**PROXY STATEMENT FOR 2008 ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD JUNE 19, 2008**

INFORMATION CONCERNING THIS SOLICITATION

The Board of Directors of Universal Display Corporation (we, us or the Company) is soliciting proxies for the 2008 Annual Meeting of Shareholders to be held on Thursday, June 19, 2008, at 4:00 p.m., Eastern Time, at the Crowne Plaza Hotel (formerly the Holiday Inn on City Line Avenue), 4100 Presidential Boulevard, Philadelphia, Pennsylvania 19131 (the Annual Meeting). This proxy statement contains important information for shareholders to consider when deciding how to vote on the matters brought before the Annual Meeting. Please read it carefully.

At the Annual Meeting, our shareholders will be asked to vote upon:

- (1) the election of seven members of our Board of Directors to hold one-year terms;
- (2) a proposal to ratify the appointment of KPMG LLP as the Company's independent registered public accounting firm for 2008; and
- (3) such other business as may properly come before the shareholders at the Annual Meeting.

Voting materials, which include the proxy statement, a proxy card and our Annual Report for 2007, will be mailed to all registered shareholders beginning on or about April 28, 2008. Shareholders holding their shares in street name should receive the proxy statement and a voting instruction form from their broker, bank or other custodian, nominee or fiduciary. We will pay the expenses of these solicitations. In addition to solicitation by mail, proxies may be solicited by telephone or in person by some of our officers, directors and regular employees or independent contractors who will not be specially engaged or compensated for such services.

Our principal executive offices are located at 375 Phillips Boulevard, Ewing, New Jersey 08618. Our general telephone number is (609) 671-0980.

VOTING AT THE ANNUAL MEETING

Our Board of Directors has set April 9, 2008 as the record date for the Annual Meeting (the Record Date). As of the Record Date, we had outstanding 35,846,015 shares of common stock and 200,000 shares of Series A Nonconvertible Preferred Stock. Each holder of our common stock or Series A Nonconvertible Preferred Stock is entitled to one vote per share on all matters to be voted on at the Annual Meeting. Holders of our common stock and Series A Nonconvertible Preferred Stock vote together as a single class on all matters.

Only shareholders of record as of the close of business on the Record Date may attend and vote at the Annual Meeting. The presence, in person or by proxy, of shareholders entitled to cast at least a majority of the votes that all shareholders are entitled to cast on a particular matter to be acted upon at the Annual Meeting will constitute a quorum for purposes of that matter. Shareholders of record who return a proxy card but abstain from voting or fail to vote on a particular matter will be considered present for quorum purposes with respect to the matter. In addition, shares held by brokers or nominees who have notified us on a proxy card or otherwise in accordance with industry practice that they have not received voting instructions with respect to a particular matter and that they lack or have declined to exercise voting authority with respect to such matter (referred to in this proxy statement as uninstructed shares), will be considered present for quorum purposes with respect to the matter. Votes not cast

by brokers or nominees with respect to uninstructed shares are referred to in this proxy statement as broker non-votes. The persons named in the enclosed proxy will vote the shares represented by each properly executed proxy as directed therein. In the absence of such direction on a properly executed proxy card, the persons named in the enclosed proxy will vote FOR the persons nominated by our Board of Directors for election as directors and FOR the proposal to ratify KPMG LLP as our independent registered public accounting firm. As to other items of business that may properly be presented at the Annual Meeting for action, the persons named in the enclosed proxy will vote the shares represented by the proxy in accordance with their best judgment.

A shareholder of record may revoke his or her proxy at any time before its exercise by giving written notice of such revocation to our Corporate Secretary. In addition, any shareholder of record may vote by ballot at the Annual Meeting, even if he or she has already returned a proxy card.

The preliminary voting results will be announced at the Annual Meeting. The final results will be published in our quarterly report on Form 10-Q for the quarter ending June 30, 2008.

Your vote is important. Please complete, sign and return the accompanying proxy card or voting instruction form whether or not you plan to attend the Annual Meeting. If you plan to attend the Annual Meeting to vote in person and your shares are registered with our transfer agent in the name of a broker, bank or other custodian, nominee or fiduciary, you must secure a proxy from that person or entity assigning you the right to vote your shares of common stock.

Pursuant to our Amended and Restated Articles of Incorporation, the holder of our Series A Nonconvertible Preferred Stock is entitled to nominate and elect two of the members of our Board of Directors. The holder of the Series A Nonconvertible Preferred Stock has waived this right with respect to the election of directors at the Annual Meeting. All nominees are presently members of our Board of Directors whose terms expire at the Annual Meeting. The nominees for election are as follows:

Vote Required and Recommendation of our Board of Directors

Directors are elected by a plurality and the seven nominees who receive the most votes will be elected. Shareholders may vote for or withhold their vote from each nominee, or the entire group of nominees as a whole. Broker non-votes are not considered votes cast with respect to this proposal and will have no effect on the outcome of the election of directors. Shareholders do not have cumulative voting rights with regard to the election of members of our Board of Directors.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR EACH OF THE NOMINEES FOR DIRECTOR.

Director Independence

Our Board of Directors has determined that a majority of its members are independent directors within the meaning of applicable NASDAQ listing requirements. Our independent directors are Mr. Becker, Ms. Gemmill, Mr. Hartley and Mr. Lacerte. In addition, based on these listing requirements, our Board of Directors has determined that Mr. Seligsohn, Mr. Abramson and Mr. Rosenblatt are not independent directors because they are all officers of the Company.

Our independent directors meet in executive session on a periodic basis in connection with regularly-scheduled meetings of the full Board of Directors, as well as in their capacity as members of our Audit Committee and Compensation Committee.

