Except where the context requires otherwise, in this report, references to the "Company", "Artisan", "we", "us" or "our" refer to Artisan Partners Asset Management Inc. ("APAM") and its consolidated subsidiaries, including Artisan Partners Holdings LP ("Artisan Partners Holdings" or "Holdings"). On March 12, 2013, APAM closed its initial public offering and related corporate reorganization. Prior to that date, APAM was a subsidiary of Artisan Partners Holdings. The reorganization and initial public offering are described in the notes to our consolidated financial statements included in Part I of this Form 10-Q.

Forward-Looking Statements

This report contains, and from time to time our management may make, forward-looking statements within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. In some cases, you can identify these statements by forward-looking words such as "may", "might", "will", "should", "expects", "intends", "anticipates", "believes", "estimates", "predicts", "potential" or "continue", the negative of these terms and other comparable terminology. These forward-looking statements, which are subject to risks, uncertainties and assumptions, may include projections of our future financial performance, future expenses, anticipated growth strategies, descriptions of new business initiatives and anticipated trends in our business or financial results. These statements are only predictions based on our current expectations and projections about future events. Among the important factors that could cause actual results, level of activity, performance or achievements to differ materially from those indicated by such forward-looking statements are: fluctuations in quarterly and annual results, adverse economic or market conditions, incurrence of net losses, adverse effects of management focusing on implementation of a growth strategy, failure to develop and maintain the Artisan Partners brand and other factors disclosed under "Risk Factors" in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, filed with the SEC on February 26, 2014, which is accessible on the SEC's website at www.sec.gov. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law.

Table of Contents

Forward-looking statements include, but are not limited to, statements about:

- our anticipated future results of operations;
 - our potential operating performance and efficiency;
 - our expectations with respect to future levels of assets under management, inflows and outflows;
 - our financing plans, cash needs and liquidity position;
 - our intention to pay dividends and our expectations about the amount of those dividends;
 - our expected levels of compensation of our employees;
 - our expectations with respect to future expenses and the level of future expenses;
 - our expected tax rate, and our expectations with respect to deferred tax assets; and
 - our estimates of future amounts payable pursuant to our tax receivable agreements.

Notes to Unaudited Consolidated Financial Statements

(U.S. currencies in thousands, except per share or per unit amounts and as otherwise indicated)

Note 1. Organization and nature of business

Organization

On March 12, 2013, Artisan Partners Asset Management Inc. (“APAM”) completed its initial public offering (the “IPO”). APAM was formed in 2011 as a subsidiary of Artisan Partners Holdings LP (“Artisan Partners Holdings” or “Holdings”). APAM was formed for the purpose of becoming the general partner of Holdings in connection with the IPO. The reorganization (“IPO Reorganization”) established the necessary corporate structure to complete the IPO while at the same time preserving the ability of the firm to conduct operations through Holdings and its subsidiaries.

As part of the IPO Reorganization, APAM became the sole general partner of Holdings. As the sole general partner, APAM controls the business and affairs of Holdings. As a result, APAM consolidates Holdings’ financial statements and records a noncontrolling interest for the economic interests in Holdings held by the limited partners of Holdings. At September 30, 2014, APAM’s total economic interest in Holdings approximated 47% of Holdings’ economics. Artisan Partners Asset Management has been allocated a part of Artisan Partners Holdings’ net income since March 12, 2013, when it became Artisan Partners Holdings’ general partner. APAM and its subsidiaries are hereafter referred to collectively as “Artisan” or the “Company”.

Nature of Business

Artisan is an investment management firm focused on providing high-value added, active investment strategies to sophisticated clients globally. Artisan’s operations are conducted through Artisan Partners Holdings and its subsidiaries.

Artisan has six autonomous investment teams that oversee fourteen distinct U.S., non-U.S. and global investment strategies. During the first quarter of 2014 Artisan launched its fourteenth investment strategy, the Artisan Partners High Income strategy, which is managed by the firm’s Credit team.

Strategies are offered through multiple investment vehicles to accommodate a broad range of client mandates. Artisan offers its investment management services primarily to institutions and through intermediaries that operate with institutional-like decision-making processes and have long-term investment horizons.

2014 Follow-On Offering

On March 12, 2014, APAM completed a registered public offering of 9,284,337 shares of Class A common stock (the “2014 Follow-on Offering”) and utilized all of the net proceeds to purchase an aggregate of 6,284,337 common units and 2,256,883 preferred units of Artisan Partners Holdings and 743,117 shares of APAM’s convertible preferred stock, at a price per unit or share, as applicable, equal to \$62.00 less the underwriting discount per share. The offering and subsequent purchase of shares and units had the following impact on the consolidated financial statements:

APAM received 9,284,337 general partnership (“GP”) units of Holdings, and APAM’s ownership interest in Holdings increased from 29% to 41%. See Note 7, “Noncontrolling interest - Holdings” for the financial statement impact of changes in ownership.

APAM’s purchase of common and preferred units of Holdings with a portion of the net proceeds resulted in an increase to deferred tax assets of approximately \$287.4 million and an increase in amounts payable under tax receivable agreements of approximately \$244.3 million.

The purchase price of the convertible preferred stock exceeded its carrying value on APAM’s consolidated balance sheet by \$22.7 million, which is considered a deemed dividend and is subtracted from net income to calculate income available to common stockholders in the calculation of earnings per share. The purchase of the preferred units of Holdings resulted in a similar deemed dividend, which also reduced net income available to common stockholders.

Holdings Unit Exchanges

On June 16, 2014, affiliates of Hellman & Friedman LLC (the “H&F Funds”) elected to convert 455,011 shares of convertible preferred stock into, and exchange 1,381,887 preferred units of Holdings for, a total of 1,836,898 shares of APAM’s Class A common stock (the “H&F Conversion”). The H&F Funds subsequently sold all 1,836,898 shares of Class A common stock in an underwritten public offering. After the H&F Conversion, there were no longer any outstanding APAM convertible preferred shares or Holdings preferred units.

Table of Contents

Certain limited partners of Artisan Partners Holdings have exchanged common units (along with a corresponding number of shares of Class B or C common stock of APAM) for shares of Class A common stock (the “Holdings Common Unit Exchanges”). The following exchanges have occurred during the nine months ended September 30, 2014:

- 71,125 Class A common units were exchanged for Class A common stock on June 2, 2014.
- 1,567,968 Class A common units were exchanged for Class A common stock on August 25, 2014.
- 10,260 Class B common units were exchanged for Class A common stock on August 25, 2014.

The H&F Conversion and Holdings Common Unit Exchanges increased APAM’s ownership interest in Holdings, and resulted in a combined increase to deferred tax assets of approximately \$96.2 million and an increase in amounts payable under tax receivable agreements of approximately \$81.8 million.

Note 2. Summary of Significant Accounting Policies

Basis of presentation

The accompanying financial statements are unaudited. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of such consolidated financial statements have been included. Such interim results are not necessarily indicative of full year results.

The consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial reporting and accordingly they do not include all of the information and footnotes required in the annual consolidated financial statements and accompanying footnotes. The year-end condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. As a result, the interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in APAM’s latest annual report on Form 10-K.

The accompanying financial statements were prepared in accordance with U.S. GAAP and related rules and regulations of the SEC. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates or assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates or assumptions.

Because APAM and Holdings were under common control at the time of the IPO Reorganization, APAM’s acquisition of control of Holdings was accounted for as a transaction among entities under common control. The consolidated financial statements of APAM reflect the following:

Statements of Financial Condition - The assets, liabilities and equity of Holdings and of APAM have been carried forward at their historical carrying values. The historical partners’ equity or deficit of Holdings is reflected as a noncontrolling interest.

Statements of Operations, Comprehensive Income and Cash Flows - The historical consolidated statements of Holdings have been consolidated with the statements of operations, comprehensive income and cash flows of APAM.

Principles of consolidation

Artisan’s policy is to consolidate all subsidiaries or other entities in which it has a controlling financial interest and variable interest entities (“VIEs”) of which Artisan is deemed to be the primary beneficiary. The primary beneficiary is deemed to be the entity that has the power to govern the financial and operating policies of the subsidiary so as to obtain benefits from its activities. The consolidated financial statements include the accounts of APAM, all subsidiaries or other entities in which APAM has a direct or indirect controlling financial interest and VIEs of which Artisan is deemed to be the primary beneficiary. All material intercompany balances have been eliminated in consolidation.

Artisan’s wholly-owned subsidiary, Artisan Partners Alternative Investments GP LLC, is the general partner of Artisan Partners Launch Equity LP (“Launch Equity”), a private investment partnership that is considered a VIE. Launch Equity is considered an investment company and therefore is accounted for under ASC Topic 946, Financial Services –

Investment Companies. Artisan has retained the specialized industry accounting principles of this investment company in its Consolidated Financial Statements. See Note 8, “Variable and Voting Interest Entities” for additional details.

The Company makes initial seed investments in sponsored investment portfolios at the portfolio’s formation. If the seed investment results in a controlling financial interest, APAM consolidates the investment, and the underlying individual securities are accounted for as trading securities. Seed investments in which the Company does not have a controlling financial interest are classified as available-for-sale investments. As of September 30, 2014, APAM does not have a controlling financial interest in any of the funds in which it has made a seed investment.

Table of Contents

Recent accounting pronouncements

In March 2013, the FASB issued ASU 2013-05, Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity. The ASU clarifies the interaction between ASC 810-10, Consolidation-Overall, and ASC 830-30, Foreign Currency Matters-Translation of Financial Statements, when releasing the cumulative translation adjustment into net income when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business (other than a sale of in substance real estate or conveyance of oil and gas mineral rights) within a foreign entity. The ASU was adopted prospectively on January 1, 2014 and did not have an impact on the Company's consolidated financial statements.

In June 2013, the FASB issued ASU 2013-08, Investment Companies (Topic 946). The ASU changes the approach to the investment company assessment in Topic 946, clarifying the characteristics of an investment company and provides comprehensive guidance for assessing whether an entity is an investment company. This update would also require an investment company to measure noncontrolling ownership interests in other investment companies at fair value rather than using the equity method of accounting and to include additional disclosures. The ASU was adopted prospectively on January 1, 2014 and did not have an impact on the Company's consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes existing accounting standards for revenue recognition and creates a single framework. The new guidance will be effective on January 1, 2017 and requires either a retrospective or a modified retrospective approach to adoption. Early application is prohibited. The Company is currently evaluating its transition method and the potential impact on its consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. The ASU will explicitly require management to assess an entity's ability to continue as a going concern, and to provide related footnote disclosure in certain circumstances. The new guidance will be effective for the year ending December 31, 2016. Earlier adoption is permitted. The Company does not expect the adoption of this ASU to have an impact on its consolidated financial statements.

Note 3. Investment Securities

The disclosures below include details of Artisan's investments. Investments held by Launch Equity are described in Note 8, "Variable and Voting Interest Entities".

	Cost	Unrealized Gains	Unrealized Losses	Fair Value
September 30, 2014				
Mutual funds	\$ 10,672	\$ 1,128	\$(18)	\$ 11,782
December 31, 2013				
Mutual funds	\$ 6,190	\$ 1,614	\$—	\$ 7,804

Artisan's investments in mutual funds consist of investments in shares of Artisan Partners Funds, Inc. and Artisan Partners Global Funds plc and are considered to be available-for-sale securities. As a result, unrealized gains (losses) are recorded to other comprehensive income (loss). During the nine months ended September 30, 2014, Artisan made an investment of \$10.0 million in Artisan High Income Fund, a series of Artisan Partners Funds, Inc. During the three and nine months ended September 30, 2014, Artisan sold \$6.2 million of its investments, resulting in a realized gain of \$0.4 million. Dividends earned on mutual fund investments totaled \$0.2 million for the three and nine months ended September 30, 2014.

As of September 30, 2014, the total fair value of investments in an unrealized loss position was \$5.1 million. The \$18 thousand unrealized losses on available-for-sale securities are considered temporary, based on the severity and duration of the unrealized losses. No impairment losses were recorded on these available-for-sale securities.

As of December 31, 2013, Artisan held no available-for-sale securities in an unrealized loss position.

Note 4. Fair Value Measurements

The table below presents information about Artisan's assets and liabilities that are measured at fair value and the valuation techniques Artisan utilized to determine such fair value. The fair value of financial instruments held by

Launch Equity is presented in Note 8, “Variable and Voting Interest Entities”.

10

Table of Contents

In accordance with ASC 820, fair value is defined as the price that Artisan would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. The following three-tier fair value hierarchy prioritizes the inputs used in measuring fair value:

Level 1 – Observable inputs such as quoted (unadjusted) market prices in active markets for identical securities.

Level 2 – Other significant observable inputs (including but not limited to quoted prices for similar instruments, interest rates, prepayment speeds, credit risk, etc.).

Level 3—Significant unobservable inputs (including Artisan’s own assumptions in determining fair value).

