

ITT Corp
Form 10-Q
May 01, 2015

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-Q
(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended March 31, 2015

or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____

Commission File Number: 1-5672

ITT CORPORATION

State of Indiana

13-5158950

(State or Other Jurisdiction

(I.R.S. Employer

of Incorporation or Organization)

Identification Number)

1133 Westchester Avenue, White Plains, NY 10604

(Principal Executive Office)

Telephone Number: (914) 641-2000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of April 28, 2015, there were outstanding 89.2 million shares of common stock (\$1 par value per share) of the registrant.

FORWARD-LOOKING AND CAUTIONARY STATEMENTS

Some of the information included herein includes forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995 (the Act). These forward-looking statements are not historical facts, but rather are based on current expectations, estimates, assumptions and projections about the business and future financial results of the industry in which we operate, and other legal, regulatory and economic developments. These forward-looking statements include, but are not limited to, future strategic plans and other statements that describe the company's business strategy, outlook, objectives, plans, intentions or goals, and any discussion of future operating or financial performance.

We use words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "target," "future," "may," "will," "could," "should," "potential," "continue," "guidance" and other similar expressions to identify such forward-looking statements. Forward-looking statements are uncertain and to some extent unpredictable, and involve known and unknown risks, uncertainties and other important factors that could cause actual results to differ materially from those expressed or implied in, or reasonably inferred from, such forward-looking statements.

Where in any forward-looking statement we express an expectation or belief as to future results or events, such expectation or belief is based on current plans and expectations of our management, expressed in good faith and believed to have a reasonable basis. However, there can be no assurance that the expectation or belief will result or will be achieved or accomplished. More information on factors that could cause actual results or events to differ materially from those anticipated is included in our reports filed with the SEC, including our Annual Report on Form 10-K for the year ended December 31, 2014 (particularly under the caption "Risk Factors"), our Quarterly Reports on Form 10-Q (including Part II, Item 1A, "Risk Factors," of this Quarterly Report on Form 10-Q) and other documents we file from time to time with the SEC.

The forward-looking statements included in this Quarterly Report on Form 10-Q (Report) speak only as of the date of this Report. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission (SEC). You can inspect, read and copy these reports, proxy statements and other information at the SEC's Public Reference Room, which is located at 100 F Street, N.E., Washington, D.C. 20549. You can obtain information regarding the operation of the SEC's Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains a website at www.sec.gov that makes available reports, proxy statements and other information regarding issuers that file electronically.

We make available free of charge at www.itt.com (in the "Investors" section) copies of materials we file with, or furnish to, the SEC. ITT uses the Investor Relations page of its Internet site at www.itt.com (in the "Investors" section) to disclose important information to the public.

Information contained on ITT's Internet site, or that can be accessed through its Internet site, does not constitute a part of this Report. ITT has included its Internet site address only as an inactive textual reference and does not intend it to be an active link to its Internet site. Our corporate headquarters are located at 1133 Westchester Avenue, White Plains, NY 10604 and the telephone number of this location is (914) 641-2000.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(DOLLARS AND SHARE AMOUNTS IN MILLIONS, UNLESS OTHERWISE STATED)

NOTE 1

DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Description of Business

ITT Corporation is a diversified manufacturer of highly engineered critical components and customized technology solutions for the energy, transportation, and industrial markets. Unless the context otherwise indicates, references herein to “ITT,” “the Company,” and such words as “we,” “us,” and “our” include ITT Corporation and its subsidiaries. ITT operates through four segments: Industrial Process, consisting of industrial pumping and complementary equipment; Motion Technologies, consisting of friction and shock and vibration equipment; Interconnect Solutions, consisting of electronic connectors; and Control Technologies, consisting of fluid handling, motion control and vibration and shock isolation products. Financial information for our segments is presented in Note 3, “Segment Information.”

On October 31, 2011, ITT completed the tax-free spin-off of its Defense and Information Solutions business, Exelis Inc. (Exelis), and its water-related businesses, Xylem Inc. (Xylem) by way of a distribution of all of the issued and outstanding shares of Exelis common stock and Xylem common stock, on a pro rata basis, to ITT shareholders of record on October 17, 2011. This transaction is referred to in this Report as the “2011 spin-off.”

Basis of Presentation

The unaudited consolidated condensed financial statements have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC) and, in the opinion of management, reflect all adjustments (which include normal recurring adjustments) necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented. Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted pursuant to such SEC rules. We believe that the disclosures made are adequate to make the information presented not misleading. We consistently applied the accounting policies described in ITT's Annual Report on Form 10-K for the year ended December 31, 2014 (2014 Annual Report) in preparing these unaudited financial statements. These financial statements should be read in conjunction with the financial statements and notes thereto included in our 2014 Annual Report.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Estimates are revised as additional information becomes available. Estimates and assumptions are used for, but not limited to, asbestos-related liabilities and recoveries from insurers, revenue recognition, unrecognized tax benefits, deferred tax valuation allowances, projected benefit obligations for postretirement plans, accounting for business combinations, goodwill and other intangible asset impairment testing, environmental liabilities and recoveries from insurers, allowance for doubtful accounts and inventory valuation. Actual results could differ from these estimates. ITT's quarterly financial periods end on the Saturday closest to the last day of the calendar quarter, except for the last quarterly period of the fiscal year, which ends on December 31st. For ease of presentation, the quarterly financial statements included herein are described as ending on the last day of the calendar quarter.

NOTE 2

RECENT ACCOUNTING PRONOUNCEMENTS

The Company considers the applicability and impact of all accounting standard updates (ASUs). ASUs not listed below were assessed and determined to be either not applicable or are expected to have minimal impact on our consolidated financial position or results of operations.

Accounting Pronouncements Not Yet Adopted

In May 2014, the Financial Accounting Standards Board (FASB) amended the existing accounting standards for revenue recognition. The amendments are based on the principle that revenue should be recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. The guidance also requires enhanced

disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. In April 2015, the FASB voted to propose a one-year deferral of the effective date of the new revenue standard. Under the proposal, the new guidance will be effective for the Company beginning in its first quarter of 2018. The amendments may be applied retrospectively to each prior period presented or with the cumulative effect recognized as of the date of initial application. ITT is currently evaluating the impact of these amendments and the transition alternatives on ITT's financial statements.

NOTE 3

SEGMENT INFORMATION

The Company's segments are reported on the same basis used internally for evaluating performance and for allocating resources. Our four reportable segments are referred to as: Industrial Process, Motion Technologies, Interconnect Solutions and Control Technologies.

Industrial Process manufactures engineered fluid process equipment serving a diversified mix of customers in global infrastructure industries such as chemical, oil and gas, mining, and other industrial process markets and is a provider of plant optimization and efficiency solutions and aftermarket services and parts.

Motion Technologies manufactures brake components, shock absorbers and damping technologies for the global automotive, truck and trailer, public bus and rail transportation markets.

Interconnect Solutions manufactures and designs a wide range of highly engineered harsh environment connector solutions that make it possible to transfer signal and power between electronic devices which service global customers for the aerospace and defense, industrial and transportation, oil and gas, and medical markets.

Control Technologies manufactures specialized equipment, including actuation, valves, and noise and energy absorption components for the aerospace and defense, and industrial markets.

Corporate and Other consists of corporate office expenses including compensation, benefits, occupancy, depreciation, and other administrative costs, as well as charges related to certain matters, such as asbestos and environmental liabilities, that are managed at a corporate level and are not included in segment results when evaluating performance or allocating resources. Assets of the segments exclude general corporate assets, which principally consist of cash, investments, asbestos-related receivables and certain property, plant and equipment.

| Industrial Process | \$1,111.4 | \$1,152.3 | \$6.2 | \$8.2 | \$7.6 | | \$7.2 | |
| Motion Technologies | 439.6 | 450.1 | 13.3 | 8.2 | 6.9 | | 7.2 | |
| Interconnect Solutions | 371.0 | 365.4 | 7.1 | 1.2 | 2.3 | | 2.8 | |
| Control Technologies | 334.4 | 334.1 | 2.4 | 0.8 | 2.5 | | 2.5 | |
| Corporate and Other | 1,316.2 | 1,329.6 | 1.2 | 0.6 | 1.4 | | 1.4 | |
| Total | \$3,572.6 | \$3,631.5 | \$30.2 | \$19.0 | \$20.7 | | \$21.1 | |

(a) Amounts reflect balances as of December 31, 2014.