- 4 -

Board Meetings and Committees; Annual Meeting Attendance

In 2007, our Board of Directors held 10 meetings. Five of our incumbent directors attended all of these meetings and two of our incumbent directors attended nine of the meetings. Our Audit Committee held four meetings in 2007, and each member of the Audit Committee attended all of these meetings. Our Compensation Committee held nine meetings in 2007. Two members of the committee attended all of these meetings and two members of the committee attended eight of the meetings.

All incumbent directors and nominees for election as director are encouraged, but not required, to attend our annual meetings of shareholders. All but two of the current members of our Board of Directors attended our annual meeting of shareholders in 2007.

Director Nominations

Our Board of Directors has not established a standing committee to nominate candidates for election as directors. Instead, a majority of our independent directors recommend, and our full Board of Directors selects, the candidates that will be nominated to stand for election as directors at our annual meeting of shareholders. Our Board of Directors believes that this process is appropriate given the relatively small size of our Board of Directors and the fact that each independent director already serves on both the Audit Committee and the Compensation Committee. Since we do not have a nominating committee, our Board of Directors has not adopted a nominating committee charter.

In nominating candidates for election as directors, both our independent directors and our full Board of Directors consider the skills, experience, character, commitment and diversity of background of each potential nominee, all in the context of the requirements of our Board of Directors at that point in time. Each candidate should be an individual who has demonstrated integrity and ethics, has an understanding of the elements relevant to the success of a publicly-traded company, and has established a record of professional accomplishment in such candidate's chosen field. Each candidate also should be prepared to participate in all Board and committee meetings that he or she attends, and should not have other personal or professional commitments that might reasonably be expected to interfere with or limit such candidate's ability to do so. Additionally, in determining whether to recommend a director for re-election, the director's past attendance at Board and committee meetings should be considered.

Our Board of Directors has no stated specific, minimum qualifications that must be met by candidates for election as directors. However, in accordance with SEC rules and applicable NASDAQ listing requirements, at least one member of our Board of Directors is expected to meet the criteria for an audit committee financial expert as defined by SEC rules, and a majority of the members of the Board are expected to meet the definition of independent director within the meaning of SEC rules and applicable NASDAQ listing requirements.

Any shareholder of record entitled to vote in the election of directors at an annual or special meeting of our shareholders may nominate one or more persons to stand for election to the Board at such meeting in accordance with the requirements of our Amended and Restated Bylaws. In order to be considered by our Board of Directors in connection with the nominations process for our 2009 annual meeting of shareholders, all such director nominations must be received by our Corporate Secretary at our principal executive offices by February 19, 2009. Each such submission must be in writing and must comply with the notice, information and consent provisions contained in our Amended and Restated Bylaws. In addition, each such submission must include any other information required by Regulation 14A under the Securities Exchange Act of 1934, as amended (the Exchange Act). Submissions should be addressed to our Corporate Secretary at the following address: Universal Display Corporation, 375 Phillips Boulevard, Ewing, New Jersey 08618.

Our independent directors and the full Board of Directors will consider all candidates identified by shareholders through the processes described above, and will evaluate each of them, including incumbent directors, based on the same criteria. Although we have no formal policy regarding shareholder nominees, our Board of Directors believes that shareholder nominees should be viewed in substantially the same manner as other nominees. The consideration of any candidate for director will be based on an assessment of the individual's background, skills and abilities, together with an assessment of whether such characteristics qualify the individual to fulfill the needs of our Board of Directors at that time.

Audit Committee

Our Board of Directors has established a standing Audit Committee. The members of our Audit Committee are Mr. Becker, Ms. Gemmill, Mr. Hartley and Mr. Lacerte. Ms. Gemmill is the Chairperson of our Audit Committee. Our Audit Committee operates pursuant to a written charter that complies with the applicable provisions of the Sarbanes-Oxley Act of 2002 and related rules of the Securities and Exchange Commission (the SEC) and NASDAQ listing standards. The Audit Committee Charter was last reviewed by our Board of Directors on April 8, 2008, and a copy of the updated charter is publicly available through the For Investors section of our website at <http://www.universaldisplay.com>.

According to its charter, our Audit Committee is responsible for, among other things:

- reviewing our financial statements and discussing these statements and other relevant financial matters with management and our independent registered public accounting firm;

- selecting and evaluating our independent registered public accounting firm and approving all audit engagement fees and terms;

- pre-approving all audit and non-audit services provided to us, including the scope of such services, the procedures to be utilized and the compensation to be paid;

- assessing the effectiveness of our internal control system and discussing this assessment with management and our independent registered public accounting firm;

- reviewing our financial reporting and accounting standards and principles, significant changes in these standards and principles, or in their application, and key accounting decisions affecting our financial statements, including alternatives to, and the rationale for, these decisions;

- discussing with management and our independent registered public accounting firm, as appropriate, our risk assessment and risk management policies, including our major exposures to financial risk and the steps taken by management to monitor and mitigate these exposures; and

- reviewing and investigating any matters pertaining to the integrity of management, including any actual or potential conflicts of interest or allegations of fraud, and the adherence of management to our standards of business conduct.

Each member of our Audit Committee meets the financial knowledge and independence criteria of the NASDAQ listing requirements. Our Board of Directors has determined that Ms. Gemmill is an audit committee financial expert as such term is defined under SEC regulations, and that Ms. Gemmill meets the financial sophistication and independence standards mandated by the NASDAQ listing requirements.

