The old notes were issued as additional notes in an offering, which we refer to as the “add-on offering” under the indenture governing the Company’s \$600,000,000 aggregate principal amount of 5.25% Senior Notes due 2022 issued on February 27, 2014, which were subsequently exchange on June 18, 2014, for a like principal amount of notes registered under the Securities Act of 1933, or the Securities Act, which we refer to as the “existing exchange notes.” The exchange notes are expected to have the same CUSIP and ISIN numbers as, and to trade fungibly with, the existing exchange notes. Unless the context otherwise requires, the term “notes” includes the old notes, the exchange notes and the existing exchange notes.

The form and terms of the exchange notes will be identical in all material respects to the form and terms of the old notes, except that the exchange notes:

- will have been registered under the Securities Act;
- will not bear restrictive legends restricting their transfer under the Securities Act;
- will not be entitled to the registration rights that apply to the old notes; and
- will not contain provisions relating to increased interest rates in connection with the old notes under circumstances related to the timing of the exchange offer.

The Exchange Offer

The exchange offer expires at 5:00 p.m., New York City time, on July 19, 2016, unless extended.

We will exchange all old notes that are validly tendered and not validly withdrawn prior to the expiration of the exchange offer for an equal principal amount of exchange notes which we have registered under the Securities Act. You may withdraw tenders of old notes at any time prior to the expiration of the exchange offer.

We believe that the exchange of old notes will not be a taxable event for U.S. federal income tax purposes, but you should see “U.S. Federal Income Tax Considerations” on page 106 for more information.

We will not receive any proceeds from the exchange offer.

No public market currently exists for the exchange notes. We do not intend to apply for listing of the exchange notes on any securities exchange or to arrange for them to be quoted on any quotation system.

Interest on the exchange notes will be paid at the rate of 5.25% per annum and will be paid semi-annually in arrears on March 1 and September 1 of each year commencing on September 1, 2016.

The exchange notes are fully and unconditionally guaranteed by The AMES Companies, Inc., ATT Southern, Inc., Clopay Ames True Temper Holding Corp., Clopay Building Products Company, Inc., Clopay Plastic Products Company, Inc. and Telephonics Corporation. The entities providing such guarantees are referred to collectively as the “guarantors.”

Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an “underwriter” within the meaning of the Securities Act. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for old notes where such old notes were acquired by such broker-dealer as a result of market-making activities or other trading activities. We have agreed that we will make this prospectus available to any broker-dealer for use in connection with any such resale during the period ending on the earlier of (i) 180 days from the date on which the registration statement of which this prospectus forms a part becomes or is declared effective and (ii) the date on which a broker-dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities. See “Plan of Distribution.”

See “Risk Factors” beginning on page 16 for a discussion of risks that should be considered by holders prior to tendering their old notes.

Neither the Securities and Exchange Commission (the “SEC”) nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

We may amend or supplement this prospectus from time to time by filing amendments or supplements as required. You should read this entire prospectus, the accompanying letter of transmittal and related documents, and any amendments or supplements to this prospectus carefully before deciding whether to participate in the exchange offer.

The date of this prospectus is June 20, 2016.

While we believe our management's estimates with respect to our industry are reliable, our estimates have not been verified by any independent sources, and we cannot assure you that they are accurate.

Clopay Building Products Company, Inc.

CBP is the leading manufacturer and marketer of residential garage doors and among the leading manufacturers of commercial sectional doors in the U.S. The majority of CBP's sales are for home remodeling and renovation, with the balance for the new residential housing and commercial building markets. CBP brings over 50 years of experience and innovation to the garage door industry.

Our strong family of brands includes Clopay®, America's Favorite Garage Doors®, Holmes Garage Door Company® and IDEAL Door®. Clopay is the only residential garage door brand to hold the Good Housekeeping Seal of Approval. CBP products are sold through approximately 2,000 independent professional installing dealers and through major home center retail chains throughout North America.

With two manufacturing facilities and 50 distribution centers across the U.S. and Canada, CBP is a preferred supplier for many of North America's most notable home center retailers. CBP also has a complete line of entry door systems uniquely designed to complement its popular residential garage door styles.

Telephonics Corporation

Telephonics is a leading supplier of airborne maritime surveillance radar and aircraft intercommunication management systems, the segment’s two largest product lines. In addition to its traditional defense products used predominantly by the U.S. government and its agencies, Telephonics has adapted its core technologies to products used in international markets in an effort to further increase its presence in both non-defense government and commercial markets.

Based on long-established relationships supported by existing contractual arrangements, Telephonics is a first-tier supplier to prime contractors in the defense industry and is at times a prime contractor to the U.S. Department of Defense (“DoD”).

On May 18, 2016, we issued and sold \$125,000,000 5.25% Senior Notes due 2022 to Deutsche Bank Securities Inc. (the “initial purchaser”) which we refer to as the “old notes.” The old notes were issued as additional notes in an offering (the “add-on offering”) under the indenture governing the Company’s \$600,000,000 aggregate principal amount of 5.25% Senior Notes due 2022 issued on February 27, 2014. In connection with the sale of the old notes, we entered into a registration rights agreement with the initial purchaser in which we agreed, among other things, to deliver this prospectus to you and to use all commercially reasonable efforts to complete an exchange offer for the old notes.

Notes Offered	\$125,000,000
	5.25% Senior

The issuance of the exchange notes will be registered under the Securities Act. You are urged to read the discussions under the

heading “The exchange notes” in this Summary for further information regarding the exchange notes.

We are offering to exchange the exchange notes for up to \$125 million aggregate principal amount of the old notes.

Old notes may be exchanged only in denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof. In this prospectus, the term “exchange offer” means this offer to exchange the exchange notes for old notes in accordance with the terms set forth in this prospectus and the accompanying letter of transmittal. You are entitled to exchange your old notes for exchange notes.

Any old notes not accepted for exchange for any reason will be returned without expense to the tendering holder thereof promptly after the expiration or termination of the exchange offer.

Conditions to the Exchange Offer

Our obligation to accept for exchange, or to issue exchange notes in exchange for, any old notes is subject to customary conditions relating to compliance with any applicable law or any applicable interpretation by the staff of the SEC, the receipt of any applicable governmental approvals and the absence of any actions or

Consequences

CONSEQUENCES OF EXCHANGING OLD NOTES PURSUANT TO THE EXCHANGE OFFER

Based on certain interpretive letters issued by the staff of the SEC to third parties in unrelated transactions, we are of the view that holders of old notes (other than any holder who is an “affiliate” of us within the meaning of Rule 405 under the Securities Act) who exchange their old notes for exchange notes pursuant to the exchange offer generally may offer the exchange notes for resale, resell such exchange notes and otherwise transfer the exchange notes without compliance with the registration and prospectus delivery provisions of the Securities Act, provided that:

- the exchange notes are acquired in the ordinary course of the holders’ business;
- the holders have no arrangement or understanding with any person to participate in a distribution of the exchange notes; and

- neither the holder nor any other person is engaging in or intends to engage in a distribution of the exchange notes.

Each broker-dealer that receives exchange notes for its own account in exchange for old notes that were acquired as a result of market-making or other trading activity must acknowledge that it will deliver a prospectus in connection with any resale of the exchange notes. See “Plan of Distribution.” If a holder of old notes does not exchange the old notes for exchange notes according to the terms of the exchange offer, the old notes will continue to be subject to the restrictions on transfer contained in the legend printed on the old notes. In general, the old notes may not be offered or sold, unless registered under the Securities Act, except under an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. Holders of old notes do not have any appraisal or dissenters’ rights in connection with the exchange offer.

Additionally, if you do not participate in the exchange offer, you will not be able to require us to register your old notes under the Securities Act except in limited circumstances. These circumstances are:

- the exchange offer is not permitted by applicable law or SEC policy,

- the exchange offer is not consummated by April 13, 2017,

- with respect to any holder of old notes:

- such holder is prohibited by law or SEC policy from participating in the exchange offer; or

- such holder may not resell the exchange notes acquired by it in the exchange offer to the public without delivering a prospectus and this prospectus is not appropriate or available for such resales by such holder; or

- such holder is a broker-dealer and holds old notes acquired directly from Griffon or an affiliate of Griffon.

In these cases, the registration rights agreement requires us to file a registration statement for a continuous offering in accordance with Rule 415 under the Securities Act for the benefit of the holders of the old notes. We do not currently anticipate that we will register under the Securities Act any old notes that remain outstanding after completion of the exchange offer.

THE EXCHANGE NOTES

The summary below describes the principal terms of the exchange notes and is not intended to be complete. Certain of the terms and conditions described below are subject to important limitations and exceptions. The “Description of Notes” section of this prospectus contains a more detailed description of the terms and conditions of the exchange notes.

Issuer.....Griffon Corporation.....

Securities Offered..... \$125,000,000 principal amount of 5.25% senior notes due 2022.

Maturity..... March 1, 2022.....

Interest Rate.....5.25%.per.year.(calculated using a 360-day year).

Interest

Payment Dates..... March 1 and September 1, beginning on September 1, 2016. Interest will accrue from March 1, 2016.

Guarantees..... The exchange notes will be initially unconditionally guaranteed on a joint and several and senior unsecured basis by The AMES Companies, Inc., ATT Southern, Inc., Clopay Ames True Temper Holding Corp., Clopay Building Products Company, Inc., Clopay Plastic Products Company, Inc. and Telephonics Corporation.

If we or any of our restricted subsidiaries organize, acquire, transfer assets to or otherwise invest in any newly created or acquired domestic restricted subsidiary (other than a domestic restricted subsidiary if the Net Book Value (as defined herein) of such domestic restricted subsidiary’s assets, when taken together with the aggregate Net Book Value of the assets of all other domestic restricted subsidiaries that are not guarantors, as of such date, does not exceed in the aggregate \$50.0 million), then such domestic restricted subsidiary shall unconditionally guarantee the exchange notes.

In addition, to the extent that the collective Net Book Value of the assets of our non-guarantor domestic restricted subsidiaries, as of the date of the organization, acquisition, transfer of assets to or investment in a non-guarantor domestic restricted subsidiary, exceeds \$50.0 million, then one or more of such non-guarantor domestic restricted subsidiaries shall guarantee the exchange notes, such that the collective Net Book Value of the assets of all remaining non-guarantor domestic restricted subsidiaries does not exceed \$50.0 million.

Notwithstanding the foregoing, from and after the issue date, we will not permit any of our restricted subsidiaries, directly or indirectly, by way of pledge, intercompany note or otherwise, to assume, guarantee or in any other manner become liable with respect to any indebtedness (other than the exchange notes) of us or any of our domestic restricted subsidiaries, unless, in any such case, such restricted subsidiary guarantees the exchange notes, provided that a restricted subsidiary will not be required to guarantee the exchange notes to the extent it is prohibited by law.

See “Description of Notes—Certain Covenants—Subsidiary Guarantees.”

The exchange notes and guarantees will be senior unsecured obligations of Griffon and the guarantors and will be:

- equal in right of payment to all of Griffon’s and the guarantors’ existing and future unsecured indebtedness and other obligations that are not, by their terms, expressly subordinated in right of payment to the exchange notes;
- Ranking..... • effectively subordinated to all of Griffon’s and the guarantors’ existing and future secured indebtedness and other obligations to the extent of the value of the collateral securing that indebtedness and other obligations;
- structurally subordinated to all existing and future indebtedness and other obligations of any of Griffon’s or the guarantors’ subsidiaries that do not guarantee the exchange notes; and
- senior in right of payment to any of Griffon’s and the guarantors’ existing and future subordinated indebtedness.

As of March 31, 2016, after giving effect to the add-on offering and the application of the net proceeds therefrom, we and our subsidiaries had approximately \$961.2 million of indebtedness, \$89.6 million of which was secured indebtedness, and additional availability of \$332.5 million under our revolving credit facility (net of \$1.6 million drawn and \$15.9 million of outstanding letters of credit).

Not all of our subsidiaries will guarantee the exchange notes. In the event of a bankruptcy, liquidation or reorganization of any of these non-guarantor subsidiaries, the non-guarantor subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to us. For the fiscal year ended September 30, 2015 and the six months ended March 31, 2016, our non-guarantor subsidiaries generated 24% and 21%, respectively, of our consolidated total revenue, and 46% and 44%, respectively, of our consolidated EBITDA. In addition, at March 31, 2016, after giving effect to the add-on offering and the application of the net proceeds therefrom, our non-guarantor subsidiaries held 25% of our total consolidated assets and 13% of our total consolidated liabilities and had approximately \$67.8 million of indebtedness.

Optional Redemption... We may redeem some or all of the exchange notes at any time prior to March 1, 2017 for cash at a redemption price equal to 100% of their principal amount plus a “make-whole” premium (as described under “Description of Notes—Optional Redemption”), plus accrued and unpaid interest to the redemption date. Additionally, we may redeem the exchange notes, in whole or in part, at any time on and after March 1, 2017 at the redemption prices listed under “Description of Notes—Optional Redemption,” plus accrued and unpaid interest to the redemption date.

Optional Redemption After Public Equity Offerings..... At any time (which may be more than once) before March 1, 2017, we can choose to redeem up to 40% of the outstanding exchange notes with the proceeds from one or more public equity offerings, as long as:

- we pay 105.250% of the principal amount of the exchange notes to be redeemed, plus accrued and unpaid interest to the date of redemption;
- we redeem the exchange notes within 90 days of completing the public equity offering; and
- at least 60% of the aggregate principal amount of exchange notes issued remains outstanding afterwards.

Change of Control Offer..... If a change in control of Griffon occurs, we must give holders of the exchange notes the opportunity to sell us their notes at 101% of the principal amount thereof, plus accrued and unpaid interest to the date of repurchase.

See “Risk Factors—Risks Related to the Exchange Notes—We may not be able to repurchase the exchange notes upon a change of control.”

Asset Sale Proceeds..... If we, or our restricted subsidiaries, sell certain assets and do not reinvest the net proceeds in compliance with the indenture, we will be required to make an offer to use such proceeds to repurchase the exchange notes at a price equal to 100% of the principal amount thereof, plus accrued and unpaid interest to the date of repurchase. See “Description of Notes—Repurchase at the Option of Holders—Asset Sales.”

The indenture governing the exchange notes contains covenants limiting our ability and the ability of our restricted subsidiaries to:

- incur additional debt, issue preferred stock or enter into sale and leaseback transactions;
- pay dividends or distributions on our capital stock or repurchase our capital stock or make other restricted payments;
- issue preferred stock of subsidiaries;
- make certain investments;
- create liens on our assets;
- enter into transactions with affiliates;
- merge, consolidate or sell substantially all of our assets;
- transfer and sell assets;
- create restrictions on dividends or other payments by our restricted subsidiaries; and
- create guarantees of indebtedness by restricted subsidiaries.

Certain Indenture Provisions.....

These covenants are subject to a number of important limitations and exceptions. See “Description of Notes—Certain Covenants.” Many of these covenants will cease to apply to the exchange notes during any period that such exchange notes have investment grade ratings from both Moody’s Investors Service, Inc. and Standard & Poor’s and no default has occurred and is continuing under the indenture governing the exchange notes. See “Description of Notes—Suspension of Covenants.”

No prior market..... The exchange notes are a new issue of securities for which there is currently no market. Accordingly, we cannot assure you that a liquid market for the exchange notes will develop or be maintained. See “Risk Factors—Risks Related to the Exchange Offer—If an active trading market for the exchange notes does not develop, the liquidity and value of the exchange notes could be harmed.”

Use of Proceeds..... We will not receive any proceeds from the issuance of the exchange notes in exchange for the outstanding old notes. We are making this exchange solely to satisfy our obligations under the registration rights agreement entered into in connection with the offering of the old notes. See “Use of Proceeds.”

Risk Factors An investment in the exchange notes and participation in the exchange offer involve risk. You should carefully consider all of the information in this prospectus. In particular, you should evaluate the specific risk factors set forth under the caption “Risk Factors” in this prospectus.

EBITDA and Adjusted EBITDA are provided for illustrative and informational purposes only and do not purport to represent, and should not be viewed as indicative of, our actual or future financial condition or results of operations. EBITDA and Adjusted EBITDA do not represent and should not be considered as alternatives to net income (loss), operating income (loss), net cash provided by (used in) operating activities or any other measure of operating performance or liquidity that is calculated in accordance with U.S. generally accepted accounting principles. EBITDA and Adjusted EBITDA information has been included in this prospectus because we believe that certain analysts, rating agencies and investors may use it as supplemental information to evaluate a company's ability to service its indebtedness and overall operating performance over time. However, EBITDA and Adjusted EBITDA have material limitations as analytical tools and should not be considered in isolation, or as substitutes for analysis of our results as reported under U.S. generally accepted accounting principles. A limitation associated with EBITDA and Adjusted EBITDA is that they do not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenue in our business. Any measure that eliminates components of our capital structure and costs associated with carrying significant amounts of assets on its balance sheet has material limitations as a performance measure. Management evaluates the costs of such tangible and intangible assets through other financial measures such as capital expenditures. In addition, in evaluating EBITDA and Adjusted EBITDA, you should be aware that the adjustments may vary from period to period and in the future we will incur expenses such as those used in calculating these measures. Furthermore, EBITDA and Adjusted EBITDA, as calculated by us, may not be comparable to calculations of similarly titled measures by other companies. In light of the foregoing limitations, we do not rely solely on EBITDA and Adjusted EBITDA as performance measures but also consider its results as calculated in accordance with U.S. generally accepted accounting principles.

(6) Pro forma amounts shown for total senior debt, total net senior debt, total debt and total net debt as of the twelve months ended March 31, 2016 are presented after giving effect to the add-on offering and the application of the net proceeds therefrom. Total senior debt consists of (i) \$125 million outstanding under the exchange notes offered hereby, (ii) \$600 million outstanding under the existing exchange notes, (iii) \$1.6 million drawn under our revolving credit facility, (iv) other secured debt of \$89.6 million, consisting of outstanding amounts under our ESOP loan, capital leases, real estate mortgages and non-U.S. lines of credit and term loan, and (v) \$45.1 million non-U.S. term loan and unsecured portion of ESOP loan. Total debt includes total senior debt plus \$100 million

outstanding under our 2017 Notes. Total net senior debt includes total senior debt less pro forma cash and cash equivalents. Total net debt includes total debt less pro forma cash and equivalents. On March 22, 2016, Griffon and certain of its subsidiaries amended and restated its revolving credit facility to, among other things, increase the size of the facility from \$250 million to \$350 million and extend its maturity to March 22, 2021.

RISK FACTORS

You should consider carefully the following risks involved in investing in the exchange notes, as well as the other information contained in this prospectus, before deciding whether to participate in the exchange offer. The actual occurrence of any of these risks could materially adversely affect our business, financial condition and results of operations. In that case, the value of the exchange notes could decline substantially, and you may lose part or all of your investment. Unless the context otherwise requires, the term “notes” includes the old notes and the exchange notes.

Risks Related to the Exchange Offer

If you fail to exchange your old notes for exchange notes, your old notes will continue to be subject to restrictions on transfer and may become less liquid.

We did not register the old notes under the Securities Act or any state securities laws, nor do we intend to after the exchange offer. In general, you may only offer or sell the old notes if they are registered under the Securities Act and applicable state securities laws, or offered and sold under an exemption from these requirements. If you do not exchange your old notes in the exchange offer, you will lose your right to have the old notes registered under the Securities Act, subject to certain exceptions. If you continue to hold old notes after the exchange offer, you may be unable to sell the old notes.

Because we anticipate that most holders of old notes will elect to exchange their old notes, we expect that the liquidity of the market for any old notes remaining after the completion of the exchange offer will be substantially limited. Any old notes tendered and exchanged in the exchange offer will reduce the aggregate principal amount of the old notes outstanding. Following the exchange offer, if you do not tender your old notes you generally will not have any further registration rights, and your old notes will continue to be subject to certain transfer restrictions. Accordingly, the liquidity of the market for the old notes could be adversely affected.

If an active trading market for the exchange notes does not develop, the liquidity and value of the exchange notes could be harmed.

Prior to this exchange offer, there is no existing market for the exchange notes and there is only a limited market for the existing exchange notes. An active public market for the exchange notes may not develop or, if developed, may not continue. If an active public market does not develop or is not maintained, you may not be able to sell your exchange notes at their fair market value or at all.

The initial purchaser currently makes a market for the old notes, and we have been advised by the initial purchaser that it presently intends to make a market in the exchange notes, after this exchange offer is completed. However, the initial purchaser is not obligated to make a market in the exchange notes and the initial purchaser may cease its market-making activities in the old notes at any time. In addition, even if a public market for the exchange notes develops, trading prices will depend on many factors, including prevailing interest rates, our operating results and the market for similar securities. Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the exchange notes. Declines in the market for debt securities generally may also materially and adversely affect the liquidity of the exchange notes, independent of our financial performance.

You must comply with the exchange offer procedures in order to receive exchange notes.

The exchange notes will be issued in exchange for the old notes only after timely receipt by the exchange agent of the old notes or a book-entry confirmation related thereto, a properly completed and executed letter of transmittal or an agent’s message and all other required documentation. If you want to tender your old notes in exchange for exchange notes, you should allow sufficient time to ensure timely delivery. Neither we nor the exchange agent are under any duty to give you notification of defects or irregularities with respect to tenders of old notes for exchange. Old notes that are not tendered or are tendered but not accepted will, following the exchange offer, continue to be subject to the existing transfer restrictions. In addition, if you tender the old notes in the exchange offer to participate in a distribution of the exchange notes, you will be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction. For additional information, please refer to the sections entitled “The Exchange Offer” and “Plan of Distribution” later in this prospectus.

Some persons who participate in the exchange offer must deliver a prospectus in connection with resales of the exchange notes.

Based on interpretations of the staff of the SEC contained in Exxon Capital Holdings Corp., SEC no-action letter (April 13, 1988), Morgan Stanley & Co. Inc., SEC no-action letter (June 5, 1991) and Shearman & Sterling LLP, SEC no-

16

action letter (July 2, 1983), we believe that you may offer for resale, resell or otherwise transfer the exchange notes without compliance with the registration and prospectus delivery requirements of the Securities Act. However, in some instances described in this prospectus under “Plan of Distribution,” you will remain obligated to comply with the registration and prospectus delivery requirements of the Securities Act to transfer your exchange notes. In these cases, if you transfer any exchange notes without delivering a prospectus meeting the requirements of the Securities Act or without an exemption from registration of your exchange under the Securities Act, you may incur liability under the Securities Act. We do not and will not assume, or indemnify you against, this liability.

Risks Related to the Exchange Notes

While subsumed within the Risks Related to Our Business, the following risk factors may have particular applicability to the exchange notes and should be considered in connection with a decision to participate in the exchange offer.