The following provides the hierarchy of inputs used to derive fair value of Artisan’s assets and liabilities that are financial instruments as of September 30, 2014 and December 31, 2013:

	Assets and Liabilities at Fair Value			
	Total	Level 1	Level 2	Level 3
September 30, 2014				
Assets				
Cash equivalents	\$ 120,002	\$ 120,002	\$—	\$—
Mutual funds	11,782	11,782	—	—
December 31, 2013				
Assets				
Cash equivalents	\$ 105,001	\$ 105,001	\$—	\$—
Equity mutual funds	7,804	7,804	—	—

Fair values determined based on Level 1 inputs utilize quoted market prices for identical assets. Level 1 assets generally consist of money market funds, marketable open-end mutual funds or Undertakings for Collective Investment in Transferable Securities (“UCITS”). There were no Level 2 or Level 3 assets or liabilities recorded at fair value as of September 30, 2014 and December 31, 2013.

Artisan’s policy is to recognize transfers in and transfers out of the valuation levels as of the beginning of the reporting period. There were no transfers between Level 1, Level 2 or Level 3 securities during the three and nine months ended September 30, 2014 and 2013.

Note 5. Borrowings

Artisan’s borrowings consist of the following as of September 30, 2014 and December 31, 2013:

	Maturity	Outstanding Balance	Interest Rate Per Annum	
Revolving credit agreement	August 2017	—	NA	
Senior notes				
Series A	August 2017	60,000	4.98	%
Series B	August 2019	50,000	5.32	%
Series C	August 2022	90,000	5.82	%
Total borrowings		\$200,000		

The fair value of borrowings was approximately \$203.2 million as of September 30, 2014. Fair value was determined based on future cash flows, discounted to present value using current market interest rates. The inputs are categorized as Level 2 in the fair value hierarchy, as defined in Note 4, “Fair Value Measurements”.

Interest expense incurred on the unsecured notes and revolving credit agreement was \$2.8 million for the three months ended September 30, 2014 and 2013, and \$8.3 million and \$8.6 million for the nine months ended September 30, 2014 and 2013, respectively.

Table of Contents

As of September 30, 2014, the aggregate maturities of debt obligations, based on their contractual terms, are as follows:

2014	\$—
2015	—
2016	—
2017	60,000
Thereafter	140,000
	\$200,000

Note 6. Derivative Instruments

Contingent Value Rights (“CVRs”)

As part of the IPO Reorganization, Holdings issued Partnership CVRs and APAM issued APAM CVRs to the holders of Holdings’ preferred units and APAM’s convertible preferred stock, respectively. APAM held one Partnership CVR for each APAM CVR outstanding. On November 6, 2013, the CVRs were terminated with no amounts paid or payable by Artisan.

The CVRs were considered derivative instruments under ASC 815, Derivatives and Hedging, and accordingly were recorded as a liability at fair value on the balance sheet until they were terminated. Changes in the fair value of these derivative instruments have been recorded in earnings as a net gain (loss) on the valuation of contingent value rights in the period of change. The following table presents gain (loss) recognized on derivative instruments for the three and nine months ended September 30, 2014 and 2013:

		Three months ended September 30,			
		2014		2013	
	Income Statement Classification	Gain	Loss	Gain	Loss
Contingent value rights	Net gain on the valuation of contingent value rights	\$—	\$—	\$6,940	\$—
Total		\$—	\$—	\$6,940	\$—
		Nine months ended September 30,			
		2014		2013	
	Income Statement Classification	Gain	Loss	Gain	Loss
Contingent value rights	Net gain on the valuation of contingent value rights	\$—	\$—	\$40,360	\$—
Total		\$—	\$—	\$40,360	\$—

Note 7. Noncontrolling interest - Holdings

Holdings is the predecessor of APAM for accounting purposes, and its consolidated financial statements are Artisan’s historical financial statements for periods prior to March 12, 2013, the date on which APAM became the general partner of Holdings.

As of September 30, 2014, APAM held approximately 47% of the economic interests in Holdings. Net income (loss) attributable to noncontrolling interests - Artisan Partners Holdings in the Unaudited Consolidated Statements of Operations represents the portion of earnings or loss attributable to the economic interests in Holdings held by the limited partners of Holdings. All income for the period prior to March 12, 2013, is entirely attributable to noncontrolling interests.

During the nine months ended September 30, 2014, APAM’s ownership interest in Holdings increased from 29% to 47%, due to the following transactions:

- The issuance of 1,444,688 Holdings GP units corresponding to 1,444,688 restricted shares of Class A common stock issued by APAM during the period.

- The issuance of 9,284,337 Holdings GP units corresponding to the 9,284,337 shares of Class A common stock issued in the 2014 Follow-on Offering.

-

APAM's purchase and cancellation of 6,284,337 common units and 3,000,000 preferred units of Holdings in connection with the 2014 Follow-on Offering.

• The issuance of 1,381,887 Holdings GP units and cancellation of 1,381,887 Holdings preferred units, corresponding to the 1,381,887 shares of Class A common stock issued in connection with the H&F Conversion.

Table of Contents

The issuance of 1,749,353 Holdings GP units and cancellation of 1,749,353 Holdings common units, in connection with the Holdings Common Unit Exchanges.

Since APAM continues to have a controlling interest in Holdings, changes in ownership of Holdings are accounted for as equity transactions. Additional paid-in capital and Noncontrolling interest - Artisan Partners Holdings in the Unaudited Condensed Consolidated Statements of Financial Condition are adjusted to reallocate Holdings' historical equity to reflect the change in APAM's ownership of Holdings.

As a result of the change in ownership during the nine months ended September 30, 2014, a deficit of \$12.3 million was transferred to Additional paid-in capital from Noncontrolling interests - Artisan Partners Holdings. Additionally, Accumulated other comprehensive income was adjusted to reflect the change in ownership interest through a \$0.4 million reduction to Noncontrolling interest and a \$0.3 million increase to accumulated other comprehensive income, net of tax. The increased ownership level also resulted in a \$2.8 million increase in deferred tax assets and Additional paid-in-capital. The impact of the change in APAM's ownership interests in Holdings is reflected in the Unaudited Consolidated Statement of Changes in Stockholders' Equity.

Note 8. Variable and Voting Interest Entities

Artisan Funds and Artisan Global Funds

Artisan serves as the investment adviser for Artisan Partners Funds, Inc. ("Artisan Funds"), a family of mutual funds registered with the SEC under the Investment Company Act of 1940, and Artisan Partners Global Funds plc ("Artisan Global Funds"), a family of Ireland-based UCITS. Artisan Funds and Artisan Global Funds are corporate entities the business and affairs of which are managed by their respective boards of directors. The shareholders of the funds retain all voting rights, including the right to elect and reelect members of their respective boards of directors. As a result, each of these entities is a voting interest entity ("VOE"). While Artisan holds, in limited cases, direct investments in a fund (which are made on the same terms as are available to other investors and do not represent a majority voting interest in either fund), Artisan does not have a controlling financial interest or a majority voting interest and, as such, does not consolidate these entities.

Artisan Partners Launch Equity LP

Artisan serves as the investment adviser for Launch Equity, a private investment partnership which seeks to achieve returns primarily through capital appreciation, while also mitigating market risk through the use of hedging strategies. Artisan has the right to receive management fees as compensation for services provided as the investment adviser. Artisan also maintains, through Artisan Partners Alternative Investments GP LLC, a direct equity investment in the fund and has the right to receive an allocation of profits based upon Launch Equity's net capital appreciation during a fiscal year. Each of these represents a variable interest in the fund.

The limited partners of Launch Equity are certain current Artisan employees and directors and for this purpose are considered related parties. Artisan has determined that Launch Equity is a VIE as (a) the voting rights of the limited partners are not proportional to their obligations to absorb expected losses and rights to receive expected residual returns and (b) substantially all of Launch Equity's activities either involve or are conducted on behalf of the limited partners (the investors that have disproportionately few voting rights) and their related parties (including Artisan).

Launch Equity qualifies for deferral of the current consolidation guidance for VIEs; therefore the consolidation assessment is based on previous consolidation guidance. This guidance requires an analysis of which party, through holding interests directly or indirectly in the entity or contractually through other variable interests, such as management fees and incentive allocations, would absorb a majority of the expected variability of the entity. In determining whether Artisan is the primary beneficiary of Launch Equity, both qualitative and quantitative factors such as voting rights of the equity holders, economic participation of all parties, including how fees are earned, related party ownership and the level of involvement Artisan had in the design of the VIE, were considered.

It was concluded that Artisan was the primary beneficiary as the related party group absorbs a majority of the variability associated with Launch Equity and Artisan is the member within the related party group that is most closely associated with the VIE. Although Artisan has only a minimal equity investment in Launch Equity, as the general partner, Artisan controls Launch Equity's management and affairs.

In addition, the fund was designed to attract third party investors to provide an economic benefit to Artisan in the form of quarterly management fees and an annual incentive allocation based upon the net capital appreciation of the fund.

Also, in the ordinary course of business, Artisan may choose to waive certain fees, its incentive allocation or assume operating expenses of the fund. As a result, it was concluded that Artisan is the primary beneficiary of Launch Equity and its results are included in Artisan's consolidated financial statements.

Table of Contents

Artisan's maximum exposure to investment loss from its involvement with Launch Equity is limited to its equity investment of \$1 thousand while the potential benefit is limited to the management and incentive fees received as investment adviser. Therefore, the gains or losses of Launch Equity have not had a significant impact on Artisan's results of operations, liquidity or capital resources. Artisan has no right to the benefits from, nor does it bear the risks associated with, Launch Equity's investments, beyond Artisan's minimal direct investment in Launch Equity. If Artisan were to liquidate, the assets of Launch Equity would not be available to its general creditors and as a result, Artisan does not consider investments held by Launch Equity to be Artisan's assets.

The following tables reflect the impact of consolidating Launch Equity's assets and liabilities into the Unaudited Consolidated Statement of Financial Condition as of September 30, 2014 and December 31, 2013 and results into the Unaudited Consolidated Statement of Operations for the three and nine months ended September 30, 2014 and 2013.

The carrying value of Launch Equity's consolidated investments is also their fair value. Short and long positions on investment securities are valued based upon closing market prices of the security on the principal exchange on which they are traded. Investments in investment companies are valued at their respective net asset values on the valuation date. Short-term investments, other than repurchase agreements, maturing within sixty days from the valuation date are valued at amortized cost, which approximates market value. The following table presents the fair value hierarchy levels of investments and liabilities held by Launch Equity which are measured at fair value as of September 30, 2014 and December 31, 2013:

Edgar Filing: Artisan Partners Asset Management Inc. - Form 10-Q

	Assets and Liabilities at Fair Value:			
	Total	Level 1	Level 2	Level 3
September 30, 2014				
Assets

Note 9. Stockholders' Equity

APAM - Stockholders' Equity

As of September 30, 2014 and December 31, 2013, APAM had the following authorized and outstanding equity:

	Authorized	Outstanding September 30, 2014	December 31, 2013	Voting Rights ⁽¹⁾	Economic Rights
Common shares					
Class A, par value \$0.01 per share	500,000,000	34,121,560	19,807,436	1 vote per share	Proportionate
Class B, par value \$0.01 per share	200,000,000	21,463,033	25,271,889	5 votes per share	None
Class C, par value \$0.01 per share	400,000,000	17,342,950	25,206,554	1 vote per share	None

Preferred shares

Convertible preferred, par value \$0.01 per share	15,000,000	—	1,198,128	1 vote per share	Proportionate
---	------------	---	-----------	------------------	---------------

⁽¹⁾ The Company's employees to whom Artisan has granted equity have entered into a stockholders agreement with respect to all shares of APAM common stock they have acquired from the Company and any shares they may acquire from the Company in the future, pursuant to which they granted an irrevocable voting proxy to a Stockholders Committee. As of September 30, 2014, Artisan's employees held 2,700,634 shares of Class A common stock subject to the agreement and all 21,463,033 outstanding shares of Class B common stock.

APAM is dependent on cash generated by Holdings to fund any dividends. Generally, Holdings will make distributions to all of its partners, including APAM, based on the proportionate ownership each holds in Holdings. APAM will fund dividends to its stockholders from its proportionate share of those distributions after provision for its taxes and other obligations. During the three and nine months ended September 30, 2014, APAM paid dividends of \$0.55 and \$3.28, respectively, per share of outstanding Class A common stock. During the nine months ended September 30, 2014, APAM paid dividends of \$3.81 per share of outstanding convertible preferred stock.

Class A Common Stock

During the nine months ended September 30, 2014, APAM issued a total of 14,314,124 shares of Class A common stock, in connection with the 2014 Follow-on Offering, H&F Conversion, Holdings Common Unit Exchanges, restricted share award grants, and the settlement of restricted stock units. APAM also granted a total of 8,670 restricted stock units with respect to Class A common stock to non-employee directors during the year-to-date period. There were 20,612 restricted stock units outstanding as of September 30, 2014.

Each Class A, Class B, Class D and Class E unit of Holdings (together with the corresponding share of Class B or Class C common stock) is exchangeable for one share of Class A common stock. The preferred units of Holdings (together with the corresponding shares of Class C common stock) were also exchangeable for Class A common stock generally on a one-for-one basis. APAM's convertible preferred stock was convertible into Class A common stock generally on a one-for-one basis.