Report of the Audit Committee

The Audit Committee has reviewed and discussed with Company management the audited financial statements of the Company for the fiscal year ended December 31, 2007, as well as management's assessment of the Company's internal control over financial reporting as of December 31, 2007. In addition, the Audit Committee has discussed with the Company's independent registered public accounting firm, KPMG LLP, the matters required to be discussed by Statement on Auditing Standards No. 61 (Codification of Statements on Auditing Standards, AU § 380), as may be modified or supplemented, and the matters required by auditing standards of the Public Company Accounting Oversight Board (PCAOB), including the opinions regarding internal control over financial reporting pursuant to PCAOB Auditing Standard No. 5. The Audit Committee also has received the written disclosures and the letter from KPMG LLP required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and has discussed the independence of KPMG LLP with that firm. Based on the Audit

Committee's review of the matters noted above and its discussions with management and the Company's independent registered public accounting firm, the Audit Committee recommended to the Company's Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the period ended December 31, 2007.

Compensation Committee

Our Board of Directors has established a standing Compensation Committee. The members of our Compensation Committee are Mr. Becker, Ms. Gemmill, Mr. Hartley and Mr. Lacerte. Ms. Gemmill is the Chairperson of our Compensation Committee.

Our Compensation Committee, which does not operate pursuant to a written charter, is responsible for, among other things:

- recommending to the full Board of Directors the base salary, incentive compensation and any other compensation for the Company's Chief Executive Officer, Chief Financial Officer, Chief Technical Officer and Founder;

- recommending to the full Board of Directors the compensation for service as a member of the Board of Directors or any Board committees;

- reviewing and approving or ratifying management's recommendations for equity compensation awards to other employees and consultants of the Company;

- administering and discharging the duties imposed on the Committee under the terms of the Company's Equity Compensation Plan; and

- performing such other functions and duties as are deemed appropriate by the full Board of Directors.

Our Compensation Committee has historically determined the compensation for the Company's executive officers in two stages. Base salary adjustments and perquisites and other benefits (life insurance coverage, automobile allowance, etc.) have been approved mid-year, to coincide with the annual employment anniversaries of these individuals with the Company. Annual bonus equity compensation awards, long-term incentive equity compensation awards, and special cash and non-cash awards have been granted at or shortly after year-end. This enables the Committee to review the Company's fiscal performance for the year in determining these grants.

For 2007, our Compensation Committee determined the compensation for members of the Company's Board of Directors in advance. This compensation was paid in quarterly installments shortly following the end of each quarter during the year. No separate compensation is awarded for committee service, and directors who are employees or officers of the Company do not receive separate compensation for their service on the Board.

Company management recommends to the Compensation Committee compensation for all of the Company's employees, including its executive officers and directors, in order to facilitate the Committee's activities. However, the Committee exercises independent judgment in making its determinations of compensation for executive officers and directors, and in recommending this compensation to the full Board of Directors. This includes meetings of the Committee in executive session to review and ultimately finalize its recommendations.

In 2007, the Compensation Committee engaged Hay Group as consultants to assist the Committee in evaluating whether to adopt a supplemental executive retirement plan (SERP) for certain of the Company's executive officers.

Hay Group provided the Committee with a report outlining various design alternatives for the proposed plan, the prevalence of benefits offered by other companies with similar plans, projected cost estimates for implementation of the plan and a summary of other design and accounting considerations. The Committee is considering Hay Group's report as part of its ongoing effort to evaluate design alternatives for the proposed SERP.

Compensation Committee Interlocks and Insider Participation

Each member of our Compensation Committee is an independent director under the NASDAQ listing requirements. None of the members of our Compensation Committee were officers or employees of the Company or its subsidiary during 2007, were formerly officers of the Company or its subsidiary, or had any relationship with the Company since the beginning of 2007 that requires disclosure under Item 404 of Regulation S-K. Nor have there been, since the beginning of 2007, any compensation committee interlocks involving our directors and executive officers that require disclosure under Item 407 of Regulation S-K.

Report of the Compensation Committee

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Compensation Philosophy and Objectives

Compensation and benefits programs are an important part of the relationship between our Company and its executive officers. Compensation for our executive officers is intended to be competitive, thereby allowing us to attract, motivate and retain talented personnel. We also seek to reward our executive officers for accomplishments and contributions to the Company's long-term strategic and short-term business goals.

How We Determine Executive Compensation

Each year, our Compensation Committee reviews and approves the compensation for our executive officers. This process begins with a review of the compensation paid to our executive officers in recent prior years. We use prior compensation as a starting point because we believe, as a general matter, that executive compensation should remain relatively consistent from year-to-year. The market for our OLED technologies and materials is still at a very early stage, which poses risks for our business. By keeping executive compensation relatively constant year-to-year, we provide a stable pay environment for our executive officers while they work to grow our business and revenues. With prior compensation as a baseline, we then consider the extent to which we have achieved our business goals for the current year, including our goals for revenue growth, expense management, balance sheet stability, technical progress, new and expanded business relationships and increased shareholder value. We also evaluate the individual performance of our executive officers in relation to the achievement of our business goals. As part of this process, we reassess our business goals in relation to the actual growth of the OLED market over the past year. Since many of our business goals depend on dynamic market factors outside of the control of our executive officers, we want to ensure that we measure our Company's and their individual performance against goals that are realistic. In addition, we consider the expected contributions of each individual executive officer to the future of our business. This helps us determine the value of long-term incentive compensation awards to our executive officers, such as shares of restricted stock. In determining these awards, we also consider the level of compensation that would be appropriate for motivating each individual executive officer to remain committed to our Company and its future success. Since the OLED market is still at an early stage, our executive officers face a risk that our business might not ultimately succeed. We believe that long-term incentive compensation awards to our executive officers help offset that risk.

Executive management makes recommendations to our Compensation Committee regarding all aspects of compensation for our executive officers. However, final decisions on any major element of compensation, as well as total compensation for our executive officers, are made by our Compensation Committee. Awards to our executive officers are then approved by our full Board of Directors. Our Chief Executive Officer does not participate in Compensation Committee or Board deliberations regarding his compensation. Also, meetings of our Compensation Committee are scheduled well in advance of the proposed meeting date, and the Committee does not establish equity grant dates in order to affect the value of any particular award.