Our substantial indebtedness could adversely affect our financial condition.

We have a significant amount of indebtedness. On March 31, 2016, after giving effect to the add-on offering and the application of the net proceeds therefrom, we would have had total indebtedness of \$961.2 million (including \$125 million of senior unsecured debt under the exchange notes offered hereby, \$600 million of senior unsecured debt under the existing exchange notes, \$1.6 million drawn under our revolving credit facility, \$100 million of convertible subordinated debt, \$89.6 million of other secured debt and \$45.1 of other unsecured debt), and we would have had \$332.5 million of additional availability under our revolving credit facility (net of \$1.6 million drawn and \$15.9 million of letters of credit) subject to certain covenants.

On March 22, 2016, Griffon and certain of its subsidiaries amended and restated its revolving credit facility to, among other things, increase the size of the facility from \$250 million to \$350 million and extend its maturity to March 22, 2021.

Our substantial indebtedness could have important consequences to you. For example, it could:

- increase our vulnerability to general adverse economic and industry conditions;
- require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures and other general corporate purposes;
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;
- place us at a competitive disadvantage compared to our competitors that have less debt; and
- limit our ability to obtain additional financing for working capital, capital expenditures, acquisitions or general corporate purposes.

We expect to use cash flow from operations and borrowings under our revolving credit facility to meet our current and future financial obligations, including funding our operations, debt service and capital expenditures. Our ability to make these payments depends on our future performance, which will be affected by financial, business, economic and other factors, many of which we cannot control. Our business may not generate sufficient cash flow from operations in the future, which could result in our being unable to repay indebtedness, or to fund other liquidity needs. If we do not have enough capital, we may be forced to reduce or delay our business activities and capital expenditures, sell assets, obtain additional debt or equity capital or restructure or refinance all or a portion of our debt, including the exchange notes, the existing exchange notes and our revolving credit facility, on or before maturity. We cannot make any assurances that we will be able to accomplish any of these alternatives on terms acceptable to us, or at all. In addition, the terms of existing or future indebtedness, including the agreements governing the exchange notes, the existing exchange notes and our revolving credit facility, respectively, may limit our ability to pursue any of these alternatives.

We may not be able to generate sufficient cash to service all of our indebtedness, including the notes, and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our ability to make scheduled payments or to refinance our debt obligations depends on our financial and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We cannot assure you that we will maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness. If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay

capital expenditures, sell

17

assets or operations, seek additional capital or restructure or refinance our indebtedness, including the notes. We cannot assure you that we would be able to take any of these actions, that these actions would be successful and permit us to meet our scheduled debt service obligations or that these actions would be permitted under the terms of our existing or future debt agreements, including the indenture governing the notes or our revolving credit facility. In the absence of such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. The indenture governing the notes and our revolving credit facility restrict our ability to dispose of assets and use the proceeds from the disposition. We may not be able to consummate those dispositions or to obtain the proceeds which we could realize from them and these proceeds may not be adequate to meet any debt service obligations then due. See “Description of Other Indebtedness” and “Description of Notes.”

If we cannot make scheduled payments on our debt, we will be in default and, as a result, our debt holders could declare all outstanding principal and interest to be due and payable and we could be forced into bankruptcy or liquidation, which could result in your losing some or all of your investment in the notes.

We are a holding company and may not have access to sufficient cash to make payments on the notes.

We are a holding company with no direct operations. Our principal assets are the equity interests we hold in our operating subsidiaries. As a result, we are dependent upon dividends and other payments from our subsidiaries to generate the funds necessary to meet our outstanding debt service and other obligations. Our subsidiaries may not generate sufficient cash from operations to enable us to make principal and interest payments on our indebtedness, including the notes. In addition, any payment of dividends, distributions, loans or advances to us from our subsidiaries could be subject to restrictions on dividends or repatriation of earnings under applicable local law and monetary transfer restrictions in the jurisdictions in which our subsidiaries operate. In addition, payments to us from our subsidiaries will be contingent upon our subsidiaries’ earnings. Our subsidiaries are separate and distinct legal entities and, except for our existing subsidiaries that are guarantors of the notes and any future subsidiaries that will become guarantors of the notes, they have no obligation, contingent or otherwise, to pay amounts due under the notes or to make any funds available to pay those amounts, whether by dividend, distribution, loan or other payment.

Despite current indebtedness levels, we may still be able to incur more indebtedness, which could further exacerbate the risks described herein.

We may be able to incur substantial additional indebtedness in the future. The terms of the agreements governing our indebtedness, including the notes and our revolving credit facility, will not prohibit us from doing so. If we incur any additional indebtedness that ranks equally with the notes, the holders of that debt will be entitled to share ratably with you in any proceeds distributed in connection with any insolvency, liquidation, reorganization, dissolution or other winding-up of us. This may have the effect of reducing the amount of proceeds paid to you.

Additionally, our revolving credit facility provides commitments of up to \$350 million, approximately \$211.6 million of which was available for borrowing, subject to certain covenants, at March 31, 2016. If new debt is added to our current debt levels, the risks that we now face relating to our substantial indebtedness could intensify. All of the borrowings under our revolving credit facility will be secured indebtedness. The subsidiaries that guarantee the notes are also the guarantors under our revolving credit facility. See “Description of Other Indebtedness” and “Description of Notes.”

On March 22, 2016, Griffon and certain of its subsidiaries amended and restated its revolving credit facility to, among other things, increase the size of the facility from \$250 million to \$350 million and extend its maturity to March 22, 2021.

The agreements governing our indebtedness, including the notes and our revolving credit facility, restrict our ability to engage in some business and financial transactions.

The agreements governing our indebtedness, including the notes and our revolving credit facility, among other things, restrict our ability, and the ability of our restricted subsidiaries, to:

- incur additional debt or issue preferred stock;
- pay dividends or distributions on our capital stock or repurchase our capital stock or make other restricted payments;
- make certain investments;
- create liens on our assets;

- enter into transactions with affiliates;
- merge, consolidate or sell substantially all of our assets;
- transfer and sell assets or enter into sale and leaseback transactions;
- create restrictions on dividends or other payments by our restricted subsidiaries; and
- create guarantees of indebtedness by restricted subsidiaries.

Our ability to borrow under our revolving credit facility will depend upon compliance with these covenants. Events beyond our control could affect our ability to meet these covenants. Our failure to comply with obligations under the agreements governing the notes and our revolving credit facility may result in an event of default under the agreements governing the notes and our revolving credit facility, respectively. A default, if not cured or waived, may permit acceleration of this indebtedness and our other indebtedness. We may not have funds available to remedy these defaults. If our indebtedness is accelerated, we may not have sufficient funds available to pay the accelerated indebtedness and may not have the ability to refinance the accelerated indebtedness on terms favorable to us or at all. Variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.

Certain of our borrowings, primarily borrowings under our revolving credit facility, will be at variable rates of interest and expose us to interest rate risk. As such, our net income is sensitive to movements in interest rates. There are many economic factors outside our control that have in the past, and may in the future, impact rates of interest including publicly announced indices that underlie the interest obligations related to a certain portion of our debt. Factors that impact interest rates include governmental monetary policies, inflation, recession, changes in unemployment, the money supply, international disorder and instability in domestic and foreign financial markets. If interest rates increase, our debt service obligations on the variable rate indebtedness would increase even though the amount borrowed remained the same, and our net income would decrease. Such increases in interest rates could have a material adverse effect on our financial conditions and results of operations.

The exchange notes will be effectively subordinated to all of our existing and future secured debt, to the existing and future secured debt of the subsidiary guarantors, and to the existing and future debt of the subsidiaries that do not guarantee the exchange notes.

The exchange notes will be effectively subordinated to all of our existing and future secured debt, to the existing and future secured debt of the subsidiary guarantors, and to the existing and future debt of the subsidiaries that do not guarantee the exchange notes.

The exchange notes will not be secured by any of our assets or the assets of the subsidiary guarantors. As a result, the indebtedness represented by the exchange notes will effectively be subordinated to any secured indebtedness that we or the subsidiary guarantors may incur, to the extent of the value of the assets securing such indebtedness. The terms of the Indenture permit us and the subsidiary guarantors to incur secured debt, subject to limitations. In the event of any distribution or payment of our assets in any foreclosure, dissolution, winding up, liquidation or reorganization, or other bankruptcy proceeding, any secured creditors would have a superior claim to their collateral. In the event of the dissolution, winding up, liquidation or reorganization, or other bankruptcy proceeding of a subsidiary that is not a guarantor, creditors of that subsidiary would generally have the right to be paid in full before any distribution is made to us or the holders of the notes. If any of the foregoing occur, we cannot assure you that there will be sufficient assets to pay amounts due on the notes.

As of March 31, 2016, after giving effect to the add-on offering and the application of the net proceeds therefrom as described under "Use of Proceeds":

- our consolidated senior secured indebtedness, including capital leases, totaled approximately \$91.2 million;
- we had \$332.5 million of additional availability under our revolving credit facility (net of \$1.6 million drawn and \$15.9 million of letters of credit) subject to certain covenants, all of which was secured; and
- our subsidiaries guaranteeing the notes had indebtedness, including subsidiary guarantees of our indebtedness, of approximately \$803.4 million, of which approximately \$53.0 million was secured.

For the fiscal year ended September 30, 2015 and the six months ended March 31, 2016, our non-guarantor subsidiaries generated 24% and 21%, respectively, of our consolidated total revenue, and 46% and 44%, respectively, of our consolidated EBITDA. In addition, at March 31, 2016, after giving effect to the add-on offering and the

application of the net proceeds therefrom, our non-guarantor subsidiaries held 25% of our total consolidated assets and 13% of our total

19

consolidated liabilities and had approximately \$67.8 million of indebtedness. For a presentation of the financial information required by Rule 3-10 of Regulation S-X for our subsidiaries guaranteeing the notes and our non-guarantors subsidiaries, see the footnotes to our financial statements, which are incorporated herein by reference. If we default on our obligations to pay our other indebtedness we may not be able to make payments on the notes. Any default under the agreements governing our indebtedness, including a default under our revolving credit facility, that is not waived by the required lenders, and the remedies sought by the holders of such indebtedness, could make us unable to pay principal, premium, if any, and interest on the notes and substantially decrease the market value of the notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on our indebtedness, or if we otherwise fail to comply with the various covenants in the instruments governing our indebtedness (including covenants in the indenture governing the notes and our revolving credit facility), we could be in default under the terms of the agreements governing such indebtedness. In the event of such a default, the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest, the lenders under our revolving credit facility could elect to terminate their commitments thereunder and cease making further loans and institute foreclosure proceedings against our assets and we could be forced into bankruptcy or liquidation. If our operating performance declines, we may in the future need to obtain waivers from the required lenders under our revolving credit facility to avoid being in default. If we breach our covenants under the agreement governing our revolving credit facility and seek a waiver, we may not be able to obtain a waiver from the required lenders. If this occurs, we would be in default under our revolving credit facility, the lenders could exercise their rights, as described above, and we could be forced into bankruptcy or liquidation.

We may not be able to repurchase the notes upon a change of control.

Upon the occurrence of specific kinds of change of control events, we will be required to offer to repurchase all outstanding notes at 101% of their principal amount, plus accrued and unpaid interest. We may not be able to repurchase the notes upon a change of control because we may not have sufficient funds. Further, we may be contractually restricted under the terms of our revolving credit facility from repurchasing all of the notes tendered by holders upon a change of control. Accordingly, we may not be able to satisfy our obligations to purchase your notes unless we are able to refinance or obtain waivers under our revolving credit facility. Our failure to repurchase the notes upon a change of control would cause a default under the indenture governing the notes and a cross-default under the agreement governing our revolving credit facility. Our revolving credit facility also provides that a change of control, as defined in the agreement governing such facility, will be a default that permits lenders to accelerate the maturity of borrowings thereunder and, if such debt is not paid, to enforce security interests in the collateral securing such debt, thereby limiting our ability to raise cash to purchase the notes, and reducing the practical benefit of the offer-to-purchase provisions to the holders of the notes. Any of our future debt agreements may contain similar provisions.

In addition, the change of control provisions in the indenture governing the notes may not protect you from certain important corporate events, such as a leveraged recapitalization (which would increase the level of our indebtedness), reorganization, restructuring, merger or other similar transaction. Such a transaction may not involve a change in voting power or beneficial ownership or, even if it does, may not involve a change that constitutes a “Change of Control” as defined in the Indenture that would trigger our obligation to repurchase the notes. If an event occurs that does not constitute a “Change of Control” as defined in the indenture, we will not be required to make an offer to repurchase the notes and you may be required to continue to hold your notes despite the event. See “Description of Notes— Change of Control Offer.”

You may not be able to determine when a change of control has occurred and may not be able to require us to purchase the notes as a result of a change in the composition of the directors on our board of directors.

Legal uncertainty regarding what constitutes a change of control and the provisions of the indenture may allow us to enter into transactions, such as acquisitions, refinancings or recapitalizations, which would not constitute a change of control but may increase our outstanding indebtedness or otherwise affect our ability to satisfy our obligations under the notes. The definition of change of control includes a phrase relating to the transfer of “all or substantially all” of the assets of Griffon and its subsidiaries taken as a whole. Although there is a limited body of case law interpreting the

phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, your ability to require the issuers to repurchase notes as a result of a transfer of less than all of the assets of Griffon to another person may be uncertain. As noted below, under certain circumstances the sale or disposition of a Minority Business shall not be deemed to constitute a disposition of “all or substantially all” of our assets.

In addition, in a recent decision that was subsequently affirmed by the Delaware Supreme Court, the Court of Chancery of the State of Delaware raised the possibility that a change of control put right occurring as a result of a failure to have “continuing directors” comprising a majority of a board of directors might be unenforceable on public policy grounds.

The terms of the indenture governing the notes include exceptions to certain covenants relating to a sale of a Minority Business.

The terms of the indenture governing the notes include exceptions to certain covenants that apply in the event that a future sale or disposition (whether directly or indirectly, whether by sale or transfer of any such assets, or of any capital stock or other interest in any entity holding such assets, or by merger or consolidation or of any combination thereof, and whether in one or more transactions, or otherwise, including any Minority Business Offering or any Minority Business Disposition (each as defined in “Description of Notes”)) of any business unit which represents less than 50% of our Segment Adjusted EBITDA (as defined in “Description of Notes”) (a “Minority Business”). Accordingly, we may sell or dispose of a Minority Business at any time subject to certain conditions. For important information regarding this exception and the applicable obligations and restrictions, see “Description of Notes—Change of Control,” “Description of Notes—Merger and Consolidation” and “Description of Notes—Certain Definitions.”

If we sell or dispose of any such Minority Business, we may not receive any cash proceeds depending on the structure of such sale or disposition, and, to the extent cash proceeds are received, we may be unable to reinvest the net proceeds of such sale in businesses or assets that produce similar net sales or earnings or Adjusted EBITDA.

Accordingly, a sale of a Minority Business could adversely impact our operating results and financial performance, as well as the price, liquidity and ratings of the notes. Such risks could be significant.

Federal and state fraudulent transfer laws permit a court to void the exchange notes and the guarantees, and, if that occurs, you may not receive any payments on the exchange notes.

The issuance of the exchange notes and the guarantees may be subject to review under federal and state fraudulent transfer and conveyance statutes. While the relevant laws may vary from state to state, under such laws the payment of consideration will generally be a fraudulent conveyance if (1) we paid the consideration with the intent of hindering, delaying or defrauding creditors or (2) we or any of our guarantors, as applicable, received less than reasonably equivalent value or fair consideration in return for issuing either the notes or a guarantee and, in the case of (2) only, one of the following is also true:

- we or any of our guarantors were insolvent or rendered insolvent by reason of the incurrence of the indebtedness; payment of the consideration left us or any of our guarantors with an unreasonably small amount of capital to carry on its business; or
- we or any of our guarantors intended to, or believed that we or it would, incur debts beyond our or its ability to pay those debts as they mature.

If a court were to find that the issuance of the notes or a guarantee was a fraudulent conveyance, the court could void the payment obligations under the notes or such guarantee or subordinate the notes or such guarantee to presently existing and future indebtedness of ours or such guarantor, or require the holders of the notes to repay any amounts received with respect to the notes or such guarantee. In the event of a finding that a fraudulent conveyance occurred, you may not receive any repayment on the notes. Further, the voidance of the notes could result in an event of default with respect to our other debt and that of our guarantors that could result in acceleration of such indebtedness.

Generally, an entity would be considered insolvent if at the time it incurred indebtedness:

- the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all its assets;
- the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts and liabilities, including contingent liabilities, as they become absolute and mature; or
- it could not pay its debts as they become due.

We cannot be certain as to the standards a court would use to determine whether or not we or the guarantors were solvent at the relevant time, or regardless of the standard that a court uses, that the issuance of the notes and the guarantees would not be subordinated to our or any guarantor’s other debt. If the guarantees were legally challenged,

any guarantee could also be subject to the claim that, since the guarantee was incurred for our benefit, and only indirectly for the benefit of the guarantor, the obligations of the applicable guarantor were incurred for less than fair consideration. A court could thus

void the obligations under the guarantees, subordinate them to the applicable guarantor's other debt or take other action detrimental to the holders of the notes.

Each guarantee contains a provision intended to limit the guarantor's liability to the maximum amount that it could incur without causing the incurrence of obligations under its guarantee to be a fraudulent transfer. As was demonstrated in a bankruptcy case originating in the State of Florida which was affirmed by a decision by the Eleventh Circuit Court of Appeals on other grounds, this provision may not be effective to protect the guarantees from being voided under fraudulent transfer laws.

If the notes are rated investment grade at any time by both Moody's and Standard & Poor's, most of the restrictive covenants and corresponding events of default contained in the indenture governing the notes will be suspended. If, at any time, the credit rating on the notes, as determined by both Moody's Investors Service and Standard & Poor's Ratings Services, equals or exceeds Baa3 and BBB-, respectively, or any equivalent replacement ratings, and no default has occurred and is continuing under the indenture governing the notes, we will no longer be subject to most of the restrictive covenants contained in the Indenture. Any restrictive covenants that cease to apply to us as a result of achieving these ratings will be restored if one or both of the credit ratings on the notes later fall below these thresholds or in certain other circumstances. However, during any period in which these restrictive covenants are suspended, we may incur other indebtedness, make restricted payments, make distributions and take other actions that would have been prohibited if these covenants had been in effect. If the restrictive covenants are later restored, the actions taken while the covenants were suspended will not result in an event of default under the indenture governing the notes even if they would constitute an event of default at the time the covenants are restored. Accordingly, if these covenants are suspended, holders of the notes will have less credit protection than at the time the notes are issued. See "Description of Notes—Suspension of Covenants."

The amount that can be collected under the guarantees will be limited.

Like the guarantees on the existing exchange notes, each of the guarantees on the exchange notes will be limited to the maximum amount that can be guaranteed by a particular guarantor without rendering the guarantee, as it relates to that guarantor, avoidable. See "Risk Factors—Federal and state fraudulent transfer laws permit a court to void the exchange notes and the guarantees, and, if that occurs, you may not receive any payments on the exchange notes." In general, the maximum amount that can be guaranteed by a particular guarantor may be significantly less than the principal amount of the notes. This provision may not be effective to protect the guarantees from being voided under fraudulent transfer law, or may eliminate the guarantor's obligations or reduce the guarantor's obligations to an amount that effectively makes the guarantee worthless.

Risks Related to Our Business

Current worldwide economic uncertainty and market volatility could adversely affect our businesses.

The current worldwide economic uncertainty and market volatility could continue to have an adverse effect on us during 2016, particularly in HBP, which is substantially linked to the U.S. housing market and the U.S. economy in general. Purchases of AMES' products are discretionary for consumers who are generally more willing to purchase products during periods in which favorable macroeconomic conditions prevail. Additionally, the current condition of the credit markets could impact our ability to refinance expiring debt, obtain additional credit for investments in current businesses or for acquisitions, with favorable terms, or may render financing unavailable. We are also exposed to basic economic risks including a decrease in the demand for the products and services we offer or a higher likelihood of default on its receivables.

Adverse trends in the housing sector and in general economic conditions will directly impact our business.

HBP's business is influenced by market conditions for new home construction and renovation of existing homes. For the year ended September 30, 2015 and the six months ended March 31, 2016, approximately 52% and 54%, respectively, of our consolidated revenue was derived from the HBP segment, which is heavily dependent on new home construction and renovation of existing homes. The strength of the U.S. economy, the age of existing home stock, job growth, interest rates, consumer confidence and the availability of consumer credit, as well as demographic factors such as migration into the United States and migration of the population within the United States, also have an effect on HBP. In that respect, the significant downturn in the housing market has had an adverse effect on the operating results of HBP and this effect is likely to continue in 2016, particularly with respect to CBP.

We operate in highly competitive industries and may be unable to compete effectively.

Our operating companies face intense competition in each of the markets served. There are a number of competitors, some of which are larger and have greater resources than our operating companies. We compete primarily on the basis of competitive prices, technical expertise, product differentiation, and quality of products and services. There can be no assurance that we will not encounter increased competition in the future, which could have a material adverse effect on our financial results.

The loss of large customers can harm financial results.

A small number of customers account for, and are expected to continue to account for, a substantial portion of our consolidated revenue. Approximately 14% and 12% of consolidated revenue and 51% and 52% of the PPC segment revenue for the year ended September 30, 2015 and the six months ended March 31, 2016, respectively, was generated from P&G. Home Depot, Lowe's, Menards and Bunnings are significant customers of HBP with Home Depot accounting for approximately 12% of consolidated revenue and 23% of HBP's revenue for the year ended September 30, 2015, and 13% of consolidated revenue and 24% of HBP's revenue of the six months ended March 31, 2016. The U.S. Government (inclusive of sales through its agencies and subcontractors, including Lockheed Martin and Boeing) is a significant customer of Telephonics, and accounts for approximately 14% of consolidated revenue and 66% of Telephonics segment revenue for the year ended September 30, 2015 and 16% of consolidated revenue and 73% of Telephonics segment revenue for the six months ended March 31, 2016, Lockheed Martin and Boeing each represent less than 10% of consolidated revenue for the year ended September 30, 2015 and the six months ended March 31, 2016. Future operating results will continue to substantially depend on the success of our largest customers, as well as our relationship with them. Orders from these customers are subject to fluctuation and may be reduced materially due to changes in customer needs or other factors. Any reduction or delay in sales of products to one or more of these customers could significantly reduce our revenue. Our operating results will also depend on successfully developing relationships with additional key customers. We cannot assure that our largest customers will be retained or that additional key customers will be recruited. Also, HBP and PPC extend credit to their customers, which exposes them to credit risk. HBP's largest customer accounted for approximately 19% and 10% of HBP's and Griffon's net accounts receivable as of September 30, 2015, respectively. PPC's largest customer accounted for approximately 34% and 8% of PPC's and our net accounts receivable as of September 30, 2015, respectively. If either of these customers were to become insolvent or otherwise unable to pay its debts, the financial condition, results of operations and cash flows of the respective segments and Griffon could be adversely affected.