Class B Common Stock

In 2013, APAM issued shares of Class B common stock to employee-partners in amounts equal to the number of Class B common units those individuals held in Holdings. Upon termination of employment with Artisan, an employee-partner's vested Class B common units are automatically exchanged for Class E common units; unvested Class B common units are forfeited. The employee-partner's shares of Class B common stock are canceled and APAM issues the former employee-partner a number of shares of Class C common stock equal to the former employee-partner's number of Class E common units. The former employee-partner's Class E common units are exchangeable for Class A common stock subject to the same restrictions and limitations on exchange applicable to the other common units of Holdings. During the nine months ended September 30, 2014, APAM canceled a total of

3,808,856 shares of Class B common stock in connection with the 2014 Follow-on Offering, Holdings Common Unit Exchanges and employee-partner terminations.

Table of Contents

Class C Common Stock

In 2013, APAM issued shares of Class C common stock to certain investors in Holdings in amounts equal to the number of units the investors held in Holdings. During the nine months ended September 30, 2014, APAM canceled a total of 7,956,747 shares of Class C common stock in connection with the 2014 Follow-on Offering, H&F Conversion and Holdings Common Unit Exchanges. The Class C common stock cancellations were offset by the issuance of 93,143 shares in connection with employee-partner terminations.

Convertible Preferred Stock

As part of the 2014 Follow-on Offering, APAM purchased 743,117 shares of convertible preferred stock and immediately canceled the shares. As part of the H&F Conversion, the remaining 455,011 outstanding shares of convertible preferred stock were converted into 455,011 shares of Class A common stock. There were no shares of convertible preferred stock outstanding as of September 30, 2014.

Artisan Partners Holdings - Partners' Equity

Prior to the IPO Reorganization, Holdings was a private company. Holdings has several outstanding classes of partnership units held by investors.

Holdings makes cash distributions to the holders of its partnership units under the terms of the partnership agreement. The distributions are recorded in the financial statements on the declaration date, or on the payment date in lieu of a declaration date.

Holdings' partnership distributions totaled \$81.6 million and \$58.5 million for the three months ended September 30, 2014 and 2013, respectively, and \$329.7 million and \$245.1 million for the nine months ended September 30, 2014 and 2013, respectively. The portion of these distributions made prior to the IPO to the holders of Class B common units (which were classified as liability awards prior to the IPO) are reflected as compensation and benefits expense within the Unaudited Consolidated Statements of Operations and totaled \$65.7 million for the nine months ended September 30, 2013. The portion of these distributions made prior to the IPO to the other partners of Holdings and, after the IPO, to all partners are recorded as a reduction to consolidated stockholders' equity, with the exception of the portion of distributions made to APAM, which is eliminated upon consolidation. Holdings distributions to APAM totaled \$35.2 million and \$12.5 million for the three months ended September 30, 2014 and 2013, respectively, and \$116.1 million and \$19.3 million for the nine months ended September 30, 2014 and 2013, respectively.

Note 10. Compensation and Benefits

Total compensation and benefits consists of the following:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2014	2013	2014	2013
Salaries, incentive compensation and benefits ⁽¹⁾	\$83,834	\$76,056	\$246,493	\$217,987
Restricted share compensation expense	6,909	3,414	15,400	3,414
Total salaries, incentive compensation and benefits	90,743	79,470	261,893	221,401
Pre-offering related compensation - share-based awards	12,431	23,441	52,234	380,523
Pre-offering related compensation - other	—	—	—	143,035
Total compensation and benefits	\$103,174	\$102,911	\$314,127	\$744,959

⁽¹⁾ Excluding restricted share compensation expense

Incentive compensation

Cash incentive compensation paid to members of Artisan's portfolio management teams and members of its marketing and client service teams is based on formulas that are tied directly to revenues. These payments are made in the quarter following the quarter in which the incentive was earned with the exception of fourth quarter payments which are paid in the fourth quarter of the year. Cash incentive compensation paid to most other employees is discretionary and subjectively determined based on individual performance and Artisan's overall results during the applicable year and has historically been paid in the fourth quarter of the year.

Table of Contents

Restricted shares

Pursuant to the 2013 Omnibus Incentive Compensation Plan, Artisan has issued restricted shares of Class A common stock to its employees and employees of its subsidiaries. The shares generally vest on a pro rata basis over five years. Unvested shares are subject to forfeiture upon termination of employment. Grantees receiving the awards are entitled to dividends on unvested and vested shares.

During the three months ended September 30, 2014, 1,402,876 restricted shares of Class A common stock were issued to employees of the Company and its subsidiaries. A portion of these shares will vest pro rata in the third fiscal quarter of each of the next five years. The remaining shares will generally vest upon a combination of both (1) pro-rata annual time vesting and (2) qualifying retirement (as defined in the award agreements). Total compensation expense associated with the July 2014 grant is expected to be approximately \$72.2 million.

Compensation expense related to the restricted shares is recognized based on the estimated grant date fair value, for only those awards expected to vest, on a straight-line basis over the requisite service period of the award. The Company estimated the number of awards expected to vest based, in part, on historical forfeiture rates and also based on management's expectations of employee turnover. Forfeitures are estimated at the time of grant and revised in subsequent periods, if necessary, based on actual forfeiture activity.

The following table summarizes the restricted share activity for the nine months ended September 30, 2014:

	Weighted-Average Grant Date Fair Value	Number of Awards
Unvested at January 1, 2014	\$ 52.36	1,575,157
Granted	\$ 52.85	1,444,688
Forfeited	—	—
Vested	\$ 52.61	(319,211)
Unvested at September 30, 2014	\$ 52.59	2,700,634

Compensation expense recognized related to the restricted shares was \$6.9 million and \$15.4 million for the three and nine months ended September 30, 2014, respectively. The aggregate vesting date fair value of awards that vested during the nine months ended September 30, 2014 was approximately \$16.4 million. The unrecognized compensation expense for the unvested restricted shares as of September 30, 2014 was \$133.6 million with a weighted average recognition period of 4.4 years remaining.

During the nine months ended September 30, 2014, the Company withheld a total of 5,880 restricted shares as a result of net share settlements to satisfy employee tax withholding obligations. The Company paid \$0.3 million in employee tax withholding obligations related to employee share transactions. These net share settlements had the effect of shares repurchased and retired by the Company, as they reduced the number of shares outstanding.

Pre-offering related compensation consists of the following:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2014	2013	2014	2013
Change in value of Class B liability awards	\$—	\$—	\$—	\$41,942
Class B award modification expense	—	—	—	287,292
Amortization expense on pre-offering Class B awards	12,431	23,441	52,234	51,289
Pre-offering related compensation - share-based awards	12,431	23,441	52,234	380,523
Pre-offering related cash incentive compensation	—	—	—	56,788
Pre-offering related bonus make-whole compensation	—	—	—	20,520
Distributions on Class B liability awards	—	—	—	65,727
Pre-offering related compensation - other	—	—	—	143,035
Total pre-offering related compensation	\$12,431	\$23,441	\$52,234	\$523,558

Table of Contents

Pre-offering related compensation - share-based awards

Historical Class B share-based awards

Holdings historically granted Class B share-based awards to certain employees. These awards vested over a period of five years. Prior to the IPO, all vested Class B awards were subject to mandatory redemption on termination of employment for any reason and were reflected as liabilities measured at fair value; unvested Class B awards were forfeited on termination of employment.

The vested Class B liability awards of a terminated employee were historically redeemed in cash in annual installments, generally over the five years following termination of employment. The change in value of Class B liability awards and distributions to Class B limited partners were treated as compensation expense.

Historical redemption of Class B awards

Holdings historically redeemed the Class B awards of partners whose employment was terminated. The redemption value of the awards was determined in accordance with the terms of the grant agreement pursuant to which the award was granted. The Class B awards of partners whose services to Holdings terminated prior to the IPO will be redeemed for payments totaling \$18.0 million and \$23.0 million as of September 30, 2014 and December 31, 2013, respectively. Payments of \$0.8 million and \$5.0 million were made for the three and nine months ended September 30, 2014, respectively.

Modification of Class B share-based awards

As a part of the IPO Reorganization, the Class B grant agreements were amended to eliminate the cash redemption feature. The amendment is considered a modification under ASC 718 and the Class B awards have been classified as equity awards since such modification. As a result of the modification, Artisan recognized a non-recurring expense of \$287.3 million based on the elimination of the redemption feature associated with the Class B awards recorded as the difference between the fair value and carrying value of the liability associated with the vested Class B common units immediately prior to the IPO. For any unvested Class B awards, Artisan will recognize recurring non-cash compensation charges over the remaining vesting period.

The following table summarizes the activity related to unvested Class B awards for the nine months ended September 30, 2014:

	Weighted-Average Grant Date Fair Value	Number of Class B Awards
Unvested Class B awards at January 1, 2014	\$30.00	7,249,842
Granted	—	—
Forfeited	—	—
Vested	\$30.00	(3,204,826)
Unvested at September 30, 2014	\$30.00	4,045,016

The unrecognized compensation expense for the unvested Class B awards as of September 30, 2014, was \$99.6 million with a weighted average recognition period of 2.4 years remaining.

Upon termination of employment with Artisan, an employee-partner's vested Class B common units are automatically exchanged for Class E common units; unvested Class B common units are forfeited. The employee-partner's shares of Class B common stock are canceled and APAM issues the former employee-partner a number of shares of Class C common stock equal to the former employee-partner's number of Class E common units. The former employee-partner's Class E common units are exchangeable for Class A common stock subject to the same restrictions and limitations on exchange applicable to the other common units of Holdings.

Pre-offering related compensation - other

During the nine months ended September 30, 2013, Artisan also incurred pre-offering related compensation charges of \$56.8 million to pay cash incentive compensation to certain portfolio managers and \$20.5 million representing profits after the IPO otherwise allocable and distributable, in the aggregate, to Holdings' pre-IPO non-employee partners that instead was allocated and distributed to certain employee-partners. For the period between January 1, 2013 and the IPO, profits distributions totaling \$65.7 million were made to Class B partners.

Table of Contents

Note 11. Income Taxes and Related Payments

APAM is subject to U.S. federal and state income taxation on APAM's allocable portion of the income of Holdings. APAM's effective income tax rate was lower than the U.S. Federal statutory rate of 35% primarily due to a rate benefit attributable to the fact that approximately 60% of Holdings' earnings are not subject to corporate level taxes. This favorable impact is partially offset by the impact of certain permanent items, primarily attributable to certain compensation related expenses, that are not deductible for tax purposes. Prior to the IPO Reorganization, none of Holdings' earnings were subject to U.S. corporate-level taxes.

In connection with the IPO, APAM entered into two tax receivable agreements ("TRAs"). Under the first TRA, APAM generally is required to pay to a private equity fund controlled by Hellman & Friedman LLC 85% of the applicable cash savings, if any, in U.S. federal, state and local income tax that APAM actually realizes (or is deemed to realize in certain circumstances) as a result of (i) the tax attributes of the preferred units APAM acquired in the merger of a wholly-owned subsidiary of the private equity fund into APAM in March 2013, (ii) net operating losses available as a result of the merger and (iii) tax benefits related to imputed interest.

Under the second TRA, APAM generally is required to pay to current or former limited partners of Holdings 85% of the applicable cash savings, if any, in U.S. federal, state and local income tax that APAM actually realizes (or is deemed to realize in certain circumstances) as a result of (i) certain tax attributes of their partnership units sold to APAM or exchanged (for shares of Class A common stock or convertible preferred stock) and that are created as a result of the sales or exchanges and payments under the TRAs and (ii) tax benefits related to imputed interest. Under both agreements, APAM generally will retain the benefit of the remaining 15% of the applicable tax savings.

For purposes of the TRAs, cash savings in tax are calculated by comparing APAM's actual income tax liability to the amount it would have been required to pay had it not been able to utilize any of the tax benefits subject to the TRAs, unless certain assumptions apply. The TRAs will continue in effect until all such tax benefits have been utilized or expired, unless APAM exercises its right to terminate the agreements or payments under the agreements are accelerated in the event that APAM materially breaches any of its material obligations under the agreements. The actual increase in tax basis, as well as the amount and timing of any payments under these agreements, will vary depending upon a number of factors, including the timing of exchanges by the holders of limited partnership units, the price of the Class A common stock or the value of the convertible preferred stock, as the case may be, at the time of the exchange, whether such exchanges are taxable, the amount and timing of the taxable income APAM generates in the future and the tax rate then applicable and the portion of APAM's payments under the TRAs constituting imputed interest.

Payments under the TRAs, if any, will be made pro rata among all TRA counterparties entitled to payments on an annual basis to the extent APAM has sufficient taxable income to utilize the increased depreciation and amortization charges. Artisan expects to make payments under the TRAs, to the extent they are required, within 125 days after APAM's federal income tax return is filed for each fiscal year. Interest on such payments will begin to accrue at a rate equal to one-year LIBOR plus 100 basis points from the due date (without extension) of such tax return.

Amounts payable under tax receivable agreements is an estimate which is impacted by factors, including but not limited to, expected tax rates, projected taxable income, and projected ownership levels. The payable decreased by \$0.3 million during the three months ended September 30, 2014, and increased by \$4.2 million during the nine months ended September 30, 2014, due to changes in estimated future payments. The change in estimate is recorded in non-operating income in the Unaudited Consolidated Statements of Operations. The change in estimate also resulted in a discrete tax item, which increased the provision for income taxes by \$0.4 million for the three months ended September 30, 2014, and reduced the provision for income taxes by \$4.1 million for the nine months ended September 30, 2014.

