Approval of the 2013 Foot Locker Employees Stock Purchase Plan

We are seeking shareholder approval of the 2013 Foot Locker Employees Stock Purchase Plan (the "2013 Stock Purchase Plan") because the current plan approved by shareholders in 2003 will expire following the last purchase date on June 1, 2013. This plan is available to eligible full-time employees of Foot Locker, Inc. and its subsidiaries. Participating employees under this plan may purchase shares of Foot Locker's common stock once a year at a discounted purchase price. The Company believes that continuing to offer a purchase plan to its eligible employees enhances the employees' interest in the continued success of the Company. A summary of the material features of the 2013 Stock Purchase Plan is provided beginning on Page 76, and a complete copy of the plan begins on Page A-1.

Advisory Approval of the Named Executive Officers' Compensation

We are asking shareholders to approve, on a nonbinding, advisory basis, the 2012 compensation of our named executive officers, as described in this proxy statement on Pages 23 through 67. Over the past two years our shareholders overwhelmingly approved our executive compensation program. Given this support, the Compensation and Management Resources Committee decided to retain the overall program, which ties the executives' pay closely with Foot Locker's performance.

In 2012 we had the financial and operating results shown in the following table. At the beginning of 2012, based upon our performance in 2010 and 2011, we updated our strategic plan goals. Our 2012 results represent continued progress toward the goals contained in our long-range plan.

Financial Metrics	2011	2012	Long-Term Objectives
Sales	\$5,623 million	\$6,101 million	\$7,500 million
Sales Per Gross Square Foot	\$406	\$443	\$500
Earnings Before Interest and Taxes (EBIT) Margin	7.9%	9.9%	11%
Net Income Margin	5.0%	6.2%	7%
Return on Invested Capital (ROIC)	11.8%	14.2%	14%

The above table represents non-GAAP results. There is a reconciliation to GAAP on Pages 15-17 of our 2012 Form 10-K.

Based upon the Company's performance, payments were made to the named executive officers under the Annual Bonus Plan for 2012. Long-term incentive payouts were earned for the 2011-2012 performance measurement period, but the earned amounts will not be paid out until 2014. This is consistent with the change we made to our long-term incentive program in 2010 when we moved to a two-year long-term performance measurement period with an additional one-year holding period, with the awards payable one-half in cash and one-half in equity, provided that the performance goals are achieved.

Shareholder Proposal to Repeal Classified Board

If properly presented at the meeting, we expect that a proposal to repeal the classified board will be presented on behalf of a shareholder at the annual meeting, as described in this proxy statement beginning on Page 82. The

Company opposes this proposal and recommends that shareholders vote Against it for the reasons stated beginning on Page 83.

PROXY STATEMENT

GENERAL INFORMATION

We are providing these proxy materials to you for the solicitation of proxies by the Board of Directors of Foot Locker, Inc. for the 2013 Annual Meeting of Shareholders and for any adjournments or postponements of this meeting. We are holding this annual meeting on May 15, 2013 at 9:00 A.M., local time, at our corporate headquarters located at 112 West 34th Street, New York, New York 10120. In this proxy statement we refer to Foot Locker, Inc. as Foot Locker, the Company, we, our, or us.

We are furnishing proxy materials to our shareholders primarily over the Internet under the Securities and Exchange Commission's notice and access rules instead of mailing full sets of the printed materials. We believe that this procedure reduces costs, provides greater flexibility to our shareholders, and lessens the environmental impact of our Annual Meeting. On or about April 4, 2013 we started mailing to most of our shareholders in the United States a Notice of Internet Availability of Proxy Materials (the Foot Locker Notice). The Foot Locker Notice contains instructions on how to access and read our 2013 Proxy Statement and our 2012 Annual Report to Shareholders on the Internet and to vote online. **If you received a Foot Locker Notice by mail, you will not receive paper copies of the proxy materials in the mail unless you request them.** Instead, the Foot Locker Notice instructs you on how to access and read the Proxy Statement and Annual Report and how you may submit your proxy over the Internet. If you received a Foot Locker Notice by mail and would like to receive a printed copy of the materials, please follow the instructions on the Foot Locker Notice for requesting the materials, and we will promptly mail the materials to you.

We are mailing to shareholders, or making available to shareholders via the Internet, this Proxy Statement, form of proxy card, and our 2012 Annual Report/Form 10-K on or about April 4, 2013.

**Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting
To Be Held on May 15, 2013**

**The Company's Proxy Statement and 2012 Annual Report/Form 10-K are available at

**QUESTIONS AND ANSWERS ABOUT THIS ANNUAL MEETING
AND VOTING**

What is included in these proxy materials?

The proxy materials include our 2013 Proxy Statement and 2012 Annual Report and Form 10-K. If you received printed copies of these materials by mail, these materials also include the proxy card for this annual meeting.

It is also available free of charge through our corporate web site at <http://www.footlocker-inc.com/investors.cfm?page=corporate-governance>.

What constitutes a quorum for the Annual Meeting?

We will have a quorum and will be able to conduct the business of the Annual Meeting if the holders of a majority of the shares outstanding are present at the meeting, either in person or by proxy. We will count abstentions and broker non-votes, if any, as present and entitled to vote in determining whether we have a quorum.

What is the record date for this meeting?

The record date for this meeting is March 18, 2013. If you were a Foot Locker shareholder on this date, you are entitled to vote on the items of business described in this proxy statement.

Do I need a ticket to attend the Annual Meeting?

You will need an admission ticket to attend the Annual Meeting. Attendance at the meeting will be limited to shareholders on March 18, 2013 (or their authorized representatives) having an admission ticket or proof of their share ownership, and guests of the Company. If you plan to attend the meeting, please indicate this when you are voting by telephone or Internet or check the box on your proxy card, and we will promptly mail an admission ticket to you.

If your shares are held in the name of a bank, broker, or other holder of record and you plan to attend the meeting, you can obtain an admission ticket in advance by providing proof of your ownership, such as a bank or brokerage account statement, to the Corporate Secretary at Foot Locker, Inc., 112 West 34th Street, New York, New York 10120. If you do not have an admission ticket, you must show proof of your ownership of the Company's Common Stock at the registration table at the door.

Who may vote at the Annual Meeting?

The only voting securities of Foot Locker are our shares of Common Stock. Only shareholders of record on the books of the Company on March 18, 2013 are entitled to vote at the annual meeting and any adjournments or postponements. Each share is entitled to one vote. There were 150,129,128 shares of Common Stock outstanding on March 18, 2013.

- | | | |

| 4 | Advisory Approval of Executive Compensation | FOR |
| 5 | Shareholder Proposal to Repeal Classified Board | AGAINST |

Could other matters be voted on at the Annual Meeting?

We do not know of any other business that will be presented at the 2013 annual meeting. If any other matters are properly brought before the meeting for consideration, then the persons named as proxies will have the discretion to vote on those matters for you using their best judgment.

What are the voting requirements to elect directors and to approve the other proposals?

Proposal 1

(Election of Directors).

Directors must be elected by a plurality of the votes cast by shareholders. (Please see our policy described on Page 8 regarding resignations by directors who do not receive more for votes than withheld votes.)

Proposal 2

(Ratification of the appointment of Independent Registered Public Accounting Firm). This proposal requires a majority of the votes cast by shareholders.

Proposal 3

(Approval of the 2013 Foot Locker Employees Stock Purchase Plan). This proposal

requires a majority of the votes cast by shareholders, provided that the New York Stock Exchange Rules require also that at least a majority of outstanding shares vote with respect to this plan.

Proposal 4

(Advisory approval of executive compensation). This proposal requires a majority of the votes cast by shareholders.

Proposal 5

(Shareholder proposal to repeal classified board). This proposal requires a majority of the votes cast by shareholders for approval.

What happens if I do not vote my shares?

This depends on how you hold your shares and the type of proposal. If you hold your shares in street name, such as through a bank or brokerage account, it is important that you cast your vote if you want it to count for Proposals 1, 3, 4 and 5. If you do not instruct your bank or broker how to vote your shares on these proposals, no votes will be cast on your behalf. With regard to Proposal 2, your bank or broker will have discretion to vote any uninstructed shares for this proposal.

If your stock ownership is reflected directly on the books and records of the Company's transfer agent, you are a shareholder of record. If you do not cast your vote, then no votes will be cast on your behalf on any of the proposals.

How will the votes be counted?

Votes will be counted and certified by representatives of our transfer agent, Computershare, as inspectors of election. The inspectors of election are independent and are not employees of Foot Locker.

Votes withheld for the election of one or more of the nominees for director will not be counted as votes cast for them. We do not count abstentions and broker non-votes, if any, in determining the votes cast for any proposal. With respect to Proposals 2, 3, 4, and 5, if you abstain from voting, this will have no effect on the vote since an abstention is not considered a vote cast.

The Company's Certificate of Incorporation and By-laws do not contain any provisions on the effect of abstentions or broker non-votes.

Will my vote be confidential?

We maintain the confidentiality of our shareholders' votes. All proxy cards, electronic voting, voting instructions, ballots, and voting tabulations identifying shareholders are kept confidential from the Company, except:

as necessary
to meet any
applicable
legal
requirements,

when a
shareholder
requests
disclosure or
writes a

If you hold your shares through a bank or brokerage account, please complete and mail the voting instruction form in the envelope provided.

Ballot at the Annual Meeting

You may also vote by ballot at the Annual Meeting if you decide to attend in person. If your shares are held in the name of a bank, broker or other holder of record, you must obtain a proxy, executed in your favor, from the holder of record to be able to vote at the meeting.

All shares that have been properly voted and not revoked will be voted at the Annual Meeting. If you sign and return a proxy card but do not give voting instructions, the shares represented by that proxy card will be voted as recommended by the Board of Directors.

Can I change my mind after voting my shares?

You may revoke your proxy at any time before it is used by (i) sending a written notice to the Company at its corporate headquarters, (ii) delivering a valid proxy card with a later date, (iii) providing a later dated vote by telephone or Internet, or (iv) voting by ballot at the Annual Meeting.

Can I vote shares held in employee plans?

If you hold shares of Foot Locker Common Stock through the Foot Locker 401(k) Plan or the Foot Locker Puerto Rico 1165(e) Plan, your proxy card includes the number of shares allocated to your plan account. Your proxy card will serve as a voting instruction card for these shares for the plan trustee to vote the shares. The trustee will vote only those shares for which voting instructions have been given. To allow sufficient time for voting by the trustees of these plans, your voting instructions must be received by 1:00 A.M. Eastern Daylight Time on May 13, 2013.

Who pays the cost of this proxy solicitation?

We will pay for the cost of the solicitation of proxies, including the preparation, printing and mailing of the proxy materials.

Proxies may be solicited, without additional compensation, by our directors, officers, or employees by mail, telephone, fax, in person, or otherwise. We will request banks, brokers and other custodians, nominees and fiduciaries to deliver proxy materials to the beneficial owners of Foot Locker's Common Stock and obtain their voting instructions, and we will reimburse those firms for their expenses under the rules of the Securities and Exchange Commission and The New York Stock Exchange. In addition, we have retained Innisfree M&A Incorporated to assist us in the solicitation of proxies for a fee of \$12,500 plus out-of-pocket expenses.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires that our directors and executive officers file with the Securities and Exchange Commission reports of ownership and changes in ownership of Foot Locker's Common Stock. Based on our records and other information, we believe that during the 2012 fiscal year, the directors and executive officers complied with all applicable SEC filing requirements.

CORPORATE GOVERNANCE INFORMATION

The Board of Directors is committed to good corporate governance and has adopted Corporate Governance Guidelines and other policies and practices to guide the Board and senior management in this area. This section of the proxy statement summarizes our key corporate governance policies and practices.

Corporate Governance Guidelines

The Board of Directors has adopted Corporate Governance Guidelines. The Board periodically reviews the guidelines and may revise them when appropriate. The Corporate Governance Guidelines are available on the corporate governance section of the Company's corporate web site at <http://www.footlocker-inc.com/investors.cfm?page=corporate-governance>. You may also obtain a printed copy of the guidelines by writing to the Corporate Secretary at the Company's headquarters.

Committee Charters

The Board of Directors has adopted charters for the Audit Committee, the Compensation and Management Resources Committee, the Finance and Strategic Planning Committee, and the Nominating and Corporate Governance Committee. Copies of the charters for these committees are available on the corporate governance section of the Company's corporate web site at <http://www.footlocker-inc.com/investors.cfm?page=corporate-governance>. You may also obtain printed copies of these charters by writing to the Corporate Secretary at the Company's headquarters.

Policy on Voting for Directors

Our Corporate Governance Guidelines provide that if a nominee for director in an uncontested election receives more votes withheld from his or her election than votes for election (a Majority Withheld Vote), then the director must offer his or her resignation for consideration by the Nominating and Corporate Governance Committee (the Nominating Committee). The Nominating Committee will evaluate the resignation, weighing the best interests of the Company and its shareholders, and make a recommendation to the Board of Directors on the action to be taken. For example, the Nominating Committee may recommend (i) accepting the resignation, (ii) maintaining the director but addressing

what the Nominating Committee believes to be the underlying cause of the withheld votes, (iii) resolving that the director will not be re-nominated in the future for election, or (iv) rejecting the resignation. When making its determination, the Nominating Committee will consider all factors that it deems relevant, including (i) any stated reasons why shareholders withheld votes from the director, (ii) any alternatives for curing the underlying cause of the withheld votes, (iii) the director's tenure, (iv) the director's qualifications, (v) the director's past and expected future contributions to the Board and to the Company, and (vi) the overall composition of the Board, including whether accepting the resignation would cause the Company to fall below the minimum number of directors required under the Company's By-laws or fail to meet any applicable Securities and

Exchange Commission or New York Stock Exchange requirements. We will promptly disclose the Board's decision on whether or not to accept the director's resignation, including, if applicable, the reasons for rejecting the offered resignation.

Director Independence

The Board believes that a significant majority of the members of the Board should be independent, as determined by the Board based on the criteria established by The New York Stock Exchange. Each year, the Nominating Committee reviews any relationships between outside directors and the Company that may affect independence. Currently, one of the twelve members of the Board of Directors serves as an officer of the Company, and the remaining eleven directors are independent under the criteria established by The New York Stock Exchange.

Committee Rotation

As a general principle, the Board believes that the periodic rotation of committee assignments on a staggered basis is desired and provides an opportunity to foster diverse perspective and develop breadth of knowledge within the Board.

Lead Director

We have had a lead director since 2004. The lead director's responsibilities include reviewing and approving Board agendas; chairing executive sessions of the Board and meetings of the independent directors, both of which are held in conjunction with each quarterly Board meeting; leading the annual review of the Chief Executive Officer's performance; attending meetings of Board committees; and serving as a liaison between the independent directors and the Chief Executive Officer. The Board of Directors considers the periodic rotation of the lead director from time to time, taking into account experience, continuity of leadership, and the best interests of the Company.

Nicholas DiPaolo currently serves as the lead director. The Board believes that Mr. DiPaolo is well-suited to serve as lead director, given his business and financial background and more than ten years of service on our Board.

Board Leadership Structure

The Board of Directors evaluates, from time to time as appropriate, whether the same person should serve as Chairman of the Board and Chief Executive Officer, or whether the positions should be split, in light of all relevant factors and circumstances, and what it considers to be in the best interests of the Company and its shareholders.

In recent years, the Board has utilized various leadership structures. For example, from 2001 to 2004, the positions were separated, with a previously independent director serving as Chairman of the Board. From 2004 to 2009, the positions of Chairman of the Board and Chief Executive Officer were held by the same person, with an independent member of the Board serving as lead director. From August 2009 to January 2010, the positions were again separated, with the former Chairman and Chief Executive Officer serving as Chairman of the Board and an independent member of the Board serving as lead director. Since January 2010, Mr. Hicks has served as Chairman of the Board and Chief Executive Officer. James Preston served as the independent lead director until May 2012 when Nicholas DiPaolo, an independent director, succeeded him. Mr. DiPaolo continues to serve as lead director.

The Board believes that the current leadership structure is appropriate for the Company in light of the Company's and the Board's history of operating effectively when these positions have been combined; the availability of directors such as Mr. DiPaolo to serve as a strong, independent lead director; the size of the Board, which allows a free flow of communication among its members and between the independent members and the Chairman; the important role played by our committee chairs; the independence of our directors; and Mr. Hicks' background and experience.

Executive Sessions of Non-Management Directors

The Board of Directors holds regularly scheduled executive sessions of non-management directors in conjunction with each quarterly Board meeting. Nicholas DiPaolo, as lead director, presides at these executive sessions.

Board Members Attendance at Annual Meetings

Although we do not have a policy on our Board members attendance at annual shareholders meetings, we encourage each director to attend these important meetings. The annual meeting is normally scheduled on the same day as a quarterly Board of Directors meeting. In 2012, all of the directors attended the annual shareholders meeting.

Director Orientation and Education

We have an orientation program for new directors that is intended to educate a new director on the Company and the Board's practices. At the orientation, the newly elected director generally meets with the Company's Chief Executive Officer, the Chief Financial Officer, other senior financial officers of the Company, and the General Counsel and Secretary to review the business operations, financial matters, investor relations, corporate governance policies, and the composition of the Board and its committees. Additionally, he or she has the opportunity to visit our stores at the Company's New York headquarters, or elsewhere, with a senior division officer for an introduction to store operations. We also provide the Board of Directors with educational training from time to time on subjects applicable to the Board and the Company, including with regard to retailing, accounting, financial reporting, and corporate governance, using both internal and external resources.

Payment of Directors Fees in Stock

The non-employee directors receive one-half of their annual retainer fees, including committee chair and lead director retainer fees, in shares of the Company's Common Stock, with the balance payable in cash. Directors may elect to receive up to 100 percent of their fees in stock.

Director Retirement

The Board has established a policy in its Corporate Governance Guidelines that directors retire from the Board at the annual meeting of shareholders following the director's 72nd birthday. As part of the Nominating Committee's regular evaluation of the Company's directors and the overall needs of the Board, the Nominating Committee may ask a director to remain on the Board for an additional period of time beyond age 72, or to stand for re-election after reaching age 72. For any director over age 72, the Nominating and Corporate Governance Committee evaluates that director each year in light of the retirement policy to determine his or her continued service on the Board.

Change in a Director's Principal Employment

The Board has established a policy that any director whose principal employment changes is required to advise the Chair of the Nominating and Corporate Governance Committee of this change. If requested by the Chair of the Committee, after consultation with the members of the Committee, the director will submit a letter of resignation to the Chair of the Committee, and the Committee would then meet to consider whether to accept or reject the letter of resignation.

Risk Oversight

The Board of Directors has oversight responsibilities regarding risks that could affect the Company. This oversight is conducted primarily through the Audit Committee. The Audit Committee has established procedures for reviewing the Company's risks. These procedures include regular risk monitoring by Foot Locker management to update current

risks and identify potential new and emerging risks, quarterly risk reviews by management with the Audit Committee, and an annual risk report to the full Board of Directors. The Audit Committee Chair reports on the committee's meetings,

considerations, and actions to the full Board at the next Board meeting following each committee meeting. In addition, the Compensation and Management Resources Committee considers risk in relation to the Company's compensation policies and practices. The committee's independent compensation consultant provides an annual report to the committee on risk relative to the Company's compensation programs.

The Company believes that this process for risk oversight is appropriate in light of the nature of the Company's business, its size, and the active participation of senior members of management, including the Chief Executive Officer, in managing risk and holding regular discussions on risk with the Audit Committee, the Compensation and Management Resources Committee, and the Board.