Reliance on third party suppliers and manufacturers may impair AMES' ability to meet its customer demands.

AMES relies on a limited number of domestic and foreign companies to supply components and manufacture certain of its products. The percentage of AMES' products sourced, based on revenue, approximated 41% in 2015. Reliance on third party suppliers and manufacturers may reduce control over the timing of deliveries and quality of AMES' products. Reduced product quality or failure to deliver products timely may jeopardize relationships with certain of AMES' key customers. In addition, reliance on third party suppliers or manufacturers may result in the failure to meet AMES' customer demands. Continued turbulence in the worldwide economy may affect the liquidity and financial condition of AMES' suppliers. Should any of these parties fail to manufacture sufficient supply, go out of business or discontinue a particular component, alternative suppliers may not be found in a timely manner, if at all. Such events could impact AMES' ability to fill orders, which could have a material adverse effect on customer relationships. If we are unable to obtain raw materials for products at favorable prices it could adversely impact operating performance.

HBP's and PPC's suppliers primarily provide resin, wood and steel. These segments may experience shortages of raw materials or components for products or be forced to seek alternative sources of supply. If temporary shortages due to disruptions in supply caused by weather, transportation, production delays or other factors require raw materials to be secured from sources other than current suppliers, the terms may not be as favorable as current terms or certain materials may not be available at all. In recent years, HBP and PPC have experienced price increases in steel and plastic resins.

While most key raw materials used in our businesses are generally available from numerous sources, raw materials are subject to price fluctuations. Because raw materials in the aggregate constitute a significant component of the cost of

goods sold, price fluctuations could have a material adverse effect on our results of operations. Our ability to pass raw material price increases to customers is limited due to supply arrangements and competitive pricing pressure, and there is generally a time lag between increased raw material costs and implementation of corresponding price increases for our products. In particular, sharp increases in raw material prices are more difficult to pass through to customers and may negatively affect short-term financial performance.

AMES is subject to risks associated with sourcing from Asia.

A substantial amount of AMES' finished goods sourcing is done through supply agreements with China based vendors. China does not have a well-developed, consolidated body of laws governing agreements with international customers. Enforcement of existing laws or contracts based on existing law may be uncertain and sporadic, and it may be difficult to obtain swift and equitable enforcement or to obtain enforcement of a judgment by a court of another jurisdiction. The relative inexperience of China's judiciary on matters of international trade in many cases creates additional uncertainty as to the outcome of any litigation. In addition, interpretation of statutes and regulations may be subject to government policies reflecting domestic political changes. Products entering from China may be subject to import quotas, import duties and other restrictions. Any inability to import these products into the United States and any tariffs that may be levied with respect to these products may have a material adverse result on AMES' business and results of operations, financial position and cash flows.

Our businesses are subject to seasonal variations and the impact of uncertain weather patterns.

Historically, our revenue and income are lowest in our first and fourth quarters ending December 31, and September 30, respectively, and highest in our second and third quarters ending March 31, and June 30, respectively, primarily due to the seasonality of AMES' business. With the 2014 acquisitions of Northcote and Cyclone, both in Australia, AMES' revenue is less susceptible to seasonality. In 2015, 56% of AMES' sales occurred during the second and third quarters compared to 58% in 2014 and 63% in 2013. CBP's business is driven by residential renovation and construction during warm weather, which is generally at reduced levels during the winter months, generally in our second quarter. Our revenue is expected to be lowest in the first quarter and highest in the third quarter.

Demand for lawn and garden products is influenced by weather, particularly weekend weather during the peak gardening season. AMES' sales volumes could be adversely affected by certain weather patterns such as unseasonably cool or warm temperatures, hurricanes, water shortages or floods. In addition, lack of snow or lower than average snowfall during the winter season may result in reduced sales of certain of AMES' products, such as snow shovels and other snow tools. As a result, AMES' results of operations, financial results and cash flows could be adversely impacted.

Further consolidation in the retail industry may adversely affect profitability.

Home centers and mass merchandisers have consolidated and increased in scale. If this trend continues, customers will likely seek more favorable pricing and other terms for their purchases of products, which will limit our ability to pass through raw material or other cost increases, or to raise prices for any reason. Sales on terms less favorable than current terms could have a material adverse effect on profitability.

Unionized employees could strike or participate in a work stoppage.

We employ approximately 6,000 people on a full-time basis, approximately 8% of whom are covered by collective bargaining or similar labor agreements (all within Telephonics and AMES). If unionized employees engage in a strike or other work stoppage, or if we are unable to negotiate acceptable extensions of agreements with labor unions, a significant disruption of operations and increased operating costs could occur. In addition, any renegotiation or renewal of labor agreements could result in higher wages or benefits paid to unionized employees, which could increase operating costs and could have a material adverse effect on profitability.

We may be required to record impairment charges for goodwill and indefinite-lived intangible assets.

We are required to assess goodwill and indefinite-lived intangible assets annually for impairment or on an interim basis if changes in circumstances or the occurrence of events suggest impairment exists. If impairment testing indicates that the carrying value of reporting units or indefinite-lived intangible assets exceeds the respective fair value, an impairment charge would be recognized. If goodwill or indefinite-lived intangible assets were to become impaired, the results of operations could be materially and adversely affected.

Trends in the baby diaper market will directly impact our business.

Recent trends have been for baby diaper manufacturers to request thinner plastic films for use in their products which reduces the amount of product sold and PPC's revenue; this trend has generally resulted in PPC incurring costs to redesign and reengineer products to accommodate required specification changes. Such decreases, or the inability to meet changing customer specifications, could result in a material decline in PPC's revenue and profits.

Telephonics' business depends heavily upon government contracts and, therefore, the defense budget.

Telephonics sells products to the U.S. government and its agencies both directly and indirectly as a first-tier supplier to prime contractors in the defense industry such as Lockheed Martin, Boeing, Sikorsky and Northrop Grumman. In the year ended September 30, 2015 and the six months ended March 31, 2016, U.S. government contracts and subcontracts accounted for approximately 14% and 16%, respectively, of our consolidated revenue. Contracts involving the U.S. government may include various risks, including:

- termination for default or for convenience by the government;
- reduction or modification in the event of changes in the government's requirements or budgetary constraints;
- increased or unexpected costs, causing losses or reduced profits under contracts where Telephonics' prices are fixed, or
- determinations that certain costs are not allowable under particular government contracts;
- the failure or inability of the prime contractor to perform its contract in circumstances where Telephonics is a subcontractor;
- failure to observe and comply with government business practice and procurement regulations such that Telephonics could be suspended or barred from bidding on or receiving awards of new government contracts;
- the failure of the government to exercise options for additional work provided for in contracts; and
- the government's right, in certain circumstances, to freely use technology developed under these contracts.

All of Telephonics' U.S. Government end-user contracts contain a termination for convenience clause, regardless if Telephonics is the prime contractor or the subcontractor. This clause generally entitles Telephonics, upon a termination for convenience, to receive the purchase price for delivered items, reimbursement of allowable work-in-process costs, and an allowance for profit. Allowable costs would include the costs to terminate existing agreements with suppliers.

The programs in which Telephonics participates may extend for several years, and may be funded on an incremental basis. Decreases in the U.S. defense budget, in particular with respect to programs to which Telephonics supplies materials, could have a material adverse impact on Telephonics' financial conditions, results of operations and cash flows. The U.S. government may not continue to fund programs to which Telephonics' development projects apply. Even if funding is continued, Telephonics may fail to compete successfully to obtain funding pursuant to such programs. Reductions to funding on existing programs or delays in the funding of new opportunities could affect the timing of revenue recognition, and impact Telephonics' and our results of operations.

The Budget Control Act called for additional substantial, mandatory defense spending reductions, known as "sequestration." There continues to be much uncertainty regarding how sequestration will be implemented. There are many variables in how the law could be applied that make it difficult to determine the specific impacts; however, we expect that sequestration will result in lower revenue, profits and cash flows for Telephonics.

Telephonics' business is dependent upon the ability of the U.S. government to fund and conduct its operations.

The impact of a government shutdown for any duration could have a material adverse effect on Telephonics' revenue, profits and cash flows. Telephonics relies on government personnel to conduct routine business processes related to the inspection and delivery of products for various programs, to approve and pay certain billings and invoices, to process export licenses and for other administrative services that, if disrupted, could have an immediate impact on Telephonics' business.

Telephonics' business could be adversely affected by a negative audit by the U.S. Government.

As a government contractor, and a subcontractor to government contractors, Telephonics is subject to audits and investigations by U.S. Government Agencies such as the Defense Contract Audit Agency, the Defense Security Service, with respect to its classified contracts, other Inspectors General and the Department of Justice. These agencies review a contractor's performance under its contracts, its cost structure and compliance with applicable laws and standards as well as compliance with applicable regulations, including those relating to facility and personnel security clearances. These agencies also review the adequacy of, and a contractor's compliance with, its internal control systems and policies, including the contractor's management, purchasing, property, estimating, compensation, and accounting and information systems. Any costs found to be misclassified or improperly allocated to a specific contract will not be reimbursed, or must be refunded if already billed and collected. We could incur significant expenses in complying with audits and subpoenas issued by the government in aid of inquiries and investigations. If

an audit or an investigation uncovers improper or illegal activities, Telephonics may be subject to civil and criminal penalties and/or administrative sanctions, which could include contract termination, forfeiture of profit, suspension of payments, fines, including treble damages, and suspension or prohibition from doing business with

25

the U.S. Government. In addition, if allegations of impropriety are made, Telephonics and we could suffer serious harm to our reputation.

Many of our contracts contain performance obligations that require innovative design capabilities, are technologically complex, or are dependent upon factors not wholly within our control. Failure to meet these obligations could adversely affect customer relations, future business opportunities, and our overall profitability.

Telephonics designs, develops and manufactures advanced and innovative surveillance and communication products for a broad range of applications for use in varying environments. As with many of our programs, system specifications, operational requirements and test requirements are challenging, exacerbated by the need for quick delivery schedules. Technical problems encountered and delays in the development or delivery of such products, as well as the inherent discretion involved in government approval related to compliance with applicable specifications of products supplied under government contracts, could prevent us from meeting contractual obligations, which could subject us to termination for default. Under a termination for default, we are entitled to negotiate payment for undelivered work if the Government requests the transfer of title and delivery of partially completed supplies and materials. Conversely, if the Government does not make this request, there is no obligation to reimburse us for costs incurred. We may also be subject to the repayment of advance and progress payments, if any. Additionally, we may be liable to the Government for any of its excess costs incurred in acquiring supplies and services similar to those terminated for default, and for other damages. Should any of the foregoing events occur, it could result in a material adverse effect on our financial position.

Our business could be negatively affected by cyber or other security threats or other disruptions.

As a U.S. defense contractor, Telephonics may be the target of cyber security threats to its information technology infrastructure and unauthorized attempts to gain access to sensitive information. The types of threats could vary from attacks common to most industries to more advanced and persistent, highly organized adversaries who target us because of national security information in our possession. If we are unable to protect sensitive information, our customers or governmental authorities could question the adequacy of our security processes and procedures and our compliance with evolving government cyber security requirements for government contractors. Due to the evolving nature of these security threats, however, the impact of any future incident cannot be predicted.

The costs related to cyber or other security threats or disruptions could be significant. Security events such as these could adversely affect our internal operations, our future financial results, our reputation, as well as result in the loss of competitive advantages derived from our research and development efforts and other intellectual property.

If our subcontractors or suppliers fail to perform their obligations, our performance and our ability to win future business could be harmed.

We rely on other companies to provide materials, major components and products to fulfill our contractual obligations. Such arrangements may involve subcontracts, teaming arrangements, or supply agreements with other companies. There is a risk that we may have disputes regarding the quality and timeliness of work performed. In addition, changes in the economic environment, including defense budgets and constraints on available financing, may adversely affect the financial stability of our supply chain and their ability to meet their performance requirements or to provide needed supplies on a timely basis. A disruption or failure of any supplier could have an adverse effect on the business resulting in an impact to profitability, possible termination of a contract, imposition of fines or penalties, and harm to our reputation impacting our ability to secure future business.

Our companies must continually improve existing products, design and sell new products and invest in research and development in order to compete effectively.

The markets for PPC and Telephonics are characterized by rapid technological change, evolving industry standards and continuous improvements in products. Due to constant changes in these markets, future success depends on their ability to develop new technologies, products, processes and product applications.

Product and technological developments are accomplished both through internally-funded R&D projects, as well as through strategic partnerships with customers. Because it is not generally possible to predict the amount of time required and costs involved in achieving certain R&D objectives, actual development costs may exceed budgeted amounts and estimated product development schedules may be extended. Our financial condition and results of operations may be materially and adversely affected if:

product improvements are not completed on a timely basis;

26

new products are not introduced on a timely basis or do not achieve sufficient market penetration; there are budget overruns or delays in R&D efforts; or new products experience reliability or quality problems, or otherwise do not meet customer preferences or requirements.

We may be unable to implement our acquisition growth strategy, which may result in added expenses without a commensurate increase in revenue and income and divert management's attention.

Making strategic acquisitions is a significant part of our growth plans. The ability to successfully complete acquisitions depends on identifying and acquiring, on acceptable terms, companies that either complement or enhance currently held businesses or expand us into new profitable businesses, and, for certain acquisitions, obtaining financing on acceptable terms. We regularly review potential acquisition opportunities and frequently participate in processes in which we submit indications of interest and occasionally may enter into letters of intent. While we incur expenses in evaluating potential acquisition candidates and conducting due diligence, very few of these expressions of interest result in actual acquisitions. Given the number of acquisition candidates we evaluate, however, it is possible that we will effect an acquisition in the near term as a result of our ongoing acquisition growth strategy.

Additionally, we must properly integrate acquired businesses in order to maximize profitability. The competition for acquisition candidates is intense and we cannot assure that we will successfully identify acquisition candidates and complete acquisitions at reasonable purchase prices, in a timely manner, or at all. Further, there is a risk that acquisitions will not be properly integrated into our existing structure. In implementing an acquisition growth strategy, the following may be encountered:

- costs associated with incomplete or poorly implemented acquisitions;
- expenses, delays and difficulties of integrating acquired companies into our existing organization;
- dilution of the interest of existing stockholders;
- diversion of management's attention; or
- difficulty in obtaining financing on acceptable terms, or at all.

An unsuccessful implementation of our acquisition growth strategy could have an adverse impact on our results of operations, cash flows and financial condition.

The loss of certain key officers or employees could adversely affect our business.

Our success is materially dependent upon the continued services of certain key officers and employees. The loss of such key personnel could have a material adverse effect on our operating results or financial condition.

We are exposed to a variety of risks relating to non-U.S. sales and operations, including non-U.S. economic and political conditions and fluctuations in exchange rates.

We and our companies conduct operations in Germany, Canada, Brazil, Australia and China, and sell our products in many countries around the world. Sales of products through non-U.S. subsidiaries accounted for approximately 21% and 20% of consolidated revenue for the year ended September 30, 2015 and the six months ended March 31, 2016, respectively. These sales could be adversely affected by changes in political and economic conditions, trade protection measures, our ability to enter into industrial cooperation agreements (off-set agreements), differing intellectual property rights laws and changes in regulatory requirements that restrict the sales of products or increase costs in such locations. Enforcement of existing laws in such jurisdictions can be uncertain, and the lack of a sophisticated body of laws can create various uncertainties, including with respect to customer and supplier contracts. Currency fluctuations between the U.S. dollar and the currencies in the non-U.S. regions in which we do business may also have an impact on future reported financial results.

Our international sales and operations are subject to applicable laws relating to trade, export controls and foreign corrupt practices, the violation of which could adversely affect our operations. We are subject to various anti-corruption laws that prohibit improper payments or offers of payments to foreign governments and their officials for the purpose of obtaining or retaining business. In addition, we are subject to export controls, laws and regulations applicable to us, including the Arms Export Control Act, the International Traffic in Arms Regulation and the Export Administration Regulations, and economic sanctions laws and embargoes imposed by various governments or organizations, including the U.S. and the European Union or member countries. Violations of anti-corruption, export controls, or sanctions laws may result in severe criminal or civil sanctions and penalties, including debarments from

export privileges, loss of authorizations needed to conduct our

27

international business, may harm our ability to enter into contracts with the U.S. Government, and we may be subject to other liabilities, which could have a material adverse effect on our business, results of operations and financial condition.

We may not be able to protect our proprietary rights.

We rely on a combination of patent, copyright and trademark laws, trade secrets, confidentiality and non-disclosure agreements and other contractual provisions to protect proprietary rights. Such measures do not provide absolute protection and we cannot give assurance that measures for protecting these proprietary rights are and will be adequate, or that competitors will not independently develop similar technologies.

We may inadvertently infringe on, or may be accused of infringing on, proprietary rights held by another party. We are regularly improving our technology and employing existing technologies in new ways. Though we take reasonable precautions to ensure we do not infringe on the rights of others, it is possible that we may inadvertently infringe on, or may be accused of infringing on, proprietary rights held by others. If we are found to have infringed on the propriety rights held by others, any related litigation or settlement relating to such infringement may have a material effect on our business, results of operations and financial condition.

We are exposed to product liability and warranty claims.

We are subject to product liability and warranty claims in the ordinary course of business, including with respect to former businesses now included within discontinued operations. These claims relate to the conformity of our products with required specifications, and to alleged or actual defects in our products (or in end-products in which our products were a component part) that cause damage to property or persons. There can be no assurance that the frequency and severity of product liability claims brought against us will not increase, which claims can be brought by a customer injured by an end product, by a retailer that sold an end product to a consumer, by a distributor, or by a manufacturer who purchased our product to use as a component of another product, among others. There is also no assurance that the number and value of warranty claims will not increase as compared to historical claim rates, or that our warranty reserve at any particular time is sufficient. No assurance can be given that indemnification from customers or coverage under insurance policies will be adequate to cover future product liability claims against us; for example, product liability insurance typically does not cover claims for punitive damages. Warranty claims are typically not covered by insurance at all. Product liability insurance can be expensive, difficult to maintain and may be unobtainable in the future on acceptable terms. The amount and scope of any insurance coverage may be inadequate if a product liability claim is successfully asserted. Furthermore, if any significant claims are made, the business and our related financial condition may be adversely affected by negative publicity.

We have been, and may in the future be, subject to claims and liabilities under environmental laws and regulations.

Our operations and assets are subject to environmental laws and regulations pertaining to the discharge of materials into the environment, the handling and disposal of wastes, including solid and hazardous wastes, or otherwise relating to health, safety and protection of the environment, in various jurisdictions in which we operate. We do not expect to make any expenditure with respect to ongoing compliance with or remediation under these environmental laws and regulations that would have a material adverse effect on our business, operating results or financial condition.

However, the applicable requirements under environmental laws and regulations may change at any time.

We can incur environmental costs related to sites that are no longer owned or operated by us, as well as third-party sites to which hazardous materials are sent. Material expenditures or liabilities may be incurred in connection with such claims. See the Commitment and Contingencies footnote in our audited consolidated financial statements, which are incorporated herein by reference, for further information on environmental contingencies. Based on facts presently known, the outcome of current environmental matters are not expected to have a material adverse effect on our results of operations and financial condition. However, presently unknown environmental conditions, changes in environmental laws and regulations or other unanticipated events may give rise to claims that may involve material expenditures or liabilities.

Changes in income tax laws and regulations or exposure to additional income tax liabilities could adversely affect profitability.

We are subject to federal, state and local income taxes in the United States and in various taxing jurisdictions outside the United States. Tax provisions and liabilities are subject to the allocation of income among various U.S. and

international tax jurisdictions. Our effective tax rate could be adversely affected by changes in the mix of earnings in countries with differing statutory tax rates, changes in any valuation allowance for deferred tax assets or the amendment or enactment of tax laws. The amount of income taxes paid is subject to audits by U.S. federal, state and local tax authorities, as well as tax

authorities in the taxing jurisdictions outside the United States. If such audits result in assessments different from recorded income tax liabilities, our future financial results may include unfavorable adjustments to our income tax provision.

In addition, even if our results of operations, financial condition and liquidity, and the development of the industry in which we operate are consistent with the forward-looking statements contained in this prospectus, those results of operations, financial condition and liquidity or developments may not be indicative of results or developments in subsequent periods.

Among the factors that may cause actual results and expectations to differ from anticipated results and expectations expressed in such forward-looking statements are the following:

- short-term capacity constraints or prolonged excess capacity;
- unforeseen developments in contingencies, such as litigation and environmental matters;
- unfavorable results of government agency contract audits of Telephonics;
- possible cyber or other security threats to our infrastructure;
- our ability to adequately protect and maintain the validity of patent and other intellectual property rights;

the cyclical nature of the businesses of certain of our operating companies; and possible terrorist threats and actions and their impact on the global economy.

Readers are cautioned not to place undue reliance on these forward-looking statements. These forward-looking statements speak only as of the date made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless expressed as such, and should only be viewed as historical data.

USE OF PROCEEDS

We will not receive any cash proceeds from this exchange offer. Because we are exchanging the exchange notes for the old notes, which have substantially identical terms, the issuance of the exchange notes will not result in any increase in our indebtedness. We are making this exchange solely to satisfy our obligations under the registration rights agreement entered into in connection with the offering of the old notes.

The net proceeds from the add-on offering were approximately \$121 million, including the note premium and accrued interest from March 1, 2016 to the date of issuance and after deducting the initial purchaser's discount. These net proceeds were used (i) to repay a portion of our outstanding borrowings under our revolving credit facility and (ii) for the payment of related fees and expenses. Subsequently we may re-borrow amounts repaid under its revolving credit facility for general corporate purposes, including to fund acquisitions and for share repurchases.

RATIO OF EARNINGS TO FIXED CHARGES

Our consolidated ratio of earnings to fixed charges was as follows for the periods presented:

	Year Ended September 30,					Six Months Ended March 31,	
	2011	2012	2013	2014	2015	2015	2016
Ratio of Earnings to Fixed Charges	0.8x	1.3x	1.2x	0.9x	1.8x	1.6x	1.7x

Amounts by which earnings are inadequate to cover fixed charges	\$14,981	—	—	\$6,576	—	—	—
---	----------	---	---	---------	---	---	---

Ratio of earnings to fixed charges is calculated by dividing earnings by fixed charges from operations for the periods indicated. For purposes of calculating the ratio of earnings to fixed charges, (a) earnings represents pre-tax income from continuing operations plus fixed charges plus capitalized interest amortization less capitalized interest and (b) fixed charges represents interest expense plus capitalized interest plus the portion of rent expense deemed to be the equivalent of interest.

