To the Pension, Savings and Flexible Compensation Committee

First Horizon National Corporation Savings Plan

Memphis, Tennessee

We have audited the accompanying statements of net assets available for benefits of the First Horizon National Corporation Savings Plan (the "Plan") as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. Supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2012, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the

basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

/s/ Mayer Hoffman McCann P.C.

First horizon National corporation savings plan

Notes to Financial Statements

December 31, 2012 and 2011

(1) Plan Description

The following description of First Horizon National Corporation Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution retirement savings plan established April 23, 1978, for qualified employees of First Horizon National Corporation and certain affiliates (the Company or Plan Sponsor) to provide a savings plan for those employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Since inception, the Plan agreement has been amended periodically to conform with provisions of ERISA and other laws and regulations. The Plan is administered by the Pension, Savings and Flexible Compensation Committee of the Company. Wilmington Trust serves as trustee of the Plan. Pursuant to the Plan document, certain retirees are allowed to segregate and direct their accounts into investments outside the investment options available to active participants and defer payment of benefits. These segregated accounts are presented in a single line item in the financial statements and are trusteed by First Tennessee Bank National Association (FTBNA), the Company's primary affiliate. Hewitt Associates (now Aon Hewitt) is the recordkeeper of the Plan.

Effective April 1, 2011, two new funds were added to the Plan. Lord Abbett Developing Growth Fund (LADYX) replaced the Copper Rock Emerging Growth Fund (OMIRX) and Thornburg International Value Fund (TIVRX) replaced the Harbor International Equity Fund (HAINX). Any funds remaining in the two funds being eliminated were mapped to the fund replacing them respectively.

Effective July 1, 2011, a Self-Directed Brokerage Account (SDBA) was offered within the Plan.

Effective October 1, 2012, the plan replaced the Royce Premier Fund (RYPRX) with Royce Premier Fund Institutional Class Shares (RPFIX). Any funds remaining in the fund being eliminated were mapped to the replacement fund.

(a) Contributions

Under the terms of the Plan, full-time employees are eligible to participate in the Plan immediately. Part-time employees are eligible to participate upon completion of twelve months of service in which they have worked 1,000 hours or more. A participant may authorize payroll deductions from 1% to 60% of eligible pay (subject to certain legal limitations) as contributions, to be invested as authorized by the participant. The Plan allows participants to make Pre-tax and Roth contributions (from 1% to 50% of eligible pay) and other after-tax contributions (from 1% to 10% of eligible pay). Participants may also rollover amounts representing distributions from other defined benefit and/or defined contribution plans. Participants direct their contributions into various investment options offered by the Plan and may elect to change their investment authorizations at any time.

Effective January 1, 2011, the Plan provided a 1% automatic enrollment feature.

First horizon National corporation savings plan

Notes to Financial Statements

December 31, 2012 and 2011

1) Plan Description (continued)

The Company makes three types of contributions on behalf of participants to the Plan.

Company matching contributions - After one year of service all participants are eligible for matching contributions. All participants receive 50% of the first 1% to 6% of participant pre-tax and Roth 401(k) contributions and are invested in the First Horizon National Corporation Stock Fund (ESOP). These contributions may be redirected into the other investment options within the plan. These contributions are 100% vested at all times.

Company savings contributions – The Company provides Flexible Dollars to employees to spend on benefits or to deposit into the Plan. Participants' Flexible Dollars deposited into the Plan are identified as Company savings contributions and are not eligible for matching contributions. These contributions are 100% vested at all times.

The Company may also make Employer Non Elective Contributions (ENEC) for employees who are not participants in the First Horizon Pension Plan. ENEC contributions, which are based upon Company performance from the previous year, are determined annually as a percentage of an eligible participant's eligible earnings. These contributions are subject to a two year vesting schedule at which point they become 100% vested.

