MILlicom ARGENTINA, ALVARION AND INTEL JOIN FORCES TO LAUNCH THE FIRST WiMAX(TM) NETWORK IN LATIN AMERICA

The network will provide broadband access to urban and rural zones as well as underdeveloped areas that currently lack cable or ADSL services.

Buenos Aires, Argentina and Tel-Aviv, Israel, July 6, 2004 - Millicom Argentina, the main provider of wireless network solutions such as broadband, Virtual Private Networks (VPNs), Voice over IP (VoIP) and Wi-Fi, proudly announces together with Alvarion (NASDAQ: ALVR) and Intel, the launch of the first WiMAX(TM) network in Latin America, to be held during the months of September to December 2004.

In the world of broadband wireless access technologies, WiMAX is the result of a natural evolution and standardization of the Alvarion technology that Millicom has been using in Argentina since the year 2000. The main benefits of the WiMAX technology are greater broadband, quality of service and down the road, mobility within the metropolitan area or within a radius of 30 km., with no loss of connection whatsoever at speeds of over 2MB/sec.

WiMAX antennas are capable of transmitting high-speed connections for Internet to businesses and homes located at long distances. Thus, eliminating cable connections in buildings and offices to access voice services or the Internet.

"The WiMAX technology will enable real wireless mobility. In other words, it will give us the freedom to use our laptops or PDAs to access the Internet or transmit voice with greater capacity and better quality of service than other current options", expressed Luis Galli, General Manager of Millicom Argentina. "It is fundamental to be at the forefront in the development of wireless access solutions. To work together with Intel and Alvarion, main providers of wireless solutions and WiMAX worldwide, guarantees our success and strengthens our position in the market and the compromise assumed with our customers in 2003, by creating a more ample and innovative national broadband wireless network in

Edgar Filing: ALVARION LTD - Form 6-K

Argentina with presence in over 40 cities".

Esteban Galuzzi, General Manager of Intel for the South America region highlighted: "Intel's vision is one in which laptops and PDAs, or any other digital device, can communicate with one another, wherever they might be. WiMAX is the natural evolution of Wi-Fi because with this new technology of broader reach, we could access the Internet from any place with the same simplicity and convenience benefits the cell phones have today".

Alvarion's BreezeMAX (TM) WiMAX Platform will be launched in urban, suburban and rural areas in Argentina. BreezeMAX is a high-performance broadband wireless solution built from the ground up to comply with IEEE 802.16/ETSI HiperMAN standards and WiMAX Forum profiles.

"In the culmination of Alvarion's decade of BWA technological leadership, its founding role in the WiMAX Forum, and its WiMAX development partnership with Intel, BreezeMAX incorporates core wireless innovations and leverages Alvarion's several years of experience deploying OFDM systems in commercial broadband wireless access (BWA) networks," commented Zvi Slonimsky, CEO of Alvarion.

4

BreezeMAX is a carrier-class platform that can support thousands of users while supporting numerous broadband applications from residential to business, MDU/MTU, hotspot backhauling and home networking.

About Millicom Argentina

Millicom Argentina initiated activities in the year 2000 with the help of Sociedad Comercial del Plata, incorporating in the market network wireless solutions: Broadband Internet, Virtual Private Networks (VPN), Voice over IP (VoIP) and Wi-Fi. Today, they have successfully installed equipment in several main corporations with over 6400 active customers. Their customers keep adding up, looking for innovative products which they can trust. Their main customers are Petrobras, Repsol-YPF, Cisco Systems, Productos Roche, Supermercados Coto, Barujel Azulay, Western Union, Aerolineas Argentinas, Pulte, Bed Time, TGN (Transportadora Gas del Norte), Musimundo, Pecom Energia, TGS (Transportadora Gas del Sur), Village Cinema, La Caja de Ahorros y Seguros, Banco Credicoop, Sion, Impsat, Prima, Netizen, Techtel, Leader Price, Maxiconsumo, Red Megatone, Havana, Pago Facil, Cencosud among others.