The following table sets forth our cash and capitalization as of March 31, 2016 on a historical basis and on an as adjusted basis to give effect to the add-on offering and the application of the net proceeds therefrom. DESCRIPTION OF OTHER INDEBTEDNESS

The following description of some important terms of some of our indebtedness is not complete and does not contain all the information that may be important to you. For a more complete understanding of our indebtedness, we encourage you to obtain and read the agreements and documents governing this indebtedness, which we will provide to you upon your request. See “Where You Can Find More Information.”

Existing Exchange Notes

The old notes being offered to be exchanged hereby were issued as additional notes under the indenture pursuant to which the Company previously issued \$600.0 million of its 5.25% Senior Notes due 2022. The exchange notes will rank equally with and form a part of a single class of securities with the existing exchange notes for all purposes under the indenture dated February 27, 2014. For a description of the terms of the existing exchange notes, see “Description of Notes.”

Revolving Credit Facility

On March 13, 2015, Griffon and certain of its subsidiaries amended and restated its revolving credit facility, which was originally entered into on March 18, 2011. The other parties to the Second Amended and Restated Credit Agreement (the “Amended Credit Agreement”) are the several banks and other financial institutions or entities from time to time parties thereto as lenders, Deutsche Bank Securities Inc., as syndication agent, Wells Fargo Bank, National Association, HSBC Bank USA, N.A, and Citizens Bank, National Association, as co-documentation agents, and JPMorgan Chase Bank, N.A., as administrative agent. The Amended Credit Agreement increased the amount available under our revolving credit facility from \$225 million to \$250 million and extended its maturity to March 13, 2020. Our revolving credit facility includes a letter of credit sub-facility with a limit of \$50 million, a multi-currency sub-facility of \$50 million and in lieu of a swingline sub-facility, same day borrowings of base rate loans. Borrowings under our revolving credit facility may be repaid and re-borrowed at any time, subject to final maturity of our revolving credit facility or the occurrence of a default or event of default under our revolving credit facility. Interest is payable on borrowings at either a LIBOR or base rate benchmark rate, in each case without a floor, plus an applicable margin, which adjusts based on financial performance. The current margins are 1.25% for base rate loans and 2.25% for LIBOR loans.

Our revolving credit facility has three financial maintenance tests, a consolidated leverage ratio, a consolidated senior secured leverage ratio and a consolidated interest coverage ratio, as well as customary affirmative and negative covenants and events of default. Our revolving credit facility also includes certain restrictions, such as limitations on the incurrence of indebtedness and liens and the making of restricted payments and investments. Borrowings under our revolving credit facility are guaranteed by our material domestic subsidiaries and are secured, on a first priority basis, by substantially all assets (except real estate) of Griffon and the guarantors and a pledge of not greater than 65% of the equity interest in each of our material, first-tier foreign subsidiaries.

On March 22, 2016, Griffon and certain of its subsidiaries amended and restated its revolving credit facility to, among other things, increase the size of the facility from \$250 million to \$350 million and extend its maturity to March 22, 2021.

At March 31, 2016, outstanding borrowings and standby letters of credit were \$122.5 million and \$15.9 million, respectively, under the Credit Agreement; \$211.6 million was available, subject to certain covenants, for borrowing at that date. See “See of Proceeds.”

Convertible Subordinated Notes

On December 21, 2009, Griffon issued and sold \$100.0 million principal amount of its 4.00% convertible subordinated notes due 2017 pursuant to a purchase agreement, dated as of December 16, 2009, between Griffon and Goldman, Sachs & Co., as representative for the several purchasers named therein. The net proceeds from this offering, after deducting the initial purchaser’s discount and the estimated offering expenses, were approximately \$95.9 million.

The convertible subordinated notes and the common stock issuable upon conversion of such notes have not been registered under the Securities Act and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirement. The subordinated convertible notes were sold in a private placement and resold by the initial purchasers to qualified institutional buyers pursuant to Rule 144A of the Securities

Act. Shares of common stock issuable upon conversion of the subordinated convertible notes have been reserved for issuance by Griffon and we have applied for such shares to be listed on the New York Stock Exchange.

The subordinated convertible notes will mature on January 15, 2017, unless earlier repurchased by Griffon at the holder's option or converted. Interest on the subordinated convertible notes is payable semiannually at a rate of 4.00% per annum on January 15 and July 15 of each year.

Holders may convert their subordinated convertible notes prior to the close of business on the business day immediately preceding July 15, 2016 only under certain circumstances. On and after July 15, 2016, a holder may convert its subordinated convertible notes in integral multiples of \$1,000 principal amount at any time until the close of business on the second scheduled trading day immediately preceding the maturity date. The current conversion rate of the subordinated convertible notes is 70.1632 shares of our common stock per \$1,000 principal amount of subordinated convertible notes, corresponding to an initial conversion price of approximately \$14.25 per share of common stock, subject to adjustment as set forth in the indenture governing the subordinated convertible notes. In lieu of delivering shares of our common stock, we may settle any conversion of subordinated convertible notes through the delivery of cash or a combination of cash and shares of common stock.

Upon the occurrence of a fundamental change, holders will have the option to require Griffon to repurchase in cash all or any portion of their subordinated convertible notes in an integral multiple of \$1,000 principal amount. The fundamental change repurchase price will equal 100% of the principal amount of the subordinated convertible notes to be repurchased, plus accrued and unpaid interest, if any, to, but excluding, the fundamental change repurchase date. The outstanding balance of these notes on March 31, 2016 was \$100 million and the fair value was approximately \$115.4 million.

The Term Loan requires quarterly principal payments of \$0.6 million, with a balloon payment of approximately \$30.1 million due at maturity on December 31, 2018. During 2014, 1,591,117 shares of Griffon common stock, for a total of \$20.0 million or \$12.57 per share, were purchased with proceeds from one of the Line Notes. The Term Loan is secured by shares purchased with the proceeds of the loan and with a lien on a specific amount of Griffon assets (which lien ranks pari passu with the lien granted on such assets under the Credit Agreement) and is guaranteed by Griffon.

Real Estate Mortgages

In September 2015 and March 2016, we entered into mortgage loans in the amount of \$32.3 million and \$8.0 million, respectively. The mortgage loans are secured by four properties occupied by Griffon's subsidiaries, refinancing two existing real estate mortgages and providing new mortgages on two existing real estate properties. The loans mature in September 2025, are collateralized by the specific properties financed and are guaranteed by us. The loans bear interest at a rate of LIBOR plus 1.50%. At March 31, 2016, \$38.6 million was outstanding under the mortgages, net of issuance costs.

At March 31, 2016, we and our subsidiaries were in compliance with the terms and covenants of our credit and loan agreements.

THE EXCHANGE OFFER

Purpose and Effect of the Exchange Offer

On May 18, 2016, we issued and sold the old notes to the initial purchaser without registration under the Securities Act pursuant to the exemption set forth in Section 4(a)(2) of the Securities Act. The initial purchaser subsequently sold the old notes to qualified institutional buyers in reliance on Rule 144A and Regulation S under the Securities Act. Because the old notes are subject to transfer restrictions, we entered into the registration rights agreement under which we agreed to:

- file with the SEC the registration statement of which this prospectus is a part by November 14, 2016;
- use commercially reasonable efforts to cause the registration statement to become effective by February 13, 2017;
- use commercially reasonable efforts to complete the exchange offer by April 13, 2017; and
- file a shelf registration statement for the resale of the old notes if we cannot effect an exchange offer by April 13, 2017 and in certain other circumstances.

The registration statement is intended to satisfy our exchange offer obligations under the registration rights agreement. Under existing interpretations of the SEC, we believe that the exchange notes will be freely transferable by holders other than our affiliates after the exchange offer without further registration under the Securities Act if the holder of the exchange notes represents that:

- it is acquiring the exchange notes in the ordinary course of its business;
- it has no arrangement or understanding with any person to participate in the distribution of the exchange notes and is not participating in, and does not intend to participate in, the distribution of such exchange notes;
- it is not an affiliate of us, as that term is interpreted by the SEC; and
- it is not engaged in, and does not intend to engage in, a distribution of the exchange notes.

However, each broker-dealer that receives exchange notes for its own account in exchange for old notes, where such old notes were acquired by such broker-dealer as a result of market-making or other trading activities (a “participating broker dealer”) will have a prospectus delivery requirement with respect to resales of such exchange notes. The SEC has taken the position that participating broker-dealers may fulfill their prospectus delivery requirements with respect to the exchange notes (other than a resale of an unsold allotment from the original sale of the old notes) with this prospectus. Under the registration rights agreement, we are required to allow participating broker-dealers and other persons, if any, with similar prospectus delivery requirements to use this prospectus in connection with the resale of the exchange notes. See “Plan of Distribution.”

The form and terms of the exchange notes are substantially the same as the form and terms of the old notes, except that the exchange notes will be registered under the Securities Act; will not bear restrictive legends restricting their transfer under the Securities Act; will not be entitled to the registration rights that apply to the old notes; and will not contain provisions relating to increased interest rates in connection with the old notes under circumstances related to the timing of the exchange offer.

The exchange notes will evidence the same debt as the old notes. The exchange notes will be issued under and entitled to the benefits of the same indenture that authorized the issuance of the old notes. For a description of the indenture, see “Description of Notes.”

If we and the guarantors fail to meet certain specified deadlines under the registration rights agreement, we will be obligated to pay an increased interest rate on the old notes.

A copy of the registration rights agreement has been filed with the SEC as Exhibit 4.1 to our Current Report on Form 8-K dated May 18, 2016 and is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part.

Terms of the Exchange Offer

We are offering to exchange an aggregate principal amount of up to \$125 million of our exchange notes for a like amount of our old notes. The old notes must be tendered properly in accordance with the conditions set forth in this prospectus and the accompanying letter of transmittal on or prior to the expiration date and not withdrawn as permitted below. The exchange offer is not conditioned upon holders tendering a minimum principal amount of old notes. As of the date of this prospectus, all of the old notes are outstanding.

Old notes tendered in the exchange offer must be in denominations of a principal amount of \$2,000 and any integral multiple of \$1,000 in excess thereof.

Holders of the old notes do not have any appraisal or dissenters' rights in connection with the exchange offer. If you do not tender your old notes or if you tender old notes that we do not accept, your old notes will remain outstanding and continue to accrue interest and you will be entitled to the rights and benefits holders have under the indenture relating to the old notes and the exchange notes. Existing transfer restrictions would continue to apply to such old notes. See "Risk Factors—Risks Related to the Exchange Offer—If you fail to exchange your old notes for exchange notes, your old notes will continue to be subject to restrictions on transfer and may become less liquid" for more information regarding old notes outstanding after the exchange offer.

None of us or the guarantors, or our respective boards of directors or management, recommends that you tender or not tender old notes in the exchange offer or has authorized anyone to make any recommendation. You must decide whether to tender in the exchange offer and, if you decide to tender, the aggregate amount of old notes to tender. The expiration date is 5:00 p.m., New York City time, on July 19, 2016, or such later date and time to which the exchange offer is extended.

We have the right, in accordance with applicable law, at any time:

- to delay the acceptance of the old notes;
- to terminate the exchange offer and not accept any old notes for exchange if we determine that any of the conditions to the exchange offer have not occurred or have not been satisfied;
- to extend the expiration date of the exchange offer and retain all old notes tendered in the exchange offer other than those notes properly withdrawn; and
- to waive any condition or amend the terms of the exchange offer in any manner.

If we materially amend the exchange offer, we will as promptly as practicable distribute a prospectus to the holders of the old notes disclosing the change and extend the exchange offer for a period of five to ten business days, depending upon the significance of the amendment and the manner of disclosure to the registered holders, if the exchange offer would otherwise expire during the five to ten business day period.

If we exercise any of the rights listed above, we will as promptly as practicable give oral or written notice of the action to the exchange agent and will make a public announcement of such action. In the case of an extension, an announcement will be made no later than 9:00 a.m., New York City time on the next business day after the previously scheduled expiration date. Without limiting the manner in which we may choose to make public announcements of any delay in acceptance, extension, termination or amendment of the exchange offer, we will have no obligation to publish, advertise, or otherwise communicate any public announcement, other than by making a timely release to a financial news service.

During an extension, all old notes previously tendered will remain subject to the exchange offer and may be accepted for exchange by us. Any old notes not accepted for exchange for any reason will be returned without cost to the holder that tendered them promptly after the expiration or termination of the exchange offer.

We will accept all old notes validly tendered and not withdrawn. Promptly after the expiration date, we will issue exchange notes registered under the Securities Act to the exchange agent.

The exchange agent might not deliver the exchange notes to all tendering holders at the same time. The timing of delivery depends upon when the exchange agent receives and processes the required documents.

We will be deemed to have exchanged old notes validly tendered and not withdrawn when we give oral or written notice to the exchange agent of our acceptance of the tendered old notes, with written confirmation of any oral notice to be given promptly thereafter. The exchange agent is our agent for receiving tenders of old notes, letters of transmittal and related documents.

In tendering old notes, you must warrant in the letter of transmittal or in an agent's message (described below) that:

- you have full power and authority to tender, exchange, sell, assign and transfer old notes;
- we will acquire good, marketable and unencumbered title to the tendered old notes, free and clear of all liens, restrictions, charges and other encumbrances; and
- the old notes tendered for exchange are not subject to any adverse claims or proxies.

You also must warrant and agree that you will, upon request, execute and deliver any additional documents requested by us or the exchange agent to complete the exchange, sale, assignment and transfer of the old notes.

Additionally, each broker-dealer that receives exchange notes for its own account in exchange for old notes, where such old notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. See "Plan of Distribution."

Procedures for Tendering Old Notes

Valid Tender

We have forwarded to you, along with this prospectus, a letter of transmittal relating to this exchange offer. The letter of transmittal is to be completed by a holder of old notes either if (1) a tender of old notes is to be made by delivering physical certificates for such old notes to the exchange agent or (2) unless an agent's message is transmitted in lieu of a letter of transmittal, a tender of old notes is to be made by book-entry transfer to the account of the exchange agent at DTC.

Only a holder of record of old notes may tender old notes in the exchange offer. To tender in the exchange offer, a holder must comply with the procedures of DTC and:

- complete, sign and date the letter of transmittal, or a facsimile of the letter of transmittal; have the signature on the letter of transmittal guaranteed if the letter of transmittal so requires; and deliver the letter of transmittal or facsimile to the exchange agent prior to the expiration date; or
- generate a message to the exchange agent in which the holder of the old notes acknowledges and agrees to be bound by the terms of, and to make all of the representations contained in, the letter of transmittal, which computer-generated message shall be received by the exchange agent prior to 5:00 p.m., New York City time, on the expiration date or such other internal deadline set by DTC as the case may be.

In addition, either:

- the exchange agent must receive old notes along with the letter of transmittal; or
- the exchange agent must receive, before expiration of the exchange offer, timely confirmation of book-entry transfer of such old notes into the exchange agent's account at DTC, according to the procedure for book-entry transfer described below.

To be tendered effectively, the exchange agent must receive any physical delivery of the letter of transmittal and other required documents at the address set forth below under the caption "—Exchange Agent" before expiration of the exchange offer. To receive confirmation of valid tender of old notes, a holder should contact the exchange agent at the telephone number listed under the caption "—Exchange Agent."

A tender by a holder that is accepted by us and not withdrawn before expiration of the exchange offer will constitute a binding agreement between that holder and us in accordance with the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal. If you tender fewer than all of your old notes, you should fill in the amount of notes tendered in the appropriate box on the letter of transmittal. The amount of old notes delivered to the exchange agent will be deemed to have been tendered unless otherwise indicated.

The method of delivery of the certificates for the old notes, the letter of transmittal and all other required documents is at the election and sole risk of the holders. If delivery is by mail, we recommend registered mail with return receipt requested, properly insured, or overnight delivery service. In all cases, you should allow sufficient time to assure timely delivery. No letters of transmittal or old notes should be sent directly to us. Delivery is complete when the exchange agent actually receives the items to be delivered. Delivery of documents to DTC in accordance with its procedures does not constitute delivery to the exchange agent.

If you beneficially own old notes and those notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee or custodian and you wish to tender your old notes in the exchange offer, you should contact the registered holder as soon as possible and instruct it to tender the old notes on your behalf and comply with the instructions set forth in this prospectus and the letter of transmittal.

If the applicable letter of transmittal is signed by the record holder(s) of the old notes tendered, the signature must correspond with the name(s) written on the face of the old note without alteration, enlargement or any change whatsoever. If the applicable letter of transmittal is signed by a participant in DTC, the signature must correspond with the name as it appears on the security position listing as the holder of the old notes.

If any letter of transmittal, endorsement, bond power, power of attorney, or any other document required by the letter of transmittal is signed by a trustee, executor, administrator, guardian, attorney-in-fact, officer of a corporation or other person acting in a fiduciary or representative capacity, that person must indicate such capacity when signing. In addition, unless waived by us, the person must submit proper evidence satisfactory to us, in our sole discretion, of his or her authority to so act.

Holders should receive copies of the letter of transmittal with the prospectus. A holder may obtain additional copies of the letter of transmittal for the old notes from the exchange agent at its offices listed under the caption “—Exchange Agent.”

Signature Guarantees

Signatures on a letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed by an eligible institution unless the old notes surrendered for exchange are tendered:

• by a registered holder of old notes who has not completed the box entitled “Special Issuance Instructions” or “Special Delivery Instructions” on the letter of transmittal; or
• for the account of an eligible institution.

An “eligible institution” is a firm or other entity which is identified as an “Eligible Guarantor Institution” in Rule 17Ad-15 under the Exchange Act, including:

- a bank;
- a broker, dealer, municipal securities broker or dealer or government securities broker or dealer;
- a credit union;
- a national securities exchange, registered securities association or clearing agency; or
- a savings association.

If old notes are registered in the name of a person other than the signer of the letter of transmittal, the old notes surrendered for exchange must be endorsed or accompanied by a written instrument or instruments of transfer or exchange, in satisfactory form as determined by us in our sole discretion, duly executed by the registered holder with the holder’s signature guaranteed by an eligible institution.

DTC Book-Entry Transfers

For tenders by book-entry transfer of old notes cleared through DTC, the exchange agent will make a request to establish an account at DTC for purposes of the exchange offer. Any financial institution that is a DTC participant may make book-entry delivery of old notes by causing DTC to transfer the old notes into the exchange agent’s account at DTC in accordance with DTC’s procedures for transfer. The exchange agent and DTC have confirmed that any financial institution that is a participant in DTC may use the Automated Tender Offer Program, or ATOP, procedures to tender old notes.

Accordingly, any participant in DTC may make book-entry delivery of old notes by causing DTC to transfer those old notes into the exchange agent's account in accordance with its ATOP procedures for transfer.

Notwithstanding the ability of holders of old notes to effect delivery of old notes through book-entry transfer at DTC, the letter of transmittal or a facsimile thereof, or an agent's message in lieu of the letter of transmittal, with any required signature guarantees and any other required documents must be transmitted to and received by the exchange agent prior to the expiration date at the address given below under "—Exchange Agent." In this context, the term "agent's message" means a message, transmitted by DTC and received by the exchange agent and forming part of a book-entry confirmation, which states that DTC has received an express acknowledgment from a participant tendering old notes that are the subject of the book-entry confirmation that the participant has received and agrees to be bound by the terms of the letter of transmittal, and that we may enforce that agreement against the participant.

Determination of Validity

We will resolve all questions regarding the form of documents, validity, eligibility, including time of receipt, and acceptance for exchange and withdrawal of any tendered old notes. Our determination of these questions as well as our interpretation of the terms and conditions of the exchange offer, including the letter of transmittal, will be final and binding on all parties. A tender of old notes is invalid until all defects and irregularities have been cured or waived. Holders must cure any defects and irregularities in connection with tenders of old notes for exchange within such reasonable period of time as we will determine, unless we waive the defects or irregularities. None of us, any of our affiliates or assigns, the exchange agent or any other person is under any obligation to give notice of any defects or irregularities in tenders, nor will we or they be liable for failing to give any such notice.

We reserve the absolute right, in our sole and absolute discretion:

- to reject any tenders determined to be in improper form or unlawful;
- to waive any of the conditions of the exchange offer; and
- to waive any condition or irregularity in the tender of old notes by any holder.

Any waiver to the exchange offer will apply to all old notes tendered.

Resales of Exchange notes

Based on existing SEC interpretations issued to third parties in unrelated transactions, we believe that the exchange notes will be freely transferable by holders other than our affiliates after the registered exchange offer without further registration under the Securities Act if the holder is acquiring the exchange notes in the ordinary course of its business, has no arrangement or understanding with any person to participate in the distribution of the exchange notes and is not an affiliate of us, as such terms are interpreted by the SEC; provided that broker-dealers receiving exchange notes in the exchange offer will have a prospectus delivery requirement with respect to resales of such exchange notes. While the SEC has not taken a position with respect to this particular transaction, under existing SEC interpretations relating to transactions structured substantially like the exchange offer, participating broker-dealers may fulfill their prospectus delivery requirements with respect to the exchange notes (other than a resale of an unsold allotment of the notes) with the prospectus contained in the exchange offer registration statement. We will not seek our own interpretive letter. As a result, we cannot assure you that the staff will take the same position on this exchange offer as it did in interpretive letters to other parties in similar transactions.

By tendering old notes, the holder, other than participating broker-dealers, as defined below, of those old notes will represent to us that, among other things:

- the exchange notes acquired in the exchange offer are being obtained in the ordinary course of business of the person receiving the exchange notes, whether or not that person is the holder;
 - neither the holder nor any other person receiving the exchange notes is engaged in, intends to engage in or has an arrangement or understanding with any person to participate in a "distribution" (as defined under the Securities Act) of the exchange notes; and
- neither the holder nor any other person receiving the exchange notes is an "affiliate" (as defined under the Securities Act) of us.

