Fair Value Measurements - Various inputs are used in determining the fair value of investments and derivative financial instruments. These inputs

to valuation techniques are categorized into a disclosure hierarchy consisting of three broad levels for financial reporting purposes. The hierarchy

gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest

priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for

instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for

disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value

measurement in its entirety. The categorization of a value determined for investments and derivative financial instruments is based on the pricing

transparency of the investment and derivative financial instrument and is not necessarily an indication of the risks associated with investing in

those securities. The three levels of the fair value hierarchy are as follows:

Level 1 — unadjusted quoted prices in active markets/exchanges for identical assets or liabilities that the Fund has the ability to access

Level 2 — other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 — unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund's own assumptions used in determining the fair value of investments)

Changes in valuation techniques may result in transfers into or out of an assigned level within the disclosure hierarchy. In accordance with the Trust's

policy, transfers between different levels of the fair value disclosure hierarchy are deemed to have occurred as of the beginning of the reporting

period. For information about the Fund's policy regarding valuation of investments and derivative financial instruments, please refer to the Fund's most recent financial statements as contained in its annual report.

The following table summarizes the Fund's investments categorized in the disclosure hierarchy as of November 30, 2014:

As of August 31, 2014, the Fund used observable inputs in determining the value of certain investments. As of November 30, 2014, the Fund used significant unobservable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$24,534,012 transferred from Level 2 to Level 3 in the disclosure hierarchy.

As of August 31, 2014, the Fund used significant unobservable inputs in determining the value of certain investments. As of November 30, 2014, the Fund used observable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$23,774,354 transferred from Level 3 to Level 2 in the disclosure hierarchy.

Any difference between Net change in unrealized appreciation/depreciation and Net change in unrealized appreciation/depreciation on investments still held at November 30, 2014 is generally due to investments no longer held or categorized as Level 3 at period end.

Consolidated Schedule of Investments (concluded) **BlackRock Floating Rate Income Strategies Fund, Inc. (FRA)**

The following table summarizes the valuation techniques used and unobservable inputs utilized by the BlackRock Global Valuation Methodologies Committee (the "Global Valuation Committee") to determine the value of certain of the Fund's Level 3 investments as of November 30, 2014. The table does not include Level 3 investments with values based upon unadjusted third party pricing information in the amount of \$68,920,778. A significant change in such third party pricing information could result in a significantly lower or higher value of such Level 3 investments.