NOTE 4

RESTRUCTURING ACTIONS

The table below summarizes the restructuring costs presented within general and administrative expenses in our Consolidated Condensed Income Statements for the three months ended March 31, 2015 and 2014.

| For the Three Months Ended March 31 | Three Months | |
|-------------------------------------|--------------|--------|
| | 2015 | 2014 |
| Severance costs | \$8.4 | \$15.3 |
| Other restructuring costs | 0.9 | — |
| Total restructuring costs | \$9.3 | \$15.3 |
| By segment: | | |
| Industrial Process | \$8.9 | \$0.9 |
| Interconnect Solutions | (0.2) | 14.4 |
| Control Technologies | 0.5 | — |
| Corporate and Other | 0.1 | — |

The following table displays a rollforward of the restructuring accruals, presented on our Consolidated Condensed Balance Sheet within accrued liabilities, for the three months ended March 31, 2015 and 2014.

| For the Three Months Ended March 31 | 2015 | 2014 |
|--------------------------------------------|--------|--------|
| Restructuring accruals - beginning balance | \$21.9 | \$14.7 |
| Restructuring costs | 9.3 | 15.3 |
| Cash payments | (6.6) | (5.8) |
| Foreign exchange translation and other | (0.4) | (0.1) |
| Restructuring accrual - ending balance | \$24.2 | \$24.1 |
| By accrual type: | | |
| Severance accrual | \$22.4 | \$22.7 |
| Facility carrying and other costs accrual | 1.8 | 1.4 |

2015 Industrial Process Restructuring Actions

In March 2015, we announced a series of restructuring actions in the Company's Industrial Process business related to a strategic reorganization of the business and to achieve efficiencies and reduce the overall cost structure. The company expects to incur pre-tax cash costs, principally involuntary severance costs of approximately \$13 to \$14 and other non-cash pre-tax costs of approximately \$4 to \$5 in aggregate related to this action. The costs incurred during the three months ended March 31, 2015 primarily relate to employee severance for approximately 200 planned headcount reductions. We expect to incur the remaining restructuring costs of approximately \$8 to \$10 over the next 6 months related to this action. The following table provides a rollforward of the restructuring accrual associated with the 2015 Industrial Process restructuring actions.

| For the Three Months Ended March 31 | 2015 |
|--------------------------------------------|--------|
| Restructuring accruals - beginning balance | \$— |
| Restructuring costs | 8.9 |
| Cash payments | (1.0) |
| Restructuring accruals - ending balance | \$7.9 |

2013–2014 Interconnect Solutions Restructuring Actions

In 2013, we initiated a comprehensive restructuring plan to improve the overall cost structure of our Interconnect Solutions (ICS) segment, including the transition of certain production lines from one location to another existing lower cost manufacturing site. During the first quarter of 2015, we reversed \$0.2 of a previously estimated restructuring liability and made cash payments of \$3.4, resulting in a remaining liability of \$13.3 as of March 31, 2015. We do not expect to incur any additional charges related to this restructuring action.

NOTE 5

INCOME TAXES

For the three months ended March 31, 2015 and 2014, the Company recognized income tax expense of \$18.1 and \$13.0, respectively, representing an effective tax rate of 31.9% and 27.5%. The higher effective tax rate in 2015 is primarily driven by a pre-tax loss from operations in Germany for which no income tax benefit is recorded. The Company continues to benefit from earnings eligible for the tax holiday in Korea, as well as a larger mix of earnings in non-U.S. jurisdictions with favorable tax rates.

The Company operates in various tax jurisdictions and is subject to examination by tax authorities in these jurisdictions. The Company is currently under examination in several jurisdictions including Germany, Italy, Korea, the United Kingdom and the U.S. The U.S. federal income tax audit for the years 2009 through 2011 has received Joint Committee on Taxation review. We anticipate that we will receive the final audit report within the current year. The calculation of our tax liability for unrecognized tax benefits includes dealing with uncertainties in the application of complex tax laws and regulations in various tax jurisdictions. Due to the complexity of some uncertainties, the ultimate resolution may result in a payment that is materially different from our current estimate of the unrecognized tax benefit. The settlement of an examination could result in changes in amounts attributable to us through the Tax Matters Agreement entered into with Exelis, Inc. and Xylem, Inc. Over the next 12 months, the net amount of the tax liability for unrecognized tax benefits in foreign and domestic jurisdictions could change by approximately \$86.6 due to changes in audit status, expiration of statutes of limitations and other events.

NOTE 6

EARNINGS PER SHARE

The following table provides a reconciliation of the data used in the calculation of basic and diluted earnings per share from continuing operations attributable to ITT Corporation for the three months ended March 31, 2015 and 2014.

| For the Periods Ended March 31 | Three Months | |
|----------------------------------------------------|--------------|------|
| | 2015 | 2014 |
| Basic weighted average common shares outstanding | 90.6 | 91.4 |
| Add: Dilutive impact of outstanding equity awards | 1.0 | 1.4 |
| Diluted weighted average common shares outstanding | 91.6 | 92.8 |

The following table provides the number of shares underlying stock options excluded from the computation of diluted earnings per share for the three months ended March 31, 2015 and 2014 because they were anti-dilutive.

| For the Periods Ended March 31 | Three Months | |
|--------------------------------|--------------|---------|
| | 2015 | 2014 |
| Anti-dilutive stock options | 0.3 | 0.2 |
| Average exercise price | \$42.90 | \$43.52 |
| Years of expiration | 2024 - 2025 | 2024 |

In addition, 0.2 of outstanding return on invested capital (ROIC) awards were excluded from the computation of diluted earnings per share for the three months ended March 31, 2015 and 2014 respectively, as the necessary performance conditions have not been yet been satisfied.

NOTE 7

RECEIVABLES, NET

| | March 31, 2015 | December 31, 2014 |
|---------------------------------------|-------------------|----------------------|
| Trade accounts receivable | \$513.3 | \$476.8 |
| Notes receivable | 4.0 | 6.1 |
| Other | 31.7 | 30.5 |
| Receivables, gross | 549.0 | 513.4 |
| Less: Allowance for doubtful accounts | 11.8 | 13.3 |
| Receivables, net | \$537.2 | \$500.1 |

NOTE 8

INVENTORIES, NET

| | March 31, 2015 | December 31, 2014 |
|--------------------------------------------------|-------------------|----------------------|
| Finished goods | \$52.0 | \$70.5 |
| Work in process | 67.5 | 59.9 |
| Raw materials | 151.6 | 148.5 |
| Inventoried costs related to long-term contracts | 53.3 | 61.4 |
| Total inventory before progress payments | 324.4 | 340.3 |
| Less: Progress payments | (36.8) | (38.0) |
| Inventories, net | \$287.6 | \$302.3 |

NOTE 9

OTHER CURRENT AND NON-CURRENT ASSETS

| | March 31, 2015 | December 31, 2014 |
|---------------------------------------|-------------------|----------------------|
| Asbestos-related current assets | \$102.3 | \$102.4 |
| Current deferred income taxes | 53.0 | 56.2 |
| Prepaid income taxes | 20.6 | 25.9 |
| Short-term investments | 15.3 | 5.4 |
| Other | 52.6 | 59.9 |
| Other current assets | \$243.8 | \$249.8 |
| Other employee benefit-related assets | \$91.4 | \$93.0 |
| Capitalized software costs | 29.7 | 26.8 |
| Other | 30.2 | 30.0 |
| Other non-current assets | \$151.3 | \$149.8 |

NOTE 10

PLANT, PROPERTY AND EQUIPMENT, NET

| | March 31, 2015 | December 31, 2014 |
|------------------------------------------|-------------------|----------------------|
| Land and improvements | \$23.2 | \$24.0 |
| Machinery and equipment | 836.7 | 870.3 |
| Buildings and improvements | 221.5 | 228.8 |
| Furniture, fixtures and office equipment | 62.9 | 65.8 |
| Construction work in progress | 36.1 | 44.5 |
| Other | 6.8 | 7.8 |
| Plant, property and equipment, gross | 1,187.2 | 1,241.2 |
| Less: Accumulated depreciation | (767.9) | (797.3) |
| Plant, property and equipment, net | \$419.3 | \$443.9 |

Depreciation expense of \$17.5 and \$17.0 was recognized in the three months ended March 31, 2015 and 2014, respectively.

NOTE 11

GOODWILL AND OTHER INTANGIBLE ASSETS, NET

Goodwill

The following table provides a rollforward of the carrying amount of goodwill for the three months ended March 31, 2015 by segment.

| | Industrial Process | Motion Technologies | Interconnect Solutions | Control Technologies | Total |
|------------------------------|-----------------------|------------------------|---------------------------|-------------------------|---------|
| Goodwill - December 31, 2014 | \$331.9 | \$43.9 | \$71.2 | \$185.1 | \$632.1 |
| Foreign currency | (14.8) | (4.6) | (2.0) | — | (21.4) |
| Goodwill - March 31, 2015 | \$317.1 | \$39.3 | \$69.2 | \$185.1 | \$610.7 |

Other Intangible Assets, Net

| | March 31, 2015 | | | December 31, 2014 | | |
|-------------------------------|-----------------------------|-----------------------------|--------------------|-----------------------------|-----------------------------|--------------------|
| | Gross Carrying Amount | Accumulated Amortization | Net Intangibles | Gross Carrying Amount | Accumulated Amortization | Net Intangibles |
| Customer relationships | \$81.0 | \$(39.1) | \$41.9 | \$83.1 | \$(38.3) | \$44.8 |
| Proprietary technology | 26.7 | (10.1) | 16.6 | 28.1 | (9.9) | 18.2 |
| Patents and other | 14.0 | (12.3) | 1.7 | 15.2 | (13.1) | 2.1 |
| Finite-lived intangible total | 121.7 | (61.5) | 60.2 | 126.4 | (61.3) | 65.1 |
| Indefinite-lived intangibles | 25.2 | — | 25.2 | 26.3 | — | 26.3 |
| Other Intangible Assets | \$146.9 | \$(61.5) | \$85.4 | \$152.7 | \$(61.3) | \$91.4 |

Amortization expense related to finite-lived intangible assets was \$2.2 and \$3.0 for the three months ended March 31, 2015, and 2014, respectively.