Stock Ownership Guidelines

The Board of Directors has adopted Stock Ownership Guidelines. The Guidelines were initially adopted in 2006 and were most recently amended as of the start of the 2012 fiscal year. These guidelines cover the Board of Directors, the Chief Executive Officer, and Other Principal Officers. The Guidelines are as follows:

Covered Position	Current Ownership Guidelines
Non-Employee Directors	4 x Annual Retainer Fee
Chief Executive Officer	6 x Annual Base Salary
Executive Vice Presidents	3 x Annual Base Salary
Senior Vice Presidents and CEOs of Operating Divisions	2 x Annual Base Salary
Managing Directors of Operating Divisions and Corporate Vice Presidents	0.5 x Annual Base Salary

Shares of unvested restricted stock, unvested restricted stock units, and deferred stock units are counted towards beneficial ownership. Performance-based restricted stock units are counted once earned. Stock options and shares held through the Foot Locker 401(k) Plan are disregarded in calculating beneficial ownership.

Non-employee directors and executives who are covered by the guidelines are required to be in compliance within five years after the effective date of becoming subject to these guidelines. In the event of any later increase in the required ownership level, whether as a result of an increase in the annual retainer fee or base salary or an increase in the required ownership multiple, then the target date for compliance with the increased ownership guideline is five years after the effective date of such increase.

All non-employee directors and executives who were required to be in compliance as of the end of the 2012 fiscal year are in compliance. The Company measures compliance with the guidelines at the end of each fiscal year based on the market value of the Company's stock, with the compliance determination at that point in time applying for the next fiscal year, regardless of fluctuations in the Company's stock price.

If a director or covered executive fails to be in compliance by the required compliance date, then he or she must hold the net shares obtained through future stock option exercises and the vesting of restricted stock and restricted stock units, after payment of applicable taxes, until coming into compliance with the guidelines. In order to take into consideration fluctuations in the Company's stock price, any person who has been in compliance with the guidelines as

of the end of at least one of the two preceding fiscal years and who has not subsequently sold shares will not be subject to this holding requirement. For non- employee directors, the Nominating and Corporate Governance Committee will consider a director s failure to comply with the Guidelines when considering that director for re-election to the Board of Directors.

Political Contributions

Our Code of Business Conduct prohibits making contributions on behalf of the Company to political parties, political action committees, political candidates, or holders of public office. The Company is a member of several trade associations which, as part of their overall activities, may engage in advocacy activities with regard to issues important to the retail industry or the business community generally.

Communications with the Board of Directors

The Board has established a procedure for shareholders and other interested parties to send communications to the non-management members of the Board of Directors. Shareholders and other interested parties who wish to communicate directly with the non-management directors of the Company should send a letter to:

Board of Directors
c/o Secretary, Foot Locker, Inc.
112 West 34th Street
New York, NY 10120

The Secretary will promptly send a copy of the communication to the lead director, who may direct the Secretary to send a copy of the communication to the other non-management directors and may determine whether a meeting of the non-management directors should be called to review the communication.

A copy of the Procedures for Communications with the Board of Directors is available on the corporate governance section of the Company's corporate web site at

<http://www.footlocker-inc.com/investors.cfm?page=corporate-governance>. You may obtain a printed copy of the procedures by writing to the Corporate Secretary at the Company's headquarters.

Retention of Outside Advisors

The Board of Directors and all of its committees have authority to retain outside advisors and consultants that they consider necessary or appropriate in carrying out their respective responsibilities. The independent accountants are retained by the Audit Committee and report directly to the Audit Committee. In addition, the Committee is responsible for the selection, assessment, and termination of the internal auditors to which the Company has outsourced a portion of its internal audit function, which is ultimately accountable to the Audit Committee. Similarly, the consultant retained by the Compensation and Management Resources Committee to assist it in the evaluation of senior executive compensation reports directly to that committee.

Code of Business Conduct

The Company has adopted a Code of Business Conduct for directors, officers and employees, including our Chief Executive Officer, Chief Financial Officer, and Chief Accounting Officer. A copy of the Code of Business Conduct is available on the corporate governance section of the Company's corporate web site at

<http://www.footlocker-inc.com/investors.cfm?page=corporate-governance>. You may obtain a printed copy of the Code of Business Conduct by writing to the Corporate Secretary at the Company's headquarters.

Any waivers of the Code of Business Conduct for directors and executive officers must be approved by the Audit Committee. We promptly disclose amendments to the Code of Business Conduct and any waivers of the Code for directors and executive officers on the corporate governance section of the Company's corporate website at

<http://www.footlocker-inc.com/investors.cfm?page=corporate-governance>.

BOARD OF DIRECTORS

Organization and Powers

The Board of Directors has responsibility for establishing broad corporate policies, reviewing significant developments affecting Foot Locker, and monitoring the general performance of the Company. Our By-laws provide for a Board of Directors consisting of between 7 and 13 directors. The exact number of directors is determined from time to time by the entire Board. Our Board currently has 12 members. James E. Preston, Allen Questrom, and David Y. Schwartz will be retiring from the Board in accordance with the directors' retirement policy at the conclusion of the 2013 Annual Meeting. The Board has fixed the number of directors at 9, effective at the conclusion of the 2013 Annual Meeting.

The Board of Directors held five meetings during 2012. All of our directors attended at least 75 percent of the meetings of the Board and committees on which they served in 2012.

Director Qualifications

The Board of Directors, acting through the Nominating and Corporate Governance Committee, considers its members, including those directors being nominated for reelection to the Board at the 2013 annual meeting, to be qualified for service on the Board due to a variety of factors reflected in each director's experience, education, areas of expertise, and experience serving on the boards of directors of other organizations. Generally, the Board seeks individuals of broad-based experience who have the background, judgment, independence, and integrity to represent the shareholders in overseeing the Company's management in their operation of the business rather than specific, niche areas of expertise. Within this framework, specific items relevant to the Board's determination for each director are listed in each director's biographical information beginning on Page 69.

Directors' Independence

A director is considered independent under the rules of the The New York Stock Exchange if he or she has no material or immaterial relationship to the Company that would impair his or her independence. In addition to the independence criteria established by The New York Stock Exchange, the Board of Directors has adopted categorical standards to assist it in making its independence determinations regarding individual members of the Board. These categorical standards are contained in the Corporate Governance Guidelines, which are posted on the Company's corporate web site at <http://www.footlocker-inc.com/investors.cfm?page=corporate-governance>.

The Board of Directors has determined that the following categories of relationships are immaterial for purposes of determining whether a director is independent under the listing standards adopted by The New York Stock Exchange.

Categorical Relationship	Description
Investment Relationships with the Company	A director and any family member may own equities or other securities of the Company.
Relationships with Other Business Entities	A director and any family member may be a director, employee (other than an executive officer), or beneficial owner of less than 10 percent of the shares of a business entity with which the Company does business, provided that the aggregate amount involved in a fiscal year does not exceed the greater of \$1,000,000 or 2 percent of either that entity's or the Company's annual consolidated gross revenue.
Relationships with Not-for-Profit Entities	A director and any family member may be a director or employee (other than an executive officer or the equivalent) of a not-for-profit organization to which the Company (including the Foot Locker Foundation) makes contributions, provided that the aggregate amount of the Company's contributions in any fiscal year do not exceed the greater of \$1,000,000 or 2 percent of the not-for-profit entity's total annual receipts.

The Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, has determined that the following directors are independent under the rules of The New York Stock Exchange because they have no material or immaterial relationship to the Company that would impair their independence:

Maxine Clark	James E. Preston
Nicholas DiPaolo	Allen Questrom
Alan D. Feldman	David Y. Schwartz
Jarobin Gilbert Jr.	Cheryl Nido Turpin
Guillermo G. Marmol	Dona D. Young
Matthew M. McKenna	

In making its decisions on independence, the Board of Directors reviewed recommendations of the Nominating and Corporate Governance Committee and considered the following relationships between the Company and organizations with which the current members of our Board are affiliated:

David Y. Schwartz was a non-employee director during 2012 of a company with which Foot Locker does business. The Board has determined

that this relationship meets the categorical standard for Relationships with Other Business Entities and is immaterial for determining independence.

Matthew M. McKenna is President and Chief Executive Officer of Keep America Beautiful, Inc., a not-for-profit organization to which the Company's charitable foundation made a contribution of \$15,000 in 2012. The Board has determined that Mr. McKenna's relationship with Keep America Beautiful, Inc. is immaterial for determining independence.

The Board of Directors has determined that Ken C. Hicks is not independent because Mr.

Hicks is an
executive
officer of the
Company.

The Board of Directors has determined that all members of the Audit Committee, the Compensation and Management Resources Committee, and the Nominating and Corporate Governance Committee are independent as defined under the listing standards of The New York Stock Exchange and the director independence standards adopted by the Board.

Related Person Transactions

We individually inquire of each of our directors and executive officers about any transactions in which Foot Locker and any of these related persons or their immediate family members are participants. We also make inquiries within the Company's records for information on any of these kinds of transactions. Once we gather the information, we then review all relationships and transactions in which Foot Locker and any of our directors, executive officers or their immediate family members are participants to determine, based on the facts and circumstances, whether the Company or the related persons have a direct or indirect material interest. The General Counsel's office coordinates the related person review process. The Nominating and Corporate Governance Committee reviews any reported transactions involving directors and their immediate families in making its recommendation to the Board of Directors on the independence of the directors. The Company's written policies and procedures for related person transactions are included within the Corporate Governance Guidelines and Foot Locker's Code of Business Conduct. There were no related party transactions in 2012.

Committees of the Board of Directors

The Board has delegated certain duties to committees, which assist the Board in carrying out its responsibilities. There are five standing committees of the Board. Each director serves on at least one committee. The current committee memberships, the number of meetings held during 2012, and the functions of the committees are described below.

Audit Committee	Compensation and Management Resources Committee	Finance and Strategic Planning Committee	Nominating and Corporate Governance Committee	Executive Committee
G. Marmol, <i>Chair</i>	A. Feldman, <i>Chair</i>	D. Schwartz, <i>Chair</i>	D. Young, <i>Chair</i>	K. Hicks, <i>Chair</i>
N. DiPaolo	J. Preston	M. Clark	J. Gilbert Jr.	N. DiPaolo
J. Gilbert Jr.	A. Questrom	N. DiPaolo	J. Preston	A. Feldman
M. McKenna	C. Turpin	A. Feldman	A. Questrom	G. Marmol
D. Schwartz	D. Young	G. Marmol	C. Turpin	D. Schwartz

Audit Committee

The committee held eight meetings in 2012. The Audit Committee has a charter, which is available on the corporate governance section of our corporate web site at <http://www.footlocker-inc.com/investors.cfm?page=corporate-governance>. The report of the Audit Committee appears on Page 75.

This committee appoints the independent accountants and is responsible for approving the independent accountants compensation. This committee also assists the Board in fulfilling its oversight responsibilities in the following areas:

accounting
policies and
practices,

the integrity of
the Company's

financial
statements,

compliance
with legal and
regulatory
requirements,

risk oversight,

the
qualifications,
independence,
and
performance
of the
independent
accountants,
and

the
qualifications,
performance
and
compensation
of the internal
auditors.

The Audit Committee has established procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting controls or auditing matters.

The Board of Directors has determined that the Company has at least one audit committee financial expert, as defined under the rules of the Securities Exchange Act of 1934, serving on the Audit Committee. David Y. Schwartz has been designated as the audit committee financial expert. Mr.

Schwartz is independent under the rules of The New York Stock Exchange and the Securities Exchange Act of 1934.

Compensation and Management Resources Committee

The Compensation and Management Resources Committee (the Compensation Committee) held six meetings in 2012. The committee has a charter, which is available on the corporate governance section of the Company's corporate web site at <http://www.footlocker-inc.com/investors.cfm?page=corporate-governance>.

The Compensation Committee determines the compensation of the Chief Executive Officer, reviews and approves all compensation for the Company's executive management group, which consists of the executive officers and corporate officers, and determines significant elements of the compensation of the chief executive officers of our operating divisions. Decisions regarding equity compensation for other employees are also the Compensation Committee's responsibility. Decisions regarding non-equity compensation of the Company's other associates are made by the Company's management. The committee also considers risk in relation to the Company's compensation policies and practices.

The Compensation Committee also administers Foot Locker's various compensation plans, including the incentive plans, the equity-based compensation plans, and the employees stock purchase plan. Other than the 2007 Stock Incentive Plan, committee members are not eligible to participate in these compensation plans. This committee also reviews and makes recommendations to the Board of Directors concerning executive development and succession, including for the position of Chief Executive Officer.

At the beginning of each year, the Compensation Committee holds a meeting with management, the Company's compensation consultant, and the Committee's independent compensation consultant to review the overall executive compensation environment, including recent developments in executive compensation, and the Company's executive compensation program, including a historical view of the pay-for-performance correlation in the program and any changes to the program being recommended by management or either of the consultants.

The Committee then holds a second meeting, in March, after the financial results for the prior year have been finalized and audited, to review and approve bonus and incentive compensation payments for the prior year and to review and approve compensation arrangements base salaries, stock awards, and incentive plan targets for the upcoming year. The Committee meets privately with its independent consultant for the purpose of establishing the compensation of the Chief Executive Officer, including establishing target awards under the Annual Bonus Plan and the long-term incentive compensation program, and making stock awards to him. Except in the case of promotions or other unusual circumstances, the Compensation Committee considers stock awards only at its March meeting, which is normally held within a few weeks following the issuance of the Company's full-year earnings release for the prior year.

The Committee may hold other meetings during the year to review specific issues related to executive compensation or new developments in executive compensation. It also has responsibility, along with the Nominating and Corporate Governance Committee, for annually reviewing compensation paid to non-employee directors.

The Compensation Committee has retained as its advisor a nationally recognized compensation consultant Compensation Advisory Partners (CAP) that is independent and performs no other work for the Company. CAP is retained directly by the Compensation Committee, reports to it directly, meets with the committee privately, without management present, and regularly communicates privately with the Chair of the committee. The Compensation Committee has assessed the independence of CAP and concluded that no conflict of interest exists that would prevent it from serving as an independent consultant to the committee. Each year, the committee's compensation consultant reviews a report on risk in relation to the Company's compensation policies and practices, provides a pay-for-performance analysis of our executive compensation program, reviews the Chief Executive Officer's compensation and advises the committee on non-employee director compensation

matters, including payment levels and trends. Management utilizes the services of ClearBridge Compensation Group, a nationally recognized compensation consultant, to provide advice on the executive compensation program and plan design.

Management is involved in various aspects of developing the executive compensation program. Our Senior Vice President Human Resources, Vice President Human Resources, and staff in the Human Resources Department work with our Chief Executive Officer to develop compensation recommendations for all corporate officers other than the Chief Executive Officer. The Chief Executive Officer or the Senior Vice President Human Resources reviews these proposals with the Chair of the Compensation Committee, and may make changes to the recommendations based upon his input, before the recommendations are forwarded to the Compensation Committee for review. Our Senior Vice President and General Counsel and Vice President and Associate General Counsel also attend meetings of the Compensation Committee and participate in some of these discussions and preparations.

The Compensation Committee has delegated authority to its Chair to approve stock option awards of up to 25,000 shares to any single employee other than a corporate officer. The Chair generally uses this authority to approve stock option grants made during the course of the year in connection with promotions or new hires.

Compensation Committee Interlocks and Insider Participation

Alan D. Feldman, James E. Preston, Allen Questrom, Cheryl Nido Turpin, and Dona D. Young served on the Compensation and Management Resources Committee during 2012. None of the committee members was an officer or employee of the Company or any of its subsidiaries, and there were no interlocks with other companies within the meaning of the SEC's proxy rules.

Finance and Strategic Planning Committee

The Finance and Strategic Planning Committee held five meetings in 2012. This committee reviews the overall strategic and financial plans of the Company, including capital expenditure plans, proposed debt or equity issues of the Company, and the Company's capital structure. The committee also considers and makes recommendations to the Board of Directors concerning dividend payments and share repurchases, and reviews acquisition and divestiture proposals.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee held seven meetings in 2012. This committee has responsibility for overseeing corporate governance matters affecting the Company, including developing and recommending criteria and policies relating to service and tenure of directors. The committee is responsible for collecting the names of potential nominees to the Board, reviewing the background and qualifications of potential candidates for Board membership, and making recommendations to the Board for the nomination and election of directors. The committee reviews membership on the Board committees and, after consultation with the lead director and the Chief Executive Officer, makes recommendations to the Board regarding committee members and committee chair assignments annually. In addition, the committee meets jointly with the Compensation and Management Resources Committee to review directors' compensation and make recommendations to the Board concerning the form and amount of directors' compensation.

While the Nominating and Corporate Governance Committee does not have a formal policy regarding board diversity, the Foot Locker Board reflects diversity in terms of gender, experience and ethnicity. In selecting new directors and considering the re-nomination of existing directors, the Committee considers a variety of factors that it believes contribute to an individual's ability to be an effective director, as well as the overall effectiveness of the Board. These include independence, integrity, high personal and professional ethics, sound business judgment, and the ability and willingness to devote sufficient time to Board responsibilities. The Committee also considers an individual's

understanding of business, finance, corporate governance, marketing, and other disciplines relevant to the oversight of a large publicly traded company; understanding of our industry; educational and

professional background; international experience; personal accomplishment; community involvement; and cultural and ethnic diversity. The Nominating and Corporate Governance Committee may establish criteria for candidates for Board membership. These criteria may include area of expertise, diversity of experience, independence, commitment to representing the long-term interests of the Company's stakeholders, and other relevant factors, taking into consideration the needs of the Board and the Company and the mix of expertise and experience among current directors. From time to time the committee may retain the services of a third party search firm to identify potential director candidates.

The committee will consider nominees to the Board of Directors recommended by shareholders that comply with the provisions of the Company's By-Laws and relevant law, regulation, and stock exchange rules. The procedures for shareholders to follow to propose a potential director candidate are described on Page 84.

After a potential nominee is identified, the Committee Chair will review his or her biographical information and discuss with the other members of the committee whether to request additional information about the individual or to schedule a meeting with the potential candidate. The committee's screening process for director candidates is the same regardless of the source who identified the potential candidate. The committee's determination on whether to proceed with a formal evaluation of a potential candidate is based on the person's experience and qualifications, as well as the current composition of the Board and its anticipated future needs.

Executive Committee

The Executive Committee did not meet in 2012. Except for certain matters reserved to the Board, this committee has all of the powers of the Board in the management of the business of the Company during intervals between Board meetings.

DIRECTORS' COMPENSATION AND BENEFITS

Non-employee directors are paid an annual retainer fee and meeting fees for attendance at each Board and committee meeting. The lead director and the committee chairs are paid an additional retainer fee for service in these capacities. We do not pay additional compensation to any director who is also an employee of the Company for service on the Board or any committee. The table below summarizes the fees paid to the non-employee directors in 2012.

Summary of Directors Compensation

Annual Retainer \$110,000. The annual retainer is payable 50 percent in cash and 50 percent in shares of our Common Stock. Directors may elect to receive up to 100 percent of their annual retainer, including committee chair retainer, in stock.

We calculate the number of shares paid to the directors for their annual retainer by dividing their retainer fee by the closing price of a share of our stock on the last business day preceding the July payment date.

