Notice on Forward-Looking Statements

The Company desires to take advantage of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and is making this cautionary statement in connection with such safe harbor legislation. This Form 10-KSB, and the Annual Report to Shareholders, Form 10-QSB or Form 8-K of the Company or any other written or oral statements made by or on behalf of the Company may include forward-looking statements which reflect the Company's current views with respect to future events and financial performance. The words "believe," "expect," "anticipate," "intends," "estimate," "forecast," "project," "should"

Edgar Filing: BUY IT CHEAP COM INC /DE - Form 10-K

and similar expressions are intended to identify "forward-looking statements" within the meaning of the Private Securities Litigation Report Act of 1995. All forecasts and projections in this Form 10-KSB are "forward-looking statements," and are based on management's current expectations of the Company's near-term results, based on current information available pertaining to the Company, including the risk factors noted below.

The Company wishes to caution investors that any forward-looking statements made by or on behalf of the Company are subject to uncertainties and other factors that could cause actual results to differ materially from such statements. These uncertainties and other risk factors include, but are not limited to: changing economic and political conditions in the United States and in other countries, changes in governmental spending and budgetary policies, governmental laws and regulations surrounding various matters such as environmental remediation, contract pricing and international trading restrictions, customer product acceptance and continued access to capital markets and foreign currency risks. The Company wishes to caution investors that other factors may, in the future, prove to be important in affecting the Company's results of operations. New factors emerge from time to time and it is not possible for management to predict all such factors, nor can it assess the impact of each such factor on the business or the extent to which any factor, or a combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Investors are further cautioned not to place undue reliance on such forward-looking statements as they speak only to the Company's views as of the date the statement is made. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

PART I

Item 1. Description of Business.

General

Buy It Cheap.com, Inc. (the "Company") was incorporated in Delaware on January 16, 1984 as Cellufone Corporation. From 1984 to 1991 the Company and/or its subsidiaries, were involved in several different businesses, including the reselling of cellular telephone service, radio paging (beeper) service, private pay telephone manufacture and private network switching. The Company subsequently changed its name to Celcor, Inc. Because growth and profitability of these operations fell short of expectations, the Company had either ceased operating or had sold off all its businesses by February, 1991.

Unable to obtain financing to repay debt or fund operations of any kind, the Company, in April 1991, filed for protection under Chapter 11 of the United States Bankruptcy Code. The Company was able to secure limited equity capital from an investor and the Company emerged from bankruptcy in 1992 with virtually no assets or liabilities.

The Company (then known as Celcor, Inc.) had virtually no operations from 1991 to early 1995 when it executed an Agreement and Plan of Merger with Northeast (USA) Corp., a New York corporation, ("Northeast NY"). Through this merger, which became effective August 1, 1996, the Company changed its name from Celcor, Inc. to Northeast (USA) Corp. and was the surviving entity in the merger. The Company consummated the merger in order to bring the business of Northeast NY into the Company. Northeast NY had a joint venture with the Chinese

Edgar Filing: BUY IT CHEAP COM INC /DE - Form 10-K

government to manufacture and distribute vitamins and beauty products. While limited production and sales were achieved, lack of funding caused cessation of activities in early 1997. Because the necessary funding for this operation could not be raised and because certain commitments by each party had not been met, the Company, in June of 1999, notified the Chinese that it was no longer interested in pursuing the joint venture. The Chinese have responded that they were not against dissolving the joint venture, although no formal liquidation has yet taken place. During the fiscal years ending June 30, 1996 through 1998 the Company, domestically, generated limited revenues from retail sales of a beauty supply line. Lack of funding for promotional activities, and subsequently for fixed overhead costs, caused cessation of this activity during the latter part of fiscal 1998.