NOTE 12

ACCRUED LIABILITIES AND OTHER NON-CURRENT LIABILITIES

| | March 31, 2015 | December 31, 2014 |
|--------------------------------------------------------|-------------------|----------------------|
| Compensation and other employee-related benefits | \$143.0 | \$176.5 |
| Asbestos-related liabilities | 105.7 | 106.6 |
| Customer-related liabilities | 45.2 | 41.3 |
| Accrued income taxes and other tax-related liabilities | 31.4 | 28.0 |
| Environmental liabilities and other legal matters | 29.8 | 31.6 |
| Accrued restructuring | 24.2 | 21.9 |
| Accrued warranty costs | 23.4 | 29.4 |
| Other accrued liabilities | 30.6 | 30.5 |
| Accrued liabilities | \$433.3 | \$465.8 |
| Deferred income taxes and other tax-related accruals | \$113.5 | \$112.2 |
| Environmental liabilities | 75.8 | 80.2 |
| Compensation and other employee-related benefits | 34.9 | 38.6 |
| Other | 36.6 | 38.5 |
| Other non-current liabilities | \$260.8 | \$269.5 |

NOTE 13

COMMERCIAL PAPER

Commercial paper outstanding as of March 31, 2015 was \$113.5, with an associated weighted average interest rate of 0.67% and maturity terms less than one month from the date of issuance. There was no commercial paper outstanding as of December 31, 2014.

NOTE 14

POSTRETIREMENT BENEFIT PLANS

The following table provides the components of net periodic benefit cost for pension plans and other employee-related benefit plans for the three months ended March 31, 2015 and 2014.

| | 2015 | | | 2014 | | |
|----------------------------------------------|---------|-------------------|--------|---------|-------------------|--------|
| Three Months Ended March 31 | Pension | Other Benefits | Total | Pension | Other Benefits | Total |
| Service cost | \$1.3 | \$0.2 | \$1.5 | \$1.2 | \$0.5 | \$1.7 |
| Interest cost | 3.6 | 1.2 | 4.8 | 3.9 | 2.0 | 5.9 |
| Expected return on plan assets | (5.1) | (0.2) | (5.3) | (5.2) | (0.2) | (5.4) |
| Amortization of prior service cost (benefit) | 0.2 | (2.7) | (2.5) | 0.2 | (1.5) | (1.3) |
| Amortization of net actuarial loss | 2.1 | 1.1 | 3.2 | 1.6 | 0.7 | 2.3 |
| Total net periodic benefit cost | \$2.1 | \$(0.4) | \$1.7 | \$1.7 | \$1.5 | \$3.2 |

During the three months ended March 31, 2015 and 2014, we made contributions to our global postretirement plans of \$2.6 and \$2.1, respectively. We expect to make contributions of approximately \$10 to \$15 to our global postretirement plans during the remainder of 2015, principally related to other postretirement employee benefit plans.

During the three months ended March 31, 2015 and 2014, \$0.5 and \$0.6, net of tax, respectively, was amortized from accumulated other comprehensive income into earnings related to prior service cost and net actuarial loss. No other reclassifications from accumulated other comprehensive income into earnings were recognized during any of the presented periods.

NOTE 15

LONG-TERM INCENTIVE EMPLOYEE COMPENSATION

Our long-term incentive plan (LTIP) costs are primarily recorded within general and administrative expenses. The following table provides the components of LTIP costs for the three months ended March 31, 2015 and 2014.

| For the Three Months Ended March 31 | 2015 | 2014 |
|----------------------------------------|-------|-------|
| Equity based awards | \$3.1 | \$3.3 |
| Liability-based awards | 0.2 | 0.1 |
| Total share-based compensation expense | \$3.3 | \$3.4 |

At March 31, 2015, there was estimated unrecognized compensation cost of \$32.9 related to unvested equity-based awards that is expected to be recognized ratably over a weighted-average period of 2.4 years, and \$2.3 related to unvested liability-based awards that are expected to be recognized ratably over a weighted-average period of 1.9 years.

During the three months ended March 31, 2015, we granted the following LTIP awards as provided in the table below:

| | # of Awards Granted | Grant Date Fair Value |
|------------------------------------------|------------------------|--------------------------|
| Non-qualified stock options (NQOs) | 0.2 | \$ 11.23 |
| Restricted stock units (RSUs) | 0.2 | \$41.52 |
| Total shareholder return awards (TSR) | 0.1 | \$45.67 |
| Return on invested capital awards (ROIC) | 0.1 | \$40.12 |

The NQOs vest either on the completion of a three-year service period or annually in three equal installments, as determined by employee level, and have a ten-year expiration period. RSUs, TSR awards, and ROIC awards vest on the completion of a three-year service period.

During the three months ended March 31, 2015 and 2014, 0.1 and 0.5 stock options were exercised resulting in proceeds of \$2.0 and \$9.0, respectively. In addition, restricted stock units of 0.2 vested and were issued during both the three months ended March 31, 2015 and 2014.

The fair value of each NQO grant was estimated on the date of grant using a binomial lattice pricing model that incorporates multiple and variable assumptions over time, including assumptions such as employee exercise patterns, stock price volatility and changes in dividends. The following table details the weighted average assumptions used to measure fair value and the resulting grant date fair value for the first quarter 2015 NQO grants.

| | |
|-----------------------|-----------|
| Dividend yield | 1.1% |
| Expected volatility | 29.4% |
| Expected life | 5.8 years |
| Risk-free rates | 1.7% |
| Grant date fair value | \$11.23 |

NOTE 16

CAPITAL STOCK

On October 27, 2006, a three-year \$1 billion share repurchase program was approved by our Board of Directors (2006 Share Repurchase Program). On December 16, 2008, the provisions of the share repurchase program were modified by our Board of Directors to replace the original three-year term with an indefinite term. We repurchased 2.0 shares of common stock for \$80.0 during the three months ended March 31, 2015 under this program. We did not repurchase any shares of common stock during the three months ended March 31, 2014. To date, under the 2006 Share Repurchase Program, the Company has repurchased 18.4 shares for \$759.3.

Separate from the 2006 Share Repurchase Program, the Company repurchased 0.1 shares and 0.1 shares for an aggregate price of \$3.6 and \$4.8, during the three months ended March 31, 2015 and 2014, respectively, in settlement of employee tax withholding obligations due upon the vesting of restricted stock units.

NOTE 17

COMMITMENTS AND CONTINGENCIES

From time to time, we are involved in legal proceedings that are incidental to the operation of our businesses. Some of these proceedings allege damages relating to environmental exposures, intellectual property matters, copyright infringement, personal injury claims, employment and employee benefit matters, government contract issues and commercial or contractual disputes and acquisitions or divestitures. We will continue to aggressively defend all such claims. Although the ultimate outcome of any legal matter cannot be predicted with certainty, based on present information including our assessment of the merits of the particular claim, as well as our current reserves and insurance coverage, we do not expect that such legal proceedings will have a material adverse impact on our financial statements, unless otherwise noted below.

Asbestos Matters

ITT, including its subsidiary Goulds Pumps, Inc., has been sued, along with many other companies in product liability lawsuits alleging personal injury due to asbestos exposure. These claims generally allege that certain products sold by us or our subsidiaries prior to 1985 contained a part manufactured by a third party (e.g., a gasket) which contained asbestos. To the extent these third-party parts may have contained asbestos, it was encapsulated in the gasket (or other) material and was non-friable. As of March 31, 2015, there were 47 thousand pending active claims against ITT, including Goulds Pumps, filed in various state and federal courts alleging injury as a result of exposure to asbestos.

Activity related to these asserted asbestos claims during the period was as follows:

| For the Three Months Ended March 31 (in thousands) | 2015 | 2014 |
|----------------------------------------------------|------|------|
| Pending claims – Beginning | 62 | 79 |
| New claims | 1 | 1 |
| Settlements | — | (2) |
| Dismissals | (3) | (9) |
| Pending claims – Ending | 60 | 69 |
| Pending inactive claims ^(a) | 13 | 18 |
| Pending active claims | 47 | 51 |

- (a) Inactive claims represent pending claims in Mississippi filed in 2004 or prior, which have been excluded from our asbestos measurement because the plaintiffs cannot demonstrate a significant compensable loss. As such, management believes these claims have little-to-no value. There were no inactive claims dismissed or settled during the first quarter of 2015 or 2014.

Frequently, plaintiffs are unable to identify any ITT or Goulds Pumps product as a source of asbestos exposure. Our experience to date is that a majority of resolved claims are dismissed without any payment from the Company. Management believes that a large majority of the pending claims have little or no value. In addition, because claims are sometimes dismissed in large groups, the average cost per resolved claim can fluctuate significantly from period to period. ITT expects more asbestos-related suits will be filed in the future, and ITT will continue to aggressively defend or seek a reasonable resolution, as appropriate.

Asbestos litigation is a unique form of litigation. Frequently, the plaintiff sues a large number of defendants and does not state a specific claim amount. After filing of the complaint, the plaintiff engages defendants in settlement negotiations to establish a settlement value based on certain criteria, including the number of defendants in the case. Rarely do the plaintiffs seek to collect all damages from one defendant. Rather, they seek to spread the liability, and thus the payments, among many defendants. As a result of this and other factors, the Company is unable to estimate the maximum potential exposure to pending claims and claims estimated to be filed over the next 10 years.

Estimating our exposure to pending asbestos claims and those that may be filed in the future is subject to significant uncertainty and risk as there are multiple variables that can affect the timing, severity, quality, quantity and resolution of claims. Any predictions with respect to the variables impacting the estimate of the asbestos liability and related asset are subject to even greater uncertainty as the projection period lengthens. In light of the uncertainties and variables inherent in the long-term projection of the Company's asbestos exposures, although it is probable that the Company will incur additional costs for asbestos claims filed beyond the next 10 years, which additional costs may be material, we do not believe there is a reasonable basis for estimating those costs at this time.