Committee Chair Retainers \$25,000 Audit Committee

\$25,000 Compensation and Management Resources Committee

\$15,000 Finance and Strategic Planning Committee

\$15,000 Nominating and Corporate Governance Committee

N/A: Executive Committee

The committee chair retainers are paid in the same form as the annual retainer.

Lead Director Retainer \$50,000 payable in the same form as the annual retainer.

Meeting Fees \$2,000 for attendance at each Board and committee meeting

Restricted Stock Units In fiscal 2012, the directors received a grant of 1,902 restricted stock units (RSUs). The number of RSUs granted was calculated by dividing \$55,000 by the closing price of a share of our stock on the date of grant. The RSUs will vest one year following the date of grant in May 2013. Each RSU represents the right to receive one share of the Company s common stock on the vesting date.

Deferral Election

Non-employee directors may elect to receive all or a portion of the cash component of their annual retainer fee, including committee chair retainers, in the form of deferred stock units or to have these amounts placed in an interest account. Directors may also elect to receive all or part of the stock component of their annual retainer fee in the form of deferred stock units. The interest account is a hypothetical investment account bearing interest at the rate of 120 percent of the applicable federal long-term rate, compounded annually, and set as of the first day of each plan year. A stock unit is an accounting equivalent of one share of the Company s Common Stock.

Miscellaneous

Directors and their immediate families are eligible to receive the same discount on purchases of merchandise from our stores, catalogs and Internet sites that is available to Company employees. The Company reimburses non-employee directors for their reasonable expenses in attending meetings of the Board and committees, including their transportation expenses to and from meetings, hotel accommodations, and meals.

Fiscal 2012 Director Compensation

The amounts paid to each non-employee director for fiscal 2012, including amounts deferred under the Company's stock plan, and the RSUs granted to each director are reported in the tables below. Ms. Clark did not serve as a director during 2012, so no compensation is reported for her in the table.

- *Stock portion of retainer fee:* In 2012, we made the annual stock payment to each director on July 2. Under the terms of the 2007 Stock Incentive Plan, the stock payment was valued at the closing price of a share of the Company's common stock on June 29, which was \$30.58. The 2012 grant date fair value is equal to the number of shares received or deferred by the director multiplied by \$30.58, calculated in accordance with stock-based compensation accounting rules (ASC Topic 718). Directors who deferred the stock portion of their annual retainer were credited with deferred stock units on the annual payment date valued at \$30.58 per unit.

- *Cash portion of retainer fee:* For fiscal 2012, two directors deferred all or part of the cash portion of their annual retainer fees and were credited during the fiscal year with deferred stock units on the quarterly cash retainer payment dates, valued at the fair market value on the payment dates, as follows: January 3, 2012 (\$23.99; pro rated for 2 months of fiscal year), April 2, 2012 (\$31.12), July 2, 2012 (\$30.74), October 1, 2012 (\$35.24), and January 2, 2013 (\$31.60; pro rated for 1 month of fiscal year). The 2012 grant date fair value is equal to the number of deferred stock units received multiplied by the fair market value on the payment dates, calculated in accordance with stock-based compensation accounting rules (ASC Topic 718).

was the closing price of a share of our stock on the date of grant. The RSUs will vest in May 2013. As provided under the SEC's rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. For additional information on the valuation assumptions, please refer to Note 21 to the Company's financial statements in our 2012 Form 10-K. The following table shows the aggregate number of RSUs granted in 2012 and the number of RSUs outstanding at the end of the 2012 fiscal year:

Directors' Retirement Plan

The Directors' Retirement Plan was frozen as of December 31, 1995. Consequently, only Jarobin Gilbert Jr. and James E. Preston are entitled to receive a benefit under this plan when their service as directors ends because they had completed at least five years of service as directors on December 31, 1995. Messrs. Gilbert and Preston will receive an annual retirement benefit of \$24,000 for a period of 10 years after they leave the Board or until their death, if sooner.

Directors and Officers Indemnification and Insurance

We have purchased directors and officers liability and corporation reimbursement insurance from a group of insurers comprising ACE American Insurance Co., Zurich American Insurance Co., Arch Insurance Co., St. Paul Mercury Insurance Co., Axis Insurance Co., Federal Insurance Co., Navigators Insurance Co., Aspen American Insurance Co., XL Insurance Bermuda Ltd., Illinois National Insurance Co., and Berkley Insurance Co. These policies insure the Company and all of the Company's wholly owned subsidiaries. They also insure all of the directors and officers of the Company and the covered subsidiaries. The policies were written for a term of 12 months, from October 12, 2012 until October 12,

2013. The total annual premium for these policies, including fees and taxes, is \$1,076,280. Directors and officers of the Company, as well as all other employees with fiduciary responsibilities under the Employee Retirement Income Security Act of 1974, as amended, are insured under policies issued by a group of insurers comprising Arch Insurance Co., St. Paul Mercury Insurance Co., Federal Insurance Co., and Continental Casualty Co., which have a total premium, including fees and taxes, of \$348,788 for the 12-month period ending October 12, 2013.

The Company has entered into indemnification agreements with its directors and officers, as approved by shareholders at the 1987 annual meeting.

EXECUTIVE COMPENSATION

Compensation and Risk

The Company has completed a risk-related review and assessment of our compensation program and considered whether our executive compensation is reasonably likely to result in a material adverse effect on the Company. As part of this review, the independent compensation consultant to the Compensation and Management Resources Committee reviewed risk in relation to the Company's compensation policies and practices with the Company's human resources executives directly involved in compensation matters. The consultant reviewed the compensation policies and practices in effect for corporate and division employees through the manager level, store managers, and store associates and reviewed the features we have built into the compensation programs to discourage excessive risk taking by employees, including a balance between different elements of compensation, differing time periods for different elements, consistent Company-wide programs, plan performance targets based on the corporate budgeting process, and stock ownership guidelines for senior management.

Compensation Discussion and Analysis

This section explains our executive compensation program as it relates to the following named executive officers whose compensation information is presented in the tables following this discussion and analysis:

Ken C. Hicks	Chairman of the Board, President and Chief Executive Officer
Lauren B. Peters	Executive Vice President and Chief Financial Officer
Richard A. Johnson	Executive Vice President and Chief Operating Officer
Robert W. McHugh	Executive Vice President Operations Support
Gary M. Bahler	Senior Vice President, General Counsel and Secretary

Our executive compensation program is designed to attract, motivate, and retain talented retail company executives in order to maintain and enhance the Company's performance and its return to shareholders. In order to accomplish this, we have a compensation program for our executives that ties pay closely to performance. A significant portion of the compensation of each of the named executive officers shown in this year's summary compensation table on page 37 is based on the Company's performance or the performance of our share price. The more senior an executive's position, the greater the portion of his or her compensation that is tied to performance. The Compensation and Management Resources Committee (the Compensation Committee), composed of five independent directors, oversees the executive compensation program.

2012 Summary

Our 2012 Results. In 2012, we achieved record sales, earnings, earnings per share, and return-on-invested capital in our history as an athletic footwear and apparel company. Results included:

Net income, on a non-GAAP basis, of \$380 million or earnings-per-share of \$2.47, a 35.7 percent increase over 2011

End-of-year market capitalization of \$5.2 billion, a 30 percent increase over year-end 2011

Total dividend payments to shareholders of \$109 million

Total share
repurchases
of \$129
million

Total
shareholder
return (stock
price
appreciation
plus
reinvested
dividends)
of 32
percent.

These results represent continued strong progress toward the long-term objectives contained in the updated long-range strategic plan that we adopted in early 2012, as shown in the following table:

Financial Metrics	2011	2012	Long-Term Objectives
Sales	\$5,623 million	\$6,101 million	\$7,500 million
Sales per Gross Square Foot	\$406	\$443	\$500
Earnings before Interest and Taxes (EBIT) margin	7.9%	9.9%	11%
Net Income Margin	5.0%	6.2%	7%
Return on Invested Capital (ROIC)	11.8%	14.2%	14%

The above table represents non-GAAP results. There is a reconciliation to GAAP on Pages 15-17 of our 2012 Form 10-K.

Base Salaries. The Chief Executive Officer's base salary was unchanged in 2012 from 2011. As part of the Compensation Committee's normal annual compensation review, the other named executive officers received base salary increases ranging from 0 to 6.25 percent, which were based on the executive's performance and a position-oriented analysis of peer group salaries.

Annual Bonus. Both our annual bonus and long-term incentive programs are formula-driven, with targets established by the Compensation Committee based upon financial targets included in the business plan approved each year by our Finance and Strategic Planning Committee and Board of Directors. Our annual and long-term bonus programs for the named executive officers pay out based upon the Company's results, without individual performance adjustments.

At the beginning of 2012, the Compensation Committee established a performance target under the Annual Incentive Compensation Plan (the Annual Bonus Plan) based on the Company achieving pre-tax income of \$527.9 million, a 20 percent increase over 2011 pre-tax income. In 2012, the Company achieved pre-tax income of \$623.8 million, a 43 percent increase over 2011, and 18 percent greater than the target, which resulted in annual cash bonuses of 209.9

percent of base salary for the Chief Executive Officer, 125.9 percent of base salary for the Chief Operating Officer, and 84.0 percent of base salary for the other named executive officers, slightly below the maximum payout.

Long-Term Incentive Programs. At the beginning of 2011, the Compensation Committee established performance targets for the 2011-12 performance period under the long-term incentive program. The amount earned for the two-year 2011-2012 performance period will not be paid to participants until 2014, following the completion of an additional one-year holding period. The targets that the Committee established were based on the Company achieving average annual net income of \$217.4 million (which accounts for 70% of the payout) and ROIC of 9.8 percent (which accounts for 30% of the payout). For the period, the Company achieved average annual net income of \$333.7 million and ROIC of 13.5 percent. As a result, the named executive officers earned a maximum payout for the performance period for Mr. Hicks, 350 percent of initial base salary and for the other named executive officers, 150 percent of initial base salary. Payouts will be calculated and made one-half in cash and one-half in restricted stock units (RSUs).

In 2012, the Compensation Committee established long-term incentive performance targets for the 2012-2013 performance period based upon net income (70%) and ROIC (30%). The Committee will determine whether payouts have been earned for that performance period following the end of 2013. If payouts are earned, they will be calculated one-half in cash and one-half in RSUs, and payment will be made to participating executives in 2015 following an additional one-year holding period. In addition, the Compensation Committee established a performance gate so that no pay-outs will be made for the 2012-2013 performance period unless average annual after-tax income for the performance period equals or exceeds actual 2011 after-tax income.

In 2010, we made a change to our long-term incentive program. For years prior to 2010, the long-term incentive was determined based upon performance over a three-year performance measurement

period and was paid in cash. Beginning in 2010, the long-term incentive is determined based upon performance over a two-year performance measurement period, with an additional one-year holding period, and the award is denominated one-half in cash and one-half in RSUs. Consequently the Summary Compensation Table reflects two long-term incentives for 2011 the 2009-2011 three-year performance measurement period under the old program and the 2010-2011 performance measurement period under the new program.

Our annual bonus and long-term incentive programs are performance-based. When we meet or exceed our targets, as we did in 2012, payments are made to participants, including the named executive officers. When we do not, as was the case in 2009, no payments are made. Following is a four-year history of bonus payments to our named executive officers:

	Annual Bonus Plan Payout	Long-Term Bonus Plan Pay-out
2012	Between Target and Maximum	2011-12: Maximum
2011	Maximum	2010-11: Maximum 2009-11: Maximum
2010	Maximum	2008-10: Between Threshold and Target
2009	No Payout	2007-09: No Payout

Stock Options. The Compensation Committee granted stock options to each of the named executive officers in 2012. As part of its normal annual compensation review, the Committee awarded options to purchase the number of shares of common stock to each of the named executive officers shown in the following chart:

Executive	Number of Options	Assumed Black-Scholes Value
Mr. Hicks	300,000	\$ 3,060,000
Mr. Johnson	49,000	\$ 500,000
Mr. McHugh and Ms. Peters	44,000	\$ 450,000
Mr. Bahler	22,000	\$ 225,000

When determining the number of stock options to grant, the Compensation Committee considered an assumed Black-Scholes value, shown in the chart, which was based on the closing price of a share of the Company's common stock in the 20 trading day period ending 10 days prior to the date the Committee met to authorize these awards. The option exercise price, as well as the actual Black-Scholes value of the awards, is based upon the closing price of a share of the Company's common stock on the grant date. All of the options granted have a three-year vesting schedule, with one-third of each option grant vesting on the first, second, and third anniversary of the grant date, subject to continuous service through each vesting date.

Key Compensation Policies. In addition to the specific compensation programs outlined above, the Company has adopted a number of other policies related to executive compensation:

Independent Consultant. With regard to executive compensation matters, our Compensation Committee directly retains, and is advised by, an independent compensation consultant who performs no other work for the Company.

No Gross-Ups. We do not provide a tax gross-up with regard to any compensation, benefit, or perquisite paid by the Company, other than our executive relocation program that is applicable to all executives. We also do not provide tax gross-ups for any amount paid to an executive upon termination of employment or a change-in-control.

Stock Ownership Guidelines. We have stock ownership guidelines for our senior executives. These are set at six times annual salary for the Chief Executive Officer, three times annual salary for executive vice presidents, two times annual salary for senior vice presidents and divisional chief executive officers, and one-half times annual salary for vice presidents and divisional managing directors. If an executive has not met the ownership requirements following a five-year phase-in period, the executive is required to hold 100 percent of net shares acquired from the vesting of

restricted stock or RSUs or the exercise of stock options until the stock ownership guidelines are achieved.

Long-Term Incentive Program Performance Gate. With regard to the long-term incentive program, the Compensation Committee has established a performance gate so that no amounts will be paid out under the program unless the Company's average annual after-tax income for the performance period exceeds the Company's after-tax income in the year prior to the commencement of the performance period.

2012 Say-on-Pay Vote. At our 2012 annual meeting, 98 percent of shareholders voting on the advisory vote on executive compensation supported the executive compensation program. The Compensation Committee considered the results of the 2012 say-on-pay vote and shareholders' strong support of our executive compensation program in reviewing the executive compensation program for 2013. In light of this, the Compensation Committee decided to retain the general overall program design, which ties executive pay closely with Company performance. In the future, the Compensation Committee will continue to consider the executive compensation program in light of changing circumstances and shareholder feedback. Our say-on-pay vote is currently held on an annual basis, consistent with the views expressed by a majority of our shareholders at our 2011 annual meeting.

In the balance of this Compensation Discussion and Analysis, we provide greater detail about our compensation program for the named executive officers.

* * *

What are the objectives of our compensation program?

The objectives of our compensation program are to attract, motivate, and retain talented retail industry executives in order to maintain and enhance the Company's performance and its return to shareholders.

What is our compensation program designed to reward?

We have designed our compensation program to align the financial interests of our executives, including the named executive officers, with those of our shareholders. It is designed to reward the overall effort and contribution of our executives as measured by the Company's performance in relation to targets established by the Compensation Committee, more than individual performance. Key concepts underlying our program are:

Balance. Executive compensation should be balanced between annual and long-term compensation and between cash and equity-based compensation.

Align Interests of Executives and Shareholders. The compensation program should align the interests of executives with

those of the Company's shareholders by rewarding both increases in the Company's share price and the achievement of performance goals that contribute to the Company's long-term health and growth.

Strong Relationship to Company Performance. A substantial portion of the compensation of our executives, whether paid out currently or on a long-term basis, should depend on the Company's performance.

The Compensation of Our Senior Executives Has Greater Risk.

More-senior executives should have a greater portion of their compensation at risk, whether through performance-based incentive programs or through stock price appreciation.

What are our elements of compensation?

The elements of compensation for the named executive officers are:

base salary

performance-based
annual cash bonus

performance-based
long-term
incentive, payable
in a combination
of cash and RSUs

long-term
equity-based
compensation
(stock options and,
in special
situations,
restricted stock)

retirement
and other
benefits

perquisites

Why do we pay each element of compensation and how do we determine the amount for each element of compensation, or the formula that determines the amount?

We have established benchmarks for base salary and total compensation for each named executive officer. These benchmarks are reviewed annually and are based upon compensation for comparable positions in a peer group consisting of 19 national retail companies with annual sales of approximately \$1 billion to \$10 billion. The Compensation Committee determined that these companies were the appropriate peer group for executive compensation purposes based upon the nature of their business, their revenues, and the pool from which they recruit their executives. The peer group used in 2012 was unchanged from that used in 2011 except that two companies Borders Group, Inc. and Timberland Co. that ceased to be publicly traded companies during 2011 were deleted from the group. The 19 companies included in the peer group were:

Abercrombie & Fitch.	Aeropostale, Inc.
American Eagle Outfitters Inc.	ANN INC.
Brown Shoe Company, Inc.	Charming Shoppes
Collective Brands Inc.	Dick's Sporting Goods Inc.
Dillards Inc.	Family Dollar Stores
Finish Line Inc.	Genesco Inc.
Limited Brands Inc.	Pacific Sunwear of California Inc.
Quiksilver Inc.	Radioshack Corp.
Ross Stores	Saks Inc.
Talbots Inc	

For its 2013 compensation review, the Compensation Committee made several changes to the peer group. It removed Collective Brands Inc., Charming Shoppes, Inc., and Talbots Inc. because they ceased to be publicly traded companies. It also removed Pacific Sunwear of California because its revenues continue to be less than \$1 billion. Five companies were added to the group, all of which are specialty retail chains having sales in the \$1 billion to \$10 billion range: Ascena Retail Group, Inc., Bed, Bath & Beyond Inc., DSW Inc., GameStop Corp., and Williams-Sonoma, Inc.

The goal of the Compensation Committee is to provide competitive total compensation opportunities for the named executive officers that vary with Company performance. The Committee uses the peer group benchmark information as a reference point in evaluating executive compensation, but does not attempt to match the compensation of each executive position in the Company precisely with that of an equivalent position in the peer group. In general, the Committee attempts to position an executive's total compensation between the median and 75th percentile of comparable positions at peer companies, consistent with the Company's revenues in relation to the peer companies. The Committee also takes into consideration factors such as performance, responsibility, experience, and length of time an executive has served in a position.

Base Salaries

We pay base salaries to provide our named executive officers with current, regular compensation that is appropriate to their position, experience, and responsibilities. We pay higher base salaries to those named executive officers with greater overall responsibility. Other than Mr. Hicks and Mr. Bahler, whose base salaries did not change in 2012 from 2011, the other named executive officers received base salary increases in 2012 that ranged from 2.4 percent to 6.25 percent. These increases were determined based principally upon the executive's performance and his or her salary as compared to salaries for comparable positions in the peer group. Mr. Johnson's salary increase also took into consideration his promotion to Chief Operating Officer in May 2012.

Performance-Based Annual Cash Bonus

We pay performance-based annual cash bonuses to our named executive officers under the Annual Bonus Plan in order to provide incentive for them to work toward the Company's achievement of annual performance goals established by the Compensation Committee. Payments are calculated as a percentage of actual base salary earned by the executive during the year.

Our Annual Bonus Plan allows the Compensation Committee, in establishing performance targets under the plan, to choose one or more performance measures from a list of ten factors that have been approved by our shareholders. For 2012, for the named executive officers, the Compensation Committee established a performance target under the Annual Bonus Plan based upon the Company's achievement of a prescribed level of pre-tax income. All bonus targets and calculations are based on the results of continuing operations. The performance targets established by the Compensation Committee are based upon the business plan and budget reviewed and approved each year by the Finance and Strategic Planning Committee and the Board of Directors.