In April of 1999, Robert Edwards, the Company's initial founder and former president approached the Company on the possibility of starting an Internet retailing business. Pursuing this proposal, the Company's Board of Directors approved the acquisition of Buy It Cheap.com, Inc., ("BUYC") a development stage company organized under Delaware law by two directors of the Company. BUYC had raised approximately \$100,000 in start-up investment capital. The Company issued 1,400,000 shares of its common stock to shareholders of BUYC upon consummation of the transaction (October 1999). Once the acquisition was consummated, the Company operated a website "Buyitcheap.com" and changed its corporate name to Buy It Cheap.com, Inc. For accounting purposes, the acquisition has been treated as an acquisition of the Company by Buy It Cheap.com, Inc. and as a recapitalization of Buy It Cheap.com, Inc.

The Company believes that there is a market for lower priced specialty merchandise on the Internet as strong competition for items new to the market

has left a void in the market for lower cost items. With lower cost and specialty merchandise, the Company won't compete with the vast majority of Internet retailers and will benefit from the greater profit margins that are achievable with this type of merchandise.

Current operating plan

Internet retailing - Buyitcheap.com

The Company operates a virtual store under the web address of "Buyitcheap.com" and offers for sale various types of branded merchandise over the Internet. While the website is partially functional, the Company has not yet promoted it and sales thus far have been insignificant. Initial merchandise lines consist of specially priced items in consumer electronics, luggage and giftware. The Company does not intend to inventory any merchandise, however it may do so in the future. The Company posts merchandise from various vendors on its website, takes orders and collects the funds. The order is routed to the applicable vendor for shipment to the customer. Upon shipment, the Company remits its cost of the item to the vendor. In keeping with the Company's website name, the theme of its merchandise offerings will be to offer merchandise at the lowest possible price. The Company plans to keep overhead low and will seek additional funding to expand the business. The rate at which the Company can secure additional financing will be a determining factor in how fast the Company will grow.

Competition

The Internet retailing business is a highly competitive industry. The Company, being a start-up in this business, faces competition from numerous sources, including established Internet retailers with greater financial resources and a longer operating history. However, the Company expects, in time,

Edgar Filing: BUY IT CHEAP COM INC /DE - Form 10-K

to establish a niche as a retailer of quality branded merchandise obtained from closeouts, surplus goods, odd lots, etc. offered at cheap prices, by which to distinguish itself from other Internet retailers and thus, to effectively compete in this industry. The Company's ability to successfully compete will be dependent upon its future ability to raise substantial additional capital.

Supply of merchandise and internet infrastructure

The Company, through existing relationships developed by the Company's management, will display merchandise from various vendors. There is no charge for displaying the merchandise on the Company's website. The Company marks up the price charged to it by the vendor. There being no real risk to the vendor/supplier, the Company believes it will not experience any difficulty in obtaining merchandise for sale on its website.

While the Company owns its own hardware and software to generate its website, it currently relies on an outside organization to maintain this website infrastructure. In the near term future, the Company anticipates that it will perform these functions itself.

Employees

The Company currently has no paid employees. Certain officers and directors of the Company have agreed to temporarily work without pay but may be reimbursed for out-of-pocket expenditures.

Item 2. Description of Property.

The Company leases office space in Clifton, N.J. and maintains its principal office at 1800 Bloomsbury Ave., Ocean, N.J. 07712 at no cost to the Company. As the business expands, the Company will need to procure additional space.

Item 3. Legal Proceedings.

From its prior operations in selling beauty products (1995-1997) the Company (then called Northeast (USA) Corp.) is indebted to two suppliers who have filed suit against the Company. These filed claims total approximately \$89,000, of which \$11,000 is disputed by the Company. One of these creditors has obtained a judgement (with interest) against the Company for approximately \$60,000. The Company has attempted to settle these claims with issuance of its common stock and convertible notes. Depending on its financial status, the Company will attempt to settle these claims in the coming months.

Details of these suits are as follows: Supreme Court of the State of New York, County of Queens, filed July 15, 1997, plaintiff Laffon Design-Kree Plast S.P.A., defendant Northeast (USA) Corp. (judgement entered); Supreme Court of the State of New York, County of Queens, filed March 5, 1997, plaintiff R. P. Scherer Corporation, defendant Northeast (USA) Corp. (pending).