The asbestos liability and related receivables reflect management's best estimate of future events. However, future events affecting the key factors and other variables for either the asbestos liability or the related receivables could cause actual costs or recoveries to be materially higher or lower than currently estimated. Due to these uncertainties, as well as our inability to reasonably estimate any additional asbestos liability for claims which may be filed beyond the next 10 years, it is not possible to predict the ultimate cost of resolving all pending and unasserted asbestos claims. We believe it is possible that future events affecting the key factors and other variables within the next 10 years, as well as the cost of asbestos claims filed beyond the next 10 years, net of expected recoveries, could have a material adverse effect on our financial statements.

Income Statement Charges

As part of our ongoing review of our net asbestos exposure, each quarter we assess the most recent qualitative and quantitative data available for the key inputs and assumptions, comparing the data to the expectations on which the most recent annual liability and asset estimates were based. Based on this evaluation, the Company determined that no change in the estimate was warranted for the period ended March 31, 2015 other than the incremental accrual to maintain a rolling 10-year forecast period. The net asbestos charge for the three months ended March 31, 2015 and 2014 was \$15.4 and \$15.8, respectively.

Changes in Financial Position

The Company's estimated asbestos exposure, net of expected recoveries, for the resolution of all pending claims and claims estimated to be filed in the next 10 years was \$758.3 and \$746.8 as of March 31, 2015 and December 31, 2014, respectively. The following table provides a rollforward of the estimated asbestos liability and related assets for the three months ended March 31, 2015.

| | Liability | Asset | Net |
|---------------------------------|------------|----------|----------|
| Balance as of December 31, 2014 | \$ 1,223.2 | \$ 476.4 | \$ 746.8 |
| Asbestos provision | 18.1 | 2.7 | 15.4 |
| Net cash activity | (14.9) | (11.0) | (3.9) |
| Balance as of March 31, 2015 | \$ 1,226.4 | \$ 468.1 | \$ 758.3 |
| Current portion | \$ 105.7 | \$ 102.3 | |
| Noncurrent portion | \$ 1,120.7 | \$ 365.8 | |

Environmental

In the ordinary course of business, we are subject to federal, state, local, and foreign environmental laws and regulations. We are responsible, or are alleged to be responsible, for ongoing environmental investigation and site remediation. These sites are in various stages of investigation and/or remediation and in many of these proceedings our liability is considered de minimis. We have received notification from the U.S. Environmental Protection Agency, and from similar state and foreign environmental agencies, that a number of sites formerly or currently owned and/or operated by ITT, and other properties or water supplies that may be or have been impacted from those operations, contain disposed or recycled materials or wastes and require environmental investigation and/or remediation. These sites include instances where we have been identified as a potentially responsible party under federal and state environmental laws and regulations.

The following table provides a rollforward of the estimated environmental liability and related assets for the three months ended March 31, 2015.

| | Liability | Asset | Net |
|-----------------------------------------------|-----------|--------|--------|
| Balance as of December 31, 2014 | \$89.9 | \$7.7 | \$82.2 |
| Change in estimates for pre-existing accruals | 0.2 | — | 0.2 |
| Net cash activity | (4.4) | (0.2) | (4.2) |
| Foreign currency | (0.3) | — | (0.3) |
| Balance as of March 31, 2015 | \$85.4 | \$7.5 | \$77.9 |

We are currently involved with 52 active environmental investigation and remediation sites. At March 31, 2015, we have estimated the potential high-end liability range of environmental-related matters to be \$152.

As actual costs incurred at identified sites in future periods may vary from our current estimates given the inherent uncertainties in evaluating environmental exposures, management believes it is possible that the outcome of these uncertainties may have a material adverse effect on our financial statements.

NOTE 18

SUBSEQUENT EVENTS

Acquisition of Hartzell Aerospace

Early in the second quarter of 2015, we completed the acquisition of Hartzell Aerospace (Hartzell) for a purchase price of \$53.1, net of cash acquired, that was funded through additional commercial paper borrowings. Hartzell, which reported 2014 revenues of \$34, designs and manufactures products to support aerospace applications, featuring a differentiated portfolio of environmental control system components and an established aftermarket business. Hartzell employs approximately 240 employees at its two facilities in California. The acquisition will be reported within the Control Technologies segment and complements the ITT aerospace growth platform, with customer and sales channel alignment and key high-growth and next-generation platform expansion opportunities.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(In millions, except per share amounts, unless otherwise stated)

OVERVIEW

ITT Corporation is a diversified manufacturer of highly engineered critical components and customized technology solutions for the energy, transportation and industrial markets. Building on our heritage of engineering, we partner with our customers to deliver enduring solutions to the key industries that underpin our modern way of life. We manufacture components that are integral to the operation of systems and manufacturing processes in our key markets. Our products provide enabling functionality for applications where reliability and performance are critically important to our customers and the users of their products.

Our businesses share a common, repeatable operating model. Each business applies technology and engineering expertise to solve our customer's most pressing challenges. Our applied engineering aptitude enables a tight business fit with our customers given the critical nature of their applications. This in turn provides us with a unique insight to our customer's requirements and enables us to develop solutions to assist our customers in achieving their business goals. Our technology and customer intimacy in tandem produce opportunities to capture recurring revenue streams, aftermarket opportunities, and long lived original equipment manufacturer (OEM) platforms.

Our product and service offerings are organized into four segments: Industrial Process, Motion Technologies, Interconnect Solutions, and Control Technologies. See Note 3, Segment Information, in this Report for a summary description of each segment. Additional information is also available in our 2014 Annual Report within Part I, Item 1, "Description of Business".

DISCUSSION OF FINANCIAL RESULTS

Three Months Ended March 31

| For the Periods Ended March 31 | Three Months | | |
|--------------------------------------------|--------------|---------|----------|
| | 2015 | 2014 | Change |
| Revenue | \$588.7 | \$674.5 | (12.7%) |
| Gross profit | 199.0 | 214.8 | (7.4%) |
| Gross margin | 33.8 | % 31.8 | % 200bp |
| Operating expenses | 141.1 | 166.5 | (15.3%) |
| Expense to revenue ratio | 24.0 | % 24.7 | % (70)bp |
| Operating income | 57.9 | 48.3 | 19.9% |
| Operating margin | 9.8 | % 7.2 | % 260bp |
| Income tax expense | 18.1 | 13.0 | 39.2% |
| Effective tax rate | 31.9 | % 27.5 | % 440bp |
| Net income attributable to ITT Corporation | 42.1 | 32.2 | 30.7% |

All comparisons to the prior year included within Management's Discussion and Analysis of Financial Condition and Results of Operations refer to the quarter ended March 31, 2014, unless stated otherwise.

Executive Summary

During the first quarter of 2015, we recognized revenue of \$588.7 reflecting a decrease of \$85.8, or 12.7%, primarily related to the impact of unfavorable foreign currency translation of \$50.6. On an organic basis, revenue was down 5.2% compared to the prior year, reflecting challenging conditions across the industrial and oil and gas markets. Revenue derived within the transportation market was also down slightly as weakness in the aerospace and defense markets was partially offset by revenue growth from strength in global OEM automotive brake pads.

Orders received during the first quarter of 2015 were \$607.7 reflecting a decrease of \$90.0, or 12.9%, including a \$54.3 unfavorable impact from foreign currency translation. Organic orders declined 5.1% primarily due to lower order activity for highly engineered project pumps related to challenging conditions within the oil and gas, chemical and industrial markets, as well as weak connector demand across all markets. The impact of these challenging

conditions was partially offset by our continued strength in gaining placement on new global OEM automotive platforms.

Operating income increased 19.9%, to \$57.9, during the first quarter of 2015 versus the same prior year period. The higher operating income reflects lower restructuring costs, the benefit of past restructuring and Lean initiatives and focused cost containment efforts. These benefits outweighed the negative impacts from lower sales volume, operational disruptions at Interconnect Solutions associated with the relocation of certain operations to our facility in Nogales, Mexico, and unfavorable foreign currency fluctuations.

Income from continuing operations during the first quarter of 2015 was \$38.7, or \$0.42 per diluted share, representing an increase of \$5.5, or \$0.06 per diluted share, reflecting higher pre-tax income and lower outstanding shares due to our first quarter 2015 share repurchases, partially offset by a higher effective tax rate. Adjusted income from continuing operations was \$59.9, or \$0.65 per diluted share, for the first quarter of 2015, reflecting a \$2.5, or 4.4% increase, over the prior year.

During the first quarter of 2015, we continued to make balanced and effective organic investments, geared towards expanding our brake pad production capacity and systems capabilities. We also returned capital of approximately \$80 to shareholders through share repurchases, and increased our first quarter dividend by 7.5%, which represents the third straight year of dividend increases. We expect to complete an additional \$20 of share repurchases during the remainder of 2015. In addition, we further deployed capital with our acquisition of Hartzell Aerospace in the beginning of the second quarter. This acquisition aligns with our focus to expand our aerospace solutions and complements our Control Technologies portfolio in various ways.

Further details related to these results are contained elsewhere in the Discussion of Financial Results section. Refer to the section titled "Key Performance Indicators and Non-GAAP Measures" for reconciliations between GAAP and non-GAAP metrics.

