensed Consolidated Financial Statements  
(Unaudited)

NOTE 1: DESCRIPTION OF BUSINESS.

PureSafe Water Systems, Inc. (the "Company") is a Delaware corporation engaged in the design, development, manufacturing and sales of the PureSafe™ First Response Water System (the "FRWS"), both within and outside of the United States. The Company's corporate headquarters and factory are located in Plainview, New York.

NOTE 2: BASIS OF PRESENTATION AND ACCOUNTING POLICIES.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. Accordingly, these interim financial statements do not include all of the information and footnotes required for annual financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary to make the financial statements not misleading have been included.

The operating results for the six month period ended June 30, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013. These financial statements should be read in conjunction with the financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, filed with the Securities and Exchange Commission on April 16, 2013.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period.

Management bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. The most significant estimates, among other things, are used in accounting for allowances for deferred income taxes, expected realizable values for long-lived assets (primarily intangible assets and property and equipment), contingencies, as well as the recording and presentation of its common stock. Estimates and assumptions are periodically reviewed and the effects of any material revisions are reflected in the consolidated financial statements in the period that they are determined to be necessary. Actual results could differ from those estimates and assumptions.

Principles of Consolidation

The consolidated financial statements of PureSafe Water Systems, Inc. include accounts of the Company and its wholly-owned subsidiary, PureSafe Manufacturing and Research Corporation. Intercompany transactions and balances are eliminated in consolidation.

Revenue Recognition

The Company generally recognizes revenues under Staff Accounting Bulletin No. 104 when the following criteria are met, persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the seller's price to the buyer is fixed or determinable, and collectibility is reasonably assured. In addition the Company may enter

agreements that include multiple elements (i.e., products and services/training). Revenue under multiple element arrangements is recognized in accordance with FASB ASC 605-25 Multiple-Element Arrangements (“ASC 605”). When vendor specific objective evidence or third party evidence of selling price for deliverables in an arrangement cannot be determined, the Company develops a best estimate of the selling price to separate deliverables and allocates arrangement consideration using the relative selling price method. Additionally, this guidance eliminates the residual method of allocation. If an arrangement includes undelivered elements that are not essential to the functionality of the delivered elements, we defer the fair value of the undelivered elements with the residual revenue allocated to the delivered elements. Fair value is determined based upon the price charged when the element is sold separately. If there is not sufficient evidence of the fair value of the undelivered elements, no revenue is allocated to the delivered elements and the total consideration received is deferred until delivery of those elements for which objective and reliable evidence of the fair value is not available. For the six months ended June 30, 2013 and 2012, the Company did not have any multiple deliverable elements.

[Back to Table of Contents](#)

## Inventories

Inventory amounts are stated at lower of first-in, first-out (“FIFO”) cost or market.

## Deferred Financing Costs

Cost incurred in conjunction with the debt financing has been capitalized and will be amortized to interest expense using the straight line method, which approximates the interest rate method over the term of the debt and is included as a component of other assets.

## Derivative Liabilities

In connection with the issuance of certain convertible promissory notes, the terms of the convertible notes included an embedded conversion feature; which provided for the settlement of certain convertible promissory notes into shares of common stock at a rate which was determined to be variable. The Company determined that the conversion feature was an embedded derivative instrument pursuant to ASC 815 “Derivatives and Hedging”

The accounting treatment of derivative financial instruments requires that the Company record the conversion option and related warrants at their fair values as of the inception date of the agreements and at fair value as of each subsequent balance sheet date. As a result of entering into the convertible promissory notes, the Company is required to classify all other non-employee warrants as derivative liabilities and record them at their fair values at each balance sheet date. Any change in fair value was recorded as a change in the fair value of derivative liabilities for each reporting period at each balance sheet date. The Company reassesses the classification at each balance sheet date. If the classification changes as a result of events during the period, the contract is reclassified as of the date of the event that caused the reclassification.

The fair value of conversion options that are convertible at a fixed number of shares or at a fixed conversion price are recorded using the intrinsic value method and conversion options at variable rates are deemed to be a “down-round protection” and therefore, do not meet the scope exception for treatment as a derivative under ASC 815. Since, “down-round protection” is not an input into the calculation of the fair value of the conversion option and cannot be considered “indexed to the Company’s own stock” which is a requirement for the scope exception as outlined under ASC 815. The Company determined the fair value of the Binomial Lattice Model and the Intrinsic Value Method to be materially the same. Warrants that have been reclassified to derivative liability that did not contain “down-round protection” were valued using the black-scholes model. The Company’s outstanding warrants did not contain any down round protection.

The Black-Scholes option valuation model is used to estimate the fair value of the warrants or options granted. The model includes subjective input assumptions that can materially affect the fair value estimates. The model was developed for use in estimating the fair value of traded options or warrants. The expected volatility is estimated based on the most recent historical period of time equal to the weighted average life of the warrants or options granted

The principal assumptions used in applying the Black-Scholes model were as follows:

	For the six months ended June 30, 2013	
Assumptions:		
Risk-free interest rate	0.36%- 1.96	%

Expected life	3	
Expected volatility	125%-175	%
Dividends	0.0	%

[Back to Table of Contents](#)

## Stock-Based Compensation

The Company reports stock-based compensation under Accounting Standard Codification (“ASC”) 718 “Compensation – Stock Compensation”. ASC 718 requires all share-based payments to employees, including grants of employee stock options, to be recognized in the consolidated financial statements based on their fair values.

The Company accounts for equity instruments issued to non-employees as compensation in accordance with the provisions of ASC 718, which require that each such equity instrument is recorded at its fair value on the measurement date, which is typically the date the services are performed.

The Black-Scholes option valuation model is used to estimate the fair values of options. The model includes subjective input assumptions that can materially affect the fair value estimates. The model was developed for use in estimating the fair value of traded options or warrants. The expected volatility is estimated based on the most recent historical period of time equal to the weighted average life of the subject options or warrants.