The 2014 Follow-on Offering, H&F Conversion and the Holdings Common Unit Exchanges resulted in an increase to deferred tax assets and amounts payable under tax receivable agreements of \$383.6 million and \$326.1 million, respectively, for the nine months ended September 30, 2014.

As of September 30, 2014, the deferred tax asset and amounts payable under tax receivable agreements were \$556.2 million and \$486.5 million, respectively. During the three months ended September 30, 2014, payments of \$4.6

million were made under the TRAs.

21

Table of Contents

Components of the provision for income taxes consist of the following:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2014	2013	2014	2013
Current:				
Federal	\$6,050	\$4,868	\$21,132	\$8,007
State and local	1,106	647	3,016	1,564
Foreign	32	100	182	320
Total	7,188	5,615	24,330	9,891
Deferred:				
Federal	12,025	1,131	14,971	7,027
State and local	(3,878)) 78	(4,108)) 228
Total	8,147	1,209	10,863	7,255
Income tax expense	\$15,335	\$6,824	\$35,193	\$17,146

Net deferred tax assets comprise the following:

	As of September 30, 2014	As of December 31, 2013
Deferred tax assets:		
Amortizable basis ⁽¹⁾	\$556,219	\$183,858
Other ⁽²⁾	7,149	4,049
Total deferred tax assets	563,368	187,907
Less: valuation allowance ⁽³⁾	—	—
Net deferred tax assets	\$563,368	\$187,907

⁽¹⁾ Represents the unamortized step-up of tax basis from the merger described above, the purchase of common and preferred units by APAM, and the exchange of common and preferred units for Class A common shares of APAM.

⁽²⁾ Represents other miscellaneous deferred tax assets.

⁽³⁾ Artisan assessed whether the deferred tax assets would be realizable and determined based on its history of taxable income that the benefits would more likely than not be realized. Accordingly, no valuation allowance is required. Accounting standards establish a minimum threshold for recognizing, and a system for measuring, the benefits of income tax return positions in financial statements. There were no uncertain tax positions recorded as of September 30, 2014 and December 31, 2013.

In the normal course of business, Artisan is subject to examination by federal and certain state, local and foreign tax regulators. As of September 30, 2014, U.S. federal income tax returns for the years 2011 through 2013 are open and therefore subject to examination. State and local tax returns are generally subject to audit from 2009 to 2013. Foreign tax returns are generally subject to audit from 2010 to 2013.

Note 12. Accumulated Other Comprehensive Income (loss)

Accumulated other comprehensive income (loss), net of tax, in the accompanying Condensed Consolidated Statements of Financial Condition represents the portion of accumulated other comprehensive income attributable to APAM, and consists of the following:

	As of September 30, 2014	As of December 31, 2013
Unrealized gain on investments	\$330	\$303
Foreign currency translation	30	75
Accumulated Other Comprehensive Income (Loss)	\$360	\$378

Table of Contents

Comprehensive income (loss) attributable to noncontrolling interests - Artisan Partners Holdings in the Consolidated Statements of Comprehensive Income (Loss) represents the portion of comprehensive income (loss) attributable to the economic interests in Holdings held by the limited partners of Holdings. For periods prior to the IPO, all comprehensive income (loss) is entirely attributable to noncontrolling interests.

Note 13. Earnings Per Share

Basic earnings per share is computed by dividing income available to Class A common stockholders by the weighted average number of Class A common shares outstanding during the period. Unvested restricted shares are excluded from the number of Class A common shares outstanding for the basic earnings per share calculation because the shares have not yet been earned by the employees. Income available to Class A common stockholders is computed by reducing net income attributable to APAM by dividends declared or paid to convertible preferred stockholders during the period and earnings (distributed and undistributed) allocated to participating securities, according to their respective rights to participate in those earnings. All income for the period prior to the IPO was entirely attributable to noncontrolling interest. As a result, only net income attributable to APAM from the period subsequent to the IPO is included in net income (loss) available to Class A common stockholders. Class B and Class C common shares do not share in profits of APAM and therefore are not reflected in the calculations.

As described in Note 1, "Organization and nature of business", the consideration Artisan paid to purchase shares of its convertible preferred stock in connection with the 2014 Follow-on Offering exceeded the carrying amount of the shares of convertible preferred stock on Artisan's consolidated balance sheet by \$22.7 million, which is subtracted from net income as a deemed dividend to arrive at income available to common stockholders in the earnings per share calculation. The purchase of subsidiary preferred equity in connection with the 2014 Follow-on Offering resulted in a similar deemed dividend, which also reduced net income available to common stockholders. The computation of basic earnings per share under the two-class method for the periods ended September 30, 2014 and 2013 were as follows:

	For the Three Months Ended September 30, 2014	For the Three Months Ended September 30, 2013	For the Nine Months Ended September 30, 2014	For the Period from March 12, 2013 to September 30, 2013
Basic Earnings Per Share				
Numerator:				
Net income attributable to APAM	\$20,439	\$5,977	\$48,335	\$14,725
Less: Convertible preferred stock deemed dividends	—	—	22,694	—
Less: Subsidiary preferred equity deemed dividends	—	—	26,469	—
Less: Allocation to participating securities	3,246	650	25,933	2,357
Net income (loss) available to common stockholders - Basic	\$17,193	\$5,327	\$(26,761)	\$12,368
Denominator:				
Weighted average shares outstanding - basic	30,370,892	12,728,949	26,177,724	12,728,949
Earnings (loss) per share - basic	\$0.57	\$0.42	\$(1.02)	\$0.97

Diluted earnings per share is computed by increasing the denominator by the amount of additional Class A common shares that would have been outstanding if all potential Class A common shares had been issued. The numerator is also increased for the net income allocated to the potential Class A common shares. Potential dilutive Class A common shares consist of (1) the Class A common shares issuable upon exchange of Holdings limited partnership units for APAM Class A common stock, (2) the Class A common shares that will be issuable upon conversion of APAM convertible preferred stock and (3) unvested restricted shares of Class A common stock. In periods of net loss available to common stockholders, all of these securities are anti-dilutive.

Table of Contents

The following table summarizes the weighted-average shares outstanding that are excluded from the calculation of diluted earnings per share because their effect would have been anti-dilutive:

Anti- Dilutive Weighted Average Shares Outstanding	For the Three Months Ended September 30, 2014	For the Three Months Ended September 30, 2013	For the Nine Months Ended September 30, 2014	For the Period from March 12, 2013 to September 30, 2013
Holdings limited partnership units	39,767,645	54,639,188	43,349,132	54,670,972
Convertible preferred stock	—	—	474,938	—
Unvested restricted shares	2,582,934	1,284,095	1,939,126	584,836
Total	42,350,579	55,923,283	45,763,196	55,255,808

The Holdings limited partnership units are anti-dilutive primarily due to the impact of public company expenses and unrecognized share-based compensation expense. For the nine months ended September 30, 2014, shares of APAM convertible preferred stock were also anti-dilutive, primarily because dividends declared on convertible preferred stock exceeded dividends declared on Class A common stock. Unvested restricted share awards are anti-dilutive, primarily because the unvested shares are considered participating securities.

The dilutive effect of outstanding convertible preferred stock is reflected in diluted earnings per share by application of the if-converted method. The number of incremental shares is computed using average market prices during the quarter. For year-to-date diluted earnings per share, the number of incremental shares included in the denominator is determined by computing a year-to-date weighted average of the number of incremental shares included in each quarterly diluted earnings per share computation.

The computation of diluted earnings per share under the two-class method for the periods ended September 30, 2014 and 2013 were as follows:

Diluted Earnings Per Share	For the Three Months Ended September 30, 2014	For the Three Months Ended September 30, 2013	For the Nine Months Ended September 30, 2014	For the Period from March 12, 2013 to September 30, 2013
Numerator:				
Net income attributable to APAM	\$20,439	\$5,977	\$48,335	\$14,725

Note 14. Indemnifications

In the normal course of business, APAM enters into agreements that include indemnities in favor of third parties. Holdings has also agreed to indemnify APAM as its general partner, Artisan Investment Corporation ("AIC") as its former general partner, the directors and officers of APAM, the directors and officers of AIC as its former general partner, the members of its former Advisory Committee, and its partners, directors, officers, employees and agents. Holdings' subsidiaries may also have similar agreements to indemnify their respective general partner(s), directors,

officers, directors and officers of their general partner(s), partners, members, employees, and agents. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against us that have not yet occurred. APAM maintains insurance policies that may provide coverage against certain claims under these indemnities.

Table of Contents

Note 15. Related Party Transactions

Artisan engages in transactions with its affiliates in the ordinary course of business.

Affiliate transactions—Artisan Funds

Artisan has agreements to serve as the investment manager of Artisan Funds, with which certain of Artisan employees are affiliated. Under the terms of these agreements, which are generally reviewed and continued by the board of directors of Artisan Funds annually, a fee is paid to Artisan based on an annual percentage of the average daily net assets of each Artisan Fund ranging from 0.63% to 1.25%. Artisan generally collects revenues related to these services on the last business day of each month and records them in Management Fees in the Consolidated Statement of Operations. Artisan has contractually agreed to waive its management fees or reimburse for expenses incurred to the extent necessary to limit annualized ordinary operating expenses incurred by certain of the Artisan Funds to not more than 1.50% of average daily net assets, and 1.25% of the fund's average daily net assets for Artisan High Income Fund. In addition, Artisan may voluntarily waive fees or reimburse any of the Artisan Funds for other expenses. The officers and a director of Artisan Funds who are affiliated with Artisan receive no compensation from the funds.

Fees for managing the Funds and amounts waived or reimbursed by Artisan for fees and expenses (including management fees) are as follows:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2014	2013	2014	2013
Investment management fees:				
Artisan Funds	\$144,873	\$118,854	\$423,620	\$324,467
Fee waiver / expense reimbursement:				
Artisan Funds	\$17	\$151	\$95	\$273

Affiliate transactions—Artisan Global Funds

Artisan has agreements to serve as the investment manager and promoter of Artisan Global Funds, with which certain of Artisan employees are affiliated. Under the terms of these agreements, a fee is paid based on an annual percentage of the average daily net assets of each fund ranging from 0.75% to 1.80%. Artisan reimburses each sub-fund of Artisan Global Funds to the extent that sub-fund's expenses, not including Artisan's fee, exceed certain levels, which range from 0.10% to 0.20%. In addition, Artisan may voluntarily waive fees or reimburse any of the Artisan Global Funds for other expenses. The directors of Artisan Global Funds who are affiliated with Artisan receive no compensation from the funds. At September 30, 2014 and December 31, 2013, respectively, accounts receivable included \$1.3 million and \$2.2 million due from Artisan Global Funds.

Fees for managing Artisan Global Funds and amounts reimbursed to Artisan Global Funds by Artisan are as follows:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2014	2013	2014	2013
Investment management fees:				
Artisan Global Funds	\$3,685	\$2,490	\$10,552	\$6,039
Fee waiver / expense reimbursement:				
Artisan Global Funds	\$207	\$145	\$377	\$573

Affiliate transactions—Launch Equity

Artisan has an agreement to serve as the investment manager of Launch Equity. Under the terms of Artisan's agreement with Launch Equity, Artisan earns a quarterly fee based on the value of the closing capital account of each limited partner for the quarter, at the rate of 1.00% (annualized). At Artisan's discretion, the fee may be waived and certain expenses reimbursed to the extent they exceed a certain level. Artisan expects to waive 100% of the quarterly fee and reimburse Launch Equity for all operating expenses, and Artisan may waive other expenses as well. Artisan is also entitled to receive an allocation of profits equal to 20% of Launch Equity's net capital appreciation as determined at the conclusion of its fiscal year. That amount, which Artisan also expects to waive, is calculated at the end of the Launch Equity's fiscal year. Artisan waived its incentive allocation for the year ended December 31, 2013. Expense

reimbursements totaled \$40 thousand and \$41 thousand for the three months ended September 30, 2014 and 2013, respectively, and \$133 thousand and \$128 thousand for the nine months ended September 30, 2014 and 2013, respectively.

Table of Contents

Affiliate transactions—AIC

Artisan had cost sharing arrangements with entities controlled by Andrew A. Ziegler (APAM's Chairman of the Board and former Artisan employee) and Carlene M. Ziegler (also a former Artisan employee), pursuant to which the Ziegler entities reimbursed Artisan for the costs associated with three employees using Artisan's office space while they transitioned to new facilities.

This transition was completed during June 2014. In addition, Artisan has obtained and paid for insurance policies covering potential liability AIC may incur as the prior general partner of Holdings. At September 30, 2014, no amounts were due from the Ziegler entities related to these transactions.