REVENUE

| For the Three Months Ended March 31 | 2015 | 2014 | Change | Organic Growth ^(a) |
|-------------------------------------|---------|---------|----------|-------------------------------|
| Revenue by segment: | | | | |
| Industrial Process | \$255.6 | \$285.5 | (10.5)% | (6.4)% |

| Revenue | \$588.7 | \$674.5 | (12.7)% | (5.2)% |

(a) See the section titled "Key Performance Indicators and Non-GAAP Measures" for a definition and reconciliation of organic revenue growth.

Industrial Process

Industrial Process revenue for the three months ended March 31, 2015 decreased \$29.9, or 10.5%, including an unfavorable foreign currency translation impact of \$11.6. Organic revenue decreased \$18.4, or 6.4%, primarily due to declines in volume that primarily related to the timing of certain shipments across all markets that moved into the second quarter of 2015. Revenue stemming from the oil and gas market was flat compared to the prior year, as project-related delays and poor market conditions principally in Asia, Latin America, and Russia, were offset by strength in North America and the Middle East from strong prior year order bookings. In addition, included within these markets we experienced higher year-over-year shipments of short-cycle baseline pumps due to a solid backlog entering 2015, as well as growth in our aftermarket parts and monitoring and controls products. However, a 29% decline in revenue related to the project pump business more than offset the strength in baseline pumps and the aftermarket business.

Orders for the three months ended March 31, 2015 were \$262.0, reflecting a decrease of \$34.9, or 11.8%, including an unfavorable foreign currency translation impact of \$14.0. Organic orders decreased \$21.0, or 7.1%, primarily due to the oil and gas market softness and difficult prior year comparisons, which included multiple large-scale highly engineered pump project wins. Similarly, orders within the chemical and industrial markets decreased primarily due to market uncertainty and a large North American order that was received in the first quarter of 2014. Order growth stemming from aftermarket activity partially offset the overall decline.

The level of order and shipment activity related to engineered pumps can vary from period to period, which may affect the year-over-year comparisons. Backlog as of March 31, 2015 was \$601.0, which is consistent with the December 31, 2014 balance, and includes a \$9.1 unfavorable foreign currency translation impact.

Motion Technologies

Motion Technologies revenue for the three months ended March 31, 2015 decreased \$26.6, or 12.2%, as a result of an unfavorable foreign currency translation impact of \$32.8. Organic revenue increased \$6.2 or 2.8%, primarily reflecting strength in original equipment manufacturers (OEM) brake pads across all major geographic regions, associated with past platform wins that are now entering production. In addition, manufacturing efficiencies stemming from our Lean initiative have improved brake pad production rates to record levels for the Friction Technologies business. Sales to original equipment suppliers (OES) were relatively flat as strength in the U.S. and China were offset by a decline in Europe. Sales into the independent aftermarket channel decreased approximately 18% due to timing impacts from our customer's inventory management. Sales from our Koni business were down slightly, reflecting a decline in volume to the China rail market and European truck and trailer market, which was partially offset by sales growth within the U.S. defense market related to our placement on a U.S. military platform.

Orders for the three months ended March 31, 2015 decreased \$26.5, or 11.8%, as a result of unfavorable foreign currency translation impacts of \$34.1. Organic orders increased \$7.6, or 3.4%. Organic orders increased 3.0% at our Friction Technologies business related to our continued strength in winning OEM platforms, partially offset by lower aftermarket orders due to a customer order phasing. Organic orders increased 7.0% in our Koni business primarily due to the placement of our shock absorbers on a new European OEM platform, as well as year-over-year order growth stemming from the European bus market and with our FSD (frequency selective damping) shock absorber product line.

Interconnect Solutions

Interconnect Solutions revenue for the three months ended March 31, 2015 decreased by \$22.5, or 22.5%, including an unfavorable foreign currency translation impact of \$5.6. Organic revenue declined \$16.9, or 16.9%, as sales volumes were down across all market categories. Weakness in the oil and gas and other strategic markets, declining revenue from end-of-life non-strategic connector platforms, and shipment delays due to operational disruptions from the relocation of certain production lines from our Santa Ana facility to our Nogales, Mexico facility were significant factors contributing to the overall decline in sales.

Orders for the three months ended March 31, 2015 decreased \$20.6, or 19.9%, including an unfavorable foreign exchange translation impact of \$5.5. Organic orders decreased \$15.1, or 14.6%, reflecting declines in our non-strategic end-of-life connector programs and demand within the aerospace, defense, and oil and gas connector markets.

Control Technologies

Control Technologies revenue for the three months ended March 31, 2015 decreased by \$7.1, or 9.7%, including an unfavorable foreign currency translation impact of \$0.5. Organic revenue declined \$6.6, or 9.1%, reflecting lower sales at CT Aerospace of 11% and CT Industrial of 7%, each due to lower sales volume. Results from CT Aerospace reflect a number of factors, including the timing of order patterns in our commercial OEM business, program declines in our Enivate product line, a large prior year retro-fit program during the first quarter of 2014, as well as an aerospace aftermarket program that is reaching its end-of-life. Results from CT Industrial primarily reflect project delays in energy absorption projects in China and the overall weakness in the oil and gas market.

Orders for the three months ended March 31, 2015 decreased \$8.4, or 11.3%, including an unfavorable foreign currency translation impact of \$0.7. Organic orders decreased \$7.7, or 10.4%, year-over-year, primarily due to a significant 2014 retro-fit aftermarket aerospace program, as well as softness in general industrial orders due to timing of infrastructure project starts, which were moved into the second quarter of 2015. In addition, the strengthening of the U.S. dollar against the Euro and the Yen has negatively impacted our orders within Europe and Japan.

GROSS PROFIT

The table below provides gross profit and gross margin by segment for the three months ended March 31, 2015 and 2014.

| For the Periods Ended March 31 | Three Months | | Change | |
|--------------------------------|--------------|---------|--------|-----|
| | 2015 | 2014 | | |
| Gross profit: | | | | |
| Industrial Process | \$84.5 | \$87.5 | (3.4 |)% |
| Motion Technologies | 60.6 | 62.0 | (2.3 |)% |
| Interconnect Solutions | 25.3 | 35.5 | (28.7 |)% |
| Control Technologies | 28.4 | 29.5 | (3.7 |)% |
| Corporate and Other | 0.2 | 0.3 | (33.3 |)% |
| Total gross profit | \$199.0 | \$214.8 | (7.4 |)% |
| Gross margin: | | | | |
| Industrial Process | 33.1 | % 30.6 | % 250 | bp |
| Motion Technologies | 31.7 | % 28.5 | % 320 | bp |
| Interconnect Solutions | 32.6 | % 35.5 | % (290 |)bp |
| Control Technologies | 43.2 | % 40.5 | % 270 | bp |
| Consolidated gross margin | 33.8 | % 31.8 | % 200 | bp |

OPERATING EXPENSES

| For the Periods Ended March 31 | Three Months | | Change | |
|--------------------------------------|--------------|---------|--------|----|
| | 2015 | 2014 | | |
| Sales and marketing expenses | \$47.3 | \$55.3 | (14.5 |)% |
| General and administrative expenses | 60.1 | 77.7 | (22.7 |)% |
| Research and development expenses | 18.3 | 17.7 | 3.4 | % |
| Asbestos-related costs, net | 15.4 | 15.8 | (2.5 |)% |
| Total operating expenses | \$141.1 | \$166.5 | (15.3 |)% |
| Total Operating Expenses By Segment: | | | | |
| Industrial Process | \$64.1 | \$63.2 | 1.4 | % |
| Motion Technologies | 19.6 | 21.8 | (10.1 |)% |
| Interconnect Solutions | 20.5 | 38.5 | (46.8 |)% |
| Control Technologies | 14.1 | 14.0 | 0.7 | % |
| Corporate & Other | 22.8 | 29.0 | (21.4 |)% |

Sales and marketing expenses decreased \$8.0 or 14.5% mainly related to a decline in variable costs associated with sales volume.

General and administrative (G&A) expenses decreased \$17.6 or 22.7%, reflecting benefits from past restructuring and Lean initiatives and focused cost control management efforts; lower restructuring costs of \$6 (see Note 4, Restructuring Actions, to the Consolidated Condensed Financial Statements for additional information); and benefits from certain non-recurring operational items, including repositioning-related costs of \$3 incurred during 2014 (repositioning costs reflect certain charges incurred following the 2011 spin-off).

Research and development (R&D) expenses increased \$0.6 or 3.4%, reflecting our continued investment in product development activities. Spending levels at each business segment were relatively consistent with those of the prior year.

Asbestos-related costs, net decreased \$0.4 or 2.5% (see Note 17, Commitments and Contingencies, to the Consolidated Condensed Financial Statements for further information). These costs are consistent with the prior year, as both periods reflect the recognition of net expenses to maintain our rolling 10-year projection of asbestos claims.