In making compensation decisions, we consider publicly available information regarding the compensation paid to executives at other companies. However, this information is not tabulated or summarized, and we do not engage in any form of compensation benchmarking. Instead, comparisons are more generally based on industry norms and compensation packages as reported by the public news media.

In determining executive compensation, we consider the current value to our executive officers of compensation paid or issued to them for prior years. However, we have not focused on gains or losses from prior option grants or other awards because we believe that those gains or losses are not particularly significant in relation to overall compensation, and that gains or losses from prior awards do not have a substantial effect on the future performance of our executive officers. We also do not use tally sheets in determining compensation for our executive officers, and in 2007 we did not utilize any external consultants to assist us in determining executive compensation.

Elements of Compensation

For 2007, total compensation to our executive officers consisted of the following elements:

Base salaries;

Annual bonus equity compensation awards;

Long-term incentive equity compensation awards;

Special cash and non-cash awards; and

Perquisites and other benefits.

Our executive officers receive both cash and non-cash, or equity, compensation. Equity compensation is further broken down into annual bonus awards that vest immediately and long-term incentive awards that typically vest with continued service over time. We utilize annual bonus awards to reward our executive officers for their performance during the past year. We use long-term incentive awards that vest over time largely to motivate our executive officers to perform in future years. We believe that each of these components is an important and necessary element of executive compensation.

Actual compensation amounts are determined by our Compensation Committee in its discretion. However, the mix of compensation components has remained relatively consistent year-to-year, in large part because there are few similarly situated companies with which we compare ourselves, and because our executive officers have come to expect an element of consistency in their compensation over time. Should unusual events or circumstances occur which have a material impact on our Company, we would expect the Compensation Committee to consider them in deciding whether to make any significant changes in executive compensation.

Base salaries

We believe that there is a general expectation by our executive officers that their base salaries will remain relatively consistent year-to-year, subject to limited merit-based adjustments. We also believe that this relatively simple approach is commonly used to determine the base salaries of executives at other small companies. More substantial adjustments in the base salaries of our executive officers may be warranted in the future when the market for our OLED technologies and materials matures, or under circumstances different from those in our current environment. In 2007, the base salaries of our executive officers were increased by five and one-half percent (5.5%) over the prior year. These increases were consistent with prior year base salary increases for our executive officers, and with increases in the base salaries of our other employees in 2007. The increases were primarily merit-based and intended to reward our executive officers for their overall performance on behalf of the Company. To a lesser extent, the increases were intended to offset increases in the cost of living, although no actual survey of cost of living indices was conducted. The base salaries of Mr. Seligsohn, Mr. Abramson and Mr. Rosenblatt were adjusted effective as of July 1, 2007, and the base salary of Dr. Brown was adjusted effective as of June 22, 2007, which in each case is the individual's annual employment anniversary date. Consistent with previous years, these adjustments were recommended by executive management and approved by our Compensation Committee at a meeting held on September 11, 2007.

As in the past, each of Mr. Abramson and Mr. Rosenblatt received the same base salary in 2007. This reflects our historic practice of treating these two individuals equally based on their longstanding dedication and commitment to the Company, and the value that each of them has provided and continues to provide to our business success.

As in prior years, Mr. Seligsohn's base salary for 2007 was set taking into account his shared duties and responsibilities for other companies that he previously founded. Most notable in this regard is Global Photonic Energy Corporation (GPEC), a privately-held corporation of which Mr. Seligsohn and his family are the largest shareholders, and for which Mr. Seligsohn serves as Chairman of the Board of Directors and Chief Executive Officer.

Annual bonus equity compensation awards

Bonus equity compensation awards are typically awarded to our executive officers on an annual basis at or shortly after the end of each calendar year. These awards have historically taken the form of immediately-vesting shares of our common stock, and this practice continued with the awards made for 2007. The awards are determined based on both Company and individual performance during the prior year. They are recommended by executive management and approved by our Compensation Committee and full Board of Directors.

Our Compensation Committee instituted an Executive Performance Compensation Program for our executive officers in 2004. This program, which was slated to continue through 2007, contemplated that equity compensation awards to our executive officers would be based, in part, on the achievement of performance goals to be set annually by the Compensation Committee for each individual executive officer. These goals and the awards for achieving them were to be established in a manner designed to reward enhanced Company and individual performance of both a qualitative and quantitative nature. Specific metrics for quantitative assessment were to include, for example, revenues, earnings, expense management, stock price and the number of new contracts executed.

The Committee, however, did not set formal performance goals and corresponding awards for the Company's executive officers for 2007. As it had in 2005 and 2006, the Committee determined that the awards to the Company's executive officers for 2007 would be recommended by the Committee in its discretion, taking into consideration the Company's financial results, business performance and other relevant factors, at year-end. The Committee concluded that this approach was appropriate in light of the early stage of the OLED market and the difficulty in assessing the Company's performance by traditional financial metrics. For similar reasons, the Committee has determined not to renew the Executive Performance Compensation Program for 2008 or thereafter.

Bonus equity compensation awards to our executive officers for 2007 were recommended by our Compensation Committee and approved by our full Board of Directors at meetings held on January 9, 2008. On that date, the closing price of our common stock on the NASDAQ Global Market was \$18.34 per share. The awards took the form of immediately vesting shares of our common stock in the following amounts: Mr. Seligsohn 10,905 shares; Mr. Abramson 19,083 shares; Mr. Rosenblatt 19,083 shares and Dr. Brown 12,268 shares. Portions of the shares awarded were withheld in consideration of the Company's payment of associated payroll taxes on behalf of these individuals. The number of shares so withheld were as follows: Mr. Seligsohn 3,526 shares; Mr. Abramson 5,916 shares; Mr. Rosenblatt 5,916 shares and Dr. Brown 3,927 shares.