If any holder or any such other person is an "affiliate" of us or is engaged in, intends to engage in or has an arrangement or understanding with any person to participate in a "distribution" of the exchange notes, such holder or other person:

may not rely on the applicable interpretations of the staff of the SEC referred to above; and
must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker-dealer that receives exchange notes for its own account in exchange for old notes must represent that the old notes to be exchanged for the exchange notes were acquired by it as a result of market-making activities or other trading activities and acknowledge that it will deliver a prospectus meeting the requirements of the Securities Act in connection with any offer to resell, resale or other retransfer of the exchange notes. Any such broker-dealer is referred to as a “participating broker-dealer.” However, by so acknowledging and by delivering a prospectus, the participating broker-dealer will not be deemed to admit that it is an “underwriter” (as defined under the Securities Act). If a broker-dealer acquired old notes as a result of market-making or other trading activities, it may use this prospectus, as amended or supplemented, in connection with offers to resell, resales or retransfers of exchange notes received in exchange for the old notes pursuant to the exchange offer. We have agreed that, for a period ending on the earlier of (i) 180 days from the date on which the registration statement of which this prospectus forms a part becomes or is declared effective and (ii) the date on which a broker-dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities, we will make this prospectus available to any broker-dealer for use in connection with any such resale. See “Plan of Distribution” for a discussion of the exchange and resale obligations of broker-dealers in connection with the exchange offer.

Withdrawal Rights

You can withdraw tenders of old notes at any time prior to 5:00 p.m., New York City time, on the expiration date. For a withdrawal to be effective, you must deliver a written notice of withdrawal to the exchange agent. The notice of withdrawal must:

- specify the name of the person tendering the old notes to be withdrawn;
- identify the old notes to be withdrawn, including the total principal amount of old notes to be withdrawn; and
- where certificates for old notes are transmitted, the name of the registered holder of the old notes if different from the person withdrawing the old notes.

If you delivered or otherwise identified old notes to the exchange agent, you must submit the serial numbers of the old notes to be withdrawn and the signature on the notice of withdrawal must be guaranteed by an eligible institution, except in the case of old notes tendered for the account of an eligible institution. If you tendered old notes as a book-entry transfer, the notice of withdrawal must specify the name and number of the account at DTC to be credited with the withdrawn old notes and you must deliver the notice of withdrawal to the exchange agent and otherwise comply with the procedures of the facility. You may not rescind withdrawals of tender; however, properly withdrawn old notes may again be tendered by following one of the procedures described under “—Procedures for Tendering Old Notes” above at any time prior to 5:00 p.m., New York City time, on the expiration date.

We will determine all questions regarding the form of withdrawal, validity, eligibility, including time of receipt, and acceptance of withdrawal notices. Our determination of these questions as well as our interpretation of the terms and conditions of the exchange offer (including the letter of transmittal) will be final and binding on all parties. None of us, any of our affiliates or assigns, the exchange agent or any other person is under any obligation to give notice of any irregularities in any notice of withdrawal, nor will we be liable for failing to give any such notice.

Withdrawn old notes will be returned to the holder after withdrawal. In the case of old notes tendered by book-entry transfer through DTC, the old notes withdrawn or not exchanged will be credited to an account maintained with DTC. Any old notes which have been tendered for exchange but which are not exchanged for any reason will be returned to the holder thereof without cost to the holder.

Conditions to the Exchange Offer

Notwithstanding any other provision of the exchange offer, we are not required to accept for exchange, or to issue exchange notes in exchange for, any old notes, and we may terminate or amend the exchange offer, if at any time prior to 5:00 p.m., New York City time, on the expiration date, we determine that:

- the exchange notes to be received will not be tradable by the holder without restriction under the Securities Act and the Exchange Act;
- we have not received all applicable governmental approvals;

the exchange offer, or the making of any exchange by a holder of old notes, would violate applicable law or any applicable interpretation or policy of the staff of the SEC; or any action or proceeding has been instituted or threatened in any court or by or before any governmental agency with respect to the exchange offer that would reasonably be expected to impair our ability to proceed with the exchange offer.

The foregoing conditions are for our sole benefit, and we may assert them regardless of the circumstances giving rise to any such condition, or we may waive the conditions, completely or partially, whenever or as many times as we choose, in our reasonable discretion. The foregoing rights are not deemed waived because we fail to exercise them, but continue in effect, and we may still assert them whenever or as many times as we choose. However, any such condition, other than any involving government approval, must be satisfied or waived before the expiration of the offer. If we determine that a waiver of conditions materially changes the exchange offer, the prospectus will be amended or supplemented, and the exchange offer extended, if appropriate, as described under “—Terms of the Exchange Offer.”

In addition, at a time when any stop order is threatened or in effect with respect to the registration statement of which this prospectus constitutes a part or with respect to the qualification of the indenture under the Trust Indenture Act of 1939, as amended, we will not accept for exchange any old notes tendered, and no exchange notes will be issued in exchange for any such old notes.

If we terminate or suspend the exchange offer based on a determination that the exchange offer violates applicable law or SEC policy, the registration rights agreement requires that we, as soon as practicable after such determination, use all commercially reasonable efforts to cause a shelf registration statement covering the resale of the old notes to be filed and use commercially reasonable efforts to cause such shelf registration statement to become or be declared effective by the SEC. See “—Registration Rights and Additional Interest on the Old Notes.”

Fees and Expenses

The registration rights agreement provides that we will bear all expenses in connection with the performance of our obligations relating to the registration of the exchange notes and the conduct of the exchange offer. These expenses

include registration and filing fees, accounting and legal fees and printing costs, among others. We will pay the exchange agent reasonable and customary fees for its services and reasonable out-of-pocket expenses. We will also reimburse brokerage houses and other custodians, nominees and fiduciaries for customary mailing and handling expenses incurred by them in

46

forwarding this prospectus and related documents to their clients that are holders of old notes and for handling or tendering for such clients.

We have not retained any dealer-manager in connection with the exchange offer and will not pay any fee or commission to any broker, dealer, nominee or other person, other than the exchange agent, for soliciting tenders of old notes pursuant to the exchange offer.

Transfer Taxes

Holders who tender their old notes for exchange will not be obligated to pay any transfer taxes in connection with the exchange. If, however, exchange notes issued in the exchange offer are to be delivered to, or are to be issued in the name of, any person other than the holder of the old notes tendered, or if a transfer tax is imposed for any reason other than the exchange of old notes in connection with the exchange offer, then the holder must pay any such transfer taxes, whether imposed on the registered holder or on any other person.

Accounting Treatment

The exchange notes will be recorded at the same carrying value as the old notes. Accordingly, we will not recognize any gain or loss for accounting purposes for the exchange transaction. We intend to amortize the expenses of the exchange offer and issuance of the old notes over the term of the exchange notes.

Registration Rights and Additional Interest on the Old Notes

If:

- applicable law or SEC policy do not permit us to effect the exchange offer contemplated by this prospectus; or
- for any other reason this exchange offer is not completed by April 13, 2017; or
- with respect to any holder of old notes:
 - such holder is prohibited by applicable law or SEC policy from participating in the exchange offer;
 - such holder may not resell the exchange notes acquired by it in the exchange offer to the public without delivering a prospectus and this prospectus is not appropriate or available for such resales by such holder; or
 - such holder is a broker-dealer and holds old notes acquired directly from us or one of our affiliates;

then, upon the such holder's request, Griffon will:

- as soon as practicable but no later than the deadline provided for in the registration rights agreement, file a shelf registration statement covering resales of the old notes or the exchange notes, as the case may be;
- use our commercially reasonable efforts to cause the shelf registration statement to become or be declared effective by the SEC no later than the deadline provided for in the registration rights agreement; and
- use our commercially reasonable efforts to keep the shelf registration statement continuously effective for a period of at least one year from the effective date of the shelf registration statement (or until all securities covered by the shelf registration statement have been sold in accordance therewith).

If:

- the exchange offer registration statement is not declared effective on or prior to February 13, 2017 (unless the exchange offer is not permissible under applicable law or SEC policy);
- the shelf registration statement is not filed or declared effective by the dates provided for in the registration rights agreement;
- the exchange offer is not consummated by April 13, 2017; or
- any registration statement required by the registration rights agreement is filed and declared effective but thereafter ceases to be effective or fails to be useable for its intended purpose

(each such event, a "registration default"), then the interest rate borne by the old notes will be increased by 0.25% per annum (such increase, the "additional interest") during the 90-day period immediately following the occurrence of any

registration default and will increase by 0.25% per annum at the beginning of each subsequent 90-day period, up to a maximum increase of 1.00% per annum. Following the cure of all registration defaults, the accrual of additional interest will cease.

DESCRIPTION OF NOTES

General

Certain terms used in this description are defined under the subheading “—Certain Definitions.” In this description, the terms “Issuer,” “we,” “our” and “us” each refer to Griffon Corporation and not any of its Subsidiaries.

We are offering to exchange up to \$125 million aggregate principal amount of our registered 5.25% senior notes due 2022 (the “exchange notes”) and related guarantees for an equal principal amount of our outstanding restricted 5.25% senior notes due 2022 (and related guarantees) that were issued on May 18, 2016 (the “old notes”). The old notes were issued as additional notes under the indenture, dated as of February 27, 2014 (the “Indenture”), among the Issuer, the Guarantors and Wells Fargo Bank, National Association, as trustee (the “Trustee”), pursuant to which we issued \$600 million in aggregate principal amount of our 5.25% senior notes due 2022 on February 27, 2014 that were subsequently exchanged on June 18, 2014 for notes registered under the Securities Act, which we refer to as the “existing exchange notes.” The old notes were issued as “Additional Notes” (as defined in the Indenture) and are treated as a single class with the existing exchange notes under the Indenture, except that the old notes have registration rights and related additional interest terms and are subject to restrictions on transfer. The exchange notes are expected to have the same CUSIP and ISIN numbers as, and to trade fungibly with, the existing exchange notes. The terms of the exchange notes will include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act. Unless the context otherwise requires, the term “notes” includes the old notes, the exchange notes and the existing exchange notes.

The following description is only a summary of the material provisions of the Indenture, does not purport to be complete and is qualified in its entirety by reference to the provisions of the Indenture, including the definitions therein of certain terms used below. We urge you to read the Indenture because it, and not this description, will define your rights as Holders of the notes. A copy of the Indenture has been filed with the SEC as Exhibit 4.1 to our Current Report on Form 8-K dated February 27, 2014 and is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part. You may also request copies of the Indenture at our address set forth under the heading “Prospectus Summary.”

Brief Description of the Exchange Notes

- unsecured senior obligations of the Issuer; initially unconditionally Guaranteed on a joint and several and senior unsecured basis by The AMES Companies, Inc., ATT Southern, Inc., Clopay Ames True Temper Holding Corp., Clopay Building Products Company, Inc., Clopay Plastic Products Company, Inc. and Telephonics Corporation.;
- equal in right of payment to all existing and future unsecured Indebtedness and other obligations of the Issuer and the Guarantors that are not, by their terms, expressly subordinated in right of payment to the notes;
- effectively subordinated to all secured existing and future Indebtedness and other obligations of the Issuer and the Guarantors (including the obligations, if any, of the Issuer and the Guarantors under the Senior Credit Facility) to the extent of the value of the collateral securing such Indebtedness and other obligations;
- structurally subordinated to all indebtedness of the Issuer’s non-Guarantor subsidiaries; and
- senior in right of payment to any existing and future Subordinated Indebtedness of the Issuer and the Guarantors.

Guarantees

The Guarantors, as primary obligors and not merely as sureties, will initially jointly and severally fully and unconditionally guarantee, on an unsecured senior basis, the performance and full and punctual payment when due, whether at maturity, by acceleration or otherwise, of all obligations of the Issuer under the Indenture and the exchange notes, whether for payment of principal of, premium, if any, or interest or Additional Interest in respect of the exchange notes, expenses, indemnification or otherwise, on the terms set forth in the Indenture by executing the Indenture.

Our Restricted Subsidiaries, The AMES Companies, Inc., ATT Southern, Inc., Clopay Ames True Temper Holding Corp., Clopay Building Products Company, Inc., Clopay Plastic Products Company, Inc. and Telephonics Corporation, will initially guarantee the notes. Following the Issue Date, Restricted Subsidiaries of the Issuer are

required to become Guarantors to the extent required by the covenant described under “Certain Covenants—Subsidiary Guarantees.” Each of the Guarantees of the exchange notes will be a general unsecured obligation of each Guarantor and will rank equally in right of payment with all existing and future unsecured Indebtedness and other obligations of each such entity that are not, by their terms, expressly subordinated in right of payment to the notes, is effectively subordinated to all secured Indebtedness and other

obligations of each such entity to the extent of the value of the collateral securing such Indebtedness and other obligations, and is senior in right of payment to all existing and future Subordinated Indebtedness of each such entity. The exchange notes are structurally subordinated to the Indebtedness and other obligations of Subsidiaries of the Issuer that do not Guarantee the notes.

Not all of the Issuer's Subsidiaries currently or in the future will Guarantee the exchange notes. In the event of a bankruptcy, liquidation or reorganization of any of these non-guarantor Subsidiaries, the non-guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to the Issuer. For the fiscal year ended September 30, 2015 and the six months ended March 31, 2016, the non-guarantor Subsidiaries of the Issuer generated 24% and 21%, respectively, of the Issuer's consolidated total revenue, and 46% and 44%, respectively, of the Issuer's consolidated EBITDA. In addition, at March 31, 2016 after giving effect to the add-on offering and the application of the net proceeds therefrom, the non-guarantor Subsidiaries of the Issuer held 25% of the Issuer's total consolidated assets and 13% of the Issuer's total consolidated liabilities and had approximately \$67.8 million of indebtedness. See "Risk Factors—Risks Related to the Exchange Notes—The exchange notes will be effectively subordinated to all of our existing and future secured debt, to the existing and future secured debt of the subsidiary guarantors, and to the existing and future debt of the subsidiaries that do not guarantee the exchange notes." The obligations of each Guarantor under its Guarantee will be limited as necessary to prevent the Guarantee from constituting a fraudulent conveyance or fraudulent transfer under applicable law.

Any entity that makes a payment under its Guarantee will be entitled upon payment in full of all guaranteed obligations under the Indenture to a contribution from each other Guarantor in an amount equal to such other Guarantor's pro rata portion of such payment based on the respective net assets of all the Guarantors at the time of such payment determined in accordance with GAAP.

If a Guarantee was rendered voidable, it could be subordinated by a court to all other indebtedness (including guarantees and other contingent liabilities) of the Guarantor, and, depending on the amount of such indebtedness, a Guarantor's liability on its Guarantee could be reduced to zero. See "Risk Factors—Risks Related to the Exchange Notes—Federal and state fraudulent transfer laws permit a court to void the exchange notes and the guarantees, and, if that occurs, you may not receive any payments on the exchange notes."

A Guarantee by a Guarantor provides by its terms that it shall be automatically and unconditionally released and discharged upon:

- (1) (a) any sale, exchange or transfer (by merger or otherwise) of (i) the Capital Stock of such Guarantor, after which the applicable Guarantor is no longer a Restricted Subsidiary, or (ii) all or substantially all the assets of such Guarantor, provided that such sale, exchange or transfer of Capital Stock or assets is made in compliance with the applicable provisions of the Indenture;
- (b) if applicable, (i) the release or discharge of the Indebtedness that pursuant to the third paragraph of the covenant described under "Certain Covenants—Subsidiary Guarantees" resulted in the creation of such Guarantee and (ii) in the case of a Guarantor that is a Minority Business Subsidiary, the consummation of a Minority Business Offering of Equity Interests of such Guarantor if at the time of the consummation of such Minority Business Offering, both (x) the Minority Business Disposition Condition has been satisfied and (y) such Guarantor shall have been released from all of its obligations in respect of all Indebtedness of the Issuer and each other Restricted Subsidiary of the Issuer (other than any such Restricted Subsidiary that is also a Subsidiary of such Minority Business Subsidiary);
- (c) the proper designation of any Restricted Subsidiary that is a Guarantor as an Unrestricted Subsidiary; or
- (d) the Issuer exercising its legal defeasance option as described under "Legal Defeasance and Covenant Defeasance" or the Issuer's obligations under the Indenture being discharged in accordance with the terms of the Indenture; and
- (2) the Issuer delivering to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that all conditions precedent provided for in the Indenture relating to such transaction have been complied with.

Ranking

The payment of the principal of, premium, if any, and interest on the exchange notes and the payment of any Guarantee will rank equal in right of payment to all existing and future Indebtedness and other obligations of the Issuer or the relevant Guarantor, as the case may be, that are not, by their terms, expressly subordinated in right of payment to the notes or the Guarantee of such Guarantor.

The exchange notes will be effectively subordinated to all of the Issuer's and the Guarantors' existing and future Secured Indebtedness and other secured obligations (including the obligations, if any, of the Issuer and such Guarantor under the Senior Credit Facility) to the extent of the value of the collateral securing such Indebtedness and other secured obligations. As of March 31, 2016, after giving effect to the add-on offering, the Issuer and the Guarantors would have had in the aggregate \$803.4 million of Indebtedness (of which \$53.0 million would have been Secured Indebtedness). The Convertible Subordinated Notes are not guaranteed by the Issuer's Subsidiaries.

Although the Indenture contains limitations on the amount of additional Indebtedness that the Issuer and the Guarantors may incur, under certain circumstances the amount of such Indebtedness could be substantial and, in any case, such Indebtedness may be Secured Indebtedness. See "Certain Covenants—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock."

Holding Company Structure

The Issuer is a holding company for its Subsidiaries, with no material operations of its own and only limited assets. Accordingly, the Issuer is dependent upon the distribution of the earnings of its Subsidiaries, whether in the form of dividends, advances or payments on account of intercompany obligations, including management fees, to service its debt obligations.

Paying Agent and Registrar for the Exchange Notes

The Issuer maintains one or more paying agents for the notes in the Borough of Manhattan, City of New York. The initial paying agent for the exchange notes is the Trustee.

The Issuer also maintains a registrar with offices in the Borough of Manhattan, City of New York. The current registrar for the notes is the Trustee. The registrar will maintain a register reflecting ownership of the exchange notes outstanding from time to time and will make payments on and facilitate transfer of exchange notes on behalf of the Issuer.

The Issuer may change the paying agents or the registrars without prior notice to the Holders. The Issuer or any of its Subsidiaries may act as a paying agent or registrar.

Transfer and Exchange

A Holder may transfer or exchange notes in accordance with the Indenture. The registrar and the Trustee may require a Holder to furnish appropriate endorsements and transfer documents in connection with a transfer of notes. Holders will be required to pay all taxes due on transfer. The Issuer will not be required to transfer or exchange any note selected for redemption or tendered (and not withdrawn) for repurchase in connection with a Change of Control Offer or an Asset Sale Offer. Also, the Issuer will not be required to transfer or exchange any note for a period of 15 days before the mailing of a notice of redemption of notes to be redeemed. The registered Holder of a note will be treated as the owner of the notes for all purposes.

Principal, Maturity and Interest

The Issuer previously issued \$600.0 million in aggregate principal amount of 5.25% senior notes due 2022 on February 27, 2014 that were subsequently exchanged on June 18, 2014 for a like principal amount of existing exchange notes. The Issuer is offering to issue \$125.0 million of exchange notes in this offering. The notes will mature on March 1, 2022. Subject to compliance with the covenant described under "Certain Covenants—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock," the Issuer may issue additional notes from time to time after this offering under the Indenture ("Additional Notes"). Any old notes that remain outstanding after the completion of this offering, the existing exchange notes and the exchange notes (which constitute Additional Notes under the Indenture) and any other Additional Notes subsequently issued under the Indenture will be treated as a single class for all purposes under the Indenture, including waivers, amendments, redemptions and offers to purchase. Unless the context requires otherwise, references to "notes" for all purposes of the Indenture and this "Description of Notes" include any Additional Notes that are actually issued. The exchange notes will be issued in

denominations of \$2,000 and in integral multiples of \$1,000 in excess of \$2,000.

51

Interest on the exchange notes will accrue at the rate of 5.25% per annum and is payable semiannually in arrears on each March 1 and September 1, commencing on September 1, 2016, to the Holders of record on the immediately preceding February 15 and August 15. Interest on the exchange notes will accrue from March 1, 2016. Interest on the exchange notes will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Principal of, premium, if any, and interest on the exchange notes will be payable at the office or agency of the Issuer maintained for such purpose within the City and State of New York or, at the option of the Issuer, payment of interest may be made by check mailed to the Holders of the exchange notes at their respective addresses set forth in the register of Holders; provided that if any Holder has given wire transfer instructions to the Issuer or the paying agent or registrar at least 15 days prior to the payment date, all payments of principal, premium, if any, and interest with respect to the exchange notes represented by one or more global notes registered in the name of or held by The Depository Trust Company (“DTC”) or its nominee will be made by wire transfer of immediately available funds to the accounts specified by the Holder or Holders thereof. Until otherwise designated by the Issuer, the Issuer’s office or agency in New York will be the office of the Trustee maintained for such purpose.

Additional Interest

Additional Interest may accrue on the exchange notes in certain circumstances pursuant to the Registration Rights Agreement. All references in the Indenture, in any context, to any interest or other amount payable on or with respect to the notes shall be deemed to include any Additional Interest pursuant to the Registration Rights Agreement.

Mandatory Redemption; Offers to Purchase; Open Market Purchases

The Issuer will not be required to make any mandatory redemption or sinking fund payments with respect to the notes. However, under certain circumstances, the Issuer may be required to offer to purchase notes as described under the caption “Repurchase at the Option of Holders.” We may at any time and from time to time purchase notes in the open market or otherwise.

Optional Redemption

At any time prior to March 1, 2017, the Issuer may redeem all or a part of the notes, upon prior notice at a redemption price equal to 100% of the principal amount of the notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest and Additional Interest, if any, to the date of redemption (the “Redemption Date”), subject to the rights of Holders of notes on the relevant record date to receive interest due on the relevant interest payment date. On and after March 1, 2017, the Issuer may redeem the notes, in whole or in part, upon prior notice at the redemption prices (expressed as percentages of principal amount of the notes to be redeemed) set forth below, plus accrued and unpaid interest and Additional Interest, if any, thereon to the applicable Redemption Date, subject to the right of Holders of notes of record on the relevant record date to receive interest due on the relevant interest payment date, if redeemed during the twelve-month period beginning on March 1 of each of the years indicated below:

Year	Percentage
2017	103.938 %
2018	102.625 %
2019	101.313 %
2020 and thereafter	100.000 %

In addition, until March 1, 2017, the Issuer may, at its option, on one or more occasions, redeem up to 40% of the aggregate principal amount of notes at a redemption price equal to 105.250% of the aggregate principal amount thereof, plus accrued and unpaid interest thereon and Additional Interest, if any, to the applicable Redemption Date, subject to the right of Holders of notes of record on the relevant record date to receive interest due on the relevant interest payment date, with the net cash proceeds of one or more Equity Offerings; provided that at least 60% of the sum of the original aggregate principal amount of notes issued under the Indenture and the original principal amount of any Additional Notes issued under the Indenture after the Issue Date remains outstanding immediately after the occurrence of each such redemption; provided further that each such redemption occurs within 90 days of the date of closing of each such Equity Offering.