OPERATING INCOME

| For the Periods Ended March 31 | Three Months | | | |
|---------------------------------|--------------|---------|--------|-----|
| | 2015 | 2014 | Change | |
| Industrial Process | \$20.4 | \$24.3 | (16.0) |)% |
| Motion Technologies | 41.0 | 40.2 | 2.0 | % |
| Interconnect Solutions | 4.8 | (3.0) | 260.0 | % |
| Control Technologies | 14.3 | 15.5 | (7.7) |)% |
| Segment operating income | 80.5 | 77.0 | 4.5 | % |
| Asbestos-related costs, net | (15.4) | (15.8) | (2.5) |)% |
| Other corporate costs | (7.2) | (12.9) | (44.2) |)% |
| Total corporate and other costs | (22.6) | (28.7) | (21.3) |)% |
| Total operating income | \$57.9 | \$48.3 | 19.9 | % |
| Operating margin: | | | | |
| Industrial Process | 8.0 | % 8.5 | % (50) |)bp |
| Motion Technologies | 21.4 | % 18.5 | % 290 | bp |
| Interconnect Solutions | 6.2 | % (3.0) |)% 920 | bp |
| Control Technologies | 21.7 | % 21.3 | % 40 | bp |
| Segment operating margin | 13.7 | % 11.4 | % 230 | bp |
| Consolidated operating margin | 9.8 | % 7.2 | % 260 | bp |

Industrial Process - operating income decreased \$3.9 or 16.0%; operating margin decreased 50 basis points

The decrease in operating income and margin was primarily the result of restructuring actions initiated during the first quarter of 2015 resulting in an \$8.0 decline in operating income, which were partially offset by the savings generated by these actions. Lower sales volumes and impacts from pricing pressures unfavorably impacted operating income by approximately \$6, but were almost entirely offset by favorable transactional impacts from foreign currency, net savings from Lean, sourcing, and cost control initiatives, and \$5 from a favorable product warranty resolution.

Motion Technologies - operating income increased \$0.8 or 2.0%; operating margin increased 290 basis points

Benefits from higher sales volume and net savings from Lean and sourcing initiatives, including notable productivity improvements at our Wuxi, China facility, that were almost entirely offset by the impacts of unfavorable foreign currency fluctuations of approximately \$7 and higher investment costs related to capacity expansion projects.

Interconnect Solutions - operating income increased \$7.8 or 260%; operating margin increased 920 basis points

The increase in operating income reflects lower restructuring costs of \$14.7 and the current period savings associated with prior year restructuring actions. Operating income was unfavorably impacted by approximately \$12 due a decline in sales volume from challenging market conditions as well from shipment delays and incremental costs related to operational disruptions from the relocation of certain production lines from our Santa Ana facility to our Nogales, Mexico facility. In addition, operating income reflects benefits from changes in sales mix and net savings from Lean, sourcing, and cost control initiatives.

Control Technologies - operating income decreased \$1.2 or 7.7%; operating margin increased 40 basis points

The decrease in operating income primarily stemmed from overall decreased sales volumes and an unfavorable change in sales mix, as well as higher strategic incremental investment costs. These items were partially offset by net savings from lean and sourcing initiatives and cost control management actions.

Other Corporate Costs - improved by \$5.7 or 44.2%

The decline in other corporate costs reflects lower investment-related expenditures versus the prior year, principally the strengthening of our Human Resource capabilities that took place during 2014 and costs associated with a company-wide culture initiative that launched during the first quarter of 2014. In addition, other corporate costs improved due to lower departmental spending related to cost control actions, as well as favorable impacts in corporate-owned life insurance assets and lower expense for environmental-related matters.

INCOME TAX EXPENSE

For the three months ended March 31, 2015 and 2014, the Company recognized income tax expense of \$18.1 and \$13.0, respectively, representing an effective tax rate of 31.9% and 27.5%. The higher effective tax rate in 2015 is primarily driven by a pre-tax loss from operations in Germany for which no income tax benefit is recorded. The Company continues to benefit from earnings eligible for the tax holiday in Korea, as well as a larger earnings mix in non-U.S. jurisdictions with favorable tax rates.

The Company operates in various tax jurisdictions and is subject to examination by tax authorities in these jurisdictions. The Company is currently under examination in several jurisdictions including Germany, Italy, Korea, the United Kingdom and the U.S. The U.S. federal income tax audit for the years 2009 through 2011 has received Joint Committee on Taxation review. We anticipate that we will receive the final audit report within the current year. The calculation of our tax liability for unrecognized tax benefits includes dealing with uncertainties in the application of complex tax laws and regulations in various tax jurisdictions. Due to the complexity of some uncertainties, the ultimate resolution may result in a payment that is materially different from our current estimate of the unrecognized tax benefit. The settlement of an examination could result in changes in amounts attributable to us through the Tax Matters Agreement entered into with Exelis and Xylem at the time of the 2011 spin-off. Over the next twelve months, the net amount of the tax liability for unrecognized tax benefits in foreign and domestic jurisdictions could change by approximately \$86.6 due to changes in audit status, expiration of statutes of limitations and other events.

INCOME FROM DISCONTINUED OPERATIONS, NET OF TAX

For the three months ended March 31, 2015 the Company recognized income from discontinued operations of \$3.4 principally relating to a tax audit in Germany associated with an entity that was part of the 2011 spin-off. For the three months ended March 31, 2014 the Company recognized a loss from discontinued operations of \$1.0 due to costs incurred related to certain legacy liabilities.

LIQUIDITY

Funding and Liquidity Strategy

Our funding needs are monitored and strategies are executed to meet overall liquidity requirements, including the management of our capital structure on both a short- and long-term basis. We expect to fund our ongoing working capital, capital expenditures, dividends, and financing requirements through cash flows from operations and cash on hand or by accessing the commercial paper market. If our access to the commercial paper market were adversely affected, we believe that alternative sources of liquidity, including our 2014 Revolving Credit Agreement, described below, would be sufficient to meet our short-term funding requirements.

We manage our worldwide cash requirements considering available funds among the many subsidiaries through which we conduct business and the cost effectiveness with which those funds can be accessed. We have identified and continue to look for opportunities to access cash balances in excess of local operating requirements to meet global liquidity needs in a cost-efficient manner. A majority of our cash and cash equivalents is held by our international subsidiaries. We have, and plan to, transfer cash between certain international subsidiaries and the U.S. and other international subsidiaries when it is cost effective to do so. Our intent is generally to indefinitely reinvest these funds outside of the U.S. consistent with our overall intention to support growth and expand in markets outside the U.S. through the development of products, increased non-U.S. capital spending, and potentially acquire foreign businesses. However, we have determined that certain undistributed foreign earnings generated in Luxembourg, Japan, Hong Kong, and South Korea should not be considered permanently reinvested outside of the U.S. Net cash distributions from foreign countries amounted to \$138.5 during 2014. There were no net cash distributions from foreign countries during the three months ended March 31, 2015. The timing and amount of additional future remittances, if any, remains under evaluation.

The amount and timing of dividends payable on our common stock are within the sole discretion of our Board of Directors and will be based on, and affected by, a number of factors, including our financial position and results of operations, available cash, expected capital spending plans, prevailing business conditions, and other factors the Board of Directors deems relevant. Therefore, there can be no assurance as to what level of dividends, if any, will be paid in the future. In the first quarter of 2015, we declared a dividend of \$0.1183 per share for shareholders of record on March 13, 2015, which was paid on April 1, 2015. The first quarter 2015 dividend reflects a 7.5% increase from the prior year.

Significant factors that affect our overall management of liquidity include our credit ratings, the adequacy of commercial paper and supporting bank lines of credit, and the ability to attract long-term capital on satisfactory

terms. We assess these factors along with current market conditions on a continuous basis, and as a result, may alter the mix of our short- and long-term financing when it is advantageous to do so.

We access the commercial paper market to supplement the cash flows generated internally to provide additional short-term funding for strategic investments and other funding requirements. We manage our short-term liquidity through the use of our commercial paper program by adjusting the level of commercial paper borrowings as opportunities to deploy additional capital arise and it is cost effective to do so. As of March 31, 2015, we had an outstanding commercial paper balance of \$113.5 and averaged an outstanding balance of \$16.8 during the first quarter of 2015. There have been no other material changes that have impacted our funding and liquidity capabilities since December 31, 2014.

Credit Facilities

On November 25, 2014, we refinanced our existing credit facility with a new five-year revolving \$500 credit agreement (the 2014 Revolving Credit Agreement). The 2014 Revolving Credit Agreement provides for increases in principal of up to \$200 for a possible maximum total of \$700 in aggregate principal amount, at the request of the Company and with the consent of the institutions providing such increased commitments. The 2014 Revolving Credit Agreement is intended to provide access to additional liquidity and be a source of alternate funding to the commercial paper program, if needed. Our policy is to maintain unused committed bank lines of credit in an amount greater than outstanding commercial paper balances. The provisions of the 2014 Revolving Credit Agreement require that we maintain an interest coverage ratio, as defined, of at least 3.0 times and a leverage ratio, as defined, of not more than 3.0 times. At March 31, 2015, we had no amounts outstanding under the 2014 Revolving Credit Agreement and our interest coverage ratio and leverage ratio were within the prescribed thresholds. In the event of certain ratings downgrades, the direct and indirect significant U.S. subsidiaries of the Company would be required to guarantee the obligations under the credit facility.