The Annual Bonus Plan targets and the actual amount of adjusted pre-tax profit achieved for 2012 were as follows:

	Threshold	Target	Maximum	Actual
Pre-tax profit	\$475.1 million	\$527.9 million	\$633.5 million	\$623.8 million

Bonus payouts are calculated on the basis of straight-line interpolation between the threshold, target, and maximum points.

Target payments under the Annual Bonus Plan for the named executive officers and actual payments for 2012 based upon the Company's performance were as follows:

	Target	Range	Actual 2012 Percentage	Actual 2012 Payout
Mr. Hicks	125% of Base Salary	31.25 % to 218.75% of Base Salary	209.9% of Base Salary	\$2,308,625
Ms. Peters	50% of Base Salary	12.5% to 87.5% of Base Salary	84.0% of Base Salary	\$414,503
Mr. Johnson	75% of Base Salary	18.75% to 131.25% of Base Salary	125.9% of Base Salary	\$1,054,622
Mr. McHugh	50% of Base Salary	12.5% to 87.5% of Base Salary	84.0% of Base Salary	\$529,934
Mr. Bahler	50% of Base Salary	12.5% to 87.5% of Base Salary	84.0% of Base Salary	\$453,330

If the Company does not achieve threshold performance, then no annual bonus is paid. Executives who do not receive a meets expectations rating or higher in their annual performance review are normally ineligible to receive an annual bonus payment.

Performance-Based Long-Term Incentive Program

We pay performance-based long-term incentives to our named executive officers in order to provide incentive for them to work toward the Company's achievement of performance goals established by the Compensation Committee for each performance period. The long-term incentive program is based on the following principles:

***Balance
between Cash
and RSUs.***

Awards are denominated 50 percent in cash, payable under the Long-Term Incentive Plan, and 50 percent in RSUs, payable under the Stock Incentive Plan. The same performance target is established for both the cash and RSU portions of the award.

***Two-year
Performance
Period and
One-year
Holding
Period.***

The performance period is two years; however, while award payouts are calculated following the end of the two-year

performance
period,
payments
require
continued
employment
and are
subject to
forfeiture for
another
year that is,
payments are
not made
until the end
of a
three-year
period.

***Net Income
and ROIC***

Targets. The
performance
target is
based on net
income (70
percent) and
ROIC (30
percent).

***Target
Awards are
Percentage
of Base***

Salary. The
target awards
are
expressed as
a percentage
of initial
base
salary that is,
the base
salary paid to
the executive
following the
salary
adjustments
that take
place on
May 1 of the
first year of

the performance period. The Chief Executive Officer's target award is 175 percent of initial base salary; the Chief Operating Officer's, 100 percent of initial base salary; and the other named executive officers, 75 percent of initial base salary.

In 2011, the Compensation Committee established the net income and ROIC targets for the 2011-2012 performance period. These performance targets were based upon the business plan and budget for the two-year period reviewed and approved by the Finance and Strategic Planning Committee and the Board of Directors. The targets, along with the adjusted actual performance for the period, are shown in the table below:

	Threshold	Target	Maximum	Actual
Average Annual Net Income	\$173.9 million	\$217.4 million	\$260.9 million	\$333.7 million

Two-year Average ROIC	8.5%	9.8%	11.1%	13.5%
-----------------------	------	------	-------	-------

The target payment level, possible range of payments, and actual payout, based on the Company's actual performance measured against these performance goals were as follows:

	Target	Range	Actual
Mr. Hicks	175% of Initial Base Salary	43.75% to 350% of Initial Base Salary	350% of Initial Base Salary
Other Named Executive Officers	75% of Initial Base Salary	18.75% to 150% of Initial Base Salary	150% of Initial Base Salary

The base salaries on which the awards were calculated were adjusted, on a pro rata basis, for the promotional salary increases received by Mr. Johnson in July 2011 and May 2012 and by Ms. Peters in July 2011.

As noted above, the awards are denominated one-half in cash and one-half in RSUs. There is a one-year holding period, so that the payouts will not be made to executives until 2014. The RSUs allocated to each executive were valued at the closing price on the date of grant. The actual cash and RSU calculations for each of the named executive officers for the 2011-12 performance period were as follows:

	Cash	RSUs
Mr. Hicks	\$ 1,925,000	102,177
Ms. Peters	\$ 343,952	17,659
Mr. Johnson	\$ 604,888	31,444
Mr. McHugh	\$ 465,000	24,682
Mr. Bahler	\$ 405,000	21,497

Provisions Applicable to All Performance Periods

ROIC is a non-GAAP financial measure. For purposes of calculating the long-term bonus, we define ROIC as follows:

$$\text{ROIC} = \frac{\text{Operating Profit after Taxes}}{\text{Average Invested Capital}}$$

Operating Profit after Taxes (Numerator)=

Average Invested Capital (Denominator)=

Pre-tax income

Average total assets

+/- interest expense/income

- average cash, cash equivalents, and short-term investments

+ implied interest portion of operating lease payments

- average year-end inventory

+/- Unusual/non-recurring items

- non-interest-bearing current liabilities

+ Long-term bonus expense

+ 13-month average inventory

= Earnings before long-term bonus expense, interest and taxes

+ average estimated asset base of capitalized operating leases

- Estimated income tax expense

= Operating Profit after Taxes

= Average Invested Capital

Certain items used in the calculation of ROIC for bonus purposes, such as the implied interest portion of operating lease payments, certain unusual or non-recurring items, average estimated asset base of capitalized operating leases, and 13-month average inventory, while calculated from our financial records, cannot be calculated from our audited financial statements. Prior to the Compensation Committee's determining whether bonus targets have been achieved, the Company's independent registered public accounting firm, at the request, and for the restricted use, of the Compensation Committee, reviews the bonus calculations. There is a calculation of basic ROIC, which is not precisely the same as the calculation used for incentive compensation purposes because of the exclusion of certain extraordinary items (see discussion below of disregarded items), and a reconciliation to GAAP, on Pages 15-17 of our 2012 Form 10-K.

Clawback Policy

We do not have a formal policy with regard to the adjustment or recovery of bonus or incentive payments if it is determined, at a future date, that the relevant performance measures upon which the payments were based must be restated or adjusted. We do, however, have in place other established practices to address this. In particular, annual bonus payments are not made until after our independent auditors have completed their audit for the fiscal year to which the payments relate and presented the results of their audit to our Audit Committee; an executive who does not receive an annual performance review rating of Meets Expectations or above is ineligible to receive an annual bonus payment; there is a one-year holding period under the long-term incentive program so that cash payments and RSU distributions are not made until our independent auditors have completed their audit of both the performance period and the year following the performance period, and presented the results of their audits to our Audit Committee; and we have the ability to adjust future bonus, incentive, and equity grant opportunities downward to adjust for over-payments in prior years. We intend to establish a formal policy on clawbacks once the Securities and Exchange Commission has issued final clawback rules.

Items Disregarded for Annual and Long-Term Bonus Calculations

Under normal circumstances, the Compensation Committee has no discretion to increase annual bonus or long-term incentive payments, which are formula-driven based upon Company performance, and our program for the named executive officers does not provide for discretionary adjustments based upon individual performance. The Compensation Committee has not adjusted, either upward or downward, any of the annual bonus or long-term incentive payments to the named executive officers shown in the summary compensation table from payouts calculated based upon the applicable formula. When determining bonus and incentive payments, consistent with Section 162(m) of the Internal

Revenue Code, the Committee is required to disregard certain events that it determines to be unusual or non-recurring. When establishing the targets, the Committee normally specifies certain items that it considers to be unusual or non-recurring, and these events, if they occur, are automatically excluded when calculating payments. All of the references in this Compensation Discussion and Analysis to target and actual performance levels refer to amounts after taking into consideration these adjustments.

Long-Term Equity-Based Awards

A. Stock Options

We grant stock options to our named executive officers to align their interests more closely with those of our shareholders. Equity grants are the responsibility of the Compensation Committee, which is composed entirely of independent directors. The Committee awards stock options with exercise prices equal to the fair market value of our stock on the date of grant. Therefore, executives who receive stock options will only realize value if there is appreciation in the share price.

Stock option grants of the same size are normally made each year to executives holding comparable positions, with larger awards being made to those with greater responsibility. Beginning in 2012, the Compensation Committee determined the number of options granted on a fixed value basis, using assumed Black-Scholes values, rather than the fixed share basis used in prior years. Under the 2007 Stock Incentive Plan, fair market value is defined as the closing price on the grant date. The Compensation Committee has not granted options with an exercise price of less than the fair market value on the grant date. Options normally vest at the rate of one-third of the total grant per year over the first three years of the ten-year option term, subject to accelerated vesting in certain circumstances. The Compensation Committee does not normally consider an executive's gains from prior stock awards in making new awards.

B. Restricted Stock Units

As noted above in our discussion of the Performance-Based Long-Term Bonus Incentives, one-half of the long-term incentive award is denominated in RSUs.

C. Restricted Stock

We normally make restricted stock awards only in special circumstances, such as related to promotions, special performance, or retention, rather than as part of an executive's normal compensation package. In 2012, the Compensation Committee did not award restricted stock to any of the named executive officers.

D. Stock Ownership Guidelines

We have stock ownership guidelines for our senior executives. These are set at six times annual salary for the Chief Executive Officer, three times annual salary for executive vice presidents, two times annual salary for senior vice presidents and divisional chief executive officers, and one-half times annual salary for vice presidents and divisional managing directors. If an executive has not met the ownership requirements following a five-year phase-in period, the executive is required to hold 100 percent of net shares acquired from the vesting of restricted stock or RSUs or the exercise of stock options until the stock ownership guidelines are achieved.

We do not permit our executive officers to take short or long positions in our shares or to hedge their economic interest in their shares.

Retirement and Other Benefits

A. Retirement Plan and Excess Cash Balance Plan

All United States-based associates of the Company who meet the eligibility requirements are participants in the Foot Locker Retirement Plan. The Retirement Plan and the method of calculating benefits payable under it are described on page 64. All of the named executive officers are participants

in the Retirement Plan. The Internal Revenue Code limits the amount of compensation that may be taken into consideration in determining an individual's retirement benefits. Therefore, those participants in the Retirement Plan, including the named executive officers, whose compensation exceeds the Internal Revenue Code limit are also participants in the Excess Cash Balance Plan, described on page 64, which provides a benefit equal to the difference between the amount a participant receives from the Retirement Plan and the amount the participant would have received were it not for the Internal Revenue Code limits.

B. 401(k) Plan

The Company maintains a 401(k) Plan for its eligible U.S. associates, and all of the named executive officers participate in it. The 401(k) Plan permits participants to contribute the lesser of 40 percent of eligible compensation or the limit prescribed by the Internal Revenue Code to the 401(k) Plan on a before-tax basis. The Company will match 25 percent of the first 4 percent of pay that is contributed to the 401(k) Plan, and the summary compensation table on page 37 includes, in All Other Compensation, the amount of the Company match for each of the named executive officers. The Company match is made in shares of Company stock, valued on the last trading day of the plan year. Participants in the 401(k) Plan may diversify their matching contributions at any time into any of the other investment options available under the plan.

C. Supplemental Executive Retirement Plan

The Company maintains a Supplemental Executive Retirement Plan (SERP), described on page 65, for certain senior officers of the Company and other key employees, including the named executive officers. The SERP is an unfunded plan that sets an annual target incentive award for each participant consisting of a percentage of base salary and annual bonus based on the Company's performance against target. Contributions range from 4 percent to 12 percent of salary and annual bonus, depending on the Company's performance against an established target, with an 8 percent contribution being made for target performance. The Compensation Committee establishes the SERP target each year, and it is normally the same as the performance target under the Annual Bonus Plan. Participant accounts accrue simple interest at the rate of 6 percent annually. The SERP also provides for the continuation of medical and dental insurance benefits to vested participants following their retirement.

Based upon the Company's performance in 2012, a credit of 11.6 percent of 2012 base salary and annual bonus was made to the SERP for each of the named executive officers. As of the end of 2012, the account balances of the named executive officers ranged from approximately \$613,000 for Mr. McHugh to \$1.3 million for Mr. Hicks. Under the terms of the Supplemental Plan, executives are vested in their account balances based upon a combination of age and service. As of the end of 2012, all of the named executive officers were vested in the SERP other than Mr. Hicks, who had not yet met the plan's age plus service vesting requirements.

The Retirement Plan takes into account only base salary and annual bonus in determining pension benefits. Credits to the SERP are based only on base salary and annual bonus. Therefore, long-term incentives, stock options, and stock awards have no effect on the calculation of benefits or payments under these plans.

Perquisites

We provide the named executive officers with certain perquisites, which the Compensation Committee believes to be reasonable and consistent with its overall objective of attracting and retaining talented retail industry executives. The Company provides the named executive officers with an automobile allowance, financial planning, medical expense reimbursement, annual physical, supplemental long-term disability insurance, and life insurance. In addition, the Company reimburses Mr. Hicks for the reasonable expenses of using a car service for transportation in the New York metropolitan area. We do not provide a gross-up to executives for the income tax liability they incur due to their receipt of these perquisites.

How does each element of compensation fit into our overall compensation objectives? How does each element affect our decisions regarding other elements?

As stated at the beginning of this discussion and analysis, the objectives of our compensation program are to attract, motivate, and retain talented retail industry executives in order to maintain and enhance the Company's performance and its return to shareholders.

Base salaries aid in attracting and retaining talented retail company executives by providing fixed pay commensurate with their position, experience and responsibilities.

The performance-based annual and long-term incentive plans are designed to reward executives for enhancing the Company's performance through the achievement of performance targets.

Equity awards are designed to reward executives for increasing our return to our shareholders through increases in our stock price. Equity awards may, in addition, serve to help retain key executives.

Base salaries of named executive officers rarely change materially from year-to-year unless there has been a promotion, other change in responsibility, or other special factors apply. Bonus target pay-outs, both annual and long-term, are established by level of position. Mr. Hicks' annual bonus target is specified in his employment agreement. In determining total compensation, stock options are valued using the Black-Scholes model. Awards of RSUs and restricted stock awards are valued based upon the share price at the time of grant. The goal of the

Compensation Committee is to balance annual, mid-term, and long-term compensation opportunities, as well as balance the mix of cash and equity in the executive compensation program.

Compensation Plans and Risk

We believe that our compensation program encourages our named executive officers to take energetic action to improve the Company's performance without encouraging them to take undue risk. The annual bonus and long-term incentive elements of the program are paid based upon performance as compared to the Company's annual and two-year business plans, which are prepared each year by the Company's management and reviewed and approved by the Finance and Strategic Planning Committee and the Board of Directors. While in some years these business plans have proven to be aggressive—as shown in hindsight when the plans are not achieved and bonuses are not paid—our history suggests that, on balance, they are reasonably achievable under normal business conditions. This encourages our executives to manage the business well without pressuring them to take undue risks in order to obtain a bonus payment.

Our equity-based compensation for the named executive officers is designed with a similar goal in mind. We believe that our equity grants are reasonable in relation to overall compensation. Stock options normally vest ratably over a three-year period and have a 10-year term, reducing the risk that an executive will take short-term action to inflate the price of the Company's stock for a brief period.

Long-term incentive payouts are calculated at the conclusion of the two-year performance period, but not actually paid to the participant until an additional year has passed. In addition to serving as a retention vehicle, this also requires that the executive continue to have the value of the stock portion of his or her award at risk, dependent on fluctuations in stock price, for an additional year. It also allows a year to pass in which any issues concerning the Company's operating or financial performance may come to light before payments are made.

In addition, there are certain other factors related to our compensation programs for the named executive officers that we believe help reduce the likelihood that our compensation programs will encourage our executives to take undue risk:

***Bonus Targets
Based on
Business Plan.***

As the bonus targets are based on the business plan, any significant deviation from the plan undertaken by management during the course of the year must be reviewed and approved by the Board of Directors.

***ROIC as
Bonus
Measurement.***

As a retail company, we believe that one of the more significant risks we run is that management will attempt to achieve profit targets without taking into account the capital used, particularly working capital invested in inventory. We have therefore

designed our long-term incentive plan for senior management, including the named executive officers, to take into account ROIC as well as net income in determining whether a bonus will be paid.

No Bonus Payments to Executives with Poor Performance Ratings.

We have designed our plans so that executives who receive a Not Meeting Expectations or

Unsatisfactory rating under the Company's annual performance appraisal process are not eligible to receive an annual bonus payment. This helps prevent an individual executive from taking any action inconsistent with the business plan or otherwise

exposing the Company to undue risk.

Incentive Payments Proportional to Base

Salary. We believe that our cash incentive payments are not outsized in relation to base salary. At target, the Chief Executive Officer has the opportunity to earn 125 percent of his base salary in annual bonus and 175 percent of his base salary in long-term bonus. Comparable percentages for the Chief Operating Officer are 75 percent and 100 percent, and for the other named executive officers, 50 percent and 75 percent.

Bonus Caps.

Annual cash bonus and the cash portion of the long-term incentive awards to

executives are capped and do not include excessive leverage.

Balance Among Components.

There is a balance between annual, mid-term, and long-term compensation plans for executives, as well as a balance between the use of cash and equity.

Please see page 23 of the proxy statement for a discussion of compensation and risk in our compensation plans more generally, and the procedures we followed to evaluate this.

Compensation Committee Procedure

At the beginning of each year, the Compensation Committee holds a meeting with management, the Company's compensation consultant, and the Committee's independent compensation consultant to review the overall executive compensation environment, including recent developments in executive compensation, and the Company's executive compensation program, including a historical view of the pay-for-performance correlation in the program and any changes to the program being recommended by management or either of the consultants.

The Committee then holds a second meeting, in March, after the financial results for the prior year have been finalized and audited, to review and approve bonus and incentive compensation payments for the prior year and to review and approve compensation arrangements—base salaries, stock awards, and incentive plan targets—for the upcoming year. The Committee meets privately with its independent consultant for the purpose of establishing the compensation of the Chief Executive Officer, including establishing target awards under the Annual Bonus Plan and the long-term incentive compensation program, and making stock awards to him. Except in the case of promotions or other unusual circumstances, the Compensation Committee considers stock awards only at its March meeting, which is normally held within a few weeks following the issuance of the Company's full-year earnings release for the prior year.

The Committee may hold other meetings during the year to review specific issues related to executive compensation or new developments in executive compensation. It also has responsibility, along with the Nominating and Corporate Governance Committee, for annually reviewing compensation paid to non-employee directors. In 2012, the Compensation Committee held a total of six meetings.

The Compensation Committee has retained as its advisor a nationally recognized executive compensation consultant—Compensation Advisory Partners—that is independent and performs no other work for the Company. Compensation Advisory Partners is retained directly by the Compensation Committee, reports to it directly, meets

with the Committee privately, without management present, and regularly communicates privately with the Chair of the Committee. The Compensation Committee has assessed the independence of Compensation Advisory Partners and concluded that no conflict of interest exists that would prevent it from serving as an independent consultant to the Committee. Each year, the Committee's compensation consultant reviews a report on risk in relation to the Company's compensation policies and practices, provides a pay-for-performance analysis of our executive compensation program, and reviews the Chief Executive Officer's compensation. Management utilizes the services of ClearBridge Compensation Group, a nationally

recognized compensation consultant to provide advice on the executive compensation program and plan design.