Note 16. Subsequent Events

Distributions and dividends

On October 15, 2014, the board of directors of APAM declared a distribution by Artisan Partners Holdings of \$27.2 million to holders of Artisan Partners Holdings partnership units, including APAM. On the same date, the board declared a quarterly dividend of \$0.55 per share of APAM's Class A common stock. The APAM dividend is payable on November 28, 2014, to shareholders of record as of November 14, 2014.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We are an investment management firm focused on providing high-value added, active investment strategies to sophisticated clients globally. Our operations are conducted through Artisan Partners Holdings and its subsidiaries. We derive essentially all of our revenues from investment management fees. Nearly all our fees are based on a specified percentage of clients' average assets under our management. We operate our business in a single segment. We have six autonomous investment teams that oversee fourteen distinct U.S., non-U.S. and global investment strategies. Strategies are offered through multiple investment vehicles to accommodate a broad range of client mandates. During the March quarter of 2014 we launched our fourteenth investment strategy, the Artisan High Income strategy, which is managed by our Credit team.

As of September 30, 2014, our assets under management ("AUM") were \$106.2 billion, with 12% of our AUM sourced from non-U.S. clients. During the three months ended September 30, 2014, we generated \$212.4 million in revenues on \$110.2 billion in average AUM. AUM was impacted by a combination of market depreciation of \$5.1 billion and net client cash outflows of \$645 million for the three months ended September 30, 2014. During the period, we had positive net client cash flows in 5 of our 14 strategies and in 2 out of 5 distribution channels, sourced from clients located in the U.S. and abroad.

During the nine months ended September 30, 2014, we generated \$622.7 million in revenues on \$108.2 billion in average AUM. AUM was impacted by a combination of net client cash inflows of \$1.3 billion and market depreciation of \$0.5 billion. For the nine months ended September 30, 2014, we had positive net client cash flows in 7 of our 14 strategies and 3 out of 5 distribution channels, sourced from clients located in the U.S. and abroad.

We post updated information about our assets under management under the Financial Information section of our Investor Relations website (www.apam.com) generally after the conclusion of the seventh NYSE trading day of each month.

In July 2014, our board of directors approved the issuance of 1,402,876 restricted shares of Class A common stock to our employees and employees of our subsidiaries. Total compensation expense associated with these awards is expected to be approximately \$72.2 million, which will be recognized on a straight-line basis over the requisite service period.

As of September 30, 2014 we had approximately 345 employees.

Factors Impacting our Results of Operations

Economic Environment

Global equity market conditions can materially affect our financial performance. Total returns of relevant market indices for the three and nine months ended September 30, 2014 and 2013 were as follows:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,		
	2014	2013	2014	2013	
S&P 500 total returns	1.1	% 5.2	% 8.3	% 19.8	%
MSCI All Country World total returns	(2.3)% 7.9	% 3.7	% 14.4	%
MSCI EAFE total returns	(5.9)% 11.6	% (1.4)% 16.1	%

The negative performance of global markets during the quarter ended September 30, 2014 occurred most significantly towards the end of the quarter. As a result, our ending AUM for the quarter was impacted more significantly than average AUM. Average AUM over a quarter is more closely correlated to our quarterly revenues than ending AUM.

Organizational Structure

On March 12, 2013, Artisan Partners Asset Management Inc. ("APAM") and the intermediary holding company through which APAM conducts its operations, Artisan Partners Holdings LP ("Holdings"), completed a series of transactions ("the IPO Reorganization") to reorganize their capital structures in connection with the initial public offering ("IPO") of APAM's Class A common stock. The IPO Reorganization and IPO were completed on March 12, 2013. The IPO Reorganization was designed to create a capital structure that preserves our ability to conduct our business through Holdings, while permitting us to raise additional capital and provide access to liquidity through a public company. The

IPO Reorganization is described in greater detail in our Annual Report on Form 10-K for the year ended December 31, 2013, filed with the SEC on February 26, 2014.

Table of Contents

The historical results of operations discussed below are the combined results of APAM and Holdings. Because APAM and Holdings were under common control at the time of the IPO Reorganization, APAM's acquisition of control of Holdings was accounted for as a transaction among entities under common control. APAM has been allocated a part of Holdings' net income since March 12, 2013, when it became Holdings' general partner.

Our employees and other limited partners of Holdings held approximately 53% of the equity interests in Holdings as of September 30, 2014. Our post-IPO results reflect that significant noncontrolling interest. As of September 30, 2014, our net income represented approximately 47% of Holdings' net income.

On March 12, 2014, we completed an offering of 9,284,337 shares of Class A common stock and utilized all of the net proceeds to purchase an aggregate of 6,284,337 common units and 2,256,883 preferred units of Holdings from certain of the limited partners of Holdings and 743,117 shares of APAM convertible preferred stock from a private equity fund controlled by Hellman & Friedman LLC. In connection with the offering, APAM received 9,284,337 general partnership units of Holdings.

On June 16, 2014, affiliates of Hellman & Friedman LLC converted 455,011 shares of APAM's convertible preferred stock into, and exchanged 1,381,887 preferred units of Holdings for, a total of 1,836,898 shares of APAM's Class A common stock. In connection with the transaction, APAM received 1,381,887 general partnership units of Holdings. Upon completion of the transaction, APAM and Holdings ceased to have any outstanding convertible preferred shares or preferred units, respectively.

During the nine months ended September 30, 2014, certain limited partners of Holdings exchanged 1,749,353 common units (along with a corresponding number of shares of Class B or Class C common stock of APAM) for 1,749,353 shares of Class A common stock. In connection with the exchanges, APAM received 1,749,353 general partnership units of Holdings.

The aforementioned transactions increased APAM's ownership interest in Holdings from 29% at December 31, 2013 to 47% at September 30, 2014.

Changes Related to Class B Common Units of Artisan Partners Holdings

A significant portion of our historical compensation and benefits expense related to Holdings' Class B limited partnership interests. Prior to the IPO Reorganization, Class B limited partnership interests were granted to certain employees. The Class B limited partnership interests provided both an interest in future profits of Holdings as well as an interest in the overall value of Holdings. Class B limited partnership interests generally vested ratably over a five-year period from the date of grant. Holders of Class B limited partnership interests were entitled to fully participate in profits from and after the date of grant. The distribution of profits associated with these limited partnership interests was recorded as compensation and benefits expense.

Prior to the IPO Reorganization, all vested Class B limited partnership interests were subject to mandatory redemption on termination of employment for any reason, with payment in cash typically in annual installments over the five years following termination of employment. Unvested Class B limited partnership interests were forfeited on termination of employment. Due to the redemption feature, the Class B grants were considered liability awards. Compensation cost was measured at the grant date based on the fair value of the limited partnership interests granted, and was re-measured each period. Changes in the fair value that occurred after the end of the vesting period were recorded as compensation cost of the period in which the changes occurred through settlement of the limited partnership interests.

As part of the IPO Reorganization, the grant agreements pursuant to which the Class B interests were granted were amended to eliminate the cash redemption feature. As a result, liability award accounting no longer applied and the costs associated with distributions to our Class B partners and changes in the value of Class B liability awards were no longer recognized as compensation expense. However, we continue to record compensation expense for Class B common units that were unvested at the time of the IPO Reorganization over their remaining vesting period, based on the fair value of the awards upon modification. As a result of the IPO Reorganization, we recognized a non-recurring compensation expense based on the difference between the carrying value of the liability associated with the vested Class B common units immediately prior to the IPO Reorganization and the value based on the offering price per share of Class A common stock (\$30.00 per share). The amount of this non-recurring charge was \$287.3 million. In the March quarter of 2013, we also recognized \$56.8 million of compensation expense relating to a cash incentive

compensation payment we made to certain of our portfolio managers in connection with the IPO and \$20.5 million of compensation expense associated with the reallocation of profits after the IPO which otherwise would have been allocable and distributable to Holdings' pre-IPO non-employee partners but were instead allocated to certain of Artisan Partners Holdings' employee-partners.

Issuance of CVRs

As part of the IPO Reorganization, Holdings issued Partnership CVRs and APAM issued APAM CVRs in order to provide holders of Holdings preferred units and APAM convertible preferred stock with economic rights following the reorganization and IPO similar (although not identical) to the economic rights they possessed with respect to Holdings prior to the reorganization and IPO. The CVRs were terminated in conjunction with our common stock offering that closed on November 6, 2013 with no amounts paid or payable by us.

Table of Contents

Prior to their termination, the CVRs were classified as liabilities and accounted for under ASC 815 as derivatives. For the three and nine months ended September 30, 2013, a gain of \$6.9 million and \$40.3 million, respectively, was recorded in non-operating income (loss) to reflect a decrease in the fair value of the CVR liability.

Tax Impact of IPO Reorganization

Historically, our business was not subject to U.S. federal and certain state income taxes. However, APAM, which became the general partner of Holdings as part of the IPO Reorganization, is subject to U.S. federal and state income taxation on its allocable portion of the income of Holdings. In connection with the IPO, APAM entered into two tax receivable agreements ("TRAs"). Under the first TRA, APAM generally is required to pay to a private equity fund controlled by Hellman & Friedman LLC 85% of the applicable cash savings, if any, in U.S. federal, state and local income tax that APAM actually realizes (or is deemed to realize in certain circumstance) as a result of (i) the tax attributes of the preferred units APAM acquired in the merger of a wholly-owned subsidiary of the private equity fund into APAM in March 2013, (ii) net operating losses available as a result of the merger and (iii) tax benefits related to imputed interest.

Under the second TRA, APAM generally is required to pay to current or former limited partners of Holdings 85% of the amount of cash savings, if any, in U.S. federal, state and local income tax that APAM actually realizes (or is deemed to realize in certain circumstances) as a result of (i) certain tax attributes of their partnership units sold to APAM or exchanged (for shares of Class A common stock or convertible preferred stock) and that are created as a result of the sales or exchanges and payments under the TRAs and (ii) tax benefits related to imputed interest. Under both agreements, APAM generally will retain the benefit of the remaining 15% of the applicable tax savings.

As of September 30, 2014, deferred tax assets of \$563.4 million and amounts payable under tax receivable agreements of \$486.5 million have been recorded in the Condensed Consolidated Statements of Financial Condition primarily as a result of the above items and other tax impacts of the IPO Reorganization. APAM's purchase of Holdings common and preferred units with a portion of the 2014 Follow-on Offering proceeds resulted in an increase to deferred tax assets of approximately \$287.4 million and an increase in amounts payable under tax receivable agreements of approximately \$244.3 million. The H&F Conversion and other exchanges during the nine months ended September 30, 2014, resulted in an increase to deferred tax assets and amounts payable under tax receivable agreements of \$96.2 million and \$81.8 million, respectively. The TRA payable decreased by \$0.3 million and increased by \$4.2 million for the three and nine months ended September 30, 2014, respectively, due to changes in estimated future payments. The change in estimate resulted in a similar impact to deferred tax assets, which decreased by \$0.4 million during the three months ended September 30, 2014, and increased by \$4.1 million for the nine months ended September 30, 2014. During the three and nine months ended September 30, 2014, payments of \$4.6 million were made in accordance with the TRA agreements.

Costs of Being a Public Company

Following the IPO, we have incurred, and expect to continue to incur, additional expenses as a result of becoming a public company, including expenses related to additional staffing, directors' and officers' liability insurance, directors fees, SEC reporting and compliance (including Sarbanes-Oxley compliance), transfer agent fees, professional fees and other similar expenses. These additional expenses have increased and will continue to increase our general and administrative expenses and reduce our net income. Further, we may incur significant legal, accounting and other fees and expenses associated with future offerings of Class A common stock. We incurred and capitalized \$2.6 million of expenditures during the nine months ended September 30, 2014 in connection with the 2014 Follow-on Offering, the H&F Conversion transaction, and our shelf registration statements.

Table of Contents

Financial Overview

Key Performance Indicators

When we review our performance we consider, among other things, the following:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2014	2013	2014	2013
	(unaudited; dollars in millions)			
Assets under management at period end	\$ 106,246	\$ 96,931	\$ 106,246	\$ 96,931
Average assets under management ⁽¹⁾	\$ 110,209	\$ 92,385	\$ 108,191	\$ 85,683
Net client cash flows	\$(645)	\$ 2,097	\$ 1,326	\$ 5,697
Total revenues	\$ 212.4	\$ 178.0	\$ 622.7	\$ 488.2
Weighted average fee ⁽²⁾	76	76	77	76
Adjusted operating margin ⁽³⁾	44.0	% 43.3	% 45.2	% 41.8 %

⁽¹⁾ We compute average assets under management by averaging day-end assets under management for the applicable period.

⁽²⁾ We compute our weighted average fee by dividing annualized investment management fees by average assets under management for the applicable period.

⁽³⁾ Adjusted measures are non-GAAP measures and are explained and reconciled to the comparable GAAP measures in “Supplemental Non-GAAP Financial Information” below.

Assets Under Management and Investment Performance

Changes to our operating results from one period to another are primarily caused by changes in the amount of our assets under management. Changes in the relative composition of our assets under management among our investment strategies and products and the effective fee rates on our products could also impact our operating results, and in some periods the impact could be material. However, for the three and nine months ended September 30, 2014 and 2013, our operating results were primarily impacted by changes in the amount of our assets under management.

Our assets under management increase or decrease with the net inflows or outflows of client assets into our various investment strategies and with the investment performance of these strategies. The amount and composition of our assets under management are, and will continue to be, influenced by a variety of factors including, among others: investment performance, including fluctuations in both the financial markets and foreign currency exchange rates and the quality of our investment decisions;

flows of client assets into and out of our various strategies and investment vehicles;

our decision to close strategies or limit the growth of assets in a strategy when we believe it is in the best interest of our clients;

our ability to attract and retain qualified investment, management, and marketing and client service professionals;

competitive conditions in the investment management and broader financial services sectors; and

investor sentiment and confidence.