Sources and Uses of Liquidity

Our principal source of liquidity is our cash flow generated from operating activities, which provides us with the ability to meet the majority of our short-term funding requirements. The following table summarizes net cash derived from operating, investing, and financing activities from continuing operations, as well as net cash derived from discontinued operations, for the three months ended March 31, 2015 and 2014.

| For the Three Months Ended March 31 | 2015 | 2014 |
|------------------------------------------------|-----------|-----------|
| Operating activities | \$8.2 | \$(13.2) |
| Investing activities | (40.0) | 26.5 |
| Financing activities | 34.0 | (3.4) |
| Foreign exchange | (15.8) | (1.7) |
| Total net cash flow from continuing operations | (13.6) | 8.2 |
| Net cash from discontinued operations | (0.3) | (0.4) |
| Net change in cash and cash equivalents | \$(13.9) | \$7.8 |

Net cash provided by operating activities was \$8.2 for the three months ended March 31, 2015, representing an increase of \$21.4, or 162.1%, from the prior year. Segment operating income provided approximately \$3.5 of additional cash, after adjustment for non-cash charges such as depreciation and amortization. Cash activity related to income tax payments, net of refunds, resulted in a net year-over-year increase to cash flow from operations of \$9.7. Changes in working capital balances provided a year-over-year increase of \$19.0, primarily relating to a favorable change in accounts receivable of \$43.3 that was principally driven by differences in the timing of cash collections within Industrial Process. The benefit from accounts receivable was partially offset by a lower year-over-year cash flow benefit related to inventory of \$21.9 primarily within Industrial Process.

Net cash used in investing activities was \$40.0 reflecting an increase of \$66.5, primarily due to maturities of short-term investments (net of purchases) in the prior year that were \$58.2 higher than during 2015. Additionally, capital expenditure spending increased year-over-year by \$11.2, or 58.9%, primarily within Interconnect Solutions, related to the implementation of a new enterprise resource planning system and the production move from our Santa Ana facility to Nogales, Mexico facility; and within Motion Technologies, related to capacity expansion projects.

Net cash provided by financing activities was \$34.0 reflecting an increase of \$37.4 for the three months ended March 31, 2015, primarily due to higher year-over-year net commercial paper borrowings of \$124.5, which was partially

offset by an increase in repurchases of ITT common stock of \$78.0. Additionally, cash received from the exercise of employee stock options declined by \$7.0.

Asbestos

Based on the estimated undiscounted asbestos liability as of March 31, 2015 for claims filed or estimated to be filed over the next 10 years, we have estimated that we will be able to recover approximately 38% of the asbestos indemnity and defense costs from our insurers. Actual insurance reimbursements may vary significantly from period to period and the anticipated recovery rate is expected to decline over time due to gaps in our insurance coverage, reflecting uninsured periods, the insolvency of certain insurers, prior settlements with our insurers, and our expectation that certain insurance policies will exhaust within the next 10 years. In the tenth year of our estimate, our insurance recoveries are currently projected to be 25%. Additionally, future recovery rates may be impacted by other factors, such as future insurance settlements, insolvencies, and judicial determinations relevant to our coverage program, which are difficult to predict and subject to a high degree of uncertainty.

While there are overall limits on the aggregate amount of insurance available to the Company with respect to asbestos claims, with respect to certain coverage, those overall limits were not reached by the estimated liability recorded by the Company at March 31, 2015.

Further, there is uncertainty in estimating when cash payments related to the recorded asbestos liability will be fully expended and such cash payments will continue for a number of years beyond the next 10 years due to the significant proportion of future claims included in the estimated asbestos liability and the delay between the date a claim is filed and when it is resolved. Subject to these inherent uncertainties, it is expected that cash payments related to pending claims and claims to be filed in the next 10 years will extend through approximately 2028.

Although asbestos cash outflows can vary significantly from year to year, our current net cash outflows, net of tax benefits, are projected to average \$15 to \$25 over the next five years, as compared to an average of \$11 over the past three annual periods, and increase to an average of approximately \$40 to \$50 per year over the remainder of the projection period.

In light of the uncertainties and variables inherent in the long-term projection of the Company's asbestos exposures and potential recoveries, although it is probable that the Company will incur additional costs for asbestos claims filed beyond the next 10 years, we do not believe that there is a reasonable basis for estimating the number of future claims, the nature of future claims, or the cost to resolve future claims for years beyond the next 10 years at this time.

Accordingly, no liability or related asset has been recorded for any costs that may be incurred for claims asserted subsequent to 2025.

Due to these uncertainties, as well as our inability to reasonably estimate any additional asbestos liability for claims that may be filed beyond the next 10 years, it is not possible to predict the ultimate outcome of the cost of resolving the pending and estimated unasserted asbestos claims. We believe it is possible that the future events affecting the key factors and other variables within the next 10 years, as well as the cost of asbestos claims filed beyond the next 10 years, net of expected recoveries, could have a material adverse effect on our financial statements.

KEY PERFORMANCE INDICATORS AND NON-GAAP MEASURES

Management reviews a variety of key performance indicators including revenue, segment operating income and margins, earnings per share, orders growth, and backlog, among others. In addition, we consider certain measures to be useful to management and investors when evaluating our operating performance for the periods presented. These measures provide a tool for evaluating our ongoing operations and management of assets from period to period. This information can assist investors in assessing our financial performance and measures our ability to generate capital for deployment among competing strategic alternatives and initiatives, including, but not limited to, acquisitions, dividends, and share repurchases. These metrics, however, are not measures of financial performance under accounting principles generally accepted in the United States of America (GAAP) and should not be considered a substitute for measures determined in accordance with GAAP. We consider the following non-GAAP measures, which may not be comparable to similarly titled measures reported by other companies, to be key performance indicators:

“organic revenue” and “organic orders” are defined as revenue and orders, excluding the impacts of foreign currency fluctuations and acquisitions and divestitures made during the current year. Divestitures include sales of portions of our business that did not meet the criteria for presentation as a discontinued operation. The period-over-period change resulting from foreign currency fluctuations is estimated using a fixed exchange rate for both the current and prior periods. A reconciliation of organic revenue from revenue for the quarter ended March 31, 2015 is provided below.

| Three Months Ended March 31 | Industrial Process | Motion Technologies | Interconnect Solutions | Control Technologies | Eliminations | Total ITT | % Change | |
|-------------------------------------|-----------------------|------------------------|---------------------------|-------------------------|--------------|--------------|----------|---|
| 2014 Revenue | \$285.5 | \$217.8 | \$100.0 | \$72.9 | \$(1.7) | \$674.5 | | |
| Organic growth | (18.4) | 6.2 | (16.9) | (6.6) | 0.4 | (35.3) | (5.2) | % |
| Acquisitions/(divestitures), net | 0.1 | — | — | — | — | 0.1 | — | % |
| Foreign currency translation | (11.6) | (32.8) | (5.6) | (0.5) | (0.1) | (50.6) | (7.5) | % |
| Total change in revenue | (29.9) | (26.6) | (22.5) | (7.1) | 0.3 | (85.8) | (12.7) | % |
| 2015 Revenue | \$255.6 | \$191.2 | \$77.5 | \$65.8 | \$(1.4) | \$588.7 | | |

A reconciliation of organic orders for the quarter ended March 31, 2015 is provided below:

| Three Months Ended March 31 | Industrial Process | Motion Technologies | Interconnect Solutions | Control Technologies | Eliminations | Total ITT | % Change | |
|-------------------------------------|-----------------------|------------------------|---------------------------|-------------------------|--------------|--------------|----------|---|
| 2014 Orders | \$296.9 | \$224.6 | \$103.6 | \$74.1 | \$(1.5) | \$697.7 | | |
| Organic growth | (21.0) | 7.6 | (15.1) | (7.7) | 0.4 | (35.8) | (5.1) | % |
| Acquisitions/(divestitures), net | 0.1 | — | — | — | — | 0.1 | — | % |
| Foreign currency translation | (14.0) | (34.1) | (5.5) | (0.7) | — | (54.3) | (7.8) | % |
| Total change in orders | (34.9) | (26.5) | (20.6) | (8.4) | 0.4 | (90.0) | (12.9) | % |
| 2015 Orders | \$262.0 | \$198.1 | \$83.0 | \$65.7 | \$(1.1) | \$607.7 | | |

“adjusted segment operating income” is defined as operating income, adjusted to exclude special items that include, but are not limited to, restructuring and asset impairment charges, transformation costs, repositioning costs, acquisition-related expenses, and other unusual or infrequent operating items. Special items represent significant charges or credits that impact current results, but may not be related to the Company's ongoing operations and performance.

Reconciliations of segment operating income to adjusted segment operating income for the three months ended March 31, 2015 and 2014, are provided in the tables below.

| Three Months Ended March 31, 2015 | Industrial Process | Motion Technologies | Interconnect Solutions | Control Technologies | Total Segment |
|-----------------------------------|-----------------------|------------------------|---------------------------|-------------------------|------------------|
| Segment operating income | \$20.4 | \$41.0 | \$4.8 | \$14.3 | \$80.5 |
| Restructuring costs | 8.9 | — | (0.2) | 0.5 | 9.2 |
| Adjusted segment operating income | \$29.3 | \$41.0 | \$4.6 | \$14.8 | \$89.7 |

| Three Months Ended March 31, 2014 | Industrial Process | Motion Technologies | Interconnect Solutions | Control Technologies | Total Segment |
|----------------------------------------|--------------------|---------------------|------------------------|----------------------|---------------|
| Segment operating income | \$24.3 | \$ 40.2 | \$(3.0) | \$ 15.5 | \$77.0 |
| Restructuring costs | 0.9 | — | 14.4 | — | 15.3 |
| Transformation and repositioning costs | 0.1 | — | 0.2 | — | 0.3 |
| Other | (0.5) | — | 0.5 | — | — |
| Adjusted segment operating income | \$24.8 | \$ 40.2 | \$12.1 | \$ 15.5 | \$92.6 |

“adjusted income from continuing operations” and “adjusted income from continuing operations per diluted share” are defined as income from continuing operations attributable to ITT Corporation and income from continuing operations attributable to ITT Corporation per diluted share, adjusted to exclude special items that include, but are not limited to, asbestos-related costs, transformation costs, repositioning costs, restructuring and asset impairment charges, acquisition-related expenses, income tax settlements or adjustments, and other unusual or infrequent non-operating items. Special items represent significant charges or credits, on an after-tax basis, that impact current results, but may not be related to the Company's ongoing operations and performance.