The principal assumptions used in applying the Black-Scholes model were as follows:

	For the six months ended June 30, 2013
Assumptions:	
Risk-free interest rate	0.36 - 1.96%
Expected life	3
Expected volatility	125% - 175%
Dividends	0.0%

## NOTE 3: GOING CONCERN.

The accompanying unaudited condensed consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company has incurred a net loss of approximately \$2,155,000 and \$1,007,000 for the six months ended June 30, 2013 and 2012, respectively. The Company has a working capital deficit of approximately \$5.3 million and \$4.6 million as of June 30, 2013 and December 31, 2012, respectively. The Company continues to incur recurring losses from operations and has an accumulated deficit since inception of approximately \$47.2 million. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

The Company's continuation as a going concern is dependent upon its ability to bring the Company's products to market and generate revenues, control costs, and obtain additional financing, as required and on reasonable terms. The Company's plans with respect to these matters include restructuring its existing debt and raising additional financing in the next twelve months through issuance of stock and/or debt. On January 23, 2013, The Company signed an Engineering Package Agreement (“ETG Agreement”) with Engineering Technologies Group, Inc. (“ETG”), Hopkinton, Massachusetts. Under the engineering agreement, ETG will provide detailed electronic engineering drawings and purchase specifications for the Company's water purification and filtration product and to facilitate the outsourcing of the assembly, sub-assembly and manufacturing. On January 25, 2013, the Company entered into an Exclusive Sales and Marketing Agreement (the “Distribution Agreement”) with Global Equipment Marketing, Inc. (“GEM”), Hopkinton, Massachusetts, a distribution and marketing company. Under the Distribution Agreement, on an exclusive basis, GEM is responsible for promoting and selling the Company's products at their cost and expense. In exchange, GEM will receive a discount from the list prices of PureSafe products in connection with sales to its dealers, distributors,

representatives and resellers. The Company remains responsible for the design and manufacturing of the products.

[Back to Table of Contents](#)

The Company can give no assurance that such financing will be available on terms advantageous to the Company, or at all. Should the Company not be successful in obtaining the necessary financing to fund its operations, the Company would need to curtail certain or all of its operational activities. The accompanying unaudited condensed consolidated financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

On February 28, 2013, the Company increased the authorized Common Shares of the Company from 800,000,000 to 2,000,000,000. The Company filed a Schedule 14C Information Statement with SEC in connection with such increase.

**NOTE 4: RECENT ACCOUNTING PRONOUNCEMENTS.**

Recent accounting pronouncements issued by the FASB and the SEC did not have, or are not believed by management to have, a material impact on the Company's present or future consolidated financial statements.

**NOTE 5: INVENTORIES**

Inventories consist of the following at June 30, 2013,

Raw materials	\$ 51,600
Finished Goods	141,636
Total	\$ 193,236

**NOTE 6: NET LOSS PER SHARE OF COMMON STOCK.**

Basic loss per share was computed using the weighted average number of outstanding common shares. Diluted loss per share includes the effect of dilutive common stock equivalents from the assumed exercise of options, warrants, convertible preferred stock and convertible notes. Common stock equivalents were excluded in the computation of diluted loss per share since their inclusion would be anti-dilutive.

Total shares issuable upon the exercise of warrants and conversion of preferred stock and convertible promissory notes for the six months ended June 30, 2013 and 2012 were as follows:

	June 30,	
	2013	2012
Warrants	155,056,588	29,430,536
Convertible promissory notes	35,144,346	42,435,258
Convertible preferred stock	1,545,760	1,545,760
Total	191,746,694	73,411,554

## Fair Value

ASC 820 “Fair Value Measurements and Disclosures” defines fair value, establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. As defined in ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Standard clarifies that the exchange price is the price in an orderly transaction between market participants to sell an asset or transfer a liability at the measurement date and emphasizes that fair value is a market-based measurement and not an entity-specific measurement.

ASC 820 establishes the following hierarchy used in fair value measurements and expands the required disclosures of assets and liabilities measured at fair value:

Level 1 – Inputs use quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

Level 2 – Inputs use other inputs that are observable, either directly or indirectly. These inputs include quoted prices for similar assets and liabilities in active markets as well as other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 – Inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Company’s assessment of the significance of particular inputs to these fair measurements requires judgment and considers factors specific to each asset or liability.

Liabilities measured at fair value on a recurring basis at June 30, 2013 are as follows:

	Quoted Prices in Active Markets for Identical Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at June 30, 2013
Embedded conversion feature	\$--	\$--	\$ 105,900	\$105,900
Warrant liability	--	--	829,800	829,800
Balance at June 30, 2013	\$--	\$--	\$ 935,700	\$935,700

Financial assets are considered Level 3 when their fair values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable. The Company’s Level 3 liabilities consist of derivative liabilities associated with convertible debt that contains an indeterminable conversion share price and the tainted warrants as the Company cannot determine if it will have sufficient authorized common stock to settle such arrangements.

[Back to Table of Contents](#)

The following table provides a summary of the changes in fair value, including net transfers in and/or out, of all financial assets measured at fair value on a recurring basis using significant unobservable inputs during the six months ended June 30, 2013.

	Warrants	Conversion Feature	Total
Balance at - January 1, 2013	\$ 39,300	\$ 224,000	\$ 263,300
Included in stock based compensation	--	--	--
Change in fair value of derivative liability	573,200	(23,100)	550,100
Included in liabilities (debt discount)	5,600	8,000	13,600
Included in stockholder's equity	211,700	(103,000)	108,700
Transfers in and /or out of Level 3	--	--	--
Balance at - June 30, 2013	\$ 829,800	\$ 105,900	\$ 935,700

## NOTE 7: STOCKHOLDERS' DEFICIENCY.

## Debt

During the six months ended June 30, 2013, the Company issued a total of 67,465,348 shares of common stock upon the requests from note holders to convert principal plus accrued interest totaling \$160,677 into the Company's common stock based on the terms set forth in the loans. The conversion rates were from \$0.00102 to \$0.0096 per share.

During the six months ended June 30, 2013, the Company issued a total of 23,021,012 shares of common stock to settle notes payable and accrued interest of \$125,463.

On February 4, 2013, the Company issued 4,856,726 shares of common stock to a note lender as penalty shares for failing to issue shares timely upon received the conversion notice from the lender. The Company recorded \$10,199 of interest expense for such issuance.

## Cash

## Through Equity Financing:

During the six months ended June 30, 2013, for gross proceeds of \$570,800 the Company sold 106,066,743 shares of common stock and warrants to purchase additional 26,516,687 shares of common stock at exercise prices of \$0.0039 to \$0.017 per share. The warrants have a term of three years and are fully vested on the date of issuance.

On June 27, 2013, the Company received \$19,532 from multiple investors who exercised their warrants to purchase 3,301,282 shares-of common stock. The exercises prices are \$0.0036\_ to \$0.0094 per share. As of June 30, 2013 the Company has not issued the shares and has recorded the transaction as common stock to be issued.