If the Company is unable to resolve these claims, it may be unable to proceed with its business plans.

Item 4. Submission of Matters to a Vote of Security Holders.

None during the Company's fiscal year ended June 30, 2001.

Edgar Filing: BUY IT CHEAP COM INC /DE - Form 10-K

PART II

Item 5. Market for Common Equity and Related Stockholder Matters.

The Company's Common Stock is traded on the OTC Bulletin Board, symbol BYCC.

The following table shows the range of high and low bid or last trade quotations for the Company's Common Stock as reported to the Company by the National Quotation Bureau Incorporated. No review of the daily quotations as provided by the OTC Bulletin Board has been undertaken by the Company. The quotations reflect prices between dealers, without retail mark-ups, mark-downs or commissions and may not necessarily represent actual transactions or be indicative of prices at which the Company's Common Stock was traded.

Fiscal year -----	Fiscal quarter ended -----	Low bid -----	High bid -----
2000	September 30, 1999	\$.1563	\$ 1.0313
	December 31, 1999	.625	1.25
	March 31, 2000	.8125	1.4688
	June 30, 2000	.625	1.0625
2001	September 30, 2000	.625	1.00
	December 31, 2000	.1563	.75
	March 31, 2001	.1563	.1875
	June 30, 2001	.10	.1563

The number of record holders of the Company's Common Stock as of June 30, 2001 was 386, however, the Company believes that there are substantially more beneficial owners of the Common Stock.

Dividend policy

The Company has never paid any dividends on its common stock. The Company anticipates that in the foreseeable future, earnings, if any, will be retained for use in the business or for other corporate purposes, and it is not anticipated that cash dividends will ever be paid on its common stock.

Item 6. Management's Discussion and Analysis or Plan of Operation.

The Company entered the Internet retailing business through the formation of an entity separate from the Company by two of its directors. The new entity was able to raise limited start-up capital for an Internet retailing business. The new entity then merged with the Company. For accounting purposes, the combination of the two companies was treated as an acquisition of the Company by this new entity. Subsequent to the completion of this acquisition the Company changed its name to Buy It Cheap.com, Inc. and commenced an Internet retailing operation under the website "Buyitcheap.com." The Company must still arrange settlement of its liabilities and raise substantial new investment capital in order to develop this business.

Financial and operating plan for the next 12 months

Edgar Filing: BUY IT CHEAP COM INC /DE - Form 10-K

The Company plans to operate over the next 12 months with little overhead. The Company plans to consume operating cash only to the extent that it has available cash on hand, or that it has investor commitments for. This may limit the rate at which the Company will grow. Until there is positive cash flow from its Internet business, or the Company is able to raise a substantial amount of new capital, there will be no paid employees or any significant fixed overhead. The sales transactions, for the most part, are handled automatically over the Internet requiring little labor or office space requirements. The Company believes it can become a viable business within 12 months (subject to the outcome of previously described legal proceedings) if it is able to raise additional capital. Since the end of its fiscal year, the Company has raised an additional \$25,000 and is in the process of obtaining commitments for more capital. The objective of the Company will be to establish the viability necessary to attract substantial new investment capital to expand its business in the future.

Independent Auditors' Report

To the Board of Directors of

Edgar Filing: BUY IT CHEAP COM INC /DE - Form 10-K

Buy It Cheap.com, Inc.

We have audited the accompanying balance sheets of Buy It Cheap.com, Inc. (A Development Stage Company) as of June 30, 2001 and 2000 and the related statements of operations, stockholders' equity, and cash flows for the year ended June 30, 2001, the period July 19, 1999 (date of inception) to June 30, 2000 and the period July 19, 1999 (date of inception) to June 30, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Buy It Cheap.com, Inc. (A Development Stage Company) at June 30, 2001 and 2000, and the results of its operations and its cash flows for the year ended June 30, 2001, the period July 19, 1999 (date of inception) to June 30, 2000 and the period July 19, 1999 (date of inception) to June 30, 2001 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in the notes to the financial statements, the Company has incurred losses, has no current sources of revenue or funds and has a working capital deficit as of June 30, 2001. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans regarding those matters are also described in the notes to the financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to the Financial Statements