Based on the closing price of our common stock on each respective grant date, the bonus equity compensation awards to our executive officers for 2007 were identical in value to the corresponding awards that these individuals received for 2006. Our executive management recommended, and the Committee agreed, that this was appropriate given our current business situation. In recommending the awards, executive management noted that the price of our common stock had increased substantially in 2007, and that we had signed two new commercial agreements and announced the achievement of several technical milestones during the year. However, executive management also noted that our revenues for 2007 remained essentially unchanged from the prior year, and that the OLED market continued to grow at a pace slower than we had originally expected.

For the reasons indicated earlier, Mr. Abramson and Mr. Rosenblatt again received identical bonus equity compensation awards for 2007, and Mr. Seligsohn's award was set taking into account his shared duties and responsibilities for GPEC and other companies. In addition, Dr. Brown's bonus equity compensation award for 2007 was \$25,000 higher than it was for 2006. However, she had received a special cash award of \$25,000 for 2006, so the combined values of her special cash awards and bonus equity compensation awards were the same for 2007 as for 2006.

Long-term incentive equity compensation awards

Long-term incentive equity compensation awards are typically granted to our executive officers on an annual basis in conjunction with the grant of annual bonus equity compensation awards to these individuals. These awards previously were issued in the form of options to purchase shares of our common stock. However, due to changes in the financial accounting rules based on the adoption of FAS 123R, this practice was discontinued at the end of 2005. Since then, long-term incentive equity compensation awards to our executive officers have taken the form of

restricted shares of our common stock. The shares vest over a period of time and vesting is contingent on the officer continuing to be employed by us on the vesting date.

We use long-term incentive equity compensation awards to link the compensation paid to our executive officers with their future performance and the future performance of our common stock. We believe that this helps align the interests of our executive officers with those of our shareholders. We also use these awards to encourage our executive officers to remain with the Company through the applicable vesting period. As with other compensation to our executive officers, long-term incentive equity compensation awards are recommended by executive management and approved by our Compensation Committee and full Board of Directors.

Long-term incentive equity compensation awards to our executive officers were approved at meetings of our Compensation Committee and full Board of Directors on January 9, 2007. These awards took the form of restricted shares of our common stock as follows: Mr. Seligsohn 13,689 shares; Mr. Abramson 20,533 shares; Mr. Rosenblatt 20,533 shares and Dr. Brown 13,689 shares. The shares vest in equal increments of one-third each on the next three anniversaries of the grant date, provided that the officer is an employee of the Company on the applicable vesting date. We consider one-third of these share awards to be compensation to our executive officers for each of the years 2007, 2008 and 2009.

The first one-third of the restricted share awards granted on January 9, 2007 vested on January 9, 2008. This resulted in the issuance of shares of common stock to our executive officers as follows: Mr. Seligsohn 4,563 shares; Mr. Abramson 6,845 shares; Mr. Rosenblatt 6,845 shares and Dr. Brown 4,563 shares. As with other equity awards that we grant, portions of the vesting shares were withheld in consideration of the Company's payment of associated payroll taxes on behalf of these officers. The number of shares so withheld were as follows: Mr. Seligsohn 1,346 shares; Mr. Abramson 2,020 shares; Mr. Rosenblatt 2,020 shares and Dr. Brown 1,346 shares.

As with other compensation, Mr. Abramson and Mr. Rosenblatt received identical long-term incentive equity compensation awards, and Mr. Seligsohn's award was set taking into account his shared duties and responsibilities for GPEC and other companies.

Special cash and non-cash awards

From time to time, we issue special cash and non-cash awards to our employees, including our executive officers. For example, we have historically awarded a small number of stock options to our employees in connection with the filing and issuance of patents on which they are named inventors. From time to time, we have also issued cash awards to our employees in connection with their having achieved special recognition in their field or in the industry. We believe that these awards are a small but important component of compensation intended to recognize our employees for special individual accomplishments that are likely to benefit us and our business.

On January 15, 2007, executive management recommended and our Compensation Committee approved an award to Dr. Brown of options to purchase 250 shares of our common stock. This award was granted in recognition of the issuance of a U.S. patent for which Dr. Brown is a named inventor. As indicated, this award was granted consistent with our historical practice of making such awards to patent inventors. We did not issue any other special cash or non-cash awards to our executive officers in 2007.

Due to changes in the financial accounting rules based on the adoption of FAS 123R, we are no longer issuing options to purchase shares of our common stock in recognition of patent filings or issuances. Effective as of January 1, 2008, such recognition awards now take the form of unrestricted shares of our common stock. This policy change applies to all of our employees, including our executive officers.

Perquisites and other benefits

We provide benefits to all of our employees, including our executive officers. These include paid sick and vacation time, Company-sponsored life, short-term and long-term disability insurance, individual and family medical and dental insurance, 401(k) plan matching contributions, and other similar benefits. We believe that these benefits are

an important factor in helping us maintain good relations with our employees and in creating a positive work environment.

For some of these employee benefits, the actual amount provided depends on the employee's salary, such that our higher-salaried employees, including our executive officers, receive total benefits that are greater than those of other employees. For example, matching contributions under our 401(k) plan were the maximum permissible amount of \$6,750 for each of our executive officers in 2007.

We also made life and disability insurance premium payments on behalf of our executive officers in 2007. Again, the actual amount of these payments depends in part on the employee's age and salary, such that payments made on behalf of our older or higher-salaried employees, which includes our executive officers, will be greater than those made on behalf of other employees. These life insurance premium payments were also higher for our executive officers because they are entitled to a benefit equal to two times their annual base salary, as compared to our other employees who are entitled to a benefit equal to their annual base salary. In addition, we made premium payments for supplemental disability insurance coverage for Mr. Abramson and Mr. Rosenblatt. However, the dollar value of all of these payments was relatively small compared to the total compensation paid to our executive officers for the year, and in any event we consider these type of benefits to be standard components of executive compensation at most companies.

