DATA I/O REPORTS FIRST QUARTER PROFITS

Redmond, Washington (April 18, 2003) -- Data I/O(R) Corporation (NASDAQ: DAIO) today announced a net income for the first quarter of 2003 of \$317,000, or \$0.04 per share, compared to a net loss of \$1.2 million, or (\$0.15) per share, for the first quarter of 2002. Revenues for the first quarter of 2003 were \$6.2 million, compared to \$5.4 million for the first quarter of 2002, an increase of 14%.

Gross margins increased in dollars and as a percentage of sales for the first quarter of 2003 compared with the same period of 2002, primarily due to the increased sales volume and reduced costs resulting from the Company's restructuring actions taken during the last year and unfavorable inventory reserves recorded in 2002. The first quarter of 2003 included a reversal of previously accrued restructuring charges of \$27,000.

"I am pleased to report Data I/O's return to profitability for a second consecutive quarter. The Company remains in a strong financial position with a cash and short-term investment position of \$6 million and no debt at the end of the first quarter. I am especially pleased that the Company has been able to increase its market share against its competition," stated Fred Hume, President and CEO. "The Company introduced important new products at the APEX trade show earlier this month including a version of ProLINE-RoadRunner to support the Panasonic Panasert placement machines, and microcontroller support on ProLINE FlashCORE programming systems."

Second Quarter 2003 Forward-Looking Statement: Management is committed to long-term profitable growth and has reason to believe that the financial results for the current quarter will be generally in line with the previous quarter. However, there are economic and political forces affecting the Company's customers that could impact the Company's financial performance. For this reason, the Company has decided not to provide specific earnings guidance.

Web-Cast Conference Call: The Company has scheduled a conference call for Wednesday, April 23, 2003 at 1:30 p.m. Pacific Time regarding its first quarter results and a business update for the second quarter that will be broadcast on the web. Please see Data I/O Corporation's web site at "http://www.data-io.com" for details.

Forward-Looking Statements: Statements in this news release concerning future revenues, future results from operations, breakeven operations, financial position, economic conditions, product releases and any other statement that may be construed as a prediction of future performance or events are forward-looking statements which involve known and unknown risks, uncertainties and other factors which may cause actual results to differ materially from those expressed or implied by such statements. These factors include uncertainties as to levels of orders, ability to record revenues based upon the timing of product deliveries and installations, market acceptance of new products, changes in economic conditions and market demand, pricing and other activities by competitors, and other risks including those described from time to time in the Company's filings on Forms 10K and 10Q with the Securities and Exchange Commission (SEC), press releases and other communications.

Corporate Information: Celebrating 30 years of innovative leadership in the device programming industry, Data I/O Corporation provides manual and automated device programming systems that specifically address the requirements of engineering and manufacturing customers. The Company, which is publicly traded (NASDAQ: DAIO), is headquartered in Redmond, Wash., and has sales and service offices worldwide. The Company's worldwide web address is http://www.data-io.com.