Management is involved in various aspects of developing the executive compensation program. Our Senior Vice President Human Resources, Vice President Human Resources, and staff in the Human Resources Department, work with our Chief Executive Officer to develop compensation recommendations for all corporate officers other than the Chief Executive Officer. The Chief Executive Officer or the Senior Vice President Human Resources reviews these proposals with the Chair of the Compensation Committee, and may make changes to the recommendations based upon his input, before the recommendations are forwarded to the Compensation Committee for review. Our Senior Vice President and General Counsel and Vice President and Associate General Counsel also attend meetings of the Compensation Committee and participate in some of these discussions and preparations.

The Compensation Committee has delegated authority to its Chair to approve stock option awards of up to 25,000 shares to any single employee other than a corporate officer. The Chair generally uses this authority to approve stock option grants made during the course of the year in connection with promotions or new hires. In 2012, the Chair used this authority to approve grants of options to four executives, who were not named executive officers, to purchase a total of 3,800 shares. Those options are priced at fair market value on the date the Chair signs the approval. The Compensation Committee has not delegated authority to management to make stock option, restricted stock, or RSU awards.

Executive Employment Agreements

As more fully described on Pages 46 to 49, we have employment agreements with each of our named executive officers. Other than the agreement with Mr. Hicks, which was separately negotiated when he joined the Company in 2009, the agreements with the named executive officers are in the same form.

Our employment agreements with the named executive officers provide for severance payments to the executive if we terminate the executive's employment without cause or if we give the executive good reason to terminate employment. These payments to the named executive officers, calculated as if termination of employment occurred at the end of our last fiscal year, are set out in the tables on Pages 50 to 63.

The named executive officers receive an enhanced severance payment if the executive's employment is terminated without cause or if the executive terminates employment for good reason within two years following a change-in-control. For an executive to receive the enhanced severance payment, two events must occur: first, employment must be terminated for one of the specified reasons, and second, this termination must occur within two years following a change-in-control. We believe that these provisions, which we have had in place for a number of years, provide appropriate protection to our executives, comparable to that available at other publicly traded companies, and, with regard to the enhanced severance following a change-in-control, protect us from losing key executives during a period when a change-in-control may be threatened or pending. None of the named executive officers is entitled to a gross-up payment upon a change-in-control.

All of the named executive officers have agreed in their employment contracts not to compete with the Company for two years following the termination of employment and not to hire Company employees during that same period. This restriction does not apply following a change-in-control.

Accounting and Tax Considerations

While we review both the accounting and tax effects of various components of compensation, these effects are not a significant factor in the Compensation Committee's allocation of compensation among the different components. In general, it is our position that compensation paid to executive officers should be fully deductible for U.S. tax purposes, and we have structured our bonus, long-term incentive, and stock option programs so that payments made under them are deductible. In certain instances, however, we believe that it is in the Company's best interests, and that

of its shareholders, to have the flexibility to pay compensation that is not deductible under the limitations of Section 162(m) of the

Internal Revenue Code in order to provide a compensation package consistent with our program and objectives. The portion of base salary paid to Mr. Hicks that exceeds \$1,000,000, the value of time-based restricted stock awards made to him, and potentially a portion of the value of time-based restricted stock awards made to one or more of the other named executive officers, are not expected to be deductible.

Compensation Committee Report

The Compensation and Management Resources Committee of the Board of Directors has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on that review and discussion, has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement.

- (2) This column reflects the sign-on bonus Mr. Hicks received in connection with the commencement

of his employment in August 2009, a portion of which was paid on his employment commencement date in 2009, with the balance paid to him over a two-year period on the first and second anniversaries of his employment date.

- (3) The amounts in these columns reflect the stock and option awards granted in the designated years. The amounts represent the aggregate grant date fair value of the awards granted in each respective year calculated in accordance with stock-based compensation accounting rules (ASC Topic 718). A discussion of the assumptions used in computing the award values may be found in Note 21 to our financial statements in our Form 10-K for 2012. As provided under the SEC's rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions and include for restricted stock awards expected

dividend payments
at the same rate as
paid on our shares of
Common Stock.

perquisites and
other
compensation,

amounts
attributable to
the executives
for 2012 are
shown in the
tables below.
We valued
these
perquisites at
the
incremental
cost to the
Company of
providing the
personal
benefits to the
executives,
which
represents the
actual cost
attributable to
providing
these personal
benefits.
Please note:

The amounts
shown for
financial
planning and
medical
expense
reimbursement
reflect amounts
reimbursed in

2012, which may also include reimbursement of amounts submitted in 2012 for expenses incurred in 2011.

The amounts shown in the table under the 401(k) Match column represent the dollar value of the Company's matching contribution under the Foot Locker 401(k) Plan made to the named executive's account in shares of Common Stock. The shares of stock for the 2012 matching contribution were valued at \$32.12 per share.

The amounts shown for spousal travel expense reimbursement reflect amounts reimbursed solely for spousal travel to attend the 2012 Summer Olympics and related vendor-sponsored events.

The amounts shown under the column Accrual for Post-Retirement Medical reflect the amounts accrued in 2012 for the actuarial present value of the future cost of providing this benefit to these individuals. As Mr. Hicks is the only named executive who is not fully eligible for this benefit, his benefit accrual reflects the fact that he is earning additional service credit towards benefit eligibility, resulting in a higher accrual amount than the other named executives who are already fully eligible for the benefit.

Notes to Grants of Plan-Based Awards Table**(1) Annual
Incentive
Awards**

Amounts shown reflect the payment levels at threshold, target, and maximum performance for the 2012 fiscal year under the Annual Bonus Plan and reflect the potential amounts that would be paid at the end of the period if the applicable performance goals were achieved. The estimated bonus

payouts are based on a percentage of the executive's base salary.

For Mr. Hicks, the threshold, target, and maximum amounts represent 31.25 percent, 125 percent, and 218.75 percent, respectively, of his annual base salary.

For Mr. Johnson, the threshold, target, and maximum amounts represent 18.75 percent, 75 percent, and 131.25 percent, respectively, of his annual base salary.

For the other named executives, the threshold, target, and maximum amounts represent 12.5 percent, 50 percent, and 87.5 percent, respectively, of each executive's annual base salary. The annual bonus payments actually made

to the named executives for 2012 are shown in Note 5 to the Summary Compensation Table on Page 37.

(2) **Long-Term Incentive Awards**

Provided the performance goals for the 2012-2013 long-term performance measurement period are achieved, the payout structure of the executives awards is as follows: (a) 50 percent of the award would be payable in cash under the Long-Term Bonus Plan, (b) 50 percent of the award would be payable in restricted stock units under the 2007 Stock Incentive Plan, and (c) both the cash portion and the stock portion of the payout would be subject to a time-based, one-year

holding period following the end of the performance measurement period before payout to the executives.

The amounts shown in the table reflect the estimated payment levels in cash and number of restricted stock units at threshold, target, and maximum performance for the 2012-2013 performance measurement period.

Columns (c), (d), and (e) show the estimated cash payments and columns (f), (g), and (h) show the number of restricted stock units that would be paid out at threshold, target and maximum performance if the applicable performance goals are achieved.

The threshold, target and maximum

number of restricted stock units for each executive was calculated on the date of grant on the basis of that day's closing stock price of a share of the Company's Common Stock. The closing price on the grant date of March 21, 2012 was \$30.92.

Similarly, the grant date fair values of the restricted stock unit awards are based on the closing stock price on the grant date. The actual number of restricted stock units paid out will be based on the Company's performance compared to targets. The value of the restricted stock units received by an executive will depend upon the Company's stock price on the payment date in 2015. No dividends are paid or accrued for the restricted stock

units.

For Mr. Hicks, the aggregate payout in cash and stock at threshold, target and maximum performance would be 43.75 percent, 175 percent and 350 percent, respectively, of his base salary in the first year of the performance period. For Mr. Johnson, the aggregate payout in cash and stock at threshold, target and maximum performance would be 25 percent, 100 percent and 200 percent, respectively, of his base salary in the first year of the performance period. For the other named executives, the aggregate payout at threshold, target and maximum performance would be 18.75 percent,

75 percent and 150 percent, respectively, of their base salaries in the first year of the performance period. No amounts would be paid to the executives under the long-term incentive awards unless the performance goals for the performance measurement period are achieved.

(3) **Stock Option Grants**

The amounts in column (j) reflect the number of stock options granted in 2012 under the 2007 Stock Incentive Plan. The exercise price reflected in column (k) is equal to the closing price of a share of the Company's Common Stock on the grant date. In general, no portion of any stock option may be

exercised until the first anniversary of its date of grant. Vested options may be exercised for ten years following the date of grant, unless the option is cancelled or exercised sooner than this. If the executive retires, becomes disabled, or dies while employed by the Company or one of its subsidiaries, all unexercised options that are then exercisable, plus those options that would have become exercisable on the next anniversary of the grant date, will remain (or become) exercisable as of that date. Moreover, upon the occurrence of a Change in Control, all outstanding options will become immediately exercisable as

of that date. In general, options may remain exercisable for up to three years following a participant's retirement or termination due to disability, and for up to one year for any other termination of employment for reasons other than cause.

The vesting schedule for options granted to the executives in 2012 is shown below.

Name	Date of Grant	Number of Shares	Vesting Schedule	
K. Hicks	03/21/12	300,000	03/21/13:	100,000 shares

(4) Grant Date Fair Value

The amounts shown in column (1) reflect the aggregate grant date fair value of the restricted stock unit and stock option awards granted in 2012, calculated in accordance with stock-based compensation accounting rules (FASB ASC Topic 718). A discussion of the assumptions used in computing the award values may be found in Note 21 to our financial statements in our Form 10-K for 2012. As provided under the SEC's rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. For option awards, the value is calculated by multiplying the Black-Scholes value by the number of options granted. For the performance-based restricted stock units awarded under the 2007 Stock Incentive Plan in connection with the 2012-2013 long-term performance measurement period, the fair value is calculated based upon the probable outcome of meeting the performance conditions at the maximum performance level and multiplying the number of units that would be received at that level by the closing price of a share of our Common Stock on the grant date. This is consistent with the estimate of the aggregate compensation cost to be recognized over the service period determined at the grant date under FASB ASC Topic 718. All of these values are shown in the table below.

Name	Black-Scholes Value for Stock Options Granted On March 21, 2012	Performance-Based Restricted Stock Unit Awards Granted on March 21, 2012
------	---	--

K. Hicks	\$	10.136	\$	30.92

Salary. The annual base salaries and cash bonuses earned by our named executives for 2012 are set forth in the Summary Compensation Table. Including the cash long-term incentive earned for the 2011-2012 performance period that is payable in 2014, these amounts represented the following percentages of the named executives' total compensation for 2012: Mr. Hicks (48.3%), Ms. Peters (54%), Mr. Johnson (58.7%), Mr. McHugh (57.3%), and Mr. Bahler (57.9%). Information on the named executives' employment agreements appears beginning on Page 46.

The following table, **Outstanding Equity Awards at Fiscal Year-End** shows the number of outstanding stock options, both vested and unvested, and the number of unvested shares of restricted stock or restricted stock units held by the named executives at the end of the 2012 fiscal year.

(3) Value
calculated
by
multiplying

the number of unvested shares or units by the closing price of \$34.56 on February 1, 2013, which was the last business day of the 2012 fiscal year. The values shown in column (h) and (j) for the restricted stock units are based on:

the number of restricted stock units at maximum performance earned for the 2010-2011 performance period, which vested in March 2013;

the number of restricted stock units at maximum performance earned for the 2011-2012 performance period, which will vest in March 2014;

and

the number of restricted stock units that may be earned at threshold performance for the 2012-2013 long-term performance period. If target or maximum performance is achieved for this performance period, the respective number of units earned and their value, based on the \$34.56 closing price, would be:

The executives' employment agreements and certain of the plans and programs that executives participate in require the Company to pay compensation to the executives if their employment terminates in certain circumstances. The estimated amount of compensation, benefits, and vesting of restricted stock (RS), restricted stock units (RSUs), and stock options (Options) that may be payable to the named executives following termination of their employment, including amounts already vested, is stated in the tables below. The information in the tables assumes a termination date of February 2, 2013.

- *Annual bonus for 2012.*
Payment of this bonus would be made at the same time as payments are made to other participants in the plan and within two and one-half months following the end of the 2012 fiscal year.
- *Cash portion of the long-term incentive earned for the 2011-2012 performance measurement period.* The long-term incentive

earned for this performance period is payable one-half in cash and one-half in restricted stock units (RSUs) and is based on the achievement of the performance goals at the maximum payout level. The cash portion of the earned long-term incentive for this period would be paid out in March 2014 at the same time as the payouts are made to the other participants.

- *Outplacement.*
The approximate cost of one year of outplacement services (\$25,000).

- (2) Represents the value of the 102,177 RSUs earned at the maximum performance level for the 2011-2012 long-term incentive

performance period, valued at the closing price (\$34.56) of the Company's Common Stock on February 1, 2013. This stock portion of the earned long-term incentive for this period would be paid out in March 2014 at the same time as the payouts are made to the other participants. The actual value of the stock portion of the long-term incentive payable to the executive in March 2014 would depend upon the Company's stock price at that time.

- (3) Benefit payable as of February 2, 2013 in a lump sum under the Foot Locker Excess Cash Balance Plan six months following the executive's termination date. No

information is provided with respect to the benefit under the Foot Locker Retirement Plan because that plan is available generally to all salaried employees and does not discriminate in terms of scope, terms, or operation in favor of the executive officers.

- (4) This covers termination by the Company without Cause or by the executive for Good Reason during the two-year period following a Change in Control.
- (5) The severance amount equals two times the sum of executive's annual base salary plus annual bonus at target. Payment would be made in a lump sum six months following termination.

The severance amount also includes the approximate cost of one year of outplacement services (\$25,000).

- (6) If the payments or benefits received by the executive following a Change in Control are subject to the excise tax under Section 4999 of the Internal Revenue Code, then the Company would automatically reduce the executive's payments and benefits to an amount equal to \$1 less than the amount that would subject him to the excise tax, as long as the reduced amount would result in a greater benefit to him compared to the unreduced amount on a net after-tax basis.

(7)

The amount for restricted stock is the value of 50,000 shares of restricted stock that would vest.

The amount for the RSUs is the value of the RSUs that the executive would have been entitled to receive under the long-term incentive program based on the (i) maximum level of achievement of the performance goals for the 2010-2011 performance measurement period (127,484 RSUs), (ii) target level of achievement of the performance goals for the 2011-2012 performance measurement period (51,089 RSUs), and (iii) pro rated target level achievement of the performance goals for the 2012-2013 performance measurement

period (15,565 RSUs). The RSUs would become immediately vested and payable. The restricted stock and RSUs were valued at \$34.56.

- (8) The options amount represents the intrinsic value of the stock options on February 2, 2013.
- (9) Upon a Change in Control, the Compensation and Management Resources Committee may, but is not required to, approve a pro rata payment to a participant under the Long-Term Incentive Compensation Plan. The amount shown in the table assumes approval of a payout under the plan and represents the cash portion of the long-term incentive for (i) the 2010-2011

performance
measurement
period at the
target payout
level
(\$962,500),
(ii) the
2011-2012
performance

and (iii) the
2012-2013

termination
date
(\$481,250).
The amounts
would be

executive on

thereafter.

(10) The
Compensation

executive s
restricted
stock. The
number shown
in the table

the same time
as the payouts
are made to
the other
participants in
the plan for
these
performance

periods in

The RSUs
were valued at

actual value of
the RSUs to
the executive
would depend
upon the
Company's

Notes to Table on Lauren B. Peters

- (1) The severance amount equals 52 weeks salary and would be payable six months following termination.
- (2) This amount is the total benefit payable under the Supplemental Executive Retirement Plan (SERP). The payments would be made quarterly over a three-year period. The first two quarterly payments would be made on the first day of the calendar quarter that occurs six months

following the executive's termination date, with the remaining payments made quarterly during the remainder of the three-year period.

- (3) Benefit payable as of February 2, 2013 in a lump sum under the Foot Locker Excess Cash Balance Plan six months following the executive's termination date. No information is provided with respect to the benefit under the Foot Locker Retirement Plan because that plan is available generally to all salaried employees and does not discriminate in terms of scope, terms, or operation in favor of the executive officers.

- (4) Executive would be entitled under the SERP to the continuation of medical and dental insurance benefits following termination. The benefits would be substantially the same as those benefits to which senior executives are entitled under Foot Locker's medical and dental plans for active employees. Executive would be required to pay the insurance premium applicable to actively employed senior executives, including any subsequent increases in the premiums. The amount shown in the table represents the actuarial present value of all future expected post-termination medical and dental benefits.
- (5) The options amount represents the intrinsic value of the stock options on February 2,

2013.

- (6) This covers termination by the Company without Cause or by the executive for Good Reason within 24 months following a Change in Control.
- (7) The severance amount equals three times the executive's annual salary. If the payments or benefits received by the executive following a Change in Control are subject to the excise tax under Section 4999 of the Internal Revenue Code, then the Company would automatically reduce the executive's payments and benefits to an amount equal to \$1 less than the amount that would subject her to the excise tax, as long as the reduced amount would result in a greater benefit to her compared to the unreduced amount on a net after-tax basis.

- (8) The amount for restricted stock is the value of 20,000 shares of restricted stock that would vest. The amount for the RSUs is the value of the RSUs that the executive would have been entitled to receive under the long-term incentive program based on the (i) maximum level of achievement of the performance goals for the 2010-2011 performance measurement period (19,882 RSUs), (ii) target level of achievement of the performance goals for the 2011-2012 performance period (8,830 RSUs), and (iii) pro rated target level achievement of the performance goals for the 2012-2013 performance measurement period (3,033 RSUs). The RSUs would become immediately vested and

payable. The restricted stock and RSUs were valued at \$34.56.

- (9) Upon a Change in Control, the Compensation and Management Resources Committee may, but is not required to, approve a pro rata payment to a participant under the Long-Term Incentive Compensation Plan. The amount shown in the table assumes approval of a payout under the plan and represents the cash portion of the long-term incentive for (i) the 2010-2011 performance measurement period at the target payout level (\$153,966), (ii) the 2011-2012 performance measurement period at the target payout level (\$171,976), and (iii) the 2012-2013 performance measurement period at the target payout level pro rated to the termination date (\$93,750).

The amounts
would be

The benefits would be substantially the same as those benefits to which senior executives are entitled under Foot Locker's medical and dental plans for active employees. Executive would be required to pay the insurance premium applicable to actively employed senior executives, including any subsequent increases in the premiums. The amount shown in the table represents the actuarial present value of all future expected post-termination medical and dental benefits.
- (5) The options amount represents the intrinsic value of the stock options on February 2,

2013.

- (6) This covers termination by the Company without Cause or by the executive for Good Reason within 24 months following a Change in Control.
- (7) The severance amount equals three times the executive's annual salary. If the payments or benefits received by the executive following a Change in Control are subject to the excise tax under Section 4999 of the Internal Revenue Code, then the Company would automatically reduce the executive's payments and benefits to an amount equal to \$1 less than the amount that would subject him to the excise tax, as long as the reduced amount would result in a greater benefit to him compared to the unreduced amount on a net after-tax basis.

- (8) The RS amount is the value of 20,000 shares of restricted stock that would immediately vest. The RSUs amount is the value of the RSUs that the executive would have been entitled to receive under the long-term incentive program based on the (i) maximum level of achievement of the performance goals for the 2010-2011 performance measurement period (29,802 RSUs), (ii) target level of achievement of the performance goals for the 2011-2012 performance period (12,341 RSUs), and (iii) pro rated target level achievement of the performance goals for the 2012-2013 performance measurement period (3,851 RSUs). The RSUs would become immediately vested and

payable. The restricted stock and RSUs were valued at \$34.56.