In 2007, we also provided an automobile allowance of \$500 per month to each of Mr. Abramson and Mr. Rosenblatt, and we reimbursed Mr. Seligsohn, Mr. Abramson and Mr. Rosenblatt for reasonable expenses associated with the automobiles they used to commute to our offices in Ewing, New Jersey, such as expenses for automobile repairs and insurance. All of these individuals live a considerable distance from our offices in Ewing, New Jersey, such that we believe it is appropriate to partially compensate them for their work-related automobile usage. Again, we do not consider this additional benefit to be a substantial component of executive compensation.

Our executive officers have been receiving the benefits described above for the past several years. Our Compensation Committee approved continuation of these benefits for our executive officers at a meeting held on September 11, 2007. This approval occurred in conjunction with the Committee's approval of annual base salary increases for our executive officers.

Our Compensation Committee is currently evaluating whether to adopt a supplemental executive retirement plan (SERP) for certain of our executive officers in 2008. The Committee engaged Hay Group to provide a report outlining various design alternatives for the proposed plan, the prevalence of benefits offered by other companies with similar plans, projected cost estimates for implementation of the plan and a summary of other design and accounting considerations. The Committee is considering Hay Group's report as part of its ongoing effort to evaluate design alternatives for the proposed SERP.

Stock Ownership Guidelines

We do not have any stock ownership guidelines for our executive officers. However, all of our executive officers are major shareholders in the Company, and all have substantial holdings of outstanding stock, vested stock options and stock purchase warrants. We believe that these current holdings are sufficient to ensure that our executive officers remain committed to our Company and its business.

Recovery of Bonuses

We do not have any formal policy respecting the recovery of bonuses or other amounts from our executive officers due to the restatement or adjustment of any performance measures on which they were based. Since bonus and other equity compensation awards to our executive officers have not been based on any specific or measurable performance objectives, we do not believe that such a policy is appropriate at this time.

Change in Control Payments

In 2003, we entered into change in control agreements with our executive officers. These agreements were approved by our Board of Directors. The agreements provide for certain cash payments and other benefits to our

executive officers in the event that their employment is terminated, or their responsibilities are substantially reduced, in connection with a change in control of the Company. We believe that these agreements help to reinforce and encourage the continued attention and dedication of our executive officers to the Company in the event they are asked to help facilitate a change in control.

Under the change in control agreements, our executive officers would receive benefits equal to two times their base salaries and annual bonuses, plus ancillary benefits relating to life and disability insurance, medical and dental coverage and employment outplacement services. The change in control agreements utilize a double-trigger mechanism because we believe that our executive officers should only receive these benefits if they suffer a reduction in employment status associated with a change in control. The agreements also include gross-up provisions that would compensate our executive officers for any taxes they might owe in connection with receipt of these benefits. We believe that the terms of the change in control agreements for our executive officers are reasonable and appropriate for a small company with new and exciting technologies such as ours. More detailed information about these agreements and the specific benefits and compensation payable to our executive officers in connection with a change in control are set forth elsewhere in this proxy statement.

Tax and Other Financial Consequences of Our Compensation Program

Internal Revenue Code §162(m)

In determining the total compensation payable to our executive officers, we considered the potential impact of Section 162(m) of the Internal Revenue Code (the "IRC"). Section 162(m) disallows any publicly-held corporation from taking a tax deduction for compensation in excess of \$1 million paid to its executive officers in any taxable year, unless that compensation is performance-based. Our policy is that executive compensation qualify for deductibility under applicable tax laws to the extent consistent with our overall compensation objectives.

For 2007, Section 162(m) limited the deductibility of the compensation paid to certain of our executive officers. In November 2007, each of Mr. Abramson and Mr. Rosenblatt exercised warrants to purchase 100,000 shares of our common stock on a cashless basis. The warrants had been issued to Mr. Abramson and Mr. Rosenblatt as equity compensation on April 2, 1998, at an exercise price of \$6.36 per share, and would have expired on April 2, 2008 if not exercised by then. The transaction would have increased the Company's tax loss for 2007 by \$2,204,000 but for the operation of Section 162(m), which limited the Company's tax deduction to \$199,942. Excluding the exercise of these warrants, Section 162(m) would not have limited the deductibility of any of the compensation paid to our executive officers for 2007.

Internal Revenue Code §409A

Section 409A of the IRC provides that nonqualified deferred compensation benefits are includible in an employee's income when vested, unless certain requirements are met. If these requirements are not met, employees are also subject to an additional income tax and interest. All of our compensation plans and arrangements presently meet these requirements, except for our change in control agreements. These agreements will be amended in 2008 to ensure compliance by the applicable December 31, 2008 deadline. As a result, all of our executive officers will be taxed when the deferred compensation is actually paid to them, and we will be entitled to a tax deduction at that time.

Internal Revenue Code §280G

Section 280G of the IRC disallows a company's tax deduction for excess parachute payments. Additionally, Section 4999 of the IRC imposes a 20% excise tax on any person who receives excess parachute payments. Presently, all of our executive officers are entitled to payments upon the termination of their employment following a change in control of the Company, some of which may qualify as excess parachute payments. Accordingly, our tax deduction for any such excess parachute payments would be disallowed under Section 280G of the IRC. Moreover, we are required to make additional payments to these individuals to cover any excise taxes imposed on

them by reason of the payments they receive in connection with a change in control. As previously indicated, we believe that this tax gross-up obligation is reasonable and appropriate given our current size and status.