Any redemption may, at the Issuer's discretion, be subject to one or more conditions precedent, which shall be set forth in the related notice of redemption, including, but not limited to, completion of an Equity Offering, other offering or other transaction or event. In addition, if such redemption or purchase is subject to satisfaction of one or more conditions precedent, such notice shall describe each such condition, and if applicable, shall state that, in the Issuer's discretion, the Redemption Date may be delayed until such time as any or all such conditions shall be satisfied, or such redemption or purchase may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the Redemption Date, or by the Redemption Date as so delayed.

Selection and Notice

If the Issuer is redeeming less than all of the notes issued by it at any time, the Trustee will select the notes to be redeemed (a) if the notes are listed on any national securities exchange, in compliance with the requirements of the principal national securities exchange on which the notes are listed, (b) on a pro rata basis to the extent practicable (or, in the case of notes in global form, the Trustee will select notes for redemption based on DTC's method that most nearly approximates a pro rata selection or by such other method that the Trustee shall deem fair and appropriate) or (c) by lot or such other similar method in accordance with the procedures of DTC.

Notices of purchase or redemption shall be mailed by first-class mail, postage prepaid, at least 30 days but not more than 60 days before the purchase or redemption date to each Holder of notes at such Holder's registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the notes or a satisfaction and discharge of the Indenture. If any note is to be purchased or redeemed in part only, any notice of purchase or redemption that relates to such note shall state the portion of the principal amount thereof that has been or is to be purchased or redeemed.

The Issuer will issue a new note in a principal amount equal to the unredeemed portion of the original note in the name of the Holder upon cancellation of the original note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on notes or portions of them called for redemption. Redemption amounts shall only be paid upon presentation and surrender of any such notes to be redeemed. Payment of the redemption price and performance of the Issuer's obligations in connection with any redemption may be performed by another Person.

Repurchase at the Option of Holders

Change of Control

The Indenture provides that if a Change of Control occurs, unless the Issuer has previously or concurrently mailed a redemption notice with respect to all the outstanding notes as described under "Optional Redemption," the Issuer will make an offer to purchase all of the notes pursuant to the offer described below (the "Change of Control Offer") at a price in cash (the "Change of Control Payment") equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest and Additional Interest, if any, to the date of purchase, subject to the right of Holders of the notes of record on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control, the Issuer will send notice of such Change of Control Offer by first-class mail, with a copy to the Trustee, to each Holder of notes at the address of such Holder appearing in the security register, with the following information:

1. that a Change of Control Offer is being made pursuant to the covenant entitled "Change of Control," and that all notes properly tendered pursuant to such Change of Control Offer will be accepted for payment by the Issuer;
2. the purchase price and the purchase date, which will be no earlier than 30 days nor later than 60 days from the date such notice is mailed (the "Change of Control Payment Date");
3. that any note not properly tendered will remain outstanding and continue to accrue interest;
4. that unless the Issuer defaults in the payment of the Change of Control Payment, all notes accepted for payment pursuant to the Change of Control Offer will cease to accrue interest on the Change of Control Payment Date;
5. that Holders electing to have any notes purchased pursuant to a Change of Control Offer will be required to surrender such notes, with the form entitled "Option of Holder to Elect Purchase" on the reverse of such

notes completed, to the paying agent specified in the notice at the address specified in the notice prior to the close of business on the Business Day preceding the Change of Control Payment Date;

that Holders will be entitled to withdraw their tendered notes and their election to require the Issuer to purchase such notes, provided that the paying agent receives, not later than the close of business on the second Business Day prior to the Change of Control Payment Date, a facsimile transmission or letter setting forth the name of the Holder of the notes, the principal amount of notes tendered for purchase and a statement that such Holder is withdrawing its tendered notes and its election to have such notes purchased;

7. that if the Issuer is redeeming less than all of the notes, the Holders of the remaining notes will be issued new notes and such new notes will be equal in principal amount to the unpurchased portion of the notes surrendered. The unpurchased portion of the notes must be equal to \$2,000 or an integral multiple of \$1,000 in excess thereof;

8. if such notice is mailed prior to the occurrence of a Change of Control, stating the Change of Control Offer is conditional on the occurrence of such Change of Control; and

9. the other instructions, as determined by the Issuer, consistent with the covenant described hereunder, that a Holder must follow in order to have its notes repurchased.

The Issuer will comply with the applicable requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of notes pursuant to a Change of Control Offer. To the extent that the applicable provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

On the Change of Control Payment Date, the Issuer will, to the extent permitted by law,

1. accept for payment all notes issued by it or portions thereof properly tendered pursuant to the Change of Control Offer,

2. deposit with the paying agent an amount equal to the aggregate Change of Control Payment in respect of all notes or portions thereof so tendered, and

3. deliver, or cause to be delivered, to the Trustee for cancellation the notes so accepted together with an Officer's Certificate to the Trustee stating that such notes or portions thereof have been tendered to and purchased by the Issuer.

The Senior Credit Facility currently limits, and future credit agreements or other agreements relating to Indebtedness to which the Issuer becomes a party may prohibit or limit, the Issuer from purchasing any notes as a result of a Change of Control. In the event a Change of Control occurs at a time when the Issuer is prohibited from purchasing the notes, the Issuer could seek the consent of its lenders to permit the purchase of the notes or could attempt to refinance the borrowings that contain such prohibition. If the Issuer does not obtain such consent or repay such borrowings, the Issuer will remain prohibited from purchasing the notes. In such case, the Issuer's failure to purchase tendered notes would constitute an Event of Default under the Indenture after any required giving of notice and lapse of time as described under "—Events of Default and Remedies."

The Senior Credit Facility provides that certain change of control events with respect to the Issuer would constitute a default thereunder (including a Change of Control under the Indenture). If we experience a change of control that triggers a default under our Senior Credit Facility, we could seek a waiver of such default or seek to refinance our Senior Credit Facility. In the event we do not obtain such a waiver or refinance the Senior Credit Facility, such default could result in amounts outstanding thereunder being declared due and payable.

Our ability to pay cash to the Holders of notes following the occurrence of a Change of Control may be limited by our then-existing financial resources. Therefore, sufficient funds may not be available when necessary to make any required repurchases. See "Risk Factors— Risks Related to the Exchange Notes—We may not be able to repurchase the notes upon a change of control."

The Change of Control purchase feature of the notes may in certain circumstances make more difficult or discourage a sale or takeover of us and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the Initial Purchaser and us. We have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to incur additional Indebtedness are contained in the covenants described under “Certain Covenants—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” and “Certain Covenants—Liens.”

Such restrictions in the Indenture can be waived only with the consent of the Holders of a majority in principal amount of the notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture does not contain any covenants or provisions that may afford Holders of the notes protection in the event of a highly leveraged transaction.

We will not be required to make a Change of Control Offer following a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by us and purchases all notes validly tendered and not withdrawn under such Change of Control Offer. Notwithstanding anything to the contrary herein, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

The definition of “Change of Control” includes a disposition of all or substantially all of the assets of the Issuer to any Person. Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of “all or substantially all” of the assets of the Issuer. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder of notes may require the Issuer to make an offer to repurchase the notes as described above. As noted in the definition of “Change of Control”, so long as at the time of any Minority Business Disposition or any Minority Business Offering, the Minority Business Disposition Condition is met, the Minority Business Assets shall not at any time be deemed to constitute “all or substantially all” of the assets of the Issuer and its Restricted Subsidiaries. For the avoidance of doubt, no inference shall be drawn that assets of a Non-Minority Business is deemed to constitute “all or substantially all” of the assets of the Issuer and its Restricted Subsidiaries nor shall any inference be drawn that assets of a Minority Business is deemed to constitute “all or substantially all” of the assets of the Issuer and its Restricted Subsidiaries. The provisions under the Indenture relating to the Issuer’s obligation to make an offer to repurchase the notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of the notes.

Asset Sales

The Indenture provides that the Issuer will not, and will not permit any of its Restricted Subsidiaries to, cause, make or suffer to exist an Asset Sale, unless:

1. the Issuer or such Restricted Subsidiary, as the case may be, receives consideration at the time of such Asset Sale at least equal to the fair market value of the assets or Equity Interests issued or sold or otherwise disposed of; and except in the case of a Permitted Asset Swap, at least 75% of the consideration therefor received by the Issuer or
2. such Restricted Subsidiary, as the case may be, is in the form of (a) cash or Cash Equivalents, (b) Replacement Assets or (c) any combination of the consideration specified in clauses (a) and (b); provided that the amount of:
 - (a) any liabilities (as shown on the Issuer’s or such Restricted Subsidiary’s most recent balance sheet or in the footnotes thereto) of the Issuer or such Restricted Subsidiary, other than liabilities that are by their terms subordinated to the notes, that are assumed by the transferee of any such assets and for which the Issuer and all of its Restricted Subsidiaries have been validly released by all creditors in writing;

- any securities, notes or other obligations received by the Issuer or such Restricted Subsidiary from such transferee
- (b) that are converted by the Issuer or such Restricted Subsidiary into cash or Cash Equivalents (to the extent of the cash or Cash Equivalents received) within 180 days following the closing of such Asset Sale;
 - any Designated Non-cash Consideration received by the Issuer or any of its Restricted Subsidiaries in such Asset Sale having an aggregate fair market value, taken together with all other Designated Non-cash Consideration received since the date of the Indenture pursuant to this clause (c) that is at that time outstanding, not to exceed the
 - (c) greater of (i) \$100.0 million (with the fair market value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value) and (ii) 5.0% of Total Assets at the time of the receipt of such Designated Non-cash Consideration; and
 - (d) any securities publicly-traded on a national securities exchange; shall be deemed to be cash or Cash Equivalents for purposes of this provision and for no other purpose.

Within 365 days after the receipt of any Net Proceeds of any Asset Sale, the Issuer or such Restricted Subsidiary, at its option, may apply the Net Proceeds from such Asset Sale,

1. to permanently reduce:

- (a) Secured Indebtedness under one or more Credit Facilities;
Obligations under Pari Passu Indebtedness (and to correspondingly reduce commitments with respect thereto); provided that the Issuer shall equally and ratably (based on the aggregate principal amounts (or accreted value, as applicable)) reduce Obligations under the notes as provided under "Optional Redemption," through open-market
 - (b) purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Asset Sale Offer) to all Holders to purchase their notes at 100% of the principal amount thereof, plus the amount of accrued but unpaid interest, if any, on the amount of notes that would otherwise be prepaid; or
 - (c) Indebtedness of a Restricted Subsidiary that is not a Guarantor, other than Indebtedness owed to the Issuer or another Restricted Subsidiary; or
to make an Investment in or expenditure (i) for Replacement Assets or (ii) for other capital expenditure used or useful in a Similar Business or (iii) to enter into a binding commitment to make such an investment or expenditure;
2. provided that in the case of a commitment to make such an Investment or expenditure, such Investment or expenditure shall have been made within 365 days of the first anniversary of the receipt of any Net Proceeds from such Asset Sale.

Any Net Proceeds from the Asset Sale that are not invested or applied as provided and within the time period set forth in the first sentence of the preceding paragraph will be deemed to constitute "Excess Proceeds." When the aggregate amount of Excess Proceeds exceeds \$75.0 million, the Issuer shall make an offer to all Holders and, if required by the terms of any Pari Passu Indebtedness to the holders of such Pari Passu Indebtedness (an "Asset Sale Offer"), to purchase the maximum aggregate principal amount (or accreted value, as applicable) of the notes and such Pari Passu Indebtedness that is a minimum amount of \$2,000 and in an integral multiple of \$1,000 in excess thereof that may be purchased out of the Excess Proceeds at an offer price in cash in an amount equal to 100% of the principal amount thereof (or accreted value, as applicable), plus accrued and unpaid interest and Additional Interest, if any, to the date fixed for the closing of such offer, in accordance with the procedures set forth in the Indenture. The Issuer will commence an Asset Sale Offer with respect to Excess Proceeds within 30 calendar days after the date that Excess Proceeds exceed \$75.0 million by mailing the notice required pursuant to the terms of the Indenture, with a copy to the Trustee.

To the extent that the aggregate principal amount (or accreted value, as applicable) of notes and such Pari Passu Indebtedness tendered pursuant to an Asset Sale Offer is less than the Excess Proceeds, the Issuer may use any remaining Excess Proceeds for general corporate purposes, subject to the other covenants contained in the Indenture, and they will no longer constitute Excess Proceeds. If the aggregate principal amount (or accreted value, as applicable) of notes or the Pari Passu Indebtedness surrendered by such holders thereof exceeds the amount of Excess Proceeds, the Trustee shall select the notes and such Pari Passu Indebtedness to be purchased on a pro rata basis (or, in the case of notes in global form, the Trustee

will select notes for redemption based on DTC's method that most nearly approximates a pro rata selection or by such other method that the Trustee shall deem fair and appropriate) based on the accreted value or principal amount of the notes or such Pari Passu Indebtedness tendered. Upon completion of any such Asset Sale Offer, the amount of Excess Proceeds shall be reset at zero.

Pending the final application of any Net Proceeds pursuant to this covenant, the holder of such Net Proceeds may apply such Net Proceeds temporarily to reduce Indebtedness outstanding under a revolving credit facility or otherwise invest such Net Proceeds in any manner not prohibited by the Indenture.

The Issuer will comply with the applicable requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of the notes pursuant to an Asset Sale Offer. To the extent that the applicable provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

The Senior Credit Facility limits, and future credit agreements or other agreements relating to Indebtedness to which the Issuer becomes a party may prohibit or limit, the Issuer from purchasing any notes pursuant to this Asset Sales covenant. In the event the Issuer is prohibited from purchasing the notes, the Issuer could seek the consent of its lenders to the purchase of the notes or could attempt to refinance the borrowings that contain such prohibition. If the Issuer does not obtain such consent or repay such borrowings, it will remain prohibited from purchasing the notes. In such case, the Issuer's failure to purchase tendered notes would constitute an Event of Default under the Indenture after any required giving of notice and lapse of time as described under "Events of Default and Remedies."

Certain Covenants

Set forth below are summaries of certain covenants contained in the Indenture.

Limitation on Restricted Payments

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

(I) declare or pay any dividend or make any payment or distribution on account of the Issuer's or any of its Restricted Subsidiaries' Equity Interests, including any dividend or distribution payable in connection with any merger or consolidation other than:

(a) dividends, payments or distributions by the Issuer payable solely in Equity Interests (other than Disqualified Stock) of the Issuer; or

- the declaration and payment of dividends to holders of Equity Interests of the Issuer or the acquisition, in open market purchases or otherwise, of Equity Interests of the Issuer in an aggregate amount not to exceed \$25.0 million in any fiscal year, provided that up to \$15.0 million of such amount that is not utilized by the Issuer to pay dividends or acquire Equity Interests of the Issuer in any calendar year may be carried forward to the immediately succeeding year;
- payments or distributions to dissenting stockholders pursuant to applicable law in connection with a merger, consolidation or transfer of all or substantially all of the Issuer’s property or assets that complies with the Indenture, provided that as a result of such merger, consolidation or transfer of all or substantially all of the Issuer’s property or assets, the Issuer shall have made a Change of Control Offer or Asset Sale Offer and all notes tendered by Holders in connection therewith shall have been repurchased, redeemed or acquired for value;

15. Indebtedness under the provisions of the first paragraph of the covenant described under “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock”; provided, however, that at the time of, and after giving effect to, any Restricted Payment permitted under clauses (9), (11), (14) and (15), no Default shall have occurred and be continuing or would occur as a consequence thereof.

As of the Issue Date, all of the Issuer’s Subsidiaries were Restricted Subsidiaries. The Issuer will not permit any Unrestricted Subsidiary to become a Restricted Subsidiary except pursuant to the last sentence of the definition of “Unrestricted Subsidiary.” For purposes of designating any Restricted Subsidiary as an Unrestricted Subsidiary, all outstanding Investments by the Issuer and its Restricted Subsidiaries (except to the extent repaid) in the Subsidiary so designated will be deemed to be Restricted Payments in an amount determined as set forth in the last sentence of the definition of “Investment.” Such designation will be permitted only if a Restricted Payment in such amount would be permitted at such time, whether pursuant to the first paragraph of this covenant or under clause (11) or (15) of the second paragraph of this covenant, or pursuant to the definition of “Permitted Investments,” and if such Subsidiary otherwise meets the definition of an Unrestricted Subsidiary. Unrestricted Subsidiaries are not subject to any of the restrictive covenants set forth in the Indenture.

If the Issuer or any Restricted Subsidiary makes a Restricted Payment which, at the time of the making of such Restricted Payment, in the good faith determination of the Issuer or such Restricted Subsidiary, would be permitted under the requirements of the Indenture, such Restricted Payment shall be deemed to have been made in compliance with the Indenture notwithstanding any subsequent adjustment made in good faith to the Issuer’s financial statements affecting Consolidated Net Income.

In the event that a Restricted Payment meets the criteria of more than one of the types of Restricted Payments described in the above clauses, including, without limitation, the first paragraph of this “Limitation on Restricted Payments” covenant, the Issuer, in its sole discretion, may order and classify, and from time to time may reclassify, such Restricted Payment if it would have been permitted at the time such Restricted Payment was made and at the time of such reclassification.

As of March 31, 2016, pursuant to the formula set forth in clause (3) of the first paragraph of this covenant, the Issuer would have been able to make approximately \$72.5 million in Restricted Payments.

Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock

The Issuer will not, and will not permit any of the Restricted Subsidiaries to, directly or indirectly, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable, contingently or otherwise (collectively, “incur” and collectively, an “incurrence”) with respect to any Indebtedness (including Acquired Indebtedness) and the Issuer will not issue any shares of Disqualified Stock and will not permit any Restricted Subsidiary to issue any shares of Disqualified Stock or Preferred Stock; provided, however, that the Issuer may incur Indebtedness (including Acquired Indebtedness) or issue shares of Disqualified Stock, and any Guarantor may incur Indebtedness (including Acquired Indebtedness), issue shares of Disqualified Stock and issue shares of Preferred Stock, if the Fixed Charge Coverage Ratio on a consolidated basis for the Issuer and its Restricted Subsidiaries’ most recently ended four fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred or such Disqualified Stock or Preferred Stock is issued would have been at least 2.00 to 1.00, determined on a pro forma basis (including a pro forma application of the net proceeds therefrom), as if the additional Indebtedness had been incurred, or the Disqualified Stock or Preferred Stock had been issued, as the case may be, and the application of proceeds therefrom had occurred at the beginning of such four-quarter period.

The foregoing limitations will not apply to:

1. the incurrence of Indebtedness under Credit Facilities by the Issuer or any of its Restricted Subsidiaries and the issuance and creation of letters of credit and bankers' acceptances thereunder (with letters of credit and bankers' acceptances being deemed to have a principal amount equal to the face amount thereof), up to an aggregate principal amount of \$300.0 million outstanding at any one time, less (i) any permanent payments actually made by the borrower thereunder following the Issue Date in respect of Indebtedness thereunder with Net Proceeds from an Asset Sale and (ii) the amount of Indebtedness then outstanding under clause (20);
2. the incurrence by the Issuer and any Guarantor of Indebtedness represented by the existing exchange notes and any related Guarantees issued in respect thereof;
3. Indebtedness of the Issuer and its Restricted Subsidiaries in existence on the Issue Date (other than Indebtedness described in clauses (1) and (2) above);
Indebtedness (including Capitalized Lease Obligations), Disqualified Stock and Preferred Stock incurred by the Issuer or any of its Restricted Subsidiaries to finance the purchase, lease, construction, installation, repair or improvement of property (real or personal) or equipment (other than software) (including any reasonably related fees or expenses incurred in connection with such purchase, lease, construction, installation, repair or improvement),
4. whether through the direct purchase of assets or the Capital Stock of any Person owning such assets, in an aggregate principal amount, including all Indebtedness incurred or Disqualified Stock and Preferred Stock issued to renew, refund, refinance, replace, defease or discharge any Indebtedness incurred or Disqualified Stock and Preferred Stock issued pursuant to this clause (4), not to exceed at any time outstanding the greater of (x) \$100.0 million and (y) 5.0% of Total Assets;
Indebtedness incurred by the Issuer or any of its Restricted Subsidiaries constituting reimbursement obligations with respect to letters of credit issued in the ordinary course of business, including letters of credit in respect of lease obligations, workers' compensation claims, unemployment insurance and other types of social security or property,

6. of Indebtedness incurred by any Person acquiring all or any portion of such business, assets or a Subsidiary for the purpose of financing such acquisition; provided, however, that the maximum assumable liability in respect of all such Indebtedness shall at no time exceed the gross proceeds including non-cash proceeds (the fair market value of such non-cash proceeds being measured at the time received and without giving effect to any subsequent changes in value) actually received by the Issuer and its Restricted Subsidiaries in connection with such disposition;
Indebtedness of the Issuer to a Restricted Subsidiary; provided that any such Indebtedness owing to a Restricted Subsidiary that is not a Guarantor is expressly subordinated in right of payment to the notes; provided further that any subsequent issuance or transfer of any Capital Stock or any other event which results in any such other
7. Restricted Subsidiary ceasing to be a Restricted Subsidiary or any other subsequent transfer of any such Indebtedness (except to the Issuer or another Restricted Subsidiary or any pledge of such Indebtedness constituting a Permitted Lien) shall be deemed, in each case, to be an incurrence of such Indebtedness not permitted by this clause (7);
Indebtedness of a Restricted Subsidiary to the Issuer or another Restricted Subsidiary; provided that if a Guarantor incurs such Indebtedness to a Restricted Subsidiary that is not a Guarantor, such Indebtedness is expressly
8. subordinated in right of payment to the Guarantee of the notes of such Guarantor; provided further that any subsequent issuance or transfer of any Capital Stock or any other event which results in any such other Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of

any such Indebtedness (except to the Issuer or another Restricted Subsidiary or any pledge of such Indebtedness constituting a Permitted Lien) shall be deemed, in each case, to be an incurrence of such Indebtedness not permitted by this clause (8);

9. Restricted Subsidiary ceasing to be a Restricted Subsidiary or any other subsequent transfer of any such shares of Preferred Stock (except to the Issuer or another of its Restricted Subsidiaries) shall be deemed in each case to be an issuance of such shares of Preferred Stock not permitted by this clause (9);

10. Hedging Obligations (excluding Hedging Obligations entered into for speculative purposes) for the purpose of limiting interest rate risk, exchange rate risk or commodity pricing risk;

11. obligations in respect of performance, bid, appeal and surety bonds and completion guarantees provided by the Issuer or any of its Restricted Subsidiaries in the ordinary course of business;

(a) Indebtedness or Disqualified Stock of the Issuer or any Restricted Subsidiary in an aggregate principal amount or liquidation preference up to 100% of the net cash proceeds received by the Issuer since immediately after the Issue Date from the issue or sale of Equity Interests of the Issuer or cash contributed to the capital of the Issuer (in each case, other than proceeds of Disqualified Stock or sales of Equity Interests to the Issuer or any of its Subsidiaries) as determined in accordance with clauses (3)(b) and (3)(c) of the first paragraph of “—Limitation on Restricted Payments” to the extent such net cash proceeds or cash have not been applied pursuant to such clauses to make Restricted Payments or to make other Investments, payments or exchanges pursuant to the second paragraph

to the extent such Refinancing Indebtedness refinances (i) Indebtedness subordinated or pari passu to the notes or any Guarantee thereof, such Refinancing Indebtedness is subordinated or pari passu to the notes or the Guarantee at (b) least to the same extent as the Indebtedness being refinanced or refunded, or (ii) Disqualified Stock or Preferred Stock, such Refinancing Indebtedness must be Disqualified Stock or Preferred Stock, respectively, and

- (ii) Indebtedness, Disqualified Stock or Preferred Stock of a Subsidiary of the Issuer, that is not a Guarantor that refinances Indebtedness, Disqualified Stock or Preferred Stock of a Guarantor; or

- (a) the Issuer would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first sentence of this covenant, or
- (b) the Fixed Charge Coverage Ratio of the Issuer and the Restricted Subsidiaries is greater than immediately prior to such acquisition or merger;

21. Indebtedness owed on a short-term basis of not longer than 30 days to banks and other financial institutions incurred in the ordinary course of business of the Issuer and its Restricted Subsidiaries with such banks or financial institutions in connection with ordinary banking arrangements to manage cash balances of the Issuer and its Restricted Subsidiaries;
22. - 24.

