Report of Independent Registered Public Accounting Firm

General Electric Company, as Administrator
GE Savings and Security Program:

We have audited the accompanying statements of net assets available for plan benefits of GE Savings and Security Program (the Plan) as of December 31, 2006 and 2005, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2006 and 2005, and the changes in net assets available for plan benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2006 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

GE SAVINGS AND SECURITY PROGRAM

Notes to Financial Statements

December 31, 2006 and 2005

(1) Description of the Plan

GE Savings and Security Program (the “Plan”) is a defined contribution plan sponsored by General Electric Company. The Plan is subject to applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Trustees of the GE Savings and Security Trust are officers of GE Asset Management Incorporated (“GEAM”), a wholly owned subsidiary of General Electric Company. GEAM is investment adviser to each of the Plan’s investment options, except General Electric Company Common Stock, Vanguard Institutional Index Fund and the United States Savings Bonds. State Street Corporation and The Bank of New York are the primary custodians for Plan assets.

The following description of the Plan is provided for general information purposes only. The complete terms of the Plan are provided in the GE Savings and Security Program document (the “Plan Document”). Additional Plan information including benefits, investment options, vesting provisions and effects of plan termination is included in Plan handbooks and other material distributed to participants.

Employee Contributions and Investment Options

Eligible employees of General Electric Company and participating affiliates may participate in the Plan by investing up to 30% of their earnings in one or more of the following investment options:

- (a) General Electric Company Common Stock (“GE Common Stock”).
- (b) GE S&S Income Fund (the “Income Fund”) – a registered investment company that invests primarily in a variety of investment grade debt securities with a weighted average maturity that is normally about five to ten years.
- (c) GE S&S Program Mutual Fund (the “Mutual Fund”) – a registered investment company that invests primarily in equity securities of U.S. companies.
- (d) GE Institutional International Equity Fund (the “International Fund”) – a registered investment company that invests primarily in equity securities of companies in countries other than the U.S.
- (e) GE Institutional Small-Cap Equity Fund (the “Small Cap Fund”) – a registered investment company that invests primarily in equity securities of small-cap U.S. companies (those with market capitalizations in the same range as the companies in the Russell 2000 Index).
- (f) GE Institutional Strategic Investment Fund (the “Strategic Investment Fund”) – a registered investment company that invests primarily in a combination of equity securities (U.S. and Non-U.S.) and investment grade debt securities.
- (g) Vanguard Institutional Index Fund (the “Index Fund”) – a registered investment company that employs a passive management strategy designed to track the performance of the Standard and Poor’s 500 Index, which is composed primarily of equity securities of large U.S. companies.

GE SAVINGS AND SECURITY PROGRAM

Notes to Financial Statements

December 31, 2006 and 2005

- (h) GE S&S Short-Term Interest Fund (the “Short Term Fund”) – invests primarily in a variety of investment grade debt securities with a weighted average maturity that is normally not more than three years.
- (i) GE S&S Money Market Fund (the “Money Market Fund”) – invests primarily in short-term, U.S. dollar denominated money market instruments and other debt instruments that mature in one year or less.
- (j) United States Savings Bonds (the “U.S. Bond Fund”) – comprises individual participants’ contributions that are directed to U.S. Treasury Series “EE” Savings Bonds, bonds that mature in 30 years. Individual funds being accumulated for bond purchase are invested in short-term instruments. Effective July 1, 1995, only after-tax contributions are permitted to be invested in the U.S. Bond Fund. Bonds acquired with after-tax contributions held by the Trustees shall be distributed to participants as soon as practicable after the end of the second calendar year following the year in which the bonds were acquired. Residual balances that remain after distribution represent after-tax and employer matching contributions from matured bonds that have been reinvested.

Audited financial statements and prospectuses or other disclosure documents of the registered investment companies are distributed annually to participants.

The Plan permits participants to invest earnings on which income taxes have and have not been paid (“after-tax” and “pre-tax”, respectively). The United States Internal Revenue Code limits pre-tax contributions. The limits for participants under age 50 were generally \$15,000 and \$14,000 in 2006 and 2005, respectively. For other participants, the 2006 and 2005 limits were generally \$20,000 and \$18,000, respectively.

The Plan generally permits participants to switch their investment balances up to 24 times each year. Restrictions on such switches include a prohibition against switching balances into the U.S. Bond Fund, a prohibition against switching balances out of U.S Savings Bonds that were purchased after 1988 with after-tax contributions and certain restrictions on a participant’s ability to engage in frequent trading in response to Securities and Exchange Commission (SEC) requirements governing mutual funds.