[Back to Table of Contents](#)

Services

On March 18, 2013, the Company issued to its Chief Executive Officer 15,000,000 shares of common stock and warrants to purchase additional 15,000,000 shares of common stock at the exercise price of \$0.0033 per share. The issuance was approved by the Company's Compensation Committee on February 11, 2013. The warrants have a term of five years. Both shares and warrants are fully vested on the date of grant. The Company recorded \$188,700 of stock-based compensation which includes \$97,500 for the shares issuance and \$91,200 for the warrants granted.

On March 18, 2013, the Company issued to its Chief Financial Officer 10,000,000 shares of common stock and warrants to purchase additional 10,000,000 shares of common stock at the exercise price of \$0.0033 per share. The issuance was approved by the Company's Compensation Committee on February 11, 2013. The warrants have a term of five years. Both shares and warrants are fully vested on the date of grant. The Company recorded \$125,800 of stock-based compensation which includes \$65,000 for the shares issuance and \$60,800 for the warrants granted.

On March 25, 2013, the Company issued 950,000 shares of common stock to its employees. The issuance was approved by the Board of Directors on January 7, 2013 and the shares are fully vested on the date of grant. The Company recorded \$3,800 stock-based compensation in connection with such issuance.

On March 25, 2013, the Company issued 1,250,000 shares of common stock to multiple consultants. The issuance was approved by the Board of Directors on January 7, 2013 and the shares are fully vested on the date of grant. The Company recorded \$5,000 of stock-based compensation in connection with such issuance.

On March 14, 2013 and June 25, 2013, per the terms of an agreement entered into on January 24, 2013, the Company issued 50,000,000 shares of common stock to Engineering Technologies Group, Inc. The shares were fully vested on the date of issuance. The Company recorded a stock-based compensation charge of \$150,000 for the fair value of the shares included in connection with such issuance.

On March 19, 2013, the Company issued 3,000,000 shares of common stock to a consultant for services received. The shares are fully vested on the date of issuance. The Company recorded \$27,000 of consultant fees in connection with such issuance.

On April 5, 2013, the Company issued 21,509,222 shares of common stock to an investment banker for services received. The shares are fully vested on the date of issuance. The Company recorded \$80,000 of consultant fees in connection with such issuance.

NOTE 8: NOTES PAYABLE

During the six months ended June 30, 2013, at the request of a lender the Company repaid \$133,963 of debt and accrued interest for \$8,500 in cash and the issuance of 23,021,012 shares of common stock.

[Back to Table of Contents](#)

NOTE 9: CONVERTIBLE PROMISSORY NOTES PAYABLE

- (a) On January 8, 2013 for gross proceeds of \$25,000 the Company issued a lender a convertible promissory note bearing interest at the rate of 10% per annum with a maturity date of January 8, 2014. The loan and accrued interest are to be paid on the maturity date. The promissory note contains conversion clauses that allow the lender the option to convert the loan amount plus all accrued and unpaid interest due under the note into common stock at a conversion rate of \$0.03 per share. In addition, the Company also issued 1,666,667 warrants to the lender to purchase additional shares of common stock at an exercise price of \$0.0036 per share. These warrants have a term of 5 years.

The Company accounted for the issuance of the convertible promissory note and the warrants attached to the note in accordance with ASC 815 “Derivatives and Hedging”. Accordingly, the warrants and the embedded conversion option of the convertible notes are recorded as derivative liabilities at their fair market value and are marked to market through earnings at the end of each reporting period. The gross proceeds from the sale of the note are recorded net of a discount of \$13,600. The debt discount relates to the beneficial conversion feature embedded in the conversion option and the fair value of the warrants attached to the notes. The debt discount is charged to interest expense ratably over the term of the convertible note.

- (b) On February 26, 2013, at the request of a lender, the Company repaid \$49,961 of debt per the terms of the loan entered into on August 28, 2012. The repayment includes \$17,461 of accrued interest.
- (c) On May 16, 2013, the Company in conjunction with the existing noteholder entered into a loan agreement with a new lender for the sale and transfer of a \$20,000 note plus \$4,895 accrued interest. The Company issued the new lender a convertible promissory note of \$29,895 bearing interest rate of 10% per annum with a maturity date of January 1, 2014. The loan and accrued interest are to be paid on the maturity date. The promissory note contains conversion clauses that allow the lender the option to convert the loan amount plus all accrued and unpaid interest due under the note into common stock at a conversion rate of the lesser of a.) 60% of the low traded price of the Company’s common stock for the twenty trading day period immediately preceding the date at the which Holder, by written notice gives notice to the Company of its election to convert or b.)\$0.01. The Company recorded \$5,000 loan cost in connection with the increase of the principal. The loan cost will be amortized over the life of the loan. Subsequent to closing of the loan agreement, at the request of the lender, the Company converted \$21,330 debt into 2,500,000 shares of common stock.
- (d) On May 22, 2013, the Company entered into a loan agreement with a lender for the Principal Sum of \$335,000 plus accrued and unpaid interest and any other fees. The components of the principal are \$300,000 proceeds of the loan plus \$35,000 original issue discount. The Maturity Date is one year from the effective date of each payment. The loan and accrued interest are to be paid on the maturity date. There is zero percent interest for the first three months. After three months, a one-time interest charge of 12% will be charged and added to the principal sum.

The promissory note contains conversion clauses that allow the lender, at any time from 180 days after the Effective Date, the option to convert the loan amount plus all accrued and unpaid interest due under the note into common stock at a conversion price per share of the lesser of \$0.018 or 60% of the lowest trade price in the 25 trading days preceding the conversion. The Company

received \$65,000 consideration upon entering the agreement on May 22, 2013 and the Company recorded \$6,500 loan cost in connection with this transaction and the loan cost will be amortized over the life of the loan.

The Company accounted for the issuance of the convertible promissory note and the warrants attached to the note in accordance with ASC 815 "Derivatives and Hedging". Accordingly, the warrants and the embedded conversion option of the convertible notes are recorded as derivative liabilities at their fair market value and are marked to market through earnings at the end of each reporting period. The gross proceeds from the sale of the note are recorded net of a discount of \$48,000. The debt discount relates to the beneficial conversion feature embedded in the conversion option. The debt discount is charged to interest expense ratably over the term of the convertible note.

- (e) During the six months ended June 30, 2013, the Company issued a total of 64,965,348 shares of common stock upon requests from note holders to convert loans with principal plus accrued interest totaling \$139,347 based on the terms set forth in the loans. The conversion rates were from \$0.00102 to \$0.0096 per share.

[Back to Table of Contents](#)

NOTE 10: RELATED PARTY TRANSACTIONS.