- (9) Upon a Change in Control, the Compensation and Management Resources Committee may, but is not required to, approve a pro rata payment to a participant under the Long-Term Incentive Compensation Plan. The amount shown in the table assumes approval of a payout under the plan and represents the cash portion of the long-term incentive for (i) the 2010-2011 performance measurement period at the target payout level (\$225,000), (ii) the 2011-2012 performance measurement period at the target payout level (\$232,500), and (iii) the 2012-2013 performance measurement period at the target payout level pro rated to the termination date (\$119,063).

The RSUs would be paid out at the same time as the payouts are made to the other participants in the plan for these performance periods in 2013, 2014 and 2015, as applicable.

The RSUs were valued at \$34.56.

The actual value of the RSUs to the executive would depend upon the Company's stock price on the payout dates in 2013, 2014 and 2015.

Notes to Table on Gary M. Bahler

(1) The severance amount equals three times the executive's weekly salary multiplied by his 32 years of service and would be payable six months following termination.

(2) This amount is the total benefit payable under the Supplemental Executive Retirement Plan (SERP). The payments would be made quarterly over a three-year period. The first two quarterly payments would be made on the first day of the calendar

quarter that occurs six months following the executive's termination date, with the remaining payments made quarterly during the remainder of the three-year period.

- (3) Benefit payable as of February 2, 2013 in a lump sum under the Foot Locker Excess Cash Balance Plan six months following the executive's termination date. No information is provided with respect to the benefit under the Foot Locker Retirement Plan because that plan is available generally to all salaried employees and does not discriminate in terms of scope, terms, or operation in favor of the executive officers.

- (4) Executive would be entitled under the SERP to the continuation of medical and dental insurance benefits following termination. The benefits would be substantially the same as those benefits to

which senior executives are entitled under Foot Locker's medical and dental plans for active employees. Executive would be required to pay the insurance premium applicable to actively employed senior executives, including any subsequent increases in the premiums. The amount shown in the table represents the actuarial present value of all future expected post-termination medical and dental benefits.

- (5) The options amount represents the intrinsic value of the stock options on February 2, 2013.
- (6) This covers termination by the Company without Cause or by the executive for Good Reason within 24 months following a Change in Control.

- (7) The severance amount equals three times the executive's annual salary. - (8) The RSUs amount is the value of the RSUs that the executive would have been entitled to receive under the long-term incentive program based on the (i) maximum level

of achievement of the performance goals for the 2010-2011 performance measurement period (26,467 RSUs), (ii) target level of achievement of the performance goals for the 2011-2012 performance measurement period (10,749 RSUs), and (iii) pro rated target level achievement of the performance goals for the 2012-2013 performance measurement period (3,275 RSUs). The RSUs would become immediately vested and payable. The RSUs were valued at \$34.56.

- (9) Upon a Change in Control, the Compensation and Management Resources Committee may, but is not required to, approve a pro rata payment to a participant under the Long-Term Incentive Compensation Plan. The amount shown in

the table assumes approval of a payout under the plan and represents the cash portion of the long-term incentive for (i) the 2010-2011 performance measurement period at the target payout level (\$199,819), (ii) the 2011-2012 performance period at the target payout level (\$202,500), and (iii) the 2012-2013 performance measurement period at the target payout level pro rated to the termination date (\$101,250). The amounts would be payable to the executive on the date of the Change in Control, or as soon as practicable thereafter.

- (10) The RSUs amount is the value of the RSUs that the executive would have been entitled to receive under the long-term incentive

program based on (i) the maximum level of achievement of the performance goals for the 2010-2011 performance measurement period (26,467 RSUs), (ii) the maximum level of achievement of the performance goals for the 2011-2012 performance measurement period (21,497 RSUs), and (iii) a target level achievement of the performance goals for the 2012-2013 performance period, pro rated to the termination date (3,275 RSUs). The RSUs would be paid out at the same time as the payouts are made to the other participants in the plan for these performance periods in 2013, 2014 and 2015, as applicable. The RSUs were valued at \$34.56. The actual value of the RSUs to the executive would depend upon the

Company's stock price on the payout dates in 2013, 2014 and 2015.

- (11) The Compensation and Management Resources Committee may, but is not obligated to, approve a pro rata payment under the Long-Term Incentive Compensation Plan following the end of the applicable performance period, provided the performance goals for the period are met. The amount shown assumes the approval of a payout to the executive and represents the cash portion of the long-term incentive for (i) the 2010-2011 performance measurement period based on the maximum level of achievement of the performance goals (\$399,638), (ii) the 2011-2012 performance measurement period based on the maximum

level of achievement of the performance goals (\$405,000), and (iii) the 2012-2013 performance measurement period, pro rated to the termination date, based on a target level of achievement of the performance goals (\$101,250). The amounts would be payable to the executive at the same time as the payouts are made for these performance periods to the other participants in 2013, 2014 and 2015, as applicable.

- (12) SERP benefit payable in a lump sum following the determination of disability or the date of death.
- (13) The benefit amount assumes the executive does not qualify for disability benefits under Medicare.
- (14) Senior executive life insurance benefit is

payable
following death
in a lump sum to
the executive's
beneficiary.

RETIREMENT PLANS**Foot Locker Retirement Plan**

The Foot Locker Retirement Plan (the "Retirement Plan") is a defined benefit plan with a cash balance formula, which covers eligible employees of the Company and substantially all of our United States subsidiaries. All qualified employees who are at least 21 years old with one year of service are covered by the Retirement Plan. Plan participants become fully vested in their benefits under this plan generally upon completion of three years of service or upon reaching normal retirement age (age 65) while actively employed.

Under the cash balance formula, each participant has an account, for record keeping purposes only, to which credits are allocated annually based upon a percentage of the participant's W-2 Compensation, as defined in the Retirement Plan. This percentage is determined by the participant's years of service with the Company as of the beginning of each calendar year. The following table shows the percentage used to determine credits at the years of service indicated.

Years of Service	Percent of All W-2 Compensation	+	Percent of W-2 Compensation Over \$22,000
Less than 6	1.10		0.55
6 - 10	1.50		0.75
11 - 15	2.00		1.00
16 - 20	2.70		1.35
21 - 25	3.70		1.85
26 - 30	4.90		2.45
31 - 35	6.60		3.30
More than 35	8.90		4.45

In addition, all balances in the participants' accounts earn interest at the fixed rate of 6 percent, which is credited annually. At retirement or other termination of employment, an amount equal to the vested balance then credited to the account under the Retirement Plan is payable to the participant in the form of a qualified joint and survivor annuity (if the participant is married) or a life annuity (if the participant is not married). The participant may elect to waive the annuity form of benefit and receive benefits under the plan upon retirement in an optional annuity form or an immediate or deferred lump sum, or, upon other termination of employment, in a lump sum. Additional optional forms of payment are available to participants who were participating in the Retirement Plan as of December 31, 1995.

Foot Locker Excess Cash Balance Plan

The Internal Revenue Code limits annual retirement benefits that may be paid to, and the compensation that may be taken into account in calculating benefits for, any person under a qualified retirement plan such as the Foot Locker Retirement Plan. Accordingly, for any person covered by the Retirement Plan whose annual retirement benefit, calculated in accordance with the terms of the Retirement Plan, exceeds the limitations of the Internal Revenue Code, the Company has adopted the Foot Locker Excess Cash Balance Plan (the "Excess Plan"). The Excess Plan is an unfunded, nonqualified benefit plan, under which the individual is paid the difference between the Internal Revenue Code limitations and the retirement benefit to which he or she would otherwise be entitled under the Retirement Plan.

Early Retirement Eligibility

The Foot Locker Retirement Plan provides for a reduced benefit payment to a participant who retires after reaching

early retirement age but prior to normal retirement age. Early retirement age is defined under the Retirement Plan and Excess Plan as age 55 with at least 5 years of vesting service. Mr. Johnson and Mr. Bahler are the only named executive officers currently eligible for early retirement under these plans.

Foot Locker Supplemental Executive Retirement Plan

In addition, the Foot Locker Supplemental Executive Retirement Plan (the "SERP"), which is an unfunded, nonqualified benefit plan, provides for payment by the Company of supplemental retirement, death and disability benefits to certain executive officers and certain other key employees of the Company and its subsidiaries who participate in this plan. The Compensation and Management Resources Committee sets an annual targeted incentive award under the SERP for each participant consisting of a percentage of salary and bonus based on the Company's performance against target. Achievement of the target causes an 8 percent credit to a participant's account for that year. The applicable percentage for the year increases or decreases proportionately to the percentage of the Company's performance in relation to the target, but may not be less than 4 percent or more than 12 percent in any year. Participants' accounts accrue simple interest at the rate of 6 percent annually.

The named executive officers and four other executive officers of the Company currently participate in the SERP. Participants in the SERP prior to May 26, 2011 are eligible to receive a benefit only if their age plus years of service at retirement equals at least 65. For persons who become participants in the SERP on or after this date, they would be eligible to receive a benefit only if they are at least age 55 at retirement with 10 years of service. Each of the named executive officers participated in the SERP on May 26, 2011 and, other than Mr. Hicks, has age plus years of service totaling at least 65.

If a participant's employment terminates due to death or disability, he (or his estate) would be entitled to payment of his SERP balance. A participant's SERP benefit is paid in 12 quarterly installments following retirement, with the first two quarters payable no earlier than six months following retirement. Upon death or disability, a participant's SERP benefit is paid in a lump sum. The SERP provides for the continuation of medical and dental insurance benefits if an executive meets the applicable age and service requirements when his employment terminates. The benefits would be substantially the same as those benefits to which senior executives are entitled under Foot Locker's medical and dental plans for active employees. The terminated executive would be required to pay the insurance premium applicable to actively employed senior executives, including any increases in the premiums, and the Company would pay the difference between the actual premium rate and the active employee rate.

Payment of Retirement Benefits

The table below provides the present value of the accumulated benefit payable to each of the named executives and the years of service credited to each of them under the Foot Locker Retirement Plan, the Excess Plan, and the SERP determined using interest rate and mortality rate assumptions consistent with those used in our 2012 financial statements.

Notes to Pension Benefits Table

(1)

In general, the present value of accumulated benefits was determined using the same measurement date (February 2, 2013) and assumptions used for financial reporting purposes. Expected retirement age for the Retirement Plan and the Excess Plan is equal to normal retirement age as defined by the plans. For the SERP, the age at which participants become eligible for retirement under the plan is used as the expected retirement age. The following are the key assumptions that were used in calculating the values in the table:

ASC 715 discount rate of 3.8 percent for the Retirement Plan; ASC 715 discount rate of 3.0 percent for the Excess Plan and the SERP.

Retirement age is assumed to be 65 for the Retirement Plan and the Excess Plan; for the SERP the retirement age is assumed to be when age plus years of service equals 65 for participants in the plan on May 26, 2011 and, for participants in the SERP after this date, when the participant reaches age 55 with 10 years of service.

Form of payment for the Retirement Plan and the Excess Plan

is a lump sum; the form of payment for the SERP is 12 quarterly installments.

The years of service for the SERP reflect the number of years that the executive has been approved by the Compensation Committee as a participant in that plan. Mr. Hicks' years of service under the Retirement Plan and the Excess Plan are less than the number of years of credited service under the SERP because of the requirement that an employee must complete a year of eligibility service before becoming eligible for participation in these plans.

Trust Agreement for Certain Benefit Plans

The Company has established a trust for certain benefit plans, arrangements, and agreements, including the Supplemental Executive Retirement Plan, the Foot Locker Excess Cash Balance Plan, the executive employment agreements, and other benefit plans, agreements or arrangements that may be covered at a later date (collectively, the Benefit Obligations). Under the trust agreement, if there is a Change in Control of the Company (as defined in the Trust agreement), the trustee would pay to the persons entitled to the Benefit Obligations the amounts to which they may become entitled under the Benefit Obligations. Upon the occurrence of a Potential Change in Control of the Company as defined in the trust agreement, the Company is required to fund the trust with an amount sufficient to pay the total amount of the Benefit Obligations. Following the occurrence, and during the pendency, of a Potential Change in Control, the trustee would be required to make payments of Benefit Obligations to the extent these payments are not made by the Company.

ITEMS TO BE VOTED ON BY SHAREHOLDERS

PROPOSAL 1: ELECTION OF DIRECTORS

General

Our Certificate of Incorporation provides that the Board of Directors be divided into three classes serving staggered three-year terms, each class to be as nearly equal in number as the other two. The terms of Maxine Clark and the three directors constituting Class I expire at the 2013 annual meeting. James E. Preston, Allen Questrom, and David Y. Schwartz will retire as directors at the conclusion of the 2013 annual meeting in accordance with the retirement policy for directors, which is described on Page 10. The Board has fixed the number of directors at 9 effective at the conclusion of this annual meeting.

Nominees

During 2012, the Nominating and Corporate Governance Committee (the "Nominating Committee") conducted a search for potential director candidates whose experience, skills, qualifications, and independence met the criteria established by the Nominating Committee and reviewed with the Board. The Nominating Committee collected names of potential candidates from a national director membership firm, a firm providing director recruitment advisory services, and existing Foot Locker directors to develop a list of potential director candidates. The Nominating Committee reviewed and discussed the biographical and other background information on each person it identified as a potential director candidate. The Chair of the Nominating Committee and the Chief Executive Officer conducted interviews with each of the potential candidates prior to presenting Ms. Clark's name to the Nominating Committee for consideration and recommendation to the full Board. Ms. Clark's name was submitted by the Company's Chief Executive Officer.

Ken C. Hicks, Guillermo Marmol, and Dona D. Young will be considered for election as directors in Class I, to serve for three-year terms expiring at the annual meeting in 2016. In order to even out the classes, Maxine Clark will be considered for election as a director in Class III for a two-year term expiring at the annual meeting in 2015. Each nominee has been nominated by the Board of Directors for election and has consented to serve. Mrs. Young and Mr. Hicks were elected to serve for their present terms at the 2010 annual meeting of shareholders, and Mr. Marmol was elected to serve for his present term at the 2011 annual meeting of shareholders. Ms. Clark was elected by the Board to serve for her present term on February 20, 2013. The five remaining directors will continue in office until the expiration of their terms at the 2014 or 2015 annual meeting. If, prior to the annual meeting, any nominee is not able to serve, then the persons designated as proxies for this meeting (Gary M. Bahler, Richard A. Johnson and Lauren B. Peters) will have full discretion to vote for another person to serve as a director in place of that nominee.

The biographies of each of the nominees and the continuing directors contain information regarding the person's service as a director, business experience, director positions held currently and at any time during the last five years, and the experience, qualifications, attributes or skills that caused the Nominating and Corporate Governance Committee and the Board to determine that the person should serve as a director of your company. The ages shown are as of April 4, 2013. There are no family relationships among the directors or executive officers of the Company.

The Board of Directors recommends that shareholders vote FOR the election of the four identified nominees to the Board of Directors.

PROPOSAL 2:
RATIFICATION OF THE APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board of Directors has appointed KPMG LLP as our independent registered public accounting firm for the 2013 fiscal year. We are asking shareholders at this meeting to ratify this appointment of KPMG LLP for 2013.

Representatives of KPMG are expected to be present at the annual meeting and will have an opportunity to make a statement and respond to appropriate questions.

The Board of Directors recommends that shareholders vote FOR Proposal 2.

Audit and Non-Audit Fees

The following table shows the fees we paid to KPMG for the audit of Foot Locker's annual financial statements for 2012 and 2011, as well as the fees billed for other services KPMG provided during these two fiscal years.

Category	2012	2011
Audit Fees (1)	\$ 2,815,000	\$ 2,572,000
Audit-Related Fees (2)	803,000	555,000
Tax Fees (3)	267,000	153,000
All Other Fees	0	0
Total	\$ 3,885,000	\$ 3,280,000

Notes to Audit and Non-Audit Fees Table

- (1) Audit fees consisted of professional services provided in connection with the audit of our annual financial statements, reviews of financial statements included in our Form 10-Qs, as well as work generally

only the independent auditor can reasonably be expected to provide, such as statutory audits.

- (2) Audit-related fees consisted principally of audits of financial statements of certain employee benefit plans and certain due diligence services.

- (3) Tax fees consisted principally of assistance with matters related to tax compliance.

Audit Committee Pre-Approval Policies and Procedures

The Audit Committee has a policy that all audit and non-audit services to be provided by our independent accountants, including services for our subsidiaries and affiliates, are to be approved in advance by the Audit Committee, regardless of the estimated cost for providing such services. Between meetings of the Committee, the Audit Committee has delegated this authority to the Chair of the Committee. In practice, these fees are normally approved by the Committee Chair and reviewed with the Audit Committee at a subsequent meeting. Management reviews with the Audit Committee at regularly scheduled meetings the total amount and nature of the audit and non-audit services provided by the independent accountants, including services for our subsidiaries and affiliates, since the Committee's last meeting. None of the services pre-approved by the Audit Committee or the Chair of the Committee during 2012 utilized the *de minimis* exception to pre-approval contained in the applicable rules of the Securities and Exchange Commission.

Audit Committee Report

In accordance with the charter adopted by the Board of Directors, the Audit Committee assists the Board in fulfilling its oversight responsibilities in the areas of the Company's accounting policies and practices and financial reporting. The Committee has responsibility for appointing the independent accountants. The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting.

The Audit Committee consists of five independent directors, as independence is defined under the rules of The New York Stock Exchange. All of the Committee members meet the expertise requirements under the rules of The New York Stock Exchange.

The Audit Committee held eight meetings in 2012. At its meetings during 2012, the Committee discussed with management, KPMG LLP, the Company's independent registered public accountants, and the Company's internal auditors the assessment of the Company's internal control over financial reporting. The Committee also discussed with KPMG its attestation report and opinion on the Company's internal control over financial reporting contained in the Company's 2012 Annual Report on Form 10-K.

The Audit Committee reviewed and discussed with management and KPMG the audited financial statements for the 2012 fiscal year, which ended February 2, 2013. The Committee also discussed with KPMG the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1, AU Section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Audit Committee, both with and without management present, discussed and reviewed the results of KPMG's examination of the financial statements and the overall quality of the Company's financial reporting.

The Audit Committee obtained from KPMG the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence, and has discussed with KPMG its independence and any relationships that may affect its objectivity. The Audit Committee also considered whether the non-audit services provided by KPMG to the Company are compatible with maintaining KPMG's independence. The Committee has satisfied itself that KPMG is independent.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in Foot Locker's Annual Report on Form 10-K for the 2012 fiscal year.

PROPOSAL 3:
APPROVAL OF THE 2013 FOOT LOCKER EMPLOYEES STOCK PURCHASE PLAN

The Board of Directors has adopted, subject to shareholder approval, the 2013 Foot Locker Employees Stock Purchase Plan (the "2013 Stock Purchase Plan"). We are seeking shareholder approval of this plan as the last purchase date under the currently existing 2003 Employees Stock Purchase Plan (the "Current Plan") is June 1, 2013, and the Company believes that continuing to offer a plan through which eligible employees may choose to purchase shares of Foot Locker's stock at a favorable price enhances our employees' interest in the continued success of the Company.