Notwithstanding anything to the contrary, no Subsidiary of the Issuer shall guarantee the Convertible Subordinated Notes.

For purposes of determining compliance with this covenant:

in the event that an item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) meets the criteria of more than one of the categories of permitted Indebtedness, Disqualified Stock or Preferred Stock described in clauses (1) through (24) above or is entitled to be incurred pursuant to the first paragraph of this covenant, the Issuer, in its sole discretion, will classify or reclassify such item of Indebtedness, Disqualified Stock

1. or Preferred Stock (or any portion thereof) and will only be required to include the amount and type of such Indebtedness, Disqualified Stock or Preferred Stock in one of the above clauses; provided that all Indebtedness outstanding under the Senior Credit Facility on the Issue Date will at all times be deemed to be outstanding in reliance on clause (1) of the preceding paragraph; and

2. at the time of incurrence, the Issuer will be entitled to divide and classify an item of Indebtedness in more than one of the types of Indebtedness described in the first and second paragraphs above.

Accrual of interest, the accretion of accreted value, the amortization of original issue discount, and the payment of interest or dividends in the form of additional Indebtedness, Disqualified Stock or Preferred Stock, as applicable, the accretion of liquidation preference and increases in the amount of Indebtedness outstanding solely as a result of fluctuations in the exchange rate of currencies will not be deemed to be an incurrence of Indebtedness, Disqualified Stock or Preferred Stock for purposes of this covenant. Guarantees of, or obligations in respect of letters of credit relating to, Indebtedness that are otherwise included in the determination of a particular amount of Indebtedness shall not be included in the determination of such amount of Indebtedness, provided that the incurrence of the Indebtedness represented by such guarantee or letter of credit, as the case may be, was in compliance with this covenant.

For purposes of determining compliance with any U.S. dollar-denominated restriction on the incurrence of Indebtedness, the U.S. dollar-equivalent principal amount of Indebtedness denominated in a foreign currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred, in the case of term debt, or first committed, in the case of revolving credit debt; provided that if such Indebtedness is incurred to refinance other Indebtedness denominated in a foreign currency, and such refinancing would cause the applicable U.S. dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such U.S. dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such refinancing Indebtedness does not exceed the principal amount of such Indebtedness being refinanced plus the amount of any reasonable premium (including reasonable tender premiums), defeasance costs and any reasonable fees and expenses incurred in connection with the issuance of such new Indebtedness.

The Indenture provides that the Issuer will not, and will not permit any Guarantor to, directly or indirectly, incur any Indebtedness (including Acquired Indebtedness) that is subordinated or junior in right of payment to any Indebtedness of the Issuer or such Guarantor, as the case may be, unless such Indebtedness is expressly subordinated in right of payment to the notes or such Guarantor's Guarantee to the extent in the same manner as such Indebtedness is subordinated to other Indebtedness of the Issuer or such Guarantor, as the case may be.

The Indenture does not treat (1) unsecured Indebtedness as subordinated or junior to Secured Indebtedness merely because it is unsecured or (2) Indebtedness as subordinated or junior to any other Indebtedness merely because it has a junior priority with respect to the same collateral.

Liens

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, create, incur, assume or suffer to exist any Lien (an "Initial Lien") (except Permitted Liens) that secures obligations under any Indebtedness or any related guarantee, on any asset or property of the Issuer or any Restricted Subsidiary, or any income or profits therefrom, or assign or convey any right to receive income therefrom, unless:

1. in the case of Liens securing Subordinated Indebtedness, the notes and related Guarantees are secured by a Lien on such property, assets or proceeds that is senior in priority to such Liens; or

2. in all other cases, the notes or the Guarantees are equally and ratably secured, except that the foregoing shall not apply to (a) Liens securing the notes and the related Guarantees, (b) Liens securing Indebtedness permitted to be incurred under the Credit Facilities, including any letter of credit facility relating thereto, that was permitted by the terms of the Indenture to be incurred pursuant to clause (1) of the second paragraph

under “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock,” and (c) Liens securing additional Indebtedness permitted to be incurred pursuant to the covenant described under “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” provided that, in the case of this clause (c), at the time of the incurrence of such Indebtedness and after giving pro forma effect thereto, the Secured Leverage Ratio shall not exceed 3.25 to 1.00.

Any Lien created for the benefit of the holders of notes pursuant to the preceding paragraph shall provide by its terms that such Lien shall be automatically and unconditionally released and discharged upon discharge of the Initial Lien. Merger, Consolidation or Sale of All or Substantially All Assets

The Issuer may not consolidate or merge with or into or wind up into (whether or not the Issuer is the surviving corporation), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

- the Issuer is the surviving corporation or the Person formed by or surviving any such consolidation or merger (if other than the Issuer) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a corporation, partnership, limited liability company or similar entity organized or existing under the laws of the jurisdiction of organization of the United States, any state thereof, the District of Columbia, or any territory thereof (such Person, as the case may be, being herein called the “Successor Company”); provided that at any time the Issuer or the Successor Company is not a corporation, a co-obligor of the notes is a corporation organized or existing under such laws;
 - the Successor Company, if other than the Issuer, expressly assumes all the obligations of the Issuer under the notes pursuant to supplemental indentures or other documents or instruments in form reasonably satisfactory to the Trustee;
 - immediately after such transaction, no Default exists; immediately after giving pro forma effect to such transaction and any related financing transactions, as if such transactions had occurred at the beginning of the applicable four-quarter period, either (i) the Successor Company would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first sentence of the covenant described under “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” or (ii) the Fixed Charge Coverage Ratio for the Issuer (including any Successor Company thereto) and its Restricted Subsidiaries would be equal to or greater than such ratio for the Issuer and its Restricted Subsidiaries immediately prior to such transaction;
 - each Guarantor, unless it is the other party to the transactions described above, in which case clause (1)(b) of the second succeeding paragraph shall apply, shall have by supplemental indenture confirmed that its Guarantee shall apply to such Person’s obligations under the Indenture, the notes and the Registration Rights Agreement; and the Issuer shall have delivered to the Trustee an Officer’s Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with the Indenture.
- The Successor Company will succeed to, and be substituted for the Issuer, as the case may be, under the Indenture, the Guarantees and the notes, as applicable. Notwithstanding the foregoing clauses (3) and (4),
- any Restricted Subsidiary may consolidate with or merge into or transfer all or part of its properties and assets to the Issuer, and
 - the Issuer may merge with an Affiliate of the Issuer solely for the purpose of (x) reincorporating the Issuer in a State of the United States or (y) the creation of a holding company of the Issuer so long as the amount of Indebtedness of the Issuer and its Restricted Subsidiaries is not increased thereby;

No Guarantor will, and the Issuer will not permit any Guarantor to, consolidate or merge with or into or wind up into (whether or not the Issuer or Guarantor is the surviving corporation), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

- (a) such Guarantor is the surviving corporation or the Person formed by or surviving any such consolidation or merger (if other than such Guarantor) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a corporation, partnership, limited partnership, limited liability company or trust¹ or similar entity organized or existing under the laws of the jurisdiction of organization of such Guarantor, as the case may be, or the laws of the United States, any state thereof, the District of Columbia, or any territory thereof (such Guarantor or such Person, as the case may be, being herein called the "Successor Person");
the Successor Person, if other than such Guarantor, expressly assumes all the obligations of such Guarantor under
- (b) the Indenture and such Guarantor's related Guarantee pursuant to supplemental indentures or other documents or instruments in form reasonably satisfactory to the Trustee;
- (c) immediately after such transaction, no Default exists; and
- (d) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with the Indenture; or² the transaction is made in compliance with the covenant described under "Repurchase at the Option of Holders—Asset Sales."

In the case of clause (1) above, the Successor Person will succeed to, and be substituted for, such Guarantor under the Indenture and such Guarantor's Guarantee. Notwithstanding the foregoing, any Guarantor may merge into or transfer all or part of its properties and assets to another Guarantor or the Issuer.

For purposes of this covenant, so long as at the time of any Minority Business Disposition or any Minority Business Offering the Minority Business Disposition Condition is met, the Minority Business Assets shall not be deemed at any time to constitute all or substantially all of the properties or assets of the Issuer, and any sale, assignment, transfer, lease, conveyance or other disposition of all or any part of the Minority Business Assets (whether directly or indirectly, whether by sale, assignment, transfer, lease, conveyance or other disposition of any such properties or assets, or of any Equity Interest or other interest in any Person holding such properties or assets, or any consolidation or merger, or winding up into, and whether in one or more transactions, or otherwise, including any Minority Business Offering or any Minority Business Disposition) shall not be deemed at any time to constitute a consolidation with or merger with or into or winding up into, or sale, assignment, transfer, lease, conveyance or other disposition of all or substantially all of the properties or assets of the Issuer to, any Person. For the avoidance of doubt, no inference shall be drawn that assets of a Non-Minority Business is deemed to constitute "all or substantially all" of the assets of the Issuer and its Restricted Subsidiaries nor shall any inference be drawn that assets of a Minority Business is deemed to constitute "all or substantially all" of the assets of the Issuer and its Restricted Subsidiaries.

Transactions with Affiliates

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate of the Issuer (each of the foregoing, an "Affiliate Transaction") involving aggregate payments or consideration in excess of \$5.0 million, unless:

- such Affiliate Transaction is on terms that are not materially less favorable to the Issuer or its relevant Restricted¹ Subsidiary than those that would have been obtained in a comparable transaction by the Issuer or such Restricted Subsidiary with an unrelated Person on an arm's-length basis; and
- the Issuer delivers to the Trustee with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate payments or consideration in excess of \$25.0 million, a resolution adopted by the majority of² the board of directors of the Issuer approving such Affiliate Transaction and set forth in an Officer's Certificate certifying that such Affiliate Transaction complies with clause (1) above.

The foregoing provisions will not apply to the following:

1. transactions between or among the Issuer or any of its Restricted Subsidiaries;
2. Restricted Payments permitted by the provisions of the Indenture described above under the covenant “—Limitation on Restricted Payments” and Investments constituting “Permitted Investments”;
the payment of reasonable and customary fees, compensation, benefits and incentive arrangements paid or provided to, and indemnities provided on behalf of, officers, directors, employees or consultants of Issuer, any of its direct or
3. indirect parent companies or any of its Restricted Subsidiaries, including, without limitation, any such fees, compensation, benefits, arrangements and indemnities approved in good faith by the board of directors (or a committee thereof) of the Issuer;
any agreement as in effect as of the Issue Date, or any amendment or replacement agreement thereto (so long as any
4. such amendment is not materially disadvantageous to the Holders when taken as a whole as compared to the applicable agreement as in effect on the Issue Date);
the existence of, or the performance by the Issuer or any of its Restricted Subsidiaries of its obligations under the terms of, any stockholders agreement (including any registration rights agreement or purchase agreement related thereto) to which it is a party as of the Issue Date and any similar agreements which it may enter into thereafter;
5. provided, however, that the existence of, or the performance by the Issuer or any of its Restricted Subsidiaries of obligations under any future amendment or replacement agreement to any such existing agreement or under any similar agreement entered into after the Issue Date shall only be permitted by this clause (5) to the extent that the terms of any such amendment or new agreement are not otherwise materially disadvantageous to the Holders when taken as a whole;
6. any transaction effected as part of a Qualified Receivables Financing permitted hereunder;
transactions between the Issuer or any of its Restricted Subsidiaries and any Person is an Affiliate of the Issuer
7. solely due to the fact that a director of such Person is also a director of the Issuer; provided, however, that such director abstains from voting as a director of the Issuer or such direct or indirect parent of the Issuer, as the case may be, on any matter involving such other Person;
8. any non-recourse pledge of Equity Interests of an Unrestricted Subsidiary to support the Indebtedness of such Unrestricted Subsidiary;
9. the Transaction and the payment of all fees and expenses related to the Transaction, in each case as disclosed in the Offering Memorandum;
transactions with customers, clients, suppliers, or purchasers or sellers of goods or services, in each case in the ordinary course of business and otherwise in compliance with the terms of the Indenture, which are fair to the
10. Issuer and its Restricted Subsidiaries, in the reasonable determination of the board of directors of the Issuer or the senior management thereof, or are on terms at least as favorable as might reasonably have been obtained at such time from an unaffiliated party;
11. the sale or issuance of Equity Interests (other than Disqualified Stock) of the Issuer;
payments or loans (or cancellation of loans) to employees or consultants of the Issuer, any of its direct or indirect
12. parent companies or any of its Restricted Subsidiaries and employment agreements, stock option plans and other similar arrangements with such employees or consultants which, in each case, are approved by the Issuer in good faith; and
transactions in which the Issuer or any Restricted Subsidiary, as the case may be, delivers to the Trustee a letter from an Independent Financial Advisor stating that such transaction is fair to the Issuer or such Restricted
13. Subsidiary from a financial point of view or stating that the terms are not materially less favorable to the Issuer or its relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by the Issuer or such Restricted Subsidiary with an unrelated Person on an arm’s-length basis.

Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or otherwise cause or suffer to exist or become effective any consensual encumbrance or consensual restriction on the ability of any such Restricted Subsidiary to:

1. (a) pay dividends or make any other distributions to the Issuer or any of the Restricted Subsidiaries on its Capital Stock or with respect to any other interest or participation in, or measured by, its profits, or
2. (b) pay any Indebtedness owed to the Issuer or any of the Restricted Subsidiaries;
3. (c) make loans or advances to the Issuer or any of the Restricted Subsidiaries; or
4. (d) sell, lease or transfer any of its properties or assets to the Issuer or any of the Restricted Subsidiaries, except (in each case) for such encumbrances or restrictions existing under or by reason of:
 - (a) contractual encumbrances or restrictions in effect on the Issue Date, including pursuant to the Credit Facilities and the related documentation;
 - (b) the Indenture and the notes;
 - (c) purchase money obligations and capital lease obligations for property acquired in the ordinary course of business that impose restrictions of the nature discussed in clause (3) above on the property so acquired;
 - (d) applicable law or any applicable rule, regulation or order;
 - (e) any agreement or other instrument of a Person acquired by the Issuer or any of its Restricted Subsidiaries in existence at the time of such acquisition (but not created in contemplation thereof), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person and its Subsidiaries, or the property or assets of the Person and its Subsidiaries, so acquired;
 - (f) contracts for the sale of assets, including customary restrictions with respect to a Subsidiary of the Issuer pursuant to an agreement that has been entered into for the sale or disposition of all or substantially all of the Capital Stock or assets of such Subsidiary, that impose restrictions on the assets to be sold;
 - (g) Secured Indebtedness otherwise permitted to be incurred pursuant to the covenants described under “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” and “—Liens” that limit the right of the debtor to dispose of the assets securing such Indebtedness or place any restriction on the Issuer’s or its Restricted Subsidiaries’ use of the assets securing such Secured Indebtedness;
 - (h) restrictions on cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business;
 - (i) other Indebtedness, Disqualified Stock or Preferred Stock of Foreign Subsidiaries permitted to be incurred subsequent to the Issue Date pursuant to the provisions of the covenant described under “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” that impose restriction solely on Foreign Subsidiaries party thereto;
 - (j) customary provisions in joint venture agreements and other similar agreements relating solely to such joint venture;
 - (k) customary provisions contained in leases or licenses of intellectual property and other agreements, in each case, entered into in the ordinary course of business;

- contractual requirements of a Receivables Subsidiary in connection with a Qualified Receivables Financing,
- (l) provided that such restrictions apply only to such Receivables Subsidiary or the receivables that are subject to the Qualified Receivables Financing;
 - (m) protective Liens filed in connection with a sale and leaseback transaction permitted under the Indenture;
 - (n) restrictions in effect on the Issue Date that are contained in charter documents or shareholder agreements relating to any Restricted Subsidiary of the Issuer;
 - any other agreement governing Indebtedness entered into after the Issue Date that contains encumbrances and
 - (o) restrictions that are not materially more restrictive with respect to the Issuer or any Restricted Subsidiary than those in effect on the Issue Date pursuant to agreements in effect on the Issue Date; and
 - any encumbrances or restrictions of the type referred to in clauses (1), (2) and (3) above imposed by any amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings of the contracts, instruments or obligations referred to in clauses (a) through (o) above; provided that
 - (p) such amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings are, in the good faith judgment of the Issuer, not materially more restrictive with respect to such encumbrance and other restrictions taken as a whole than those prior to such amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing.

Subsidiary Guarantees

If the Issuer or any of its Restricted Subsidiaries organizes, acquires, transfers assets to or otherwise invests in any Domestic Restricted Subsidiary (other than a Domestic Restricted Subsidiary if the Net Book Value of such Domestic Restricted Subsidiary, when taken together with the aggregate Net Book Value of all other Domestic Restricted Subsidiaries that are not Guarantors, as of such date, does not exceed in the aggregate \$50.0 million), then such Domestic Restricted Subsidiary shall:

- within 30 Business Days execute, and deliver to the Trustee, a supplemental indenture in form reasonably
- 1. satisfactory to the Trustee pursuant to which such Domestic Restricted Subsidiary shall unconditionally Guarantee all of the Issuer's obligations under the notes and the Indenture on the terms set forth in the Indenture; and
- deliver to the Trustee an Opinion of Counsel that such supplemental indenture has been duly authorized, executed
- 2. and delivered by such Domestic Restricted Subsidiary and constitutes a legal, valid, binding and enforceable obligation of such Domestic Restricted Subsidiary.

Thereafter, such Domestic Restricted Subsidiary shall be a Guarantor for all purposes of the Indenture.

In addition, (i) to the extent that the collective Net Book Value of the Issuer's non-Guarantor Domestic Restricted Subsidiaries, as of the date of the organization, acquisition, transfer of assets to or investment in a non-Guarantor Domestic Restricted Subsidiary, exceeds \$50.0 million, then, within 10 Business Days of such date, the Issuer shall cause one or more of such non-Guarantor Domestic Restricted Subsidiaries to similarly execute a supplemental indenture (and deliver the related Opinions of Counsel) pursuant to which such Domestic Restricted Subsidiary or Domestic Restricted Subsidiaries shall unconditionally Guarantee all of the Issuer's obligations under the notes and the Indenture, in each case, such that the collective Net Book Value of all remaining non-Guarantor Domestic Restricted Subsidiaries does not exceed \$50.0 million and (ii) the Issuer may, at its option, cause any other Subsidiary of the Issuer to Guarantee its obligations under the notes and the Indenture and enter into a supplemental indenture with respect thereto.

Notwithstanding the foregoing, from and after the Issue Date, the Issuer will not permit any of its Restricted Subsidiaries, directly or indirectly, by way of pledge, intercompany note or otherwise, to assume, guarantee or in any other manner become liable with respect to any Indebtedness (other than the notes) of the Issuer or any Domestic Restricted Subsidiary of the Issuer, unless, in any such case, such Restricted Subsidiary executes and delivers a supplemental indenture (and the related Opinion of Counsel) to the Indenture providing a Guarantee of the notes by such Restricted Subsidiary; provided that no Restricted Subsidiary shall be required to Guarantee the notes if and to the extent it is prohibited by law

from Guaranteeing the notes. The obligations of each Guarantee by a Restricted Subsidiary will be limited as necessary to prevent the Guarantee from constituting a fraudulent conveyance or fraudulent transfer under applicable law. See “Risk Factors—Risks Related to the Exchange Notes— Federal and state fraudulent transfer laws permit a court to void the exchange notes and the guarantees, and, if that occurs, you may not receive any payments on the exchange notes.”

Reports and Other Information

Regardless of whether the Issuer remains subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act or otherwise reports on an annual and quarterly basis on forms provided for such annual and quarterly reporting pursuant to rules and regulations promulgated by the SEC, the Indenture requires the Issuer to file with the SEC (and make available to the Trustee and, upon written request, Holders of the notes (without exhibits), without cost to any Holder, within 15 days after it files them with the SEC) from and after the Issue Date,

within the time period specified in the SEC’s rules and regulations, annual reports on Form 10-K, or any successor or comparable form, containing the information required to be contained therein, or required in such successor or comparable form;

2. within the time period specified in the SEC’s rules and regulations, reports on Form 10-Q containing all quarterly information that would be required to be contained in Form 10-Q, or any successor or comparable form; and

3. promptly from time to time after the occurrence of an event required to be therein reported, such other reports on Form 8-K, or any successor or comparable form:

in each case, in a manner that complies in all material respects with the requirements specified in such form; provided that the Issuer shall not be so obligated to file such reports with the SEC if the SEC does not permit such filing, in which event the Issuer will make available such information to prospective purchasers of notes, in addition to providing such information to the Trustee and the Holders of the notes, in each case within 15 days after the time the Issuer would be required to file such information with the SEC, if it were subject to Sections 13 or 15(d) of the Exchange Act. The posting of such reports, documents and information to the SEC’s or the Issuer’s website shall constitute delivery of such reports, documents and information to the Trustee and the Holders of the notes, provided, however, that the Trustee shall have no responsibility to determine whether such posting has occurred. To the extent not satisfied by the foregoing, the Issuer has agreed that, for so long as any notes are outstanding, it will furnish to Holders and to securities analysts and prospective investors, upon their written request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Notwithstanding the foregoing, in the event that any direct or indirect parent of the Issuer is or becomes a Guarantor of the notes, the Issuer may satisfy its obligations under this covenant with respect to financial information relating to the Issuer by furnishing financial information relating to such direct or indirect parent; provided that the same is accompanied by consolidating information that explains in reasonable detail the differences between the information relating to such direct or indirect parent and any of its Subsidiaries other than the Issuer and its Subsidiaries, on the one hand, and the information relating to the Issuer, the Guarantors and the other Subsidiaries of the Issuer on a standalone basis, on the other hand.