- (a) On January 2, 2013, the Company issued a total of 12,820,512 warrants to purchase common stock to its four directors, including warrants issued to its Chief Executive Officer and Chief Financial Officer, each of which received 3,205,128 warrants for their first quarter of 2013 director fees. The issuance is part of the annual compensation that was authorized by the Company's Board of Directors on December 6, 2011, when the Board approved replacing directors' annual compensation of \$50,000 with three year warrants payable quarterly. The warrants have a term of three years and are fully vested on the date of issuance. The Company recorded \$70,800 of stock-based compensation in connection with this issuance.
- (b) On March 18, 2013, the Company issued to its Chief Executive Officer 15,000,000 shares of common stock and warrants to purchase an additional 15,000,000 shares of common stock at the exercise price of \$0.0033 per share. The issuance was approved by the Company's Compensation Committee on February 11, 2013. The warrants have a term of five years. The shares and warrants are fully vested on the date of grant. The Company recorded \$188,700 of stock-based compensation which includes \$97,500 for the share issuance and \$91,200 for the warrants granted.
- (c) On March 18, 2013, the Company issued to its Chief Financial Officer 10,000,000 shares of common stock and warrants to purchase an additional 10,000,000 shares of common stock at the exercise price of \$0.0033 per share. The issuance was approved by the Company's Compensation Committee on February 11, 2013. The warrants have a term of five years. The shares and warrants are fully vested on the date of grant. The Company recorded \$125,800 of stock-based compensation which includes \$65,000 for the share issuance and \$60,800 for the warrants granted.
- (d) On April 5, 2013, the Company issued a total of 3,846,152 warrants to purchase common stock to its four directors, including warrants issued to its Chief Executive Officer and Chief Financial Officer, each of which received 961,538 warrants for their second quarter of 2013 director fees. The issuance is part of the annual compensation that was authorized by the Company's Board of Directors on December 6, 2011, when the Board approved replacing directors' annual compensation of \$50,000 with three year warrants payable quarterly. The warrants have a term of three years and are fully vested on the date of issuance. The Company recorded \$27,600 of stock-based compensation in connection with this issuance.

NOTE 11: COMMITMENTS AND CONTINGENCIES.

Litigation

The Company is a defendant in a suit in the Supreme Court of the State of New York, County of Nassau, filed by Fairchild Warehouse Associates, LLC, as plaintiff, for recovery of past rental payments for the Company's former office space at 25 Fairchild Avenue, Plainview, New York 11803, with money damages requested in the amount of \$ 141,721, which have been accrued for as of June 30, 2013.

The Company on April 4, 2013, was served with a summons and complaint, filed with the Supreme Court of the State of New York, County of New York, Levin Consulting Group, LLC, as plaintiff, where the plaintiff is claiming that additional shares of the Company's Common Stock are issuable by the Company to plaintiff in connection with the exercise by plaintiff of a common stock purchase warrant issued by the Company. As of June 30, 2013 the company

has not accrued any amount for this claim as an amount cannot reasonably be determined.

The Company is in default under a May 30, 2012, Securities Purchase Agreement entered into with TCA Global Credit Master Fund, LP, providing for the issuance of \$275,000 principal amount of senior secured redeemable and convertible debentures due November 30, 2012. The Company has not received a notice of default and is currently negotiating a forbearance agreement with the lender. As of June 30, 2013 the Company has accounted for the principal and accrued interest of \$283,250. However, the Company has not accrued any additional amounts for this contingency as an amount cannot be reasonably estimated.

[Back to Table of Contents](#)

NOTE 12: SUBSEQUENT EVENTS.

- (a) On July 1, 2013, the Company issued a total of 2,702,704 warrants to purchase common stock to its four directors, including warrants issued to its Chief Executive Officer and Chief Financial Officer, each of which received 675,676 warrants for their third quarter of 2013 director fees. The issuance is part of the annual compensation that was authorized by the Company's Board of Directors on December 6, 2011, when the Board approved replacing directors' annual compensation of \$50,000 with three year warrants payable quarterly. The warrants have a term of three years at an exercise price of \$0.0185 per share and are fully vested on the date of issuance. The Company recorded \$40,800 of stock-based compensation in connection with this issuance.
- (b) From July 1, 2013 through August 4, 2013, the Company issued a total of 3,301,282 shares of common stock to investors who exercised their warrants to purchase the Company's common stock. Total funds of \$19,532 for such exercises were received in June 2013. The exercise prices are between \$0.0036 and \$0.0094.
- (c) From July 1, 2013 through August 4, 2013, the Company issued a total of 7,255,748 shares of common stock to investors who exercised their warrants to purchase the Company's common stock. The Company received total \$44,981 for such exercises. The exercise prices are between \$0.00352 and \$0.0098.
- (d) On July 15, 2013, the Company issued 526,312 shares for the exercise of a cashless warrant.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

### Introductory Comment

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our financial statements and related notes contained elsewhere in this Quarterly Report on Form 10-Q, as well as our audited financial statements and related notes contained in our Annual Report on Form 10-K for the year ended December 31, 2012, filed with the Securities and Exchange Commission (the "SEC") on April 16, 2013.

### Note Regarding Forward-Looking Statements

This quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"). To the extent that any statements made in this Form 10-Q contain information that is not historical, these statements are essentially forward-looking. Forward-looking statements can be identified by the use of words such as "anticipate," "believe," "continue," "could," "estimate" "expect," "hope," "intend," "may," "plan," "potential," "product," "would" and variations of such words. Forward-looking statements are subject to risks and uncertainties that cannot be predicted or quantified and, consequently, actual results may differ materially from those expressed or implied by such forward-looking statements. Such risks and uncertainties include, without limitation:

- our ability to raise capital to finance our research and development and operations, when needed and on terms advantageous to us;

- our ability to manage growth, profitability and marketability of our products;

- general economic and business conditions;

- the effect on our business of recent credit-tightening throughout the United States and the world, especially with respect to federal, state, local and foreign government procurement agencies, as well as quasi-public, charitable and private emergency response organizations;

- the effect on our business of recently reported losses within the financial, banking and other industries and the effect of such losses on the income and financial condition of our potential clients;

- the impact of developments and competition within the industries in which we intend to compete

- adverse results of any legal proceedings;

- the impact of current, pending or future legislation and regulation on water safety, including, but not limited to, changes in zoning and environmental laws and regulations within our target areas of operations;

- our ability to maintain and enter into relationships with suppliers, vendors and contractors of acceptable quality of goods and services on terms advantageous to us;

- the volatility of our operating results and financial condition;

our ability to attract and retain qualified senior management personnel; and

the other risks and uncertainties detailed in this Form 10-Q and, from time to time, in our other filings with the Securities and Exchange Commission.