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Organization

Buy It Cheap.com, Inc. (the "Company") is a Delaware corporation. On November 3, 1999, Northeast (USA) Corp. purchased all of the common stock of Buy It Cheap.com (a developmental stage company). For accounting purposes, the acquisition has been treated as an acquisition of Northeast (USA) Corp. by Buy It Cheap.com and as a recapitalization of Buy It Cheap.com. The Company will operate in the internet retailing industry. Since there has been no significant revenues generated from internet retailing, the Company is considered a Developmental Stage Company for financial reporting purposes.

The Company's financial statements have been presented on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred losses, has no current source of revenues or funds and has a working capital deficit as of June 30, 2001. The Company's continued existence is dependent upon its ability to secure adequate financing. The Company plans to raise additional capital in the future; however there are no assurances that such plan will be successful. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

Joint Venture

Northeast (USA) Corp., in 1992, formed a joint venture agreement with the Northeast General Pharmaceutical Factory (NEGPF) a government owned pharmaceutical concern in Shenyang, China, whereby both companies

Edgar Filing: BUY IT CHEAP COM INC /DE - Form 10-K

established a joint venture company in China. Northeast (USA) Corp. and NEGPF were to have contributed certain assets to the joint venture. Northeast (USA) Corp. was to have contributed \$2.1 million in cash and \$1.15 million in technology for a total capital contribution of \$3.25 million. NEGPF was to have contributed \$750,000 in cash and a land-use right valued at \$1.75 million for a total contribution of \$2.5 million. Based upon the amount of contribution, Northeast (USA) Corp. owned 56.52% of the joint venture and NEGPF owned 43.48%. To date, Northeast (USA) Corp. has contributed \$1 million of cash and has contributed the technology. NEGPF has contributed \$750,000 of cash but has not contributed the land-use right. The joint venture had only limited start-up operations and operations effectively ceased in 1997 due to lack of funding. Northeast (USA) Corp. has communicated with NEGPF that it no longer has any interest in the joint venture. As such the Company has reserved \$620,535 against the investment the joint venture.

Advertising Costs

Advertising costs are charged to operations when incurred. Advertising costs charged to expense were \$2,231 for the year ended June 30, 2001, \$2,625, for the period July 19, 1999 (date of inception) to June 30, 2000 and \$4,856 for the period July 19, 1999 (date of inception) to June 30, 2001.

Notes to the Financial Statements

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Depreciation and Amortization

The cost of property and equipment is depreciated for financial reporting purposes on a straight-line basis over the estimated useful lives of the assets: 5 years for machinery and equipment and 3 years for software. Repairs and maintenance expenditures which do not extend the useful lives of the related assets are expensed as incurred.

Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of assets and liabilities for financial and income tax reporting. Deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred taxes also are recognized for operating losses that are available to offset future federal and state income taxes.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those

Edgar Filing: BUY IT CHEAP COM INC /DE - Form 10-K

estimates.

DUE TO/FROM OFFICERS AND DIRECTORS

Amounts due to/from Officers and Directors represent unsecured, non-interest bearing loans, having no repayment terms.

PROPERTY AND EQUIPMENT

Property and equipment at cost, less accumulated depreciation and amortization, consists of the following:

	June 30,	
	2001	2000
Equipment	\$ 5,935	\$ 5,935
Software	32,340	32,340
Subtotal	38,275	38,275
Less accumulated depreciation and amortization	17,950	5,983
	-----	-----
Total	\$ 20,325	\$ 32,292
	=====	=====

Depreciation expense charged to operations was \$11,967 for the year ended June 30, 2001, \$5,983 for the period July 19, 1999 (date of inception) to June 30, 2000 and \$17,950 for the period July 19, 1999 (date of inception) to June 30, 2001.

OPERATING LEASE COMMITMENTS

The Company leases office space on a month to month basis. Rent expense was \$450 for the year ended June 30, 2001, \$0 for the period July 19, 1999 (date of inception) to June 30, 2000, and \$450 for the period July 19, 1999 (date of inception) to June 30, 2001.