(b) Payment of Benefits

On termination of service due to death, disability, retirement or termination of service for other reasons, a participant or beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account, or a direct rollover into an eligible retirement plan, as defined. Qualified retirees are also given the option of partial distributions, with such distributions limited to four per calendar year. The Plan also provides for in-service and hardship withdrawals. A participant may request a withdrawal of all or part of their after-tax, rollover and vested ENEC contributions at any time. Upon obtaining the age of 59 ½, a participant may request a withdrawal of all or a portion of the value of their vested account. Hardship withdrawals are allowed at any time for certain financial needs, as defined. Account balances invested in the ESOP may be received in the form of shares of Company common stock.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions and Plan earnings or losses, and is charged with an allocation of asset management fees and certain other recordkeeping expenses. Allocations are based upon participant contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Participants who rolled over 9 will be allowed to keep the outstanding loans.
	(2)	Summary of Significant Accounting Policies

Basis of Accounting

(a)

The financial statements of the Plan are prepared under the accrual method of accounting, with the exception of benefit payments which are recorded when paid.

As described in Accounting Standard Codification 962 ("ASC 962"), formerly known as Financial Accounting Standards Board (FASB) Staff Position AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investments in fully benefit-responsive investment contracts are required to be presented at fair value. However, contract value is the relevant

Notes to Financial Statements

December 31, 2012 and 2011

(2) Summary of Significant Accounting Policies (continued)

measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit responsive contracts in the stable value fund. As required by ASC 962, the accompanying Statements of Net Assets Available for Benefits present the fair value of the investments in the stable value fund as well as the adjustment to contract value relating to the investment contracts. The accompanying Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments in mutual funds are recorded at fair value based on the funds' reported closing net asset values as of the last business day of the year. The mutual funds held by the plan are deemed to be actively traded. Investments in money market funds are stated at fair value based on the closing net asset value of shares held by the Plan at year end. The investment in the stable value fund is stated at contract value as determined by the issuer based on the cost of the underlying investments in guaranteed investment contracts plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the stable value fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. The investments in other common/collective trust funds are valued at the closing net asset values determined by the trustees of such funds based upon the fair value of the underlying securities held by a fund less its liabilities. Investments in common stocks are valued at the last reported sales price on the active market on which the individual securities are traded on the last business day of the year. U.S. government agency securities are valued at the mean of the bid and ask prices on the last business day of the year. Investments held in the self-directed brokerage account constitute of a broad array of stocks, mutual funds, money market funds, and partnerships/joint venture interests. Fair

values of these investments are determined based on evaluated prices using observable, market-based inputs such as data from Interactive Data. There were no changes in the valuation methodologies used at December 31, 2012 and 2011.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or future fair values. Furthermore, although plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(e)	Benefit Payments		
Benefits paid to participants or benefic	taries are recognized when paid.		
(f)	Administrative Expenses		

Administrative expenses are recognized when incurred.

(g) Participant Notes Receivable

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

(h) Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are

(5)	Plan Termination
contributions at any time and to termi	ent to do so, the Plan Sponsor has the right under the Plan to discontinue its nate the Plan subject to the provisions of ERISA. In the event of termination, the pants' interests will become fully vested and nonforfeitable.
(6)	Tax Status of Plan

The Internal Revenue Service (IRS) has determined and informed the Plan Sponsor by a letter dated July 23, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receipt of such letter; however, the Plan's management believes that the Plan remains in compliance with the applicable requirements of the IRC. Management is unaware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2009.

Notes to Financial Statements

December 31, 2012 and 2011

(7) Related Party Transactions

Certain plan investments are shares of First Horizon National Corporation common stock and mutual funds and common collective trust funds managed by Wilmington Trust Company. First Horizon National Corporation is the Plan sponsor and Wilmington Trust Company is the trustee and custodian and, therefore, these transactions qualify as party-in-interest transactions.

The Company also provides the Plan with certain management and administrative services for which no fees are charged.

(8) Investments

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2012 and 2011:

	2012	2011
First Horizon National Corporation – common stock	\$103,828,076	\$91,504,126
Blackrock S&P 500 Index Fund	44,896,052	40,643,774
Royce Premier Fund	40,615,402	40,828,374
Dodge & Cox Balanced Fund	29,881,365	27,074,008
Thornburg Int'l Value Fund – R5	25,951,509	24,687,889
Invesco Stable Value Fund	25,761,922	26,858,242
Goldman Sachs Financial Square – money market fund	20,918,449	19,660,714

For the year ended December 31, 2012, the Plan's investments, including gains and losses on investments bought and sold as well as held during the year, appreciated in value by \$41,486,609, as follows:

	2012
First Horizon National Corporation – common stock fund	\$20,820,489
Common stock	81,957
Common/collective trust funds	9,158,938
Mutual funds/money market funds	11,412,634
Partnerships/joint venture	(12,370)
Segregated participant investments	24,961
	\$41,486,609

First horizon National corporation savings plan

Notes to Financial Statements

December 31, 2012 and 2011

9) Fully Benefit Responsive Investments

The Plan invests in the Invesco Stable Value Trust which is a collective trust fund in the Institutional Retirement Trust. The Trust's primary investment objectives are to provide preservation of principal, maintain a stable interest rate, and provide daily liquidity at contract value for participant withdrawals and transfers. The Trust holds synthetic guaranteed investment contracts (GIC's). The GIC's are portfolios of securities owned by the Trust with wrap contracts associated with the portfolios. The fair value of wrap contracts is determined by Invesco National Trust Company based on issuer ratings determined by reference to credit ratings published by ratings agencies and on the change in the present value of the contract's replacement cost. The contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustment for withdrawals.

The crediting rate on the wrap contracts is accrued daily under the trust's wrap agreements and is the product of the contract value of the wrap agreements multiplied by the crediting rate as determined pursuant to the wrap agreement. The wrapper contract provides that the adjustments to the interest crediting rate will not result in an interest crediting rate that is less than zero. Wrapper contracts' interest crediting rates are typically reset on a monthly or quarterly basis according to each contract.

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract. Management of the trust believes it is not probable that such events would be of sufficient magnitude to limit the ability of the trust to transact at contract value with the participants in the trust.

The average yield of the stable value fund was 0.884% for 2012 and 1.231% for 2011 and the crediting interest rate was 1.816% for 2012 and 1.990% for 2011.

(10) Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

First horizon National corporation savings plan
Notes to Financial Statements
December 31, 2012 and 2011
(10) Fair Value Measurements (continued)
Level Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2 Inputs to the valuation methodology include:

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

(11)Benefits Payable

Included in net assets available for benefits are amounts allocated to individuals who have elected to withdraw from the Plan, but have not been paid as of December 31, 2012 or 2011. Plan assets allocated to these participants were \$624,835 for 2012 and \$87,639 for 2011.

First horizon National corporation savings plan

Notes to Financial Statements

December 31, 2012 and 2011

(12) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 expected to be filed for 2012:

	2012	2011
Net assets available for benefits per the financial statements Less: Benefit payable	\$369,180,332 (624,835)	
Add: Adjustment to contract value	1,035,704	885,508
Net assets available for benefits per the Form 5500	\$369,591,201	\$333,528,799

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 expected to be filed for 2012:

2012

Benefits paid to participants per the financial statements	\$38,541,545	
Less: accrual for prior year	(87,639)	
Add: accrual for current year	624,835	
Benefits paid to participants per the Form 5500	\$39,078,741	

The following is a reconciliation of the total increase (decrease) in net assets of the plan per the financial statements to the Form 5500 expected to be filed for 2012:

Total increase in assets per the financial statements	\$36,449,402
Cumulative adjustment to contract value	150,196
Cumulative benefits payable	(537,196)
Net income (loss) per the Form 5500	\$36,062,402

(13) Subsequent Events Evaluation

Effective January 1, 2013, The Savings Plan company match doubled for all eligible employees. For every dollar contributed to the plan (pre-tax and/or Roth), up to 6 percent of a participant's eligible earnings will be matched 100 percent.

All employees hired on or after January 1, 2013, are now subject to a three-year vesting schedule for the company match at which point the contributions become 100 percent vested.

Effective January 1, 2013, upon the freeze of the Company's qualified pension plan, all employees not participating in a regular bonus program provided by the company are eligible to participate in the ENEC program, assuming contributions are made.

Edgar Filing: FIRST HORIZON NATIONAL CORP - Form 11-K			
First horizon National corporation savings plan			
Notes to Financial Statements			
December 31, 2012 and 2011			
(13) Subsequent Events Evaluation (continued)			
Effective January 1, 2013, the company match follows the participant's current investment elections and is no longer			
invested into company stock.			
In accordance with ASC 855, Subsequent Events, Plan management has evaluated events that have occurred subsequent to the year ended December 31, 2012.