[Back to Table of Contents](#)

Readers of this Report on Form 10-Q should carefully consider such risks, uncertainties and other information, disclosures and discussions which contain cautionary statements identifying important factors that could cause our actual results to differ materially from those provided in forward-looking statements. Readers should not place undue reliance on forward-looking statements contained in this Form 10-Q. We do not undertake any obligation to publicly update or revise any forward-looking statements we may make in this Form 10-Q or elsewhere, whether as a result of new information, future events or otherwise.

General

PureSafe Water Systems, Inc. (herein referred to as the “Company”, “Puresafe”, “we”, “us” or “our”) was incorporated in Delaware in 1987. The manufacture and marketing of water coolers and filters constituted a substantial part of our business from 1993 until the fourth quarter of 2001, at which time such operations were sold and we began concentrating on the further development, manufacturing and marketing of a patented line of water purification systems. Between January 2002 and November 2012, we have generated nominal revenues and were deemed for accounting purposes to be a development stage enterprise.

We have generated our first sale of the FRWS in December of 2012 followed by our second sale in the first quarter of 2013 and the third sale in November 2012. Accordingly, we are no longer deemed to be a development stage enterprise. We are, however, an early stage commercial enterprise. The accompanying unaudited consolidated financial statements have been prepared assuming our company will continue as a going concern. The PureSafe FRWS is the product line by which we have generated our first significant sales since 2001.

Comparison of Results of Operations for the Three Months ended June 30, 2013 and 2012

**Revenues.** We recognized \$0 revenues for the three month period ended June 30, 2013 as compared with \$0 for the same period in 2012.

**Cost of goods sold.** Cost of goods sold for the three month period ended June 30, 2013 was \$0 as compared with \$85,659 for the same period in 2012.

**Selling, general and administrative.** Selling, general and administrative expenses for the three month period ended June 30, 2013 was \$454,754 compared to \$464,325 for the same period in 2012, a \$9,571 or a 2% decrease.

The following is an analysis of Selling, general and administrative expenses fluctuations between 2013 and 2012.

**Compensation and related benefits** expenses for the three month period ended June 30, 2013 was \$208,469, compared to \$207,534 for the same period in 2012, a small increase of \$935.

**Insurance & medical benefits** expense for the three month period ended June 30, 2013 was \$21,206, compared to \$20,191 for the same period in 2012, a \$1,015 or 5% increase.

**Research and development.** Research and development expenses for the three month period ended June 30, 2013 were \$36,230 compared to \$22,725 in the same period of 2012, a \$13,505 or 59% increase. The reason we spent more fund in research and development in 2013 compared to 2012 is that in 2012 we were focused on production of our PSWS units, and this year, based on this experience we are making some changes on our existing units to improve the design and enhance the performance. We understand the vital importance of research and development for our overall success. We are committed to continue to conduct research and development activities to ensure PureSafe FRWS has the most advanced technology within the water filtration equipment industry.

[Back to Table of Contents](#)

Professional, legal and consulting fees expenses for the three month period ended June 30, 2013 were \$73,752, compared to \$63,512 for the same period in 2012, a \$10,240 or 16% increase.

Consultant fees expense for the three month period ended June 30, 2013 was \$80,000, compared to \$3,750 for the same period in 2012, a \$76,250 or 2,000% increase. We issued 21,509,222 shares of common stock to an investment banker for the advisory services in 2013. We recorded \$80,000 as consultant fees in connection with such issuance. The increase in consultant fees for the three month period ended June 30, 2013 was largely offset by the \$69,759 decrease in professional fees for the same period in 2013. Due to a one-time fee adjustment, total professional fee expense was (\$6,248), compared to \$63,512 in the same period of 2012, a \$69,759 or 110% decrease

Marketing expenses, including stock-based compensation decreased \$5,340 from \$6,175 for the three month period ended June 30, 2012 to \$835 for the same period in 2013.

Occupancy related expenses decreased \$6,414 from \$70,210 for the three month period ended June 30, 2012 to \$63,796 for the same period in 2013. The decrease in occupancy related expenses in 2013 compared to the same period in 2012 is the result of small decreases in many different areas, such as a reduction in cleaning services and repairs and maintenance, etc.

Gain on disposal of equipment we sold our Ford truck in the 2nd quarter of 2013 and realized a \$7,286 gain after writing-off the balance of the asset. We did not have any gain or loss for the same period in 2012.

Other administrative and general expenses decreased \$16,226 from \$73,978 for the three month period ended June 30, 2012 to \$57,752 for the same period in 2013. The \$16,226 or 22% decrease resulted from a combination of reductions of other expenses that were not included in the above discussed sections. In 2012, we incurred \$11,585 commission expense in connection with a PSWS unit sale in February 2012, and we did not incur such expense in the same period of 2013.

Other Income (Expenses)

We incurred \$309,903 of non-operating expenses for the three months ended June 30, 2013 compared to \$7,011 for the same period in 2012

The following is a detailed analysis for such increase:

Interest expense - non-debt discount related incurred in the three month periods ended June 30, 2013 and 2012 was \$51,466 and \$56,787, respectively, a \$5,321 or 9% decrease.

Interest expense - debt discount related incurred in the three month period ended June 30, 2013 and 2012 was \$39,580 and \$108,668, respectively, a \$69,088 or a 64% decrease. The main reason for the decrease in debt-discount related interest expense is that we fully amortized the debt discount of most of our loans that we entered in 2011 and 2012, and we entered into fewer loan agreements in the second quarter of 2013 compared to the same period of 2012.

Changes in fair value of warrants and embedded conversion options for the three months ended June 30, 2013 and 2012 were \$223,900 and \$(153,400), respectively.

The accounting treatment, pursuant to ASC 815 "Derivatives and Hedging", of derivative financial instruments requires that we record the conversion option and related warrants at their fair values as of the inception date of the convertible debenture agreements and at fair value as of each subsequent balance sheet date. As a result of issuing the convertible promissory notes, we were required to reclassify all other non-employee warrants and options as derivative liabilities

and record them at their fair values at each balance sheet date. Any change in fair value was recorded as non-operating, non-cash income or expense for each reporting period at each balance sheet date. We reassess the classification of the instruments at each balance sheet date. If the classification changes as a result of events during the period, the contract is reclassified as of the date of the event that caused the reclassification.