We are asking shareholders at this meeting to approve the 2013 Stock Purchase Plan, which is substantially the same as the Current Plan. We are seeking an authorization of 3 million shares of the Company's common stock under the new 2013 Stock Purchase Plan the same number as authorized under the Current Plan taking into consideration the expected ten-year life of the new plan and the employee purchase history over the last three years under the Current Plan. Participants in the Current Plan purchased 278,212 shares, 336,116 shares, and 218,362 shares on the annual purchase dates in 2010, 2011 and 2012, respectively. Based on the historic and projected future purchase patterns of participants in the Current Plan, the Board of Directors currently estimates that 3 million shares will be sufficient for the life of the 2013 Stock Purchase Plan.

For additional information on the Company's share-based compensation, including with regard to the Current Plan, please refer to Note 21 to the Company's financial statements in our 2012 Form 10-K.

Current Stock Purchase Plan

Under the Current Plan shareholders authorized the issuance of an aggregate of 3 million shares of common stock for purchase by eligible employees (as defined in that plan) of the Company and certain of its subsidiaries and divisions. Purchases of shares are made through payroll deductions, which may not exceed ten percent of a participating employee's compensation (as described in the Current Plan). Officers of the Company, if otherwise eligible, may participate in the Current Plan. The price at which shares may be purchased under the Current Plan is 85 percent of the lesser of the fair market value of a share of common stock on one of two specified dates in each plan year. A participant may not purchase shares of stock having, in the aggregate, a fair market value greater than \$25,000 under the Current Plan during any calendar year.

Out of the 3 million shares authorized under the Current Plan, a total of 1,496,407 shares were purchased by participating employees from June 1, 2004 through June 1, 2012, leaving a total of 1,503,593 shares currently available for purchase. The Current Plan will automatically terminate after the annual purchase date in 2013, which is June 1, 2013. No further shares may be purchased under the Current Plan after June 1, 2013, and any shares remaining in the Current Plan following the 2013 purchase date will not be carried over into the new plan. If shareholders approve the 2013 Stock Purchase Plan, we anticipate that the first date that shares of common stock will be purchased under the new plan will be on the annual purchase date in 2014.

Material Features of the 2013 Stock Purchase Plan

The following is only a summary of the principal features of the 2013 Stock Purchase Plan. This summary is qualified in its entirety by the complete text of the plan, which is attached as Appendix A. Capitalized terms used in this summary but that are not defined here have the meanings contained in the 2013 Stock Purchase Plan.

Purpose of the Plan. The 2013 Stock Purchase Plan is designed to provide eligible employees of Foot Locker and participating subsidiaries a convenient opportunity to purchase shares of the Company's common stock at a favorable price by means of payroll deductions. The 2013 Stock Purchase Plan is intended to enhance our employees' interest in the continued success of the Company, its subsidiaries and divisions, and to encourage employees to remain in the employ of the Company.

Administration. The 2013 Stock Purchase Plan is administered by the Compensation and Management Resources Committee of the Board of Directors, or a subcommittee thereof. This Committee is appointed by the Board and, under the 2013 Stock Purchase Plan, is required to consist of at least three non-employee members of the Board. The Committee has the authority to make, administer and interpret any rules and regulations regarding the Plan. The Board has the authority to add and remove members on the Committee, and to function as the Committee if no committee exists with the authority to administer the Plan.

Shares Offered. Under the 2013 Stock Purchase Plan, the Company is offering an aggregate of 3 million shares of common stock, subject to adjustment as provided below, for purchase by eligible employees. The shares to be issued under the 2013 Stock Purchase Plan may be either authorized and unissued shares or issued shares held in or acquired for the Company's treasury account.

Eligible Employees. Each full-time employee of the Company or any participating subsidiary, who has continuously been a full-time employee of the Company or any participating subsidiary for at least three months, becomes an eligible employee under the 2013 Stock Purchase Plan as of the first date of grant following the completion of three months of employment. A full-time employee is one whose customary employment is not less than 20 hours per week and for not less than five months during any calendar year. As of February 2, 2013, there were approximately 3,929 eligible employees. Officers of the Company, provided they meet the eligibility requirements, may become eligible employees and participants under the 2013 Stock Purchase Plan. The non-employee directors of the Company may not participate in this plan.

Participating Subsidiaries. All subsidiaries of the Company substantially all of whose operations are conducted in the United States, except those specifically excluded by the Committee, and all other subsidiaries that are designated by the Committee, are participating subsidiaries whose employees are eligible to participate in the Plan, as long as such employees meet the other eligibility requirements.

Option to Purchase Shares. Each person who is an eligible employee on the date of grant in each plan year is automatically granted, as of that date, a non-cumulative option to purchase, on the annual purchase date in that plan year, up to but not more than that number of full shares of common stock determined by dividing \$25,000 by the fair market value of a share on that date of grant. Options may be exercised only on the annual purchase date in the plan year in which they are granted, and may not be carried into any subsequent plan year.

Purchase of Shares. On the annual purchase date in each plan year, each participant in the 2013 Stock Purchase Plan who has accumulated sufficient payroll deductions (and accumulated interest thereon) is deemed to have exercised the option to purchase the shares at the purchase price. The purchase price of a share in each plan year is the lesser of 85 percent of the fair market value on the date of grant or 85 percent of the fair market value on the annual purchase date in that plan year. Fair market value is the average of the high and low prices of a share of common stock on the Composite Tape for New York Stock Exchange Listed Stocks, as reported by *The Wall Street Journal*.

Limitation on Payroll Deductions. A participant may authorize payroll deductions during any plan year up to but not exceeding 10 percent of his or her annual earnings for that plan year. A participant's total purchase deductions, which are applied to purchase shares upon the exercise of his or her option on an annual purchase date, consist of the amount of payroll deductions made on behalf of the participant during a plan year plus accumulated interest on the payroll deductions. Interest, which is compounded quarterly, is paid on the amount of each participant's accumulated payroll deductions at the rate of the Company's cost for short-term funds as of the Friday before the date of grant, or as otherwise determined from time to time, by the Committee administering the 2013 Stock Purchase Plan.

Adjustment. The number of shares offered for purchase under the 2013 Stock Purchase Plan will be adjusted by the Board of Directors of the Company in the event of any subdivision of outstanding shares of common stock, the payment of a stock dividend, any reclassification of the common stock or any similar change affecting the Company's capital structure.

Effective Date. If shareholders approve the 2013 Stock Purchase Plan, the first date of grant under this plan will be June 1, 2013 and the first date of purchase will be June 1, 2014. Unless sooner terminated for any reason by the Board, no options will be granted under the 2013 Stock Purchase Plan,

and the plan will automatically terminate, immediately after the 2023 annual purchase date or such earlier date on which all of the shares offered under this plan have been purchased by participants. If the Board terminates the 2013 Stock Purchase Plan on any date during any plan year other than the defined annual purchase date in June, then the termination date will be deemed to be the annual purchase date for that plan year, and the 2013 Stock Purchase Plan will terminate immediately after such date.

Amendment or Termination of Plan. The Board may amend, modify, suspend, or discontinue the 2013 Stock Purchase Plan for any purpose required or permitted by law; provided, however, that no such amendment or modification shall (a) increase the number of shares offered under the plan (other than as provided above with respect to adjustments in cases of changes affecting the Company's common stock), or (b) decrease the purchase price per share without the approval of the requisite vote of the Company's shareholders.

U.S. Federal Income Tax. The option to purchase shares of common stock under the 2013 Stock Purchase Plan is intended to be an option granted pursuant to an employee stock purchase plan, as defined under Section 423 of the Internal Revenue Code. An employee who participates in the 2013 Stock Purchase Plan will not realize taxable income when the Company grants an option to purchase shares under the terms of the plan or when the employee exercises the option. If a participant holds his or her shares for more than one year after the annual purchase date (or, if the plan is terminated before the annual purchase date, for two years after the date of grant) or dies while owning the shares, an amount equal to the lesser of (i) the 15 percent discount from the fair market value of the shares on the date of grant or (ii) the excess of the sale price for the shares that are sold, or in the cases of death or other disposition, the fair market value of the shares on the date of death or other disposition, over the amount paid for the shares is taxable to the participant as ordinary income in the year of the sale, other disposition, or death. If the shares are held for the required periods, the Company will not be entitled to a deduction for federal income tax purposes upon the granting or exercise of the option by the participant.

If a participant sells or otherwise disposes of his or her shares within one year after the annual purchase date, the excess of the fair market value of the shares on the annual purchase date over the purchase price is recognized by the participant as ordinary income at the time of the sale or other disposition. The Company will be entitled to a tax deduction in an amount equal to the ordinary income recognized by the participant. In addition, for sales both within and after one year of the annual purchase date (but not in cases of death or other dispositions), capital gain or loss must be recognized in the year of sale. The amount of gain or loss is equal to the difference between the sale price and the sum of the purchase price plus the amount of ordinary income calculated above.

Miscellaneous.

All funds received or held by the Company under the 2013 Stock Purchase Plan may be used for the Company's general corporate purposes.

Rights and options granted under the 2013 Stock Purchase Plan are not transferable or assignable. Except as otherwise provided below, an employee's rights and any option granted to such employee under the 2013 Stock Purchase Plan shall terminate if and when he or she ceases to be an employee for any reason, and all amounts standing to his or her credit under this plan as of the employment termination date shall be refunded to the person. However, if an employee retires on any date permitted under the Company's or any subsidiary's retirement plan, or ceases to be a full-time employee due to a long-term disability covered by a long-term disability benefit plan of the Company or any subsidiary, and the effective date of such retirement or cessation of employment is within four months prior to the annual purchase date in a plan year, such person may continue to be a participant under the 2013 Stock Purchase Plan through and including the annual purchase date in that plan year, except that payroll deductions will stop as of the termination date, and such person may exercise his or her option to purchase shares on such date at the purchase price.

No employee may be granted an option under the 2013 Stock Purchase Plan if the employee, immediately after the option is granted, owns stock possessing 5 percent or more of the total combined voting power or value of all classes

of stock of the Company.

A participant in the 2013 Stock Purchase Plan will have no rights of a shareholder of the Company unless and until the participant purchases one or more shares under this plan and the shares have been issued.

The fair market value of a share of the Company's common stock, determined by calculating the average of the high and low prices of a share of common stock as reported on the Composite Tape for New York Stock Exchange Listed Stocks on April 2, 2013 was \$33.865.

New Plan Benefits. The amounts of future purchases under the 2013 Stock Purchase Plan are not determinable because participation by eligible employees is voluntary; participation depends on each participant's elections and the restrictions of Code Section 423 of the Internal Revenue Code and the 2013 Stock Purchase Plan; and the per-share purchase price depends on the value of the Company's common stock on the date of grant and annual purchase date in each plan year. The table below shows the shares purchased by the named executive officers and other employees under the Current Plan in 2012 through payroll deductions plus accumulated interest on the payroll deductions, at the discounted purchase price of \$21.02.

The Board of Directors recommends a vote FOR Proposal 3.

PROPOSAL 4:
ADVISORY APPROVAL OF EXECUTIVE COMPENSATION

The Board of Directors is asking you to approve, on a nonbinding, advisory basis, the compensation of our named executive officers, as described in this proxy statement on Pages 23 through 67. This advisory say-on-pay vote is required under Section 14A of the Securities Exchange Act of 1934, as amended. Consistent with the preference expressed by a majority of our shareholders in 2011, we currently hold our say-on-pay vote every year. Shareholders will have an opportunity to cast an advisory vote on the frequency of say-on-pay votes at least every six years. The next advisory vote on the frequency of the say-on-pay vote will occur no later than 2016.

As described in detail under the heading Compensation Discussion and Analysis beginning on Page 23, our compensation program is designed to attract, motivate and retain talented retail executives in order to maintain and enhance the Company's performance and its return to shareholders. In order to accomplish this, we have a compensation program for our executives, including the named executive officers, that ties pay closely to performance. A significant portion of the compensation provided to the named executive officers is based upon the Company's performance or the performance of our share price, and we believe this compensation structure closely aligns the interests of our named executive officers with the interests of our shareholders. The more senior an executive's position, the greater portion of his or her compensation that is tied to performance. We believe you should read the Compensation Discussion and Analysis and the compensation tables beginning on Page 37 and also consider the following factors in determining whether to approve this proposal:

Significant Stock Ownership Requirements. The Company's Stock Ownership Guidelines require that the named executive officers hold a significant amount of the Company's Common Stock as a percentage of their base salaries. Mr. Hicks is required to hold six times his annual base salary; Ms. Peters and Messrs. Johnson and McHugh are required to hold three times

their annual base salaries; and Mr. Bahler is required to hold two times his annual base salary. Each of the named executive officers has met or exceeded these guidelines.

Pay for Performance

Culture. Our executive compensation program is designed to reinforce our pay-for-performance culture. Payouts under our annual bonus and long-term bonus plans are earned only if the Company performs.

Earned Payouts for Performance.

Based upon the Company's performance, payments were made to the named executive officers under the Annual Bonus Plan for 2012. Long-term incentive payouts were earned for the 2011-2012 performance measurement period and will be paid out in 2014. As described on Page 24 of the Compensation Discussion and Analysis, our long-term incentive program is based on a two-year performance measurement period with an additional

one-year holding
period, payable
one-half in cash and
one-half in equity if
the goals are
achieved.

The vote on this resolution is not intended to address any specific element of compensation; rather, the vote relates to the compensation of our named executive officers, as described in this proxy statement in accordance with the compensation disclosure rules of the Securities and Exchange Commission. The vote is advisory, which means that the vote is not binding on the Company, our Board of Directors or the Compensation and Management Resources Committee of the Board of Directors. Our Board of Directors and the Compensation and Management Resources Committee values the opinions of all of our shareholders. The Compensation and Management Resources Committee will review and consider the results of this advisory vote. It is currently expected that shareholders will be given an opportunity to cast an advisory vote on this topic annually, with the next opportunity occurring in connection with the Company's 2014 annual meeting.

The Board of Directors recommends approval of the following resolution:

RESOLVED, that the Company's shareholders approve, on an advisory basis, the compensation of our named executive officers, as disclosed in the Company's Proxy Statement for the 2013 Annual Meeting of Shareholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the 2012 Summary Compensation Table, and the other related tables and disclosures.

The Board of Directors recommends a vote FOR Proposal 4.

**PROPOSAL 5:
SHAREHOLDER PROPOSAL TO REPEAL CLASSIFIED BOARD**

If properly presented, we expect the following proposal (Proposal 5 on the proxy card and voting instruction form) to be presented at the Annual Meeting on behalf of the Treasurer of the State of North Carolina Equity Investment Fund Pooled Trust (the Shareholder Proponent), represented by the North Carolina State Treasurer, 325 North Salisbury Street, Raleigh, North Carolina 27603. The Company has been informed that the Shareholder Proponent is the owner of 274,610 shares of the Company's Common Stock.

Resolution Proposed by Shareholder:

PROPOSAL TO REPEAL CLASSIFIED BOARD

RESOLVED, that shareholders of Foot Locker, Inc. urge the Board of Directors to take all necessary steps (other than any steps that must be taken by shareholders) to eliminate the classification of the Board of Directors and to require that all directors elected at or after the annual meeting held in 2014 to be elected on an annual basis. Implementation of this proposal should not prevent any director elected prior to the annual meeting held in 2014 from completing the term for which such director was elected.

Shareholder's Supporting Statement:

SUPPORTING STATEMENT

The proponent of this resolution is the State of North Carolina Equity Investment Fund Pooled Trust. The Shareholder Rights Project submitted the resolution on behalf of the North Carolina State Treasurer.

The resolution urges the board of directors to facilitate a declassification of the board. Such a change would enable shareholders to register their views on the performance of all directors at each annual meeting. Having directors stand for elections annually makes directors more accountable to shareholders, and could thereby contribute to improving performance and increasing firm value.

According to data from FactSet Research Systems, the number of S&P 500 companies with classified boards declined by more than two-thirds from 2000 to 2012, and during the period January 1, 2011 to June 30, 2012:

More than 50
S&P 500
companies
brought
management
proposals to
declassify their
boards to a vote
at annual
meetings;

More than 50
precatory
declassification
proposals
passed at annual

meetings of
S&P 500
companies; and

The average
percentage of
votes cast in
favor of
shareholder
proposals to
declassify the
boards of S&P
500 companies
exceeded 75%.

The significant shareholder support for declassification proposals is consistent with empirical studies reporting that:

Classified boards
are associated
with lower firm
valuation
(Bebchuk and
Cohen, 2005;
confirmed by
Faleye (2007)
and Frakes
(2007));

Takeover targets
with classified
boards are
associated with
lower gains to
shareholders
(Bebchuk,
Coates, and
Subramanian,
2002);

Firms with
classified boards
are more likely to
be associated
with
value-decreasing
acquisition
decisions
(Masulis, Wang,
and Xie, 2007);
and

Classified boards
are associated
with lower
sensitivity of
compensation to
performance and
lower sensitivity
of CEO turnover
to firm
performance
(Faleye, 2007).

Although one study (Bates, Becher and Lemmon, 2008) reports that classified boards are associated with higher takeover premiums, this study also reports that classified boards are associated with a lower likelihood of an acquisition and that classified boards are associated with lower firm valuation.

Please vote for this proposal to make directors more accountable to shareholders.

Company's Statement in Opposition to Shareholder's Proposal:

The Board has carefully considered this proposal and believes that it is **not** in the best interest of our shareholders. Consequently, the Board of Directors unanimously recommends that shareholders vote **Against** this proposal.

The Foot Locker Board takes very seriously our commitment, accountability, and fiduciary duty to **all** of the Company's shareholders. Foot Locker has had a classified board where at least one third of the full board stands for election at each annual meeting of shareholders for many years in accordance with our Certificate of Incorporation that was adopted in a transaction approved by shareholders. Nevertheless, this classified structure is regularly reviewed and assessed by the Board as part of its overall corporate governance review. The shareholder proponent is represented and advised by an academic, law school clinical program that has represented a number of institutional investors on board declassification proposals at a wide array of companies. Our Board views important governance considerations, such as the classified board structure, through a Foot Locker-specific prism. What may be right for other companies may not be right for Foot Locker. We believe our shareholders should expect a company-specific focus from the Board as your investment is with Foot Locker.

The Board continues to believe that the classified board is appropriate for Foot Locker and is in the best interest of all shareholders for the following reasons.

Accountability.

Directors who serve on a classified board are equally accountable to shareholders as directors who are elected annually.

Director accountability and fiduciary responsibility exist not only in an election year but are inherent, continuous duties of **each director** in **each class** in **each year** of their class terms.

Continuity of Board

Leadership. We

strongly believe that a classified board provides the additional benefits of stability, continuity of board leadership, and institutional knowledge of our long history as a retailer and our strategic vision to be the world's leading retailer of athletically inspired footwear and apparel. By its very nature, a classified board ensures that at any given time there will be experienced directors serving on our board who are fully immersed in and knowledgeable about our business plans, competition, trends, opportunities, risks, and challenges. Each year the Nominating and Corporate Governance Committee of the Board reviews the qualifications and performance

of the directors
prior to
nominating them
to stand for
re-election. We
believe the
benefit of a
classified board
to the Company
and our
shareholders
comes not from
continuity
alone but rather
from the
continuity of
highly qualified,
engaged, and
committed
directors focused
on long-term
shareholder
interests.

Independence.