Table of Contents

The table below sets forth changes in our total AUM:

	For the Three Months Ended September 30,		Period-to-Period		
	2014	2013	\$	%	
	(unaudited; in millions)				
Beginning assets under management	\$ 112,041	\$ 85,791	\$ 26,250	30.6	%
Gross client cash inflows	4,677	5,373	(696)	(13.0)	%
Gross client cash outflows	(5,322)	(3,276)	(2,046)	(62.5)	%
Net client cash flows	(645)	2,097	(2,742)	(130.8)	%
Market appreciation (depreciation)	(5,113)	9,043	(14,156)	(156.5)	%
Net transfers ⁽¹⁾	(37)	—	(37)	100.0	%
Ending assets under management	\$ 106,246	\$ 96,931	\$ 9,315	9.6	%
Average assets under management	\$ 110,209	\$ 92,385	\$ 17,824	19.3	%

⁽¹⁾ Net transfers represent certain amounts that we have identified as having been transferred out of one investment strategy or investment vehicle and into another strategy or vehicle.

	For the Nine Months Ended September 30,		Period-to-Period		
	2014	2013	\$	%	
	(unaudited; in millions)				
Beginning assets under management	\$ 105,477	\$ 74,334	\$ 31,143	41.9	%
Gross client cash inflows	17,411	16,667	744	4.5	%
Gross client cash outflows	(16,085)	(10,970)	(5,115)	(46.6)	%
Net client cash flows	1,326	5,697	(4,371)	(76.7)	%
Market appreciation (depreciation)	(520)	16,900	(17,420)	(103.1)	%
Net transfers ⁽¹⁾	(37)	—	(37)	100.0	%
Ending assets under management	\$ 106,246	\$ 96,931	\$ 9,315	9.6	%
Average assets under management	\$ 108,191	\$ 85,683	\$ 22,508	26.3	%

For the three months ended September 30, 2014, net client cash outflows were \$645 million. The cash flow success of some of our strategies during the quarter did not offset the overall impact of lower seasonal inflows, outflows resulting from client re-balancing across our strategies, and performance challenges in the strategies managed by our U.S.

Value and Emerging Markets teams. Our U.S. Mid-Cap Growth strategy, managed by our Growth team, and our U.S. Mid-Cap Value and U.S. Small-Cap Value strategies, managed by our U.S. Value team, experienced the most net client cash outflows of \$278 million, \$503 million, and \$380 million, respectively. Our Non-U.S. Growth and Global Equity strategies, managed by our Global Equity team, and our Global Opportunities strategy, managed by our Growth team, received the most net inflows during the quarter, gathering net inflows of \$371 million, \$280 million and \$280 million, respectively.

For the nine months ended September 30, 2014, our Non-U.S. Growth and Global Opportunities strategies received the most net inflows during the period, gathering net inflows of \$3.1 billion and \$1.3 billion, respectively. During the nine months ended September 30, 2014, the three strategies managed by our U.S. Value team, U.S. Mid-Cap Value, U.S. Small-Cap Value, and Value Equity, and our Emerging Markets strategy experienced the most net client cash outflows of \$1.1 billion, \$1.2 billion, \$925 million, and \$749 million, respectively.

Separate accounts net outflows of \$688 million for the nine months ended September 30, 2014 include the effect of a \$722 million outflow resulting from a separate account client termination in March within our Value Equity strategy. The pension fund client communicated that the termination was a result of its decision to consolidate assets with a smaller number of managers and reduce its overall cost structure. The termination is evidence that our flows will be lumpy over time and also reflects our commitment to fee discipline which is one of the cornerstones of our financial model. Over the long-term our financial model has been critical to our ability to attract and retain investment talent, deliver strong financial results and produce a stable and diverse business able to weather all market environments.

Historically, we have observed that client activity tends to be higher in the first and fourth quarters of the calendar year, and lower in the second and third quarters. However, there can be no guarantee that past experience will be indicative of future activity.

Table of Contents

We monitor the availability of attractive investment opportunities relative to the amount of assets we manage in each of our investment strategies. When appropriate, we will close a strategy to new investors or otherwise take action to slow or restrict its growth, even though our aggregate AUM may be negatively impacted in the short term. We may also re-open a strategy, widely or selectively, to fill available capacity or manage the diversification of our client base in that strategy. We believe that management of our investment capacity protects our ability to manage assets successfully, which protects the interests of our clients and, in the long term, protects our ability to retain client assets and maintain our profit margins. As of the date of this filing, our Non-U.S. Small-Cap Growth, Non-U.S. Value, U.S. Mid-Cap Growth, U.S. Small-Cap Value, U.S. Mid-Cap Value, U.S. Small-Cap Growth and Global Value strategies are closed to most new investors and client relationships.

When we close a strategy, we typically continue to allow additional investments in the strategy by existing clients and certain related entities, which means that during a given period we could have net client cash inflows even in a closed strategy. However, when a strategy is closed or its growth is restricted we expect there to be periods of net client cash outflows.

On February 14, 2014, we closed our Global Value strategy, including Artisan Global Value Fund, to most new investors and client relationships. The Global Value strategy had net client cash outflows of \$180 million and net client cash inflows of \$526 million for the three and nine months ended September 30, 2014, respectively. We manage capacity for each of our strategies individually, taking an approach that considers total assets under management, the velocity of asset growth and the mix of business across distribution channels, geographic regions and client types. We also consider other factors, such as the exceptional market performance over the past five years, which has contributed to the rate of asset growth in the Global Value strategy.

We believe that growth in AUM in an investment strategy requires the availability of attractive investment opportunities relative to the amount of AUM in the strategy at a time when the strategy has a competitive performance track record and there is stable or growing client demand for the strategy or asset class. When we believe that each of these factors is present with respect to an investment strategy, we say we have “realizable capacity” in that strategy. We believe that we currently have realizable capacity particularly in some of our non-U.S. and global strategies (such as our Non-U.S. Growth, Global Equity and Global Opportunities strategies), where we believe we are well-positioned to take advantage of increasing client and investor demand. Additionally, our High Income strategy continues to perform well and experience positive inflows, despite having a short-term track record.

Table of Contents

The table below sets forth the total AUM for each of our investment teams and strategies as of September 30, 2014, the inception date for each investment composite, and the value-added by each strategy over a multi-horizon time period as of September 30, 2014.

	Inception	Strategy AUM	Value-Added ⁽¹⁾ (bps)

⁽¹⁾ Value-added is the amount in basis points by which the average annual gross composite return of each of our strategies has outperformed the broad-based market index most commonly used by our clients to compare the performance of the relevant strategy for the periods presented and since its inception date. Value-added for periods less than one year is not annualized. The market indices used to compute the value added since inception date for each of our strategies are as follows: Non-U.S. Growth strategy—MSCI EAFE® Index; Non-U.S. Small-Cap Growth strategy—MSCI EAFE® Small Cap Index; Global Equity strategy—MSCI ACWI® Index; Global Small-Cap Growth strategy—MSCI ACWI® Small Cap Index; U.S. Small-Cap Value strategy—Russell 2000® Index; U.S. Mid-Cap Value strategy—Russell Midcap® Index; Value Equity strategy—Russell 1000® Index; U.S. Mid-Cap Growth strategy—Russell Midcap® Index; Global Opportunities strategy—MSCI ACWI® Index; U.S. Small-Cap Growth strategy—Russell 2000® Index; Non-U.S. Value strategy—MSCI EAFE® Index; Global Value strategy—MSCI ACWI® Index; Emerging Markets strategy—MSCI Emerging Markets IndexSM; High Income strategy—Bank of America Merrill Lynch U.S. High Yield Master II Index.

⁽²⁾ High Income strategy's composite inception date is April 1, 2014 for the purposes of calculating strategy performance. The strategy began investment operations on March 19, 2014. We seeded the Artisan High Income Fund

with an initial \$10 million.

⁽³⁾ Includes an additional \$42.1 million in assets managed in a portfolio not currently made available to outside investors to evaluate its potential viability as a strategy to be offered to clients.

⁽¹⁾ Net transfers represent certain amounts that we have identified as having been transferred out of one investment strategy, investment vehicle, or account and into another strategy, vehicle, or account.

The goal of our marketing, distribution and client services efforts is to establish and maintain a client base that is diversified by investment strategy, investment vehicle and distribution channel. As distribution channels have evolved to have more institutional-like decision making processes and longer-term investment horizons, we have expanded our distribution efforts into those areas. We have experienced strong growth in AUM through broker-dealers that have centralized the process for selecting which funds to offer to a relatively limited number of key decision-makers that exhibit institutional decision-making behavior, which we believe allows us to gain broad exposure to broker-dealer and private bank clients in a manner consistent with our marketing strategy.

The table below sets forth our AUM by distribution channel:

	As of September 30, 2014		As of September 30, 2013		
	\$ in millions	% of total	\$ in millions	% of total

Revenues

Essentially all of our revenues consist of investment management fees earned from managing clients' assets. Our investment management fees fluctuate based on a number of factors, including the total value of our AUM, the composition of AUM among our investment vehicles (including pooled vehicles available to U.S. investors, pooled vehicles available to non-U.S. investors and separate accounts) and our investment strategies (which have different fee rates), changes in the investment management fee rates on our products, the extent to which we enter into fee arrangements that differ from our standard fee schedules, which can be affected by custom and the competitive landscape in the relevant market, and for the few accounts on which we earn performance-based fees, the investment performance of those accounts relative to their designated benchmarks.

The increase in revenues of \$34.4 million, or 19%, for the three months ended September 30, 2014, compared to the three months ended September 30, 2013, was driven primarily by a \$17.8 billion, or 19%, increase in our average AUM.

Our weighted average investment management fee was 76 basis points for the three months ended September 30, 2014 and September 30, 2013. Separate accounts, including U.S.-registered mutual funds, non-U.S. funds and collective investment trusts we sub-advise, in the aggregate paid a weighted average fee of 54 basis points for the three months ended September 30, 2014, compared to 55 basis points for the three months ended September 30, 2013.

These assets represented 43% and 44% of our total AUM as of September 30, 2014 and 2013, respectively. Taken together, the assets of Artisan Funds and Artisan Global Funds, to which we provide services in addition to the services we provide to separate account clients, paid a weighted average fee of 93 basis points for the three months ended September 30, 2014, compared to 94 basis points for the three months ended September 30, 2013. These assets represented 57% and 56% of our AUM as of September 30, 2014 and 2013, respectively.

Table of Contents

For the three months ended September 30, 2014 and 2013, fees from separate accounts, including U.S.-registered mutual funds, non-U.S. funds and collective investment trusts we sub-advise, represented \$63.7 million and \$56.7 million of our revenues, respectively. For the three months ended September 30, 2014 and 2013, fees from Artisan Funds represented \$144.9 million and \$118.8 million of our revenues, respectively, and fees from Artisan Global Funds represented \$3.8 million and \$2.5 million of our revenues, respectively.

Operating Expenses

The increase in total operating expenses of \$6.8 million for the three months ended September 30, 2014, compared to the three months ended September 30, 2013, was primarily attributable to an increase in distribution and marketing expense and an increase in communication and technology expense. The increase in salaries, incentive compensation and benefits was offset by a decrease in pre-offering related compensation expense.

Compensation and Benefits

	For the Three Months Ended September 30,		Period-to-Period		
	2014	2013	\$	%	
	(unaudited; in millions)				
Salaries, incentive compensation and benefits ⁽¹⁾	\$83.8	\$76.1	\$7.7	10	%
Restricted share compensation expense	6.9	3.4	3.5	103	%
Total salaries, incentive compensation and benefits	90.7	79.5	11.2	14	%
Amortization expense on pre-offering Class B awards	12.4	23.4	(11.0)	(47)	%
Pre-offering related compensation - share-based awards	12.4	23.4	(11.0)	(47)	%
Total compensation and benefits	\$103.1	\$102.9	\$0.2	0	%

⁽¹⁾ Excluding restricted share compensation expense

The increase in salaries, incentive compensation, and benefits was driven primarily by incentive compensation expense for our investment and marketing professionals. The portion of cash incentive compensation directly linked to our revenues increased by \$8.9 million as a result of higher investment management fee revenue during the three months ended September 30, 2014, as compared to the three months ended September 30, 2013. Partially offsetting the increase was a \$3.2 million decrease in incentive compensation expense related to a special incentive compensation plan for certain portfolio managers that ended on December 31, 2013.

Pursuant to the 2013 Omnibus Incentive Compensation Plan, we have issued restricted shares of Class A common stock to certain of our employees. Compensation expense recognized related to restricted shares was \$6.9 million and \$3.4 million for the three months ended September 30, 2014 and 2013, respectively. We expect to move our annual grant cycle to January of each year, with a six month prorated grant to be considered by the Board of Directors in January 2015. The amount of equity granted will vary from year to year and will be influenced by our results. In July 2014, we granted 1,402,876 restricted shares of Class A common stock to our employees and employees of our subsidiaries. A portion of these shares will vest pro rata in the third fiscal quarter of each of the next five years. The remaining shares will generally vest upon a combination of both (1) pro-rata annual time vesting and (2) qualifying retirement (as defined in the award agreements). Total compensation expense associated with these awards is expected to be approximately \$72.2 million, which will be recognized on a straight-line basis over the requisite service period. Amortization expense on pre-offering Class B awards decreased 11.0 million, as certain awards became fully vested during 2014.