A reconciliation of adjusted income from continuing operations, including adjusted income from continuing operations per diluted share, is provided below.

| | Three Months | |
|-------------------------------------------------------------------------------------|--------------|--------|
| For the Three Months Ended March 31 | 2015 | 2014 |
| Income from continuing operations attributable to ITT Corporation | \$38.7 | \$33.2 |
| Net asbestos-related costs, net of tax | 9.7 | 10.0 |
| Restructuring costs, net of tax | 8.7 | 9.7 |
| Tax-related special items ^(a) | 2.7 | 2.6 |
| Other special items, net of tax | 0.1 | 1.9 |
| Adjusted income from continuing operations | \$59.9 | \$57.4 |
| Income from continuing operations attributable to ITT Corporation per diluted share | \$0.42 | \$0.36 |
| Adjusted income from continuing operations per diluted share | \$0.65 | \$0.62 |

The special items, presented net of tax, above include an aggregate net tax benefit of \$6.3 and \$12.6 for the three months ended 2015 and 2014, respectively.

Tax-related special items for the three months ended March 31, 2015 primarily relate to deemed distributions of (a) foreign earnings. Tax-related special items for the three months ended March 31, 2014 primarily relate to the impacts from a change in NY state income tax law and on deemed distribution of foreign earnings.

“adjusted free cash flow” is defined as net cash provided by operating activities less capital expenditures, adjusted for cash payments for restructuring actions, transformation costs, repositioning costs, net asbestos cash flows and other significant items that impact current results which management believes are not related to our ongoing operations and performance. Due to other financial obligations and commitments, the entire free cash flow may not be available for discretionary purposes. A reconciliation of adjusted free cash flow is provided below.

| For the Three Months Ended March 31 | 2015 | 2014 |
|--------------------------------------------------------|----------|-----------|
| Net cash provided by operating activities | \$8.2 | \$(13.2) |
| Capital expenditures ^(b) | (30.0) | (19.0) |
| Restructuring cash payments | 6.6 | 5.8 |
| Net asbestos cash flows | 3.9 | 2.5 |
| Transformation, repositioning, and other cash payments | 2.2 | 4.6 |
| Adjusted free cash flow | \$(9.1) | \$(19.3) |

Capital expenditures represent capital expenditures as reported in the Consolidated Condensed Statement of Cash Flows, less capital expenditures associated with transformation and repositioning activities. Capital expenditures associated with transformation and repositioning activities were \$0.2 and \$0 during the three months ended March 31, 2015 and 2014, respectively.

RECENT ACCOUNTING PRONOUNCEMENTS

See Note 2 to the Consolidated Condensed Financial Statements for information on recent accounting pronouncements.

CRITICAL ACCOUNTING ESTIMATES

The preparation of ITT's financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. ITT believes the most complex and sensitive judgments, because of their significance to the Consolidated Condensed Financial Statements, result primarily from the need to make estimates about the effects of matters that are inherently uncertain. Management's Discussion and Analysis in the 2014 Annual Report describes the critical accounting estimates that are used in preparation of the Consolidated Condensed Financial Statements. Actual results in these areas could differ from management's estimates. There have been no significant changes concerning ITT's critical accounting estimates as described in our 2014 Annual Report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There has been no material change in the information concerning market risk as stated in our 2014 Annual Report.

ITEM 4. CONTROLS AND PROCEDURES

The Chief Executive Officer and Chief Financial Officer of the Company have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, such officers have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective.

There have been no changes in our internal control over financial reporting during the last fiscal quarter that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II. OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

From time to time, we are involved in legal proceedings that are incidental to the operation of our businesses. Some of these proceedings allege damages relating to environmental exposures, intellectual property matters, copyright infringement, personal injury claims, employment and employee benefit matters, government contract issues and commercial or contractual disputes and acquisitions or divestitures. Descriptions of certain legal proceedings to which the Company is a party are contained in Note 17, "Commitments and Contingencies" to the Consolidated Condensed Financial Statements included in Part I, Item 1 of this Report and are incorporated by reference herein. Such descriptions include the following recent developments:

Asbestos Proceedings

ITT, including its subsidiary Goulds Pumps, Inc., has been joined as a defendant with numerous other companies in product liability lawsuits alleging personal injury due to asbestos exposure. These claims allege that certain of our products sold prior to 1985 contained a part manufactured by a third party (e.g., a gasket) which contained asbestos. To the extent these third-party parts may have contained asbestos, it was encapsulated in the gasket (or other) material and was non-friable. Frequently, the plaintiffs are unable to identify any ITT or Goulds Pumps product as a source of asbestos exposure. In addition, a large majority of claims pending against the Company have been placed on inactive dockets because the plaintiff cannot demonstrate a significant compensable loss. Our experience to date is that a substantial portion of resolved claims have been dismissed without payment by the Company.

We record a liability for pending asbestos claims and asbestos claims estimated to be filed over the next 10 years.

While it is probable that we will incur additional costs for future claims to be filed against the Company, a liability for potential future claims beyond the next 10 years is not reasonably estimable due to the uncertainties and variables inherent in the long-term projection of the Company's asbestos exposures and potential recoveries. As of March 31, 2015, we have recorded an undiscounted asbestos-related liability for pending claims and unasserted claims estimated to be filed over the next 10 years of \$1,226.4, including expected legal fees, and an associated asset of \$468.1 which represents estimated recoveries from insurers, resulting in a net asbestos exposure of \$758.3.

ITEM 1A. RISK FACTORS

Reference is made to the risk factors set forth in Part I, Item 1A, "Risk Factors," of our 2014 Annual Report, which are incorporated by reference herein. There has been no material changes with regard to the risk factors disclosed in such report.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

| (IN MILLIONS, EXCEPT PER SHARE AMOUNTS) | TOTAL NUMBER OF SHARES PURCHASED | AVERAGE PRICE PAID PER SHARE ⁽¹⁾ | TOTAL NUMBER OF SHARES PURCHASED AS PART OF PUBLICLY ANNOUNCED PLANS OR PROGRAMS ⁽²⁾ | MAXIMUM DOLLAR VALUE OF SHARES THAT MAY YET BE PURCHASED UNDER THE PLANS OR PROGRAMS ⁽²⁾ |
|--------------------------------------------|-------------------------------------------|------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|
| | | | | |
| PERIOD | | | | |
| 1/1/2015 - 1/31/2015 | — | — | — | \$320.7 |
| 2/1/2015 - 2/28/2015 | 0.2 | \$41.21 | 0.2 | \$313.6 |
| 3/1/2015 - 3/31/2015 | 1.9 | \$40.65 | 1.8 | \$240.7 |

(1) Average price paid per share is calculated on a settlement basis and includes commissions.

On October 27, 2006, our Board of Directors approved a three-year \$1 billion share repurchase program (2006 Share Repurchase Program). On December 16, 2008, our Board of Directors modified the provisions of the 2006 Share Repurchase Program to replace the original three-year term with an indefinite term. As of March 31, 2015, we had repurchased 18.4 shares for \$759.3, including commissions, under the 2006 Share Repurchase Program.

(2) The program is consistent with our capital allocation process, which has centered on those investments necessary to grow our businesses organically and through acquisitions, while also providing cash returns to shareholders. Our strategy for cash flow utilization is to invest in our business, execute strategic acquisitions, pay dividends and repurchase common stock.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

Disclosure pursuant to Section 219 of the Iran Threat Reduction & Syria Human Rights Act (ITRA)

This disclosure is made pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012 which added subsection (r) to section 13 of the Exchange Act (Section 13(r)) requiring a public reporting issuer to disclose in its annual or quarterly reports whether it or any affiliates have knowingly engaged in specified activities or transactions relating to Iran, including activities conducted outside the United States by non-U.S. affiliates in compliance with local law.

In its 2012 Annual Report, ITT described its acquisition of all the shares of Bornemann in November 2012, as well as certain activities of Bornemann in Iran and the wind down of those activities in accordance with a General License issued on December 26, 2012 (the General License) by the Office of Foreign Assets Control (OFAC). As permitted by the General License, on or before March 8, 2013, Bornemann completed the wind-down activities and ceased all activities in Iran. As required to be disclosed by Section 13(r), the gross revenues and operating income to Bornemann from its Iranian activities subsequent to its acquisition by ITT were Euros 2.2 million and Euros 1.5 million, respectively. Prior to its acquisition by ITT, Bornemann issued a performance bond to its Iranian customer in the amount of Euros 1.3 million (the Bond). Bornemann requested that the Bond be canceled prior to March 8, 2013; however, the former customer refused this request and as a result the Bond remains outstanding. Bornemann did not receive gross revenues or operating income, or pay interest, with respect to the performance bond in either 2014 or 2013, however, Bornemann did pay fees in 2014 and 2013 of approximately Euros 11 and 43 thousand, respectively to the German financial institution which is maintaining the performance bond.

ITEM 6. EXHIBITS

(a) See the Exhibit Index for a list of exhibits filed herewith.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned thereunto duly authorized.