The Board
believes that a
significant
majority of its
members should
be independent.
Currently, 11 out
of our 12
directors are
independent. We
believe that
having a
classified board,
with directors
elected to serve
over multi-year
terms, enhances
independence,
both from
management and
special interest
groups whose
particular
agenda or goals
may be of
interest to

certain
shareholders but
may not be in
the best interest
of all of our
shareholders.

**Unsolicited
Takeover**

Protection. A
classified board
structure can
help to **protect**
our shareholders
in the event of
an unsolicited
takeover offer.
Because less
than a majority
of directors
stand for
election at each
annual meeting
under a
classified board
structure, a
hostile bidder
could not simply
replace a
majority of the
board at a single
annual meeting
with directors
aligned with the
hostile bidder's
interests, thereby
gaining control
of the Company
without paying a
fair market price
to all
shareholders.
Rather, in the
interests of
fairness to
shareholders,
having a
classified board
encourages the
hostile bidder to
negotiate

directly with the Board on a potential transaction. The Board would be in a better position to vigorously negotiate with the hostile bidder to achieve the best possible terms and value for all of our shareholders.

A 2007 study by researchers found that target shareholders of firms with classified boards receive a larger proportional share of the total value gains from a merger relative to the gains of target shareholders of firms with a declassified board. Overall, the evidence is inconsistent with the view that board classification is associated with managerial entrenchment, and instead suggests that classification may improve the relative bargaining power of target managers on behalf of their constituent shareholders. (Bates, Becher and Lemmon, *Board Classification and Managerial Entrenchment: Evidence from the Market for Corporate Control* (April

2007) at Page

3.)

It is important to remember that your vote on this proposal and your investment is only about Foot Locker. Over the past several years, Foot Locker has benefitted from the accountability, independence, and continuity of experienced leadership provided by our Board of Directors. **In 2012, with the guidance and under the oversight of our Board, we achieved record sales, margin, earnings before interest and taxes, and earnings per share each of which was the highest we have achieved since becoming an athletic company.**

For all of the reasons stated above, the Board strongly believes that the proponent's proposal is not in the best interests of the Company and its shareholders and unanimously recommends that shareholders vote **Against** this proposal.

6. CHANGES IN PAYROLL DEDUCTIONS

- (a) A Participant may increase or decrease the amount of his or her payroll deduction (within the minimum and applicable maximum set forth above in Section 5) by submitting a change authorization form, in the form and pursuant to the written instructions prescribed, from time to time, by the Committee. The date referred to in the preceding sentence may be changed by the Committee at any time and from time to time. An authorization to change the amount of payroll deductions shall take effect as soon as it is processed by the Company.

- (b) Unless and until a Participant (i) files a change authorization form; (ii) withdraws from the Plan by submitting a withdrawal notice; or (iii) is deemed to have delivered a withdrawal notice as

Except as otherwise provided in this section, a Participant may, at any time, elect to terminate his or her participation in the Plan and withdraw all amounts standing to his or her credit under the Plan. Such termination and withdrawal shall be effected by submitting a withdrawal notice in the form and pursuant to the written instructions prescribed, from time to time, by the Committee. A withdrawal notice shall take effect as soon as it is processed by the Company. No partial withdrawals of amounts credited to a Participant under the Plan shall be made. A Participant who terminates his or her participation in the Plan may reenter the Plan (subject to any restrictions imposed by Section 16(b) of the Securities Exchange Act of 1934, as amended (the "1934 Act")) and again become a Participant by submitting a new authorization form (provided he or she is an Eligible Employee at the time of the submission), but may reenter the Plan only once during the Plan Year.

8. INTEREST ON PAYROLL DEDUCTIONS

- (a) An account shall be maintained by the Company for the payroll deductions made by each Participant. Interest, compounded quarterly, shall be paid on each account. There shall be credited to each account, on the last day of each quarter in each Plan Year (such quarters to end on the last day of each August, November, February and May), interest on the average of the balances in each account on the first and last days of each quarter. The rate of interest shall be the rate of the Company's cost for short-term funds as of the Friday

before the
Date of
Grant, or as
otherwise
determined
from time to
time, by the
Committee in
its sole
discretion.

A-3

- (b) No interest shall be paid on any account in any quarter if there is no balance in the account on the last day of the quarter. If an account is established during a quarter, interest for the full quarter shall be credited to the account on the last day of the quarter on one-half of the quarter-ending balance in the account.

9. GRANT OF OPTION

Each person who is an Eligible Employee on the Date of Grant in each Plan Year (and who has submitted an authorization form) shall automatically be granted, as of the Date of Grant (subject to the limitations described in Section 20 concerning the number of Shares that may be purchased by any person under the Plan), a non-cumulative option to purchase on the Annual Purchase Date in the Plan Year up to, but no more than, that number of full Shares determined by dividing \$25,000 by the Fair Market Value of a Share on such Date of Grant. Options may be exercised only on the Annual Purchase Date in the Plan Year in which options are granted, and may not be carried into any subsequent Plan Year.

10. PURCHASE OF SHARES

- (a) If, on the Annual Purchase Date in a Plan Year, a Participant has sufficient Total Purchase Deductions (as defined in Section 10(b) below) in his or her Plan account to

exercise his or her option to purchase one or more full Shares at the Purchase Price, the Participant shall be deemed to have exercised the option to purchase the Share or Shares at the Purchase Price on the Annual Purchase Date.

(b) Total Purchase Deductions with respect to any Participant means the total amount of payroll deductions held to the credit of a Participant on the Annual Purchase Date in a Plan Year up to, but not exceeding, the 10 percent maximum of Annual Earnings, plus interest on such amount calculated in accordance with Section 8.

(c) If there is a balance remaining to

the credit of a Participant in his or her Plan account immediately after an Annual Purchase Date because such amount does not equal the Purchase Price of one Share on the Annual Purchase Date, such remaining amount (the Carry-Over Amount) shall be carried over to the credit of a Participant in the following Plan Year.

- (d) Shares to be delivered to a Participant under the Plan shall be registered solely in the name of the Participant or, at the election of the Participant, in the name of the Participant and his or her spouse or other adult family member as joint tenants with rights of survivorship.

- (e)

The Committee reserves the right to designate a registered broker-dealer to open and maintain a separate account for each Participant, in which the Shares purchased by such Participant pursuant to the Plan will be held. The Committee reserves the right to make and/or change such designation of a broker-dealer at any time without prior notice to Participants. Should the Committee elect to designate a broker-dealer, the Committee shall recognize each Participant's ownership of Shares through uncertificated book entry or another similar method. In such case,

such
uncertificated
Shares shall
be credited to
a book entry
account
maintained by
the designated
broker-dealer
on behalf of
the
Participant.
The
Committee
may adopt
such policies
and
procedures for
the Plan as it
determines is
appropriate,
including
policies and
procedures
regarding the
transfer of
Shares from a
Participant's
account
maintained by
the
broker-dealer
before those
Shares have
been held for
the requisite
period
necessary to
avoid a
disqualifying
disposition of
such Shares
under the U.S.
federal tax
laws.

11. SHAREHOLDER RIGHTS

None of the rights and privileges of a shareholder of the Company shall exist with respect to any person who is an Eligible Employee or a Participant under the Plan until that person purchases one or more Shares under the Plan and the Shares have been issued.

12. RETIREMENT, DEATH, OR OTHER TERMINATION OF EMPLOYMENT

If a Participant retires, dies, terminates his or her employment for any other reason, fails to continue to be a Full-time Employee, or the Participating Subsidiary which employs the Participant ceases to be a Participating Subsidiary, no payroll or other deduction shall be taken from any pay or other amount due and owing to the Participant from and after the effective date of the event, and, except as otherwise provided in Section 21, the balance in the Participant's Plan account shall be paid to the Participant (or, if the Participant dies, to his or her estate) as soon as practicable following the date of death or effective date of such other event.

13. RIGHTS AND OPTIONS NOT TRANSFERABLE OR ASSIGNABLE

Rights and options granted under the Plan are not transferable or assignable by an Eligible Employee or Participant (other than by will or by the laws of descent or distribution), and these rights may be availed of and options may be exercised only by an Eligible Employee or Participant in accordance with the terms of the Plan.

14. APPLICATION OF FUNDS

All funds received or held by the Company under the Plan may be used for the Company's general corporate purposes, and the Company shall not be obligated to segregate such payroll deductions.

15. AMENDMENT, MODIFICATION, SUSPENSION OR DISCONTINUANCE OF THE PLAN

The Board or the Committee may, from time to time, amend, modify, suspend, or discontinue the Plan at any time; provided, however, that no such amendment or modification shall (a) increase the number of Shares to be offered under the Plan (other than as provided in Section 19), or (b) decrease the Purchase Price per Share, without the approval by the requisite vote of the shareholders of the Company. Notwithstanding the foregoing, if shareholder approval of an amendment or modification is required to comply with Section 423 of the Code or to comply with any applicable law, regulation or stock exchange rule, such amendment or modification shall not be effective unless approved by the requisite vote of the shareholders of the Company.

16. COMMENCEMENT OF THE PLAN

The Plan shall commence on June 1, 2013, which date shall be the first Date of Grant under the Plan, subject, however, to the approval of the Plan by the shareholders of the Company at their annual meeting in 2013. If the Plan is not so approved, the Plan shall not become effective.

17. TERMINATION OF PLAN

- (a) The Board or the Committee may terminate the Plan at any time. Notice of termination shall be given to Participants, but any

failure to give notice shall not impair the effectiveness of the termination.

- (b) No options shall be granted under the Plan, and the Plan will automatically terminate, immediately after (a) the Annual Purchase Date in 2023, or (b) the date that all of the Shares offered under the Plan have been purchased by Participants in the Plan, whichever date is earlier. If, at any time, Shares remain available for purchase under the Plan but not in sufficient number to satisfy all Participants options on a Date of Grant, the Committee may determine an equitable basis of apportioning available

Shares among
the
Participants in
compliance
with Section
423(b)(5) of
the Code.

- (c) If the Board
or the
Committee
terminates the
Plan on any
date in any
Plan Year
other than the
Annual
Purchase
Date, the date
of termination
shall be
deemed to be
the Annual
Purchase Date
in that Plan
Year and the
Plan shall
terminate
immediately
after that date.

A-5

- (d) Upon termination of the Plan, the amount standing to the credit of each Participant in his or her Plan account shall be paid to the Participant as soon as practicable following the termination.

18. THE COMMITTEE

- (a) The Plan shall be administered by the Committee, which shall be intended to consist of not less than three members who are non-employee directors, as that term is defined in Rule 16b-3(b)(3) under the 1934 Act. The Board may, from time to time, remove members from, or add members to, the Committee. Vacancies on the Committee shall be filled by the Board. Notwithstanding the foregoing, if and to the extent

that no committee exists which has the authority to administer the Plan, the functions of the Committee shall be exercised by the Board. If for any reason the appointed Committee does not meet the requirements of Rule 16b-3(b)(3), such noncompliance with the requirements of Rule 16b-3(b)(3) shall not affect the validity of the awards, grants, interpretations or other actions of the Committee.

- (b) The Committee is vested with full authority to make, administer, and interpret such equitable rules and regulations regarding the Plan as it may deem advisable. The Committee may adopt special guidelines and provisions with regard to persons who reside in, or are subject to the laws of, any jurisdiction outside of the

United States to comply with applicable tax and securities laws. The Committee's determination as to the interpretation and operation of the Plan, or any option granted under it, shall be final, conclusive and binding, unless otherwise determined by the Board. No member of the Board or the Committee shall be liable for any action or determination made in good faith by such member with respect to the Plan or any option granted under it.

- (c) The Committee may act by a majority vote at a meeting of the Committee or by a document signed by all of the members of the Committee.
- (d) The Committee may employ such legal counsel, consultants, brokers and agents as it may deem desirable for the

administration of the Plan and may rely upon any opinion received from any such counsel or consultant and any computation received from any such consultant, broker or agent. The Committee may, in its sole discretion, designate a broker-dealer to maintain Participant accounts under the Plan, designate an agent to administer the Plan, purchase and sell Shares in accordance with the Plan, keep records, send statements of account to employees and to perform other duties relating to the Plan, as the Committee may request from time to time. If an agent is so designated, the agent may also serve as custodian for purposes of the Plan and, unless otherwise requested by the Participant, Shares purchased under the Plan shall be held by

and in the name of, or in the name of a nominee of, the custodian for the benefit of each Participant, who shall thereafter be a beneficial shareholder of the Company. The Committee may adopt, amend or repeal any guidelines or requirements necessary for the custody and delivery of the Shares, including, without limitation, guidelines regarding the imposition of reasonable fees in certain circumstances.

- (e) The Committee, its members and any person designated pursuant to Section 18(d) shall not be liable for any action or determination made in good faith with respect to this Plan. To the maximum extent permitted by applicable law, no current or former officer of the Company or current or former member

of the Committee or of the Board shall be liable for any action or determination made in good faith with respect to this Plan or any Award granted hereunder. To the maximum extent permitted by applicable law and the Certificate of Incorporation and By-laws of the Company and to the extent not covered by insurance, each current or former officer and each current or former member of the Committee or of the Board shall be indemnified and held harmless by the Company against any cost or expense (including reasonable fees of counsel reasonably acceptable to the Company) or liability (including any sum paid in settlement of a claim with the approval of the Company), and advanced amounts necessary to pay the foregoing at

the earliest time
and to the fullest
extent permitted,
arising out of
any act or
omission to act
in connection
with the Plan,
except to the
extent arising out
of such officer's,
member's or
former member's
own fraud or bad
faith. Such
indemnification

shall be in addition to any rights of indemnification the current and former officers and current and former members of the Committee and of the Board may have under applicable law or under the Certificate of Incorporation or By-laws of the Company or subsidiary. Notwithstanding anything else herein, this indemnification will not apply to the actions or determinations made by an individual with regard to Awards granted to him or her under this Plan.

19. ADJUSTMENTS IN CASES OF CHANGES AFFECTING THE COMPANY'S COMMON STOCK

In the event that (i) there is any change in the capital structure or business of the Company by reason of any stock dividend or distribution, stock split or reverse stock split, recapitalization, reorganization, merger, consolidation, split-up, combination or exchange of Shares, distribution with respect to its outstanding Shares, reclassification of its capital stock, or any similar change affecting the Company's capital structure, and (ii) the Board determines an adjustment is appropriate under the Plan, then the aggregate number of Shares which thereafter may be issued under this Plan, the purchase price thereof, and such other provision of the Plan, shall be appropriately adjusted consistent with such change in such manner as the Board may deem equitable to prevent substantial dilution or enlargement of the rights granted to, or available for, Participants under the Plan or as otherwise necessary to reflect the change, and any such adjustment determined by the Board shall be final, binding and conclusive on the Company and all Participants and employees and their respective heirs, executors, administrators, successors and assigns.

20. LIMITATIONS

Notwithstanding any other provision of the Plan to the contrary, participation in the Plan is subject to the following limitations.

(a)

In
accordance
with Section
423(b)(3) of
the Code, no

or value of
all classes of
stock of his

at any time.

21. TERMINATION OF EMPLOYEE S RIGHTS

- (a) Except as
otherwise
provided below
in this Section
21, an
employee s
rights and any
option granted
to an employee
under the Plan
shall terminate
if and when he
or she ceases to
be an employee
of the Company
or any
Participating
Subsidiary
because of
retirement,
resignation,
layoff,

other reason. A withdrawal notice shall be deemed to have been delivered by the employee on and as of his or her date of death or the effective date of his or her other cessation of employment, and all amounts standing to his credit under the Plan shall be promptly refunded to such person (or, if such person dies, to his or her estate).

- (b) Notwithstanding the foregoing, if a Participant (i) retires on his or her normal retirement date, or on any earlier or later retirement date permitted under the Foot Locker Retirement Plan

(or any
successor
plan thereto)
or the
retirement
plan of a
subsidiary of
the
Company,
whichever

or (ii) ceases
to be a
Full-time
Employee
due to a
long-term

benefit plan
of the
Company or
any
subsidiary of
the
Company,
such person
shall remain
a Participant
under the
Plan through
and including
the Annual
Purchase
Date in the
Plan Year
during which
he or she so
retires or
ceases to be
employed,
unless (A)
the
Participant
delivers a
withdrawal

notice, as provided in Section 6, or (B) the effective date of such retirement or cessation of employment is prior to the February 1 immediately preceding the Annual Purchase Date, in which event such Participant shall cease to be a Participant as of the effective date of such event.

- (c) Payroll deductions with respect to any person who remains a Participant beyond his or her retirement date or date of cessation of employment, as provided in the preceding paragraph, shall cease as of the effective date of such retirement or cessation of employment, as provided

in Section 12;
however,
interest on all
amounts
credited to
the
Participant's
account shall
continue to
accrue in
accordance
with Section
8.

22. COMPANY'S PAYMENT OF EXPENSES RELATED TO THE PLAN

The Company shall bear all of the costs associated with the establishment and administration of the Plan.

23. GOVERNMENT REGULATIONS

The Company's obligations to sell and deliver Shares under the Plan are subject to the approval of any governmental or other authority required in connection with the authorization, issuance, or sale of such Shares. The Plan is a tax-conditioned plan under Section 16(b) of the 1934 Act and to the extent required, the Plan is intended to comply with Rule 16b-3 under the 1934 Act, and the Committee shall interpret and administer the provisions of the Plan in a manner consistent therewith. Any provisions inconsistent with Rule 16b-3 shall be inoperative and shall not affect the validity of the Plan.

24. GOVERNING LAW

The Plan and all determinations made and actions taken pursuant hereto shall be governed by the laws of the State of New York without giving effect to the conflict of laws principles thereof.

25. WITHHOLDING OF TAXES

- (a) If the Participant makes a disposition, within the meaning of Section 424(c) of the Code and regulations promulgated thereunder, of any Share or Shares issued to such Participant pursuant to such Participant's exercise of an option, and such

disposition
occurs within the
two-year period
commencing on
the day after the
Date of Grant or
within the
one-year period
commencing on
the day after the
Annual Purchase
Date, such
Participant shall
immediately, or
as soon as
practicable
thereafter, notify
the Company
thereof and
thereafter
immediately
deliver to the
Company any
amount of
federal, state or
local taxes and
other taxes and
other amounts
which the
Company
informs the
Participant the
Company is
required to
withhold.

- (b) Notwithstanding anything herein to the contrary, the Company or the Participating Subsidiary, as the case may be, shall have the right to make such provisions as it deems necessary to satisfy any obligations to withhold federal,

state, or local
income taxes or
other taxes
incurred by
reason of the
issuance of
Shares pursuant
to the Plan.

Notwithstanding
anything herein
to the contrary,
the Company or
the Participating
Subsidiary may
require a
Participant to
remit an amount
equal to the
required
withholding
amount.

26. NO EMPLOYMENT RIGHTS

The establishment and operation of this Plan shall not confer any legal rights upon any Participant or other person for a continuation of employment, nor shall it interfere with the rights of the Company or any Participating Subsidiary to discharge any employee and to treat him or her without regard to the

effect which that treatment might have upon him or her as a Participant or potential Participant under the Plan.

27. SEVERABILITY OF PROVISIONS

If any provision of the Plan shall be held invalid or unenforceable, such invalidity or unenforceability shall not affect any other provisions hereof, and the Plan shall be construed and enforced as if such provision had not been included.

28. ELECTRONIC ELECTIONS, EXERCISES AND TRANSACTIONS

Any election, exercise or other transaction hereunder that is required to be made in writing may, to the extent determined by the Committee, be made, delivered and accepted electronically.