Total salaries, incentive compensation and benefits was 43% and 45% of our revenues for the three months ended September 30, 2014, and 2013, respectively.

Other operating expenses

Other operating expenses increased \$6.6 million for the three months ended September 30, 2014 compared to the three months ended September 30, 2013 primarily due to a \$3.1 million increase in distribution and marketing expenses related to higher average AUM and revenues and a \$2.3 million increase in communication and technology expenses as a result of an increase in the number of employees and consulting expense related to firm initiatives. Approximately \$1.2 million of additional distribution expenses related to a change in the allocation of the intermediary fees between Artisan and the Artisan Funds. We expect the additional cost will eventually be at least partially offset by a reduction

in intermediary fees resulting from Artisan Funds' launch of Advisor share classes for certain of our Artisan Funds. The fees we pay to intermediaries with respect to the Advisor shares will be lower than the intermediary fees we pay on other classes of shares.

Table of Contents

Non-Operating Income (Loss)

The decrease in non-operating income of \$12.0 million for the three months ended September 30, 2014, compared to the three months ended September 30, 2013, was primarily due to a \$6.9 million gain on the valuation of contingent value rights recognized during the three months ended September 30, 2013. The gain on the CVR was the result of an increase in our stock price from the \$49.91 per share at June 30, 2013 to the closing price of \$52.36 per share on September 30, 2013. As a derivative liability, all changes in the fair value of this liability were recorded to current earnings. The CVRs were terminated on November 6, 2013.

Non-operating income (loss) for the three months ended September 30, 2014 includes a \$0.3 million gain related to the reduction in the estimate of the payment obligation under the tax receivable agreements. The effect of changes in our estimate of amounts payable under the tax receivable agreements, including the effect of changes in enacted tax rates and in applicable tax laws, is included in net income. The \$0.3 million reduction in estimated amounts payable under the tax receivable agreements is comprised of a \$4.1 million reduction due to a change in estimate, offset by a \$3.8 million increase due to the change in our estimated adjusted effective tax rate from 36.2% to 36.5%.

Net gains of Launch Equity decreased \$6.0 million in the three months ended September 30, 2014, compared to the prior year period. Gains of Launch Equity represent net realized and unrealized gains of the underlying assets of Launch Equity. Nearly all gains are allocable to, and are offset by, net income (loss) attributable to noncontrolling interests - Launch Equity.

Provision for Income Taxes

The provision for income taxes represents APAM's U.S. federal and state income tax on its allocable portion of the income of Holdings. APAM's effective income tax rate for the three months ended September 30, 2014 and 2013 was 19.5% and 10.8%, respectively. Several factors contribute to the effective tax rate, including a rate benefit attributable to the fact that approximately 60% and 76% of Holdings' earnings were not subject to corporate-level taxes for the three months ended September 30, 2014 and 2013, respectively. Income before income taxes includes amounts that are passed through to unit holders of Holdings and noncontrolling interest and is not taxable to Holdings and its subsidiaries, which reduces the effective tax rate. This favorable impact is partially offset by the impact of certain permanent items, primarily attributable to pre-IPO share-based compensation expenses that are not deductible for tax purposes. These factors are expected to continue to impact the effective tax rate for future years, although as our ownership in Holdings increases, the effective tax rate will likewise increase as more income will be subject to corporate-level taxes.

Weighted average diluted shares of Class A common stock outstanding	26,177,724	15,294,412

Revenues

The increase in revenues of \$134.5 million, or 28%, for the nine months ended September 30, 2014, compared to the nine months ended September 30, 2013, was driven primarily by a \$22.5 billion, or 26%, increase in our average AUM.

Our weighted average investment management fee was 77 basis points for the nine months ended September 30, 2014, compared to 76 basis points for the nine months ended September 30, 2013. Separate accounts, including U.S.-registered mutual funds, non-U.S. funds and collective investment trusts we sub-advise, in the aggregate paid a weighted average fee of 55 basis points for the nine months ended September 30, 2014 and 2013. Artisan Funds and Artisan Global Funds, to which we provide services in addition to the services we provide to separate account clients, paid in the aggregate a weighted average fee of 93 basis points for the nine months ended September 30, 2014, compared to 94 basis points for the nine months ended September 30, 2013.

For the nine months ended September 30, 2014 and 2013, fees from separate accounts, including U.S.-registered mutual funds, non-U.S. funds and collective investment trusts we sub-advise, represented \$188.5 million and \$157.7 million of our revenues, respectively. For the nine months ended September 30, 2014 and 2013, fees from Artisan Funds represented \$423.6 million and \$324.5 million of our revenues, respectively, and fees from Artisan Global Funds represented \$10.6 million and \$6.0 million of our revenues, respectively.

Operating Expenses

The decrease in total operating expenses of \$414.1 million for the nine months ended September 30, 2014, compared to the nine months ended September 30, 2013, was primarily attributable to a decrease in share-based and other pre-offering related compensation expenses that were incurred mainly as a result of the IPO Reorganization.

Table of Contents

Compensation and Benefits

	For the Nine Months Ended September 30,		Period-to-Period		
	2014	2013	\$	%	
	(unaudited; in millions)

Total compensation and benefits	\$314.1	\$744.9	\$(430.8)	(58))%

⁽¹⁾ Excluding share-based compensation

The increase in salaries, incentive compensation, and benefits was driven primarily by incentive compensation expense for our investment and marketing professionals. The portion of incentive compensation directly linked to our revenues increased by \$36.0 million as a result of higher investment management fee revenue during the nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013. Partially offsetting the increase was a \$6.3 million decrease in severance expense and an \$8.6 million decrease in incentive compensation expense related to a special incentive compensation plan for certain portfolio managers that ended on December 31, 2013. Compensation expense recognized related to restricted shares was \$15.4 million and \$3.4 million for the nine months ended September 30, 2014 and 2013, respectively. The increase is a result of the annual equity grants made in the third quarter of 2013 and 2014.

The remaining increase in salaries, incentive compensation and benefits expense was driven mainly by an increase in the number of employees between 2013 and 2014. Total salaries, incentive compensation and benefits as a percentage of revenues was 42% and 45% of our revenues for the nine months ended September 30, 2014 and 2013, respectively. Pre-offering related share-based compensation expense decreased \$328.3 million for the nine months ended September 30, 2014, compared to the nine months ended September 30, 2013. Prior to the IPO Reorganization, our Class B share-based awards were classified as liabilities. As part of the IPO Reorganization, we amended the Class B share-based grant agreements to eliminate the cash redemption feature of the awards. From January 1, 2013, through the date of the IPO Reorganization, we incurred a \$41.9 million compensation charge to record the liability awards at fair value. Immediately after the amendment of the grant agreements, we incurred a \$287.3 million compensation charge as a result of the award modification. Compensation expense for these awards after the IPO Reorganization represents the amortization of the fair value of unvested awards at the date of the IPO Reorganization over the remaining vesting term.

Pre-offering related other compensation decreased \$143.0 million for the nine months ended September 30, 2014, compared to the nine months ended September 30, 2013. During the nine months ended September 30, 2013 we recognized \$56.8 million in compensation expense related to a cash incentive paid to certain of our portfolio managers in connection with the IPO, \$65.7 million in compensation expense related to distributions of the retained earnings of Holdings made to our pre-IPO employee-partners, and \$20.5 million in compensation expense representing profits after the IPO otherwise allocable and distributable, in the aggregate, to Artisan Partners Holdings' pre-IPO non-employee partners which was instead allocated and distributed to certain of our employee-partners.

Table of Contents

Other operating expenses

Other operating expenses increased \$16.7 million, or 27% for the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013. The increase was a result of a \$9.2 million increase in distribution and marketing expenses related to higher average AUM and revenues and a \$5.4 million increase in communication and technology expenses as a result of an increase in the number of employees and consulting expense related to firm initiatives.

Non-Operating Income (Loss)

The decrease in non-operating income of \$55.0 million for the nine months ended September 30, 2014, compared to the nine months ended September 30, 2013, was primarily due to a \$40.3 million gain on the valuation of contingent value rights during the nine months ended September 30, 2013. The gain on the CVR was the result of an increase in our stock price from the \$30.00 per share IPO price utilized in determining the initial fair value of the CVR liability to the closing price of \$52.36 per share on September 30, 2013. As a derivative liability, all changes in the fair value of this liability were recorded to current earnings. The CVRs were terminated on November 6, 2013.

Non-operating income (loss) for the nine months ended September 30, 2014 includes \$4.2 million of expense related to the change in estimate of the payment obligation under the tax receivable agreements. The effect of changes in our estimate of amounts payable under the tax receivable agreements, including the effect of changes in enacted tax rates and in applicable tax laws, is included in net income.

Gains of Launch Equity decreased \$11.1 million for the nine months ended September 30, 2014, compared to the nine months ended September 30, 2013. Gains of Launch Equity represent net realized and unrealized gains of the underlying assets of Launch Equity. Nearly all gains are allocable to, and offset by, net income (loss) attributable to noncontrolling interests - Launch Equity.

Provision for Income Taxes

The provision for income taxes represents APAM's U.S. federal and state income tax on its allocable portion of the income of Holdings. APAM's effective income tax rate for the nine months ended September 30, 2014 was 16.4% compared to 11.0% for the period from March 12, 2013 through September 30, 2013. Several factors contribute to the effective tax rate, including a rate benefit attributable to the fact that approximately 60% and 76% of Holdings' earnings were not subject to corporate-level taxes for the nine months ended September 30, 2014 and 2013, respectively. Income before income taxes includes amounts that are passed through to unit holders of Holdings and noncontrolling interest and is not taxable to Holdings and its subsidiaries, which reduces the effective tax rate. This favorable impact is partially offset by the impact of certain permanent items, primarily attributable to pre-IPO share-based compensation expenses that are not deductible for tax purposes. These factors are expected to continue to impact the effective tax rate for future years, although as our ownership in Holdings increases, the effective tax rate will likewise increase as more income will be subject to corporate-level taxes. Included in the tax provision for the nine months ended September 30, 2014, is a discrete tax benefit of \$4.1 million related to the change in estimate of the payment obligation under the tax receivable agreements discussed in the notes to the unaudited financial statements. This discrete tax benefit includes the impact of the change in our estimated adjusted effective tax rate from 36.2% to 36.5% during the three months ended September 30, 2014.

Prior to our IPO and IPO Reorganization in March 2013, none of Holdings' earnings were subject to U.S. corporate-level taxes.

Table of Contents

Supplemental Non-GAAP Financial Information

Our management uses non-GAAP measures (referred to as “adjusted” measures) of net income and operating income to evaluate the profitability and efficiency of the underlying operations of our business and as a factor when considering net income available for distributions and dividends. These adjusted measures remove the impact of (1) pre-offering related compensation and net gain (loss) on the tax receivable agreements (as described below,) (2) offering related proxy expense (as described below) and (3) the net gain (loss) on the valuation of contingent value rights, and remove the non-operational complexities of our structure by adding back non-controlling interests and assuming all income of Artisan Partners Holdings is allocated to us. Management believes these non-GAAP measures provide more meaningful information to analyze our profitability and efficiency between periods and over time. We have included these non-GAAP measures to provide investors with the same financial metrics used by management to manage the company.

Non-GAAP measures should be considered in addition to, and not as a substitute for, financial measures prepared in accordance with GAAP. Our non-GAAP measures may differ from similar measures used by other companies, even if similar terms are used to identify such measures. Our non-GAAP measures are as follows:

Adjusted net income represents net income excluding the impact of (1) pre-offering related compensation and net gain (loss) on the tax receivable agreements, as defined below, (2) offering related proxy expense, as defined below, (3) net gain (loss) on the valuation of contingent value rights, and reflects income taxes as if all outstanding limited partnership units of Artisan Partners Holdings and all shares of the Company’s convertible preferred stock had been exchanged for or converted into Class A common stock of the Company on a one-for-one basis. Assuming the full exchange and conversion, all income of Artisan Partners Holdings is treated as if it were allocated to the Company, and the adjusted provision for income taxes represents an estimate of income tax expense at an effective rate reflecting assumed federal, state, and local income taxes. The estimated adjusted effective tax rate was 36.5% and 35.8% for the 2014 and 2013 periods presented, respectively. The year to date impact of the change in the 2014 estimated tax rate during the September 2014 quarter from 36.2% to 36.5% is reflected in adjusted net income for the three months ended September 30, 2014 (which results in an estimated non-GAAP effective tax rate of 37% for the quarter).

Adjusted net income per adjusted share is calculated by dividing adjusted net income (loss) by adjusted shares. The number of adjusted shares is derived by assuming the vesting of all unvested shares of Class A common stock, the exchange of all outstanding limited partnership units of Artisan Partners Holdings and the conversion of all outstanding shares of the Company’s convertible preferred stock for or into Class A common stock of the Company on a one-for-one basis.

Adjusted operating income represents the operating income (loss) of the consolidated company excluding offering related proxy expense and pre-offering related compensation.