Comparison of Results of Operations for the Six Months ended June 30, 2013 and 2012

Revenues. We recognized \$0 revenues for the six month period ended June 30, 2013 as compared with \$265,000 for the same period in 2012.

Cost of goods sold. Cost of goods sold for the six month period ended June 30, 2013 was \$0 as compared with \$282,718 for the same period in 2012.

Selling, general and administrative. Selling, general and administrative expenses for the six month period ended June 30, 2013 was \$1,412,482 compared to \$1,100,197 for the same period in 2012, a \$312,285 or 28% increase.

The following is an analysis of Selling, general and administrative expenses fluctuations between 2013 and 2012.

Compensation and related benefits expenses, including directors' fees for the six month period ended June 30, 2013 was \$808,041, compared to \$564,044 for the same period in 2012, a \$243,997 or 43% increase

Directors' fees increased \$23,200 from \$75,200 for the six month period ended June 30, 2012 to \$98,400 for the same period in 2013. The \$23,200 or 31% increase for the directors' fees is the result of the market price fluctuation between the fair value of the market price on the date of warrant issuance and the warrant exercise. Salaries expenses, excluding Stock-based compensation, increased \$220,797 from \$488,844 for the six month period ended June 30, 2012 to \$709,641 for the same period in 2013. In 2012, we treated the compensation to the production staff as part of the Cost of Sales, and in 2013, we recognized it as part of general salaries because we scaled back our production activities and the compensation to the same group of staff was primarily for the general activities they performed during this period. Stock Based Compensation, excluding directors' fees and consulting fees, increased \$156,600 from \$166,700 for the six month period ended in June 30, 2012 to \$323,300 for the same period in 2013. We issued 22,000,000 shares of common stock to our employees and contractors in the six months ended June 30, 2013 and recorded \$171,300 stock-based compensation for such issuance. This is in comparison to 2,300,000 shares of common stock issued and \$149,500 of stock-based compensation recorded in the same period of 2012, an increase of 24,900,000 shares and \$21,800. In addition, on February 11, 2013, the Compensation Committee granted our Chief Executive Officer and Chief Financial Officer a total of 25,000,000 warrants to purchase 25,000,000 shares of common stock at an exercise price of \$0.0033 per share. We recorded \$152,000 of stock-based compensation in connection with such grant.

Insurance & medical benefits expense for the six month period ended June 30, 2013 was \$33,750, compared to \$43,849 for the same period in 2012, a \$10,099 or 23% decrease. The decrease in total insurance premium is the net result of the reduction in our workers' compensation insurance premium due to the reduction of production staff in 2013 and the increase the general liability premium in the same period.

Research and development. The research and development expenses in the first quarter increased by \$13,505 compared to the same period in 2012 (see discussion from previous section). But in the six month period ending June 30, 2013, there is a \$11,557 reduction from \$ 46,682 in 2013 to \$58,239 in 2012, or 19.8%. In the past two years, due to cash restrictions, we have curtailed the expenses on research and development and have focused our resources on production. However, we understand the vital importance of research and development for our overall success. We are committed to continue to conduct research and development activities to ensure PureSafe FRWS has the most advanced technology within the water filtration equipment industry.

Professional, legal and consulting fees expenses for the six month period ended June 30, 2013 were \$279,018, compared to \$110,098 for the same period in 2012, \$168,920 or 153% increase. The main reason for the \$168,920 increase is that, in the six month period ending June 30, 2013, we recorded \$257,000 of stock-based consulting fees

represented by 74,509,222 shares of our common stock being issued to two consultants and one investment banker for services we received. In the same period of 2012, we only issued 186,538 shares of common stock representing \$10,900 of stock-based consulting fees.

Marketing expenses, including stock-based compensation, increased \$12,181 from \$13,654 for the six month period ended June 30, 2012 to \$25,835 for the same period in 2013.

[Back to Table of Contents](#)

Occupancy related expenses decreased \$17,899 from \$139,632 for the six month period ended June 30, 2012 to \$121,733 for the same period in 2013. The decrease in occupancy related expenses in 2013 compared to the same period in 2012 is the result of small decreases in many different areas, such as a reduction in cleaning services and repairs and maintenance, etc.

Gain on disposal of equipment—we sold our Ford truck in the 2nd quarter of 2013 and realized a \$7,286 gain after writing-off the balance of the asset. We did not have any gain or loss for the same period in 2012.

Other administrative and general expenses decreased \$31,264 from \$135,973 for the six month period ended June 30, 2012 to \$104,709 for the same period in 2013. The \$31,264 or 23% decrease is a combination of reductions of other expenses that were not included in the above discussion. In 2012, we incurred a \$11,585 commission expense in connection with a PSWS unit sale in February 2012, and we did not incur such expense in the same period of 2013.

Other Income (Expenses)

We incurred \$742,949 in non-operating expenses for the six months ended June 30, 2013 compared to \$111,355 in non-operating income generated for the same period in 2012, a \$631,594 or 567% increase in spending.

The following is a detailed analysis for such increase:

Interest expense - non-debt discount related incurred in the six month period ended June 30, 2013 and 2012 was \$150,675 and \$116,607, respectively, a \$34,068 or 29% increase. In the first six months of 2013, we incurred approximately \$27,000 in interest expense as the result of failing to issue conversion shares in a timely manner that was dictated by the terms of outstanding notes where such expense was immaterial in the same period of 2012.

Interest expense - debt discount related incurred in the six month periods ended June 30, 2013 and 2012 was \$75,744 and \$180,026, respectively, a \$104,282 or a 58% decrease. The main reason for the decrease in debt-discount related interest expense is that we fully amortized the debt discount of most of our loans that we entered in 2011 and 2012, and we entered into fewer loan agreements in the second quarter of 2013 compared to the same period of 2012.

Changes in fair value of warrants and embedded conversion options for six months ended June 30, 2013 and 2012 were \$550,100 and \$(397,900), respectively.

The accounting treatment, pursuant to ASC 815 “Derivatives and Hedging”, of derivative financial instruments requires that we record the conversion option and related warrants at their fair values as of the inception date of the convertible debenture agreements and at fair value as of each subsequent balance sheet date. As a result of issuing the convertible promissory notes, we were required to reclassify all other non-employee warrants and options as derivative liabilities and record them at their fair values at each balance sheet date. Any change in fair value was recorded as non-operating, non-cash income or expense for each reporting period at each balance sheet date. We reassess the classification of the instruments at each balance sheet date. If the classification changes as a result of events during the period, the contract is reclassified as of the date of the event that caused the reclassification.