Suspension of Covenants

Following the first day (the “Suspension Date”) that (a) the notes have an Investment Grade Rating from both Rating Agencies, and (b) no Default has occurred and is continuing, the Issuer and its Restricted Subsidiaries will not be subject to the provisions of the Indenture summarized herein under: (i) “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock”; (ii) “—Limitation on Restricted Payments”; (iii) “—Transactions with Affiliates”; (iv) “Asset Sales”; (v) “—Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries”; and (vi) clause (4) under the first paragraph of “Merger, Consolidation or Sale of All or Substantially All Assets” (collectively, the “Suspended Covenants”). If and while the Issuer and its Restricted Subsidiaries are not subject to the Suspended Covenants, the notes will be entitled to substantially less covenant protection.

In the event that the Issuer and its Restricted Subsidiaries are not subject to the Suspended Covenants for any period of time as a result of the foregoing, and on any subsequent date (the “Reversion Date”) one or both of the Rating Agencies withdraws its Investment Grade Rating or downgrades the rating assigned to the notes below an Investment Grade Rating, then the Issuer and its Restricted Subsidiaries will thereafter again be subject to the Suspended

Covenants with respect to

71

future events. The period of time between the Suspension Date and the Reversion Date is referred to herein as the “Suspension Period.” Notwithstanding that the Suspended Covenants may be reinstated, no Default will be deemed to have occurred as a result of a failure to comply with the Suspended Covenants during the Suspension Period. During the Suspension Period, the Issuer and its Restricted Subsidiaries will be entitled to incur Liens to the extent provided for under “—Liens” (including, without limitation, Permitted Liens) and any Permitted Liens which may refer to one or more Suspended Covenants shall be interpreted as though such applicable Suspended Covenant(s) continued to be applicable during the Suspension Period (but solely for purposes of the “—Liens” covenant and for no other covenant). After any Reversion Date, (1) with respect to any Restricted Payments made after such Reversion Date, the amount of any Restricted Payments made will be calculated as though the covenant described above under the caption “—Limitation on Restricted Payments” had been in effect since the Issue Date and throughout the Suspension Period; and (2) all Indebtedness incurred, or Disqualified Stock or preferred stock issued, during the Suspension Period will be classified to have been incurred or issued pursuant to clause (3) of the second paragraph of “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock.” Notwithstanding the foregoing, during the Suspension Period the Issuer shall not designate any of its Restricted Subsidiaries to be Unrestricted Subsidiaries. There can be no assurance that the notes will ever achieve or maintain Investment Grade Ratings.

Events of Default and Remedies

The Indenture provides that each of the following is an Event of Default:

1. default in payment when due and payable, upon redemption, acceleration or otherwise, of principal of or premium, if any, on the notes;
2. default for 30 days or more in the payment when due of interest or Additional Interest on or with respect to the notes;
 - (a) failure by the Issuer or any Guarantor to comply with its obligations under “Certain Covenants—Merger, Consolidation or Sale of All or Substantially All Assets,” (b) failure by the Issuer or any Restricted Subsidiary to comply with its obligations under the covenants described under “Repurchase at the Option of Holders” (other than a failure to purchase notes that will constitute an Event of Default under clause (1) above and other than a failure to
3. comply with its obligations that would cause a default under clause (a)), or (c) failure by the Issuer or any Restricted Subsidiary to comply with any of its obligations, covenants or agreements (other than a default referred to in clauses (1), (2) and (a) and (b) above) contained in the Indenture or the notes in the case of clause (b) for 30 days and in the case of clause (c) for 60 days, in each such case after receipt of written notice given to the Issuer by the Trustee or the Holders of not less than 25% in principal amount of the notes;
4. default under any mortgage, indenture or instrument under which there is issued or by which there is secured or evidenced any Indebtedness for money borrowed by the Issuer or any of its Restricted Subsidiaries or the payment of which is guaranteed by the Issuer or any of its Restricted Subsidiaries, other than Indebtedness owed to the Issuer or a Restricted Subsidiary, whether such Indebtedness or guarantee now exists or is created after the issuance of the notes, if both:
 - (a) such default either results from the failure to pay any principal of such Indebtedness at its stated final maturity (after giving effect to any applicable grace periods) or relates to an obligation other than the obligation to pay principal of any such Indebtedness at its stated final maturity and results in the holder or holders of such Indebtedness causing such Indebtedness to become due prior to its stated maturity; and
 - (b) the principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness in default for failure to pay principal at stated final maturity (after giving effect to any applicable grace periods), or the maturity of which has been so accelerated, aggregate \$30.0 million or more at any one time outstanding;
5. failure by the Issuer or any Significant Subsidiary (or group of Restricted Subsidiaries that taken together would constitute a Significant Subsidiary) to pay final judgments aggregating in excess of \$30.0 million,

which final judgments remain unpaid, undischarged and unstayed for a period of more than 60 days after such judgment becomes final, and in the event such judgment is covered by insurance, an enforcement proceeding has been commenced by any creditor upon such judgment or decree which is not promptly stayed;

6. certain events of bankruptcy or insolvency with respect to the Issuer or any Significant Subsidiary; or the Guarantee of any Significant Subsidiary (or group of Guarantors that taken together would constitute a Significant Subsidiary) shall for any reason cease to be in full force and effect or be declared null and void or any
7. responsible officer of such Guarantor, as the case may be, denies that it has any further liability under its Guarantee or gives notice to such effect, other than by reason of the termination of the Indenture or the release of any such Guarantee in accordance with the Indenture and such default continues for 10 Business Days.

If any Event of Default (other than of a type specified in clause (6) above with respect to the Issuer) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in principal amount of the then total outstanding notes may declare the principal, premium, if any, interest and any other monetary obligations on all the then outstanding notes to be due and payable immediately.

Upon the effectiveness of such declaration, such principal and interest will be due and payable immediately. Notwithstanding the foregoing, in the case of an Event of Default arising under clause (6) of the first paragraph of this section, all outstanding notes will become due and payable without further action or notice. The Indenture provides that the Trustee may withhold from the Holders notice of any continuing Default, except a Default relating to the payment of principal, premium, if any, or interest, if it determines that withholding notice is in their interest.

The Indenture provides that the Holders of a majority in aggregate principal amount of the then outstanding notes by written notice to the Trustee may on behalf of the Holders of all of the notes waive any existing Default and its consequences under the Indenture except a continuing Default in the payment of interest on, premium, if any, or the principal of any note held by a non-consenting Holder or a continuing Default in respect of a covenant or provision of the Indenture which cannot be amended or modified without the consent of all Holders.

Subject to the provisions of the Indenture relating to the duties of the Trustee thereunder, in case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders of the notes unless the Holders have offered to the Trustee indemnity or security satisfactory to it against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no Holder of a note may pursue any remedy with respect to the Indenture or the notes unless:

1. such Holder has previously given the Trustee written notice that an Event of Default is continuing;
2. Holders of at least 25% in principal amount of the total outstanding notes have requested the Trustee to pursue the remedy;
3. Holders of the notes have offered the Trustee security or indemnity satisfactory to it against any loss, liability or expense;
4. the Trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and
5. Holders of a majority in principal amount of the total outstanding notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, under the Indenture the Holders of a majority in principal amount of the total outstanding notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder of a note or that would involve the Trustee in personal liability.

The Indenture provides that the Issuer is required to deliver to the Trustee annually a statement regarding compliance with the Indenture, and the Issuer is required, within 60 days after becoming aware of any Default, to deliver to the Trustee a statement specifying such Default.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator or stockholder, member or limited partner of the Issuer or any Restricted Subsidiary or any of their parent companies shall have any liability for any obligations of the Issuer or the Guarantors under the notes, the Guarantees or the Indenture or for any claim based on, in respect of, or by reason of such obligations or their creation. Each Holder by accepting notes waives and releases all such liability. The waiver and release are part of the consideration for issuance of the notes.

Legal Defeasance and Covenant Defeasance

The obligations of the Issuer and the Guarantors under the Indenture will terminate (other than certain obligations) and will be released upon payment in full of all of the notes. The Issuer may, at its option and at any time, elect to have all of its obligations discharged with respect to the notes and have the Issuer and each Guarantor's obligation discharged with respect to its Guarantee ("Legal Defeasance") and cure all then existing Events of Default except for:

1. the rights of Holders of notes to receive payments in respect of the principal of, premium, if any, and interest on the notes when such payments are due solely out of the trust created pursuant to the Indenture;
2. the Issuer's obligations with respect to notes concerning issuing temporary notes, registration of such notes, mutilated, destroyed, lost or stolen notes and the maintenance of an office or agency for payment and money for security payments held in trust;
3. the rights, powers, trusts, duties and immunities of the Trustee, and the Issuer's obligations in connection therewith; and
4. the Legal Defeasance provisions of the Indenture.

In addition, the Issuer may, at its option and at any time, elect to have its obligations and those of each Guarantor released with respect to certain covenants in the Indenture ("Covenant Defeasance") and thereafter any omission to comply with such obligations shall not constitute a Default with respect to the notes. In the event Covenant Defeasance occurs, certain events (not including bankruptcy, receivership, rehabilitation and insolvency events pertaining to the Issuer) described under "Events of Default and Remedies" will no longer constitute an Event of Default with respect to the notes.

In order to exercise either Legal Defeasance or Covenant Defeasance with respect to the notes:

 - (b)

- in the case of Covenant Defeasance, the Issuer shall have delivered to the Trustee an Opinion of Counsel reasonably acceptable to the Trustee confirming that, subject to customary assumptions and exclusions, the Holders of the notes

 4. no Default (other than that resulting from borrowing funds to be applied to make such deposit and the granting of Liens in connection therewith) shall have occurred and be continuing on the date of such deposit; such Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a default under any Credit Facility, the Convertible Subordinated Notes or the indenture pursuant to which the Convertible

 6. and subject to customary assumptions and exclusions following the deposit, the trust funds will not be subject to the effect of Section 547 of Title 11 of the United States Code;

 8. provided for or relating to the Legal Defeasance or the Covenant Defeasance, as the case may be, have been complied with.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect as to all notes, when either:

1. all notes theretofore authenticated and delivered, except lost, stolen or destroyed notes which have been replaced or paid and notes for whose payment money has theretofore been deposited in trust, have been delivered to the Trustee for cancellation; or
 - (a) all notes not theretofore delivered to the Trustee for cancellation have become due and payable by reason of the making of a notice of redemption or otherwise, will become due and payable within one year or are to be called for redemption and redeemed within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Issuer and the Issuer or any Guarantor have

In addition, the Issuer must deliver an Officer's Certificate and an Opinion of Counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Amendment, Supplement and Waiver

Except as provided in the next two succeeding paragraphs, the Indenture, any Guarantee and the notes may be amended or supplemented with the consent of the Holders of at least a majority in principal amount of the notes then

outstanding, including consents obtained in connection with a purchase of, or tender offer or exchange offer for, notes, and any existing Default or compliance with any provision of the Indenture or the notes issued thereunder may be waived with the consent of the Holders of a majority in principal amount of the then outstanding notes, other than notes beneficially owned by the Issuer or its Affiliates, including consents obtained in connection with a purchase of, or tender offer or exchange offer for, the notes.

The Indenture provides that, without the consent of each affected Holder of notes, an amendment or waiver may not, with respect to any notes held by a non-consenting Holder:

1. reduce the principal amount of such notes whose Holders must consent to an amendment, supplement or waiver; reduce the principal of or change the fixed final maturity of any such note or alter or waive the provisions with respect to the redemption of such notes (other than provisions relating to the covenants described above under the caption "Repurchase at the Option of Holders"); provided that the notice period for redemption may be reduced to not less than three (3) Business Days with the consent of the Holders of a majority in principal amount of the notes then outstanding if a notice of redemption has not prior thereto been sent to such Holders;
2. reduce the rate of or change the time for payment of interest on any note;

5. make any change in the provisions of the Indenture relating to the rights of Holders to receive payments of principal of or premium, if any, or interest on the notes;
6. make any change in these amendment and waiver provisions;
7. impair the right of any Holder to receive payment of principal of, or interest on such Holder's notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such Holder's notes;
8. make any change to or modify the ranking of the notes that would adversely affect the Holders; or
9. except as expressly permitted by the Indenture, modify the Guarantee of any Significant Subsidiary in any manner adverse to the Holders of the notes.

Notwithstanding the foregoing, the Issuer, any Guarantor (with respect to a Guarantee or the Indenture to which it is a party) and the Trustee may amend or supplement the Indenture and any Guarantee or notes without the consent of any Holder:

1. to cure any ambiguity, omission, mistake, defect or inconsistency;
2. to provide for uncertificated notes of such series in addition to or in place of certificated notes;
3. to comply with the covenant relating to mergers, consolidations and sales of assets;
4. to provide for the assumption of the Issuer's or any Guarantor's obligations to the Holders;
5. to make any change that would provide any additional rights or benefits to the Holders or that does not adversely affect the rights under the Indenture of any such Holder;
6. to add covenants for the benefit of the Holders or to surrender any right or power conferred upon the Issuer or any Guarantor;

12. provided, however, that (i) compliance with the Indenture as so amended would not result in notes being transferred in violation of the Securities Act or any applicable securities law and (ii) such amendment does not materially and adversely affect the rights of Holders to transfer notes.

The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

Concerning the Trustee

The Indenture contains certain limitations on the rights of the Trustee thereunder, should it become a creditor of the Issuer, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest it must eliminate such conflict within 90 days, apply to the SEC for permission to continue or resign.

U.S. FEDERAL INCOME TAX CONSIDERATIONS

This section is a discussion of U.S. federal income tax considerations relating to the exchange offer. This summary does not provide a complete analysis of all potential tax considerations. The information provided below is based on the Internal Revenue Code of 1986, as amended (the “Code”), U.S. Treasury Regulations, Internal Revenue Service (“IRS”) rulings and pronouncements, and judicial decisions all as now in effect and all of which are subject to change or differing interpretations, possibly with retroactive effect. There can be no assurances that the IRS will not challenge one or more of the tax consequences described herein, and we have not obtained, nor do we intend to obtain, a ruling from the IRS with respect to the U.S. federal income consequences of the exchange offer. The summary generally applies only to beneficial owners of the notes that hold the notes as capital assets. This discussion does not purport to deal with all aspects of U.S. federal income taxation that may be relevant to a particular beneficial owner in light of the beneficial owner’s circumstances (for example, persons subject to the alternative minimum tax provisions of the Code, or a U.S. Holder (as defined below) whose “functional currency” is not the U.S. dollar). Also, it is not intended to be wholly applicable to all categories of investors, some of which may be subject to special rules (such as dealers in securities or currencies, traders in securities that elect to use a mark-to-market method of accounting, banks, thrifts, regulated investment companies, real estate investment trusts, insurance companies, tax-exempt entities, tax-deferred or other retirement accounts, certain former citizens or residents of the United States, persons holding notes as part of a hedging, conversion or integrated transaction or a straddle, or persons deemed to sell notes under the constructive sale provisions of the Code). Finally, the summary does not describe the effect of the U.S. federal estate and gift tax laws on U.S. Holders or the effects of any applicable foreign, state or local laws.

THIS SUMMARY IS FOR GENERAL INFORMATION AND IS NOT TAX ADVICE WITH RESPECT TO ANY SPECIFIC INVESTOR IN LIGHT OF SUCH INVESTOR’S PARTICULAR CIRCUMSTANCES. INVESTORS SHOULD CONSULT THEIR OWN TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AND THE CONSEQUENCES OF U.S. FEDERAL ESTATE OR GIFT TAX LAWS, FOREIGN, STATE AND LOCAL LAWS, AND TAX TREATIES.

As used herein, the term “U.S. Holder” means a beneficial owner of the notes that, for U.S. federal income tax purposes is (1) an individual who is a citizen or resident of the United States, (2) a corporation, or an entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or any state of the United States, including the District of Columbia, (3) an estate the income of which is subject to U.S. federal income taxation regardless of its source, or (4) a trust if it (a) is subject to the primary supervision of a U.S. court and the control of one of more U.S. persons or (b) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership (including an entity or arrangement, domestic or foreign, treated as a partnership for U.S. federal income tax purposes) is a beneficial owner of a note, the tax treatment of a partner in the partnership will depend upon the status of the partner and the activities of the partnership. A beneficial owner of a note that is a partnership, and partners in such partnership, should consult their own tax advisors about the U.S. federal income tax consequences of the exchange offer.

The exchange of old notes for exchange notes pursuant to the exchange offer will not be a taxable exchange for U.S. federal income tax purposes. Accordingly, for U.S. federal income tax purposes, a holder will have the same tax basis and holding period in the exchange notes as the holder had in the old notes immediately before the exchange offer.

BOOK-ENTRY; DELIVERY AND FORM

The certificates representing the exchange notes will be issued in fully registered form without interest coupons (each a “Global Note”) and will be deposited with the trustee as a custodian for The Depository Trust Company (“DTC”) and registered in the name of a nominee of DTC.

The Global Notes

We expect that pursuant to procedures established by DTC (i) upon the issuance of the Global Notes, DTC or its custodian will credit, on its internal system, the principal amount at maturity of the individual beneficial interests represented by such Global Notes to the respective accounts of persons who have accounts with such depository and (ii) ownership of beneficial interests in the Global Notes will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants). Ownership of beneficial interests in the Global Notes will be limited to persons who have accounts with DTC (“participants”) or persons who hold interests through participants. Holders may hold their interests in the Global Notes directly through DTC if they are participants in such system, or indirectly through organizations which are participants in such system.

So long as DTC, or its nominee, is the registered owner or holder of the notes, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the notes represented by such Global Notes for all purposes under the indenture. No beneficial owner of an interest in the Global Notes will be able to transfer that interest except in accordance with DTC’s procedures, in addition to those provided for under the indenture with respect to the notes. Payments of the principal of and premium (if any) and interest (including additional interest) on the Global Notes will be made to DTC or its nominee, as the case may be, as the registered owner thereof. None of Griffon, the trustee or any paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interest.

The Company expects that DTC or its nominee, upon receipt of any payment of principal, premium, if any, or interest (including additional interest) on the Global Notes, will credit participants’ accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the Global Notes as shown on the records of DTC or its nominee. The Company also expects that payments by participants to owners of beneficial interests in the Global Notes held through such participants will be governed by standing instructions and customary practice, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants in DTC will be effected in the ordinary way through DTC’s same-day funds system in accordance with DTC rules and will be settled in same-day funds. If a holder requires physical delivery of notes in certificated form (“Certificated Securities”) for any reason, including to sell notes to persons in states which require physical delivery of the notes, or to pledge such securities, such holder must transfer its interest in a Global Note in accordance with the normal procedures of DTC and the procedures set forth in the indenture.

DTC has advised us that it will take any action permitted to be taken by a holder of notes (including the presentation of notes for exchange as described below) only at the direction of one or more participants to whose account the DTC interests in the Global Notes are credited and only in respect of such portion of the aggregate principal amount of notes as to which such participant or participants has or have given such direction. However, if there is an event of default under the indenture, DTC will exchange the Global Notes for Certificated Securities, which it will distribute to its participants.

DTC has advised us as follows: DTC is a limited purpose trust company organized under the laws of the State of New York, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the Uniform Commercial Code and a “Clearing Agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and certain other organizations. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial

relationship with a participant, either directly or indirectly (“indirect participants”).

99

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the Global Notes among participants of DTC, it is under no obligation to perform such procedures, and such procedures may be discontinued at any time. Neither we nor the trustee will have any responsibility or liability for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Certificated Securities

Certificated Securities shall be issued in exchange for beneficial interests in the Global Notes (i) if requested by a holder of such interests or (ii) if DTC is at any time unwilling or unable to continue as a depository for the Global Notes and a successor depository is not appointed by Griffon within 90 days.

PLAN OF DISTRIBUTION

Under existing SEC interpretations, we expect that the exchange notes will be freely transferable by holders other than our affiliates after the exchange offer without further registration under the Securities Act if the holder of the exchange notes represents that it is acquiring the exchange notes in the ordinary course of its business, that it has no arrangement or understanding with any person to participate in the distribution of the exchange notes and that it is not an affiliate of ours, as such terms are interpreted by the SEC; provided that broker-dealers receiving exchange notes in the exchange offer will have a prospectus delivery requirement with respect to resales of such exchange notes as discussed below. While the SEC has not taken a position with respect to this particular transaction, under interpretations of the staff of the SEC contained in Exxon Capital Holdings Corp., SEC no-action letter (April 13, 1988), Morgan Stanley & Co. Inc., SEC no-action letter (June 5, 1991) and Shearman & Sterling, SEC no-action letter (July 2, 1983), which related to transactions structured substantially like this exchange offer, participating broker-dealers may fulfill their prospectus delivery requirements with respect to exchange notes (other than a resale of an unsold allotment of the old notes) with this prospectus.

Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for old notes where such old notes were acquired as a result of market-making activities or other trading activities. We have agreed that, for a period ending on the earlier of (i) 180 days from the date on which the registration statement of which this prospectus forms a part becomes or is declared effective and (ii) the date on which a broker-dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities, we will make this prospectus, as amended or supplemented, available to any broker-dealer for use in connection with any such resale.

We will not receive any proceeds from the exchange offer or from any sale of exchange notes by brokers-dealers. Exchange notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the exchange notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer and/or the purchasers of any such exchange notes. Any broker-dealer that resells the exchange notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such exchange notes may be deemed to be an “underwriter” within the meaning of the Securities Act and any profit of any such resale of exchange notes and any commissions or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an “underwriter” within the meaning of the Securities Act.

LEGAL MATTERS

Certain legal matters with regard to the validity of the exchange notes and the new note guarantees will be passed upon for us by Dechert LLP, New York, New York.