Accounting Treatment under FAS 123R

As previously indicated, we have modified our approach to granting equity compensation awards due to the adoption of FAS 123R. The adoption of this new accounting standard has substantially increased the cost of granting stock option awards. Consequently, we have essentially eliminated such awards from the compensation granted to our executive officers, replacing them with other forms of equity compensation.

New Executive Officer

Effective January 1, 2008, Ms. Janice K. Mahon became an executive officer of our Company. Ms. Mahon is our Vice President of Technology Commercialization and the General Manager of our Material Supply Business. Ms. Mahon's compensation and other relevant information will appear in next year's proxy statement.

Potential Payments Upon Termination or Change-in-Control

In April 2003, the Company entered into Change in Control Agreements with the Named Executive Officers (the "CIC Agreements"). The CIC Agreements provide for certain cash payments and other benefits to the Named Executive Officers in the event of an effective termination of these individuals' employment in connection with a "Change in Control" of the Company, as defined in the CIC Agreements. These benefits include the following:

immediate vesting of all stock options, stock appreciation rights, warrants, stock awards and performance units held by the individual, whether or not restricted or subject to the satisfaction of any performance goals or other criteria;

a lump-sum payment equal to two times the sum of the average annual base salary and the annual bonus to the individual, including any authorized deferrals, salary reduction amounts and any car allowance, and including the fair market dollar value equivalent of any bonus amounts paid in the form of stock options, stock appreciation rights, warrants, stock awards or performance units;

a lump-sum payment equal to the estimated after-tax cost to the individual of continuing any Company-sponsored life or other insurance, travel or accident insurance and disability insurance coverage in effect for the individual, and where applicable, his or her spouse and dependents, for two years;

to the extent permitted by law, the benefits to which the individual would be entitled under the Company's long term incentive, savings and retirement plans, assuming the individual continued working for the Company for two years at his or her annual base salary;

continued group hospitalization, health and dental care coverage, with coverage equivalent to the coverage to which the individual would be entitled if he or she continued working for the Company for two years at his or her annual base salary;

outplacement assistance services for two years at a total cost not to exceed \$10,000; and

an additional payment to cover any excise tax imposed on the individual by reason of the individual receiving the payments and benefits specified above.

For each of the Named Executive Officers, the estimated payments and benefits that would be provided by the Company are set forth in the following table, based on the assumption that a triggering event took place on December 31, 2007.

(1) Under the CIC Agreements, this is to be based on the highest monthly base salary paid or payable to the employee during the twenty-four (24) months prior to December 31,

2007, including any amounts earned but deferred. It is also to include any annual car allowance. For purposes of this calculation, the employee's bi-weekly salary as of the payment period ended on December 21, 2007 was utilized. Also, an annual car allowance of \$6,000 is included for each of Mr. Abramson and Mr. Rosenblatt.

- (2) Under the CIC Agreements, this is to be based on the highest annual bonus to the employee for the last three full fiscal years prior to December 31, 2007, and is to include the fair market dollar value equivalent of any stock, restricted stock or stock options issued as bonus consideration, determined as of the date of issuance and without regard to any

restrictions or vesting conditions. For purposes of this calculation, the employee's 2005 annual bonus was utilized.

- (3) Assumes all unvested or restricted stock options and stock awards automatically vest on a change of control. Does not include restricted stock bonuses awarded on January 9, 2008.

- (4) Assumes the maximum amount payable under the CIC Agreements for outplacement assistance services.

In consideration of receiving these payments and benefits, each Named Executive Officer has agreed not to compete with the Company for six months following his or her termination in connection with a change in control of the Company. Each Named Executive Officer has further agreed that, for two years following his or her termination he or she will not knowingly (i) solicit or recruit any of the Company's employees to compete with the Company, or (ii) divert or unreasonably interfere with the Company's business relationships with any of its suppliers, customers, partners or joint venturers with whom the individual had any involvement. In addition, each Named Executive Officer is required to execute a general release of all employment-related claims he or she may have against the Company in order to receive the payments and benefits specified under the CIC Agreement.

As used in the CIC Agreement, a change in control of the Company would occur if:

any person first becomes the beneficial owner of securities of the Company (not including securities previously owned by such persons or any securities acquired directly from the Company) representing 30% or more of the then-outstanding voting securities of the Company;

the individuals who constitute our Board of Directors at the beginning of any 24-month period cease, for any reason other than death, to constitute at least a majority of our Board of Directors;

the Company consummates a merger or consolidation with any other corporation, except where the voting securities of the Company outstanding immediately prior to the merger or consolidation continue to represent at least 50% of the voting securities of the Company (or the surviving entity of the merger or consolidation or its parent), or where no person first becomes the beneficial owner of securities of the Company representing 30% or more of the then-outstanding voting securities of the Company;

the shareholders of the Company approve a plan of complete liquidation or dissolution of the Company, or an agreement is consummated for the sale or disposition by the Company of all or substantially all of its assets, excluding a sale or disposition by the Company of all or substantially all of its assets to an entity, at least 50% of the voting securities of which are owned by persons in substantially the same proportion as their ownership of the Company immediately prior to the sale; or

any person consummates a tender offer or exchange for a majority of the voting securities of the Company.

As used in the CIC Agreement, a termination of a Named Executive Officer in connection with a change in control of the Company would include a termination of the individual's employment:

by the Company within two years after a change in control of the Company other than for the individual's death or incapacity, or for cause;

by the individual within two years after a change in control of the Company for (i) any significant reduction by the Company of the individual's authority, duties or responsibilities, (ii) any demotion or removal of the individual from his or her employment grade, compensation level or officer positions, (iii) any requirement that individual undertake business travel to an extent substantially greater than is reasonable and customary for his or her position, (iv) a relocation by more than 25 miles of the offices of the Company at which the individual principally works, (v) the Company's breach of the CIC Agreement, or (vi) a failure of the Company to obtain an agreement from any successor to assume the Company's obligations under the CIC Agreement; and

by either the Company or the individual during the one year period prior to a change in control of the Company, unless the Company establishes by clear and convincing evidence that the termination was for good faith business reasons not related to the change in control.