Employer Contributions

The Plan generally provides for employer matching contributions of 50% of employees’ contributions of up to 7% of their earnings, that is, 3.5% maximum matching contribution. For certain eligible employees whose first day of work was on or after January 1, 2005, such matching contributions are generally 50% of employees’ contributions of up to 8% of earnings (4% maximum). Employer contributions may be invested at the election of the participant in any one of the investment options except for the U.S. Bond Fund.

Rollovers and Transfers from Other Qualifying Plans

Subject to General Electric Company approval, participants may elect to roll over amounts from other qualifying plans or arrangements in accordance with the Internal Revenue Code. For the years ended December 31, 2006 and 2005, transfers from other qualifying plans or arrangements accounted for \$38.0 million and \$49.6 million, respectively, and are included in employee contributions in the Statements of Changes in Net Assets Available for Plan Benefits.

GE SAVINGS AND SECURITY PROGRAM

Notes to Financial Statements

December 31, 2006 and 2005

Withdrawals

Subject to certain limitations prescribed by the Plan and the Internal Revenue Code, terminated participants may elect retirement or other termination withdrawals in either lump sum or partial payments. Currently, employed participants may make up to seven withdrawals per year and certain hardship withdrawals from their participant accounts. Partial payments on termination are generally limited to four per year and a minimum of \$500.

Loans to Participants

The Plan permits participants, under certain circumstances, to borrow a minimum of \$500 from their participant accounts. Subject to certain Internal Revenue Code and Plan limits, a participant may not borrow more than the lesser of 50% of that participant's available account value, as defined in the Plan Document, or \$50,000, adjusted for prior loans. The interest rate applicable to participant loans is based on the monthly average of the composite yield on corporate bonds, published by Moody's Investors Service. The interest rates of individual loans are fixed for the shorter of the term of the loan or five years.

A participant may have no more than two outstanding loans from the Plan at any time and may not obtain more than one such loan during any calendar year.

Loans are repaid with interest in equal payments over the term of the loan by payroll deductions; personal check or other such methods as may be required. Participants may repay the entire principal amount by check with written notice and without penalty beginning three months after the date of the loan.

In the event of a loan default, the Plan will report the outstanding loan balance as a withdrawal.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocation of (a) employer matching contributions and (b) earnings. The benefit to which a participant is entitled is the value of the participant's vested account.

Vesting

Participants are fully vested in their accounts, including employee and employer contributions plus earnings.

Plan Termination and Amendment

Although General Electric Company has not expressed any intent to do so; it has the right under the Plan, to the extent permitted by law, to discontinue its contributions and to terminate the Plan in accordance with the provisions of ERISA. If the Plan is terminated, each participant's interest will be payable in full according to the Plan provisions. General Electric Company also has the right under the Plan to the extent permitted by law to amend or replace the Plan for any reason.

GE SAVINGS AND SECURITY PROGRAM

Notes to Financial Statements

December 31, 2006 and 2005

Administrative and Investment Advisory Costs

Administrative costs of the Plan and investment advisory costs for the Short Term Fund and the Money Market Fund are generally borne by General Electric Company. For the registered investment companies, investment advisers are reimbursed for costs incurred or receive a management fee for providing investment advisory services. These reimbursed costs and management fees are reflected in the interest and dividend income on the Statements of Changes in Net Assets Available for Plan Benefits.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Investments

Plan investments are stated at fair value. GE Common Stock is valued at the New York Stock Exchange closing price. Investments in registered investment companies are valued at the closing net asset value per share as reported on each business day. Long-term U.S. government, agency and corporate debt, notes, bonds, and loans secured by mortgages are valued at current quoted market prices. Loans to participants bear interest at market rates and outstanding principal balance plus accrued interest represents fair value. Short-term money market instruments, U.S. government, agency and corporate notes are valued at amortized cost, which approximates fair value. U.S. Savings Bonds are valued at the respective current cash redemption value published by the U.S. Treasury Department.

Investment transactions are recorded on a trade date basis. Dividends on GE Common Stock are recorded as of the record date. Dividends on the registered investment companies are recorded on the payment date. Interest income is earned from settlement date and recognized on the accrual basis. The net appreciation (depreciation) in the fair value of its investments consists of the realized gains or losses on the sales of investments and the unrealized appreciation (depreciation) of investments.