Adjusted operating margin is calculated by dividing adjusted operating income (loss) by total revenues.

Adjusted EBITDA represents income (loss) before income taxes, interest expense and depreciation and amortization, adjusted to exclude the impact of net income (loss) attributable to non-controlling interests, offering related proxy expense, pre-offering related compensation, net gain (loss) on the tax receivable agreements, and the net gain (loss) on the valuation of contingent value rights.

For the three months ended September 30 2014, and 2013, and the nine months ended September 30, 2014, pre-offering related compensation includes the amortization of unvested Class B common units of Artisan Partners Holdings that were granted before our initial public offering, which closed on March 12, 2013. For the three and nine months ended September 30, 2014, the net gain (loss) on tax receivable agreements represents income or expense associated with the valuation of amounts payable under the tax receivable agreements entered into in connection with our initial public offering and related reorganization. For the nine months ended September 30, 2013, pre-offering related compensation includes (1) expense resulting from cash incentive compensation payments triggered by the IPO and expense associated with the reallocation of post-IPO profits from certain pre-IPO partners to employee-partners, (2) one-time expense, resulting from the modification of the Class B common unit awards at the time of the IPO, based on the difference between the carrying value of the liability associated with the vested Class B common units immediately prior to the IPO and the value based on the offering price per share of Class A common stock in the IPO,

(3) the amortization of unvested Class B common units of Artisan Partners Holdings that were granted prior to the IPO, (4) distributions to the Class B partners of Artisan Partners Holdings, (5) redemptions of Class B common units and (6) changes in the value of Class B liability awards during the period.

Offering related proxy expense represents costs incurred as a result of the change of control (for purposes of the Investment Company Act and Investment Advisers Act) which occurred on March 12, 2014. We incurred costs through the first quarter of 2014 to solicit the necessary approvals and consents from the boards and shareholders of the mutual funds that we advise or sub-advise and from our separate accounts clients, which were necessary because of the change of control.

Table of Contents**Liquidity and Capital Resources**

Our working capital needs, including accrued incentive compensation payments, have been and are expected to be met primarily through cash generated by our operations. The following table shows our liquidity position as of September 30, 2014 and December 31, 2013. The data presented excludes Launch Equity's cash and cash equivalents and accounts receivable as these assets are not sources of liquidity for us.

	September 30, 2014 (unaudited) (dollars in millions)	December 31, 2013
Cash and cash equivalents	\$228.0	\$211.8
Accounts receivable	\$67.5	\$64.1
Undrawn commitment on revolving credit facility	\$100.0	\$100.0

We manage our cash balances in order to fund our day-to-day operations. Accounts receivable primarily represent investment management fees that have been earned, but not yet received from our clients. We perform a review of our receivables on a monthly basis to assess collectability. We also maintain a \$100.0 million revolving credit facility, which was unused as of and for the nine months ended September 30, 2014.

In August 2012, we issued \$200.0 million in unsecured notes and entered into the \$100.0 million five-year revolving credit facility. We used the proceeds of the notes and \$90.0 million drawn from the revolving credit facility to prepay the entire then-outstanding principal amount of our prior term loan. The notes are comprised of three series, each with a balloon payment at maturity. In connection with the IPO, we paid all of the \$90.0 million outstanding principal amount of loans under the revolving credit facility. The fixed interest rate on each series of unsecured notes is subject to a 100 basis point increase in the event Holdings receives a below-investment grade rating and any such increase will continue to apply until an investment grade rating is received.

These borrowings contain various restrictive covenants. Our failure to comply with any of the covenants could result in an event of default under the agreements, giving our lenders the ability to accelerate repayment of our obligations. We were in compliance with all debt covenants as of September 30, 2014.

Distributions and Dividends

In connection with the IPO, we made a cash incentive compensation payment of approximately \$56.8 million to certain of our portfolio managers and distributed to our pre-IPO partners all of our retained profits as of the date of the closing of the IPO. During the three and nine months ended September 30, 2014, Artisan Partners Holdings distributed \$81.6 million and \$329.7 million, respectively, to holders of its partnership units, including APAM. During the nine months ended September 30, 2014, APAM paid dividends of \$3.28 per share of Class A common stock and \$3.81 per share of convertible preferred stock.

In future periods, we anticipate that we will distribute a significant portion of our profits to our equity holders. Our dividend policy targets the distribution of the majority of annual adjusted earnings through a quarterly dividend and, subject to firm profitability and business conditions, a special annual dividend. Although we expect to pay dividends according to our dividend policy, we may not pay dividends according to our policy or at all.

On October 15, 2014, we, acting as the general partner of Artisan Partners Holdings, declared a distribution of \$27.2 million payable by Artisan Partners Holdings on November 20, 2014 to holders of its partnership units, including us, of record on November 14, 2014. In addition, our board of directors declared a quarterly dividend of \$0.55 per share of Class A common stock, to be paid on November 28, 2014, to shareholders of record as of the close of business on November 14, 2014.

In addition to funding our normal operations, we will be required to fund amounts payable by us under the TRAs that we entered into in connection with the IPO.

Tax Receivable Agreements ("TRAs")

In connection with the IPO, APAM entered into two TRAs, which resulted in the recognition of a \$486.5 million liability as of September 30, 2014. The \$486.5 million liability represents 85% of the tax benefits we expect to realize from the merger of an entity into us as part of the IPO Reorganization, our purchase of Class A units in connection

with the IPO, our purchase of preferred units in November 2013, our purchase of common and preferred units in March 2014, and exchanges of Holdings common and preferred units for APAM Class A common stock. The estimated liability assumes no material changes in the relevant tax law and that we earn sufficient taxable income to realize all tax benefits subject to the TRAs.

Table of Contents

The liability will increase upon redemptions of Holdings units or exchanges of Holdings units for our Class A common stock or convertible preferred stock, with the increase representing 85% of the estimated future tax benefits, if any, resulting from the redemptions or exchanges. We intend to fund the payment of amounts due under the TRAs out of the reduced tax payments that APAM actually realizes in respect of the attributes to which the TRAs relate. The actual payments, and associated tax benefits, will vary depending upon a number of factors, including the timing of exchanges by the holders of Holdings units, the price of our Class A common stock at the time of the redemption or exchange, the extent to which such redemptions or exchanges are taxable, the amount and timing of the taxable income we generate in the future and the tax rate then applicable as well as the portion of our payments under the TRAs constituting imputed interest or depreciable or amortizable basis. In certain cases, payments under the TRAs may be accelerated and/or significantly exceed the actual benefits we realize in respect of the tax attributes subject to the TRAs. In such cases, we intend to fund those payments with cash on hand, although we may have to borrow funds depending on the amount and timing of the payments. During the nine months ended September 30, 2014, payments of \$4.6 million were made in accordance with the TRA agreements.

Cash Flows

	For the Nine Months Ended September 30,	
	2014	2013
	(unaudited; in millions)	
Cash as of January 1	\$211.8	\$141.2
Net cash provided by operating activities	326.1	117.8
Net cash used in investing activities	(11.4)	(7.0)
Net cash provided by (used in) financing activities	(298.5)	23.9
Cash as of September 30	\$228.0	\$275.9

Operating activities provided net cash of \$326.1 million and \$117.8 million for the nine months ended September 30, 2014 and 2013, respectively. The increase in net cash provided by operating activities was primarily driven by IPO Reorganization payments made in 2013, and higher operating income in 2014. In the March quarter of 2013, we paid \$56.8 million of IPO-related cash incentive compensation payments and \$65.7 million in Class B distributions. For the nine months ended September 30, 2014, compared to the nine months ended September 30, 2013, our operating income, excluding share-based and pre-offering related compensation expenses, increased \$89.2 million.

Transactions associated with Launch Equity used operating cash of \$3.0 million and \$3.2 million during the nine months ended September 30, 2014, and 2013, respectively. Nearly all of Launch Equity's cash flows are attributable to non-controlling interests.

Investing activities consist primarily of acquiring and selling property and equipment, leasehold improvements and the purchase and sale of available-for-sale securities. Investing activities used net cash of \$11.4 million and \$7.0 million for the nine months ended September 30, 2014 and 2013, respectively. The increase in net cash used in investing activities was primarily due to the acquisition of property and equipment and leasehold improvements of \$7.9 million during the nine months ended September 30, 2014, compared to \$2.0 million of such acquisitions during the nine months ended September 30, 2013. The increase was partially offset by a \$1.1 million decrease in the purchase of investment securities, net of proceeds from the sale of investment securities.

Financing activities consist primarily of partnership distributions to non-controlling interests, dividend payments to holders of our Class A common stock, payments of principal on our revolving credit arrangement, proceeds from the issuance of Class A common stock in the IPO and follow-on offerings, and payments to purchase APAM convertible preferred stock and Holdings partnership units. Financing activities used net cash of \$298.5 million and provided net cash of \$23.9 million for the nine months ended September 30, 2014 and 2013, respectively. This decrease in net cash provided by financing activities was primarily the result of net proceeds of \$353.4 million provided by the IPO in March 2013. The cash provided by the IPO in 2013 was offset by \$160.1 million profits distributions to our non-employee partners, a \$90.0 million payment of principal outstanding under our revolving credit arrangement, and payments of \$76.3 million for the purchase of Class A common units in connection with the IPO.

For the nine months ended September 30, 2014, net cash used in financing activities was primarily driven by \$213.6 million of Holdings' profits distributions to non-controlling interests, \$81.0 million of dividends paid to APAM

shareholders, and \$4.6 million of payments made in accordance with the TRA agreements. All of the proceeds provided by the 2014 Follow-on Offering were used to purchase shares of our convertible preferred stock and subsidiary equity, as described under “Factors Impacting our Results of Operations.”

Launch Equity’s limited partners contributed \$3.0 million and \$3.2 million of additional capital to Launch Equity during the nine months ended September 30, 2014 and 2013, respectively. Nearly all of Launch Equity’s capital is attributable to non-controlling interests.

Table of Contents

Certain Contractual Obligations

As of September 30, 2014, there have been no material changes to our contractual obligations outside the ordinary course of business from those listed in the “Certain Contractual Obligations” table and related notes to the table in our Annual Report on Form 10-K for the year ended December 31, 2013, filed with the SEC on February 26, 2014, except for increases in the TRA liability. As previously discussed in this report, the TRA liability increased from \$160.7 million at December 31, 2013, to \$486.5 million at September 30, 2014. Amounts payable under the TRAs will increase upon exchanges of Holdings units for our Class A common stock or convertible preferred stock or sales of Holdings units to us, with the increase representing 85% of the estimated future tax benefits, if any, resulting from the exchanges or sales. The actual amount and timing of payments associated with our existing payable under the TRAs or future exchanges or sales, and associated tax benefits, will vary depending upon a number of factors as described under “Liquidity and Capital Resources.” As a result, the timing of payments by period is currently unknown. We paid approximately \$4.6 million related to the TRAs in 2014. We expect the estimated payments to be funded by realized tax benefits.

Off-Balance Sheet Arrangements

We did not have any off-balance sheet arrangements as of September 30, 2014.

Critical Accounting Policies and Estimates

There have been no updates to our critical accounting policies from those disclosed in Management’s Discussion and Analysis of Financial Condition and Results of Operations in our Form 10-K for the fiscal year ended December 31, 2013.

New or Revised Accounting Standards

See Part I, Item 1, Unaudited Consolidated Financial Statements - Note 2, “Summary of Significant Accounting Policies.”

Table of Contents

Item 3. Qualitative and Quantitative Disclosures Regarding Market Risk

There have been no material changes in our Quantitative and Qualitative Disclosures Regarding Market Risk from those previously reported in our Form 10-K for the year ended December 31, 2013.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) at September 30, 2014. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective.

Internal Control over Financial Reporting

There have been no changes in internal control over financial reporting during the quarter ended September 30, 2014 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

Table of Contents

Part II — Other Information

Item 1. Legal Proceedings

In the normal course of business, we may be subject to various legal and administrative proceedings. Currently, there are no legal or administrative proceedings that management believes may have a material effect on our consolidated financial position, cash flows or results of operations.

Item 1A. Risk Factors

For a discussion of our potential risks and uncertainties, see the information under the heading “Risk Factors” in our latest annual report on Form 10-K, which is accessible on the SEC’s website at www.sec.gov.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Sales of Equity Securities

As described in Note 9, “Stockholders' Equity”, to the Unaudited Consolidated Financial Statements included in Part I of this report, upon termination of employment with Artisan, an employee-partner’s vested Class B common units of Holdings are automatically exchanged for Class E common units, and unvested Class B common units are forfeited. The employee-partner’s shares of APAM Class B common stock are canceled and APAM issues the former employee-partner a number of shares of APAM Class C common stock equal to the former employee-partner’s number of Class E common units. The former employee-partner’s Class E common units are exchangeable for Class A common stock subject to the same restrictions and limitations on exchange applicable to the other common units of Holdings. During the three and nine months ended September 30, 2014, 93,143 shares of Class B common stock were canceled, and 93,143 shares of Class C common stock were issued, as a result of the termination of employment of employee-partners.

Item 3. Defaults Upon Senior Securities

None

Item 4. Mine Safety Disclosures

Not applicable

Item 5. Other Information

None.