We expect to amend the CIC agreements in 2008 to ensure compliance with the requirements of Section 409A of the Internal Revenue Code and to make other minor changes to update the agreements.

CERTAIN TRANSACTIONS WITH RELATED PERSONS

Our Relationship with Global Photonic Energy Corporation

Global Photonic Energy Corporation (GPEC) is a private company that was formed by Sherwin I. Seligsohn, our Founder and Chairman of the Board, at about the same time we began operating in 1994. GPEC 's business focuses on organic photovoltaic solar cell technologies. These technologies are related to our organic light emitting device (OLED) technologies, in that similar processes and materials used to emit light from an OLED may be useful for converting solar energy into electricity in an organic photovoltaic device.

Sherwin I. Seligsohn currently serves as Chairman of the Board, Chief Executive Officer and President of GPEC. Certain other of our employees who are not directors or executive officers of the Company also are employed by and/or serve on the Board of Directors of GPEC. Mr. Seligsohn and these other individuals receive separate salaries, bonuses and other compensation from GPEC for their work in these various capacities.

During 2007, we leased to GPEC approximately 556 square feet of space (constituting three offices) at our Ewing, New Jersey facility. We also permitted GPEC employees to reasonably access and use other areas of our facility, and to utilize associated utilities and other ancillary services (telephone services, computer printer services, photocopying services, Internet access, computer backup, etc.) as required in connection with GPEC 's occupancy of the leased office space. We charged GPEC \$18.50 per square foot per year for use of the leased office space, plus an additional \$109.50 per month for associated utilities and other ancillary services. For 2007, payments from GPEC for these purposes totaled \$11,600. This arrangement ended effective as of February 29, 2008, at which time GPEC relocated its offices to another building.

In 2007, we also subleased to GPEC one-half of 850 square feet of office space leased by us in Coeur d Alene, Idaho. Two employees we share with GPEC work at this facility. We charged GPEC \$400 per month for this leased space, which is one-half of the amount paid by us under the lease, including all rent and utilities. For 2007, payments from GPEC for this leased space totaled \$4,800. This arrangement ended effective as of January 1, 2008, at which time we assigned to GPEC the entire lease and rental obligation for the Coeur d Alene, Idaho office space. The two employees we share with GPEC are still working at this facility.

For many years, we and GPEC have both funded research in the laboratories of Dr. Stephen R. Forrest, formerly at Princeton University and now at the University of Michigan, and Dr. Mark E. Thompson at the University of Southern California. Our funded research relates to OLEDs and other organic opto-electronic devices, and GPEC 's funded research relates to organic photovoltaic solar cells. On occasion, inventions arising from this funded research have application to both our and GPEC 's fields of interest.

To address this potential overlap of interest, we reached an understanding with GPEC, memorialized in a letter dated June 4, 2004, that patent rights derived from research funded under the research agreements after that date would be licensed to each of the Company and GPEC exclusively in its respective field of interest. For GPEC, this field is organic photovoltaic cell for solar energy conversion. For us, this field is thin film organic electronics for displays, lasers, lighting, organic tft s, organic memories and other thin-film organic devices, but not including thin film organic photovoltaic cells for solar energy conversion. We agreed to pay 75% and GPEC agreed to pay 25% of the legal fees and other costs for patent filings claiming inventions that have application to both parties' fields of interest, which filings are made in agreed upon countries. If only one of the parties wishes to make a patent filing in a particular country, that party bears the entire cost of the filing. Otherwise, the parties exchange no money or other consideration on account of this arrangement.

Our Relationship with Scott Seligsohn

We employ Scott Seligsohn, son of Sherwin I. Seligsohn, as an executive assistant to Sherwin I. Seligsohn in his capacity as our Chief Executive Officer and Chairman of our Board of Directors, and more recently in his capacity as our Founder and Chairman of the Board of Directors. For 2007, we paid Scott Seligsohn base salary and bonus compensation of \$100,020.

Policies and Procedures for Approval of Related Person Transactions

Consistent with applicable NASDAQ listing requirements, the Audit Committee of our Board of Directors is responsible for reviewing all transactions between us and related persons for potential conflicts of interest on an ongoing basis, and for approving all such transactions. Related persons include any of our directors or nominees for director, any of our executive officers, any shareholders owning more than 5% of any class of our equity securities, and immediate family members of any of these persons.

To help identify transactions with related persons, each year, we submit and require our directors and executive officers to complete Director and Officer Questionnaires identifying any transactions with us in which they or their family members have an interest. Responses to these Director and Officer Questionnaires are reviewed and transactions that might reasonably pose a conflict of interest are brought to the attention of the Audit Committee for consideration.

The transactions with the related persons identified above were all reviewed with our Audit Committee at a meeting on April 8, 2008. At this meeting, the Audit Committee ratified each of these transactions following its consideration of the potential conflicts of interest.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our executive officers and directors, as well as persons beneficially owning more than 10% of any class of our equity securities, to file with the SEC reports of beneficial ownership and reports of changes in beneficial ownership of these equity securities. Based solely on our review of these reports as furnished to us during or with respect to 2007, we believe that our executive officers, directors and holders of more than 10% of any class of our equity securities met all applicable filing requirements, except for one Form 4 filing for Leonard Becker that was submitted one business day late, and one Form 4 filing for Lawrence Lacerte that was submitted two business days late.