INCOME TAXES

The Company's deferred tax asset is comprised of the following temporary differences:

	June 30,	
	2001	2000
Net operating losses	\$ 572,117	\$ 480,073
Differences between basis of reporting for book and tax	620,500	620,500
Total	\$ 1,192,617	\$ 1,100,573

The reconciliation of reported income tax expense to the amount of income tax expense that would result from applying domestic federal statutory tax rates to pretax income is as follows:

Edgar Filing: BUY IT CHEAP COM INC /DE - Form 10-K

	June 30,	
	2001	2000
Tax (benefit) at the U.S. Federal Statutory rate	(34%)	(34%)
Valuation allowance - change	34%	34%
State income tax - net of federal tax benefit	-	-
Provision for income taxes	-	-

Deferred taxes are recognized for temporary differences between the bases of assets and liabilities for financial statement and income tax purposes. The differences relate primarily to the reserve against investment in Joint Venture (expensed for financial statement purposes but not deductible for income tax purposes).

The Company's provision for income taxes differs from applying the statutory U.S. federal income tax rate to income before income taxes. The primary difference results from providing for state income taxes and from deducting certain expenses for financial statement purposes but not for federal income tax purposes.

LOSS PER SHARE

In accordance with Financial Accounting Standards Board Statement No. 128, "Earnings Per Share", basic earnings per share amounts are computed based on the weighted average number of shares outstanding. The number of shares used in the computations were 8,786,150 for the year ended June 30, 2001, 5,924,717 for the period from July 19, 1999 (date of inception) to June 30, 2000, and 7,541,385 for the period from July 19, 1999 (date of inception) to June 30, 2001.

The effects of assuming the conversion of the Series C convertible preferred stock as a common stock equivalent would be antidilutive, and were therefore not considered in the computation of diluted earnings per share.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amount of cash, due to/from officers, other current assets, accounts payable and accrued expenses and the convertible note payable approximates fair value because of the short maturity of these instruments.

Limitations

Edgar Filing: BUY IT CHEAP COM INC /DE - Form 10-K

Fair value estimates are made at a specific point in time, based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgement and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

PREFERRED STOCK

In May 1994, Northeast (USA) Corp. sold 275,000 shares of its newly designated Series C convertible stock, \$.001 par value, for an aggregate amount of \$825,000 to a group of private investors. Except for \$30,000 (representing 10,000 shares) of the preferred stock, all had been converted according to their terms prior to July 1, 1998. The Company has the right to redeem the shares at \$4.50 per share. The shares carry a stated dividend rate of 8% per annum. Dividends are cumulative and are payable quarterly. No cash dividends have ever

Buy It Cheap.com, Inc.
(A Development Stage Company)
Notes to the Financial Statements

been paid. Some former preferred shareholders (prior to or simultaneous with their conversion) have accepted shares of the Company's common stock in lieu of cash dividends. Those that did not accept shares of common stock for dividends and those that did not convert their preferred shares are owed a total of \$106,390 of dividend arrearages at June 30, 2001.

CONVERTIBLE NOTE PAYABLE

During the period ended June 30, 2000 the Company entered into an agreement with one of its creditors whereby the amount of the creditor's claim (\$32,395) was settled through the issuance of 32,395 of the Company's common shares and a convertible note for \$16,198. The note is non-interest bearing and is due on December 31, 2001. The note may be converted at the creditor's option, into 32,395 shares of the Company's common stock prior to that date.

CONTINGENCIES

The Company is indebted to two suppliers who have filed suit against the Company. These filed claims total approximately \$89,000, of which \$11,000 is disputed by the Company. One of these creditors has obtained a judgement (with interest) against the Company for approximately \$60,000. The Company has attempted to settle these claims with issuance of its common stock and convertible notes. Depending on its financial status, the Company will attempt to settle these claims in the coming months.

If the Company is unable to resolve these claims, it may be unable to proceed with its new business.