The change in fair value of warrants and embedded conversion options for any period is always primarily the result of the following factors. The first factor is the fair value we recorded as the result of new issuances of warrants and the embedded conversion value. The second factor is the reduction of outstanding options or warrants at the end of each period due to warrant/options exercise or warrants/options expired during the same period. The third factor is the fluctuation of the Company’s stock price.

[Back to Table of Contents](#)

Liquidity and Capital Resources

As of June 30, 2013, we maintained a cash balance of \$7,904 as compared to \$63,571 as of December 31, 2012.

Net cash used in the operating activities in the six months ended June 30, 2013 was \$671,593, compared to 391,857 used in the same period of 2012, a \$279,736 or 71% increase. The main factor for the increase of net cash used in operating activities is we did not receive any cash from operating activities, such as sales, in 2013, compared to approximately \$395,000 received through sales and other operating activities in the same period of 2012.

Net cash received in investing activities in the six month period ended June 30, 2013 and 2012 was \$12,542 and \$0, respectively. We sold our Ford truck in the 2nd quarter of 2013 and received \$20,000 cash. We wrote-off the asset and recorded a \$7,286 gain in connection with the sale. We paid \$7,458 cash for a patent related activity and capitalized such transaction.

In the six months ended June 30, 2013 and 2012, respectively, we received \$570,800 and \$55,000 through sales of our common stock and warrant exercises. We received \$19,532 from two investors exercised their warrants to purchase 3,301,282 shares of common stock at exercise prices between \$0.0036 and \$0.0094. As of June 30, 2013, we have not issued the shares in connections with such warrant exercises yet.

Funds received from officers' and directors' convertible loan was \$16,177 and \$0. Cash received from issuing convertible promissory notes was \$90,000 and \$564,608. We paid \$0 and \$110,649 in financing costs associated with loans created in the six month period ended June 30, 2013, 2012, respectively. Cash used to repay convertible notes payable was \$32,500 and \$0, respectively. Cash used to repay officers and directors notes was \$52,125 and \$0, respectively. Cash used to repay notes payable was \$8,500 and \$147,323. From the above activities, net cash provided by financing activities in the six months ended June 30, 2013 and 2012 was \$603,383 and \$361,636, respectively.

From all the above activities, net cash used for six month periods ended June 30, 2013 and 2012 was \$55,667 and \$30,221, respectively.

At June 30, 2013, we had a working capital deficit of approximately \$5.3 million. We continue to suffer recurring losses from operations and have an accumulated deficit since inception of approximately \$47.2 million. These conditions raise substantial doubt about our ability to continue as a going concern.

Our continuation as a going concern is dependent upon its ability to bring our products to market and generate revenues, control costs, and obtain additional financing, as required and on reasonable terms. Our plans with respect to these matters include restructuring our existing debt and raising additional financing in the next twelve months through issuance of stock and/or debt. On January 23, 2013, we signed an Engineering Package Agreement ("ETG Agreement") with ETG/Engineering Technologies Group, Inc. ("ETG"), Hopkinton, Massachusetts. Under the engineering agreement, ETG will provide detailed electronic engineering drawings and purchase specifications for our water purification and filtration product and to facilitate the outsourcing of the assembly, sub-assembly and manufacturing of our product. On January 25, 2013, we entered into an Exclusive Sales and Marketing Agreement (the "Distribution Agreement") with Global Equipment Marketing, Inc. ("GEM"), Hopkinton, Massachusetts, a distribution and marketing company. Under the Distribution Agreement, GEM is responsible, on an exclusive basis, for promoting and selling our products at their cost and expense. In exchange, GEM will receive a discount from the list prices of PureSafe products in connection with sales to its dealers, distributors, representatives and resellers. We remain responsible for the design and manufacturing of our products.

[Back to Table of Contents](#)

We can give no assurance that such financing will be available on terms advantageous to us, or at all. Should we not be successful in obtaining the necessary financing to fund our operations, we would need to curtail certain or all of our operational activities. The accompanying unaudited condensed consolidated financial statements do not include any adjustments that might be necessary should we be unable to continue as a going concern.

#### Recent Accounting Pronouncements

Recent accounting pronouncements issued by the FASB and the SEC did not have, or are not believed by management to have, a material impact on the Company's present or future consolidated financial statements.

#### Critical Accounting Policies and Estimates

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. Preparation of the statements in accordance with these principles requires that we make estimates, using available data and our judgment, for such things as valuing assets, accruing liabilities and estimating expenses. The following is a list of what we believe are the most critical estimations that we make when preparing our consolidated financial statements.

#### Stock-Based Compensation

We reports stock-based compensation under ASC 718. ASC 718 requires all share-based payments to employees, including grants of employee stock options, to be recognized in the consolidated financial statements based on their fair values.

We account for equity instruments issued to non-employees as compensation in accordance with the provisions of ASC 718 and 505, which require that each such equity instrument is recorded at its fair value on the measurement date, which is typically the date the services are performed.

The Black-Scholes option valuation model is used to estimate the fair value of the options or their equivalent granted. The model includes subjective input assumptions that can materially affect the fair value estimates.

The model was developed for use in estimating the fair value of traded options or warrants that have no vesting restrictions and that are fully transferable. The expected volatility is estimated based on the most recent historical period of time equal to the weighted average life of the options granted.

We have issued equity instruments in the past to raise capital and as a means of compensation to employees and for the settlement of debt.

#### Income taxes

We account for income taxes under guidance provided by ASC 740 "Income Taxes" which prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. Differences between tax positions taken or expected to be taken in a tax return and the benefit recognized and measured pursuant to the interpretation are referred to as "unrecognized benefits." A liability is recognized (or amount of net operating loss carry forward or amount of tax refundable is reduced) for an unrecognized tax benefit because it represents an enterprise's potential future obligation to the taxing authority for a tax position that was not recognized as a result of applying the provisions of ASC 740.

[Back to Table of Contents](#)

In accordance with ASC 740, interest costs related to unrecognized tax benefits are required to be calculated (if applicable) and would be classified as "Interest expense, net" in the consolidated statements of operations. Penalties would be recognized as a component of "General and administrative expenses."

Our uncertain tax positions are related to tax years that remain subject to examination by relevant tax authorities. We file income tax returns in the United States (federal) and in various state and local jurisdictions. We are no longer subject to federal, state and local income tax examinations by tax authorities for years prior to 2008.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

This Item is not applicable to smaller reporting companies.

