FIRST QUARTER OF FISCAL 2014 FINANCIAL RESULTS

First Quarter Financial Results

Consolidated net sales increased 3.3% worldwide to approximately \$731 million

Knee sales grew 3.5% worldwide, with U.S. growth of 5.0%

Hip sales increased 1.9% worldwide and increased 2.9% in the U.S.

S.E.T. sales grew 17.4% worldwide and grew 18.1% in the U.S., including the impact of two extra weeks of the Trauma Acquisition in the current fiscal quarter

Reported net income totaled \$31.1 million, compared to a net loss of \$31.5 million in the prior year period

Consolidated net sales of \$730.7 million increased 3.3% in the quarter, compared to net sales of \$707.4 million during the first quarter of fiscal year 2013. U.S. net sales increased 3.9% during the fourth quarter to \$469.9 million, while Europe net sales increased 6.0% to \$151.5 million and International (primarily Canada, South America, Mexico and the Pacific Rim) net sales decreased 2.6% to \$109.3 million. On a consolidated basis we had one less selling day during the first quarter of fiscal year 2014, compared to the prior year quarter.

Reported operating income was \$96.4 million during the first quarter of fiscal year 2014, compared to operating income of \$69.0 million during the first quarter of fiscal year 2013.

Reported net income in the quarter was \$31.1 million, compared to a net loss of \$31.5 million during the first quarter of the prior year.

Interest expense decreased to \$87.6 million during the first quarter of fiscal year 2014, compared to \$117.1 million at the end of the first quarter of 2013, primarily due to lower average interest rates on our term loans and lower bond interest as a result of refinancing activities.

Reported cash flow from operations totaled \$50.8 million during the first quarter of fiscal year 2014, compared to reported cash flow from operations of \$85.5 million for the first quarter of fiscal year 2013. The increase in cash interest is a result of a change in timing of interest payments due to our debt refinancing activities.

At August 31, 2013, reported gross debt was \$5,971.8 million, and cash and cash equivalents, as defined in the Company's Amended and Restated Credit Agreement dated August 2, 2012, totaled \$345.4 million.

Recent Refinancing Activities

On September 10, 2013, Biomet retired €167.3 million (\$221.4 million) principal amount of euro-denominated term loans using cash on hand. On September 25, 2013, Biomet completed an \$870.5 million U.S. dollar-denominated term loan offering, the proceeds of which were used to retire the remaining euro-denominated term loan principal balance of €657.7 million (\$870.2 million). Concurrently with the new \$870.5 million U.S. dollar-denominated term loan offering, Biomet also completed a repricing of its existing \$2,111.4 million extended U.S. dollar-denominated term loan to LIBOR + 3.50%. The terms of the new term loan offering are consistent with the existing extended U.S. dollar-denominated term loans. All U.S. dollar translation amounts were translated using the August 31, 2013 exchange rate of 1 euro to \$1.3231.