Investments other than GE Common Stock, the Mutual Fund, the Money Market Fund and the U.S. Bond Fund may use various financial instruments, particularly forward foreign currency contracts, options, and futures, commonly referred to as derivatives, to manage their risk. No investments are engaged in market-making or other speculative activities. Established practices require that derivative financial instruments relate to specific asset, liability, or equity transactions or to currency exposures. More detailed information regarding these financial instruments, as well as the strategies and policies for their use, is contained in the audited financial statements of the eligible investment options, which are distributed annually to participants, except the Short Term Fund whose detailed information is contained in the S&S Program Supplemental Information and distributed annually.

GE SAVINGS AND SECURITY PROGRAM

Notes to Financial Statements

December 31, 2006 and 2005

(c) Participant Withdrawals

Participant withdrawals are recorded when paid.

(d) Management Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(3) Investments

The following is a summary of the fair value of the Plan's investments at December 31, 2006 and 2005:

	2006	2005
	(in thousands)	
GE Common Stock	\$ 16,045,887*	\$ 16,204,610*
Registered Investment Companies		
GE S&S Income Fund	1,750,704*	1,775,493*
GE S&S Program Mutual Fund	2,946,946*	2,597,656*
Other	2,594,040	1,470,637
Total Registered Investment Companies	7,291,690	5,843,786
Other Investments		
Short-Term Money Market Instruments	1,283,429	937,887
U.S. Government and Agency Debt Obligations	794,572	753,751
Loans to Participants	455,632	429,329
Other	469,367	420,727
Total Investments at fair value	\$ 26,340,577	\$ 24,590,090

*Investment representing more than 5% of the Plan's net assets

The Plan's investments appreciated (depreciated) as follows:

	2006	2005
	(in thousands)	
GE Common Stock	\$ 940,201	\$ (662,610)
Registered Investment Companies	435,944	(86,106)

Other investments	3,339	(16,046)
	\$ 1,379,484	\$ (764,762)

- 10 -

GE SAVINGS AND SECURITY PROGRAM

Notes to Financial Statements

December 31, 2006 and 2005

The Short Term Fund may, from time to time, lend securities to certain unrelated brokers. In the event the counterparty does not meet its contracted obligation to return securities used, the Short Term Fund may be exposed to the risk of reacquiring the securities at prevailing market prices in order to satisfy its obligations.

The Short Term Fund receives collateral in the form of cash or securities, which may be supplemented by letters of credit, in an amount generally in excess of the market value of securities loaned. The Short Term Fund monitors the market value of the securities loaned on a daily basis with additional collateral obtained or refunded as necessary. The value of loaned securities, primarily U.S. Treasury obligations, amounted to \$242.0 million and \$136.5 million at December 31, 2006 and 2005, respectively. The value of cash collateral obtained and reinvested in short-term investments is reflected as a liability in the Plan's financial statements.

The Plan's investment funds include investments in U.S. equities, international equities and fixed income securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonable to expect that changes in the values of investment securities will occur (including in the near term) and that such changes could materially affect participant account balances and the Statements of Net Assets Available for Plan Benefits. The Plan offers alternatives that mitigate participant risks, including the opportunity to diversify investments across ten participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into various financial instruments, with the exception of GE Common Stock and the U.S. Bond Fund, which invest in securities of a single issuer.

(4) Tax Status

The Internal Revenue Service has notified General Electric Company by a letter dated June 27, 2006, that the Plan is qualified under the appropriate sections of the Internal Revenue Code. Counsel for the Plan has no reason to believe that any subsequent amendments have adversely affected the validity of the determination letter.

The portion of a participant's compensation contributed to the Plan as a pre-tax contribution and General Electric Company's matching contribution are not subject to Federal income tax when such contributions are credited to participant accounts, subject to certain limitations. These amounts and any investment earnings may be included in the participant's gross taxable income for the year in which such amounts are withdrawn from the Plan.

(5) Plan Amendments

In 2006, the Plan was amended to restrict a participant's ability to engage in frequent trading in response to Securities and Exchange Commission requirements governing mutual funds.

In 2005, the Plan was amended to, among other things, expand the circumstances under which hardship withdrawals made on or after January 1, 2006, are allowed.

Notes to Schedule of Assets:

- * Cost of securities, including cost of GE Common Stock, is the price at which underlying shares in the investment options were purchased, including shares purchased with reinvested interest and dividends. In addition, cost of securities includes gains and losses realized on participant investment switches and is decreased for withdrawals on an average cost basis by individual participant.
- ** Represents a party in interest to the Plan.
- *** Funds managed by GEAM, a wholly owned subsidiary of General Electric Company.
- (a) Rate of interest is based on computed effective yield.
- (b) Interest only securities represent the right to receive the monthly interest payments on an underlying pool of mortgages.