### ITEM 4. CONTROLS AND PROCEDURES.

#### Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were not effective as of the end of the period covered by this report to provide reasonable assurance that information required to be disclosed by us in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. Our management identified the following material weaknesses as of June 30, 2013.

**Entity Level.** We recognize the need to provide leadership and guidance to our employees regarding the maintenance and preparation of financial matters. There is a weakness due to the fact that there are not documented policies and procedures in place for certain procedures. In addition we have not established an independent audit committee and the board of directors have assumed this responsibility.

**Financial Reporting.** There needs to be a more structured mechanism for evidence of review in the financial reporting process. The following procedures have been implemented since the beginning of 2009, (a) CFO signs and date all financial documents upon the completion of reviewing such documents, (b) all approval or permission will be evidenced by either email or in writing. No oral approval or permission is allowed, (c) General Journal is recorded only after CFO approves (in writing) such entry and (d) monthly bank reconciliations must complete within 15 days after month ends and reviewed by CFO 5 days after the completion of bank reconciliation. Due to our limited personnel and resources we are not always in compliance with these procedures.

**Complex Accounting Transactions:** Due to our limited resources and personnel management has concluded that, as of June 30, 2013, a material weakness exists because the Company does not currently employ a sufficient number of qualified accounting personnel to ensure proper and timely evaluation of complex accounting, tax, and disclosure issues that may arise during the course of the Company's business.

[Back to Table of Contents](#)

**Confidential Reporting Mechanism:** We recognize that we need to provide leadership and guidance to our employees, clients and vendors regarding business ethics and professional conduct. A confidential reporting mechanism must be in place for anonymous reporting of a breach to these ethics that will enable prompt and thorough investigation. In January 2009, we implemented a whistleblower program. A toll-free number, as well as an email address, were posted on the homepage of our website to encourage our employee, contractors, sub-contractors, vendors to report any unethical or illegal behavior they suspect. Due to our limited personnel and resources we do not have an independent audit committee overseeing this process.

**Segregation of Duties:** Our administrative staff consists of three officers, one Controller and one receptionist and segregation of duties conflicts exist with our day to day operations. Therefore, we have relied heavily on entity or management review controls to lessen the issue of segregation of duties.

Management intends to address these material weakness by reviewing the Company's accounting and finance processes to identify any improvements thereto that might enhance the Company's internal control over financial reporting and determine the feasibility of implementing such improvements and by seeking qualified employees and/or outside consultants who possess the knowledge needed to eliminate this weakness with our available resources. To mediate the material weaknesses management has increased its level of monitoring activities and has prepared additional analyses of key financial accounts. In addition the Company hires an outside consultant to assist management with its annual and quarterly SEC reporting. The Company's ability to remediate these weaknesses, however, has been delayed or limited by resource constraints. Upon receiving adequate financing the Company plans to increase its controls in these areas by hiring more experienced employees in financial reporting, establishing an audit committee and formally documenting the controls the Company has in place.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. The design of any system of controls is also based in part on certain assumptions regarding the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Given these and other inherent limitations of control systems, there is only reasonable assurance that our controls will succeed in achieving their stated goals under all potential future conditions.

#### Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the first quarter of our 2013 fiscal year that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

[Back to Table of Contents](#)

## PART II - OTHER INFORMATION

## ITEM 1. LEGAL PROCEEDINGS.

The Company is a defendant in a suit in the Supreme Court of the State of New York, County of Nassau, filed by Fairchild Warehouse Associates, LLC, as plaintiff, for recovery of past rental payments for the Company's former office space at 25 Fairchild Avenue, Plainview, New York 11803, with money damages requested in the amount of \$ 141,721, which have been accrued for as of June 30, 2013.

The Company on April 4, 2013, was served with a summons and complaint, filed with the Supreme Court of the State of New York, County of New York, Levin Consulting Group, LLC, as plaintiff, where the plaintiff is claiming that additional shares of the Company's Common Stock are issuable by the Company to plaintiff in connection with the exercise by plaintiff of a common stock purchase warrant issued by the Company. The Company has filed an answer to the complaint.

## ITEM 1A. RISK FACTORS.

This Item is not applicable to smaller reporting companies.

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

The following table sets forth the sales of unregistered securities by the Company in the quarterly period ended June 30, 2013.

Date	Title and Amount(1)	Purchaser	Principal Underwriter	Total Offering Price/ Underwriting Discounts
February 13, 2013	42,424,242 shares of common stock and three year warrants to purchase 10,606,061 shares of common stock at exercise price \$0.0039 through 2012 Private Placement.	Private investor	NA	\$0.0033/NA
March 4, 2013	15,151,515 shares of common stock and three year warrants to purchase 3,787,879 shares of common stock at exercise price \$0.0039 through 2012 Private Placement.	Private investor	NA	\$0.0033/NA
March 4, 2013	15,151,515 shares of common stock and three year warrants to purchase 3,787,879 shares of common stock at exercise price \$0.0039 through 2012 Private Placement.	Private investor	NA	\$0.0033/NA
March 4, 2013	3,205,128 shares of common stock and three year warrants to purchase 801,282 shares of common stock at exercise price \$0.0094 through 2012 Private Placement.	Private investor	NA	\$0.0078/NA
March 14, 2013	3,048,780 shares of common stock and three year warrants to purchase 762,195 shares of common stock at exercise price \$0.0098	Private investor	NA	\$0.0082/NA

through 2012 Private Placement.

January 16, 2013	4,000,000 shares of common stock issued through loan conversion.	Private investor	NA	\$0.00156/NA
January 22, 2013	8,823,529 shares of common stock issued through loan conversion.	Private investor	NA	\$0.0017/NA
January 22, 2013	8,012,228 shares of common stock issued through loan conversion.	Private investor	NA	\$0.0027/NA
January 28, 2013	10,000,000 shares of common stock issued through loan conversion.	Private investor	NA	\$0.0012/NA
January 31, 2013	7,000,000 shares of common stock issued through loan conversion.	Private investor	NA	\$0.00108/NA
February 4, 2013	5,666,667 shares of common stock issued through loan conversion.	Private investor	NA	\$0.0012/NA
February 4, 2013	8,388,890 shares of common stock issued through loan conversion.	Private investor	NA	\$0.003/NA
March 5, 2013	2,443,333 shares of common stock issued through loan conversion.	Private investor	NA	\$0.0009/NA
March 26, 2013	6,000,000 shares of common stock issued through loan conversion.	Private investor	NA	\$0.00102/NA
